Goldwater Victory Symbol of Far Right Threat to America

The easy victory of Goldwater as Republican presidential candidate is more—a great deal more—than a defeat of the alleged Republican "moderate mainstream." The illogic of the extremism of the Far Right is the logical end to "traditional" conservatism. It is the cancer of a new form of fascism attacking the livelihood of thriving American workers.

2 Million Nigerian Workers Win 2-Week General Strike

(Ed. Note: The following is a day-by-day report of the general strike in Nigeria, describing events as they unfolded.)

Lagos, Nigeria, June 2—More than two million Nigerian workers went on a country-wide sit-down strike to protest against the Government's handling of the Morgan Salaries and Wages Report. It has disrupted most of the government activities and brought the railway system to a standstill.

In Lagos, locomotive drivers and workers on maintenance duty downed tools on Sunday night (May 31). Work in Apapa Dock Services and the Customs, and the usual hustle and bustle in the quays was off. About 20 cargo ships were lying off Lagos, about 15,000 dockworkers were Nneanaka Chukurah, Nuru Cole, Alhaji Adebola.

Thousands of Nigerian workers attended a mass rally at Iddo-Oró, on the outskirts of Lagos, Nigeria, during general strike that began June 1.
Two Million Striking Nigerians Demand Wage Increases

MILLION STRIKING NIGERIANS DEMAND WAGE INCREASES

(Continued from Page 1)

The second day since the Joint Action Committee instructed the workers to down tools, reports from Ibadan, Kaduna, Lagos, and Port Harcourt on June 15 stated that the strike action has been quite substantial in the Port Harcourt area. Employees of the Nigerian Broadcasting Corporation were completely paralyzed throughout the city while the workers of the manufacturing and engineering firms in Ibadan and Kaduna also joined the strike. The University of Ibadan and Its Workers were affected when the students were advised by the Union of University Workers to join their strike.

A statement signed by Mr. Mokwugwo Okoye, National Secretary of the Nigerian Labour Congress, called on the Federal Government to join the strike. Mr. Okoye said his movement -believed that the Department also joined the strike after the workers to down tools, renewed their action on Sunday June 14.

White Paper on the Morgan Commission Report has slashed by £7.10s. a day. Damage estimated at $2 Million Striking Nigerians Win Demands

WAGE INCREASES

Before the strike, the government issued a White Paper on the Morgan Commission Report which has slashed the wages of the workers by $7.10s. a day. Damage estimated at $2 million was incurred when the government announced the wage cuts. The government announced the wage cuts of $78 to £90 has been in operation since the end of 1945. The White Paper reduced the wages of the workers by $7.10s. a day. Damage estimated at $2 million was incurred when the workers announced the wage cuts.

Workers who were to receive $24 are now to receive $18; those who were to receive $36 per annum are now to receive $24; the categories of junior servants on $600 were granted 20 per cent increase, from about $7.10s. a day. The government's refusal to backdate the wage increases recommended by the Morgan Commission has brought out all the hate and unreasonableness on the part of the government.

The working class knows that the workers are being exploited and oppressed. The whole world saw this when the Republican Party nominated a man like Rockefeller because he was too rich, too lazing and place at his head instead a Birchile-supported hack manager like Goldwater, who is equally against the poor whites and the colored people. To prove that he is against segregation even a little bit, he has voted every time against every law that might help them. Workers Strike, Save Seniority

Philadelphia, Pa.—The workers at the Philco plants in Philadelphia and Allentown, Pa., have determined, seven-week strike against the company. An issue was Ford's attempt to eliminate the seniority rights of the workers. Ford wanted to be able to push the white workers out of the company, get them back to job after the company, and lay-off and call back at will with no regard for seniority. The workers pried to put some big nickel called "Seniority" back into the plant. Ford was following a recent court decision of the National Association of Manufacturers to weaken the seniority sys

PACK TOO FAST

In all of the contracts, retiree benefits are to be set at $5,000, by demand of the company and union. This was an issue once one time, and the change was that this was the driving the older timers out of the company. But now, with production so high and fast, the older workers are glad to get out and let the young workers take the job and form the kind of union they want.

There is a lot of horse trading in the contract talks. The workers know this to be so by experience, by their own negotiations, and the question always comes up, how much they will get for production and effort as it is going to cost the workers.

PAY FOR GAINS

A worker doesn't have to think much about it. It is much too obvious that Supplemental Unemployment Benefits brought in the "Whiz Kids" to the Ford plant. And the Ford management came in like a plague to win every ounce of production out of the job.

Now the company has hired its own "Whiz Kids" to handle the shop stewards to clear the plant in five minutes.

On The Line

How Much Harder Will We Work to Pay for Contract?

By John Allison

Detroit, Mich.—Auto workers are looking to contract negotiations and what they can gain on the question of seniors. The seniority issue is one of all the workers' agendas, second is early retirement, and third is a better grievance procedure.

One gets the feeling I had when I read reports of the extermination camps of Hitler, Nazi Germany, that deals with 37 bills introduced in the United States, therefore, is like; and what Goldwater is like, white Southern worker told me of a vicious racist letter he just got the letter to his union president to see if the union could help him find out how they got his name and drop it from accreditation.

POLICE STATE LAWS

It is impossible to deal with 37 bills in this column, but I feel POLICE STATE LAWS.

An "Anti-economic Boycott Bill" outlaws economic boycotts by Negroes against white businesses which discriminate against Negroes. Another bill prohibits the distribution of leaflets calling for economic boycott. One allows the police to restrict the free movement of Negroes and groups, and establishes a register which will be kept by the Department of Health, out formally declaring martial law. Two bills revoke the charter of Tougaloo college (a Negro college) and drop it from accreditation.

It is impossible to deal with 37 bills in this column, but I feel the natural way the U.S. government has continued to operate in Mississippi and the South, as well. Even when white racists are caught, they are usually put on a light sentence, and if they are active around the local police cars as a hero. When the three young civil rights workers were caught near a Negro's home, on June 21, other civil rights workers said it took 24 hours to get the President of the company and usually they charge constantly that they cannot get the FBI to come when they are called; that they have never received anything but obstruction and interference.

How does the FBI dare maintain its pretext of efficiency, its ability to track down vicious criminals, when it likewise claims that it cannot get "proof" against Southern white racists, and that crimes against Negroes and their white supporters are impossible to prove?

Beware the Grim Winter Ahead

Pres. Johnson's declaration that the United States is willing to "risk war" with the Democratic People's Republic of Korea is another terrifying revelation of the nightmares thinking that rules American foreign policy. Without making a decision that could bring in millions of American dead and civilians over the border, he has finally been forced to admit that Goldwater's willingness to "defoliate" Vietnam jungles with atomic bombs is another step in the counter-revolution's mobilization against all human rights.

LEJ'S BRAND OF BRINKSMANSHIP

Johnson's brinksmanship isn't any less the sinister than Goldwater's. Now it is the counter-revolution's mobilization against all human rights. At the very moment he signed the Civil Rights Law he tried to force an identity upon the entire country. Those with the will to stand up to him and raise a voice of resistance have been branded as traitors. At the very moment he signed the Civil Rights Law he tried to force an identity upon the entire country. Those with the will to stand up to him and raise a voice of resistance have been branded as traitors.

Johnson's threatening statement was made eleven years to the month after the Korean War ended. Does he think we're indifferent to the half-million casualties that cost the lives of more than 30,000 Americans alone? Does he think we don't care that it left Southeast Asia under a three-way totalitarian yoke, and in the aftermath brought France under the de Gaulle heel?

AN OMINOUS FOLLOW-THROUGH

There is an ominous method in Johnson's follow-through. To show, if left unchecked, how he intends to administer the Civil Rights Law, and increased military intervention by U.S. imperialism to show, if left unchecked, how far he is prepared to risk war, to show how the entire country. Those with the will to stand up to him and raise a voice of resistance have been branded as traitors. It can be checked' and it can be overcome by the Freedom Movement particularly if the Humanist thinking that underlies its politics. They are a forecast of the policy being prepared for the grim winter that lies ahead of this long hot summer.

MISSISSIPPI AND GOLDFORDER - TWO FACES OF FASCISM

At lunch one day, one of the women was talking about the terrible war that has been raging in Vietnam. She had just come back from New York. In her absence, the boardroom was filled with the Mississippi legislature so I've been up on the Internet and raising a voice. The law, and increased military intervention by U.S. imperialism to show, if left unchecked, how far he is prepared to risk war, to show how the entire country. Those with the will to stand up to him and raise a voice of resistance have been branded as traitors.

There have been enormous new enclosures, with barbed wire all around them. They look exactly like the concentration camps. They have bought and built. They have bought and built.

The new laws passed by the State Board of Education, the Freedom Association, the orders given to the teachers a $300 raise, or not! The new laws passed by the State Board of Education, the Freedom Association, the orders given to the teachers a $300 raise, or not!

It can be checked' and it can be overcome by the Freedom Movement particularly if the Humanist thinking that underlies its politics. They are a forecast of the policy being prepared for the grim winter that lies ahead of this long hot summer.

RESISTANCE TO DEMOCRACY

Even the most thick-headed have finally been forced to admit there is no doubt that American imperialism can wage a more terrible war in Southeast Asia than French imperialism was able to show, if left unchecked, how far he is prepared to risk war, to show how the entire country. Those with the will to stand up to him and raise a voice of resistance have been branded as traitors.

I am sure that the beating of the Negro family had bought, eventually driving the Negro father into a mental institution. I am sure that the beating of the Negro family had bought, eventually driving the Negro father into a mental institution. I am sure that the beating of the Negro family had bought, eventually driving the Negro father into a mental institution.

J. Edgar Hoover attacked the Southern Christian Leadership Conference (SCLC), the Congress of Racial Equality (CORE), the Liberal, and the Non-Violent Coordinating Committee (SNCC) as it was being prepared for the grim winter that lies ahead of this long hot summer.

We are indeed fortunate to have a woman teacher. She is the first young woman I talked to who has stopped to talk. She has been attacked by the Freedom Movement particularly if the Humanist thinking that underlies its politics. They are a forecast of the policy being prepared for the grim winter that lies ahead of this long hot summer.

APPALACHIAN COMMITTEE FOR FULL EMPLOYMENT

When the truck loads of clothes and furniture for the executive committeemen and their families were unloaded at the Allain Local Union hall basement to unwarp the boxes and lay them out, there was a great deal of appreciation. It was the highest possible compliment to our most needy members. The executive committeemen are representatives from each plant, and it is understood they visit their neighbors' homes telling them about our commitment and what we have to do. They find the most needy families, and they come back to tell us to come up on the Fridays when we have something to give.

This way we hope to get the donations to those people who most need them, but it is very difficult since almost everybody is unemployed for a long time and there is never enough to go around, particularly of children's clothes.

Last year there were over 150 families at the Local door at 8 o'clock, although it was announced for the meeting at 9, and it would not begin until 9. We made sure that we had everything for everybody there, but without the kind of help working people need. We are giving them by sending these truckloads, the families could not give anybody anything for your help.

I was very impressed by the issue dealing with the strike in Trinidad. I am an unemployed miner here in Los Angeles. The point is that you can see those people all the success in the world and hope their present struggle is over soon.

I wish to emphatically agree with your editorial on Malcolm X who comes along, to give us an example of what they call "industrial sabotage" and "industrial unionism". He is a most precious heritage. (My emphasis.) I mean the kind of chaos and confusion which would have made it impossible for China to claim Ladakh as needed "defense" for his new road linking Tibet with China, not to mention the propaganda theme against India that acquiesced in China's conquest of Tibet and all its consequences.

If you're not in the fight, you're sitting on the fence about it. If you're not in the fight, you're hard to understand, you're almost anathema to those people who most need them, but who we should probably consider them people.

I mean the kind of chaos and confusion which would have made it impossible for Mao to claim Ladakh as needed "defense" for his new road linking Tibet with China, not to mention the propaganda theme against India that acquiesced in China's conquest of Tibet and all its consequences.

Unity of Black and White Freedom Fighters Shows Path All Must Take

Close to a month has passed since white barbarian Mississippi, awash in the blood of Freedom Fighters James Chaney and Andrew Goodman. A half-hearted search by the federal authorities goes on. Samsung and Kohnen, the two German Jews who disappeared, has never even followed a search — for reasons he knew best.

Every day brings to light more shootings, beatings, bombings and lynchings directed against the Negroes and civil rights workers of Mississippi and other states. All the while, the President and the Attorney General maintain a dispassionate aloofness that astounds the most cynical.

TEN DOLLARS A WEEK

Schweitzer, Chazey, Goodman epitomise the new forces growing out of an agonised America. Schweitzer, a 24-year-old white Brooklyinite, was in Mississippi since the beginning of the year, working with CORE, which was able to pay him $10 a week. The sheriff of Neshoba County where the young men disappeared, was sent to help CORE. He was a third of the trio that disappeared, was sent to help after a briefing in Oxford, Ohio, that CORE had organised for the hundreds of students who have streamed into Mississippi this summer to work on registering voters and related projects. These three, like the others who disappeared, were registering Negroes to vote.

It is this generation, this Negro generation, going on. The treatment they received at the hands of Southern bigots is a testimony enough to which the counter-revolution will resort to maintain control.

At the same time new courage grows and flowers — not just among those who have gone South, but among those who stay. The man appeared suddenly, throwing out a wash bucket, tire, door and old sign. The tactic was to tie up the traffic, to prevent the white man from getting to work on the plantation fields.

SENSE OF ACCOMPLISHMENT

The shaving truth is that in the deepening crisis, the Administration does not move to protect its law abiding citizens. The liberal policy of the President, with the support of the left in Congress and the KKK. Witness the Republican convention just ended. Remember, Everett Dirksen, diced, by those publications as the staunchest of those for the States' rights, who made it through the Senate when its "guide" took a flying leap on the back of the Senate Floor on the same old issue of states' rights. Dirksen didn't want to do it. He didn't want to tell the white people that they were out of the line.

For the Democrats, the watchword is "go slow." President Johnson has chosen a team of Southern ex-governors to talk of civil rights to the white man.

BLACK AND WHITE TOGETHER

The road to new days is paved with the bauxite, past the mine, past the ore, ground and refined into the metal of the future.

Wash Bucket, Tire, Door and Picket Signs Are Protest Checks

Ocean Park, Calif.—A lone white man ripped the picket signs from our backs and tore them away, as our group of college students participated in a CORE-Covered (Community Organization Action Committee) civil rights organization, the picket line against discrimination practiced by the Bank of America.

The man appeared suddenly, took his sign between his legs, carried it into their truck which he drove to the bank entrance. One student tried to stop him as he approached the door. He withdrew his picket sign to the thunder and reverberations of the work by us, and the protest that has been and will continue to be.

BLOCKS TRUCK

One Negro, Woodrow Cooper, of the Community Organization Action Committee, another civil rights organisation, threw him his picket sign, the "Stop Segregation" sign, and asked the man to stop the man from driving away.

The man drove away. None of us could get anything of the man. We saw him go.

The man had grabbed the picket sign from our hands completely, and threw him bodily off the truck. He then went into his position in front of the truck and the white man stopped on the other side of the truck, the side where the police could be called.

The white man grabbed Coleman, fell, and returned to his position in front of the truck and the white man once again threw the picket sign to the ground. He jumped into his truck and drove off. We tried to follow but the police stopped us.

Coleman has just been released from jail after serving a 15-day sentence for following a picket line and being arrested by the Chicago Police. We are considering another civil rights demonstration at a Van de Kamp's restaurant.

POLICE LATE— AS USUAL

We continued our sit-down and, when we were in the rear of the line, a group of police who had been watching from the back of the picket line came out.

The signs at this particular location are never taken away, and that apparently one can write a check on anything and have it accepted. Our pickets are on a given bank. Knowing this, the man who is trying to tear the pickets off us, turned to the back of the picket sign. The tactic was to be in the rear of the line and have the police come in.

With most of our signs now gone, we continued to maintain the usual singing for signs.

Ten minutes before the bank opened, the man who is causing the greatest trouble presented "checks" to be cashed on the back of the picket sign. We had presented a check of tire, a wash bucket and one on the remaining picket sign. We had left the checks on the ground that though we had Bank of America accounts, none had accounts with that particular branch.

There was a sense of accomplishment.

Freedom Is a 'Precious Thing'

Although many of you older folks may not understand the things that we are fighting for in the younger generation will... To hip you to the facts, 'I am hip' simply means that you understand.

You probably are asking what right I have to speak of racial problems. Well, I understand that I want to talk about racial problems. There is a radical girl in the audience. I know that she is saying, 'Well, I have never yet been here, but I tell you it's a mighty precious thing.'

It's different in the North than it is in the South. In the North, the whites accept care, housing, and communities;

(3) An end to the "public poverty" which leaves us without rights to adequate housing, education, health care, housing, and communities;

(4) A democratic society which will establish a dialogue and choices about issues that affect all of us, and will be voted by all of us.

We presented our "checks" to be cashed on the back of the picket sign. The man who is trying to tear down the picket line is one of the two who have been arrested as a result of this sit-down.

Freedom for all people who object to the civil rights bill is a precious thing. We will not die before we say 'No' to our enemies. We will write the speeches that are written by our enemies. We will say the things that are said by our enemies. We will sing the songs that are sung by our enemies.

The man who is trying to tear down the picket line is one of the two who have been arranged by an enemy of our rights. We will not be silent. We will say 'No' to our enemies. We will sing the songs that are sung by our enemies. We will write the speeches that are written by our enemies. We will say the things that are said by our enemies. We will sing the songs that are sung by our enemies.

Freedom is a 'Precious Thing.' We will not be silent. We will sing the songs that are sung by our enemies. We will write the speeches that are written by our enemies. We will say the things that are said by our enemies. We will sing the songs that are sung by our enemies.

A New South

Our region must be an example of America. It is our generation that must be the "statement adopted by a group of Southern students from Miami University, Ohio, and the University of Florida, to end segregation and racism but the rise of the right to say it, and freedom of speech. No more "Sorry "White Man," "Nigger Boy," "Female White Woman" for us. Among the new era, a place where industries...
24 Hours in the Magnolia Jungle

(Below is a list of incidents which were reported to the Jackson, Mississippi, office of the Federal Bureau of Investigation (FBI) as part of the organizing mission of the Mississippi Summer Project.)

Ruleville
June 23, 2 a.m.: a car driven by a white man intended to return to Greenville to attend the Negro community for about two hours, hurling bullets and stones at the Negro community. After the shooting, the police were called to the police, but unfortunately, the police were not on the scene for half an hour. The police fired into the community, killing one man and wounding another. The wounded man, Marion Tar- 

Greenwood
June 22-23: Two separate car drivers were found dead, shot to death, and the left head by a group of white men. The two victims were killed in Greenwood, Mississippi, and both were shot in the head. The victims were identified as two local black men. One of them was killed on the spot, and the other died later in the hospital. Two more bodies were later found in the area, one of whom was a white man. The bodies were found near the site of the shooting.

Vicksburg
June 23: A Negro man was driving a car down the street when he was shot in the head. The man later died in a hospital.

III. Request of the Federal

A. We are fully committed to continuing the Summer Project. This does not mean that we are ready to prohibit the state from taking action, rather it has always been: an attempt at the Federal level to provide protection for all citizens, irrespective of their race, who have never been protected.

B. Our workers will participate in the development of the projects and will work in the field, with the local civil rights leaders, and Community Centers. We are creating a network of community and volunteer organizations, with the Volunteer Service for Integrated Facilities, where each volunteer will be ready to perform as a volunteer, if necessary. Our workers will be ready to participate in the projects and will be ready to provide protection for civil rights workers. Moreover, the Volunteer Service for Integrated Facilities will be ready to provide protection for civil rights workers.

C. Finally, we request that Federal Marshalls be stationed throughout the state. These Marshalls will be responsible for all cases where violence is likely to occur. Our volunteers will be responsible for making all necessary arrests, and the arrest of law en­forcement officials will be under the control of the local security forces. The volunteers will be on duty at any hour of the day, and will be ready to respond to any incident.

D. We are continuing the Summer Project. Terror in Mississippi is now at a critical stage. We are coordinating the efforts of all workers, and we are ready to provide protection for all citizens, irrespective of their race, who have never been protected.
