Four Years Of The World War

An Editorial

The Second World War is now in its fifth year. The First World War lasted 4, years and 3 months. In all respects, in the number of cities destroyed, in the number of men killed, wounded or missing, in the colossal costs, in the mounting national debts, the Second World War has unquestionably already gone far beyond its predecessor of 25 years ago. And the end is not in sight.

How many more of the world's leading cities are to be re-

The war, however, has another feature: It poses all the questions of the class struggle point blank. It puts all peoples, ideas, organizations, and systems to an inexorable test; it rejects all

ples of the whole world.

France, master of Europe after the First World War, chief architect among the Allies of the infamous Versailles Treaty, Employers Exert suffered catastrophic defeat at the hands of Hitler's army in June, 1940. The ignominious capitulation of the French capitalists and their creation of the pro-Hitler dictatorial Vichy regime **Pressure to Halt** established definitively the fact that the capitalist class is interested first and foremost in the preservation of its class rule, War Fraud Probes of its power and privileges. Only the Marxist program, only the program of the Fourth International had correctly analyzed and explained that the capitalists everywhere adopt the rule of democracy, military dictatorship or fascism in accordance with expediency. "In a moment of danger the bourgeoisie has always been able to free from democratic trappings the real apparatus of its rule as the direct instrument of finance capital," says the "Mani- neriod during which the Senate's festo of the Fourth International on the Imperialist War and the Proletarian Revolution.'

The further sweep of Hitler's armies into Europe, the ease facts showing that the corporawith which he demolished the national states, the artificial bound- tion-a subsidiary of Curtissary lines and the customs barriers, as well as the whole course Wright, holder of the nation's of Hitler's rule in Europe have demonstrated over and over again that the national state is outlived and is a brake on pro- lives of the men in the armed gress; that Europe is ripe and more than ripe for unification. force by turning out defective and Hitler's occupation has further demonstrated that unification canot be accomplished under the auspices of monopoly capitalism. It can only be achieved under the socialist banner, under the leadership of the working class.

All the experiences of the past four years of war have shown how truly prophetic was Trotsky's analysis of Europe's impasse appear that the Truman Comand how correct he was in counterposing to the mad house of mittee's investigation and revelacapitalist Europe the program of the Socialist United States of tions-and not the corporation-Europe.

One year after the fall of France, in June 1941, Hitler launched his fateful attack upon the Soviet Union. The war on Times' stories: had "demoralizthe eastern front is now entering its third year, but Hitler is ed" the inspectors of finished further from victory today than when he first began his ferocious material at the plant. "The offensive. The magnificent morale of the Red Army and the Soviet masses was the determining factor that finally turned back to blueprints, really 'more than the tide of retreats and defeat. The Red Army dealt the Wehr- strictest' adherence, became the macht a crushing blow at Stalingrad and went over to the of- controlling law. Inspectors befensive in the summer of 1943. Here again only the program of Materials from the smallest parts the Fourth International has correctly analyzed and explained waternas from the smallest parts to completed engines were tested, the Fourth International has correctly analyzed and explained the course of events. The Russian Revolution, debilitated by retested and re-retested beyond Rift Widens Between 20 years of Stalin's rule, is nevertheless still alive and still dis- all necessity. Inspectors became ays tremendous vitality. Its great conquests have not all been irritated with each other and lost. The workers' state with its nationalized property and planned economy has again confounded the capitalist statesmen and ralization . . . resulted in good military experts. It has buried forever the theory of the identity part, it is said, from the mysteribetween the fascist and soviet systems. Its unprecedented victories ous, half-threatening and rumorhave now thrown consternation and fear into the capitalist rulers provoking manner in which the of the Anglo-American camp. The deep-going contradiction between the Soviet state and the capitalist world has been disclosed anew in the current crisis between Stalin and his Allies. "By its very creation of enormous difficulties and dangers for the imperialist metropolitan states, the war opens up wide possibilities for the oppressed peoples. The rumbling of cannon in Europe heralds the approaching hour of their liberation," wrote Trotsky in 1940. From the very first days of the Second World War, the struggle of the colonial peoples for national independence has been in the forefront. It has been a constant source of worry to the capitalist masters, above all, the Anglo-American war camp. The six-year military struggle of the Chinese people against Japanese imperialism has steeled the Chinese masses, has built up **Back Democratic Party** the spirit of independence, self-reliance and determination to win national freedom and economic well-being.

Badoglio Is Compelled To Agree To Secret Ballot

TRADES MARTICOMED 267

AMGOT Then Follows By Conceding 'Free Labor Movement' in the Occupied Areas

By Felix Morrow

The revolutionary workers of Italy have wrested from the Badoglio government an agreement for the election of factory committees by secret ballot of the workers.

In listing the achievements of the Italian workers, last week's issue of The Militant already referred to free elections in the factories, basing itself on a reference to this fact in dispatches from Moscow to the Stalinist press.

Now comes a formal announcement by the official Stefani news agency, dated Sept. 2, which gives the following details:

1. The agreement is between the "confederation of manufacturers" and ning of the right to factory comthe "confederation of in- ers' hostility to the military dicdustrial workers." Since tatorship of Badoglio. His tardy the fascist "confederation scarcely be dressed up as a of workers" covered em. generous concession. As I wrote ployes in all enterprises includ- rights which the masses are ing government services, etc., the reference now to a "confederation" wresting for themselves in the streets and factories of Italy, and of INDUSTRIAL workers" appears to confirm previous intimations that the workers in the seen to be the achievement of the northern industrial cities had succeeded in seizing the fascist masses themselves."

mediate in individual controversies, etc."

We can be sure that the winmittees will not abate the workagreement to the elections can on August 2: "The democratic which the Italian bourgeoisie will tomorrow formally recognize, are

The Struggle For A Labor Party In Michigan bor party. But all the national and state this impasse and implement its demand for failed to prepare the delegates for a strugto the moods among the workers and real-

By John Saunders

TWO-

DETROIT - Sidney Hillman, head of the CIO Political Action Committee, the officers of the United Auto Workers, the leaders of the state CIO and the Stalinists all say openly or by innuendo that the move for a Michigan labor party is dead. This will come as news to many of the rawk and file delegates who voted to launch such a party at the Michigan CIO convention last July. Nevertheless it is now clear that the fight to form an independent labor party, which had seemed almost an accomplished fact to the delegates at the convention, is still far from finished.

To properly understand the present prospects for independent labor political action in Michigan, one must first become acquainted with the forces operating within the UAW which wields the decisive influence on CIO policy in this state. Two powerful caucuses, one headed by Reuther, the other by Addes-Frankensteen, have been struggling for control of this union. Aside from the question of incentive pay, which is sponsored by Addes and his Stalinist supporters and opposed by Reuther, there is virtual agreement on basic policy. Both groups are fervent supporters of Roosevelt, both are opponents of revoking the no-strike pledge and are against creating an independent party of labor.

The Reuther Policy

But the Reuther group differs from its rival in that its leaders are more sensitive ize how soon the workers' dissatisfaction with present conditions may erupt into a full-fledged revolt against the Roosevelt "union sacrifice" program and against the union officials who help to put this program over. As a result, the leaders of the Reuther group - in order to maintain their leadership over these dissatisfied workers and to keep them from going "too far" often mouth more militant slogans than the Addes group. This explains why the demand for a labor party was exploited by some of the leaders of the Reuther group.

Emil Mazey, president of the Briggs local, is one of the leading "left wing" spokesmen of the Reuther group. Reuther applies the carrot-and-club policy toward Mazey: He dangles before him a post on the Executive Board of the International and gives him some leeway, when the question of basic policy or leadership is not in the balance, to bring new supporters into the Reuther group by espousing various progressive causes. But when talk gives way to action and there is serious work to be done, Mazey is faced with the alternative of retracing his steps and hewing strictly to the Reuther line or else losing all Reuther support for the post he has so long coveted. In the past six years, Mazey has consistently capitulated to Reuther when faced with this alternative. His explanation is always the same: that a break with the Reuther caucus would bring into control of the union a group that is still more reactionary. Actually his policy

keeps the militants tied to the Reuther caucus and prevents them from striking out on their own.

The Role Played by Mazey

The demand for a labor party became widespread among Michigan workers in the middle of 1943 as the result of the rising cost of living, the freezing of wages and the repressive anti-labor legislation. Mazey spoke up for a labor party too and by promising to win the Reuther caucus over to support of the labor party managed to swing many workers behind the caucus. For a time it seemed Mazey would make good on his promise. With only a few dissenting votes he was able to put through a satisfactory resolution for the launching of a labor party at the June Convention of the Progressive Labor League which was dominated by the Reutherites.

But Reuther, Scholle, Doll and the other leaders of the caucus had no intention of bucking the national leadership of the CIO on this issue. It is one thing to speak vaguely about independent political action, especially when the workers are talking in favor of it — it is another to conduct a fight for the labor party against the top CIO bureaucrats and the White House. At the state CIO convention in July the Reuther leaders disregarded the wishes of the rank and file of their own caucus and joined forces with Addes and the Stalinists to defeat the Mazey-Silvers resolution. Mazey, who confined his activities for a

labor party to maneuvers at the top, had

when Italy is occupied.

Elected factory committees in

gle. Scholle made the strongest speech at the convention against the labor party while Mazey was not even recognized by the Reutherite who chaired the convention session. Only lesser-known supporters of the resolution were permitted to speak and Mazey's plea for a hand vote was ignored. Mazey complained feebly that he had been doublecrossed. But it was neither his complaints nor the fear that he would bolt the Reuther caucus and set out on an independent course, but rather the anxiety that Mazey might not be able to keep his followers in line, that persuaded the Reuther caucus leaders to bring in a compromise resolution on the labor party.

The deliberately vague resolution which the Reuther leaders permitted to pass enabled them to maintain the appearance of supporting the move to create a labor party - while actually stifling it. The resolution called for the setting up of a committee of 17 "to explore and build sentiment for independent political action" for a period of 90 days and for a referendum on the part of the local unions within 30 days thereafter. Naturally the delegates expected that the chief supporters of the labor party would be appointed to this committee and that they would carry on a campaign of propaganda and agitation for a labor party by publishing literature and holding mass meetings. The referendum would then convince the most doubtful of the overwhelming sentiment of the rank and file for a la-

CIO leaders including the Reuther caucus leaders had different ideas. They were out to kill the labor party, not build it.

After the CIO Convention

Far from strengthening sentiment for independent political action, the state CIO leaders - taking their cue from the Chicago conference held under the auspices of Hillman's Political Action Committee are doing everything possible to mobilize sentiment against the launching of a labor party and are contriving ways and means to dispense with the referendum ordered by the state CIO Convention. The hypocritical formula adopted by the 17-man committee, according to the August 20 Michigan CIO News, is that all its members "concede the desirability of having a third party EVEN-TUALLY, while differing as to the advisability of launching it immediately."

Contrary to the wishes of the membership, union funds are being squandered in a substitute campaign to keep the workers tied to the capitalist parties. Tabulations of how the "friends" of labor voted in Congress, have been prepared and distributed to the membership. Great emphasis is being placed on a drive to get all the workers registered - so that they will be able to vote for new "friends" of labor at the coming election. No mention is made of the fact that it is precisely the failure to create a labor party which is responsible for the apathy of the masses to register and vote. How is the rank and file to get out of

a labor party at this time? First of all, it must rely not on the Reuther caucus but on its own strength and its own indepedent program. The union militants must build their own independent group and carry on a consistent fight for a labor party against the Reuther-Leonard as well as the Addes-Frankensteen forces. They must fight openly and squarely at the coming UAW convention for the launching of a labor party. They must pass resolutions in the locals insisting that the state CIO leaders hold the referendum in the time specified by the state convention.

The ranks must prepare for a long uphill fight because the entire trade union leadership is determined to thwart the wishes (of the membership for an independent party of labor. But time is on the side of the progressive forces. The continued skyrocketing of prices while wages remain frozen and the anti-labor policies of Congress and Roosevelt will convince even the most backward of the necessity for an independent labor party. The present leftward swing of the masses in Australia and Canada in the direction of the labor party will have a great influence on the American workers. The twofold reactionary policy of the administration of throttling the workers at home and crushing the struggles of the workers abroad will rouse the American masses still more. The Michigan workers have the opportunity of winning the leadership of this great political labor campaign.

the Allies to "deteriorate sharply." he reiterated the charge of "bad faith" with regard to the Soviet Union.

> Although engaged in an all-out attack on Roosevelt's foreign policy, the Stalinists still continue the wretched pretense that Roosevelt and even Hull are really not responsible; that they are being subjected to reactionary pressure; that the way to remedy the situation is to rally still more firmly behind "our Commanderin-Chief." It was on this note that Browder closed.

REDUCTION TO ABSURDITY What are the real issues in this conflict? The issue is "short or long war," says Browder. (Daily Worker, Sept. 3.) In this way he reduces the whole thing to an absurdity: the dispute, you see, is over the duration of the war. The

Soviet Union wants to shorten it. while the opponents of the "second front" seek to prolong it. No belligerent power determines its conduct by how long or how short a period it wants to fight. What counts in a war is what each participant is fighting for. Roosevelt and Churchill would gladly terminate the war on the

morrow, on one condition: that they get what they want. They are just as ready to fight it out for years until and unless they do get it.

Browder is not quite as stupid as he pretends. He knows, al-

regime and organizing production according to a unified plan, the proletariat will not only restore within a few years everything destroyed by war, but will also create conditions for the greatest blossoming of culture on the foundations of solidarity.

To defend the USSR as the main fortress of the world proletariat, against all assaults of world imperialism and of internal counter-revolution, is the most important duty of every class-conscious worker.

- LEON TROTSKY

Four Years Of The World War

(Continued from page 1)

of the British empire are numbered but that history is already pronouncing the death sentence on the system of imperialism itself.

We Trotskyists have predicted on more than one occasion that while the rulers started this war the masses will end it. Just a few weeks ago, one of the chief engineers of the imperialist conflict was tossed on the junk heap of history. Mussolini was powerful enough to dragoon the unwilling Italian people into the Second World War. He was not powerful enough, however, to make them fight for the Italian capitalists. The great revolt of the Italian workers and soldiers is one of the colossal events to come out of this war. The smashing of the hated fascist regime and the repercussions of Italy's revolt throughout Europe demonstrate again that the socialist revolution is on the order of the day. We live in the period not only of capitalist wars but of liberating revolutions.

Today, after four years of war, the imperialists Police Agents are still powerful. They are still dictating the destinies of mankind. They are still mobilizing millions upon millions of people and herding them onto the battlefields of the world. They have been eminently successful in turning this world into a veritable hell of destruction, of horror, of brutality, of starvation, of death. And amidst all this stands the mightiest capitalism in history: United States capitalism. American Big Business is fighting for hegemony over the whole world. Its program calls for putting all of Europe on the dole and converting its peoples into serfs of Wall Street. It is planning to supplant the British empire as the great exploiter of the colonial masses. It is scheming to make Wall Street the center to which all the plunder and tribute of the world will flow.

diers raised the red banner. It was the workers' revolution that finally put an end to the four-year slaughter. The events of the Second World War, which have already precipitated the revolt of the Italian masses, give warning that out of this war will issue the next cycle of workers' revolutions which will wipe capitalism, as well as its wars, off the surface of the earth.

Congress Reconvenes

The Seventy-eighth Congress is scheduled to reconvene September 14. Its actions will serve quickly and decisively to refute the false and treacherous line of the CIO Political Action Committee headed by Sidney Hillman. The workers will receive more hard blows from Congress despite Hillman's crusade to make the corporation-dominated legislators halt their anti-labor campaign. But Hillman has succeeded in retarding the development of an independent labor party and that was his main objective.

During its first six months in session the present Congress consistently protected the war profiteers and attacked the unions. Democrats and Republicans alike refused to establish effective price controls, but they gave full support to Roosevelt's wage-freezing policy. They repealed the \$25,000 salary limitation and voted a 75% tax grab which netted millions to those in the high income brackets. In the same period they imposed the heavy 20% wage tax on the workers and enacted the vicious Smith-Connally anti-strike law.

The raw deal from Congress, together with Roosevelt's anti-labor actions, caused a heavy wave of resentment to sweep through the working class. This indignation found expression in the growing movement for a labor party among the trade union workers in the great industrial states of Michigan and New Jersey. A big majority of the delegates to the Michigan CIO convention in July voted for the formation of an independent labor party based on the unions.

The official leaders of the CIO became so alarmed at this rank and file demand for independent working class political action that they hurriedly set up their so-called Political Action Committee to head it off. This committee was deliberately designed to keep the workers shackled to Roosevelt's rotten Democratic Party.

Now the trade unions face the prospect of a renewed assault from Congress, including the strong probability of a campaign against existing labor legislation such as the Wagner Act and the Wage and Hour Law. This is what Big Business has told Congress it wants next.

The workers cannot place their confidence in reapitalist politicians of any stripe. The trade unions must take the lead in organizing an independent labor party, based on the unions and controlled by the unions.

In The Unions

Events In Italy And The Future Of Europe

crisis is reprinted from the August issue of the British Socialist Appeal, organ of the Workers International League:

In 1918, Italy emerged from the war as a "victor" nation. Weak in economic structure, shattered by the years of war, faced by millions of peasants who were demanding the land, and millions of workers who were seeking some compensation for the death and suffering which the war had brought to them, Italian capitalist denucracy was forced to turn to the path of Fascist politics and the massacre of the militant workers and peasants.

How then will it be possible to organize a new "liberal" capitalist democracy when Italy emerges from this war defeated and completely ruined? A new flowering of democracy is impossible in Italy whilst the capitalist system remains the economic mode. Even resting on the bayonets of Anglo-American imperialism, it will be impossible for a defeated capitalism to solve the economic and cultural needs of the Italian people.

A temporary sham democracy must soon give rise to military dictatorship of the Franco character.

Socialism Or Barbarism

But Italy is only the beginning of the dilemma in Europe: forward to socialism and a new culture, or the continuance of capitalism and a barbaric regime of military occupation and the destruction of culture. These are the alternatives.

The war to end fascism is a sham and a trick whilst the power remains in the hands of the capitalist class. Socialists who accept the capitalist program are treacherously stabbing the European workers in the back.

"Imperialism," wrote Lenin, in 1914, "has al! Tomorrow it will be the program of the Europlaced the fate of European culture at stake. pean and world working class!

The following editorial comment on the Italian After this war, if a series of successful revolutions do not occur, more wars will follow - the fairy tale of a 'war to end all wars' is a hollow and pernicious fairy tale."

The new stage of imperialist antagonisms pose the question of Europe's culture more imperiously than in 1914. The collapse of Mussolini has begun a "series of revolutions" in Europe.

the protection of capitalism and the maintenance of petty reactionary capitalism states, Workers International League and the Fourth International proclaim the fraternization of the Allied troops with the European people, the joint expropriation of the land and factories by the workers and peasants and the introduction of a workers' democracy through the United Socialist States of Europe.

Shame upon these so-called socialists and communists, who, whilst the Italian workers seek salvation by revolution, continue to support the program of the self-same Churchill who welcomed Mussolini's dictatorship against the Italian workers not so many years ago.

Now it is time for labor to lift its voice to the Italian, German and European workers and give them inspiration in the struggle to destroy the basis of fascism and all other forms of capitalist reaction. But that can be done only if a genuine struggle for power is conducted by the

End the coalition with the capitalist class! Not a military dictatorship and "Allied" Quislings on the necks of the European population! But the overthrow of capitalism and the establishment of the fraternal collaboration of all peoples through the United Socialist States of Europe! This is the program of the Fourth Internation-

thrown in 1918. The Kremlin wants Hitler removed by the German capitalists and the army tops before the masses themselves begin to move. That is why "Free Germany"" radio warns that: "there is danger the armed forces might simply break up, and that would be the end of any chance of an orderly march back. We all know what that would mean." Every word here bespeaks the Kremlin's own fear of the revolution. Stalin dreads that once the German masses rise, he will be impotent to check them.' And this would mean his own downfall.

No words are minced when it comes to the need of preserving the German army:

"We are opposed to fomenting demoralization in

ter confessed that they were unaware of the nature Against the program of military occupation, of their trip from a near-by hospital." should have been placed on trial before the wounded veterans were the Bethlehem magnates and other prof-

Working Class Program For Europe

British workers.

And what is going to be the cost of this grandiose scheme? How many millions of people will have to go to their doom, how many will be left homeless, how many must starve, how much wealth must be destroyed and how long will this war have to continue before this new beneficent world order of Wall Street can come into being? Nobody knows. But Knox, Secretary of the Navy, has blurted out in an unguarded moment that the U.S. and Britain will have to police the world for the next 100 years. By then Knox and his friends feel that it will be safe.

In an effort to crush all resistance and to stabilize their regime, Hitler and his Gestapo have been engaged in the last four years in murdering millions of workers and anti-fascists. But Hitler and the Gestapo have failed as the most recent revolt in Denmark shows. Now U. S. capitalism is poised to take over Hitler's hangman work, to stamp out the rising working class revolution. It can be safely predicted that American capitalism will meet the same resistance and will fail as miserably as Hitler.

Though the capitalist masters are still strong as we enter the fifth year of the Second World War, the contradictions of capitalism are growing even stronger, more harassing and acute every day. The plight of the peoples is growing more desperate. The revolt of the Italian masses clearly points the -road that the European working classes are going to take. The horizon is already beginning to gleam red, not only in Europe but in the East as well. We already hear the premonitory mutterings that give warning of the coming storm. As the great Norwegian poet, Bjornsen, wrote: "The whispering that is going through the cornfields will soon become a storm in the treetops."

The capitalist masters, stunned in 1917 by the Bolshevik revolution, hastily ended the war the following year, when the German workers and sol-

The top officials of the CIO and AFL have accepted the traitorous police role against the workers assigned to them in President Roosevelt's sanctions order of August 16. This fact is clearly established by the continued presence of the union officials on the War Labor Board and by their failure even to comment on the anti-union executive order.

The CIO News has been silent on the question for two consecutive issues since Roosevelt authorized the WLB to impose sanctions against the unions. The AFL News Service of August 24 carried only a routine news report on the executive order, written as though the top AFL officials were mere spectator's disinterestedly watching Roosevelt hack away at the unions. Neither Philip Murray nor William Green have as yet said anything on the subject. Obviously the union heads are hard put to find an alibi for the President.

The Sept. 1 issue of the United Mine Workers Journal condemns the sanctions order through which Roosevelt has further extended the antiunion campaign. After the enactment of the Smith-Connally law, the Journal states, "nobody knew what the law would amount to until the President, by executive order, gave it its actual form and function. That order is now on the books. It goes to the very limit of the law - if not beyond it." The officials of the CIO and AFL know this too, but these misleaders of labor do not want to tell the workers even this much of the truth; they still want to uphold Roosevelt as a "friend of labor." Murray and Green tremble at the very thought of independent class action in defense of the workers' rights. Their policy is one of complete dependence on Roosevelt. And the heavier the pressure of the workers upon them the more desperately they cling to the President's coat-tails. Instead of supporting the workers' demands for wage increases to meet the rising cost of living, they have whimpered and whined for government action to roll back prices. But prices have not been rolled back, nor have they been kept from rising still higher. Nevertheless, Murray, Green and Co. are now ready to support Roosevelt's attempt by police measures to enforce the wage freeze.

For a long time the top union officials have been covering up for the government strikebreakers. Now Roosevelt is pushing them more and more into the role of outright police agents against the workers. It is high time to call a halt to this betrayal. Force the labor traitors off the War Labor Board. Take back the right of the rank and file to decide union policy,

ne Wehrmacht. We do not intend to incite the so diers to abandon their arms and retreat in disorder." The German army, insists Stalin through the spokesmen for the "Free Germany" Committee, is a "valuable instrument which must be preserved at any cost and in full."

By its blows the Red Army is cracking the morale of the German soldiers. Meanwhile Stalin is busy supplying the Prussian Junkers with arguments to prop up and maintain their discipline.

Big Business made more profits after taxes in 1942 than it did in 1929. But it now is certain that 1943 will go down as the year in which the corporations made the highest profits in the history of this country. For, as the Department of Commerce reported on Sept. 4, corporate profits were 14% higher, after taxes and other deductions, during the first six months of this year than during the same period in 1942.

Many of the important industrial and manufacturing groups enjoyed an even greater rise in profits during this period. According to the Department of Commerce report:

"Net income after taxes of the railroads increased by 71% for the first half of this year." These are the same railroads which have with government aid been denying wage increases to compensate their employes for the rising cost of living.

"Of the manufacturing sub-groups, the sharpest increase for the first half of this year occurred in the automobile group. Profits before taxes increased by 43%, while profits after taxes showed a 17% rise. ..."

It is figures such as these which provide the key to the drastic drop in Wall Street stocks in the period following the downfall of Mussolini. The Exchange, organ of the New York Stock Exchange, attempted this week to explain away this slump in stocks by attributing it to the market's "practice of jumping suddenly whatever the news, provided it is unexpected." The truth is that the stocks took a nosedive after Mussolini's fall because Wall Street's fear that the huge flow of war profits might be discontinued in the near future.

A typical example is the case of American Locomotive. This company's profits were five times greater in 1942 than its peacetime average, and its reported profits for the first half of 1943 were almost twice as great as for all of 1942! Its stocks fell 17.6% during the three weeks after Mussolini was removed. The prospect of peace comes under the cate- . gory of bad news for the war profiteers.
