Roosevelt Puts Signature On Mangled "Price Control" Bill

By Joseph Keller

Despite his numerous promises to hold down prices, a demagogic trick employed to justify his wage freeze, President Roosevelt last week put his seal and signature upon the emasculated version of the Price Control Act. He did not fail to deplore for the record the more obvious mutilations. According to dispatches from Stockholm there was violent street fighting in Copenhagen and casualties among the strikers numbered more than 700 killed and 1,000 wounded following repeated assaults by the Nazis with machine-guns, rifles and bayonets and armored cars.

Panic-striken by this display of mass resistance, the Nazis surrounded Copenhagen with troops, cut off the city's water, electricity and gas services, and threatened to bomb the insurrectionary workers from the air unless they returned to work.

Danish puppet officials, acting point to remove street barrion Nazi orders, appealed to the workers to end the strike. The new hall of the National Maritime Union in New York City is now open and in full operation after a big National Maritime Day dedication ceremony. This is reputed to be the most elaborate union hall that American seamen have ever owned. It has an illuminated dispatchers' board, recreational facilities including a bar with free beer on occasions, upholstered benches and, as President Curran promised, sweet music while the famous Regensen College oppressors. On Saturday, July 1, the seamen wait for their next ship out. A good union hall is after firing into it and smashing the insurrection was in full a good thing to have. The top CIO bureaucrats however are more determined than ever to keep labor in the strait-jacket of the no-strike pledge and will resort to every wile and stratagem to keep this issue from being thoroughly aired by the convention delegates.

MCF SUPPORT

Another important question facing the Convention will be the endorsement of independent political action and support of the newly formed Michigan Commonwealth Federation. Last year, after a sharp and bitter struggle, the Convention recorded itself in favor of launching a labor party and called for a referendum on this subject by all affiliated unions. The top CIO officials violated both the letter and spirit of the convention mandate by refusing to hold the referendum. The alibi of the bureaucrats was that the convention decision was a violation of national CIO policy. The leading union militants

British Youths Made Pit Serfs In Bevin Scheme

By Ralph Graham

On March 28 of this year several thousand young British workers, apprenticed in the shipyards, machine shops and engineering works of the Tyneside, struck in protest against what is known as the Pit Ballot Scheme, under which the capitalist government of England sought to force the workingclass youtl. to labor in the coal mines.

The strike was a revolt by the youth against a new type of government coercion which deprived them of freedom to choose their employment. Conceived in the Hitler style of the forced labor battalion, the Pit Ballot Scheme is on a par with the current edict of Roosevelt's War 👁

China's 7-Year Fight For Liberty

By Li Fu-jen

China's struggle against Japanese imperialism has just completed its seventh year. Few wars have lasted that length of time, and none, with the exception of the World War of 1914-18, has taken such a fearful toll of human life and treasure. China under Chiang Kai-shek's regime has fallen into utter ruin. And still the end is not in sight. With the recent Japanese oc-

MINNEAPOLIS - In preparation for a second general strike to enforce terms of the contract wrested from Minneapolis bosses in May, General Drivers Union 574 on July 2 issued a public statement which exposed the "delaying" tactics of the companies as a deliberate union-busting move. "We desire to negotiate in regard to wages and working conditions in every plant where our members ask such negotiations," said the statement; "This is what we are going to insist on." With the support of every organized trade union body in the city, Local 574 scheduled a mass parade to demonstrate its strength.

SAN FRANCISCO — A general strike loomed as public indignation mounted over police murder of striking waterfront workers. Even Joseph P. Ryan, reactionary head of the AFL longshoremen's union, was forced by the pressure of the workers to give support to the strike, which he had condemned a few days before. So widespread was the sympathy for the longshoremen's strike, that Colonel Mittleson of the National Guard frantically threatened court martial for any soldier on strike duty who shot into the air - "Shoot to Kill," he ordered.

GERMANY - In a monstrous blood-bath, Hitler purged from the Nazi Party a large section of the rebellious middle class elements who expected fulfillment of Nazi promises of trustbusting and land reform. "This most recent bloody carnage of German Fascism," said The Militant, "begins to open up a new chapter in its history. . . the strengthening of capitalist reaction."

In a thorough analysis, The Militant explained how the Fascist movement, financed by Big Business, had won to its ranks tremendous numbers of people from the middle class. "To the middle class this program (rehunciation of the Versailles Treaty, nationalization of trusts, and land reforms) represented a glorified empire with the oppressive features of Big Business eliminated. The capitalists and the Junkers were never fooled by this part of the program. . . With the Hitler hordes in power and the working class movement crushed, the fascist revolution. . . was not entirely completed. The middle class elements had yet to be reckoned with - not in the fulfillment of their own aspirations of trust busting and land reform. . . but by dashing all of these hopes.

without moderation." Baumgartner and Hartzel were convicted under the Espionage Act of 1917 for their pro-Nazi utterances. It is interesting to recall that the U.S. Supreme Court, hiding behind a shyster technicality similar to its action in the Lynn Case, refused during the last war to rule on the conviction of the Socialist agitator, Eugene V. Debs. Debs was convicted to ten years imprisonment under the same Espionage Act of 1917 for delivering his Canton speech where he declared his opposition to the first world war.

The U.S. Supreme Court shows itself tenderly solicitous for the "free speech" rights of Nazis, but it has refused to even act in the case of the Minneapolis Labor prisoners involving the constitutionality of the Smith "Gag" Act, and now in the Winfred Lynn case, involving the question of Jim Crowism in the armed forces.

The Supreme Court has thus joined in the campaign to jail Socialist fighters, to hound and bait labor militants, and to impose second class citizenship on 13 million American Negroes.

Yugoslavia

The recent agreement of the Tito regime in Yugoslavia with the Yugoslav government-in-exile highlights the sinister aims and reactionary role of the Stalinists. The Yugoslav Liberation movement originated as a revolutionary movement of the masses, who aspired not only to drive the Nazi conquerors out of their country, but to abolish forever the rule of the rapacious and reactionary landlord and capitalist clique represented by King Peter and his government-in-exile. The masses of Yugoslavia wanted land, peace, freedom and security. The Yugoslav peoples were attracted to the Soviet Union because they knew that the Russian Revolution had driven out the landlords and capitalists and had given the land to the peasantry.

The Stalinists, headed by Tito, took the leadership of this mass movement and soon began bending it to their own reactionary aims. First, assurances were issued that private property would not be disturbed in Yugoslavia and that the economic and social relations of the pre-war days would be retained. This was a clear declaration to the capitalists of Europe that they need not fear for their rule-Stalin would help them maintain the capitalist status-quo.

Next, in April, Dr. Josip Smodlaka, who previously served the gangster royal Yugoslav government as Minister to the Vatican and Spain, and is now Minister of Foreign Affairs in the Stalinistdominated Partisan Government, announced in a special interview granted to the correspondent of the N. Y. Times that the "question of the monarchy (in Yugoslavia) will not be decided until after the war." The April 22 Militant, commenting on this interview, declared: "What is now obviously in progress is that Tito and his clique are working under the guidance of the Kremlin toward the establishment in the Balkans not of a genuine federation, but the creation in alliance with the old ruling groups, of a South Slav Entente, within the Kremlin's sphere of influence.

"Smodlaka's proposal is still another proof that Tito and the Stalinists seek to betray the revolutionary movement of the Yugoslav peasants and workers.'

The betrayal of the Yugoslav masses has now

U.S. Senators Applaud Fascist-Like Rantings

While the Roosevelt administration puts on a holy show of going after the fascist "crack-pot" groups, Congress itself has become the chief forum for the vilest, fascist-type incitations against minority groups and labor.

Cloaked with parliamentary immunity and tolerated by the so-called "progressives" in Roosevelt's camp, Southern "white supremacy" Democrats are spewing forth a constant stream of poison against the Negroes, Jews and labor.

A recent orgy of Negro-baiting and anti-Semitism was indulged in by Southern Senators on the floor of the Senate over the bill to extend the life of the Fair Employment Practices Commission, that feeble government agency supposed to protect Negroes and other minorities from discriminatory practices in industry.

Senators Bilbo and Eastland of Mississippi outdid themselves in obscene ranting against Negroes and Jews, not without considerable approving applause from the other solons. Bilbo raved that the FEPC would be able to make the Senators hire "mulatto" secretaries whose "odoriferous" smell could never be removed from their air-conditioned sanctums-free of every stench but that of reactionary politics.

Bilbo even branched off into the fascist line that the "Jews" are running the country. "This nationality has received more consideration under the New Deal than any other nationality." He covered innumerable fields, including urging the white people in Washington. D. C., to "take the law into their own hands" against Negroes. Thus, lynch-violence was openly proclaimed by this leading law-maker.

Eastland raged at the prospects of white stenographers having to take dictation from "burr headed niggers." No protest at this rabid racial insult was voiced by the assembled Republicans and Democrats. These latter joined the poll-taxers in adding enough amendments to the bill to emasculate the FEPC even of its former feeble powers. In this disemboweled version, the bill was finally passed. The Roosevelt administration, which can pound hell out of Congress for some bill it really wants, demonstrated utter ineptness and indifference toward the actions of its Southern bloc against the FEPC bill.

Congress Aids Canners in \$100,000,000 Price-Gouge

In the general massacre of the Price Control Act, little notice was given to an "incidental" piece of legislative robbery whereby the food-canners hope to pick an additional cool \$100,000,000 from the pockets of the consumers.

This price-boosting scheme is incorporated in a rider to the Deficiency Appropriations bill, which provides funds for the operation of the OPA and other government agencies. This rider, cooked up by the National Canners Association, closed shop of the canning monopoly, was slicked through in the closing hours of Congress.

An "innocent" joker was included in the rider which. in effect, would permit the canners to fix their own standards and specifications on canned goods enabling them to charge housewives "extra fancy" grade prices for "Grade C" products.

Roosevelt's advisers were reported as "worried" over this additional rabbit-punch at price control. But they also "ruefully" predicted Roosevelt would sign the measure.

The Lynn Case

The recent decision of the Supreme Court on the Winfred Lynn Case demonstrates again what a faithful and dependable watchdog is the Supreme Court of the interests of the plutocratic masters who own the wealth and rule the destinies of this country. Again, as in the case of the 18 Minneapolis prisoners, the Supreme Court is confronted with a clear violation of the Constitution. In the Lynn Case, involving the question of discrimination against Negroes in the armed forces, the very provisions of the Selective Service Act of 1940, which state that "in the selection and training of men under this Act, and in the interpretation and execution of the provisions of this Act, there shall be no discrimination against any person on account of race or color," are admittedly being violated every day. Yet the nine begowned attorneys supposed to be the guardians of the people's rights and liberties, hid like a bunch of shyster lawyers behind a legal technicality and declared that the case was 'moot' - it could not be acted upon because Winfred Lynn is now no longer in the custody of Colonel Dawnes, who was his Commandant at Camp Upton, N. Y., when he originally brought his suit a year and a half ago. (Lynn is now serving in the Pacific theater of war.)

The capitalists and their retainers try to inculcate the idea into the minds of the American people that the courts-and specially the highest court of the land, the U.S. Supreme Court-stand above the conflict of society, above the struggle between capital and labor, and render their verdicts in unbiased fashion; purely on the basis of cold mathematical reasoning, impersonal justice and abstract law. Nothing could be further from the truth. The last few decisions of the Supreme Court should serve to force this truth upon the working massesthat the Supreme Court judges are nothing but begowned timeservers of the banking and industrial masters of America, that the Supreme Court is merely an instrument to keep the masses in line behind the present capitalist system of exploitation, discrimination, favoritism and luxury for the few at the expense of the many.

progressed further. A delayed AP dispatch of June 23 reported that Tito had arrived at an agreement with King Peter on a unified Cabinet which will include representatives of the Partisan regime and the government-in-exile. What this means is that Stalin is lending his weight to impose again on the Yugoslav peoples the self-same reactionary and discredited landlord and capitalist cliques who for decades have exploited and enslaved the broad masses, and against whom the Yugoslav people have fought with so much valor and sacrifice.

Stalin is attempting to put through his hopelessly utopian and thoroughly reactionary program of reconstituting capitalist regimes in Eastern Europe "friendly" to the Soviet Union and under its sphere of influence. Such is the meaning of his maneuvers and policies in Yugoslavia, in Western Poland, in Rumania, etc.

The masses of Yugoslavia, however, have not fought for over three years with such unexampled heroism and courage, they have not sacrificed so many of their sons and daughters merely to bow their heads again beneath the tyrants' yoke, to surrender again to the enslavement and exploitation by the upper class scum who previously ruled over them. The Yugoslav peoples want no more lords and masters over them. They want peace, freedom and security. They can realize their aspirations only through the program of the Socialist revolution; by expropriating the propertied classes, by giving the land to the peasants, by placing industry under workers' control.

The advanced workers and peasants of Yugoslavia must draw the final lessons from the latest Stalinist betrayal. They must proceed to organize their own independent organization dedicated to winning the Yugoslav masses to the struggle for a workers' and peasants' republic, part of the Socialist Balkan Federation, an integral section of the Socialist United States of Europe. The Yugoslav masses can fight for these aims not in alliance with the Anglo-American imperialists who come to displace the Nazi tyranny, only to substitute it with their own, nor in alliance with the Stalinist traitors, who would deliver them again into the hands of their oppressors.

The Yugoslav peoples will find as their only Only several weeks ago, the same Supreme Court true allies the insurgent masses of the rest of Europe, who like themselves aspire to drive out the old that the defendants could not be convicted because tyrants and exploiters and to rebuild Europe on

Amid a rising tide of workingclass militancy, occasioned by the intolerable burdens of the imperialist war and the growing attack on labor by the Tory-Labor coalition government of Churchill, it is not difficult to envision

the embarrassment which the Labor Party "leaders" would feel when called to account by the movement they are so brazenly betraying.

Bent on continuing the coalition with Churchill and the Tories, how could they face rankand-filers equally determined to end it? And how would "Labor' Minister Ernest Bevin be able to justify his vicious Defense Regulation 1-AA which makes it a criminal offense to advocate strikes in war-essential industries?

former owners, was described last week before a hearing of a sub-committee of the House Merchant Marine and Fisheries Committee. This capitalist "dog eat dog" incident, with a gov-

ernment agency acting as a tool for serving one of the private interests, was termed by one of the principal witnesses, former purchasing agent of the shipyard, as a "direct and carefully planned steal."

The same day as an indictment for fraud was brought against the officials of the original company. Marine Maintenance Corporation, the Maritime Commission ordered the plant seized. It was subsequently turned over to a newly-formed private company, without sufficient capital even to meet the payroll, headed by John Otterson, who had intimate connections with the Maritime Commission on which he had previously held the post of coordinator of repairs. The officials of the former company were acquitted of the fraud charges, but the shipyard was not returned.

A former comptroller of East Coast Shipbuilding Company, the name of the new outfit, told how he decided to resign because he felt there was "something very smelly" about the whole transfer of ownership "which he couldn't put his finger on, but he felt it was legalized highway robbery."

The officials of the new company treated themselves very handsomely at government expense and under the benevolent protection of the Maritime Commission. Six months after taking over, the 10, top executives paid themselves a handsome cash bonus. The number of executives mushroomed from 48 to over 400, who installed themselves-at taxpayers' expense-in very swank offices, known as "Mahogany Executive Row," fully equipped with thick rugs, drapes and private secretaries.

The Maritime Commission is well-known for its generosity toward the shipyard companies and ship lines. It now appears to be extremely magnanimous toward individuals closely associated with it. Heading the commission is the notoriously anti-labor Admiral Land, who authored the famous dictum, "Union organizers should be shot at sunrise." He also declared that the shipbuilding moguls could not be expected to produce ships without the "incentive" of high profits.
