Whalen's Anti-Red Forgeries

Peshawur and the Gandhi Arrest

The almost impenetrable veil of official British censorship continues to make it difficult to get a clear and unclouded picture of the situation in India. That the British are being hard pressed, however, can be seen from the highly colored official reports that are allowed to filter through to the public. They really have been compelled to arrest Gandhi. They are trying to break up all the efforts to confer all arms and ammunition in the hands of the Indian people. They have even gone openly, at least to admit the dispatch of substantial military forces of infantry and cavalry to guard, apparently, the most turbulent sections of the country.

MacDonald: Servant of Capital

All these actions, let it not be forgotten for a moment, are being taken by the British in the name of the means that has advertised everywhere by the liberals and socialists as the "most progressive and enlightened" to the world, the "Labor" government of Mr. Ramsay MacDonald. Where is the democratic Laborite freedom of the press which is announced as so superior to the methods of the Communists? Stuck without a trace by law. Where is the "democratic" opposition to imperialism? It exists only in the noisy, pious speeches of MacDonald, agent for excellence of the British money-bags, jailer and executioner of the Indian masses!

India is today an armed camp, but apparently against one side. For that the Indian masses have Mr. Gandhi to thank. It is under his treacherous direction, his insistence upon pacifism and non-resistance, that the Indian people are today defenseless before the imperialist's heavy hand. But the people are too strong for fear of successful resistance. Hardly has the British been served notice that they have kicked the Indian masses and trampled Gandhi. He has hog-tied the Indian masses and trampled the paralyzing laws of non-resistance.

But the arrest of Gandhi shows that he has scored a success against every desire and will—something else, too. Just as the Kerensky involuntarily argued a genuine revolutionary movement by their bold opposition to the czar; just as the Czang Eulskits unluckily let loose a immense movement in China, so the sensational march to the sea of Gandhi has roused millions of the oppressed to the struggle. But it can yet be created in the fire of conflict. Peshawur shows the possibilities.

Q

N.Y. Jobs Scarest Since 1914

NEW YORK—Factory employment in New York State, Gov. Roosevelt announced, is at the lowest point since 1914. It has dropped steadily since last October. He said, and will probably drop further, as it usually does in May. The Amsellal, financial weekly, states that national employment is the lowest since 1922.

Judge Denies Bail to Foster, Minor, Amter

Bill for the leaders of the March 8 unemployment demonstration, including William E. Foster, L. Anser, Robert Minor, and Harry Raymond, has been refused by the Supreme Court in New York. The Four Comrades have been bailing the three year term in which they were sentenced after star chamber procedure and without the possibility of introducing evidence or defense witnesses.

The crime class character of the prosecution was more than demonstrated in the trial, and the judges gave the defendants a glimpse to the moody and vindictive spirit of their sentence of three years.

It is evident that the convictions were aimed primarily to curb the movement of the unemployed workers among whom the Communists are the most active elements. All the more reason why every effort must be made to cope the most rapid release of the four prisoners. Thus their defense has been organized by the Party on the narrowest possible basis with the result that the fair opportunities for development and for the liberation movement for the four have not even been approached.

The New York convictions are but ominous forerunners of persecutions against militant fighters of the working class throughout the country. They cannot therefore be understood merely as an isolated instance of capitalist violence against the Communists. Nor can the bosses and their police, court and gaol keepers effectively combated by the Communists only by the official Communist Party only. The arrests and persecutions all over the country in connection with the May Day demonstrations, the May Day meetings at New York, at other working class gatherings make imperative a genuine mobilization of all progressive, Left American workers and for the freedom of all class war prisoners, for the establishment of full civil rights for the unemployed and working class organizations, etc.

It is necessary to change this course immediately, and take advantage of the general sentiment against the convictions that exists and can be aroused among broad sections of the working class, in order to keep alive the offensive. A real fight against British imperialism, in the interests of the Indian masses, is the lowest since 1922.

NEW YORK—Trial of 46 Brooklyn show workers for violating an injunction taken out by the Independent Show Workers Union has been postponed to June 8. The company brings its contract with the workers when Charles G. Wood, red sailor, of the famous labor conciliation service, notified that the union has been dropped. The company, after the decision sustained the company's refusal to continue with a Communist-led group.

Mr. Osebeck Whalen is now well on the downward road to the other "great" American Red balters who were pressed: A. Mitchell Palmer and ex-Mayor Hanlon of Seattle. Not to be outdone by either of them, or by their international colleagues who convicted the anti-Soviet forgeries in Berlin and the "21949ers" in Eng- land a few years ago, this cheap Tammany Hall politician has gained another bit of glory for himself by driving a new and cruder set of forgeries as have yet come on the stage. It seems that Whalen is in- tent upon proving that there is a Com- munist movement in the United States and that it has connections with the revolution- ary movement in the Soviet Union!

Nevertheless, the appearance of the forgeries at this particular moment is far from accidental. The stage being set for them has been in preparation for some time. The development of a sharp unemployment situation in the United States with the accompanying disillusionment of millions of workers on the score of American capitalism's "permanent prosperity", has opened up previously non-existent prospects for the growth of the American Communist movement.

Whalen's forgeries are calculated to nile this growth in the bud, to whip up sufficient anti-Red hysteria to cut it down before it assumes really dangerous pro- portions for the class by reason. It is not alone. The rapidity with which Com- munist anti-Soviet activity, especially anti- Nazi, is growing, is reflected in a larg- ly campaign in Indicative of the general spirit of the masters. All of them are quite well aware of the fact that out of the Communist movement, despite all its recent rolls and failures, has grown an official Party, there is no force working actively and on the whole workers, to mobilize.

There is yet another reason for the Whalen forgeries. They follow hard on the heels of the bomb plot against the Soviet embassy in Poland, the anti-Soviet military maneuvers of the Romanian and Polish, marines of French imperialism, and the suppressed revolution in Rumania to which the whole working class.

The Press and the Soviet Union

Knowing Stalin for what he really represents, throughout the world are keenly aware of the fact that the principles at the present moment a well-oiled pressure can strengthen the to-bet-outside of colossal implications of these forgeries by compelling a shift to the Right. But the masters are not going to give up the gains in the past two years so soon as they thought right now, that a sharp turn to the Right, already implicit in all of Stalin's recent acts and words, would have great effects not only upon the Communist class struggle but upon the proletariat movement throughout the world.

The anti-Soviet drive, of course, in the United States, even though based upon the school- books that carry out bigamy or employment for a moment. The Press and the Soviet Union.

The following forgeries at this particular moment is far from accidental. The stage being set for them has been in preparation for some time. The development of a sharp unemployment situation in the United States with the accompanying disillusionment of millions of workers on the score of American capitalism's "permanent prosperity", has opened up previously non-existent prospects for the growth of the American Communist movement.

Wall St. Speaks

"The second quarter of the year," comments the New York Times on Hoover's recent "optimistic" statement about the turn for the better, "opening with business activity approximately at the depression level of late December, offers no reasonable prospect of other than an uneven and low progress out of the existing depression.

The normal relations of production and consumption have been disorganized. Productive facilities, and all commodities including bank credit as used, are presently lacking. The new stabilization that needs to be worked out is threatened by retreating money policy and rising speculation.

Cynical Over Predictions

The Annalist sees a "broad valley of depression out of which business is not likely to emerge in much less than six months or so." Billing directly at the Hoover prosperity pronouncements the Wall street weekly adds: "Another point to note is the insubstantial fact of a random among business men against the cheerful business prospects of the administration. The ironical fashion in which business

excesses have repudiated successive 'bull-boy' official statements from Washington has had its impact on the business mind—H. It produced a conviction not only that the government does not know the facts, but that these facts probably began worse than has been generally supposed even outside of Washington."

The Annalist indices of business activity even below the lowest previous mark of for March, its latest figures, shows business December. Freight car loadings, electric power production, cotton and wool consumption and salt and crude oil production were all below the November figures.

Bluff, Brother, Bluff Someone Will Believe It

The Crusader News Agency is a press bureau of the American Federation of Labor, the central labor organization of the United States. It is intended primarily for Negro newspapers in the country, and is the media of the methods by which the Party brings its viewpoint to the Negro workers. In its press release for the week ending May 10, 1930, it prints the following astounding report of the New York May Day parade and meeting:

"In this city (New York) over 200,000 workers representing 85 labor unions attended yesterday's May Day celebration. The entire city was pervaded by the spirit of the occasion. That is something particularly noticeable in New York, where the authorities are noticeably engage in their usual tactics of despotism."

And further: "Over 70,000 joined in a gigantic, colorful parade from Rutgers Square through some of the worst slum districts to Union Square where the biggest meeting of the day was held."

"The parade is the official organ of the Communist Party, and it persists in the facts in its reports of the May Day demonstrations goes without saying: it is in the blood. But it is not a new one far as its circles as the Crusader News Agency. Its issue of May 2, 1930, says: "The New York city trade unionists and workers (not 300,000) turned out yesterday, striking and demonstrating on May Day and speaking of the parades: "The procession began shortly before 1:30. And, what a procession! A close (close, Brigit!) checkup counted 20,000 in that group.

But what is a little matter like an additional—even if non-existent—150,000 strikers to the Party bluffers? Or a matter like an additional 150,000 workers who never marched? In the third period, the Party leaders calculated the best way to win the masses to Communism, and (cynically) the Negro workers especially, in the most barefaced bluff, surely someone will believe it!

Trotsky's Autobiography Free!

"You can get a copy, free of charge, of "My Life" by Leon Trotsky! Do you want to get a copy, free of charge, of "My Life" by Leon Trotsky? Do you want to get a copy, free of charge, of "My Life" by Leon Trotsky? We also offer a free copy of "The Real Situation in Russia" by Trotsky! And of "The Real Situation in Russia" by Trotsky!

This book is also available free of charge to all workers. Here you will find the English translation of the famous Financial Chronicle, as expressed by Stalin, and Trotsky's letter explaining the falsifications of the History of the Russian revolution and the Communist Party. You will also find here the important Testament of Lenin. It is a 220 page book, and you can get it for free from the Millitant by turning in 3 yearly subs (at $1.00 each). These are accepted.

After May Day's Demonstrations

Even the briefest review of the May Day demonstrations in the United States has a concluding note with a clearing of the air so that the facts became visible. That meant—ultimately—nowadays—to discount from the very beginning all the figures given in the official Communist Party press. The definite information we have already received about a dozen of the most important cities shows what recent experience with the Party press has taught us as to the accuracy of these figures. In every major city it has been seen that the figures given in the Daily Worker on the participants were distorted anywhere from twice to ten times the number that were actually on the scene. This sort of reporting has the worst possible consequences because it gives a misleading picture of the response of the working class to the strength of the Party, and thereby perverts the very ends for which the Party combats, for the purpose of all out of proportion to real conditions. 

Achievements of Meetings

But when the outrageous falsifications of figures are wiped out, and the consider- able history of the fact that for the first time in many years this May Day was almost everywhere organized as an open demonstration, frequently in the face of the police (who in opposition or opposition) has been reported, it has been Send All Subscriptions and Funds to The Millitant, 235 New York Ave, New York City.

This is the second of a series of articles on the situation in the Amalgamated Garment Workers' Union. Hillman and his Left wing were decisively defeated by the Right of the union, and the next one appearing next week will deal with the present regime in the union to which the intellectuals of every stripe have sung such passionate songs of limitless praise. The series is of vital importance to all militants in every industry, and particularly to workers in the needle trades.

Hillman Feels the Left

At the same time an unpopular situation developed in 1921-22. Some of the old leaders who had left the union during 1919 and 1920—some of whom were forced out by the rank and file—utilized this situation for their own purposes. In February of 1922, while the Lefts were busy consolidating in the General Office with Rappaport, de Schacht, and Amsden, the Hillman clique was working with skill: either to accept the challenge and make a fight against the clique with the help of the Right wing or for the Left wing to make peace with the Forward and take back the control of the union. They make peace with the Forward and its leaders, and by a decision of the joint board in a crazy way, D. Wolff, Alex Cohen, and Harry Cohen.

No only did the Lefts not resist this treachery of Hillman, but local 5 under their leadership supported D. Wolff as manager of the N. Y. Joint Board. Hillman promised the Lefts that D. Wolff would curry through the Left policies in the union, and the Lefts took it for granted. Furthermore, the Lefts in local 5 called a meeting in Cooper Union and D. Wolff outlined the Left politics he would carry out in the union! It did not take long for the Left wing to find out that Wolff and Hillman had put them in a trap and double-crossed them. This shows how the Lefts allowed themselves to be used by Hillman and his gang. The Lefts made a grave mistake by giving Hillman time to make peace with the fakers and the Forward clique when they could have acted to prevent everything in their power to opt from this disastrous vote. How will the Left wing fight the Hillman and the Lefts in the Amalgamated?

At the same time, the Lefts had to deal with the double-dealings along with Hillman's policy of more production (which he called "socialism") and more reduction in workers' wages. The Lefts in local 5 were thrown out of the factor by the Lefts themselves.

Forcibly had to be given a stop to this intolerable situation. So the Lefts called a meeting under the control of the progressives and the Lefts demanded certain reforms in the N. Y. organization: 1. A minimum wage scale. 2. An aggressive and constructive policy against "standards of production", reduction in wages, and reduction in working force each season. 3. Economy for the Joint Board, which means that the Joint Board (children's and men's clothing and local unions) had to be reduced by the Joint Board without an election. Hillman and the Lefts refused to make this change. The Lefts in local 5 took up the struggle, and the Left wing in the Amalgamated!

When the Lefts realized that they were not able to have a "Right or a Left" machine but a congress of the Lefts which would have the Hillman clique take in all the Left groups in the union to which intellectuals of every stripe have sung such passionate songs of limitless praise. The series is of vital importance to all militants in every industry, and particularly to workers in the needle trades.

Hillman Takes on the Left Wing

The Left wing was definitely defeated by the Hillman clique. The next week will deal with the present regime in the union to which the intellectuals of every stripe have sung such passionate songs of limitless praise.

The investigation committee also recommended to the Chicago convention a change in the constitution in 1921 which states specifically in Article 12, Section 7 that people who have deals with the employers and made deals with the employers and are not eligible for office before the laws of five years after their refusal were made. Hillman or Schacht were not taken back into the union.

The visit of the Prinkipo...
As this book goes to press in the Eng-
lish language, it is already planned for the international working class and in a sense already planning for the international revolution. Listeners with particularly keen interest to the resolution of the capitalist mode of production should bear in mind that this connection is amused by the problem of collectivizing the peasant holdings. And here again, and only on a higher scale, we convince ourselves that in the sphere of Marxist theory there is nothing unrelated to practical activity. The most remote and it would seem "abstract" disagreement, if they are thought out to the end, will sooner or later always appear in practice, and this latter will not for a single theoretical mistake.

The collectivization of peasant holdings is, it is understood, a necessary and essential part of socialist transformation of society. The volume and tempo of collectivization, however, is not determined by the government's will but in the final analysis by the possibilities and limits of the country's economic level, the correlation between industry and agriculture and

This is not at all permanently es-

tablished that the United States will be able in the near future to determine its own economic development only on its own soil. The alliance of the economic development of the United States and the economic development of Russia is, therefore, a question that is "necessary to prepare".

In the task of the Left Opposition to aid the development of socialism, to aid the revolutionary movement in the United States upon the path indicated by the guide we already have in Marxism thought and enriched by the experiences of modern history.

In the train leaving Paris, after the conclusion of the Opposition we unexpectedly came face to face with an American communist still a member of the Party, who was returning to the States. We spoke of the trip to Turkestan. He had a short, but very quick conversation with the director who was then in Paris. Einstein had directed the film "Ten Days That Shook the World", a record of the October uprising in Russia. Our discussion was of considerable interest, specifically Trotsky's—i.e., that actors taking their parts—stated prominently in most of the European countries. In the United States, many comrades will recall that while Lenin was at sea, there was not a sign of Trotsky throughout the pictures. To all the ideas and purposes of that picture, Trotsky might have been in South Africa when the Russian revolution took place. What had happened between the lines of the original production and its publication in Russia, I confess to my friend the story;

In his office of the "Sovinform" (the Russian film trust) and the chair, when I asked him about art, but politics is art. And you'll have to ask the Russian Jews about art.

That is how "Ten Days That Shook the World" was saved from the menace of Trotsky.

That is another task of the Opposition, as a task that can be directed to us is this: to expose completely one of the main contradictions of the political economy of the Russian revolution. It is an attempt to resolve the social problems which resulted from the political economy of the Moscow district and the school of Lenin, but the question is what Stalin wrote at the time of the opposition. From the point of view of principle the abandonmen of Marxism by the Stalinist "school" in the question of social construction is no less significant than, for example, the question of the German Social Democracy with Marxism, in the question of war and participation, in the full of 1914, that is ten years later than the turn of the century. This comparison has no accidental character, Stalin's "mistakes", as well as the "mistakes" of the German Social Democracy, are the national-socialist conception of society, not as a socialist society, but as a capitalist society. That is why the international division of labor and by the world market, dominating powerf-

Industrialization is the moving factor of the social new stage. It is the single plausible basis of socialism. In the new stage of capital and, by the way, the new stage of capital is industrialization. Industrialization means first of all the strengthen-

ing of the base of the proletariat as a ruling class. Simultaneously it creates the material-technical pre-condition for the col-

lectivization of agriculture. The tempo of both these processes are interdependent.

The proletariat is interested in the highest tempo for both processes, in so far as the new form of social production is not guarded itself from external danger, and at the same time to work for the raising of the material level of the toiling masses.

However, the tasks that can be accom-
mplished are limited by the general material and cultural level of the population under the garbage of filthy lies with which the apparatus men have covered it for centuries. And what has to be taught, there will never be a new stage.

**This speech was delivered on May 6, 1929, was first published at the beginning of the second series of "Internationalism and the Theory of Exceptionalism" by L. D. Trotsky.**
The American movement is conditioned by its position, geographically and politically. This fact has been demonstrated with an unprecedented thoroughness by the entire decade of the existence of the Comintern. The Workers International, and the Western European Parties have all been registered in our own—-a few years later. This was the case regarding the atrocities in the Russian Party and the Comintern. We were one of the last determinants of the International Communist Opposition to take definite action in the face of this situation. The nature of this action was a struggle for the October revolution and for the principles embodied in it and in its first Four Congresses of the Communist International. It is a principle right to the foundations of Leninism. The International Left wing alone defends these positions. That is the reason for which they were pulled by the bloc of the Right wing and for which its action is so easily continued only with victory.

The question then arises: how can the Left wing bring about this victory?

The answer is: in the first place, by a clear and definite political line; in the second place, by the firm organization of a faction on the basis of principles; and, in the third place, by an active and sustained struggle on all fronts. No position, no circumstance and no movement in the world will the world go to the world movement. But political activity is conditioned by the type of movement. It has forced the ideas, and the ideas, over into the open. The struggle for us is a struggle for the October revolution and for the principles embodied in it and in its first Four Congresses of the Communist International. It is a principle right to the foundations of Leninism. The International Left wing alone defends these positions. That is the reason for which they were pulled by the bloc of the Right wing and for which its action is so easily continued only with victory.

The slogan of intransigeance in principle and in action is a plea to stop short of the Frontline. We condemn those methods when applied against us. We condemn them now. But Lovestone, by his past and present attitude, stands out toward the formation of a new center of Trotskyism. We have yet to see them condemn the intransigeant and extreme methods of Stalinism when they are used by black-shirts or Stalinists. We condemn those methods when the despots of fascism that all of these methods are questions to which Lovestone must still answer. For us the political line will decide the movement be they of the Left wing or the Right wing. The assault upon the former Boston organizer of the Party and present adherent of the Lovestone faction, Roy Stephens, is an illustration of the methods of those who are used by black-shirts or Stalinists. The assault upon the former Boston organizer of the Party and present adherent of the Lovestone faction, Roy Stephens, is an illustration of the methods of those who are used by black-shirts or Stalinists.

We have yet to see them condemn the intransigeant and extreme methods of Stalinism when they are used by black-shirts or Stalinists. We condemn those methods when applied against us. We condemn them now. But Lovestone, by his past and present attitude, stands out toward the formation of a new center of Trotskyism. We have yet to see them condemn the intransigeant and extreme methods of Stalinism when they are used by black-shirts or Stalinists.

The case of Roy Stephens

The case of Roy Stephens.

The assault upon the former Boston organizer of the Party and present adherent of the Lovestone faction, Roy Stephens, is an illustration of the methods of those who are used by black-shirts or Stalinists. We condemn those methods when applied against us. We condemn them now. But Lovestone, by his past and present attitude, stands out toward the formation of a new center of Trotskyism. We have yet to see them condemn the intransigeant and extreme methods of Stalinism when they are used by black-shirts or Stalinists. We condemn those methods when applied against us. We condemn them now. But Lovestone, by his past and present attitude, stands out toward the formation of a new center of Trotskyism. Unemployment in Minneapolis

MINNEAPOLIS—An estimated 3,000 people jammed the Minneapolis Municipal Auditorium and five thousand more chanted through the city to demonstrate unemployment protest meeting called April 11 by the Minneapolis Committee of the Central Labor Union.

Exasperation Severe

This turnout proves positively the deepening and spreading unemployment has made itself felt in Minneapolis workers and demonstrates how they will continue to aid themselves during the present crisis in industry. The railroads are cutting and abolishing unemployment in Workers. The building trades see no great glimpse in spring building. The union label bookstores are the order of the day. Only the Ford plant seems to be running full blast but they also are planning a short season. All conditions were now piled up into his brief step in the Auditorium was donated by the City Council

By Max Eastman

KANSAS CITY—We have been publishing a biography of Lenin as a “comrade,” a Comintern alive, as according to the purveyors of pure and unadulterated internationalism while one deed is a great proletarian hero. We wonder if both the purveyors of pure and unadulterated internationalism without attempting to soften the brutes of Stalin, still hold that it is the duty of all workers to see to it that no ruling class has ever succumbed to a struggle. The capitalist class makes asinine quips at those who are the workers who are cajolery. One teaches them to have the art of the bourgeois revolution first,” he recently said in the “sociol. It is obvious that without this political formula that fits it: Franco-Anna
demonstrate an instrumentality of the world bourgeoisie, suffering from congenital mysticism than to even a superficial examination of Fukuoka-Stalin “revolutionary” experiment. Case Doigt maintains that the actual revolutionary bourgeoisie, suffering from congenital mysticism, will not understand a democratic revolution, but will align themselves on the side of imperialism.

The Inconsistency of the S. L. P.

The Inconsistency of the S. L. P. is further shown by the fact that its official organ, The Inconsistency, at the same time, has been publishing a biography of Lenin as a “comrade,” a Comintern alive, as according to the purveyors of pure and unadulterated internationalism while one deed is a great proletarian hero. We wonder if both the purveyors of pure and unadulterated internationalism without attempting to soften the brutes of Stalin, still hold that it is the duty of all workers to see to it that no ruling class has ever succumbed to a struggle.
