**ALLIES ALARMED BY SOVIET VICTORIES UAW** Convention Weighs **Basic Labor Problem** 

Local Unions Present Resolutions to Scrap No-Strike Pledge, Withdraw from War Labor Board and Help Build a Labor Party

#### **By Art Preis**

BUFFALO, Oct. 5 (By Wire) .- The first two big controversial issues to come before the eighth convention of the United Auto Workers' meeting here this week, will be the questions of incentive pay and a fourth term for Roosevelt.

The majority of the resolutions committee is supporting a resolution condemning all forms of incentive pay speedup plans. The resolution states: "The UAW-CIO reiterates emphatically its traditional opposition to the intro-

duction of incentive or piecework plans. . .where such plans do not now exist" in local plants. It instructs all officials of the international union "to conform strictly to this policy on piecework."

It is certain that this resolution will be opposed bitterly by the Stalinists, who are backing a minority report upholding the demands of the powerful corporations like General Motors for the re-introduction of the infamous piecework speedup system.

A three-way fight is brewing over the majority report of the resolutions committee on the 4th term question, which takes the position of "conditional" endorsement of Roosevelt for re-election in 1944.

This majority resolution complains that Roosevelt's "preoccupation" with the military front permitted the reactionary forces attempts to exert some pressure on the administration and to win concessions from it by pointing to the impossibility of mobilizing

### **Circuit Court Stays Mandate On Minneapolis Trial Decision**

The U.S. Circuit Court of Appeals for the Eighth District this week granted the motion for a stay of mandate in the Minneapolis Smith "Gag" Act case. This stay enables the attorneys for the 18 defendants in the Minneapolis 'trial to file a petition with the U.S. Supreme Court asking it to review the recent Circuit Court decision upholding the Minneapolis convictions and to pass on the constitutionality of the Smith "Gag" Act under which the defendants were convicted. The petition to the Supreme Court is now being prepared.

The preliminary expenses for the appeal, amounting to approximately \$2,500, are being raised by the Civil Rights Defense Committee, which is bringing the issue of free speech involved in the persecution of the 18 Trotskyists and CIO members to the attention of the labor and liberal movements.

The CRDC announced this week that several of its 30 local branches throughout the country have already accepted their quotas to raise money for the committee's Supreme Court campaign. The branches are already beginning to raise this money and to publicize the importance of the Minneapolis case by appeals to local unions and liberal organizations, branchsponsored open meetings and social affairs.

in this country to "undermine the home front." The resolution attempts to exert some pressure **Support For Postal** Mounts As Hearing

Greeting the Advancing Red Army

The boundless joy of the populace when the Red Army entered Bryansk is shown above, as barefoot children vie with old women to greet the soldiers. Workers throughout the world are likewise elated to see Hitler's armies driven back but the Red Army victories are producing only consternation and dismay in capitalist circles on both sides of the war fronts.

## **U.S.** - British Conclude 'Darlan Deal' In Italy

#### By Anthony Massini

The Italian "Darlan deal" appears to have been completed, although details remain yet to be announced. Marshal Badoglio and King Victor Emmanuel, who supported fascism for more than 20 years and whose sole support comes from the bankers, the big landowners and the industrialists, are now receiving Allied backing, aid and recognition as the government of Italy. Liberal trimmings are being considered to make the Badoglio deal a little more palatable for American-British public opinion than the deal with Darlan in North Africa. But the fact remains that the Allied leaders@

**Coming Three-Power Conference in Moscow** Meets in Atmosphere of Growing Discord

#### By Felix Morrow

The capture of Smolensk --- "gateway to the West," as the Red Army organ correctly terms it on Sept. 25, followed by still further Soviet gains, has raised as an immediate possibility the victorious advance of the Red Army in pursuit of the Nazis into territories beyond its 1940 borders.

To the Soviet masses and to the class-conscious workers of the world, who want to see the workers' state emerge victorious over the fascist foe, this prospect is a happy one.

But to the capitalist rulers the further advance of the Red Army is a<sup>()</sup>

frightening specter.

There is panic in the ruling classes of the couning — and that is true equally of the Axis satellite, Rumania, and the sawar camps the capitalists remember what happened when the Red Army advanced into Poland in 1939 and into Bessarabia in 1940,

and in the Baltic provinces - the nationalization of private proper-They remember, too, how, as the Red Army neared workers

"Once Bessarabia and Bukovina peasants rose against the capitalists and landlords. ### Lessons Of Labor Party Fight In New Jersey the top union leaders and the Stalinists, and the union leaders want it but because the squabble with Hague long enough for them their backs on his party, and he is taking

#### By Philip Blake

The significance of next month's gubernatorial elections in New Jersey extends beyond the boundaries of that state. For they come at the end of an election campaign in which the capitalist politicians, aided by the labor leaders and Stalinists, have put over what might be termed their last tactical maneuver to prevent the formation of an independent labor party. Since the same tactic may be tried in other parts of the country where strong labor party sentiment arises, it is worthwhile for workers everywhere to ponder the New Jersey developments.

Sidney Hillman gleefully asserted a few weeks ago that "third party moves in Michigan and New Jersey have died out." An objective examination of the New Jersey situation shows that the labor party movement there has suffered a stiff setback, even if labor party sentiment has not died out. The labor party movement has for the time being been sidetracked into the swamp of capitalist politics, and it will be many months before it finds its way out again.

#### What Union Ranks Demanded

The workers' desire for a party of their own is not a new development in this state, where both capitalist parties are scandalously corrupt, boss-ridden and anti-labor. It was evident 5 years ago when the founding convention of Labor's Non-Partisan League (now called the American Labor League) pledged itself to build such a party. It took on new life after the United States entered the war, prices began to skyrocket and wages were frozen. In the 1942 elections Irving Abramson, president of the State CIO Council, received the Democratic Party nomination for Congress and was decisively defeated by the Republican candi-

date because large numbers of workers registered their indifference to the contest by staying away from the polls.

The overwhelming majority of the union delegates who came to the American Labor League convention in May of this year had drawn the proper conclusion from the Abramson campaign and wanted to set up a labor party at once. But they gave way to the pleas of the League's leaders, who said they too wanted a labor party but wanted to organize it properly; and the convention ended with the appointment of a committee that was supposed to do some preparatory recruiting, after which a labor party convention would be called.

#### **Unity Against Labor Party**

But the union progressives who accepted these promises have been tricked. Instead of a labor party, they have been given a repetition on a state-wide scale of the Abramson campaign of last year. Instead of running labor's own candidate on a labor party ticket, the union leaders this fall are supporting a union man running as the Democratic Party candidate, that is, Boss Hague's candidate. · · ·

The Stalinist finks and speedup artists are loudly claiming - and fully deserve the "credit" for initiating this move to check the formation of an independent labor party. They really were the first group in the labor movement to denounce the fight against Hagueism as "outmoded" and to call for a whole-hog alliance with Hague in the coming elections as a step in the interests of "national unity."

But the Stalinists don't deserve all the "credit." Also to be thanked are Roosevelt, who intervened in an attempt to restore harmony in the Democratic Party; Governor Edison, who suspended his intra-party

Boss Hague, who accepted a union leader as candidate because he knew it would strengthen his party's chances this fall and in 1944; the AFL leaders, who have always voted as Hague told them; the CIO leaders, who are as silent as a tomb about their labor party promises of only a few months ago; and the liberals who waxed so morally indignant about the unprincipled politics of the Stalinists only to find themselves in the same bed now with both the Stalinists and Hague.

The candidate selected by the Democratic Party - he was unopposed because no one ever runs against Hague's choice in the primaries — is Vincent J. Murphy, state secretary of the AFL and mayor of Newark. Murphy is a typical AFL leader of the old conservative school, an uninspiring nonentity with unbounded ambitions who publicized himself in the Newark elections as "labor man and banker." The Stalinists indignantly denounce as "sheer falsification" the charge of Murphy's Republican opponents that he is "a candidate exclusively concerned with labor and . . . representing the slogan 'class against class."" (The Worker, Sept. 26.) And, for a change, the Stalinists are telling the truth.

#### **Benefits to Hague**

There is no better gauge to the treachery of the labor leaders and Stalinists than the fact that Hague is not only supporting Murphy but has also put a dozen or so AFL and CIO leaders on local tickets throughout the state in order to give the best possible labor trimming to his 1943 campaign. Hague understood as well as anyone else that the workers were turning

to jointly pick a gubernatorial candidate; full advantage of the present developments to put a new and improved face on the old Democratic hag.

> This does not mean, however, that the nomination of Murphy has brought the slightest change in the program or leadership of Hague's party. The Democratic state convention, held in Trenton last week, showed that Hague retains complete control. The new state committee is composed almost to a man of his creatures; the 1943 state platform of the party is the same mixture of demagogy and conservatism as always. The only difference is that Murphy, a labor leader, was given the floor for a while to make an innocuous speech and to call for "full support of the whole Demcratic ticket." This is what the Stalinists today call "united labor independent political action!" At any rate, it is the kind of political action which unwrinkles the

brow of many a capitalist politician hitherto kept sleepless by the growing labor party sentiment. And Hague has the added pleasure of observing the local unions digging down into their treasuries in order to finance his campaign.

It is difficult to foretell the outcome of the elections. It remains yet to be seen whether the union leaders will be able to arouse enthusiasm in labor's ranks sufficient — together with the votes in Hague's vest pocket - to elect Murphy. But whatever happens in this respect. there is no denying that the labor party movement has suffered a severe even if temporary setback, and that a favorable opportunity has been permitted to pass.

**Stage in Political Development** 

The chief responsibility for this political reverse to the labor movement rests upon

this fact should be driven home again and again in order to prepare the union ranks for future developments. That the union leaders and Stalinists are able to get away with such a brazen betrayal of labor's interests is due in part to the lack of organization and co-ordination among the prolabor party forces and in part to the fact that the union ranks are really just passing through the first stages of independent political thought and have not yet shaken off many of the illusions and misconceptions of the past.

It is quite evident that many workers who have lost confidence in the national Democratic Party still cling to support of Roosevelt, even though with reservations. In the same way many union members who see through the ordinary capitalist politicians, such as Hague and the Republican gubernatorial nominee Edge, are still taken in, in the absence of a labor party, by candidates of the capitalist parties who are able to boast of membership in the union movement, such as Murphy. This turn toward "labor candidates" even though on capitalist party tickets indicates an advance in the political thinking of the workers, when compared with their attitude of only a few years ago, but at the same time it signifies that many workers have not yet passed the stage of being concerned primarily with candidates rather than with parties and programs.

Of course, with an honest and class-conscious leadership the union ranks would long ago have passed beyond this stage in their political development. But such a leadership is precisely what is lacking: all sections of the New Jersey labor leadership are tied to Roosevelt's coat-tails. And since the labor party will be formed not because

portant part of "the job" will be

restored.

union ranks demand it, it is necessary to be as precise as possible in evaluating the political moods of the general union ranks as well as of union progressives.

#### **Educating the Workers**

Fortunately the education of the union ranks does not depend on their leaders. Whether Murphy is elected or not, the objective factors - the aggravation of their living standards and the deepening of political reaction as the war continues - will teach the workers that the way to defend their political interests is not by supporting union men on capitalist party tickets but by breaking definitively with the capitalist parties and programs and creating an independent party based on the unions and built around an independent labor program. This education of the workers in the period to come will be facilitated today by the pro-labor party militants in New Jersey if they stand firm in their refusal to support Murphy and continue their education and agitation for independent labor political action. Above all, it is necessarv to draw the lessons of the American Labor League convention, showing that the promises of the union bureaucrats cannot be depended on and that they must be replaced by a new leadership drawn from the ranks of the progressive unionists.

In other states it is the duty of the advocates of labor party action to assimilate the lessons of the Hague-labor leader-Stalinist maneuver to prevent the launching of a labor party and to counteract such moves in their localities by placing greater emphasis in their agitation on the need for an independent party and an independent program as well as on the need for candidates coming from labor's ranks.

To defend the USSR as the main fortress of the world proletariat, against all assaults of world imperialism and of internal counter-revolution, is the most important duty of every class-conscious worker.

- LEON TROTSKY

#### JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- **3.** Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- ment.

U.S. second front would be a political move hostile to the Soviet Union.

Stalin's search for a "good" military second front was vain. But there is a second front which can guard the Soviet Union from still further imperialist assaults. That is the front we fight onthe socialist revolution, which would transform Europe from a bastion of world capitalism into the Socialist United States of Europe, the only reliable ally of the Soviet Union.

## Youth In The **Post-War Period**

Millions of mothers and fathers, who have seen their grown sons march off to war, are seeking comfort in the hope that their younger sons will be spared from militarism. But all basis for this hope is being shattered in the very hour when the mounting fury of battle brings an increasing flow of the dreaded War Department telegrams announcing the death of loved ones.

Big Business proposes to dragoon the youth of this country into the military machine for many years to come. That is the meaning of the recent speech in Chattanooga by A. H. Sulzberger, publisher of the N. Y. Times, a leading spokesman for Big Business. Sulzberger wants "a system of universal compulsory military service" for America "so that the boys who are winning the peace can come home and their younger brothers can go over for their tour of duty." (N. Y. Times, Sept. 24.) A similar proposal for the youth of Britain was made last week by Labor Minister Ernest Bevin.

A bumper crop of post-war plans has been produced by the capitalist politicians. Every one of these plans envisages an international police force to preserve "order" and prevent "anarchy." Sulzberger and Bevin have brought out into the open the scheme for maintaining this police force -post-war conscription of the youth into the armed forces.

What kind of "order" is this police force to preserve? What is the 'anarchy' it will prevent? The conscript soldier of the post-war period, who is now playing in the schoolyard, will be commanded to defend the "order" of the rotten capitalist system against the "anarchy" of the European masses struggling for socialism. He will become as hated by these subjugated people as the German soldier is today. And Big Business expects to rule Europe with the bayonet for a long, long time after the present large-scale hostilities have ended; this is made more than clear by Sulzberger's explicit proposal that the "younger brothers go over for their tour of duty.'

Such is the bitter future in store for American and British youth under capitalism. The only way to avoid the prospect of endless militarism, which is inherent in the capitalist system, is through socialism. Humanity will not live in peace until it has established socialism throughout the entire world.

## **Capitalist Reports His Plant Safe Under Nazis**

Big Business demonstrates again that war or no war, it remains faithful and true to the almighty Dollar, or in this particular case, possibly the Pound. In the last world war, the German and French steel trusts, despite the bitter fighting that was waged between the armies of the two countries, concluded secret agreements, which protected each other's properties and profits. This war has already uncovered similar scandals in the case of the Standard Oil-I. G. Farben cartel agreement and others.

Now along comes J. G. Hardy of Redding, Conn., president of the Falconbridge Nickel Mines, Ltd. of Toronto and reports to his company's annual stockholders meeting: "Incidentally, you will be glad to learn, as I was, that through indirect channels it is reported that your Norway refinery is safe so far and is being maintained.

"It is in operation by your Norwegian staff, under German control, on the same Norwegian nickel-copper ore production we formerly handled on a toll basis."

The Norwegian plant is producing refined nickel for Hitler's military machine, but that's O. K. with Hardy and the Falconbridge stockholders who continue to realize their profits.

Virtually all of America's major corporations, General Motors, General Electric, Ford, DuPont, etc., have important subsidiaries in Europe. What has happened to these plants? No doubt most of them are similarly "being maintained" under their original staffs and similarly producing for the Nazi murder machine.

This incident throws a revealing light on why Big Business objects to the Alien Property Custodian confiscating the properties of the German capitalists, on the grounds that it will establish a "bad precedent." Big Business remains true to itself. It says: War or no war, our profits come first.

## **A Tidy Post-War Bonus** For Big Businessmen

What will happen after the war to the billions of dollars worth of war plants and equipment built by the government? Does Big Business have to worry about the possibility of these plants being used to compete with their domination over the country's productive facilities?

Not at all, according to Secretary of Commerce Jesse Jones, who is in a position to know what the government's plans are. In fact, Jones indicated at a meeting of the New York Board of Trade last week, the government is going to do everything in its power-in the name of "free enterprise"-to turn these plants over to private industry.

Of course, Jones cautioned, businessmen should not expect to get these government-owned plants, properties and supplies for nothing. They should not look forward to getting "too many bargains." But the government will deal "fairly" with industry, he confided, and it was plain from everything he said that Big Business will have nothing to complain about.

Jones reported that the Defense Plant Corporation, subsidiary of the RFC, has authorized more than nine billion dollars for the construction, equipment or expansion of 1,753 plants throughout the country. Other billions have been spent in the same way by the War and Navy Departments and the Maritime Commission. The DPC properties include 534 airplane and airplane engine plants: 164 for production of iron,

woman At Newark a colored couple got

against imperialist attack.

## **New Converts To The Second Front**

The N. Y. Times appears to have switched to a pro-second-front position. In its leading editorial on Sept. 27, dealing with the likelihood of the Red Army crossing the Dnieper and continuing its advance toward Germany, the Times concludes:

"But this merely emphasizes the need for speed in the establishment of the promised new fronts in the west, not merely to meet the Russian demands, but also for the sake of the Allies themselves. If reports from London are correct, that view is also beginning to unify military opinion among the Allies, which opens up the prospect that the timetable for the all-out assault on Hitler's fortress will be advanced beyond all previous schedules."

A similar shift has also been made by the Scripps-Howard press, which explains it quite openly:

"Before the Red Army's rapid advance, the fact that Stalin frowned on an Anglo-American Balkan campaign and demanded an immediate western front could not move Churchill and Roosevelt. But now Washington and London are faced with the abrupt political question of whether they can afford to let the Red Army penetrate Poland and Rumania, much less reach Germany, before Anglo-American forces approach the Rhine." (N. Y. World-Telegram, Sept. 30.)

These quite authoritative statements starkly illumine the political content of the second front question. The incessant cry for it by the Communist parties failed to speed it by one day, during the time when it could have saved millions of Soviet lives and tens of billions of Soviet property. And now, "victory" for this demand will have to be followed soon enough by Stalinist confessions that the second front is designed to checkmate the Soviet Union.

From the first we have pointed out that Stalin's search for a "good" second front is vain. His capitalist allies do only that which serves the preservation of world capitalism. The growing turn in imperialist circles toward a second front position simply verifies our original analysis.

Even today the Stalinists pretend that the second front is a military problem for the Soviet Union. That is absolutely false. The second front is fundamentally a political question. The Anglo-

interminable negotiations, they now find themselves blocked at every turn by the Roosevelt administration. First, the presidential emergency board recommended only a paltry eight cents per hour increase for more than 1,000,000 non- operating employes. Then Fred M. Vinson, director of economic stabilization, rejected the board recommendation. Now the emergency board has whittled down the wage demands of the 300,000 operating employes to four cents per hour. Roosevelt has continued to back Vinson in his refusal to permit any increase whatever to go into effect. Growing rank and file pressure for strike action

to break the present impasse is manifested by the unusual conduct of the union officials who are plainly frightened by the workers' mood. Officers of the 15 non-operating unions, in a circular to the membership explaining why they have not received wage increases, bluntly stated: "The responsibility for the present situation and delay rests with the President of the United States." The heads of the five operating unions, who ordinarily are happy to accept any offer, termed the proposed four cents per hour increase "an insult."

No less indicative of the pressure from the workers is the statement by William Green that the AFL will support the demand of the nonoperating unions for government approval of the eight cents per hour increase recommended by the emergency board. The fears of the union officials were articulated in an anonymous statement to a newspaper reporter at the AFL convention: -"We have about reached the end of our rope," the reporter was told. "Our members will not wait much longer for justice which is being denied them." (N. Y. Times, Oct. 3.) The mood of the workers is further reflected in press reports of sporadic strikes breaking out on the railroads.

Last spring the officials of the railway unions were among the strikebreakers who supported Roosevelt against the coal miners. Proclaiming their allegiance to "orderly procedure to adjudicate union-employer controversies through the machinery of existing governmental agencies," they helped to prevent the miners from getting a wage increase. By defending the very machinery which is now being used to block a wage increase to the railway workers, they betrayed not only the miners but also their own membership.

The cowardly policies of the union leadership in giving up the right to strike and placing their reliance on government boards are responsible for the run around the railroad workers are now getting.

A Sept. 30 Reuter's dispatch "promised signal." He and his many's allies not to attempt to from Montevideo reported that a cabinet arrived in Cairo from follow the example of Italy. steel and related products; 116 for machine tools; 98 for radio and other scientific equipment; 84 for aluminum; 75 for ordnance equipment; 65 for ships and ship engines; 60 for synthetic rubber; 40 for magnesium, etc.

Thus in addition to the huge fortunes being coined out of the war, Big Business can look ahead to a tidy post-war bonus in the form of cheaply-purchased buildings, tools, machinery and other equipment which can be used to tighten their grip on production.

The Militant opposes the transfer of these plants as a virtual gift to Big Business. Paid for by the taxes taken from the masses, we insist that they should be used in the interests of the masses and not in the interests of private profit. Let the government keep these plants and let them be operated under workers' control.

## **Almost Filibuster Time Again in Washington**

It's almost filibuster time again down in Washington. The House of Representatives' bill to abolish payment of the poll tax as a voting requirement for ten million Southern white and Negro citizens has finally been approved by a subcommittee of the Senate Judiciary Committee and is slowly moving toward a vote in the Judiciary Committee itself. The committee will hold a hearing on Oct. 25 to consider whether or not it is constitutional for Congress to outlaw the unconstitutional poll tax. The committee's chairman, Senator Van Nuys, predicts that the committee will eventually vote favorably on the anti-poll tax bill but that the measure is certain to face a filibuster when it reaches the Senate floor.

An editorial in the CIO News of Oct. 4 warns that the three chief dangers facing the bill are that it may be bottled up in the Judiciary Committee, filibustered on the floor or dropped through some "gentlemen's agreement." But the editors of the CIO News, who spend a good deal of time whitewashing the administration, neglect to add that a "gentlemen's agreement" involving Roosevelt and his poll tax comrades is already in effect; and that it was this agreement which helped to scuttle the anti-poll tax bill last year.

The fight to win the vote for the South is a fight not only against the poll tax Democrats but also against the "humanitarian" in the White House who hopes that his silence on this issue will grease the way to a fourth term and against the Republicans who vote against the bill on "constitutional" grounds so that they can get the support of the poll taxers for some of their own dirty work. Abolition of the poll tax will benefit the labor movement above all, and it is the duty of the labor movement to combat the efforts of all enemies of the bill,
