One Road for Miners!
Lay A Firm Class Foundation
at the Gillespie Convention

The problems which face the working class today, as a result of the depression, have placed a great duty upon the working class to fight against the conditions which are developing in the working class areas, to secure the development of the struggle which is being fought by the working class to save itself and to establish the working class in the struggle for power. The working class of today needs the leadership of the party which is being formed to carry on the struggle.

New York Get Busines Congress Report

NEW YORK—At a meeting held at the 12th St. Labor Temple on Monday night, March 4th, the New York Congress Business Committee met in session. The meeting was called to order by its chairman, Paul S. Blasser, and was attended by about 50 delegates. The committee, under the leadership of Paul S. Blasser, has been very active in recent weeks, and has made a number of important decisions.

Socialist, Police Clubs and the Reds

The committee discussed the question of the Socialist, Police Clubs, and the Reds. It was decided that the committee should take a strong stand against these organizations, and that it should work to build up the influence of the Communist Party in the labor movement.

We aim at the establishment of an organization of the working class which will be independent of all forms of domination, both of the state and of the class. We believe that the solution of the working-class problems can only be achieved by the working class itself, through its own organization. We are therefore opposed to all forms of domination, both of the state and of the class, and we are working to build up the influence of the Communist Party in the labor movement.

The committee also discussed the question of the Socialist, Police Clubs, and the Reds. It was decided that the committee should take a strong stand against these organizations, and that it should work to build up the influence of the Communist Party in the labor movement.
