Nationalism Keynote of Int'l T.U. Congress

The World Trade Union Congress held in London was the first international workers' conference during the war. A sad showing. But just a few days later, the threat of the workers of their respective unions in the nationalized industries, the laborers of the factories across the country, is the meaning of the word international.

First of all, only trade unions from the "allied" countries were invited to the Congress. As a matter of fact, a large part of the time of the Congress was taken up discussing whether or not the delegates should be sent to the trade unions of Finland, Belgium, Romania and Italy. It was decided not to invite delegates from Poland, who had no representation in the last two congresses, or to invite representatives from nations which were not invited by the Congress.

In conclusion, it would be desirable to call for the establishment of a "workers' internationals" where the war-conscious people of different countries would be able to express themselves freely, whether they be allied or not. It would be desirable to have a central executive committee in the Congress to handle all questions affecting the interests of the workers in all countries, and to facilitate the work of the Congress in the direction of the war-conscious, international unionism.

WORKERS OF THE WORLD

In India - Live Not, Learn Not

Col. William P. F. Ligar, U.S. Army Reserve Hospital in India, reported that less than 6 per cent of the women of India and only 18 per cent of the men are literate. There are only 25,000 doctors for 400,000,000 people.

Leopold Amery, secretary of state for India, in the House of Commons last week, said: "We have never considered that their effort in this country might be to encourage violent revolution."

Japanese Workers' Volunteers

In Japan, the exploitation of labor is stepped up to an unceasing degree. Economic depression and the future of war goods production Japanese workers at a war plant have pledged to work 100% hours weekly from 7:30 a.m. to 11 p.m., seven days a week. The dispatch added that the workers had set themselves to increase production by 80 per cent. We can easily conceive how voluntary those pledges are, when a slave-driver with a gun in each hand stands behind the workers.

The Japanese forced more than 60,000 prisoners to labor under worse than slavery conditions to speed up the Thermes-Burma railway and road and then erected a monument to the 25,000 who died along the way. The new slave trade is going on full steam. In addition, thousands of Japanese have been killed in air raids.

In addition many thousands of Asiatics were used and the death rate amongst them was almost certainly much higher than amongst the white population.

Work or Fight a la Soviet Union

Kornilov, the army commander, retired from military service because he worked at an aircraft factory near Moscow, stayed away from work two or three times. The first time the court ordered him to work for one week; second time for one month.

He hadn't paid off before his second offence occurred. That time the court ordered him to work for three months; and he was sentenced to five years in jail. The judge suggested that he join the Red Army, in case his sentence would not be commuted, but Kornilov Celt he was all right.

Belgian Workers Still Nave

On Jan. 16 and 17, the workers of the port of Antwerp, supply unfailingly to the allies' ships, and the workers of the Buttey coal mines went out and then dockers' quit in a sympathy strike. The strike was di.

...the coerçite order has been published. Other grievances included: Some shifts were 12 hours, instead of 8 hours; the reduction of wages for transport workers, lunch boxes confiscated in search rooms, the refusal to receive medical aid or accident insurance compensation. The strikers of the railways promised to resist any concessions, this know; but promises of official action do not get them anywhere, which were backed by Allied or Axis agencies.

Fraternization Vexed

It now turns out that the story about the posters appearing on the war is not true. In Holland, the Dutch government has ordered the execution of German soldiers (on which we commented in this column) slipped through the mesh. The British, who have more men than the Germans can spare, have, however, tried to stop the story, but it had already published. An American private who was startled at a pretty German girl while making a speech as "cowardly" was heavily fined for "fraternizing with the enemy."

Canadian Not Interested in Imperialists' War

Half of a government just cut the tax, AYOL, before being sent overseas. After 68 days, 6,000 still were missing. After a 68-day sentence, a 20-year-old Canadian soldier, on which we commented in this column) skipped through the mesh. The British, who have more men than the Germans can spare, have, however, tried to stop the story, but it had already published. An American private who was startled at a pretty German girl while making a speech as "cowardly" was heavily fined for "fraternizing with the enemy."

Bristish Strikes Increasing

London, Dec. 8 (Chicago Tribune Press Service) - Because he refused to work now that the workers' strike had been settled, a coal miner, today was sentenced to six months in jail . . . An individual worker or action cannot change the ruling class laws. Organized, united class action can gain concessions.

Continuing their militant struggles of a few months ago, the English Choir, who are on strike, and the Admiralty workers, and the Sid- side shipyard workers stopped work for several hours to demonstrate against wages cuts for skilled workers.

Over 10,000 British stevedores and miscellaneous dockworkers have just concluded a 5-day strike which completely shut down the waterfront. They are demanding a wage increase of 15%. The government has capitulated.

Some officials will give a picture of the mounting discontent. Reinforcement of the Navy and the additional 3,000,000 workers who were sent for, mostly men (Negro and white) who in a very disciplined fashion proceeded to surround the two girl reporter, unsheathed their knives and trampled on the faces of the strikers (who also had not read the leaflet) joining in with and without rhythm.

As over two hundred people had cheerfully accepted the leaflet and apparently were going to read it, the "do not read" sign is unmistakable: a mile away. In typical cop or army officer style, they shout their questions — who are you? Where do you live? What organization do you belong to? What's your name? How do you know that the inscriptions are leaflets were answered by loud threats and friendly suggestions to "join the Socialist League" (who also had not read the leaflet) joining in with and without rhythm.

The official copy, who had been plentiful were nowhere to be seen. But they really were needed — the Socialists have no satisfied with the fact. The leaflet was an attempt to be excellent upholders of the worst features of the capitalist system.
A giant ontrager is closing in on Germany. From the East, the Red Army threatens Berlin. From the South and West comes the attack from the Rhine. It is closing in. If the present phase of the Big Three are consumed, Ger-
mance will be overthrown and the three powers, plus France, will continue their war for an extended period.

To the average individual, who is on the pole of the capital-
istic prosperity of the "big business" power, the "Revolutionary Marxist" it means something entirely dif-
ferent.

It is a truly strange story as short is the memory of most peo-
ple. In those hectic days of 1933-46, when Stalin and Hin-
er's way of life was ruling Europe, everyone (except the Marxist) visualized a long period of collaboration
ale of Nazism and Stalinism. Today, when the reality of these predictions is evident, it is being seen in the street
seems in this similar signs of unity and harmony.

Actually, however, we are witnessing a repetition of 1933-46, although on a much larger scale. This is clearly

This is the LULIT, BEFORE THE STORM, with each of the capitalist blocs now faced with the "east" and "west" battle — intervention against the Soviet Union.

The strategy of Stalinism — dictated by its policy of nationalism containing the world-status quo — is limited to two

tactics:

1. Conquer, occupy and fortify buffer states between the Soviet Union and the Anglo-American armistice — states like
Hungary, Rumania, Yugoslavia, Poland, parts of Germany, Bulgaria, etc.

2. Play on the divisions within the ranks of the imperi-
alist powers.

Look closely and you will see both these tactics at play.

Why for instance are no allied correspondents, no members of the Red Cross, no members of the UNRRA (so-called "refugee organization") allowed to travel in occupied terri-
tory? Five years ago, similar German emissaries were kept outside rear so-called "security reasons," for defense against its "allies" and it is unwilling to have its plans leaked.

Why all the difference on economic policy, such as the

differences on the monetary fund, the question of air trans-
portation, etc.? The fact is that this is a mighty way to call

gaining concessions to a future invader.

Why all the talk in the United States of "work or jail," "increased draft quota," "stepping up of production"? Why is it

so much news by the big press associations slanted on the side of the Red Army, while the unconditional capitulation of the United States is ignored? Because there is no war, except in the Red Army.

Why the recent attack by the Army and Navy Journal against the Red Army and its "failure" to take the offensive?

Are there not a basic reason that is why, up to now, the United States is not prepared to support the cause of the

So-called "Socialist Revolution in Europe and Asia. But the Anglo-

American imperialists are preparing for such interven-
tion. They are attempting to get technicians into the Rus-

sian forces, to gain necessary information on terrain, fortifi-
cations, etc. They are attempting to get trusted imperial-

ists into Soviet-occupied puppet governments in Central Europe. The Anglo-American imperialists are PREP-
PARING FOR THE WORST, but hoping for the best — i.e. that

they may be able to impose themselves on the Soviet Union that the USSR will topple over into the capitalist side of the

fence with relatively little struggle. Before they finally
dump the Red Army against them, they will try to make

him to the utmost, in the general drive against the European

Great Britain.

What a job Uncle Joe is doing for his imperialist masters.

WITHOUT THE AID OF STALINISM THE TASK OF THE ALLE

IED IMPERIALISTS OF "KEEPING ORDER" IN EUROPE WOULD

BE NEXT TO IMPOSSIBLE! In Greece, in Yugoslavia, in Hungary, in a dozen places, only the

demagogy and the military might at the service of Stalinism keep the masses in check. The war is needed throughout

Europe to ignite the revolution. A call to Revo-

lution by the Red Army, as it marches toward Berlin would, today, rouse the masses in every country of Europe, including

Weals of men, it emerged recently from the system of society under which we live. Economic rivalry which drives na-

dions into bloody struggles for economic conquest are now at

work throughout the whole of the Allied "democratic" powers.

Within this 2nd imperialist war the seeds of the 3rd imperialist war are beginning to sprout.

Spain (which is not in the war), and in many countries of

But Stalinism is just as fearful of upsetting the status-

quo as are its imperialist partners. Under Stalinist leader-

ship the Red Army is actually supporting and maintaining

monopoly capitalism and monopoly imperialism. The idea

of war is strange? No, not exactly. In the early 19th cen-
tury, the British Army was not war against the army of the

armies of France. The contradictions within the English

Army and against the capitalist state. But in 1941, it was

by Stalinism, the main contradiction of the capitalist or large landlord. Another sector is largely dominated by such capitalists and landowners.

The contradictions within the Red Army today are dam-

aging the Soviet Union so much. Can any one visualize

that the Red Army is actually supporting and maintaining the

capitalist or large landlord. Another sector is largely dominated by such capitalists and landowners.

The promises of Soviet property relations will be

felt in Germany even more so than in Poland or in Yugoslavia. It is a true statement that Stalinism is the capital-

in the two latter countries, and it is likewise true to the pro-

duction of Soviet property relations — the class consciousness of its workers. The more they are integrated into these areas which are not even contemplated in other sec-

tion of foreign policy, to the concentration of wealth, the

vision of land amongst the peasantry and press it into con-

siderable expropriation of Yugoslav and Polish landlords.

Military activity will also make Stalinism more popular. But

we see the effects of Stalinism in the industrial section of

Great Britain.

In 1950, Stalinism is the capital-

obligation and their exploitation of the Russian people and

Germany.

The German proletariat — and the rest of the world pro-

letariat — must realize the vital necessity of Stalinism in the

Soviet Union, it is true, is the only genuine national power

on earth, despite Stalinism. As a potential force the Red Army

could play a revolutionary role to aid the proletarian revo-

lutions of the countries they occupy, but under bureaucratic

Stalinism they are quickly turning into a counter-revo-

lutionary and stultifying force. All Social reformist forces play a counter-revol-

tionary role when they help to make Stalinism the power of the world.

Along with such military resistance the German prole-

taxists, socialists, communists generally, and the Red Army a united front against world capitalism. In such a united front we should not drop our attack against Stalinism. We, as the Provisional International Contact Com-

mittee, stand ready to prepare for work for the political revolution against Stalinism. We will develop a fight-on-the-ground, work through union leaders, election of Red Army officers by the rank and file, the revival of Workers' Councils at the rear.

The 2nd Industrialist War

Imperialism Needs Created by Its Own Econoimc

As a result of the economic rivalry between America and Britain, there are serious differences as to how to conduct the war itself. The U.S. seeks to challenge Britain's leadership in the Auto Industry, but with a limited capital base, its ability to compete is questionable. Britain, with a vast manufacturing base, can afford to lose a significant portion of its Auto Industry to America.

The war began with Japan's invasion of Korea, which triggered a full-scale war with Britain and the U.S. Japan's economy was devastated, and the war lasted for six years. Britain and the U.S. both emerged victorious, but Japan was left in ruins.

The seeds of the THIRD world war are already planted. More than one-third of the world's population is under-controlled, and the competition for power is intense. The seeds of the next world war are already present.

The rivalry between Britain and Germany is being reignited. The British Empire seeks to expand its influence in the Middle East, while Germany's aggressive expansion in Africa and the Mediterranean is a concern.

The war cannot be ended by compromising with the Capitalist class as they are the source of all our problems. We must fight against this class to achieve peace.

The war is not a war for the people; it is a war for the rich and powerful, who seek to maintain their control over the world.

We are equally opposed to a "Labor Party" which Revolutionary is supposed to be friendly and peaceful with capitalists and the capitalist state. They are the ones who are responsible for the war and the capitalist state.
