TRUMAN REPORT CHEERS PROFITEERS; CIO PROVES CASE FOR WAGE BOOST

Reuther SLATE WINS; Ranks Down Proposal for Biennial Convention

By JACK BRADB

What stands out in Truman's economic message is its studied effort at caution, the unwillingness to come to any definite conclusion, the willingness to leave a lot of questions open. Anything is left in the realm of possibilities.

In these days of the "triumphal period," just what the trend is, however, whether we are in transition to a depression, a recession or renewed expansion, is not even hinted at. In part this is a reflection of the general uncertainty in business and government circles. More specifically, this conclusion is a compromise between opposing views in the President's own Economic Council. It represents an attempt to bridge the differences between Keynesians, who are fearful of present trends and fears toward "triumphal" late stage inflation, and those whose faith is in business recovery. Keynesians, in other words, are adjusting the decision's necessities of the situation.

Britain encourages Scab Emergency to Break Strike

By SAM FELDMAN

The British Labor Party sent Britain's trade unions on the alert in order to break the labor disorganization which they envisage. The situation averted by the British government is near the money crisis. The government expects to receive the collection of loans and have to pay for its advances. The situation is not expected to change until the United States sends aid.

The government in Washington has been under pressure to send aid, and it has been promised that the British government will be paid in full if it is willing to accept aid.

If the situation does not improve, the British government may be forced to take drastic measures, including the imposition of a national emergency law, which would give the government more power to impose wage and price controls.

O'Dwyer Still in N.Y. Mayorcy Race; Markandey Condon-Foley Splits

By WILLIAM MUNRO

By this time next week, New York City Mayor William O'Dwyer will be a man with nothing to lose. He will have shed the last vestiges of his campaign, and he will be free to do as he pleases. The mayor has already decided to run for a third term, and he is confident that he will win.

The mayor's forces have been working overtime to ensure his victory. They have been flooding the streets with campaign buttons and signs, and they have been running full-page ads in the newspapers. The mayor's campaign staff has also been working hard to register as many new voters as possible.

The mayor's campaign has been well funded, and he has been able to hire a large team of experienced campaigners to help him win.

The mayor is confident of victory, and he is looking forward to another term in office.
Defend Dept. Fingers UE Activists at RCA!

By FRANK HANSET

PHILADELPHIA, July 8—Four days ago, the Defense Department accused a group of United Electrical Workers of "secretly planning a wildcat strike at the RCA Electronic Laboratory in the vicinity of University City." The following is the text of the statement issued by Col. John R. Doering, speaking for the United States military.

"This is an announcement of an investigation conducted by the Department of Justice. The investigation is aimed at determining the extent to which the United Electrical Workers have engaged in certain illegal activities." Because of the extent of the investigation, the Department of Justice has decided to refer it to the Federal Bureau of Investigation for further inquiry.

The investigation is being conducted under the authority of the Taft-Walker Act, and the United Electrical Workers have been informed of their right to counsel and the right to a speedy trial. The Department of Justice has also been informed of the results of the investigation, and the United Electrical Workers have been notified of their right to appeal to the United States Supreme Court.

The investigation is continuing, and the Department of Justice will make no further comment at this time.
