Nick Hughes, Assistant Secretary of Local 104 of the AFL Boilermakers Union was greeted with applause when he stated that his local union sent him to speak in defense of the imprisoned labor leaders. He pointed out that free speech is a myth unless it is applied to all minorities and that the Smith "Gag" Law is only a part of the general campaign against the working people.

Mr. Novack, the main speaker of the meeting, gave a complete report of the history of the case and the work that has been carried on by the Civil Rights Defense Committee. The audience, composed mainly of workers from the shipyards and aircraft plants, listened with deep interest, and contributed \$100 toward the CIO Local 49, Bay City, Mich., CRDC defense work in the Minneapolis case.

THE MILITANT

Warsaw Ghetto Anti-Nazi Uprising Of Labor

By Art Preis

The Battle of the Warsaw Ghetto, which began on April 19, 1943 and raged for 42 days, will go down in history as the first great revolutionary act of working-class mass resistance to the Nazi enslavers and hangmen of Occupied Europe.

Amid the dark alleyways and crumbling walls of their rat-infested, disease-ridden Ghetto prison, 40,000 men, women and children, the proletarian remnants of the Jewish population of Warsaw, Poland, went to their death battling arms in hand against the massed, trained legions of Hitler.

With weapons sufficient for only 3,000 fighters, the starved and ragged Jewish workers, who were organized and led by the labor and socialist underground movement, for six weeks held out with revolvers, rifles, a few machine guns, home-made bombs, knives, clubs and stones against thousands of trained soldiers using heavy artillery, tanks, flame throwers and aerial bombs.

The battle ended only after the Nazis dynamited and put to the torch every hovel and tenement in the entire area, and when every Jewish fighter lay dead under the ashes and rubble that marked the site where 400,000 Jews once lived.

Three Facts

against it.

Only within recent weeks have some of the details of the Battle of the Warsaw Ghetto been revealed outside of the labor and socialist press. But from the still-scanty information now available, three salient facts stand out. The Jewish fighters of the Warsaw Ghetto were overwhelmingly workers, armed, organized and led by the labor and socialist underground. They were inspired not merely by Jewish and Polish nationalist sentiment, but by class solidarity and socialist convictions, hoping that

their struggle, conducted under the red flag, would help to arouse the workers everywhere in Poland and Europe to revolutionary class struggle. And theirs was not a "spontaneous revolt, out of desperation," as bourgeois press commentators would have it appear, but a well-prepared, skillfully planned, organized mass action.

The Gestapo on July 22, 1942, demanded that the Judenrat (Jewish Council) deliver 6,000 to 10,000 persons a day for deportation to the "East," as it turned out, for mass execution in specially designed gas chambers or by machine-gunning. Deceptively, the Nazis broadcast the rumor that the deportees were going to labor camps and even "the machinery of the Jewish auxiliary police was utilized by the Germans to spread rumors about the favorable labor conditions which awaited the deported." (The Battle of Warsaw by S. Mendelsohn.) The Ghetto was a self-contained, isolated world with its own government, police, firemen and public health agencies.

The extermination campaign was initiated because "the German authorities, according to the report of the Polish government representatives, reckoned with the possibility of armed resistance at the time when there were still half a million Jews in the Warsaw Ghetto. They were afraid of it. . ." . .

Extermination Campaign

Within the Ghetto, a conflict arose. The Jewish leadership from the bourgeois class counseled against resistance, spreading the hope that the deportations were what the Nazis claimed. But the Jewish underground labor organizations, according to an official report to the Polish government-inexile, "through handbills warned against the trap and called at least for passive resistance."

The extermination campaign raged un-

abated. By January 1943, only about 40,000 to 45,000 of the original 400,000 Jews remained alive in the Ghetto. During this entire period, the Allied powers and their press scarcely commented on the upprecedented mass slaughter of the Jewish people.

Then came accounts of the first resistance. In the Polish newspaper Przez Walke do Zwyciesta, Jan. 20, 1943, it was reported, "We extend our admiration to the Fighter Unit (of the Jewish Labor underground) which during the latest liquidation met the Gestapo with gun in hand. Shooting broke out and developed into a real battle on Zamenhofa Street from where the Gestapo agents and German police had to flee and to which they returned only with reinforcements. Jews defended themselves with hand grenades and revolvers. Twenty Gestapo agents and police are dead and many more wounded."

For three months the Nazis drew back from completing their liquidation drive. The Jewish workers of Warsaw used the respite to organize further for armed resistance.

Nazi Attack

When, in the middle of April, 1943, the Gestapo and Nazi military police attempted to renew the "deportation" drive, their orders for an assemblage of the Ghetto inhabitants were defied. Their police detachments tried to enter the Ghetto. "As a reply from the seemingly empty houses came flying bullets and hand grenades. Roofs and attics began to spit fire and to rain death on the German police. Fear descended on Hitler's henchmen. They fled in confusion." (Polska, April 29, 1943.)

From the account of an official representative of the Polish Government-in-Exile, we learn that the Nazis began the attack with "numerous, heavily armed S. S. detachments

on cars mounted with machine guns and on tanks."

"The actions of the defenders were perfectly coordinated," says the report, "and the battles were fought on practically the entire territory of the Ghetto. Jewish resistance was brilliantly planned, so that in spite of the vast superiority in men and materiel on the German side, good results were achieved. In the first days of combat the Germans took severe punishment; hundreds of them were killed and more wounded. Several times they had to retreat behind the Ghetto walls. During the first week the battle had all the characteristics of regular military operations. The din of a tremendous cannonade was constantly heard from the Ghetto." This phase of the battle lasted a week.

Authentic Accounts

Then the Nazis concentrated forces at individual points of resistance reducing them slowly one by one with dynamite, flame throwers and incendiary bombs. The Jewish workers fell back on guerrilla tactics, fighting from cellars, roofs, sewers, sortying out at night to assault the Nazi troops under cover of darkness. "The burning in the Ghetto kept spreading. The fires were becoming intolerable. After six days of further combat, after the Germans had already been using planes, artillery and tanks, they managed to break into the northern part of the Ghetto. . . By April 28th, the Germans had thrown into the battle 6,000 heavily armed troops. Estimates place the number of Germans dead at between 1,000 and 1,200. The Jews lost about 3,000 to 5,000. . ."

According to the most authentic accounts, Nazi occupation of the Warsaw Ghetto was not completed until 42 days after the fight began, and even months later they were meeting unexpected resistance from tiny

hidden groups dug into the ruins and cellars.

Above all, it is necessary to emphasize the working class character of the resistance. The Stalinist swine and the bourgeois nationalist and religious leaders are engaged in a systematic campaign of falsification intended to obscure or deny the class struggle content of the Warsaw Ghetto revolt. While a few middle-class elements did participate, they fought under the inspiration, guidance, organization and leadership of the workers.

"Workers and the working intelligentsia are the heart and soul among the masses of fighting Jews who arose gun in hand against Naži atrocities," states an appeal of the Polish Labor Movement issued on the second day of the revolt. "Almost all underground publications, as well as the reports of the government representative, speak of the Jewish Fighter Organization which began and led the struggle. . . both the appeal of the Polish Labor Movement and some newspapers indicate that the organization consisted chiefly of workers, most of them young." (S. Mendelsohn, The Battle of the Warsaw Ghetto.)

Underground Manifesto

An underground manifesto from Poland, issued by the Fighter Units, proclaims, "Our activity will still make it possible for a certain number of people to be spared . . .We live in full realization that it is our duty to proudly continue our glorious heritage of Socialist struggle." (PM, April 18.)

That struggle is continuing, inspired by the example of the Jewish workers of Warsaw. In Lodz, the biggest Polish industrial center, 130,000 Jewish workers went on a general strike, halting temporarily the Nazi extermination drive there. Armed rebellions have flared up through all the la-

bor camps. A full scale armed resistance was carried on for a month by the Jews of Bialystok, where 30,000 died in struggle and where the "German losses were high despite the heavy armaments, tanks and fire-throwers thrown into the battle." (PM, April 18.)

Since the Warsaw battle, the British government has closed the last door of refuge for the Jews, in Palestine, while the American State Department and Roosevelt shed crocodile tears in public but deny haven to the Jews in any United States territory. Roosevelt could only mumble evasive statements about "military necessity" and "postwar" plans when asked to intercede with the British government to open Palestine once more for Jewish refugees. And on British soil, Jewish soldiers who resisted the anti-Semitic attacks imposed on them in the armed forces of the reactionary Polish exiled regime are court-martialed and given prison sentences.

Now it should be clear to the Jewish people everywhere, and to all the workers, that the capitalist "democracies" will not save the Jews from fascist barbarism. As the Jewish workers of Warsaw have demonstrated, only the workers themselves in revolutionary struggle will fight fascism to the death.

All honor to the brave Jewish worker dead, who have shown the workers everywhere the revolutionary road to freedom and socialist emancipation from capitalist reaction and fascism. When tens of millions shall rise in the manner of the heroic 40.000 worker-fighters of the Warsaw Ghetto, the forces of Nazism and capitalism will be swept away like chaff before the irresistible might of their onslaught.

How Badoglio Regime Was 'Democratized' SWP BRANCHES HOLD D. Stalinista Social Democratic Tibered' MAY DAY CELEBRATIONS By Stalinists, Social Democrats, Liberals NEW YORK CITY-Two hun-, bourgeois liberals is already being dred members and friends of the exposed by their open support of

By Ralph Graham

A fresh swindle has been perpetrated on the people of southern Italy by the formation on April 17 of a "new" and "broadened" government described as "representative of all the parties." The Italian people wanted an end of the Badoglio regime. What they have got is a Badoglio regime with its face lifted. It is the same old rotten regime,

the same police-military dictator- ism which has characterized their ship which took power at the time every move in Italy, announce the Italian armistice last with fanfare that it represents a August, the same puppet of "step" toward democracy because Anglo - American imperialism the old government has now been which has been propped up by "broadened" to include represent-Allied bayonets all these months atives of all the parties.

against the manifest will of the The "new" Badoglio regime is masses. The only difference is a miserable caricature of a that it has been dressed up by "democratic" capitalist coalition, the inclusion of the Stalinists, in comparison with the tradition the Social-Democrats and the of the capitalist "democracies" of Liberals, it has been lightly the West, or even the late but with a "democratic" unlamented "People's Fronts" so covered veneer. beloved of the Stalinists. scribed by Trotsky, in connection hostages" of the capitalist class. the 18 class war prisoners. It was these two posts which Wang Ching-wei handed out to the Communists in the shortlived Wuhan government at Hankow in 1926-27, during the high with these inspiring words: tide of the Chinese revolution. The Wuhan government was a coalition of "liberal" landlord-capitalst-militarist elements, with a 'democratic" petty - bourgeois leavening, in "opposition" to the dictatorship of Chiang Kai-shek. These elements feared a popular revolution just as Chiang did and pursued repressive policies against the workers and peasants. The Communists, by occupying posts in this nest of reaction. working hard to advance the ideas smeared themselves with all its for which you have been impricrimes and lost considerable soned. We shall work harder. We authority with the masses. The shall hold the fort until you redifference between the Stalinists turn to our ranks. in Hankow and the Stalinists in Italy is that the former served as the unconscious betrayers of the patient. revolution, while the latter are conscious agents of counterrevolution. A Stalinist has become min-

ster of agriculture in Italy. He takes office at a time when the Allies are planning to cut drastically all food imports into Italy and increase the already heavy food levies on the peasants in order to feed the starving cities: at a time, too, when new and heavier taxes are planned which will fall most heavily on the rural communities which comprise the bulk of the population of southern Italy.

SELF-EXPOSURE

It is not difficult to see what will happen to the prestige of the Stalinists among the masses when only the fulfillment of their hopes sixty workers including officials this oppressive program gets for a better world can repay. We under way. The self-exposure of vow to carry on in their tradition. English Trotskyist Leader At Press Interview

The Fusion Resolution Of English Trotskyists

[The following resolution was adopted by the Fusion Conference of the British Trotskyists, March 12-13, 1944.]

For the past ten years, whilst in fundamental agreement on the principles and program of the Fourth International, the British Trotskyists have been split on questions of tactics. These splits took place during a period of great defeats for the international working class and consequent reaction within the workers organizations and were mainly a product of the isolation of the British Trotskyist movement.

But this period is now at an end. The war has led to the beginning of a new stage of the class struggle and in the development of the international labor movement. Once again the workers are gathering their forces for great class battles. Trotskyism, as a tendency, is beginning to merge with the rising tide of militancy and socialist aspirations of the working class.

In Britain, this new upsurge has resulted in favorable conditions for the growth and development of the Trotskyist movement. To utilize these favorable conditions to the full, the forces of the Forth International must be unified into one organization, under a single and united leadership, and with a firm and resolute policy based upon the Principles, Program and Statutes of the Fourth International, and reinforced by majority decisions on the political and tactical questions which separate the comrades.

Together with the International Secretariat of the Fourth International the members of the two existing Trotskyist organizations have decided to end the splits in the British movement and to unite all Fourth Internationalists under one banner. At this Conference the assembled delegates of the hitherto separate organizations -

the Revolutionary Socialist League (British Section of the Fourth International) and the Workers International League - declare the fusion of these two organizations into one single party - the Revolutionary Communist Party, British Section of the Fourth International.

The past clashes on the political questions engendered deep cleavages between the leading personnel, and embittered the relations between the members of the organizations. An important task for the leadership of the new organization is to introduce a real comradeship into the political discussions and life of the party, and to sweep away all the vestiges of the bitter disputes of the past. In the interests of the fushion, this Conference therefore dissolves all past organizational conflicts and disputes and closes the discussion on these questions in the British section.

The unification of the British Trotskyists is a great step forward for our national and international movement and will be heartily welcomed and endorsed by the members of the Fourth International the world over.

The members of the Revolutionary Communist Party, British Section of the Fourth International, appeal to all isolated comrades who stand on the platform of the Fourth International, to join its ranks and take their place in deciding the outcome of the great historic battles which open out before the working class. The unification of the Fourth Internationalists takes place in the period of the dissolution of the Third International, and when the open degeneration of its national sections into agencies of the ruling class is shattering the unity of the Stalinist ranks. In ever-increasing numbers these militants are finding their way into the ranks of the Fourth International.

In uniting our forces at this Fusion Confer-

ence, the assembled delegates appeal to all who genuinely seek to achieve the international socialist emancipation of the working class, to join the Revolutionary Communist Party and fight under the banner of the Fourth International.

Socialist Workers! Communist Workers! The

Fourth International is the World Party of Socialist Revolution. It is the ONLY international socialist or communist party of the working class. On its banner is inscribed the slogan of the First International - "Workers of the World Unite! You have nothing to lose but your chains - You have a world to gain."

> infurled at the dawn of American working-class consciousness. Let us keep it bright and unsullied!

Rescind the No-Strike Pledge

By FRANCIS R. PALMER

U. A. W. members now know what their president meant when he stated last month (in the public press) that the International Executive Board was going to crack down on wildcat strikes. He meant that, regardless of their grievances and regardless of provocations by the company, we must lie down and take it, or the U. A. W. Executive Board will knock us down.

Ten members of Local 600 have been discharged and ten members suspended by the Ford Motor Co. Among these fired were six plant committeemen. Among the suspended workers were five committeemen.

A strike occurred at Ford's about two weeks ago where a dispute has been going on for several months over an increase in production, to speed up the job (just as they are doing at Chevrolet right now, with employes being laid off every day).

Thomas said, "Our union cannot and will not tolerate rowdyism as a means of adjusting its problems. The grievance machinery must not be short circuited by a few irresponsibles of Local 600 and shall not be used in any way to defend or protect the workers who are responsible for this incident."

"Under the circumstances," he said, "it is obvious that no cessation of work was justified. The workers who brought about or took part in this stoppage not only refused to abide by a fair standard of production but also violated the Union's Constitution and wartime no-strike pledge."

It is difficult to believe that these statements were made by the President of one of the largest and most militant unions in the world. Nowhere does Thomas mention the fact that the Ford Motor Co. is deliberately following a policy of provocation to enable it to break the union by firing, suspending and putting on probation the most militant of the Union's Committeemen. Eleven plant Committee men were disciplined for their part in the demonstration, eleven out of twenty with the blessing of R. J. Thomas. Nowhere does he point out that the Ford Motor Co. does everything possible to avoid settling grievances.

Labor has grievances, legitimate grievances, recognized even by Thomas. How does he propose to settle these grievances?

By following "established grievance procedure," but if the Management of the Ford Motor Co. refuses to settle grievances then Thomas has no proposal other than to uphold the no-strike pledge. SUCH A POLICY DOES NOTHING BUT ENCOURAGE MANAGEMENT IN ITS ATTACKS ON THE UNION.

The workers are tired of getting the run-around. They want justice from their leaders as well as Management. NO MORE RETREAT. History proves that a union without the strike weapon dies. "LET'S LIVE," BY RESCINDING THE NO-STRIKE PLEDGE.

In known cases in the army as well as the "Wac's," Negroes who refused to abide by the Jim Crow regulations were judged by the army psychiatrist as - plain crazy.

Although news of these cases is usually carefully censored, the military does not hesitate to blast forth publicly whenever, they SELFRIDGE FIELD think they can angle the case to infer that the rebellious Negro is a "menace to the American people."

Take the case of Milton R. Henry who was dismissed April 25 after a court martial at Selfridge Field, Michigan. He had enlisted as a private in April 1941 and worked up to 2nd Lieutenant in the 553rd Air Corps squadron. The charges filed and "proved" were "AWOL nine times and disrespect to two superior officers."

MEDICAL TESTIMONY

It developed that Lt. Henry had been ill for some time with a chest disease which, according to medical testimony, may cause great fatigue. Twice he had been examined and x-rayed by a medical board and a transfer to limited service had been advised. This advice was ignored. The basis for the AWOL charges was Henry's inability to awaken in time to report for duty.

As reported in the capitalist press, Lt. Col. A. R. De Bolt and Lt. Col. Charles A. Gayle charged the defendant with being disrespectful. These members of the reactionary officers' caste quoted Henry as saying: "I got my promotion by initiative and integrity; you officers can't say that. All revolutions have been initiated by minorities. Remember the French Revolution and the Russian Revolution. In each case it was a minority who ruled, and some day I, too, will be in a position to dictate." What the officers had said to Henry before this and whether he affirmed the statement, denied it or claimed to have been misquoted was not recorded in the press

Flint UAW Urges Labor **To Organize Own Party**

> By Policy Committee, Chevrolet Plant 3, Local 659, UAW-CIO, Flint

It is a cruel paradox that in the United States, a democratic nation, we permit a group of less than 200 families to control our destiny for their own enrichment, while we, the common people,

the toilers, do not use our political power, and as a class get less Once the Wall Street masters and less of what we produce. This is a land of plenty, and yet, are convinced that Roosevelt has less than half of the lower two-thirds of the population are able. to maintain a decent standard of living. The rest of this lower group exist on a thoroughly inadequate subsistence, and many stroy the flimsy structure of of them in poverty-here we are

MAY 5, 1934

NEW YORK-In a pamphlet entitled "An Appeal to the Membership of the Socialist Party," a group of 47 Socialist Party members under the name of the Revolutionary Policy Committee issued a programmatic statement of aims and principles in which they attacked the traditional reformist policies of the Socialist Party. Analyzing the projected programme and its significance, James P. Cannon wrote in The Militant:

"Under the impact of the second historic debacle of social reformism on the international field-Germany and Austriaand the sharpening of the class struggle in America, the ferment in the Socialist Party is deepening and a process of differentiation along principled lines is clearly evident. Most significant among the many groupings, a left wing current is now taking shape in the party. . .

"The statement of the Revolutionary Policy Committee is somewhat lacking in clarity and incisiveness on certain fundamental issues. . . Despite these defects, however, the declaration of the Revolutionary Policy Committee indicates the emergence of a substantial group in the Socialist Party which is obviously breaking with the policy and practice of social reformism. If the group perseveres on this course it will undoubtedly attract the revolutionary elements of the party, especially the Socialist youth, and play an important role in the reconstitution of the revolutionary movement in America."

KANSAS CITY-The sudden death of Comrade A. A. Buehler, beloved veteran of the American communist movement, one of the founding members of the Communist Party and an active member of the Communist League (Trotskyist) since its inception, was announced by the Kansas City Branch. The telegram read. "We are grief-stricken, but will carry on."

NEW YORK-The Madison Square May Day Demonstration was described in The Militant as "by far the largest and most impressive that New York has seen." The demonstration included all tendencies in the labor movement, with the exception of the Stalinists who had held their own separate demonstration.

- **3.** Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- 8. A Workers' and Farmers' Government.
- 9. The defense of the Soviet Union against imperialist attack.

Roosevelt likewise takes his stand on the grounds of humanitarianism. The bombings, he assures the clergymen, will shorten the war. Therefore, in the last analysis, they save human lives, "democracy," "culture," etc., etc.

Whether these pacifist clergymen are sincere or not, we do not pretend to know. It is not too important. What is important is that pacifism reveals itself today in all of its bankruptcy, its impotence, its cowardice. War, as Lenin once stated. exposes and destroys many things that are rotten, and in this war, the whole philosophy of pacifism, as well as its practitioners are doomed to disappear from the political scene, hardly leaving a trace.

While it is true that the actual arguments of the pacifists are devoid of any real seriousness, their action has an important symptomatic significance. The crowing of the rooster does not bring the dawn, but it does herald its approach. So it is in this case. The fact that the pacifists are beginning to whimper more audibly, the fact that their protests have evoked such important repercussions on both sides of the Atlantic, points infallibly to the fact that the masses are growing weary of the slaughter, that they are becoming increasingly conscious of the blind alley into which the capitalist rulers have led mankind, that they are preparing to break out of the bloody ring.

Free Speech

The destructive role of Stalinism in the labor movement was highlighted this last week by two recent incidents involving the right of free speech which one would imagine have already been sufficiently trampled underfoot in the course of the war by the "democrats" in Washington.

In the first of these instances the Stalinists tried to muzzle Gaetano Salvemini, noted Italian scholar. liberal, and anti-Fascist, at a lecture he was scheduled to deliver before the Hollywood Writers' Congress. This Stalinist-dominated outfit threatened to cancel the lecture unless Salvemini gave them "definite assurances" that he would refrain from any criticism of Allied policies. Salvemini indignantly rejected this demand and told the Hollywood Writers' Congress to "keep their money and go to hell."

Meanwhile a Stalinist gang in Minnesota utilized the Hennepin County CIO Council, which is under their thumb, to demand that Norman Thomas be barred from speaking at a post-war planning conference held at the University of Minnesota.

It is interesting to recall in this regard that both Salvemini and Norman Thomas are supporters of the Allies and their war, although in the case of Norman Thomas, he is somewhat shame-faced about it. The fact that the Stalinists campaign to gag even liberals of the Salvemini and Norman Thomas stripe serves to bring sharply into focus the truly invidious character and unabashed, allout reactionary aims of these political degenerates. They want to stifle every critical voice, every sign of opposition within the labor movement. They want to transform the American workers into a herd of cattle at the disposal of the war machine. Inside the labor movement Stalinism is today in

the very vanguard of reaction which seeks to destroy the elementary democratic rights of the workers. Every blow at free speech, every attack on the democratic rights of the workers, is a blow at the heart of the organized labor movement. That is why the struggle against Stalinism is the struggle for the preservation of the labor movement.

California Farm Workers Face Anti-Labor Terror

While Roosevelt is mouthing about an export trade for the "four freedoms," tens of thousands of agricultural workers in California's sunny valleys continue their intolerable existence under the brutal terror maintained by the corporation-financed "Associated Farmers."

The La Follette Senate Civil Liberties Committee just two weeks ago released a report on the activities of the "Associated Farmers" of California which reads like a page out of the Black Book of Hitlerism, with special American trimmings.

"Its record," charges the Senate committee, "is one of conspiracy-developed on a far-flung scale. covering an entire region. That conspiracy, designed to prevent the exercise of their civil liberties by oppressed wage laborers, was executed ruthlessly with every device of repression that anti-unionism could muster. In many cases these violations were aided, abetted or ignored by local government officials who made a mockery of law and order and equal justice under the law."

The "Associated Farmers" and similar Big Business anti-labor terroristic groups "have proceeded with impunity to perpetuate a system of economic tyranny which should be the cause of national shame and concern." The "factories in the field" of corporation industrial farming are an "economic poorhouse for the unfortunates who have no other means of livelihood and a political breeding ground for violence and undemocratic philosophies. . ."

The activities of the "Associated Farmers" are directed against industrial as well as agricultural labor. Organized not by farmers but the land-owning banks and corporations, this terroristic outfit, which has murdered scores of workers attempting union organization, "stands in opposition to employe organizations and collective bargaining in the field, factory and transportation," states the Senate report.

"In labor disputes, in which waves of violence broke out, the leaders of the Associated Farmers occupied prominent places in the front ranks of bands of armed deputies and vigilantes participating in the riots." These vigilante gangs provide the industrialists with "backlog of rural opposition to trade unionism" which helps to spearhead anti-union legislation and repressive drives against all labor.

Corporations Want to Keep Profits Secret from OPA

Corporations are more secretive about their books and records than a school girl with a diary. However, the matters Big Business is so shy of revealing are scarcely of as innocent a nature.

It is therefore not at all surprising that among the proposals advocated by the Smith Committee of the House to pull the teeth from even the present mild and inadequate price control law, is an amendment that would prohibit the Office of Price Administration from examining corporate books and records for the period prior to 1939.

This would prevent access to information on production costs and profits in "normal" times as a basis for establishing price ceilings. Padding of Costs, monopoly price-fixing and other profiteering practices are standard with the corporations. An examination of their peace-time records would only serve to highlight all the more fully the extent of these practices during the war.

Under the heading of "business secrets" the corporations are enabled to conceal their connivery and thieving. The workers will gain a real weapon in their struggle against capitalist corruption and exploitation when they win the right to have their union committees examine the books of the corporations

On Pacifism

Pacifist ideas, or more correctly, pacifist illusions played a considerable role in the last war. As a matter of fact, one of the central slogans of the first world war - "the war to end all wars" - the fostering of the illusion that peace can be achieved under capitalism, was a deliberate piece of demagogy designed to exploit the pacifist illusions of the masses on behalf of the war governments. Similarly the demagogy of Woodrow Wilson was shot through with pacifist verbiage and hypocrisy. The entire previous background of the relatively peaceful development of capitalism, particularly in Europe and the United States, provided a rich soil for the growth of pacifist illusions and for employing these illusions to dupe and deceive the masses.

Far different were the conditions preceding the outbreak of the second world war. The capitalist rulers launched the current slaughter bereft of a single idea that could really grip the minds and hearts of the masses. Isn't it a pathetic commentary on pacifism and its role that the humanitarian opponents of the war had to wait until the fifth year of the greatest blood bath in history before raising their voices to bleat in protest. And even now, these moralists do not protest against the war, much less propose to do anything about it; they are merely protesting against one aspect of it, the bombing of cities and civilian populations.

If it is wicked to kill human beings, why protest simply the killing of civilians by aerial bombing? What about sailors drowned at sea? What about soldiers shot in the field? Why not protest against these horrors? The utter bankruptcy of pacifism is revealed not only in their fantastic attempt to isolate one piece out of the whole bloody mess, but the fact that the pacifists wholly base themselves in their argumentation on the point of view of the war lords. What are their reasons for demanding a cessation of bombings — because the war aims of the Allies are reactionary? Because the human race is being slaughtered over the question of what imperial powers shall dominate and exploit the world? No, not at all! The pacifists have converted themselves momentarily into military experts and find that the bombings are inadvisable from a military point of view.

Stephen Early, in making public Roosevelt's reply to the protesting clergymen, cedes his critics nothing. Roosevelt is as "horrified" as they are.

May Day

The Stalinists are repeating today the treachery of the Social-Democrats during the first world war. No wonder they are trying to destroy the revolutionary traditions of May Day, just as their historic predecessors in perfidy attempted to do in 1914-1918.

In his May 1 Order of the Day Stalin carefully avoided any reference to the class character of this working class holiday and its glorious traditions of socialist struggle. The self-proclaimed builder of "socialism — in one country" did not have a word to say about socialism, either inside the Soviet Union or outside of it. Instead he raised the dirty rag of chauvinism. He did not pledge solidarity with the working class of Europe, above all, of Germany. No, he virtually called for the extirpation of the German workers, by lumping them together with the Nazis, under the epithet of "German vermin." Stalin's words of friendship and solidarity are reserved for the capitalist overlords of the "democracies."

The Stalinists in this country, continuing their sell-out of the American workers, called for increased production on May Day in place of the traditional slogan of: Down Tools on May Day. They hope to cement "national unity" by moving to destroy every one of the traditions of the class struggle.

Two decades ago, the yellow socialists proved the main bulwark of rotting capitalism. The Stalinists have today taken over this perfidious job. But in their cynicism, their brazenness, their contempt for the masses, their unbridled treachery, they have already surpassed the Social-Democratic betravers.

But the Stalinists will fail just as did their Social-Democratic predecessors. The October Revolution which emerged from the last war revived the glorious traditions of May Day under the Communist International of Lenin and Trotsky. The proletarian revolution which is coming as the inescapable consequence of the second world war will again raise high the banner of working class solidarity that May Day symbolizes, this time under the spotless banner of Trotskyism.

The "Modern Brand" of **American Imperialism**

Big Business leaves it to the liberal journals and mass consumption propaganda sheets to pour out the blah about how the American ruling class is conducting this war for "democracy," the "four freedoms" and other high-sounding phrases. In its own house-organs, Wall Street prefers to state the real score on its war aims.

Thus, the United States News, a weekly devoted to providing its big-money clientele with brass-tack political information and analyses, minces no words in stating the real nature of Wall Street's war objectives. In the March 24 issue, United States News discusses the Saudi Arabia oil deal with relation to the whole program of American Imperialism.

"This country's sphere of interest rapidly is being extended to every corner of the globe. As this sphere expands, there is growing up what has come to be recognized as a modern brand of American imperialism, modified but nevertheless real."

The article then relates the real scope of this "modern brand" of imperialism. "American interests now are being extended to another far corner of the earth in the Middle East. . . acquiring stakes in two more large bodies of water-the Mediterranean Sea and the Indian Ocean. Thus, as matters now stand, there is no quarter of the globe in which the United States as the world's leading power, has not asserted herself."

Concluding frankly with the real explanation for the Middle East oil grab, the United States News admits that Roosevelt "sees the U.S. role at the peace table and in the world of the future as based fundamentally on military power." Oil is a prerequisite of military power. "The President is taking out U. S. claims to oil, so that this Government's hand will not be weakened when the nations of the world sit down to write the peace."

All of which carries the stench of the "peace" conferences after the last war, which were nothing but the formal recognition of control over lands and resources already secured by military means. The only new factors of Wall Street's "modern brand" of imperialism are the unbridled character of American imperialism, the colossal scale of its ventures and its huge appetite."
