## ACROSS THE COUNTRY With Cannon **And Muste**

From A. J. Muste, national secretary of the Workers Party, comes further word of the tour he and James P. Cannon, editor of the New Militant, are making to present the program of the W.P. to the workers of the country. **Reports indicate that Comrades** Muste and Cannon's tour is a march of triumph.

By A. J. MUSTE MADISON, Wis .- The University of Wisconsin is becoming more conservative. Phil LaFollette, of the new Progressive Party, is trying his hand at doing something for the masses with a reformist program. He has an alibi, however, since the Progressives do not control the legislature and so the moral may not be so obvious to the masses as it should be.

An old Brookwood graduate, though not a W.P. sympathizer, got up a meeting here at short notice. They planned to have it in a house but had to transfer to a hall because over fifty wanted to come. If the Chicago District got estabished, it ought to have little trouble in forming a branch here.

Here our first taste of northwestern cold begins. The train is due at 1 A.M. It crawls in about 3. We are due in Minneapolis at 8 A.M. and get there 5 hours late. Over 30 degrees below zero and a cutting wind. What a reception!

## (By Special Correspondent)

MINNEAPOLIS, Minn .--- Vigorous, nard-hitting resolutions, one condemning reactionary union leaders the Central Opera House, 205 East and going on record for a national organization of militant and progressive union forces, the other demanding a genuine Workers' Security Program, were adopted at the one-day meeting of the Northwest Unity Conference, held at the headquarters of Drivers' Local No. 574. Fifty delegates, from unions num pering 10,000, attended the confer-

ence. The security program adopted was the program advocated by che National Unemployed League. The resolutions follow in full:

"Whereas, the workers of the U. S. have demonstrated a determination to organize and a willingness to fight desperately for the right to organize and against the whole campaign to put them on a pauper basis; and

"Whereas, the masses will find no support but only new betrayals in his attacks on education. outworn craft unionism and autocratic union leadership which bases Provisional Committee for Non- formed.

## **Leaves Communist Party for** Workers Party -- Tells Why

"To me it is becoming increasingly evident that the banner of proletarian revolution is now in the hands of the Workers Party," says Harold Smith, resigning from the Communist Party.

The letter of the section memhershin committee to Comrade Smith and his reply to the district committee are published below, without further comment.

Jan. 18, 1935

Comrade Smith:

Please call at Section 5 this Wednesday, Jan. 25, 7:30 P.M to see ple fact of the matter is that by the Section organizer about the returning my membership book statement that you made in our some two weeks ago, I resigned Section that you are in favor of from the C.P. true disciple of Lenin. As this is the second notice that we are sending you, if you do not answer by Wednesday, you will be expelled from the C.P. and publicly exposed as an enemy of the working class.

Membership Committee, Section 5, District 2

Charles Krumbein. District Committee C.P., U.S.A.

My reasons for resigning from your party I may state briefly. 1. Your party no longer applies

the teachings of Lenin but the ar- judge. To discard the "disciple" bitrary decrees of Stalin and his bugaboo, and begin to study with picked crew. Your party is domi- free heads. To recognize that the direct result, sectarianism keeps not by blind obedience but by demyou separated from the working ocratic centralism, by the widest class.

2. Since the suppression of the best minds and spirits of the revolution, your officialdom has accumulated a long list of failures. \* \* \*

3. 'The Party's trade union policy, its united front tactics, its amours with the League of (capitalist) Nations, its concessions to the French and American bourgeoisie, indicate too clearly the headlong march to the right.

4. When your apparatus grows it swells with the pus of the petty bourgeois. The backbone is nonproletarian and flabby.

5. You are no longer capable of self-criticism, and having become infallible, you no longer need polemics. You have very mysteriously caught the knack of avoiding any and all mistakes. Subsequent events invariably prove that the latest debacle of proletarian defeat shows the correctness of the party line. These are some of my reasons. Your letter informing me that if fail to see the organizer by Wednesday I shall from that day be-

ome an enemy of the workingclass, is a happy bit of humor. The sim-

Trotsky and that he is the only true disciple of Lenin. As this is on this point there appears to me much discord, i.e. on what you recognize and what the workers are actually doing.

You say I will be "exposed". May ask-exposed to whom? And exposed in what connection?

I ask my friends and comrades inside the C. P. to recognize the political surge when such sterling proletarian revolutionists as Zack, Strong, Taylor, Terry etc. are mak-

ing the turn. I ask them to study the platform of the Workers Party so that they may really be able to

initiative

nated by a bureaucracy and as a monster Fascism can be destroyed the reformist highways-but it cannot be destroyed.

> polemics and by genuine individual To me it is becoming increasingly evident that the banner of proletarian revolution is now in the

hands of the Workers Party. -HAROLD SMITH

Gitlow ! Workers Cannot Deviate

The workers need a clear revolutionary program and a consistent revolutionary leadership. They are not concerned with deviations. The workers themselves cannot deviate, however much they may be led to bark at tinsel moons temptingly dangled over them by the Roosevelts, the liberals and the fascists.

In the end there is only one path that leads to the goal-the revolutionary path. When the workers realize this, they will set up the fascists.

cry for unity. But they will mean, not their own unity (for it is by the recognition of their own unity that they find the revolutionary path) but the unity of their leadership. The leadership will either lead the way to by the shortest and most direct

route, or fall by the wayside with the thousand Kerenskys et al.

Nothing finally can destroy the essential unity of the proletariat. It is said that failure to unite against Fascism results in Fascist "unity"-that is, the concentration workers are indisolubly united by Unemployed Council fell into its a single interest and a single goal, hands Unity can be delayed, obstructed.

led into the lunatic byways and This is the conception of unity

held by the National Unemployed League. It underlies the NUL program for achieving unity in the Conference that same year in the unemployed movement. But before we come to that program, we will review briefly the united front experiences of the NUL to date.

The experiences of the NUL in the struggle for unity may be classified for the sake of convenience as follows: a) the united front on specific issues, b) organizational and organic unity. In reality, however, this classi fication is not altogether valid. uncensored paper said.

The Struggle for Unity

## NEW MILITANT

# Bridge that Gap!

NO REVOLUTIONARY labor organization has ever been able to make any progress by the efforts of its members alone. Without their devotion, self-sacrifice, zeal and activity, the movement would of course be inconceivable. But while they bear the greatest part of the burden of work, they cannot assume the whole of it. The rest must be taken off their shoulders by-the sympathizers, the unaffiliated friends of the movement

The number of sympathizers a working class party has and the vigor with which they come to its aid-these are the tests of the party's success. The response of sympathizers to the appeals for support which the party must make from time to time, indicates the influence the party has radiated and the prestige it enjoys.

Answering the most urgent need of the hour, some of the best forces in the American revolutionary movement have joined hands to launch the new party. They do not include altogether "green hands", amateurs, dilletantes, but men and women who have given their best years to the working class movement. In it, they have gained a vast store of experience and ability which is now at our disposal. Not only do they incarnate the best and richest traditions of the revolutionary movement in this country, but they bring to the Workers Party the living proof of its ability to lead stormy struggles of labor. Minneapolis, Toledo, the battles of the unemployed-which directly preceded the formation of our party-are symbolic of the work which it is going to carry on in coming days.

And what magnificent prospects for work there are! Reports which come to us every day from all parts of the country speak be formed around the issue of fighteloquently of the inexhaustible possibilities. Our meetings are larger than ever before. Our organizers are insufficient in number to meet the growing demand. Automobiles, steel, rubber, mining, transportation-the big and basic industries of the country-are sending in urgent appeals for assistance in organizing, in preparing for the great battles with which the year 1935 will be filled. Our press is leaping forward in circulation and ever increasing numbers of workers are proving the favorable impression that our party's views and activities are making on them.

How shall we meet this growing demand? How are we to profit by the splendid opportunities that confront us? How are we to satisfy the requests for more speakers, tours, organizers, literature?

The wheels of the party machinery must be lubricated for greater speed and efficiency. Our Party Foundation Fund campaign is calculated to do just that.

Every party member is called upon to make the maximum sacrifices. They must pay their dues regularly. They must do their union work. They must do their work in the organizations of the unemployed. They must assure the regularly increasing dix. The sume thing is true for distribution of our press and periodical literature. They must organize our meetings. They must arrange special affairs. They must contribute special donations from time to time, running as high as two-days' wages in the present campaign.

They accept these burdens cheerfully. The revolutionary movement is their very life's blood and they are always ready to do their utmost for it. But the need is greater than even their efforts suffice to meet. And that is why we must appeal for supplementary aid from our sympathizers who, for one reason or another, are unable to join our party.

Do we need to labor the point? We don't think so. Every friend of our movement, we feel confident, will respond generously and speedily to our appeal. The money is urgently required. Your contribution will help make it possible for the of society, that is to say, of capiparty to accomplish all those jobs imperiously facing it. And the speedy giver-gives doubly.

PACIFISM

PEACE PLANS AND

By JOHN WEST (Ed. Note: This is the second

in Comrade West's series of four articles. The remaining two-"The League Against War and Fascism" and "The United Front and War"-will follow in the next two issues of the New Militant.)

### Even a brief study of the nature and causes of modern war proves that war is an essential part of capitalism. The inner conflicts of capitalism lead and must lead to war. All Marxists, and in fact

many pseudo-Marxists or even liberals, accept this conclusion, Nevertheless, there have been the most serious misconceptions in following out the consequences of this conclusion so far as they apply to the struggle against war. The most serious mistake made in the attempted struggle against war comes from the wide-spread belief that this struggle is somehow "independent" of the class struggle in general, that a broad

union of all sorts of persons from every social class and group can ing war, since-so the reasoning goes-these persons may be all equally opposed to war whatever their differences on other points. War is thus lifted from its social base, considered apart from its causes and conditions, as if it were a mystic abstraction instead of a concrete historical institution. Acting on this belief, attempts are made to build up all kinds of permanent Peace Societies, Anti-War Against Organizations, Leagues

War, etc. TO END WAR WE MUST REMOVE CAUSE

This kind of attitude is about as effective as it would be for doctors to treat the high fever in acute appendicitis by putting the patient in an ice-box. The only way actually to get rid of the high fever is to remove the cause of the fever—that is, to take out the diseased appenwar: the only way to get rid of war is to remove the cause of war. Putting screens around the rotting supports of a building will not improve its foundations. It will, in fact, do just the opposite —it will divert people's attention from the need for new foundations, and therefore make it all the more likely that the building will collapse,

War is not the cause of the troubles of society. The opposite is true. War is a symptom and result of the irreconcilable troubles and conflicts of the present form talism. The only way to fight against war is to fight against the causes of war. Since the causes

of war are part of the inner na- clearly from all forms of pacifism. ture of capitalism, it follows that The revolutionary struggle against | If concessions must be given-

Alliance with the Bourgeoisie

The policies pursued by the leaders of the two parties in the united front have tended not to lead the masses in militant struggle, but on the contrary to full them into inaction. Both bureaucracies, starting with a non-aggression pact not to criticize each other at all, are unwilling to aim at establishing workers' power-the only method of defeating fascism. Instead, the two function of opening the road to leaderships prefer to uphold bourgeois democracy, the one because of its entire nature historically, the other due to the needs of Soviet The course of events, the immidiplomacy to maintain the French nent menace of fascism, aroused

military alliance. Recently the Communists took he initiative in adding to the united front the Radicals and the Radical-Socialists, both parties of the petty bourgeoisie. The Socialist Party, taking its due from the C.P., has accepted this situation without much opposition. This is the surest way to give the victory to the reactionary forces and to bring about the bloody defeat of the proletariat. Under the guise of the common interests of the youth, the Young Communists of one Paris District have actually held meetings in common with the fascists organized in the Patriotic Youth.

The Anniversary

The French masses are waiting expectantly for February 6. It is possible that the fascist Croix de Feu and Francistes and other organizations may attempt, as they have threatened, to demonstrate their power anew on this date. This would undoubtedly bring a fresh current of struggle and resistance into the ranks of the proletariat. to decide if the employees pay the Unless the workers are aroused from the apathy into which they seem, on the surface, to have sunk in recent months, fascism may march forward at faster pace. The recent riots at Chartres give the first signs of renewed street battles which will take on a wider mass character in the days to come.

Sugar Workers Strike in Porto Rico

A dramatic strike movement grips the island of Puerto Rico, where the colonial slaves of Wall Street have again rebelled. The ture of capitalism, it follows that the only way to fight against war is to fight against capitalism. But the only way to fight against war is to fight against capitalism. But the only way to fight against capitalism. But the only true fight against true fight against capitalism. jority

## Roosevelt Progarm

**I** F the workers needed any further evidence that the Roosevelt program is for the bosses and against the workers, the Social Security bill now before Congress promises such evidence in overwhelming abundance. Four billion dollars is to be appropriated for public works to be carried out underthe President's personal and exclusive direction. Thus three and a half billion are to be taken off the relief rolls and put to work. We submit the following damning indictment of this program:

1. It makes scabs of those who take jobs under it. The President talks openly of paying \$50 per month, about \$11 per week, on these jobs. As a matter of fact, not enough money is being appropriated to pay that much. In many cases, therefore, especially outside the biggest cities, men and women will get as little as \$5 per week. That constitutes scabbing on the standard of the entire American working class.

2. By the same token, the program means the pauperization of the entire working class, while profits pile up in the hands of a few who are enabled by the grace of Roosevelt to luxuriate in Florida again as they did in the good old days of the Coolidge-Hoover boom

3. Roosevelt is made a dictator over the lives of millions and enabled to proceed with building a mighty political machine.

4. Since no specific provision is made as to what the money is to be spent for, it will enable Roosevelt (i.e., the American imperialists)' to go ahead with a big naval and military program.

Let the unemployed organize to fight the Roosevelt scabbery Pauperization Program. Let them demand the 30-hour week and \$30 weekly wage on all jobs. Let the employed workers, the unions, the farmers, the masses everywhere support the unemployed in

ILLIAM Randolph Hearst is crusading against the "Reds" for the protection of his interests, his newspaper monopolies, his California barony and

the honor of his movie queen. The stell companies are fighting the "Reds" for the protection of their interests, their company unions, their untrammeled freedom to exploit labor and their right of making as much profit as possible with as little return as possible.

L. bureaucrats, is fighting the "Reds" in the steel unions for the protection of his interests, his right of controlling the union as he sees fit, his determination to avoid any kind of militancy even if it means the destruction of the union.

The "Reds" are the common denominator, the universal bogey for all these interests. Here is the

proof. The Duquesne Times, organ of the Carnegie Steel Company of Duquesne, Pa., reprints a Red-baiting editorial from the Hearst Pittsburgh Sun-Telegraph with this note:

"The following article should be published in every loyal newspaper in the United States. And if results are not favorable communities should adopt the same method that for a time was in vogue in the early history of California. There are plenty of vacant trees, and hemp these days can readily be produced." (Duquesne Times, Friday, Jan. 4, 1935.)

The Journal of the Amalgamated Steel Workers in jail, we all go to jail," won the its last issue publishes an editorial aimed against day. Not only did the attempts to the "Progressive" movemene in the union. It charges single out for special punishment the movement with being a communist affair and fail, but the demonstration settled calls on all workers to "stamp out the reds in your locals" . . .!

In the one case the steel bosses are fighting the steel workers, calling them "Reds", trying to create a lynch psychology against them. In the case of Tighe, he is fighting the more militant steel workers, trying to create a lynch psychology against them by calling them "Reds".

In both cases, William Randolph Hearst supplies the philosoppy and the ammunition.

That is how "Red" becomes the name of every worker who fights exploitation and labor-fakers. As one of the Jones and Laughlin Mill steel work-

ers expressed it: "When they call us "Reds" it only means that

we are not dummies. When the steel bosses yell "Red" it means that we are asking for union recognition. When Tighe yells "Red" it means that we are fighting for union democracy. So why should we kick? That's what we are doing, isn't it? And the more they yell, the more we're going to do It !"

### MASS MEETING

A. J. MUSTE National Secretary, Workers Party of the U.S.

WILL SPEAK ON

Coming Gigantic Strike Struggles In Steel -- Auto -- Rubber

Comrade Muste who is at present touring the mid-West, has studied the situation at first hand. He has met and conferred with the leader's of last year's great labor struggles in these

regions.

GREAT STRUGGLES IMPEND Hear the Message of the Workers Party

Sunday, February 10th 3 p.m. **IRVING PLAZA HALL** 15th St. and Irving Place DISCUSSION Admission 15c

Auspices: Workers Party of the U. S., N. Y. District

workers is to organize common cause with the steel workers in a nation-wide strike for recognation of the steel union and for pline imposed by majority decisions. the granting of its demands, toge-This organization should extend ther with recognition of the miners'

This appeal should also go out from the districts of the A.A. to the districts of the miners union and it should be followed up by an intense agitation among the rank and file coal miners. From the miners an effective response is certain when they are properly ap-

**Unemployed** Allies

Among the potential allies of the steel workers, count also the unemployed organizations. The jobless workers realize that they must make common cause with the unions in their struggles. Look at the effective manner the unemployed workers have helped on the picket | elephants, camels, kangaroos, etc. in line in recent strikes A call from

sist on the picket lines, would produce results. We have no doubt that the unemployed organizations themselves would lose no time, as soon as prspects of a strike appeared, in preparing their own members to lend all possible coop-

**Betreat** is Fatal

Above all, however, it is necessary to recognize now, in the problems that the steel workers' union now faces, that any retreat would be fatal. No further vacillations . . . House Democrats move to inshould be tolerated.

It is time to have done with the treacherous, bureaucratic schemes of the Tighe administration. It is necessary to recognize that none of the demands of the steel workers, and that the actual building of the union, <u>cannot</u> be accomplished without direct, persistent struggle against the Tighe administration as well as against the steel trust.

says one. . . . "The unemployed, by and large, are getting enough," says Harry Hopkins, administrator of relief. . . . The Journal of Commerce estimates dividend payments for 1934 at \$6,340,000,000. Father Coughlin says: "Labor The Tighe administration has should have a voice in the managethrown down the gauntlet to the ment and in the social conditions of progressives. It is up to them to the factory. I say you should have pick it up and to make it a fight a voice, perhaps not the loudest

to the finish, to clean this whole voice. You shouldn't demand wages administration out of office. This that are too high but a voice in the is an absolute prerequisite of a management that will enable more powerful steel workers' union. profits to be made." . . .
