Minority Statement

Dear Comrades,

We hope this letter finds you well. We are writing to you today to discuss some important matters regarding our party and the current situation in the community.

The recent events have caused a lot of concern among our members. We have noticed a growing sense of anxiety among the workers, and we believe it is important to address this issue head-on.

One of the key concerns is the labor strike that is currently ongoing. The workers are fighting for better wages and working conditions, and we stand in solidarity with them. It is crucial that we support our comrades in their struggle.

In addition to the labor strike, we are also concerned about the recent political developments. The government is moving towards nationalism, which has led to a rise in political tensions. We need to be vigilant and stand firm in our commitment to democracy and social justice.

We encourage all members to stay informed and engaged. We will continue to update you on our activities and the developments in the community.

Sincerely,
[Signature]

NEWS AND VIEWS FROM THE LABOR FRONT

Hudson and Manhattan Tube Strikers Still Out

By WILLIAM BARTON

The Hudson and the Manhattan tube strikers have held out securely for the last two weeks, both parties refusing to give in. A. F. Whitney, president of the Maritime Workers of America, the parent organization of the Hudson strikers, was in New York last week and a thorough talk with Whitney on the situation has given the impression that the Hudson strikers are not going to give in. Whitney claims that the Hudson workers are fully prepared to fight for a new contract and that any concession made by the company will mean the destruction of the whole movement.

The Hudson Company has already made several attempts to settle the strike, but all of them have been met with a resounding refusal by the strikers. Whitney claims that the company is trying to get the workers to agree to a new contract that would reduce their wages and benefits, but the strikers are not interested in any such arrangement.

The strike has been going on for over a month now, and both parties are well aware of the fact that the company can no longer afford to continue the strike. However, both parties seem determined to hold out until they get what they want.

The Hudson strikers are demanding a new contract that would provide them with higher wages, better working conditions, and more job security. The company, on the other hand, is trying to get the workers to agree to a new contract that would reduce their wages and benefits.

The strike has caused a great deal of inconvenience to the public, with a large number of passengers having to take the subway instead of the tube. However, both parties seem determined to hold out until they get what they want.

Shift to Right in France Despite CP-SP Majority

By MARY BELL

While the marked social and political changes which have occurred in France have been accompanied by a steady rise in the prestige of the French Communist party, no country has failed to recognize that in France the balance of forces is still maintained at a tenuous equilibrium between the political parties and the Socialists. The main reason for the failure of the Socialists has been the low level of the French Socialists, who have been unable to mobilize the mass of the working people.

The French Communist party has been able to make a considerable advance in the past few years, and the Socialists have been forced to make a more determined effort to maintain their position.

In the recent elections in France, the French Socialists have shown a marked weakness, and the Communists have been able to make a considerable advance in the elections.
