MINERS STAND FIRM IN REPUDIATING WLB

FarrellDobbsStarts On National Tour

Speaks on Labor Party Prospects in His Coast to Coast Tour; Opens in Los Angeles

The long awaited national tour of Farrell Dobbs, National Labor Secretary of the Socialist Workers Party, opened in Los Angeles on May 9 with a highly successful meeting attended by many non-party workers who had come to hear Dobbs for the first time as he spoke on perspectives of the labor party movement.

Held at the new and enlarged headquarters of the Los Angeles branch of the SWP, 232 South Hill Street, the enthusiasm of the meeting was indicated when four workers joined

the party immediately following the discussion period. Shipbuilding, maritime and auto were the industries represented by the new recruits.

Comrade Dobbs, fully recovered from a recent illness, spoke at length on the factors now making for the formation of an Independent Labor Party based upon the trade unions. He dwelt on the struggle of the miners' for a living wage and explained how their fight has given a great impetus to working class steps toward independent political action

The Los Angeles meeting, and the San Diego meeting which followed it on May 16, were the opening guns in a three month tour which will bring Comrade Dobbs to all the major branches of the party from coast to coast.

Reports show that each city is eagerly awaiting his arrival, spreading word among friends and contacts, and preparing to utilize the meeting for the education of the advanced workers on the question of the labor party and to stimulate the party's recruiting campaign.

Comrade Dobbs is well known to worker militants throughout low: the country. His record as former international organizer of the In-

An Editorial

The growing gap between the great mass of the CIO workers and their top officials has been demonstrated in their contrasting attitudes toward the miners' fight.

The workers are for the miners. Their attitude was shown in the two big conferences of the United Auto Workers — the May 1-2 conference in Detroit of 1,000 delegates representing 350,-000 Michigan members, and the May 6 conference in New York of 1,000 delegates representing all the eastern locals. Both by overwhelming majorities --- only a handful of Stalinists in each case were the main opposition from the floor --- adopted resolutions for all-out support of the miners' fight. Moreover, this was voted against the opposition of the entire UAW executive board!

These two conferences of the biggest union in the CIO undoubtedly expressed the sentiments of the rank and file of the CIO as a whole.

On the other hand the CIO executive board met last week in Gleveland and could find nothing more important to do than to denounce John L. Lewis.

Of course, ex-miner Philip Murray, CIO President, denies that he is attacking the miners, claiming only to be opposed to the "political vendetta" conducted against "our Commander-in-chief" by John L. Lewis. But the CIO board's resolution pretends to find a distinction between Lewis and the rank and file miners exactly at the point where no distinction exists. Lewis' present policy and methods of struggle for a living wage are supported by the UMW membership to a man.

The workers are for the miners' fight because they understand that the miners are now the vanguard in labor's struggle for wage increases to compensate for spiralling price rises.

The CIO leaders, on the other hand — and this is equally true of the AFL executive board — are against the miners' fight because these leaders take their orders not from their members but from Roosevelt. As servile supporters of the administration, they are dragged along by it in opposition to the miners and all that the miners' fight stands for.

Murray and the other CIO leaders know very well that the rank and file of the CIO are for the miners' fight. That is why not one of the top CIO leaders has dared to put the issue up to a vote by the membership in the local unions. On the contrary, they are doing everything they can to stifle the pro-miners' sentiment of the CIO membership.

The CIO workers must speak out! Let them follow the lead of the auto workers' conferences! All support to the miners!

The CIO workers must see to it that their official leaders stop stifling the sentiment in the ranks which is for the miners. The fighting miners are the spearhead of labor's struggle. Every CIO worker owes it to them to find a way for his union to express itself in favor of the miners' fight. of the AFL and CIO leaders (and, ICKES AVOIDS SHOWDOWN

Miners Stay United On Right to Strike: Murray, Green Still Aiding Roosevelt In Attempts to Smash Miners' Struggle

Standing firm as ever on the miners' wage demands, their right to strike, and their repudiation of the War Labor Board, the United Mine Workers scale committee announced Monday night that a second 15-day truce, ending midnight May 31, had been agreed to in response to a telegram from Harold L. Ickes, government manager of the mines.

Ickes' telegram came only a day before expiration of the first 15-day truce, and a few hours after the War Labor Board, presumably speaking for Roosevelt, had denounced John L. Lewis as "defying the lawfully established procedures of the government of the United States" by his "refusing to seek the approval of the War Labor Board" for the wage increases that the miners are demanding. In its vicious attack on Lewis the WLB did not dare, however, to attempt to answer his charges that it had prejudged the miners' cause in advance by its "Little Steel" formula which would bar the miners from any real increase in wages.

sisted it would not step out of the controversy, and the mine Thomas L. Kennedy). Even if the operators simultaneously an nounced that the WLB had "forbidden" them to go to New York to reopen negotiations with the United Mine Workers as John L. Lewis had invited them

to do. WLB LOSES PRESTIGE

Whatever the final form of settlement of the mine controver: sy, the miners have dealt an irretrievable blow to the War Labor Board. In its eighteen months of existence this Board has been the principal weapon used against the labor movement, shop for good. thanks to the participation in it

In its statement the WLB in until recently, we do not forget, the UMW secretary-treasurer, WLB somehow manages to survive the mine fight, its prestige and power of intimidation will never ... remotely approximate what it was before.

This is implicitly admitted by the WLB members in their frantic efforts to save something from the wreckage. All their energies today are centered on staying in the mine controversy. Everything else-cases, hearings, etc.-has stopped for the time being, for the WLB well knows that if the miners are decisively victorious the WLB will have to close up

capitalist class may have had on the eve of the May 1 deadline, concerning how the miners would act, there were no longer such llusions on the eve of the May 15 deadline. Unlike last time, no newspapers sent reporters into the

The WLB and operators' statements inspired a renewed lynch campaign against John L. Lewis and the miners, radio reports and press headlines and editorials branding Lewis as an "outlaw." Apparently the stage was being set for a new showdown, with the press and radio incitement against the miners being designed to

Miners Pleased With "The Militant" Story **Of Their Struggle**

PITTSBURGH, May 18 --Distributors of "The Militant' among Western Pennsylvania miners during the last two weeks report the friendliest reception.

One distributor says: "The miners liked the paper immensely. 'This is the only paper l have seen that is supporting us. Why don't others tell the truth about us? This story is good. That's what we need. These are some of the comments they made about 'The Militant'."

Another reports: "Even high officials of the UMW district here acclaim 'Militant' coverage of the strike. The whole press has damned them to hell and you have no idea of how pleased they get to see a fair write-up in a paper."

All reports from the mine fields agree that the rank and file miners have every determination to hold out until their demands are met.

justify bloody repressions as the niners went on strike.

But the showdown did not come. Roosevelt was thus saved another. moral defeat like that of his ultimatum-telegram of April 29 which called on the miners, over the head of their leaders, to stay

In peacetime these forces are always exerting pressure against the labor movement more openly in the affairs of labor militant struggles.

It isn't that Roosevelt calls Walter White or A. Philip Randolph to the White House and tells them that they can't do this or they can't do that. (Although he did virtually that in the case of the proposed March-on-Washington that was scheduled to take place in July, 1941.) The administrative intervention into the affairs of Negro organizations' is usually a. lot more subtle than that. It exerts its pressure less directly, but just as effectively.

"We must have national unity in time of war," says the administration. And while it is saying it, Negroes are being segregat ed in the armed forces; the Fair is deprived of whatever little tates.

effectiveness it ever had; Negroes In our column next week we are being lynched and terrorized intend to discuss this further and sible, for it is illogical that an in the South, discriminated against

Mr. Winchell Is A Liar

We reproduce this item from Walter Winchell's syndicated column as the week's example of the Stalinist slander factory which gave him this "inside" dope. The day after it appeared the Stalinist Daily Worker reprinted Winchell's item to show that others repeat its lies.

Like all practical liars, Winchell uses one kernel of truth: The Militant has been deprived of its second-class mailing privileges. Not, however, for fascist connections, as Winchell lyingly claims, but for the exact opposite reason. The persecution of The Militant is a continuation of the persecution which began in the famous Minneapolis labor trial, in which eighteen trade unionists and Trotskyists were convicted because they are followers of Lenin - i.e., they are revolutionary Marxists, the opposite of fascists.

As for the rest of Winchell's lies, Jacques Doriot is not and never was a Trotskyist - he was a Stalinist leader before he become a fascist; Quisling's wife may be a "Ukrainian Party leader," but not of a Trotskyist party; and the only connection between Norwegian Trotskyists and the Nazis is that any Trotskyist caught in Nazi-held territory or in Germany is executed or imprisoned — our list of such martyrs is unfortunately all too long.

is a dead give-away of the Stalinist source of his "information." rolling in wealth, would never think of that explanation. The Stalinists advocated a compulsory day's-pay assessment in UE Local 425, and the membership turned it down almost against fascism when Mr. Winchell thought that fascism was victim of the day and at the same unanimously. Those workers, victimized by rising prices and the latest dance step from Cuba.

Capital authorities allege that Trotzkyites over here are sponsible for some of the obstructionists in Washington. "The Militant," one of their supporters, recently lost its mailing privileges because it was allegedly seditious...At the Ford instrument plant in ong Island City, Trotzkyites are blamed for stopping workers 1939. rom donating one day's pay to United War Relief... Jacques Doriot. leader of the Fascist bloc in France, was and still is leader of the novement there, it is said, and Quisling's wife is a Ukrainian Party eader, who got him his connection with the Nazis through the Norwegian Trotzkyites. 703- PEU

Winchell's reference to the Ford Instrument Co. workers frozen, wages, decided that charity begins at home. Winchell,

We Trotskyists were fighting and dying in the struggle

'Jacson' Verdict Says He Came **To Mexico To Murder Trotsky**

By Walter O'Rourke

MEXICO CITY, April 20 (By Mail). - On April 16, nearly two years and eight months after commission of his crime, 'Frank Jacson" was sentenced for the murder of Leon Trotsky. The penalty imposed on the GPU agent was 20 years - Mexico does not have capital punishment or life sentence for murder.

The lengthy written verdict constitutes a forceful rejection of all the lies employed by the GPU in its defense of Jacson. The judges rejected (1) Jacson's story that he was sent by a 'member of the Fourth International" from Paris to serve as secretary to Trotsky; (2) Jacson's pretense that he was a "disillusioned Trotskyist"; (3) Jacson's attempted retraction of his earlier statements as to the cowardly manner in which he struck

sequences in the political activities of that same political party, and that without a background be permitted to be at the side

CAME TO KILL TROTSKY

Further on this point, the verlict analyzes how the murdere came to Mexico and sums up:

The court deals him with tasks of notorious con-1. From this and other details, with this attempt in these words:

In Memory Of **Robert Sheldon Harte** Robert Sheldon Harte was murdered by the GPU three years

ago this week. It was shortly before dawn on May 24, 1940 that the assassins crept into Trotsky's home in Coyoacan, Mexico, spraved his bedroom with bullets and, thinking he was dead, fled carrying with them Bob Harte, secretary-guard to the Old Man. Later they shot Harte and threw his body into a lime pit.

The self-confessed leader of the May 24 murder band was David Alfaro Siqueiras, prominent Mexican Stalinist. On June 18 he was arrested, along with 26 other Stalinists, only to be released shortly afterward on bail. Once free he fled from Mexico.

Bob Harte.was young when Stalin snuffed out his life -25 years of age. He came from a wealthy family and could have led a life of idleness and luxury had he chosen. Instead he dedicated his life - and gave it - to the revolutionary movement.

the verdict rejects Jacson's GPU-1 "Only after nearly ten months of of war they were ready to accept concocted story that he was the trial have passed, or on the anything that promised peace. text presented by the prisoner or his attorney to explain the cause of this retraction and thus to enable a study of it by this court. The multiple, persistent and reiterated confessions of the accused must remain completely unaffected."

As for Jacson's "new version' that he was provoked by Trotsky into struggle and murder, the court writes that it "has no support at all in the evidence and on the contrary, from the study out a denunciation of "Bolshevof the evidence and testimony it appears that the homicide in question was committed without

ny prior struggle." Once again in connection with this point the verdict states: "The court has to declare that the trip of Frank Jacson or Jacques Mornard to Mexico was undertaken with the sole object of killing Trotsky. . ."

This is precisely what Natalia Trotsky, Trotsky's guards and supporters as well as the entire revolutionary movement has declared since the murder.

Unfortunately the court did not take the final logical step in this line of argument and brand Jacson as an agent of the GPU. It mentions that Trotsky's widow as well as other persons have so branded Jacson but the proofs, it says, do not bring "legal conviction" of this fact. One can imagine that diplomatic considerations of the "United Nations" of which Mexico is one played a part in this formulation.

APPEAL IS ANNOUNCED

Immediately following the reading of the sentence, Jacson's lawyers announced that they would appeal. The case will go first to the Superior Tribunal and then, assuming the defense loses and continues its appeal, to the Supreme Court. These appeals may well run into another year and a half of litigation. Jacson's lawyers are spending great sums of money - we can easily guess where they come from, for he has no visible income

Natalia Trotsky, of course, will continue to exercise her right of participation in each of the steps during the appeal procedure.

to the Nazi wolves for the sake of macy, but, on the contrary, the Empire. The Stalin-Hitler pact, recently released amid great fanon the contrary, violated all the fare. The "Roll-Back" Fraud After much beating of the drums the "roll-back"

went into effect on May 18. This widely publicized measure was intended by the administration to cut the ground from under the miners' demand for higher wages to meet increased living costs. The miners (and other workers) were told in effect: "You won't need increases because prices will be reduced to meet your present wages."

This was the program behind which Murray and Green and the entire top AFL-CIO leadership rallied instead of emulating the example of the miners and fighting for wage increases.

What were the very first consequences of the operation of the roll-back? Have prices been reduced even on the few items placed under the rollback? Just the contrary has taken place. Here are the facts:

The OPA ordered a 15 to 25 per cent reduction in the price of vegetables. With the new crops coming in the seasonal decline of vegetable prices would be much greater than this. The OPA order thus actually limits the seasonal drop in vegetable prices and thereby increases the costs of these items.

So far as meats are concerned, the announced reduction of 10 per cent simply didn't take place. To begin with, the new OPA price ceilings were openly boosted 3 to 5 cents a pound on B and C grades of meats, that is, the cheaper cuts bought by the workers. And then dealers proceded deliberately to conceal labels, selling C meat at B prices, and in some cases at A prices, not to mention the black-market prices.

Within six hours of the roll-back deadline on May 18, this new price gouging scandal broke in New York City. Reports have not come in as yet from other urban centers but there is little reason to believe that there will be any essential difference in conditions elsewhere. According to the survey of markets made by the N. Y. Daily News on May 18, "the worst offenders. . . are shops on the fringes of the shabbier neighborhoods." This is a euphemistic way of saying that the workers' living standards are again taking a beating. The price gouging was not confined to meats but extended to "several hundred grocery items" as well. The only places any roll-back in meat prices were even claimed to be functioning was in the expensive shops where choice cuts were quoted at ceilings for Grade A quality.

All of which means that the workers are not even back where they started, but worse off, with the worst still to come. While Messrs. Green and Murray exert themselves in agitating for the rollback, living costs continue to skyrocket and wages

Not only the miners should receive wage increases but other workers as well

Vice-President Wallace Blurts Out Two Truths

By Ralph Johnson

It was once remarked that language was created in order to enable people to hide their real thoughts, This rather cynical observation certainly applies with full force to capitalist diplomats and statesmen. But precisely because language serves the end of transmitting not only lies but the truth, the latter does occasionally creep through even the pronouncements of the most expert dissemblers, hypocrites and the common garden-variety of liars.

Vice-President Henry A. Wallace, who has been doing a lot of talking lately, is an excellent case in point. Speaking before the state executive committee of the New York ALP, and referring to the problem of employment under post-war conditions. Mr. Wallace said:

"With unemployment, it would be impossible for Stalin himself, no matter how hard he tried, to stop the growth of communism." (N. Y. Times, May 17.) In these words there is more truth than meets the eye at first glance, and far more than Mr. Wallace must have originally intended.

For one of the things he let slip is that Stalin's "democratic" allies are depending on Joseph Stalin to assist them in trying to "stop the growth of communism."

Their expectations and confidence are not exactly misplaced. They are backed by Stalin's whole record of never hesitating to use the world labor movement as so much small change in his diplomatic deals with capitalists, whether fascist or "democratic." Any militant in the labor movement knows that here Mr. Wallace refers to something that experience itself has borne out and continues to bear out every day. Stalinists are scabbing not only on the spread of socialism and its ideas but even on the attempts of workers to preserve their elementary organizations, the trade unions, and their standard of living. The Stalinists are playing the bosses' game all the way down the line.

The second significant revelation in Wallace's remarks is: at what straws the capitalists themselves clutch to preserve faith in the perpetuation of their completely decayed system. To be sure, the Vice-President became so indiscreet, only because he feels confident that employment can still be assured under capitalism. No doubt he is sincere in his conviction. The trouble, however, is that there is not the slightest basis for it in reality. He and his colleagues could not assure employment in the richest country in the world in the period of peace, certainly not during 1929-1940 in the United States, and nowhere else since 1918. How then can they, assuming they remain in power, do it after this war which has already left the whole world including the United States far more devastated and infinitely poorer?

The answer is they can't and they won't. Only a Workers' and Farmers' Government can do it. That is why Wallace and Co. even with the aid of Stalin will not prevent "the growth of communism."

Not the least shabby of the records set by the metropolitan press in connection with the "Mission To Moscow" whitewash film is that of the N. Y. Times, the most authoritative organ of America's Sixty Families. This newspaper pretends to the highest standards (moral and otherwise) in news reporting. Here is the Times' record on "Mission To Moscow": On April 30 Mr. Bosley Crowther, after prefacing his remarks with an observation that the film was sure to be "controversial," proceeded in his review to leave no doubt as to where he stood in the "controversy" by characterizing it as "a generally faithful screen version" of current historical events therein depicted. Then he commends the "Moscow" 'purge' trials" as "briefly but effectively played" with this addition: "It puts into the record for millions of movie goers to grasp an admission (by whom? where? when?---JGW) that the many 'purged' generals and other leaders were conspirators in a plot-a plot engineered by Trotsky with the Nazis and the Japs. ..." One would have to look, as a rule, in the columns of the Daily Worker for filthier lies. And, as a matter of fact, Mr. Crowther's comments were among those singled out with ill-concealed glee by the Stalinists (Daily Worker May 2). If, on May 9th, the Times opened its letter columns to a communication from John Dewey and Suzanne La Follette, it was not out of choice but from necessity. It could not very well have refused without scandalizing public opinion. In this letter John Dewey correctly denounced the Davies' film as "the first instance in our country of totalitarian propaganda for mass consumption - a propaganda which falsifies history through distortion, omission or pure invention of facts. ..." This statement by itself, coming from a man of Dewey's standing and integrity, would have under "normal" conditions evoked comment from the editorial offices, not of the Times alone. Instead, these gentlemen continued to maintain editorial silence, and to print the next Sunday, May 16, three full columns of an alleged reply to Dewey, written by one Arthur Popham Pope. This notorious Stalinist stooge assumes the task of trying to challenge the integrity and verdict of the Dewey Commission of Investigation by brazenly asserting that this body is "without status, competence or authority." This is something that Pope's task masters in the Kremlin never had the gall to do previously. He further attempts the moth-eaten Stalinist trick of using the successes of the Red Army as a cover for the corpses of Stalin's countless victims, among them the Red Generals who made these successes possible. Slimier stuff than this has never appeared in any but Stalinist organs. At the same time, the editors of the Times refused to publish the letter of protest from Natalia Sedov Trotsky, widow of Leon Trotsky, and mother of the late Leon Sedov, the two chief defendants at all the Moscow trials.

Fortress Europe

With the termination of the North African campaign, the curtain is about to rise on the incomparably greater military efforts involved in an assault upon the European continent itself, where Hitler's full might stands assembled. There appears to be nothing "soft" about the Nazi military position either in the "underbelly" in the Balkans or anywhere else along the coastline of Europe.

Somber intimations of what really lies ahead seep even into the comments of columnists who have been peddling the cheapest optimism in connection with the Tunisian successes. The perspectives are indeed somber: Hitler has at his disposal approximately 20,000,000 German, Italian and other troops; behind this colossal force is the productive power of continental Europe geared to war economy; internal lines of communication guarantee to the German High Command the possibility of quickly shifting large bodies of troops and equipment to any area under attack. In short, the bloodiest and most destructive battles in history imperid. The costs in human lives and accumulated wealth of centuries will make all previous wars. pale by comparison.

There is only one way in which this holocaust could have been averted: through revolutionary uprisings in Hitler's rear and in Germany itself. But despite the news of sporadic disturbances, authoritative sources in London and Washington warn against any speculations on an early Nazi collapse.

Why does this revolutionary road remain barred? What sustains the bestial system of fascism in the fourth year of the Second World War?

The answer is clear: the only revolution possible in Europe and in Germany in particular is the socialist revolution. The suffering masses will rally to no other program, for no other offers any real hope or a way out of the terrible crisis.

The "democratic" capitalists, of course, neither desire nor are capable of inspiring mass revolutions. They are capable only of Darlanism.

But the Soviet Union could inspire the European revolution. Had the Soviet government issued the summons for such a revolutionary struggle, Hitler would have been overthrown by now. Therein lies one of the greatest crimes of Stalin. This betrayer of Bolshevism bears the responsibility for the continued danger to the Soviet Union and for the prolongation of the slaughter of the flower of the world's population.

For the workers there is no possibility of any relief without a determined fight for a rising scale of wages to meet the rising cost of living. The miners have shown the way.

Stalin's Crimes

The Davies whitewash film, "Mission To Moscow," tries elaborately to convey the impression that the victims of Stalin's Moscow trials and blood-purges were scoundrels, degenerates, traitors, etc. It also tries by implication to create the impression that Stalin and his clique represent the genuine continuation of Bolshevism. These are among the most outrageous falsifications of Davies-Warner Brothers and Co., perpetrated with the "unofficial" blessing of the State Department.

Bolshevism, the banner bearer of the proletarian struggle for socialism, is the polar opposite of the reactionary system of ideas and methods by which Stalinism tries to perpetuate the power and privileges of the ruling Kremlin bureaucracy. So profoundly opposed are these two systems that Stalin, the Judas of Bolshevism became also its Cain: He drew a line of blood between Stalinism and Bolshevism. The front page of this issue of The Militant carries a photographic record of Stalin's monstrous crimes — the record of what happened to Lenin's General Staff of Bolshevism who led the Russian workers, soldiers and peasants to victory in 1917. These were the men and women who by their deeds inscribed into the annals of modern history the most glorious, heroic and titanic pages yet recorded. Of these men and women, there now remains only one survivor - the executioner Stalin, who destroyed not only the Leninist Old Guard, but also countless others from among the next two revolutionary generations, that of the Civil War and the generation which bore the brunt of Soviet reconstruction and industrialization and raised Stalin himself to power.

No amount of falsifications and crimes, both by the GPU and Hollywood, will ever succeed in deleting or altering these historical facts.

unless bona-fide negotiation open of Lewis. In reality, however, in the responsibility of operating the and real concession to the miners coal mines of the country, and come out of them. having further in mind that since

UMW WINS PRESTIGE taking over the mines the employees are now working for the By his masterly conduct of the

government, I would appreciate your giving me assurance that members of the UMWA will continue to work without interruption at midnight tomorrow, May 18. I express the hope that by this action the way will be opened for immediate collective bargaining the undisputed motal reaction for

MINERS WANT NEGOTIATIONS

The miners' leaders took Ickes up on his "hope"--Ickes had made no reference to WLB control of negotiations—and replied: "We are impressed with the fact that... you hope to be able to institute immediately the collective bargaining conferences which we have long been awaiting."

The miners' answer to Ickes further expressed the "hope" that the "government will now, without further delay, instruct the coal operators of the industry to engage forthwith in collective bargaining conferences so as to insure the making of an agreement in the period again allotted for that purpose.'

UMW STANDS FIRM

The UMW Policy Committee has lemonstrated, however, that it does not base its strategy on 'hope." It knows that the administration continues machinations to force the miners into the urisdiction of the WLB and its 'Little Steel" trap, where the miners' cause would be doomed in advance. The UMW leadership knows that the last-minute scurry ing to "roll back" prices is fraud which will not cut the living costs of the miners but is merely designed to try to confuse public opinion. Ickes' letter of May 18, in an-

wer to the union telegram exending the truce, and in which the government manager declared that any contract must have the approval of the WLB, was thus only further evidence of Roosevelt's continued hostility to the miners. As a matter of fact Ickes' letter closed one of the few doors still left open for a possible reconciliation. The UMW leaders nevertheless lagreed to a second truce. Un-

北北北

miners' battle Lewis has won greater support from the miners than he has ever had during the past twenty years. Even more important, the miners' leadership has won during the past months the immediate period to come. The great mass of the CIO workers are not only standing with the miners -as the recent Detroit and New York conferences of the United Auto Workers demonstrated-but are looking toward the United Mine Workers for a general lead for the whole labor movement. joining the attempt to isolate the miners they have served the ultrareactionary campaign to keep labor hog-tied and handcuffed. What is more, the AFL and CIO leaders have failed doubly. They have failed to isolate the miners. Despite all the outcries of their "leaders," the masses of the AFL and CIO have swung to the support of the miners. Secondly, the AFL and CIO officials have failed to maintain their leadership-a leadership which really rests on a whipped and submissive membership. Never was their prestige lower among their own members. If the AFL and CIO leadership could not control their members on this issue, still less will they be able to do so in the much greater battles that lie ahead. when the price rises and frozen wages finally drive the workers as a whole to fight for a living wage. The mine fight has brought much closer the day when the leadership of the trade union movement will slip out of the hands of these cowards and lickspittles, and the unions will march forward under eaders more akin to the militant spirit of the workers.

TOWARD UNITED LABOR

In winning a great moral prestige among the workers, the Miners Union and its leaders have also been confronted with new responsibilities and opportunities. The miners' fight is not yet over. and the fact remains that, although the workers in general are for the miners, few unions officially are backing them.

Here the fact that the miners have no organizational connection with the rest of the labor movement is weighing against them. The miners can break through the barrier of their organizational isolation by calling a conference of all unions -AFL, CIO, Railroad Brotherhoods and the miners \rightarrow for the single task of a united front against Roosevelt's "hold the line" order of April 8 and the "Little Steel" formula of freezing wages. Regardless of the attitude of the top AFL and CIO union officials toward such a conference call, such a campaign. if pushed with the vigor the miners have displayed in the mine controversy, would provide the basis for unified action of the whole labor movement.

The Times still maintains editorial silence, unmindful even of its own condemnations of Stalin's frameups and blood-purges at the time these were perpetrated. Such are the morals of the most moral of capitalist newspapers.
