21 Years After The October Revolution

On November 7th, 1917 the workers of Russia established the first Workers State. Under the leadership of Lenin and Leon Trotsky, they seized power and launched the October Revolution. The Russian Revolution began to spread to Germany, Austria and other countries. The imperialists were forced to call the war off to defend themselves against the greater menace — for them.

Twenty-one years later — 1938 — a new imperialist war is being prepared by the workers of the Big Powers under the banner of Stalinism. The world is moved back towards capitalism; striving, as Lenin did, to spread the proletarian revolution, but to check it, is maneuvering instead with the capitalist powers for "peace talks" and "collective security."

The 1917 French-German war brought on the Paris Commune. The Russo-Jap war at the beginning of the new century brought on the first Russian Revolution in 1905. The World War ended with the victorious October Revolution and more than two dozen revolutionary struggles.

If the proletarian revolution does not check the coming imperialism war then the world war will end in victory of the new revolution. The capitalists are up to the revolutionaries to organize a Communist Front and show the world how to transform these revolutionist revolution into a revolution that will extend the October Revolution.

WORKERS VOTE AGAINST BOSS Raw Deal

November 8th is election day in the United States. It concludes a hot campaign. But while millions of words of usual election palaver are being peddled about, what is really significant is not discussed. Who is going to vote in this election, and for what?

MILLIONS CAN'T VOTE

Membership in the Bohemian, Packwitz, Kate, or Cannibal societies won't be able to vote because of poll taxes. That probably means 300,000 of the Negroes will be disfranchised. Millions are in the South and North won't be able to vote because of poll taxes. That probably means 500,000 of the Negroes who are trying to vote. In the South and North the people are being sold to the South and North who will be sold to the packwitz and bohemian societies.

The people don't have the time to vote. Who are they going to vote for? Who are going to vote for the Workers of the World?

ROOSEVELTIAN UNITY

World Wide Protest for Negroe Grows

The campaign to free Rosalio Negrete Mexican Revolutionary held in Loyalist Spain on trump-up charges, after once being freed, is continuing not only in the United States but all over the world.

UNITED FRONT GETS UNDER WAY AGAIN.

Chicago — The Negroes Defense Committee held a successful protest meeting at the Plebiscite Forum on S. Peoria Street, Wednesday October 12. Picketing of the Spanish consulate by the E. W. L. and its sympathizers has started for Saturday mornings.

Washington — Comrade Jack Rand of the Central Committee of the E. W. L. was sent to the State Department from New York to scan up on action. The Washington unit organized an "up," proceeds to the Negroes Defense Committee.

COLUMBUS — A United front of the Trotskyite YPML, the R.W.L., and the YWL held an affair and sent in $100.00. Work has been done, however, that the Trotsky leadership has instructed its members to pull out of the United front.

NEW YORK — A united front of six organizations for the Negroes Defense have invited all other workers organizations to join with them. The six organizations are: League for a Revolutionary Workers Party, Leninist League, Marxist League, P. U. P., an anarchist group, and the Revolutionary Workers League.

We ask the New York sympathizers to watch for their announcements, and to give this committee full support.

Pit-betting of the Spanish Committee by the R.W.L. continues.

C.N.T. of Spain Gives Aid

The powerful C. N. T. of Spain has taken a hand in the Negro case and will do everything they can to help obtain his release. The Spanish anarchists also suffer under the conscription of the Loyalist-Stalinist capitalist government. In the past the C. N. T. did everything possible to obtain the release of the other Americans and international prisoners after the May 1937 uprising.

Scottish Workers Help

The London section of Scotteland has protested to the Negro workers government and the British imperialists who allowed Negroes to be taken off their ship on trump-up charges. Their appeal was: "Mass meeting to protest arrest of American Negroes on trump-up charges. Demand immediate release."

Scottish Workers Help

For the sixth time since the World War the four big capitalistic powers of Europe have again established "permanent peace." The French, Italian and German workers being killed and wounded in Spain, the Chinese and Japanese workers slaughtered in China, the Ethiopian masses in Africa, still conducting a guerrilla war, are no doubt deeply impressed by this great "peace." The four or five hundred armed Axis people massacred by "peaceful" Britain the last few weeks, undoubtedly to their great comfort by the news of this "peace." In fact it was such a glorious peace that on its morrow Chamberlain, Roosevelt, and every ministry in Europe announced new armament moves.

FASCISM STRENGTHENS

The Peace of Munich will result in the discomfiture of the Czech republic, which is already taking place to an extent, and the Fascist suppression of the workers and oppressed peoples in the Balkans. The struggles of the Spanish workers must be supported by the "democratic" and Fascist powers, and the world will see new moves to the right.

The Spanish "solution" will be at the expense of the Spanish workers.

Germans will replace the Anglo-French bloc as the dominating power in Middle Europe. The "Peace of Munich has" will help Hitler in his march toward the East, the Ukraine peoples, Persia, Turkey, and eventually the Asiatic market.

LOYALIST FRAME-UP TRIAL BEGINS

President members of the Workers Party of Marxsian Unification (POUM) in Loyalist Spain, are on trial for their life in Barcelona, on trump-up charges of aiding the Fascists.

It is certainly significant that the leaders of the POUM, the Trotskyites and the Stalinists, were preparing for a self-sacrifice to the Fascists those that they are now fighting for. The biggest backers of the Workers Party of America, H. L. Garbiles and Robert Young, who are the working class revolutionaries who, in the old days, fought fascism and the capitalist professions in America, are now backing the trial against the POUM members who are fighting the Fascists and the Spanish Socialists and Workers Party.
Shall Workers Support A Labor Party?

(Continued)

ROLLE OF THE LABOR PARTY IN THE U. S.

A Labor Party movement in the United States plays a far more prominent role than Labor Parties in the past. American capitalism is in decay. The working class is being roused to greater strength. Millions of its members are unemployed; millions only semi-employed; millions are being cut out of the program. But they remain at practically the same level. American imperialism, like the rest of world imperialism, can find a temporary solution by any party that supports it. In order to exist it must reorganize the whole world. It is the biggest driving force towards war.

LABOR PARTY PREPARES WORKERS FOR WAR

But no war can be started, and no war kept up without the complete subjugation of the working class. In the last world war, the Federal Labor party played the key role in stopping the working class from striking, in keeping it patriot, in gaining its support for Wilson's war program.

The narrow AFL is no longer big enough or suit it to play the role in the next world war. A new and much broader instrument is needed. The first step towards forcing this instrument was the creation of the Committee of Industrial Organization, the drive to organize vast sections of the working class, a class collaboration program. Based on this CIO and the various reformist parties in the U.S., the new Labor Party is taking form.

It is precisely this Labor Party which will be the capitalists' biggest weapon within the ranks of labor to keep the pro-letariat tied to the war charter. It is no accident that the Labor Party has its most powerful advocates such war capitalists, such social-patriots, as Lewis and the nationalists. No accident that it has received support from the beginning of the (pre-CIO) Second International, from outright bourgeois politicians. No accident that it can form blocs with the Republican Party in N. Y.

REFORMISM THE BIGGEST DANGER

War and fascism, these are the twins of capitalistic decay, of the naked dictatorship of finance capital. Both are already looming on the horizon in the United States. Both are last desperate attempts by the bourgeoisie to stop proletarian revolution. Both make up the so-called "capitalist support" — no matter how far to the "left" — supports capitalist war plans. The Labor Party is such a party.

Worse than that, however, because of its reformist role it will pave the way for fascism in the United States. By breeding in the working class illusions that capitalism can be patched up, that the working class can solve its problems by legislative maneuvers and faith in capitalists, it paves the way for fascism, just as in Germany, Brinings, Vom Schierlachs, etc., played the same role in Germany in paving the way for Hitler.

The biggest immediate danger for the working class in the U. S. today, is reformism generally and the Labor Party in particular.

WHAT KIND OF UNITY?

The Revolutionary Workers' League is a labor movement organization. It is a class organization dedicated to building a labor movement that works for the improvement of labor conditions. It is an organization committed to the principle of class struggle, to the overthrow of capitalism, and to the establishment of a classless society. It is an organization of workers, by workers, for workers.

The Revolutionary Workers' League is not a labor movement organization. It is not a class organization dedicated to building a labor movement that works for the improvement of labor conditions. It is not an organization committed to the principle of class struggle, to the overthrow of capitalism, and to the establishment of a classless society. It is not an organization of workers, by workers, for workers.

Yet, what kind of unity, then, do we support?

The R. W. L. is for the unity of the working class in action against the class enemy. Not the "unity" on the parliamenary sphere for legislative maneuver-ings. The split of labor's ranks and unity with the capitalists that the Labor Party achieves is the unity of the working class in action against the class enemy. Not the "unity" on the parliamenary sphere for legislative maneuver-ings. The split of labor's ranks and unity with the capitalists that the Labor Party achieves is the unity of the working class in action against the class enemy. Not the "unity" on the parliamenary sphere for legislative maneuver-ings. The split of labor's ranks and unity with the capitalists that the Labor Party achieves is the unity of the working class in action against the class enemy.

CLASS CONTINUE TO CONTINUE

The Trotskyites, who are a minority of the Working Class, believe in the continuation of capitalism. They believe in the continuation of capitalism. They believe in the continuation of capitalism. They believe in the continuation of capitalism. They believe in the continuation of capitalism.

WORKERS VOTE AGAINST BOSS Raw Deal
(Continued from page 1)
Millions of foreign born workers won’t be able to vote "Citizens" of the District of Columbia won’t be able to vote for national candidates. Army and Navy men won’t be able to vote. Migrant agricultural workers won’t be able to vote. Young workers, under 21, will be excluded. Hundreds of thousands who have moved from one city to another or one district to another in an effort to get work, or work like the Flint workers are being deported, will be kept from the polls. Puppers in many states won’t be able to vote.

BOTH RAW DEALS
Answering the question of what is going to vote is really a good indication of what those who can vote will vote for. A majority of the bourgeois candidates—Republican, Democrat, "Labor," Party, or Progressive Party—have put out that the election of millions of workers from the fact that the last named parties have not even organized the last elections campaign to show that it is almost impossible to get a ballot as a worker party in more than half of the States in the Union.

WORKERS ELECTRIC PROGRAM Against Capitalism
For the six hour day, five day work with no reduction in pay!
For reduction in hours of trade workers!
For Workers Control of Relief Funds!
For the unification of all trade unions on a class struggle policy, with industrial structure!
For democratic rights; for the right to organize, strike and picket!
For the coordination of free education and practical vocational training for all youth, for maximum wages; for limited political activity for all youth; for international help of all youth.
For full economic, social and political equality for the Negro and the Indian!
For immediate complete independence for the Colonies and protectorates of the U. S. A.!
For the Class War—Against Imperialist War!
For independent working class action!
For Workers Control of the Government!
For a Workers Council Government!

WHAT the workers will really be voting for is, candidates for the following factions of the upper class, two different methods of keeping the working class oppressed—the methods of the Old Deal and the methods of the New Dealers.

The Old Deal will best be remembered for the shadings of the war veterans under Hoover. The New Deal, no less will be remembered, for its blindshoot to the slaughter of 11 steel workers in Memorial Day two years ago in Chicago. Under Old and New Deals, the same amount of workers are out of work—but about 10 million. Under both the deals, millions were pumped into bank- ing and industry by the government, and starvation crevices were slapped to the working class to keep them "at work.

THE WORKERS VOTE
Both deals vary only as to method. Both serve capitalism. The working class must use the elections as a protest against capitalism. Vote only for those candidates and programs that are in the interest of the workers and not the Revolutionary Workers League—which pledge to fight for the complete overthrow of capitalism.

Unfortunately this year the B. W. L. is able to run candidates in Pennsylvania, Illinois and New York. Workers in Pa. are asked to write to the name of Bob Campbell for Governor; and in Illinois the name of Holley for Congressmen-at-Large.

Trotskyles Set-up Paper Against Fascism
(Trotskyles hold a conference recently to establish the "Fourth International"—After ex- cluding all Marxist Fourth Interna- tionalist organizations against the advice of some of their groups; after throwing out some of their already too meager sections, they proceeded to establish the "New International."—But what is this new program? This "New International" is built upon the program of "transitional demands"—particularly Trotsky recently, which includes as cardinal points such measures as liquidating the Labor Party, prepar- ing a new "entry" into the present Party, in favor of support of liberal capitalist governments, rejection of Lenin’s position on revolu- tionary defense, and on.

JUST ANOTHER CENTRIST GROUP
Trotsky’s "Fourth" Internatio- nal is a caricature. He has captured all of his little service outposts—none of others there to re-establish his center groupings as a more potent force a minor among center groupings, such as the London Bureau. Giving a thing a name—Fourth—does not make it in reality. The Fourth Communist International will be built on the basis of a Marxist program and as part of the actual struggle of the workers of the world against bourgeois capitalism—not instead of the meeting of a world team on an opportunistic platform.

AGAINST IMPERIALISM
WAR, FOR CLASS WAR

The bonapartist Daladier is a big step towards a Fascist policy and a sure sign of the discomfit of the French bourgeoisie. The ‘Peace’ revealed the process of economic decay in the capitalist countries, with Fascism forced to take aggressive military measures in order to survive, and bourgeois democracy forced to remold points because of their own internal weakness.

On a world scale the ‘Peace’ forever bourgeoises democracy crumbling before fascism, moving the world towards a general world peace, preparing the way for Fascism, taking the first steps of open dictatorial powers as Daladier and Chamberlain both did in relation to the munitions and policies of their governments. This world capitalism are finding they can no longer fight the "old" bourgeois democratic means. That includes the United States.
