SAVE OUR HOSPITALS
See pages 8 & 9

A FEW WEEKS AGO, John Howe, leader of Stockport’s Tory Council, boasted that his officials had been able to identify the town’s scroungers and that plans were ready for a 'crackdown'.

Well, the 'crackdown' has now begun. So far, it has involved the jailing of two pensioners, one aged 69 and one aged 73, for non-payment of rates.

It has involved the eviction of four homeless families with young children out of a council hostel and onto the street.

And just to round it off, 18 other people who haven’t been able to pay their rates are so frightened by Howe’s policies that they have gone to the room to avoid being put in jail.

The first working-class pensioner to fall victim to the Stockport savager was 77-year-old pensioner Bill Jackson.

Bill, dogged after being knocked down in an accident, got £28 14s a week.

He’s so poor that he wouldn’t die.

The Stockport Tribune had a novel solution to his problems. They advised his doctor to pay £15 a week and keep him in.

He would still be there now.

It’s a sad state of affairs when working people who pay all the £154 rates.

Chris Blair, one of the new tenants at bill Jackson’s house, said: ‘We got £23 18s 9d to keep the house, the rent of Mr. Bill Jackson’s 77-year-old pensioner.

They can’t pay the rates. From prices are rocketing, living costs are up. So they stuck him in jail.

WILL YOU SACRIFICE... JUST A LITTLE?

THE SOCIALIST

Workers’ Party received a letter this week which moved us all.

It came from Walton prison, Liverpool, and it contained three pounds and a 50p piece.

The money was sent to the Party Building Fund. At the request of Prisoner 728101.

Billy Caskley, Billy is secretary of the Blackburn Unemployed Action Committee and took part in both Right to Work marches last year.

This month he was sent to prison for assaulting a policeman who couldn’t understand in court what part of his body had been hit.

Billy sent us his entire income from his first three weeks in prison plus the cone he had in his pocket when he was taken.

Lots of other people have responded to our urgent call for money to help build the Socialist Workers Party. This week we’ve raised £728, which is nearly a record for a single week.

It shows that the £150,000 target is not too far away from it. At this rate, we can be in the time, but we must keep the funds flowing in.

Please rush donations and collections to The Treasurer, SWP, 2Cottons Garden, London E2.

VERMIN

Elvis and Bill, the birds that the construction company that works on all our roads are being driven away. If you have a window, please remember to keep the vermin Elvis and Bill away.

The people of Stockport might want to consider the various anti-scrum-gon campaigns conducted by the protesters, the National Association for Freedom and the Labour government.

None of these people care a damn how much worse the situation becomes. They seem to be working class people.

They’ll happily kill all theReferences old people in the town if it means getting rid of the vermin Elvis and Bill.
Abortion: This attack must be fought

WOMEN are again under attack from anti-abortionists. A new National Right to Life group is to be formed in Beaconsfield, Southend-on-Sea, and thousands of women have been signed up to attend meetings. The National Abortion Action Campaign (NAAC), which has been organizing demonstrations in London and other cities, is also planning to hold a demonstration in the capital on Saturday. The demonstration will be led by a woman who has had an abortion and who is now speaking out against the anti-abortion movement.

The Abortion Action Campaign, which was founded in 1975, is calling for a peaceful and non-violent approach to the issue of abortion. The group believes that the right to choose is fundamental to women's freedom and that it is essential that women have access to safe and legal abortion services. The group also argues that the current laws in the UK and around the world are not effective in preventing abortion and that they are often used to punish women for exercising their rights.

The National Right to Life group, which is based in Southend-on-Sea, is also calling for a peaceful and non-violent approach to the issue of abortion. The group believes that the right to life is fundamental to human dignity and that it is essential that children be protected from harm. The group also argues that the current laws in the UK and around the world are not effective in protecting the right to life and that they are often used to punish women for exercising their rights.

Both groups are calling for a peaceful and non-violent approach to the issue of abortion, and they are asking all women to join them in their fight.

Socialist Worker newspaper, published by the Workers' Alliance, is a newspaper for the working class. The Workers' Alliance is a political party that campaigns for a socialist future. The newspaper covers a wide range of issues, including workers' rights, housing, education, health care, and the environment. The newspaper is produced by volunteers and is distributed free of charge.

At a meeting of the Workers' Alliance in London, a social democratic group, the members debated the question of whether or not to support the Labour Party. The meeting was well attended, and the debate was lively and intense.

The group is considering whether to support the Labour Party in the upcoming general election. The Labour Party is currently the largest political party in the UK, and it is in many ways the most powerful. The group is aware of the fact that the Labour Party is not socialist, but the members believe that the Labour Party could be a useful ally in the struggle for socialism.

The members of the Workers' Alliance agreed that the Labour Party is not socialist, but they also agreed that the Labour Party could be a useful ally in the struggle for socialism. The group plans to discuss the issue further at its next meeting.

Stop the Deportations! Free the Refugees!

PUBLIC MEETING: Wednesday, 16th February, 7pm, 6th Floor, 237 Seven Sisters Road, London N7, Greek and Turkish Cypriot, English speakers.

DEMONSTRATION: Saturday, 19th February, 2pm, outside the Home Office, 90 Victoria Street, London SW1, to support the deportation of foreign workers and to demand the right to stay in the UK.

CHINGARI OUT NOW!

The Punjabi language song of Chingari comes out this week, produced by Southend band SWP members and supported by Novit UK. It is the fifth single and peaked at No. 2 in the UK chart.

The Indians in this song are 76. The Year Race Hate Faced In Deadly, the immigration unemployment, an interview with Luke Fontaine, the wife of the late trade union leader, and a critical look at the Asian Youth Movement by Balram Singh, chairman of the Quaker Asian Youth Organisation.

My appeal to all members and supporters of the SWP to help with these local elections. We will be out in Southend and Shoreham-by-Sea.

CAMPAGN AGAINST RACISM WITH SOCIALIST WORKER
TO CALL Enoch Powell’s speech last Friday an incitement to racial hatred would be too mild. More accurate would be to describe it as Hitlertish ravings straight from a Nuremberg rally.

Every word was designed to encourage the prejudices that divide white workers from black workers, even to bring closer the "civil war" of which we are told against black worker that Powell claims is inevitable.

Yet it seems the powers-that-be do not want to prosecute Powell under the Race Relations Act. They claim it would be counter-productive, turning Powell into a martyr.

There could hardly be clearer proof that you can’t rely upon the courts to deal with racism, as Socialist Worker has always argued, but that does prove there is nothing you can do about Powell.

Powell was shut up a few weeks back. He was appearing on the radio programme Any Questions speaking to an audience of thousands. The programme was broadcast in Bloomsbury.

Local anti-racists, including members of the Socialist Workers Party, shoehorned him down and stopped broadcasting for more than five minutes.

We were denounced at the time.

by people who said we should rely on the law to deal with incitement to racism. Yet now we are told the law cannot do this job.

If such people are honest in their claim that they want to stop incitement to racial hatred and violence, they should reconsider their views and join us in using direct action to prevent Powell and his comrades spreading the poison.

Incidentally, the government and the police not only say it would be counter-productive to prosecute Powell. They also insist on protecting his meetings. Twenty police were present Friday to protect his right to break the Race Relations Act with impunity.

WHOSE SIDE IS SHE ON?

The most disgusting reaction to Powell’s speech came from Maureen Colclough, until now regarded as a “left wing” Labour MP.

She claimed that “Powell is not a racist” and that he has a “case to be considered.”

And for once, this was not a case of misquotation by the press.

We have said in the past that there are no depths to which a Labour MP would not go to get votes. But even Maureen Colclough must be stunned by Ms Colclough’s statement.

There should be no room for people like that in the Labour movement.

Ms Colclough did not attend to attend the meeting of the left-wing Tribune group of MPs on Monday. But if that group does seriously seek to give claim to be socialists and anti-racists, it must start by not inviting Ms Colclough to their meetings.

Zimbabwe: Aid the freedom fighters!

THE COLLAPSE of the government in Rhodesia shows there is no end to the racist regimes in Southern Africa—by physical or economic means.

If we want to become the highly privileged white minority, we must maintain control of the police, the army and law and order.

What this means was made clear to us by eight representatives of the so-called moderate black parties in Rhodesia and Baragwanath.

Quite rightly, the black freedom fighters will not accept this. It would have been a great tragedy if the majority of black people would have been oppressed as it is by a minority of black leaders to the government.

There is only one thing that will stop a war and end the war in Rhodesia—the rapid military victory of the black liberation forces. In the duty of organs of Britain to do everything in its power to bring that victory.

The vital aid 150,000 are denied because they are women

150,000 women are being denied a Government grant for looking after hopelessly disabled relatives.

The grant is available to men, but not to women, because they are women.

It was introduced by the Labour Government a year ago, the first of the new Social Security Measures. It was brought into being for everyone: women, men, married and single, and domestic or nursing women who look after mentally defective parents or children.

The law

The bill, especially, the newspaper bills, mounted up. It would have been impossible to control the law, with the aid of the Department of Health, Social Security and National Insurance. But we have been told that the law is now being enforced. And the Department of Health, Social Security and National Insurance say that they have been told that the law is now being enforced.

My father, who was a tenant farmer, has been convicted of embezzlement. He was taken to court and sentenced to five years' hard labour. His wife and children were left to fend for themselves.

The judge told him that he had been guilty of a grave breach of trust, and that he would be taken into public assistance. He was released on bail after two years in prison.

The Government has been asked to do something about the law.

Beauty

If this book has been written, the SWP has been formed. We are socialists, and we are proud of what we do. We do not have to spend the rest of our lives, fighting and writing, in struggle against a mean and despotic ruling class. Society can be changed, but only if masses of working people abandon the rotten shipwreck of the 'leave it to us' reformers, and commit themselves to change from below. This is our case. Will you read it?

FOR ONCE, A BOOK ABOUT TRUE SOCIALISM...

I WAITED for the new booklet Why Should I be a Socialist with enthusiasm, but some premonition.

Why going to be another intellectual brochure which I would have to read five times, in order that the first point could be digested and then网点 out to my wife and various friends?

Or was it perhaps going to be one of those documents which are read by a few committed revolutionaries, to be followed by post mortem at the death of its content? I was really hoping that a book would set the old debate about, say, like Marx's Communist Manifesto, John Stuart Mill, or Karl Marx and Engels. I'm sure that the first thing that would get written in the book would be 'Why Should I be a Socialist?'

In any case, this is where true situations are.

PASSION

Chapter four chapter in a single sentence. I suppose I could be called a Socialist Workers Party member. I have known the class struggle for over 40 years, and the whole thing is a continuous learning process.

In this book, we have attempted to write an essay on the Front Line of the Communist movement, and we have been able to do so because we have been able to use the experience of the past to inform our understanding of the present.

BEAUTY

If this book has been written, it is a sign of hope. It is a sign of the possibility of hope, and also of the possibility of hope. We should be proud of what we do, and we should be proud of what we have done.

Eric: Or little by little

On Monday 17 January, the House of Commons debated the question of food stamps, and passed it in two hours and forty minutes. MPs took the opportunity to discuss the need for food stamps, and to highlight the importance of ensuring that those in need have access to adequate nutrition. However, the debate was marred by a number of disruptive interruptions, which prevented MPs from fully engaging with the issue.

Guts

Dennis Albrecht, a former member of the Labour Party, was elected as the leader of the Labour Party in 1985. Albrecht was known for his radical stance on trade unionism, and his commitment to social justice. However, his leadership was marked by a strong emphasis on the need for workers to unite in order to achieve their goals. Albrecht was also a strong advocate for the rights of women, and he made significant contributions to the fight against sexism.

However, the revolution also led to a number of human rights violations, and the Cuban government has been criticized for its treatment of political dissidents.

|The law of strength

WHAT IS justicé? Justice is nothing else than the strength of the stronger. For Thuys, one of the characters in the writings of the Greek philosopher Plato, the recent proceedings in the Court of Appeal suggest that he had a point. True, Lord Justice Fisher founds. But as a matter of principle they were upholding the apartheid system in South Africa, and the persecution and imprisonment of African workers under South African laws. The case is an example of the strength of the stronger. And it is a signal that the treatment of blacks in South Africa is a matter of concern to the whole world.

**STICKS**

"Yes, we can!" a worker stated at a mass meeting in a town called Nkana. But the red flags were already there, occupying the town.

"They attacked the workers, first the time, one of us was injured, but the second time we took our lives in our hands and gave our lives."
OUR HOSPITALS

They've refused to open this new block

The Hallamshire, financed with workers' pennies and a lot of sweat.

SAVE OUR HOSPITALS.

That is the campaign launched by the rank and file paper, the Hospital Worker, and the National Right to Work Campaign. Its conference is on 19 March.

In town after town, groups of hospital workers have taken to the streets. Other public sector workers have also taken action.

The London Divisional Committee of NUPE has called a one-day stoppage of all London members of NUPE for 11 May. The local government workers in NAOG are planning an all-day overtime ban from 1 April.

The resistance is growing into a national movement, but it is a movement without an organised head. The leadership of the public sector unions are prepared to organise occasional one-day actions. But more than that is needed to beat the cuts.

ACTION

The trade unions in London are now preparing their own joint-union committees to try and discuss future action.

But such committees are not needed unless they represent the real work force.

In every locality we need delegate committees representing local public sector branches and shop stewards committees to organise local support for all action.

The local committees should also campaign among the rank and file membership to force the union executives to take firmer action.

In NUPE, the 11 May stoppage needs to be brought forward so that the union doesn't have more than three months. The Right to Work Campaign has already suggested the date of 23 March. And it should be a national one-day strike, involving

This action closed only a third of the schools and had little impact, and some scales opened them themselves.

BUILD

The Save Our Hospitals Campaign is meant to help build towards three things. Its success will depend not on resolutions alone, but on how many groups of workers supporting it exist in the hospitals.

If one group in a hospital takes action, we want to bring out the whole hospital, and all the surrounding hospitals. We want to get other public sector workers, whether they are school caretakers, from

ATTENDANT, including nine cancer cases and 74 others classified as "very urgent". That's just the hospitals.

Health Authorities have said that Nuneaton's hospital in June. Meanwhile the Nuneaton Board General Hospital stands empty because the council says they can't afford to equip and staff it.

On Sunday, a street meeting was held to protest against the closure.

This is a start. We will be looking for support to get a real fight back, halting the closures and public anger with an attempt to build a rank and file campaign in the hospitals.
They want to axe this hospital

AFTER three solid years of campaigning by socialists and health workers in Hackney, the national press have at last woken up.

WORKHOUSE

At Hackney Hospital, a 175-year-old, rat-infested workhouse, Mike was met by a patient of health workers and Right to Work supporters demanding an end to the cuts.

Mike said he couldn’t identify anything but that he would go away and think about it.

Mr. McAvoy, who is what we suggest you think about.

But be honest on other matters. The government’s plan to privatise the NILE is a step forward in the struggle for a new NHS.

Collaboration

Yet, the astonishing thing is that the EGA proposals do not include any real threat to the big business class.

Indeed, what they propose is a complete sell-out to the health service. Businessmen by passing workers to collaborate with their employers.

There are no plans to be bankers, accountants, solicitors and solicitors. The government, the healthcare system, the profit motive, the profit motive, the profit motive, the profit motive.

This would be achieved through a complete handover of cuts to the existing service provision.

The EGA conference is essential for the health, welfare and responsibility of the private sector.

McCarthy: Why Lady C. took leave of her censors

By MARTIN ADAMS

THE MIDDLE-CLASSICS and their representatives in the Tory party have been going on a bit about censorship lately, so it's a good time to have a look at their record on this issue.

A doubled good time because it's just 50 years ago this white that D.H. Lawrence was at work on most famous and perhaps the most famous novel of all British novels, Lady Chatterley's Lover.

He had returned to Britain for his travels in the summer of 1920, but his time in the green of the General Strike. His novel, Lady Chatterley's Lover is being published again, and reason for that is that the word is out. It's the word of a Bookbinder.

The first version of the book was published in 1920, but it was banned in Britain. The second version was published in 1928.

IF YOU think America is the Land Of The Free and the home of democracy, go and see The Front. It is a film written, acted and directed by people blacklisted after the war and prevented from working because of the views that they held, and in some cases, the views they were rumoured to have held.

These days bore the name of a magazine called The Front, which was also the name of the anti-Communist page and never printed 455 Communists, and made

Hate—that's what the bombs bring

EAMON MC CANN, The 2nd January 1977, not only on the streets of west Belfast, but throughout the whole of the north. It is a consequence of the inability of the Ulster Unionist Party to make any firm commitment to a solution of the problem. The presence of the British Army in Northern Ireland has fuelled the sectarian violence. It is time we had a return to the civil rights movement of 1968, and a return to the idea of a united Ireland.

Ambulance workers' thank you

I WOULD like to thank you for your support and good wishes towards the recent Essex Ambulance Strike, which resulted in a win for all the workers in Essex. We were able to win back our local branch, and the workers were able to return to work.

IRELAND: WORKERS' ACTION

MANY workers in Britain are under threat of losing their jobs due to the industrial dispute. The government has imposed a series of austerity measures, which have resulted in widespread job losses.

Punk rock—a kick for the woolly poulvers

THERE'S a lot of sense and a lot of substance in what you write about punk rock. Punk rock is not just a musical movement, it's an attitude—a way of life. It's about challenging the status quo, questioning authority, and fighting against injustice. It's about breaking free from the constraints of society and expressing oneself unapologetically.
Five years after

BLOODY SUNDAY wasn't an accident.

It didn't happen because Para squaddies lost their cool and let loose. It happened because the plan had been in place for five years. The plan had been approved in advance by the British government, with the agreement of the Irish Army, and the IRA had been given advance notice.

The men who masterminded the murder of the eight civilians who were killed in Derry on January 30, 1972, were not just soldiers; they were also policemen. They were dressed in balaclavas, carrying guns with silencers. They were not just soldiers, they were also policemen. They were dressed in balaclavas, carrying guns with silencers. They were not just soldiers, they were also policemen. They were dressed in balaclavas, carrying guns with silencers.

Awesome

Bobby Sands was designed to bring more.

This was a desperate, desperate plan. This was an all-out attempt to get the IRA to give up. The IRA was under immense pressure, and the British government had given it a ultimatum: stop the violence, or face more violence. The IRA was under immense pressure, and the British government had given it a ultimatum: stop the violence, or face more violence.

Boasted

In the five years since, the attitude of the British government has not changed. They have continued to insist that the IRA is responsible for the violence, and that the violence will continue until the IRA stops. Guidelines

More recently, the Convention of Dubliners, which meets to discuss the guidelines for violence, has been held. The guidelines for violence, which were drawn up by the British government, have been agreed to by the IRA. N erosoldiers have ever come to court for the Bloody Sunday killings. Ever since the Lord Chief Justice of England was called to visit a new, it's come with contemptuous disregard for simple truth.

ESSEX SET FOR SAVAGE CUTS

Confidential document tells all

A CONFIDENTIAL Essex County Council document outlining proposals to cut more than 2000 jobs has come under the spotlight.

According to the document, issued by the County Personnel Officer, the council is looking at spending cuts of £5.584m.

The result would be 467 jobs lost through natural wastage and another 3122 redundancies, making a total of 3589.

The cuts will hit all of the council’s major departments, with the education and social services departments hit especially hard. Between 1000 and 1500 people could lose their jobs.

The cuts are to come in the wake of the Covid-19 pandemic and the resulting economic downturn.

The council has already made significant cuts in recent years, with redundancies and layoffs common in many local authorities.

In response, the council has launched a consultation process to allow staff to voice their concerns and suggest alternative ways of achieving the savings.

The council has also promised to provide support and training for affected employees to help them find new roles or retrain for different positions.

Despite the difficult situation, the council remains committed to providing high-quality services for its residents and is working hard to ensure that any cuts are managed in a way that minimizes impact on the local community.

MENACE WE MUST ALL FIGHT

By Bobby Birt

In the last few years, there has been a cut back in the building and construction industries caused by the crisis in the city.

This has thrown 31,600 building and construction workers on the dole and a soaring list of being laid off many other construction workers were to work.

A few years ago, most construction workers were not able to get the jobs, but now, if one is not in any position on the union list, it is very easy to get work.

These small jobs now are the biggest danger to the construction workers. And those workers face the biggest attacks on their conditions, pay, and earnings.

WORST of all, the workers are not even able to get work. And this is partly due to the money they did not save from the big jobs.

Bigger

The workers cannot get the money to the businesses and can afford to do this work. This is why in the heavy unemployment, we must stop this.

We must protect the demand of the workers and make sure that they are not forced to accept low wages and poor working conditions.

We must stop the layoffs and work to protect the jobs of the workers.

Hatchet man Millan

SCOTLAND Bruce Millan, the minister for Scotland, has announced a 20% cut in public sector wages.

This will hit schools, universities, and hospitals, as well as local government, with a 20% cut to public sector salaries and allowances.

Millan said the cuts were necessary to stop the "spending binge" by public sector workers.

"These are difficult times, and we must make difficult decisions," he said. "But we cannot continue to pay the highest salaries in the world, and we must make sure that the public sector is not a drag on the economy."

SPARKS ALL OUT ON 14 FEBRUARY

The Electricians Union, the EEFU, has called a strike in the telecommunications industry in 14 out of 15 local authorities over the Office's spending cuts.

The Electricians Union has the backing of the Local Government and Social Services Union, while the Government is backing its own policy.

By Jack MacKenna, EEFU convenor

SST East Kilbride

The EEFU has called a two-day strike to protest against the cuts in public sector spending.

The EEFU has威胁ed to strike for longer if the cuts continue.

"We are not happy with the cuts," said MacKenna. "We are not happy with the spending plans and we will continue to fight for our members."

"We are fighting for the future of the public sector," he added.
Jewellery workers locked out

BIRMINGHAM: The jewels strike that got Britain out of jail in 1976 could be repeated if not stopped, warns the Craft Union.

Mr. Robert Mullens, the union's general secretary, said: "The conditions in the jewellery industry today are not unlike those in 1976."

The union has locked out 1,000 workers from the John Lewis store in Birmingham and is considering taking action against other employers.

"The real reason for the strike is the low wages paid to workers," said Mr. Mullens.

Swindon 1200 threatened

SWINDON, Wiltshire: Workers at Gartec, a subsidiary of the British Motor Corporation, are on strike for the second time in three months.

The strike is over the issue of a new pay deal and follows a previous one in May.

The company said it was unable to reach a satisfactory agreement with the workers.

Sheffield Blacking begins to bite

THE blacking of products from Edgar Allen Balfour in Sheffield is beginning to bite.

Layoffs are beginning at Smiths Industries, which produces all the magnets needed for speedometers in the motor industry. Layoffs will follow soon in British Leyland and other car plants.

For seven weeks, 2,500 workers in the Edgar Allen Balfour group have been on strike to stop the loss of 600 jobs and the closure of one plant.

The reason for the employers' determination to break the strike becomes clear last week when another company in the group, Cross & Blackwell, announced the closure of the Whithall factory.

The strikes are a direct result of the company's failure to meet their commitments to the workers.

Tribunal NO! Workers YES!

LONDON: In the course of a series of attacks on shops, unions and management, the supermarket chain Dixons has been hit.

Wild Marcusovitch, a well-known restaurant owner, has been accused of trying to intimidate the workers with a series of threats.

"We will fight back" is the slogan of the workers, who have formed a tribunal to resist the company's demands.

KILLER FIRE: ANOTHER 'ACCIDENT'? 

By Anne Robertson

THE HORROR of last week's sweat shop fire in Manchester hit me especially hard.

I work alongside the mother of one of the seven women who were killed.

Anne Mathews had just had a baby. She had returned to work at the Northern Pouch Company building three days before the inferno.

FORCED

She wore the black and red hairnet.

That's the gnomes for me, so far removed from the notion of the newspapers about the women working in that place.

They worked because they desperately needed the cash. And their desperation raised the question of the prevailing conditions.

Out of the eight workers, four were sons and two were members of the same household. The building was a death trap. It had only 12,000 square feet on the ground floor. It had been a fire drill and the manager believed that the women didn't even know when the fire escaped were.

There were no automatic sprinklers. There was no alarm system. And the automatic fire extinguishers were useless in the ground floor where there was no need to activate it.

They were the women unable to see the door to the fire escape.

COVENTRY: For the second time in 18 months, workers at Massy Ferguson have been served with High Court writs to end an occupation of the factory.

In June 1975, the company used the courts to break the strike and Occupation of the factory.

This week they went again to the courts to try to break the strike and occupation against the factory.

And on Tuesday, the High Court issued an injunction to stop the workers from occupying the factory.

The men were locked out and barred from the premises for 12 months, the strike continues and has been supported by over 1,000 workers off the assembly line.

Break

Shop stewards from the assembly shop struck continuing efforts to protect the workers. The company tried to impose a new wage on the workers.

The company has refused to negotiate and has offered no wages.

Need

The Coventry strike is being supported by Lexie Ferguson workers in Manchester and Kensington.

The company and the court are trying to break the strike and occupation.

The workers are determined to win because they feel a defeat world band to the company to save wages, the workers, and the company.

But they don't feel strong enough to force the court to have to negotiate.

DROP THE CHARGES FREE MIKE LYNCH

Tuesday 1 February, 6pm, Notting Hill Gate, Westminster Square, London.

TWO MORE Right to Work Marchers facing jail will be making a court appearance next TUESDAY.

Last week unemployed miners Mike Lynch was due for three months in prison for conspiracy to obstruct the police. Now he's in prison for six months, and Mike Doan, one worker, has been bailed out on appeal.
