The Arch-Communist Leads the Workers in the Class Struggle

As half of the International Communist Movement, the Greek communist party has been leading the workers in a struggle against the capitalist regime. The Greek party, the Communist Party of Greece (KKE), has been fighting for the establishment of a socialist society.

The KKE was founded in 1941 and has been a member of the Communist International. It has been active in the struggle against fascism during World War II and in the post-war period. The party has been involved in various struggles, including the fight against the Greek Civil War.

The KKE has a strong presence in the working class and has been able to mobilize广大 workers to fight for their rights. The party has been involved in various social movements, including the struggle for education, health care, and housing.

The KKE has been successful in winning elections and has been able to form alliances with other left-wing parties. The party has been able to win a significant number of seats in the Greek parliament.
