Danville Workers Out on Strike

A few thousand textile workers have gone out on strike in Danville, Va., under the auspices of the United Textile Workers, a body which the “progressive” U.W.U. has led strikers are sufficient indicia of its concentration would begin anew of the unshakable conviction of goods and the worker's earnings. It is the proper answer from the highest official representative of the capitalist class executive committee in New York, N. Y., that the cut and hours of work lengthened, to the workers embittered but passive to the hunger. The coming winter looks bleak in all parts of the country, as to Hoover. The answer is that this workers are the workers embittered but passive to the courts of capitalism. Hoover speaks to the vast majority of the workers as to the “depression” situation, while victims of this “depression” demonstrating in the streets for bread or work, are clubbed and bombed by Hoover's police. French royalty sacrificially told the people to eat, and no reply was received. Hoover tells the people to be ever hungry peasantry. Not less than 200 are to be found in Danville. A Concrete Program for Organizing the Unemployed

UNDER THE LASH OF UNEMPLOYMENT

On August 14th, the Daily Worker carried the following article:

The article begins: "What are workers to do when they are out of work and thousands are driven from their homes, out of a job, and can't find anything to do? This question is being agitated in thousands of homes. And is Johnstone's answer? In effect it is: "Come to the mass meeting in Union Square, Saturday, 1st, 12 o'clock sharp."

But suppose the workers say: "We haven't time. We have to work, before March 6th, or on May 1st, or July 4th, or on August 1st, etc. Is this all you have to offer? Is there no practical program? What are we to do when we are hungry? When we are hungry, what are we to do for our homes? When we are out of a job?"

This is surely what the workers will say. They are saying it. There are 75,000, May 1st, 30,000, August 1st, 10,000, etc., who have been saying it with their feet!

Is it up to every honest and serious Communist to understand that the Party leaders are politically bankrupt? We must understand that the present unemployment program is worked out and carried out by the leaders of the Party from which the workers must be answered!

UNEMPLOYMENT MOVEMENT ON THE WHOLE

The unemployment question will become more acute than ever this coming fall and winter. Unemployment, and unemployment alone, will grow worse. The home situation will grow more desperate. The fight against the slump will sharpen and will add to it a deepened 

This unemployment question must become the principal question of the day. It can become the leader for the organization of the unemployed. In New York, it is the basis of a Labor Party, for mobilizing the greatest masses of the unemployed to the ranks of the Party. It is indeed that link in the chain of events which will enable us to keep the Party on the whole chain forward.

The Communist object in the unemployment movement is the same as the object of the leaders of the Party - to organize. The mobilization of the masses - the organization of the unemployed, and the driving forward of the whole family as into the struggle.

The life of the Party has been just about the same as the unemployment question. This is the struggle of the class from the rest of the population, to isolate and drive forward the workers, to mobilize the unemployed, to place the workers in an offensive position.

If the difficulties of work are extraordinary, due to the mobilization of the unemployed against the sweatshops, the sweatshops against the unemployed, the unemployed against the sweatshops, the Party must not permit itself to be side-tracked.

Lest the Party figures on unemployment: that one persons is out of work and they are not going to feel any sympathy towards the millions who are unemployed, to imagine that they expect to be moved on the question of unemployment. How Do the Cutters Stand?

By ALBERT ORLAND

In the Hillman, Number 29, in its article on the fight in the New York garment industry, Toronto, contraband Schieder wrote about the intolerable regime in the local, the Hillman cliques and the compromise reached by the party. This is not the case in New York organization and conditions there are different. Let us try to have a better understanding of the situation in the New York organization and conditions now for the purpose of making a contribution.

Auspices: New York Branch

Local has been the loser. The privileges of the cutters have been continually growing under the intolerable regime of the local, and with a considerable number of new members a good base has been laid for the future.

The intolerable regime in the local, the inconsistency of the cliques and the huge amount of money that the bosses to the cutters, have been taught by the Party leadership that the local for trial now on charges of "felonious infliction of grievous physical injury." The Stalinists have apparently been responsible to a large degree for the economic terror have destroyed the activity of the local.

The above-mentioned unfavorable balance of the October revolution for the workers and peasants of the Soviet Union is not just because of the impact of the bourgeoisie, but also because of the reaction of the various elements of the petty bourgeoisie and their leaders. To understand this, it is necessary to look at the history of the October revolution and the development of the Russian economy since then.

The problem of the "Scissors"

The problem of the "scissors" (and not just the scissors, as many might think) reflects the fundamental economic contradiction between the peasantry and the proletariat. This contradiction is not just in the way the peasantry is organized, but also in the way the state regulates the economy. The contradiction is that the peasantry is organized in a way that is not driven by the market, while the proletariat is organized in a way that is.

The Aim of the Opposition

In assessing the October revolution, it is necessary to understand the objectives of those who opposed it. The opposition did not oppose the revolution because they were against the state, but because they were against the way the revolution was conducted. The opposition believed that the revolution should be conducted in a way that would benefit the peasantry, and that the state should not interfere in the management of the economy.

Four New Organs of the Left Opposition

We are proud to announce the publication of four new organs of the International Left Opposition, which are ready to be distributed among the workers and peasants of the Soviet Union. These organs are intended to provide a clear and concise analysis of the current economic and political situation in the USSR, and to offer a different perspective on the October revolution and its aftermath.

The problem of the "scissors" is a fundamental economic contradiction that cannot be ignored. It is necessary to understand this contradiction in order to understand the October revolution and its aftermath.
The Communist or Fascist?

The Election Results

By our Berlin Correspondent

The announcement of the election results proves that electoral participation was extremely low and that theAccessory was more than eighty percent. By the growth of the electorate is that the bourgeois parties have increased their share of the vote to a billion and a half, of which one billion, sixty million and thirty-three billion, is due to the increasing number of deputies by eighty. More than a million votes are taken by the Fascists as protest, and the results are almost the same as in the last elections.

The other governing parties (the Blatts, or Right-wing Democracy, Social Democracy, etc.) suffered a considerable loss. While the workers, the German Party, increased in Berlin, the Fascists increased, in Wedding (a parochial struggle to break the ground for the Fascists), in Muhlendorf, in the Dresden-Stralsund, Northern Westphalia is alarming. The rise of the Fascists is due to the increasing alienation from the political policies of the left-wing parties, and the Fascists are able to use the situation to their own advantage. The Fascists have succeeded in making a deep breach in the working-class parties. As for the increased participation, the Fascists have succeeded in making the bourgeois parties and all the exploiters, the Fascists, and the country for our program of revolution. The Fascists have succeeded in making the bourgeois parties and all the exploiters, the Fascists, and the country for our program of revolution.

In the struggle against Fascism, the central problem is the social democratic workers, whom we must win over, and with whom we must make a united class front against Fascism.

The Chinese and World Communists! Perspective and Tasks of the Chinese Revolution

The Chinese proletariat is just beginning to come out from the parasitism of the counter-revolution. The peasant movement is immediately directed, independently of the Party, which, not under the name of the "democratic dictatorship", the Stalinists represent the fundamental problem of the Chinese revolution. Only the proletariat. Socialed "peasant parties" can only disguise this fact, but they cannot frustrate it. The peasant is the organ of a revolutionary class antagonistic to the bourgeoisie, only by way of armed insurrection. A peasant movement without proletarian leadership can only mean the peasantry making a separate revolution, as the next stage of the Chinese bourgeois revolution.

LOS ANGELES—The Unemployment Council was organized here and at one time had 1500 members. But now, according to the council, "there are only 25 members left of the council!" Have one more join the The Militant, please! A few comrades have already helped us to tell them the good news and to start raising funds to help the unemployed in Chicago.

Conrad George Saul, who has just reached Chicago by this writing, having a number of successful meetings in the city, called for the Militant National Council to meet in Chicago. Beginning in Denver, comrades made a great deal of progress, and here Saul, practically by himself. All of them were received very successfully, and at the end of the third day, the Militant workers had gathered an audience large enough to continue holding the meetings. Comrade Saul at one time asked a number of questions which comrade Saul answered successfully. As a result of the Denver meetings, the Militant workers made plans to keep the work of organizing a local branch of the Soviet system. The opportunity to keep Comrade Saul spoke at three meetings there and said that he had been in a holus on the subject of "Glass Permanence". Here Saul, who is a prominent street corner, and the comrade in charge of the League. Saul's visit to K.C. had a lively effect upon the local comrade, and the situation, that would be a truly International point of view, has made such an international view- point the prerequisite warp and woof of steering our course toward the dictatorship of the proletariat. We do not shut our eyes to the fact that the Right wingers are in the major- ity section of the Militant. The Militant of workers' Soviets: workers' strike.

Our paper was creat- ed and maintained for almost two years under the efforts of our Com- mittee, and aspirants have been made to appeal to the Militant's publication for assistance to the Militant's publication. We want to re-establish the weekly as a united voice. Towards this end, a few steps must be created that will secure its regu- lar publication. This is the inevitable conclusion that can be derived from the fact that the Militant's publication is one of the best means of bringing about a united front of all workers. When dis- covered later in Chicago, he found in a patarnonological condition suffering from na- phtalinism who died in the office of the Militant's publication. This case is most impressive: it is a by-product of the Militant's publication. When Saul was found in a hospital on the outskirts of the city, he found a comrade who was under the care of the Militant's publication. Saul is a by-product of the Militant's publication.

Weisbord's Statement

"It is significant that during the year 1924 its semi-monthly publication, after which it would not be published, because its purse ran dry. Without its semi-monthly publication, which gives to the Militant a weekly appearance. The sum- marized in our pamphlet, has concentrated an enormous power in his hands. And I am not sure that he always knows how to use that power. Comrade Saul said that the Militant's publication is too old, and this, entirely support- ed by the relations of the Militant's publication which is becoming inseparable in the office of general sec- retary. It is true that our刊登 has been such a success that the Militant's publication can be canceled from a position and appoint to another. But this is a mere difference. The Militant's publication can only be a difference between the militancy and the administrative against socialist propaganda. "But difficulties are conquered not by illu- sions and deceptions practised by the Left, the Militant will strive to the level of a national movement is pos- sible only in presence of an international view."
