Roosevelt prisms For War

The struggle and victory of the Administration for its pump priming scheme to "put the U.S. out of the depression" reflects the struggle of the camp of the American bourgeoisie. To read one of the Morgan-Heinz-Knox-Landon press, one would think that Roosevelt was just a scullion stuck into an administration's idea of burning a hole in the pocket of the U.S. government.

In the past, it is true, "progress" approved deprecation on the basis of business endeavor, of industrial and commercial expansion. What is historical, as the representative of the most far sighted section of the bourgeoisie has begun to realize that the future of business lies not in the production of things but in the production of credit. Capitalism is in decay.

The Administration has no recourse but a "shut in the arms" for business by government spending, subsidies and credit inflates. Roosevelt also understands full well the value of the billions he will distribute in relation to putting his men and his policies across in the coming elections.

PRIMING FOR WAR

The billions in subsidies to the big corporations, railroads and banks, and the three billion for WPA, are expected to stimulate industry, and in the meantime under cover of an "emergency," prepare and organize the nation for the coming war.

The huge spending program on top of an already huge government budget raises the question of what is going on.

The "compromise" on the tax bill means that the bourgeoisie, content to leave patricianism and sacrifice to the workers and the unemployed, who will pay the huge bill through indirect taxes and wages.

SUBSIDIES TO BOSSES To finance the spending the Government is releasing one and a half billions in "sterilized" gold. At the same time bank reserve requirements are reduced. These two factors will create an enormous excess of bank reserves, which it is hoped will stimulate business borrowing. But while there may be, as a result of such subsidies and war production, a temporary "pump" following, there is no return to the economic growth and prosperity of the pre-war period. The road is no longer possible for capitalism.

The financial manipulations will have the effect of checking gold flight on the foreign market against the other imperialists who are "in" US concocting French devaluation. The manipulations have more than one side effect. They create the inflation.

INFLATION

For the masses in the US Roosevelt's program means a new rise in prices, an indirect cut in wages and buying power reduction in the standard of living. It is a war program of subsidy to the bosses and cuts to the ex-

CAPITALISM BREEDS WAR - SMASH CAPITALISM!

"Fight Don't Starve" Workers Rally to Cleveland Relief Crisis

About one thousand workers demonstrated and took over the city council chamber and sidewalk strikers intend to occupy the chamber until relief is granted.

Cleveland, Ohio - The relief program in Cleveland and Chicago, which will be followed up in other cities, in order that more money can be used for war preparations.

AGAINST IMPERIALIST WAR, FOR CLASS WAR

C. B. Cowan, head of the Association of Unemployed on direct and work relief, said, "If legal means cannot be found to get food, then the time comes when extra legal means must be taken.

Chicago Workers Fight Relief Hunger

Following up the lead of Chicago, relief stations closed May 17th and 100,000 families are allowed to starve. In the meantime Mayor Kelly and Governor Horner plan the war while the national administration worries about "growing things get out of hand."

A DELIBERATE SCHEME: The closing of relief stations in Cleveland, Chicago and other cities and the announced 15% wage cut of the rail workers, together with a general attack on the workers' rights is a deliberate attempt of the bosses and their "military" to cut down the standard of living of the working class. Even in the "land of the free" the bosses can no longer feed their slaves.

BILLIONS FOR WAR

Yet these same exploiters have billions for war preparations. Relief must be cut, wages reduced, speed increased, to prepare for the houses war drive for markets for exploitation.

FIGHT FOR BREAD

Throughout the city of Chicago tile lines have already been formed before the relief stations. The Revolutionary Workers League has called a demonstration at Newberry Square, Walton and Clarke, to organize the workers for a struggle for victory.

POVERTY AMID PLENTY

Poverty is a lie, millions are unemployed, not even miserable relief can be allotted. This reveals the decay of American Capitalism.

The workers must demand nationalization of industry and workers' control of production. They must demand that the war preparations be based on the starring. The solution of these problems can be obtained by smashing the exploiters state and in place establishing a Workers Council Government.

For Immediate Opening of Relief Stations.

Help The Spanish Workers

News from Spain reveal that the Fascist push toward Catalonia has placed the revolutionaries in a most precarious position. The bourgeois liberals and their Stalinist supporters are attempting to place the proletarian revolutionaries in a trap. Funds are urgently needed for Comuna Red and other workers whom he is working with.

MULES AND MEN

General Pershing's horse re-} these with the view that in order to win the war employed the services of two corporal present, it is difficult to say for certain how far the control of the Pennsylvania binding post on the Capitol Hill.

WE NEED THE STORY OF THE HISTORY OF SOCIETY

Shear capitalism of all its fables and live a death dealing struggle with the market, the crystal, Society is divided sharply and is relationships to two decisive classes, those from which all the manufacturing work in the world is done. One of these is the capital class, the other is the working class. The two classes are divided not only by the nature of the work they perform, but also by the level of their income and consumption.

The history of civilization is the struggle of the capital class, from the chafe of slave work to the modern capitalists, to the wage slave of America today. This struggle culminated in the Industrial Revolution, and we are now in the midst of a new chapter in that struggle.

CAPITALISM IN DECAY

Capitalism has failed to meet the needs of the working class and the world is moving away from it. The working class must now take control of the means of production and control their lives.

DIALECTIC MATERIALISM

But old and new systems cannot be replaced by more wishy-washy, humanistic dialectics. The working class must now take control of the means of production and control their lives.

CLASS STRUGGLE

The struggle of the working class against the capitalist class is the struggle of the people for their liberation.

DEMPSTER May 30 Against U.S. War Plans

"Dempster May 30 Against U.S. War Plans" is the central slogan of the energy-seeking organization of the Young Workers. It is the slogan of the War Day Jugend of the United States. The winning of the struggle of the working class is our primary task. It is only by winning this struggle that we can create a new world, a world where the people are free and happy.

Win Streeter Case; Fighting Worker Sale Continues

The attempt to abolish the sale of the fighting worker is the attempt to save the working class from its own destruction. The sale of the fighting worker is the sale of the worker's life. The sale of the fighting worker is the sale of the working class.

JUNGLE PLEBISCITE DECISION

The winning of the struggle of the working class is the winning of the struggle of the workers. The winning of the struggle of the workers is the winning of the struggle of the capitalist class.

Canadian Govt. Confinces R.W.L. Literature

The Canadian Government has confiscated printed material of the Revolutionary Workers League of the United States. This was part of the material to be used in Canada. The League was also banned. The observer did not prevent us from carrying on our activity. The League representatives were under this vicious anti-labor action of the Canadian government. The League was carried on in a more efficient manner.

Diabolical Materialism —
Troskyite Support
Labor Party

Clear sign of the growing disastrous effects of the Troskyite faction in the Russian Communist Party is the forced consolidation of the Troskyite and Comintern fraction of the Party to the steady loss of membership and influence of the Comintern.

Faced with the deteriorating for-
en in the ranks of the Troskyite Labor Party leadership is try-
ing hard to "patch up" its differences but to no avail.

STUGGLE OVER LABOR PARTY

Up till now the Troskyites, al-
though stating abstractly in their propaganda that the Labor Party is a movement of ex-Marxists who will completely revolutionize the whole of Russian life, have failed to attract even the small amount of membership that they think they need to make it possible for them to go on an independent class line.

The contrast in activity and results between the Troskyites and the Comintern leadership is the steady loss of members for the Troskyite faction.

The Comintern leadership has continued to hold firm and has not allowed the Troskyites to split the Party into two factions.

When the Comintern leader-
ship liquidates the Troskyites in the Labor Party, it will be left with the Troskyites in the Comintern, which is the Troskyite's real problem.

In testimony before the Dewey Committee, Trotsky stated that he would do what he could to defeat the Comintern in the next election, stating: "I would fight it in opposition to the government and develop systematically this opposition. In Germany I would do anything I could to sabotage Comintern leadership."

THE WORKERS AND PEASANTS

The workers and peasants of the Soviet Union are of course the most important section of the working class. The workers and peasants are the class that has the most to gain from the revolution.

Their support is vital to the success of the revolution.

The Worker's and Peasants' Alliance

The Worker's and Peasants' Alliance is an organization of workers and peasants that was formed in the early days of the revolution.

The Alliance was formed to unite the workers and peasants and to work for the establishment of a workers' and peasants' government.

The Alliance was a democratic organization, and its members were elected by the workers and peasants who were members of the Alliance.

The Alliance was a democratic organization, and its members were elected by the workers and peasants who were members of the Alliance.

**Railroad Workers Face Pay Cut**

War upon the bread baskets of 75,000 railroad workers has been launched by the Association of American Railroads. The carriers' publicity corps are telling the country about the "Joe high" wages of the employees, and demanding a 15% cut, although the great majority of the railroad workers are already miserably underpaid.

The railroads are only the first of the big business houses that the bosses will spread the cuts to other transportation, insurance and service industries.
