# **Trotskyists In** Italy Organize **Bolshevik Group**

#### **Exclusive Eye-Witness Account Describes** Misery of Masses, Revolutionary Ferment

News from Italy of the most vital importance for the world labor movement was secured last week by The Militant. This is contained in an eye-witness account of the white-hot revolutionary situation in Italy and the abysmal misery of the Italian masses under Allied domination. Above all, this report gives direct confirmation of the organization and growth in numbers and influence of the Italian Trotskyists, adherents of the Fourth International. The writer of this first-hand report, published below, has many years standing in the socialist movement. This is the first complete account of developments in Italy to come from revolutionary socialist sources.

#### By Arthur Robinson

A year ago, when I visited Naples after the Allied armies had entered it, "Democracy" appeared to have conquered. Everywhere slogans were raised on banners, scrawled on walls, yelled in the streets, "Welcome to the Liberators," "Long live Roosevelt," "Long live Churchill." Now these signs are weatherbeaten, aged, tornand are not replaced. New ideas, new banners, new slogans appear and always to the left-"Long live Russia," "Long live Soviets," "Soviet Italy."

Since the arrival of the Anglo-American conquerors, the politicalization of the Italian masses has been intensified. It is clear to all, the Allied armies are the government of Italy. Italy is an occupied country. The result-not "freedom from want" and "freedom from fear," but their opposite-hunger, devastation, slaughter, suppression of democratic rights, maintenance of the old capitalistlandlord-monarchist regime.

The most significant sign of the developing revolutionary situation in Italy, the greatest news I have to relate, is to confirm the existence, rapid growth and increasing influence of the official Trotskyist movement, the Bolshevik-Leninist adherents of the Fourth International.

The new organization, forged in the heat of the revolutionary flame blazing among the Italian masses, was recently formed in Naples from a fusion of the old Trotskyist cadre and sympathizers, including the writers of the Manifesto from Italy published in the April 8 Militant, a section of dissidents from the Stalinist party, leftward moving elements from the Socialist Party and a group of former Bordigists. Their forces, to begin with, are already considerable. Trotskyist groups have also grown in Rome and other cities in south Italy. From the north, the key industrial area still under the Nazi heel, I learned from unimpeachable sources of the increasing activity and influence of the Trotskyists in the traditional center of proletarian revolution, Milan.

The new Trotskyist organization has already issued one pamphlet and the first edition of its official paper, L'Internationale. On its first appearance, the entire edition of L'Internationale was completely sold out from the news-stands in less than 2 hours. Like all publications which do not sanction the policies of the Allied conquerors and their puppet Italian government, the Trotskyist paper has been banned. It must be printed and distributed under incredible handicaps, among which is the need to secure all paper from the black market at the phenomenal price of 5 cents per sheet.

#### **DEFEND 4th INTERNATIONAL PROGRAM**

The first issue of L'Internationale confirms the faith of the Trotskyists everywhere that the program of the Fourth International would inevitably find its way to the revolutionary workers of Europe. The Italian Bolshevik-Leninists, through their paper, send greetings

### coast longshoremen with a patriotic halo. "Everything for the

An Editorial The recent convention of the Auto Union is a landmark in the history of the American labor movement.

The organization of a new rank and file group, boldly fighting against the treacherous policies of the CIO leadership, boldly fighting to smash the no-strike pledge, boldly fighting for a new militant program, is an event of first class importance. It means that the fumes of "national unity" are being dispelled, that the auto unionists, standing in the front ranks of America's mass production workers, are preparing again to battle for their interests and rights. This marks a significant step forward! The whole labor movement is a head taller as a result of the struggle at the Auto

Convention.

# Killing Of Fascist Police Chief Is Sign Of Revolutionary Mood Of Italian Masses

#### By Jamés Cowan

The white-hot revolutionary temper of the Italian masses, who are seeking not only to avenge the abominations to which they were subjected under the Fascist regime, but also to overcome all present obstacles to a better social future, was evidenced last week in a single dramatic incident in "liberated" Rome where an angered crowd of 7,000 joined in the killing of Donato Carretta, former vice-director of the Regina Coeli prison. This one incident revealed with

crystal clarity some of the most | get Caruso (whom the authorities important elements in the Italian kept from the courtroom by a situation: the hatred of the mass- ruse), but they got one who repes for the Fascists and for the resented in their minds all that Allied imperialists who are en- Caruso did."

#### **A LETTER FROM ITALY**

Editor:

Enclosed you will find a letter which I have translated from a letter that I received from my father who is in Italy. It may be interesting to some of the readers of The Militant, so I thought I would send it on to you.

A Reader California

"Dearest Son.

"In seeing your letter, it was like seeing you once again. "You cannot imagine the consolation that it gave me to know that my sons are safe and sound and in good health.

\* \* \*

"We are well also for the present, but on paper I can't ever be able to tell you of my past life, of the suffering which we have gone through, and of the hunger and the lack of clothing we are experiencing.

"We have been getting 150 grams of bread a day, and now they have increased it to 200 grams a day; you can wonder how it is possible to live, but we out in the country have been able to help ourselves a little by supplementing this small amount of food with greens, beans and vegetables.

"It is worse in regards to clothing, and shoes are not obtainable at all, except secretly, that is on the black market. o get a pair of work shoes you have to pay 3500 to 4000 lire: whoever has the price gets them, and who hasn't, goes without. Now it is warm and all the farmers go barefooted; there have been many that have been compelled to go barefoot in the cold snow, and that is how everything is in general. Socks just don't exist at all. In regards to the lack of clothing I could never be able to tell you all. You can imagine for yourself, an ordinary work shirt which previously was priced at 7 or 8 lire, now costs 600 to 700 lire. A good dress shirt costs from 1000 to 1400 lire, so you can see the clothing problem is in a terrible condition, and as for other objects that have to be bought, consider you have to pay from 45 to 50 lire for a box of matches and for an ordinary handkerchief you have to pay 100 lire. I will stop telling you about this and I will try to tell you a little about the life we are living. "On September 8 an agreement was arrived at with America. and on the same day I was bombed by an American airplane. The bomb landed about 50 yards away from my home. so you can imagine the damage it caused. It destroyed the house and left it in a perilous condition, but I have fixed it temporarily and it has to be rebuilt; right now there isn't any cement, so that will have to wait. "It was also on September 8, at nine in the evening, that an American airplane was shot down by the Germans, and the pilot saved himself by parachute. He landed about five miles away and was immediately taken by the farmers in that district, in good condition, and he said he had to release his. bombs in order to save himself. He dropped four bombs one after another without killing anyone, but we were all covered with dirt; from then on we slept more than a month in a cave which we built on the side of a river bank.

A scene in the Roman Palace of Justice, with excited Romans milling through the court room during the first day of the trial of Pietro Caruso.

#### Caruso Executed

police chief of Rome during the Nazi occupation, was tried September 20, the day following the killing of Donato Carretta, the Fascist jailer, and sentenced to death on the

charge of having handed over 50 Italian hostages for execution by the Nazis. Fearing a fresh outbreak of mass anger by the Roman populace, the trial proceedings were rushed with all haste in a heavily-guarded courtroom

and the death sentence promptly executed. N. Y. Times correspondent Herbert Matthews said it was feared that "a lingering trial might exasperate public opinion again."

### **Report of Activity** of SWP Branches

MIWAUKEE, Sept. 19 - The new office and headquarters of the Milwaukee Branch of the Socialist Workers Party will be formally opened on October 1 with a gala house-warming party to begin at 4 P. M. The program will begin with a lecture by Comrade Jack O'Connell, entitled Working Men Need a Labor Party." The lecture will be followed by lunch, entertainment, nd dancing.

Included in the new headquarters at 926 N. Plankington Avenue, is The Militant Bookshop where The Militant, The Fourth International, and all of Pioneer Publishers works will be display ed and sold.

LOS ANGELES, Sept. 10 - An audience of more than 90 Workers tonight attended a lecture presented by the Socialist Workers Party Branch, on "The Civil War in France.

More than half of the audience were new friends of the organization, who came to the forum in response to a mailing sent to new readers of The Militant in Los Angeles. A collection of \$67 was contributed by the audience.

Fascist Carretta, former director of prisons in Rome, who turned chief witness against Pietro Caruso, Fascist Police Chief in Rome, cringes in fear as Romans storm around him in the Palace of Justice. The masses of Rome took their own vengeance on Carretta after dragging him from the courtroom.

# Caruso Executed Pietro Caruso, hated Fascist police chief of Rome during New Italian Trotskyist Group **Unfurls Revolutionary Banner**

#### (Continued from page 1)

the banner of the Fourth International, has been formed. Its leading figure is a young woman militant.

The whole situation in Italy is revolutionary and we can predict with confidence that the Italian party of the Fourth International will take its position of leadership in the coming Italian and European revolutions. Its opportunities are enormous.

The Italian workers, remembering the slogans and ideas of a they should turn first to that group they knew 23 years ago as the a "new" officialdom, and surrendered their arms. party of the October Revolution in Russia and the socialist revolution. the Communist Party. That is why one sees hammers and ferment. The detested monarchy has been jammed down their sickles scrawled everywhere, and even the slogan, "Long live Stalin."

But bitterly and in struggle, the Italian workers are learning that Stalinism is the mortal enemy of the program of socialism. Today all parties in Italy, even the capitalist, are compelled to pay lip service to "socialism." "Christian Democrat," "Actionist," all The writer goes on to describe have a "socialist" wing standing for "ultimate socialism." One can

I talked with a Partisan fighter who had come from the north. at the hands of the Roman pop-der more nearly attuned to their He said that the Partisans, mainly workers and poor peasants, want ideas of justice than even our Soviets. It is now common talk among the Partisans-they never calls themselves "patriots" as the Allied and Stalinist press falsely title them-that "Tito has sold out. He compromised with the lied "liberation" of the industrial bourgeoisie, accepted their government." Their attitude to the Allied invaders is "get out and leave us to solve our own problems, including the problem of the Nazis." The trade unions in Allied-occupied Italy are strong and popular, although with industry devastated, strikes and demonstrations prohibited, it is difficult for them to function. The Stalinists, strongest party in Italy today, have an ever-increasing struggle to maintain domination within the unions. Opposition to the Stalinists is growing, and most significantly among those rank and file workers who still belong to the Communist Party.

homes, where imperialist armies have passed, are rubble and roofless walls.

This is what the Italian workers are receiving after their heroic armed struggle to overthrow the fascist regime and oust the Nazis. I was in Naples immediately after the Allies marched in, and I can tell you it was the workers alone who drove out the Nazis, after nearly a week of bitter, hand-to-hand fighting in the streets. The Allied troops moved in afterwards without, to my knowledge, firing a single shot or suffering a single casualty. The deceived people then generation ago, want socialism, communism. It is but natural that turned the city over for abundant promises of food, "democracy,"

> Today, a year later, the masses are in tremendous revolutionary throats. Their freedom to meet and demonstrate is denied. No free elections have been held. They cannot even purchase newsprint from the paper control, for only those parties like the Stalinists and Nenni "socialists" which agree with the Allied conquerors and their puppet Bonomi government are permitted to issue publications. The Bonomi regime has not even the power of a rubber stamp, and less mass support.

> Only the Trotskyist party offers a real solution to the problems of the Italian people. That is why the Trotskyists, joining hands with the revolutionary socialists everywhere in Europe, are destined to lead the great insurgent proletariat of Italy to their final emancipation.

lieutenants of the Carabinieri succeeded in freeing the badly beaten Fascist from the furies of the crowd. They carried him to a command car standing a few feet away, with an American soldier

the police sought shelter when

at the wheel. But the soldier "redrove off."

The two officers then picked Carretta up and carried him to where a British military truck stood and asked the driver to take him to safety. "The Britons

refused and drove away. The Carabinieri officers put their burden down helplessly."

FASCIST JAILER

the crowd commenced to act. "Some jumped out of the windows into the courtyard." More significant, perhaps, than this demonstration of the impotence of the Bonomi regime in

face of the angered masses were two incidents which occurred in the final stages of the killing, both reported by Matthews.

In the streets, momentarily, two fused to take the burden and

"The Germans stole all our livestock, chickens, animals, cheese, sausages, bed sheets, etc. and then they would take this plunder and sell it for whatever they could get for it.

"I was in the direct line of fire and action of a large part of the troops and all the highway and railway bridges were bombed away and all the locomotives were shot up by the Germans, and we were left stranded without any means of transportation to be evacuated. It is practically a year and no train has passed our way as yet. I will stop talking about this.

"I would like to tell you about the harvests. They have been terrible and miserable. This year it looks a little better but we can't tell as yet.

"You said that you already know that conditions here are in a bad way and that you would like to help me out in some way. I thank you ever so much for the good heart that you have toward me. In regards to money, I do not desire any, because if you should send thousands of lire they couldn't do me much good, as I would not be able to buy anything much with them; first, everything costs so much, and then, you can't even get it. If you like and if you can, send me clothing, and not anything luxurious, but regular clothing and a pair of good shoes. If you cannot send clothing, send me what you can in money, but I can hardly buy anything. I repeat, if you can, please send some clothes, such as used clothes, work clothes, work shirts, underclothing.

14

The workers want bread, jobs, freedom of speech, press and assembly, an end to the fascists who have crawled back into leading positions and to the odious monarchy, a government of their own free choice. Almost immediately the workers in the Communist ian-American weekly. In a fac- Party find themselves in opposition to the Stalinist leaders. They tory making pastry for British soon discover that Stalinism is the main prop among the masses for the Allied occupation and reaction, for the hated puppet regime of Bonomi and the monarchy.

> Within the Stalinist party, there is already a large group, calling themselves the "Malcontents," standing in organized opposition to the official policies. This opposition has reached such proportions, that the leaders find it increasingly difficult to employ their old tactics of "frameup, expulsion, isolation."

Within the other large workers' party, the Socialist Party, a struggle of major proportions is under way. The reformist leader, Pietro Nenni, in spite of heavy opposition, is cooperating very closely with the Stalinists. A bitter struggle against Nenni is now in progress, with organized opposition groups existing within the Socialist Party of Rome, Naples and Calabria, where most of the membership opposes Nenni.

Allied officers are wined and dined by the old monarchist and fascist scum, who are being maintained in or returned to their old posts. They have even formed a new party of extreme reaction, the Blue Party, with the tacit approval of the authorities and without opposition from the Stalinists. Indeed, many fascists have found a ready haven in the Stalinist ranks, for that is the only party which accepts members without checking their former fascist connections. A Communist Party membership card, because the Allies consider Stalinists "safe," is an aid to getting a job.

#### **TERRIBLE CONDITIONS**

The conditions of the Italian workers have grown incredibly worse under Allied occupation. The people are literally starving, in spite of the promise engraved on all the inflationary Allied currency, "Freedom from Want." The only market for food and all other necessities, for all practical purposes, is the black market. Prices, already enormously inflated, have soared way above the wage scales, fixed by the Allies, of 65 lire (65 cents) a day.

Babies and small children with the swollen bellies of malnutrition are the most common sight I witnessed. Men, women and children swarm around army mess lines with buckets, fighting for a few scraps of food. Riots are common around garbage dumps. Prostitution lution" is THE problem now fac- whole working-class of America for a can of G.I. food appears almost normal practice. #### **Employers Launch Open Shop Drive URW** Convention **Militants Oppose**

#### By C. Thomas

The California bosses have launched a new all-out open shop drive. They are now campaigning for the adoption of the so-called "Right to Work" amendment to the California constitution, sponsored by the Merchants and Manufacturers Association of Los Angeles, which aims to outlaw the union shop. Section 1-A of the measure which goes on the ballot in November under the designation of "Proposition 12" provides that: "Every person has the right to work, and to seek, obtain and hold employment, with-

out interference with or im- pairment or abridgement of said of employers' groups have come over to the support of the open right because he does or does shop drive.

not belong to or pay money to a labor organization." If adopted, Proposition 12 will ployers, it is necessary to sketch nullify every union shop conbriefly the background of labor relations in California. In the tract and establish by law, the period prior to 1934 the Southern open shop and yellow dog con-Pacific Railroad and its satellites tract.

The open shop drive in California follows the pattern established in a number of states which have adopted vicious antilabor laws in the recent period. The union busting campaign is being vigorously pushed by reactionary and fascist elements liberally supplied with funds from the coffers of Big Busness. Writing in the July 31, 1943 issue of the Nation, Victor Riesel, labor commentator, showed that the drive against labor was being

spearheaded by a group of native fascist swine parading under the name of the "Christian American Association."

#### CENTRAL DIRECTION

"The Christian American Association," wrote Victor Riesel, "some of whose professional promoters have long dealt in antiand the organization of antianti-labor laws in forty-four of militancy. states and has succeeded in having them passed in nine. All these laws show signs of common labor organization. "The smarter synchronized into what is perauthorship, and the similarity of elements," writes Carey McWilthe lobbying tactics that put them liams, (New Republic, October

Scissorbill Sam has an uncle Sylvester, who works in accounting. And the other day Scissorbill was telling the boys what his uncle had to say about unions and such. The boys don't usually listen to the bosses' man, but a few were curious about the ideas of some of the walking mummies in the accounting department. So they that the duty of the union is to listened. And here's what Scissorbill had to say.

fight for democracy on the home "It ain't no use trying to get a raise-even if you do get it, front and maintain the conditions the prices of everything go up anyhow. If you get a dime, the that many of those who were drafted had fought for in the butcher and the baker hear about it and they shove their prices up past. George Bass, one of the a dime. My uncle Sylvester says that's what makes inflation-everyleaders of the opposition, pointed out that to repeal the no-strike body getting raises like that-and before you know it you have to pledge is not the same as advotake your wages home in a wheelbarrow, and they won't buy you anycating immediate strike action. thing at all.' Other opposition delegates cited

> "My, my," said Slim, "then the company is just saving us money by not giving us a raise."

"That's right," chirped Scissorbill. "Inflation is a very bad They reminded the convention thing. It would hurt the whole country. My uncle Sylvester says that that when labor gave the nohe has inside information that the company wants to give us a strike pledge it had also received raise. But they know it would only make trouble." a pledge. Conditions of work and

It would make trouble alright. It would make plenty of trouble among the stockholders, among the parasites who are living off us. They fight like hell, and always have, before they ever agree to a general raise. Whether times were good or bad-in peace or war-we never noticed them passing out general raises very freely. tion or reservation," was carried Was this because they were worrid about how inflation would hurt by the same majority which the us? Or could it be they were thinking about how a lower profit would Dalrymple machine controlled hurt them ?-And say, if the butcher and the baker can raise their prices whenever you get a raise, why can't the boss raise the price of the product we're making just as easily? Because he can't just raise prices when he feels like it. If things were that simple for him the whole union movement would be just a mistake. And Scissorbill would be right. Or look at it another way. When times are elected by virtually the same vote. getting tough the boss starts cutting wages. Can he still sell at the Dalrymple defeated George Bass price he wants to? And will the storekeepers in town accomodate us by lowering the prices all the way down where we could reach them?

#### ed, the real center of the rubber THING DON'T WORK THAT WAY

Things don't work out that way. If they did the chain stores wouldn't be putting thousands of small grocers out of business every year. If they did, U. S. Steel, Standard Oil and the other couldn't have forced so many smaller outfits to the wall and taken them over. If a boss who sells steel, or a grocer who sells bread, could always charge the public what he felt like charging, then wishes would be horses for fair, and capitalist beggars would ride them. Every little huckster would make a fortune.

No matter what wages the company pays to us who produce the things, they have to in the long run sell the product at its market price. And that is determined by how much over-all labor goes in to produce the goods. If they can sell below this price by making us work like hell and put out twice as fast, then they can make more profits than ever, because they will undersell some other capitalists and take away their business. Some capitalists can do this because they have bigger factories and more modern machinery. The workers in those factories may even be getting higher paid than in the factories where the company is selling at a higher price. And still the company making the low-priced article makes all kinds of profit, and the one making the higher priced often goes out of business.

So wages don't just automatically determine prices. A lot nore things determine prices than just how much money there is floating around. And all this bogey-man talk about inflation being caused by a workingman's struggle for a decent living wage is ing the unions. In a Labor Day Arthur Krock in the N.Y. Times, tion — and its most decisive and disproven by the facts. Namely, that wages have risen 15 percent in

**By Gaetano Salvemini** 

can more easily be crushed while the war is in progress. The exponents of Smart Reaction contend that the best time to finish off the unions is when the war "ends" and mass unemployment

[The following article by Gaetano Salvemini is reprinted from the September 1 issue of the British Tribune. Salvemini is a noted Italian antifascist. He is at present Professor of History at Harvard University.]

When Mussolini raped Albania, in April 1939. King Zog issued a proclamation summoning the Albanians to shed the last drop of their blood to fight the foreigner who violated the sacred soil of the fatherland, and ran away. Kings die in their own beds.

Lord Halifax, then British Foreign Minister, did not protest against Mussolini's crime. Sir Austen Chamberlain, Mr. Anthony Eden's mentor, in 1926 had given Mussolini a free hand towards Albania. Mr. Anthony Eden in 1937, following in his mentor's wake, had again acknowledged Albania as a country within the Italian sphere of influence. Thus Mussolini, in the face of the British Foreign Office, was entitled to do what he did in April 1939. In the same way, as a result of the 1926 agreement with Sir Austen Chamberlain, he had done what he had done in Ethiopia in 1935 and 1936.

King Zog took refuge in England. The Negus of Ethiopia had done the same. The British Government kept them on ice. One never knows what will happen tomorrow. Mussolini's policies might come into conflict with British policies. Then both the Negus of Ethiopia and the King of Albania might be of some use. Moral principles are often obscured but never die as far as diplomats are concerned. Moral principles might revive either in Ethiopia or in Albania.

#### **Revival of Moral Principles**

Moral principles revived in Ethiopia in 1940. They are reviving in Albania nowadays.

From a correspondence to the N.Y. Times of July 21, we learn that in Albania "between April 1939, when the Italians occupied Albania, and last September, when the Badoglio armistice was signed, various resistance groups grew up and worked together. In September 1942, the National Liberation Movement, known as the L.N.C., was founded. The L.N.C. is pro-Allied, opposed to former King Zog and sympathetic to the idea of a Balkan Federation. Roughly speaking, it is the Albanian parallel to the Yugoslav Partisans and the Greek EAM.

If you are not a "realist," my dear man, you will guess that the British Foreign Office, to whose sphere of influence Albania now belongs, would help the L.N.C. as best they can. You are wrong, my dear man. Neither in Albania nor in any other country are we fighting any "ideological" war-that is a war in which the popular forces have to work out their own solution as best they can. This is a war to make Europe

'safe for royalty." The British Tories need vasstatement. AFL Vice-President, sal kings in their sphere of influence. The more Matthew Woll, warned that: "Unthey are unpopular, the better. Unpopular kings are to rely upon foreign support, and who could makes adequate preparations now for protection against the inevgive them a more loyal support than a British

A Balkan Federation To ward off the assault of Big would not agree blindly to obey the British For-Business the labor movement must eign Office and would tell them that they should be rallied in independent struggle on both the economic and politimind their own business. cal field. On the order of the

If the British Tories have to go on playing in Europe their game of the balance of power, the "natives" in Europe must have no peace. A second India has become necessary in Europe. Puppet kings surrounded by gangsters in the l uniforms of army chiefs have to do the job.

That is why we gather from the N. Y. Times against the open-shop union haters of both the "die-hard" and that last November there arose in Albania "a rovalist legitimist movement calling for the re-'smart reaction" variety. turn of King Zog," that "another Conservative for "after the war" to drive ahead organization, known as the National Front, with their plans to crush the strongly nationalist, opposes the idea of a Balkan unions. It would be suicidal for Federation, and wants a great Albania, including the unions to defer the organizapart of Yugoslavia and Macedonia; and that the tion of defensive measures until British Foreign Office in endeavouring to bring the "war ends." The time to act together the men who since 1939 have fought for is NOW! their country and the "royalist legitimists" who have come to the fore to reap where the others have sown.

"It is hoped that some form of settlement can be arrived at that will end the critical situation still prevailing after an outbreak last week of active skirmishing between the patriot groups."

#### Pattern Is the Same

One does not need to be a prophet to foresee that one fine day the National Front will merge with the "legitimist royalist" groups under the wings of the British Tories.

The pattern is everywhere the same: helping discredited and powerless "legitimist royalist" groups to come to the fore, then with the het of Stalinist agents forcing republicans to come to terms with "royalist legitimates" and at the right moment disarming guerrillas, leaving only "royalist legitimists" with arms, and putting them into power.

No Balkan Federation, therefore. Kings are needed. A King of Albania between a King of Serbia and a King of Greece. And then a King of Bulgaria, a King of Rumania, a King of Hungary, Austria and Croatia (Otto of Habsburg), a King of Italy, a King of Spain. If the Comte de Paris had not been such an idiot as to join Petain in 1940, disappointing Mr. Churchill's love, there would still be a chance for him in France.

Even more, the traditional differences between them have become so dim Columns, it seems, has been multhat the line of demarcation betiplied, so that it is now up to tween the two tends to become seven. "Germany is stated by obliterated. What we are witnessing is not a real fight over creation of what the newspaper political issues but a sham battle for the spoils of public office. Since the war, both Republicans and Democrats have united in their advocacy of repressive labor measures and the scuttling of progressive social legislation. It was no less a person than Roosevelt himself who recently proclaimed the "New Deal" as dead and buried. The demagogic attempt by Dewey to breathe Repub-

lican life into the corpse is nothing short of ludicrous. Thanks to the "labor statesmen" who limit labor's choice to the candidates of the Democratic or Republican parties, the capitalist class is assured that its program for the "post-war" period will be advanced by one or The lack of any visible differen-

ces between the program of the two capitalist parties should make it plain to all, who have PIONEER PUBLISHERS eyes to see that labor cannot defend its interests unless it ad- Hitler and his gang." vances its own program and enters the political arena under its own banner.

three years, and the cost of living has risen 45 percent.

That's inflation all right. Your wages buy less than they bought before. But is it because you got a four and a half cent raise in 1942 that the price of clothing rose sky high in 1943? You know must be transferred if there is more backward locals behind their damned well it isn't, and that's why you want a raise now so you program. The struggle for a new | can afford to buy a decent suit and a winter coat for the wife.

> These bloodsucking bosses create the basis for inflation right through their own wars. They do it in two ways. First by restricting civilian goods. And second by pumping more air into the dollar. The second way is a favorite, and the slickest trick for making the poor man pay for the rich man's war. The lack of goods is the main thing we see now. That's because most of our labor is being used to make things that will go up in smoke. And whose fault is that?

#### LARGER SHARE OF NATIONAL INCOME

When we ask for a raise we are asking for a cut of the bosses' profits. We are asking for a larger share of the national income, for larger amount of the national wealth. If the raise is big enough it may enable some workers to buy homes. The company towns will lose income and power to that small, but real, extent. The bosses are reaping billions. They don't howl about their profits causing inflation. Oh no!

"But if you do get that raise the cost of living might go up is dished out in this item in the some more," says Sam. Don't say "might," Scissorbill my boy-it will go up whether we get a raise or not. It's going up now, and August 31. The number of secret will continue for a while under the drive of war scarcity-at least until there is another tremendous surplus that can't be sold and a new and worse depression arrives. The cost of living will be regulated -if you want to call it that-by the laws of the capitalist system as a whole-regardless of what wages we get.

Only under a socialist system can we make any real change, and terms a 'seventh column' charged with the task of rebuilding the get our full earnings in terms of bread, butter, automobiles, services Reich after the war. # **Diary Of A Steel Worker**

- FIVE

#### By Theodore Kovalesky

There's a lot of grimness in a worker's sense of humor. There has to be, or rather, he has to have a sense of humor to be able to live the kind of life that he lives; and that humor is bound to be somewhat grim. He laughs at a fellow worker who has just had a narrow escape from death or serious injury: "When that gate exploded, he was going away so fast his coat tail was standing straight out." He laughs at himself after an intolerable day in the heat: "My shoes were burning up, and I was wet like I'd been out in that lake. I thought they'd have to take me out of that runner with the crane."

A devil-may-care grin on his dirty face, a laugh in his throat . . . and deep anger in his heart. It would almost seem that the worker, the average worker, official organ of the UAW-CIO understood clearly, "This isn't the time just yet. The time is coming when all the wrongs and injustices of our life will be righted, the time when we will rise up and right them. But untilwe do, we'll make the best of a bad situation and get a few laughs out of it."

The reason why I'm writing these things is this: One of the fellows showed me a verse he

had with him today. It was the words for a song to the tune of "The Old Apple Tree." I thought it showed some of the things a furnace man has to put up with. Here's the song:

- O my poor pappy worked in a steel plant On a furnace making iron out of ore;
- And each day he'd sweat and smoulder
- As he rapidly grew older
- In that steel mill on the Great Lakes' smoky shore.
- O he worked in the midst of the fire. In the midst of the molten metal's glare. And he coughed and choked and cussed As his lungs filled up with dust,
- But the sulphur gas was more than he could bear.

Then one day as he worked on the furnace In that steel mill on the Great Lakes' smoky shore, With a misstep that was fatal, He fell into a ladle.

And now my poor, dear pappy is no more.

So the steel plant sent a man to see my mammy: "Now we're sorry," he said, "sorry as can be. Please accept this check of money To make up for your honey-Five hundred dollars worth of sympathy!"

And now it's my turn to work on the furnace With my dear, departed pappy's old crowd. So each day I work and wait till I'll wind up in a ladle. And join my pappy in an iron shroud.

That gives you an idea of some phases of a steelworker's life, and I think it shows also the attitude that we tend to take. It

reminds me of one of the standard stories the fellows tell.

"Oh, it's not so bad now as it used to be," they say. "Why, twenty years ago when I came here to work, the man at the gate told me, 'Well we haven't got any jobs right now, but you just wait here a while, and when somebody gets killed, you can have his job.' So I waited about twenty minutes until they carried some guy out in a wagon, and then they sent me in to work."

THE MILITANT

At the same time, an event took place as if to bear mute witness for the men. At the time of the trial eight more Negro sailors were blown up and 47 were injured in another terrific blast at a Naval ammunition depot at Hastings, Nebraska. The bal sphere. And even these harmexplosion, although it did not less yappings are sandwiched in reach the main part of the ammunition because of a protective barricade was still powerful enough, according to eyewitnesses, to blast a hole in the ground 550 feet long and 25 feet-deep. action to protest this discrimin- coming into the industry. Paul Here, as in Port Chicago, the treacherous job of handling the heavy naval bombs and shells had been reserved for Roosevelt's better to march now than have "cullud section" of the U.S. Navy. to run later.

But don't get the idea that since these workers laugh at the pain and peril of their work they feel no other emotion. Some of these things they laugh at aren't at all funny. The only way I can explain it is that the anger rises up in their throats and pushes the laughter out. But, as I said, that's only temporary. The resentment and wrath of the workers is smouldering beneath the surface and building up the pressure that will shatter the shell that now holds it in.

Some day our laughter will have a lighter ring.

#### **SEPTEMBER 29, 1934**

NEW YORK-"The great general strike of the textile workers," wrote James P. Cannon in The Militant . . . "has come to an inglorious end . . . defeated and shamefully betrayed by the leadership of the United Textile Workers and the upper crust of the AFL." The leadership refused to call for financial support of the strike and signed the proposal of Roosevelt's henchman Winant. The proposal, beginning with a demand for immediate ending of the strike, declared "national settlement is not feasible," recommended acceptance of "local mill agreements," and the setting up of committees by the Federal Trade Commission and the Department of Labor, to "investigate wages." Not a single demand of the workers was granted!

Pointing to the need for a new kind of union leadership, Cannon continued, "Forces for a mighty left wing and progressive movement in the trade unions is not lacking. The crisis years have created the conditions for its emergence. . . What is lacking is a conscious unifying and guiding nucleus. ..."

Describing the treacherous role of the Stalinists, and the helpless floundering of the milk-and-water Socialist Party reformists, Cannon pointed out that neither group could provide the leadership needed by the workers. "The workers need a new revolutionary party," Cannon said.

SAN FRANCISCO-On the very heels of the textile sellout, the American Federation of Labor leaders prepared to fight down the growing progressive movement at its fifty-fourth annual convention, scheduled to meet in San Francisco October 1. The convention faced the tremendous problem of organizing millions of unskilled and semi-skilled workers, who, flocking to the trade union movement under the impetus of the stormy strikes of the NRA (National Recovery Act) period, had no place in the outworn scheme of craft unionism.

NEW YORK-Sponsored by the Young Peoples Socialist League, a united front conference of youth against fascism was held on September 25. Organizations invited were the Young Communist League, the National Student League, Student League for Industrial Democracy, the Communist Youth Opposition and the Spartakus Youth League. Refusing to participate in the conference, the Stalinist YCL and NSL instead launched attacks upon the Lovestoneite CYO and Trotskyist SYL.

#### JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- 3. Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.

8. A Workers' and Farmers' Govern

spiracy to strangle the rising revolution of the German masses and to doom the German and therefore the European peoples to ruination and slavery.

CIO-PAC

Ever since its formation, the CIO Political Action Committee has been badgered and baited by the political deputies of wealth and privilege in Congress for alleged violations of the Federal Corrupt Practices Act as amended by the Smith-Connally Act and the Hatch Act which forbid organizations to make contributions above \$5,000 in connection with campaigns for nomination or election of candidates for Federal office. These measures were specifically designed to hinder labor's participation in politics as an independent force

While these laws are ostensibly aimed at all organization and individual contributions the moneybags find no difficulty in getting around them. Thus, in the 1940 election campaign, the Pew, Rockefeller, Queeny, Sloan and duPont families contributed \$432,680 to elect Willkie. In many cases America's Sixty Families contribute large sums to both capitalist candidates and parties. The device used is to make substantial contributions in the name of each individual member of the family-including the baby in the crib. Another device developed by the plutocrats is to make contributions to "non-political" political organizations which use such funds to disseminate propaganda in support of their candidates in election campaigns.

One of the more prominent of these "non-political" organizations is the so-called Committee for Constitutional Government. It was founded by Frank E. Gannett, wealthy head of a chain of newspapers which have consistently championed the cause of the rich. Gannett's organization is a favored pipeline through which the Wall Street tycoons swell the slush fund of their chosen candidate Both major parties benefit from such devices. Through the medium of "family" contributions and "non-political" organizations the financial pot of both capitalist parties is filled to the brim. The laws on campaign expenditures are therefore aimed solely towards crippling the independent political activity of labor whose strength lies in its organized numbers. It is precisely the fear of such independent political action by labor which motivated the adoption of these restrictive laws.

This haunting fear is expressed in the attempt to harass the CIO Political Action Committee even though its leaders disclaim any thought of aiding or encouraging any "third party" movement. But despite the disclaimer of the labor bureaucrats, the political bosses see within the CIO-PAC the seed of labor's independent political action which, under the impact of a severe crisis, will flower into labor's independent political party. It is against this danger that the plutocrats seek to erect a barrier of obstructionist laws.

### American Legion

The American Legion at its annual convention held in Chicago last week made extensive plans to recruit the veterans of the Second World War. It has announced that thousands of ex-servicemen are already joining each month and the Legion hopes to triple its present membership of 1,300,000.

The columns are open to the opinions of the readers of The Militant. Letters are welcome on any subject of interest to the workers, but keep them short and include your name and address. Indicate if you do not want your name printed. - Editor.

# Wages Drop, But Profits **Continue to Soar Upward**

"Coming events cast their shadow before," goes the ld saying. What the workers and the capitalists respectively can anticipate in the coming period of 'reconversion" is forecast in the recent survey of Investors' Syndicate on the distribution of national income and buying power.

Investors' Syndicate, comparing the real income of various classes in August 1944 with the same month a year ago, states that "as a whole" the national income has maintained the same level as in 1943. This "as a whole" covers some important class exceptions,

The chief exception is wages, where a decline is recorded. "Wage earners' envelopes in July 1944 contained 98 cents, compared with \$1 in July 1943, the decline reflecting war contract terminations and consequent reductions in hours of work and lessened overtime pay."

The decline in workers' earnings, however, was offset by the increased profits and "earnings" of the corporation owners and coupon clippers. "Investors' income was \$1.08, compared with \$1 in July, 1943," Investors' Syndicate states. "Dividend and interest istributions during the first half of 1944 was \$1.04, against \$1 in the same 1943 period. Other income, which includes farmers' earnings, profits from unincorporated businesses and royalties was \$1.07, compared with \$1 in July 1943. Other income in the first half of 1944 was \$1.12, against \$1 in the correspondng 1943 period."

# **British Masses Resist Jim-Crow Indoctrination**

White brass-hats and backward American soldiers are attempting to introduce Jim-Crow practices against American Negro troops in England. The British people, however, are demonstratively opposing the effort, according to the illuminating account of Roi Ottley, noted American Negro author, in the New York daily, PM.

Ottley, who gives a wealth of factual detail, describes the "noose of prejudice. . . slowly tightening around the necks of the American Negro soldiers . . . tending to cut off their recreation and association with the British people."

Contrary to the treatment accorded Negroes in America, the British people received the Negroes with genuine hospitality. "To put it in the language of a Negro soldier, 'I'm treated so, a man don't know he's colored until he looks in the mirror'."

"Negroes were invited to British homes, churches, and trade union meetings. Easy and friendly associations developed between the races."

But backward white American troops, inspired by their officers, are "attempting to discipline the British people." "Strong-arm" methods have been introduced; Negro passes are restricted and proprietors of bars, restaurants and other public places are told to exclude Negroes or be boycotted.

Bitter fights have broken out between Negro and white troops in many billet areas. "This distressing racial situation must be laid squarely on the door step of white officers." Although there are formal regulations against discriminatory practices, "some of them (officers) never bother to read the instructions." An RAF flier told Ottley that at an indoctrination course addressed by an American lieutenant. the lecture consisted of an "explanation" of why British white troops should not associate with Negro Americans.

A Reader New York

- 9. The defense of the Soviet Union against imperialist attack.

### **Plans For Germany**

"Woe to the conquered!" This cry of the bloodthirsty and ravenous conquerors of old has become the guiding line of Anglo-American policy toward Germany. Washington and London are giving advance notice that they intend to inflict the most savage and vindictive terms upon the defeated German people.

General Eisenhower announced that until a joint administration is set up in Berlin, the Allied Military Government will control the sections of Germany occupied by the Anglo-American armies. It is reported that British and American High Commissioners are to rule western and southern Germany, while a Soviet Commissioner will rule the eastern portion. The Allied propagandists are already insisting that these occupying forces must remain in Germany for ten, twenty, and even a hundred years.

The press has published reports of proposals supposed to have been submitted to the Roosevelt-Churchill conference at Quebec by Secretary of the Treasury Morgenthau which envisage the total destruction of German economy: the stripping of all industrial equipment from Germany's manufacturing areas, the withholding of all economic aid to German industry, the transformation of Germany into an agricultural country of small farms.

This program of ruthlessness, oppression and destruction, if put into effect, would doom not only tens of millions of German masses to annihilation, slavery and starvation, but would deal the most terrible blow to the peoples of the entire European continent. For Germany and its industry are the heart of European economy.

The majority of the American people do not support these criminal plans of the imperialists. This is indicated by the results of a poll recently conducted by the National Opinion Research Center. 56 percent of those questioned whether the Germans should be allowed free choice of their own government answered in the affirmative.

The advanced American workers now have the duty to expose and fight against Wall Street's con-

by claiming credit for the passage of the "GI Bill of Rights" and by appearing as chief spokesmen for the veterans before the administrator of Veterans Affairs, Congress and the public. Its drive has been endorsed by the Democratic and Republican Parties whose Vice-Presidential candidates addressed its initial session, by Army and Navy brass hats, by Big Business.

The Legion is pushing its organizing campaign

Although pretending to be non-political, the American Legion, from its very birth, has been an utterly reactionary instrument utilized by Big Business to crush organized labor and to stamp out all progressive ideas and movements. It was organized by bankers, business men and highranking military officers after the last war in the hope that it would corral the veterans to fight against the "menace of radicalism." Since that time its leadership has backed repressive legislation of all kinds, has permitted the use of Legion posts by employers to break strikes, has approved and encouraged actions of Legion posts in denying free speech and free assembly to working class political parties, and has condoned vigilante acts of violence by Legionnaires.

The Legion aims to utilize the veterans of this war in the same manner and for the same purpose: to convert the veterans' anger against capitalist insecurity and hunger into hatred of the labor unions, to organize the rank and file veterans into vigilante gangs to beat down and destroy the labor movement. Said National Commander Alvin Owsley in 1923: "Do not forget that the Fascists are to Italy what the American Legion is to the United States."

These plans represent a terrible threat to American labor. The American Legion conspiracy must not proceed unchallenged. To protect the welfare of the returning servicemen and the men in the armed forces, and for its own self-preservation, the labor movement must take the initiative in becoming the leading spokesman for the veterans.

The CIO United Automobile Workers took a step in the right direction by holding a joint Labor-Servicemen's Conference in Washington several months ago. But the CIO has done nothing since to build upon this foundation. The labor movement must take the initiative to organize the veterans for joint struggle for jobs, full employment and security. It cannot, it must not permit the labor-hating American Legion to become the spokesman of the returning veterans.

The beginnings of the dual revolutionary power are apelop, extend and consolidate this

The British, particularly the workers, are resisting this Jim-Crow indoctrination. After an armed clash at Leicester between white and Negro soldiers, signs appeared on bars and restaurants, "For British Civilians and U.S.A. Negro Forces Only."

When two Negro soldiers were court-martialed and sentenced to death for alleged rape in Gloucestershire, 33,000 workers protested to the American authorities, charging the Negroes were sentenced because of their color. Workers in a large local factory went on protest strike.

### **UAW-CIO** Hits Anti-Labor **Discrimination On Radio**

"As free as the air" is good poetic imagery but it's fast losing reality in fact, particularly where control of the air for broadcasting purposes is concerned. Some facts of the anti-labor policies of the big broadcasting concerns and associations were recently brought to light through the protests of the CIO United Automobile Workers against discriminaion and censorship practiced by Station WHKC, Columbus. Ohio.

Union officials, at a hearing before the Federal Communications Commission, charged the station management with discrimination against labor organizations in the allocation of time, and further charged arbitrary censorship of the UAW scripts.

In the course of the hearings, the WHKC management admitted that it discriminated against labor, but alleged that it was forced to do so as a member of the National Association of Broadcasters, under which some 600 local stations operate. The NAB code prohibits the sale of time for the discussion of 'controversial issues," the definition being left up to the NAB itself.

The code does permit allocation of free time, on an equal basis, for the presentation of opposing views on "controversial issues." But in practice, the views of Big Business and anti-labor commentators are broadcast as "non-controversial." Thus, it was pointed out at the FCC hearings, the NAB gave free time to the National Association of Manufacturers for a series of 13 broadcasts on "The Businessman Looks at the Future," presenting the "post-war" schemes of Wall Street, while refusing time to the UAW and other labor organizations to present union views on the "post war" world. NAB stations last year were instructed to refuse to sell time to the UAW to discuss the question of price subsidies.
