CIO CONVENTION HAS TO FACE PROBLEM RAISED BY STEEL STRIKE—

By the time the CIO national conventions, scheduled to open next month, are called to order, the steel strike will have ended. The most momentous problem then will be to decide whether the labor movement should continue with its drive for a national health insurance program. The CIO, of course, will have to face this question, for it is the only union which has been successful in getting such a program passed through Congress. The AFL, on the other hand, is likely to support the national health insurance program only if it is included in the present bill, which is under consideration in Congress.

JoHNNSON GOES TO WORK

The other day, I was reading the latest issue of the Pentagon Bulletin and noticed a column by Johnson, entitled "The Battle of the Pentagon is Confronted by the Strategy of Slaughter in Third World War." The column was written by Johnson, a former Army officer who is now a freelance military analyst.

Battle of the Pentagon is Confronted by Strategy of Slaughter in Third World War

PENSIONING A DREAM

WHAT'S HAPPENED TO THE HORATIO ALGER LEGEND?

By STAN GARY

With pensions and pension plans playing the leading issue, the actuary is duty-bound to say that old-fashioned Horatio Algerism is dead. The days of the Horatio Alger story are numbered, and in the days to come, the idea of being a Horatio Alger who makes a fortune and then, having made it, gives it all away to charitable causes is not only a distant dream, but it is also a dream that is likely to die out. The days of the Horatio Alger story are numbered, and in the days to come, the idea of being a Horatio Alger who makes a fortune and then, having made it, gives it all away to charitable causes is not only a distant dream, but it is also a dream that is likely to die out.

Nehru Visits United States: A Profile of India's Government Leader

By STAN GARY

Not so many years ago this writer had the opportunity of meeting Nehru, the Prime Minister of India, while he was visiting the United States. This meeting took place during the first session of the General Assembly of the United Nations, and it was during this session that Nehru gave his famous speech on the question of the future of the United Nations. John Dewey at 90

Salute to a genuine liberal and courageous intellectual

By STAN GARY

In many quarters, and for a variety of reasons, the 90th birthday of John Dewey, one of the foremost American philosophers, has been marked by a flurry of activity. Dewey was a towering figure in American philosophy, and his ideas continue to influence scholars and thinkers to this day.

CIO News, National Organ, Bulls "UAW" and "Reuther" By HOWE WIDICK

A further boost for the "UAW and Walter Reuther," by Howe Widick and R. J. B. Whitaker, which has boosted membership throughout the country, was given by the President of the United Steelworkers of America, William "Bill" C. Shelley, who spoke at a rally in Chicago. Shelley's speech was well received, and it is expected that the "UAW and Walter Reuther" will continue to grow in strength.

SPARRING IN THE NEWS

Tito Doesn't Know

In a speech to Yugoslav army officers in Belgrade, Tito said that the "UAW and Walter Reuther" was "a fundamental" organization. Tito also said that the "UAW and Walter Reuther" was "a fundamental" organization.

The War's Over

"Four years of war may be in the history books," said Tito. "But this is not the end. We have only begun to fight." The War's Over

Judge Medina versus Justice Holmes On Clear and Present Danger

By STAN GREY

It was a small act of defiance but the battle is far from over. A labor leader has been accused of violating the "clear and present danger" doctrine, a legal principle that has been used to suppress speech and assembly rights. The case is significant because it challenges the limits of free speech and the role of the courts in protecting democracy.

The respondents (referred to by the judge as "Gray" and "Grey") are accused of violating the "clear and present danger" doctrine by making false statements about the government. The judge argues that the statements were not a clear and present danger to the nation and are therefore protected speech.

In his ruling, the judge notes that the doctrine is meant to protect society from real and imminent dangers, not to stifle speech that may be considered offensive or unpopular. He also argues that the doctrine should not be used to silence political dissent.

The respondents argue that the statements were a clear and present danger because they were made with the intent to disrupt the government and subvert democracy. They also argue that the doctrine should be used to protect society from real and imminent threats to national security.

The judge's ruling is expected to be appealed by the government, who argue that the doctrine is necessary to protect society from real and imminent dangers. The case will likely continue to be debated in the courts and in the public sphere for years to come.

EXPLORING THE ISSUES

The "clear and present danger" doctrine is a critical component of free speech law in the United States. It was first established in the case of Schenck v. United States in 1919, and it has been used to strike down a variety of laws that restrict speech.

The doctrine is based on the idea that the government has a duty to protect society from real and imminent dangers, but it also recognizes the importance of protecting political speech and dissent.

In recent years, the doctrine has been used to suppress a variety of speech, including speech critical of government officials and policies. This has sparked a debate about the role of the courts in protecting free speech and the limits of government power.

The case of Judge Medina versus Justice Holmes is an important example of this debate. It challenges the limits of the "clear and present danger" doctrine and asks whether the principle should be used to protect society from real and imminent threats to national security.

The judge's ruling is expected to be appealed by the government, who argue that the doctrine is necessary to protect society from real and imminent dangers. The case will likely continue to be debated in the courts and in the public sphere for years to come.

Faces Challenge --

What's Your Answer? --

The Independent Socialist League, which itself runs newspapers in Spanish and other languages, campaigns to organize workers to build their unions and demand better wages, safer workplaces, and an end to discrimination.

The Socialists also argue that the government should not be used to suppress political speech. They believe that the courts should not be used to stifle political dissent or to protect the government from criticism.

The Socialists are also critical of the government's role in regulating the media. They argue that the government should not be allowed to control what the public can and cannot read or hear.

The Socialists are also concerned about the role of the courts in protecting the government from criticism. They argue that the courts should not be used to stifle political dissent or to protect the government from criticism.

The Socialists believe that the government should be held accountable to the public and that the courts should not be used to protect the government from criticism or to suppress political speech.

The Socialists are also concerned about the role of the courts in protecting the government from criticism. They argue that the courts should not be used to stifle political dissent or to protect the government from criticism.
