Fascist Elections Show Stalinist Bankruptcy

Policy of «United Front From Below» Fails to Win Over Masses of Socialist Workers

The elections of the Social Democratic Party, which have been redoubled in the last two weeks, have given the Stalinist parties throughout Europe a new lease of life. The elections have been victorious, but with the defeat of other parties, and with the increase of the social democratic vote, the Stalinists have been able to halt the advance of the «United Front from Below» in their own countries. The elections have been a setback for the «United Front from Below» in other countries, for it has been unable to halt the advance of the social democratic vote, and has been forced to retreat in the face of the «United Front from Below».

St. Louis—The Unity Congress held its first meeting of the new session February 11th at the 
State Hotel, following the meeting at Federal Hall where the 
leadership of the Left Opposition was rejected. The meeting 
was under the direction of the delegates of the Left 
Opposition. The message from the International 
Congress, which was read to the meeting, made clear 
the necessity for the unity of the workers on the 
international level. The session was opened by the 
leadership of the Left Opposition. The delegates 
were then given a chance to discuss the program of 
the Unity Congress and to make suggestions for the 
work of the new session. The meeting adjourned 
without a vote. The leadership of the Left 
Opposition will hold the next meeting of the Unity 
Congress on February 18th.
