Revolutionary Workers Took Lead In Paris Insurrection

This is the first in a series of articles on the revolutionary developments in France, based in large part upon information received from our Paris correspondent. Articles on the arming of the French workers, the policies pursued by the various parties, and the prospects of the revolutionary struggle in France will be published in sub sequent issues of The Militant.

By Frank Lawrence

In order to understand what the real situation is in France WLB Stalls Plea oday, and where France is heading, it is necessary to have a clear conception of the revolutionary upheaval which has taken Of Steel Workers place in that country since last August. The central and decisive event so far in this revolutionary process was the armed uprising of the Paris masses from August 3 19 to 24

Canada CIO Rejects No-Strike Pledge

The Fifth Annual Convention of the Canadian Congress of Labor, meeting in Quebec on October 19, rejected a proposal backed by the Stalinists to commit the Canadian section of the CIO to an unconditional no-strike pledge. Refusing to surrender their most powerful economic weapon of struggle against the anti-labor corporations and government, the delegates to the convention passed a resolution pledging the Congress merely "to do all in its power to avoid strike action' and demanding that "the employers and the Government.. pursue a fair and reasonable

voted in an NLRB run-off election between the United Auto-Machinists (AFL). The "run-off" was made necessary because a vote taken the week before (October 4) had failed to produce a majority between the IAM which received 36.5 percent of the vote, the UAW which received 38 percent, and no union, 25 percent. Despite an intensive campaign in the week intervening between the two votes, the UAW ^D

The division in labor's ranks between AFL and CIO, the bitter rivalry between the IAM and policy of the company which used UAW Local Union 509, Los Antion of its employees, had served geles, of malfeasance in office, every trick to prevent unionizaunion fight between the UAW and IAM last year brought vicpaigned in the run-off urging its supporters to vote "no union." This resulted in a close victory for the no-union vote and stalled a possible UAW victory.

Thus the recent NLRB election again afforded the IAM a chance to contest the UAW. It emerged the victor by a decisive majority of almost two to one. The Stalinist CIO leadership in California had led its ranks to a Bridges' method of "organizing" feeling of complacent confidence in the victory of the UAW. Theshock of the first vote destroyed this false optimism. Thoroughly alarmed by their failure on October 4, they mustered all the resources of the West Coast CIO, but were unable to turn the tide. The final result of the run-off was a crushing rejection of Stalinism under whose "Teheran" policies the proud and militant

Our French Martyrs

We have just received word of the tragic fate of several of our French Trotskyist co-thinkers during the Nazi occupation. At the same time as we learned of the growing influence of the Trotskyist movement in France, we were informed that Jules Joffe, member of the French Internationalist Workers Party (Trotskyist), was shot in 1942 by the Nazis, and that two other comrades, Lucian Braslowski and Bella Lampert, were arrested at the same time. The exact fate of the latter two comrades is not known, but it is feared that they too paid with their lives for the cause of revolutionary socialism.

We dip our banner, dyed in the blood of so many workingclass martyrs, in honor and memory of these French comrades who courageously carried on the struggle for socialist emancipation under the shadow of the Nazi terror. They join the immortal ranks of the many Trotskyist fighters, in Germany. Italy, Greece, Belgium, Poland, all Europe and the world, who have died to bring the program of Trotskyism, of Bolshevism, to the oppressed of the earth.

Their sacrifices have not been in vain. Throughout France and Europe, the ideas and movement of Trotskyism are gaining influence daily. The French proletariat, which has entered upon a revolutionary struggle against rotted capitalism, will avenge the foul murders of our heroic comrades. The triumph of the socialist revolution in Europe will vindicate their suffering and sacrifice.

branches are sending in suggestions of new ways to extend the sale of the pamphlet sets. Comrades have been selling them at union and

political meetings and placing the sets on the newsstands which sell That offensive odor emanating to persuade the militant auto The Militant. Most of the sales listed, however, are the result of visits made to The Militant's new subscribers, who are familiar with the Minneapolis Labor Case, and want to understand more fully the socialist ideas for which the 18 were imprisoned.

The set of pamphlets, including James P. Cannon's "Socialism On Trial," Albert Goldman's "In Defense of Socialism," the CRDC pamphlet "Who Are the 18 Minneapolis Prisoners," and "Why We Are in Prison," are such an excellent introduction to the principles of Marxism, that one Brooklyn reader of The Militant purchased two sets so that fellow-students in her sociology class could also learn Formula. The rash threat of the the truth about socialism.

FROM OUR MAIL BAG

Los Angeles: At the present time, with one month of actual work behind us, we have sold over 1200 pamphlets (not all of the reports are in). We sold 60 of the pamphlets at a Norman Thomas meeting last week.

Detroit: Our branch mobilization Sunday was a real success and everyone was so enthusiastic about it that we are going to have another one next Sunday. One of the mothers took care of all the children, so the others were free to go out visiting Militant subscribers. We prepared lunch at the hall, and comrades discussed experiences and exchanged suggestions while they ate. We can foresee real gains for the party as a result of this literature campaign, as these comments, jotted down by the comrades after visits to Militant readers, will testify: "A building committeeman, very friendly. . . bought pamphlets and 'History of American Trotskyism.' " "Very interested in ideas of our paper. Will come to meetings,"

Reading: The 80 pamphlets sold this week were bought by trade union members, including carmen, machinists, boilermakers, and blacksmiths. One young Socialist Party member bought twelve pamphlets-six of the Cannon pamphlets and six of Goldman'sfrom a comrade working in his shop. These twelve are not included in the totals we are sending, since they were sold as "singles."

Cleveland: We received the second order of pamphlets and have already dug into it. All in all we have had excellent results in this literature campaign. One comrade has a record of 100 percent-no subscriber has refused him! He has sold 40 pamphlets, and obtained four subscription renewals, including one combination sub President Sherman Dalrymple sold. It is the spirit in which the comrades are participating. Their ardor is not the kind which burns out quickly in a flash of activity, but the ardor born with the realization that this campaign is a means Liberties Committee, are prepar- totalling \$6,000 against 500 strik- to build a bigger, better proletarian party.

Minneapolis: A number of comrades distributed at a UAW meeting the issue of The Militant which carried a story on the UAW Convention. While several comrades gave out the paper, others displayed the pamphlet folders. We sold 64 pamphlets to the auto workers that night. The previous evening several comrades had sold 32 pamphlets at an AFL meeting, while The Militant was distributed. cal's president John Marmon one New York: The New York Local has obtained 254 subscription month to collect the fines and renewals, including one 2-year sub, secured 147 premium subs for forward them to Dalrymple's

friends of The Militant, and sold 1204 Minneapolis Case pamphiets. Dalrymple had a stiff fight on One comrade reported an interesting visit which shows how his hands at the recent URW glad readers are to discuss our ideas with comrades. She says, "I convention because of his previknocked on the door of a new reader in Harlem. The subscribers ous violations of union demowere very anxious to have us come in and were evidently expectcracy. The delegates from the ing us. Open Shop Beaten By NLRB Election At Douglas Plant

(Continued from page 4) 'disorganize" already established unions - it offers very little inducement for unorganized workers to join a union.

The reactionary policies of Stalinism served to nullify the more progressive national character of the UAW-CIO and drove the workers into the fold of the IAM-AFL. An additional factor favoring the IAM on the west coast was the fact that it was the workers of Boeing and Lockheed, under jurisdiction of the IAM, who displayed a willingness to fight in the aircraft dispute of two years ago at a time when the Stalinist leadership played the role of strikebreakers. At that time great sympathy existed among many workers of this area for the Boeing and Lockheed struggle for wage increases. As a result of these actions, Boeing Aircraft Corporation was forced to install the highest wage-scale in the industry on the west coast.

All these factors, plus the widely known fact that the Stalinists dominate the CIO in California, broke the situation in favor of the IAM. The workers of Douglas Santa Monica, moving forward in their first big step towards unionism, chose the IAM as their collective bargaining agent in preference to Stalinist reaction. Some persons may attempt to passing and sometimes deliberate argue that Murray himself had stalling, and its timid reluctance to exercise the full responsibili-But there isn't a word about the fact that the WLB is just the instrument of Roosevelt's policies and anti-labor maneuvers. The editorial call for 'action' resolves itself into another plaintive plea that the Board "repair some of the damage it has done" by its refusal to make a recommendation on the Little Steel Formula with an "expeditiously made" report setting forth "honestly and accurately the full facts relating to wages, prices, profits and economic stabilization." As if

Critical Support To SP Candidates

the present leadership of the

cialist Workers Party in Pennsylvania is giving critical support to the local candidates of the Socialist Party in the November elections. By "critical support" the Socialist Workers Party underscores the fact of its deep-going and fundamental differences with the SP on all the important political questions of the day. The SP screens its support of the imperialist war by pacifistic agitation. It seeks to pervert every movement in the direction of an independent labor party into an all-inclusive and impotent "peoples party" conceived in its own image. It constitutes an obstacle, albeit not a very formidable one, on the road to the revolutionary development of the American

working class, Nevertheless, in Reading, the SP has the support of certain sections of the labor movement. Many workers in Reading still believe that the SP represents, in some vague sort of way, the idea of "socialism." In going through the experience of the election with the advanced workers of Reading the Socialist Workers Party does not cease its irreconcilable criticism of the policies and program of the SP. It will utilize the campaign to convince the workers of the need for a genuine independent labor arty based on the trade unions.

Negro Soldiers Believe They Have Been Sold

"Rotten Bill Of Goods," Crisis Magazine Says

The following personal observations on the treatment of Negro soldiers in the U.S. Army, are reprinted by permission of The Crisis, official organ of the National Association for the Advancement of Colored People. They are excerpts from an article by Grant Reynolds in its October issue entitled: "What the Negro Soldier Thinks About the War Department."

* * *

The War Department has sold the Negro soldier a rotten bill of goods. The Negro soldier not only resents its putrid odor, but equally resents being made the victim of what many soldiers consider a foul and debasing trick. . . The Negro soldier thinks the War Department itself is prolonging this war and he is convinced by multitudinous evidence that he is right. . .

The Constitution and its accompanying Bill of Rights have been literally torn up and the bits insultingly thrown into the Negro soldier's face. Yet these sons of American mothers are expected to die and are dying in the face of such indignity. It is a widely known fact that Nazi prisoners of war receive better treatment in this country than do hundreds of thousands of Negro soldiers. Stripped of his constitutional rights, bereft of any particular concern for his welfare, denied the right to die honorably in his country's crusade, subjected each day to conditions which contradict every claim of democratic principle, the Negro soldier has been betrayed by the very agency which controls his destiny-the War Department.

As it prepares him for death on the foreign battlefields of the world, and actually sends him to his death, it winks at conditions which torture him physically and which mob and lynch his spirit. Under these conditions the War Department sends the sons of American mothers into battle ill-prepared indeed. It is small wonder that among many Negro soldiers, there is the feeling that the War Department itself is helping to destroy their lives.

"Chaplain, how can we get a decent break in this war when our bitterest enemies are running the show?" Such was the question put to me by a group of Negro soldiers who followed me to my office one Sunday morning after my sermon. "What do you mean by such a statement?" I

asked. "Well, just take a look at the military bigshots. Practically every one of them comes from the south. In fact the Army and Navy are lousy with southerners and their leaders give us reason to believe that they would rather lose this war than see us have equality. And judging from the way these cracker officers treat us, they're not fooling either. Now, sir, can you say that these

Army Run Like a Plantation

people are not our enemies?"

I found words difficult as I stuttered and sputtered in an effort to provide the right answer. Before I could do so another soldier opened up with still another broadside. Declared he, "The War Department is running a plantation far as Negroes are concerned. Just look at this post. The commanding officer by his disregard for us soldiers is an excellent example of a plantation boss. And don't forget, he's a 'redneck' from Tennessee. That's bad enough, but anyone who is not blind will immediately recognize how subordinate every Negro must be in order to stay here. It makes me sick!" "Listen, fellows," I said, "don't let such things get you down. And if I were you I would be more careful about expressing such thoughts." Immediately one of them spoke up: "Chaplain, you haven't turned 'long-coat,' have you?"

wounded suspicion left their faces. I, too, felt relieved...

The statement charging the War Department with running a plantation returned to my mind. I began to make mental notes about the Negro's treatment in that particular post. I thouht about how rigidly the doctrine of white supremacy was upheld there, making itself manifest in the jim crow school system and in the post commander's refusal to place a white officer in any position where he might be subordinate to a Negro officer. In fact a bulletin was published on one occasion by this post commander declaring that a white officer in the grade of 1st Lt. would be superior to a colored officer in the same department who had the rank of captain. The white officers on the post, who were numerically inferior to Negro officers, could find comfort from the Arizona heat by cavorting in a beautiful swimming pool. . . But Negroes, regardless of their educational background or their outstanding achievements in the professions, could do no more than pass by and see the white folks enjoy themselves. . .

The Case of Pvt. Tommie Thompson

On one occasion I had made myself persona non grata with the commanding officer of this post when I refused to accept this explanation ("hoodlumism") as the reason for the stoning by colored soldiers of an automobile carrying high military officials. He had just made a speech to an assemblage of the post chaplains, directing that we use extreme care in listening to soldiers who complained about having been abused by their officers. I told the officer about the case of another post that the man was sick.

Tommie, supported by two soldiers, was sent to my office because he was thought to be "goldbricking." After a brief talk with him I was convinced that he was a sick man in spite of the fact that he had just been discharged from the hospital. I therefore called the company commander by telephone and recommended that the soldier be sent back to the hospital at once. But, following the prevailing attitude too frequently found among white officers that all Negro soldiers are lazy, this company commander sent Tommie away that night on a troop convoy. When the train, carrying him to Fort Leonard Wood, Missouri, reached its destination, Tommie Thompson was dead.

One of the pillars of democratic government is the fair administration of courts of justice. Without fair judicial procedure the democratic prin- Negro seamen. The FEPC has ciple of equality before the law becomes a farce... groes in this respect holds up to mockery and seamen" because it ships Negroes shame the ideal of judicial behavior. Too often only in the steward and engine

these (military) courts, which correspond to departments and refuses to ship civilian juries, are comprised of prejudiced of- white workers to jobs aboard ficers with preconceived notions of the guilt of Negro defendants, which outweight any testimony to the contrary. .

Colored soldiers are being trained each day to the already short supply of manthe latest and most diabolical techniques of nower in the industry destroying life that the mind of man can evolve. He not only learns to kill with the rifle, the hand of discrimination, John Hawk, grenade and the bayonet, but with his bare hands first vice-president and secretaryis taught to mutiliate and dismember the body treasurer of the SIU, refused to of an enemy. The War Department thus is making deadly killers of Sam Jackson and Honor Jones Jones and issued a statement that the deadly killers of Sam Jackson and Henry Jones charges are "absurd on their face, and the nice boy who once lived in the next because they allege discrimination block. When these men return from participating in casual inquiry would have satisfied the global struggle they will have paid the price this committee that in none of the of freedom and decency. If they are denied these instances set forth as charged has privileges guaranteed all American citizens and the war effort been affected." if such denial prompts them to engage in bloody at the very door of the War Department.

The fight for defense of the failure if one section of the seamen think they can win for themselves a "lily white" job trust only serves to divide the entire labor movement and further weaken the maritime unions before the real showdown for control of hiring is demanded by the government.

This showdown is not far off. The government drive to abolish the union hiring hall has received of the hiring hall. Thus, on this National Maritime Union. Here question, the leadership of the the largest union in the industry,

SUP-SIU have won the support after substituting the wartime the most militant and progres- shipping rules of the War Ship-

government fink hall.

By V. Grey

Scissorbill Sam, the bosses' man, is down at our end of the shop again. Poor Scissorbill-he couldn't make anything on his piece-work job because his helper today was a woman, so he said he'd rather work on day-work with us guys. (He didn't ask who we'd rather work with.) It seems the girl couldn't keep up with him. The work was a little too heavy for her. Not many women can feed thirty pound steel plates into the punch press at the rate of two hundred seventy five per hour-which is what you have to do to make money on that job.

So Sam is all burned up about it and he says he'll be glad when the women go back to their kitchens, where they belong. He wouldn't let his wife work in here, by God, etc., etc. And when anyone talks like that; poor Ed Barnes looks kind of funny because his wife works right here in the same shop with him. The fellows sometimes kid Barnes about how he can't whistle at the girls because his wife's around. But after all, most of their wives work in shops too-other shops, like auto or aircraft or small arms plants. It's pretty hard for a family to get along these days on one person's wages, especially is he's a steel worker.

You have to give Scissorbill Sam credit for one thing, though. He is consistent. He thinks women should work in the kitchen. And that's where his woman works all right. Sophie, the spotwelder, who lives near him, says that Mrs. Scissorbill takes in washing and stays up until all hours with it while Sam is snoring on the couch under the evening paper. But he's too proud, you see, to send his wife out to work.

"I suppose under Socialism," Scissorbill would sneer, if he ever thought about it .- "I suppose that women will get out of the house whenever they feel like it. Have the same income as a man, eh? Why even now, I hear, some of them set up the drinks." (You can bet they don't buy him a drink.) "Do you call that right?"

Well, not being women ourselves we fellows don't know just how a woman feels about it all. But it seems as though a woman must have the same needs as a man. She gets hungry, thirsty and cold. She laughs and cries as men do, and lives to be about the same age as a man-if her kids don't drive her into an early grave. In other words a woman seems to be pretty much a human being. But most women are cooped up in a steaming kitchen, not eight hours a day, but most of their lives. Do you call that right?

It's true that on some of these heavy jobs that are fast too, woman can't keep up with a man. But they out-produce men at ots of jobs. And they do things today that no one ever dreamed a woman could do. Knocking the fire-brick off the "hot top" ingots, or instance, after they come out of the Open Hearth pit-a sweltering job, that calls for plenty of elbow grease. They get tired, too, like a man does. And maybe some of them take a drink on pay-day. like some of the boys do.

union hiring hall is doomed to SOCIALISM WILL EMANCIPATE WOMEN

But it's funny how many people think that women just go outto work so they can raise hell. How a woman can have the energy Any attempt in this direction to raise hell after she cooks a couple of meals, cleans house, gets a kid or two off to school, and then works eight hours a day in a shop, isn't exactly clear. By and large people work today because they have to. That's why women work, too. And the way the cost of living is these days, they usually have to hold down two jobs-one at homeand one in the shop.

We're going to change all that. Instead of a vicious profit system, where her husband sees the product of his labor slip through his fingers into the claws of the bosses, where she has to go out are concerned and especially new impetus from the campaign to work to make up for this, we're going to start a new system where where this touches the question of the Stalinist leadership in the working people as a body will get the full return on all things produced. No woman will be forced to have two jobs.

Some women prefer shop work, including the oil and grease, to house work. Some are crazy about babies, and would like to run

day nurseries. The way things are now, neither group can enjoy ping Administration's Recruitbroughout the labor movement ment and Manning Office for the themselves doing the things they like to do, because the sum total union system of rotary shipping, is too much for them. But the way we're going to fix things under socialism, all the women will get a break. It will be our own workers' is openly campaigning for the society, and we'll give people the jobs where they'll be happiest.

The Stalinist leaders in the More will be accomplished that way-in every direction. Things NMU are now concerned with the will be done better, because they are done with more interest and care. Babies will be nursed, and children minded by people who not only love them-but don't have the worries of bill collectors to interfere, or the factory whistle to call them away while the children play on the street. On the other hand, the new airy modern shops we are going to build will be swell places-healthy, clean and bright. They will appeal to many of the women who work there.

Yes, Socialism is going to make women more independent. It's going to make us all more independent. But if we fellows want them to fight side by side with us for a better life, it's only right that women should choose what they want out of this better life. Women have already begun to fight. They're signed up one hundred per cent in the union at our shop. Throughout the country hundreds of thousands have joined up.

Wives used to nag their husbands for their union activities. Now they have to join the union themselves, to protect their rights. A woman's mind isn't in the corners any more, where the dust is. And whether they choose a turret-lathe or a cook stove, there'll be no more of this seventy-two-hour-week-in-the-kitchen stuff. Our socialist inventors will soon get busy with dust-proof pianos and

On top of this during recent years with the influx of Negroes to the Northern industrial center, with the headaches of an American depression, and the growing strength of the labor movement, the powerful big business interests of the formerly "liberal" North have themselves embarked on a well-organized campaign of anti-Negroism. This anti-Negroism, as far as they are ousness developed in many a Ne- ter, by seizing the industrial concerned, is mainly used because it has been one of the cheapest and most effective weapons of anti-unionism.

Diary Of A Steel Worker

By Theodore Kovalesky

The word, "Socialism", means a lot of different things to diferent people, but what it means to me I can write down in just a couple of words. It means peace and plenty for all; it means sunshine and the laughter of children.

I guess it's the kids that interest me mostly. I know I've written things here before about the kids, but that's natural. I'll probably write a lot more about them, too, because I feel that I'm fighting mostly for them. In a way, I feel as if writing words like these were sort of a monument for Little Dick. . . as if all the time I was saying, "Look, little fellow, this is for you and all the other kids that you used to play with. This is the sunshine, and the forests, and swimming holes, and the meadows that you never had a chance to see. This is the life that you might have had, the opportunities that you and all the other dirty-faced, scampering little fellows never found.

"If you had lived longer, you'd have seen life get a lot tougher. More and more you'd have felt the hardships which bend the shoulders of the poor. Maybe you'd have found a girl to share your life, but if you had, you'd have seen that the joy of loving loses its sparkle in most cases when poverty keeps gnawing and grinding at it, and when worry keeps scraping at it like the persistent hurt of a hungry stomache.

"You'd have wandered through the gray streets searching hopelessly for work. You'd have stood in lines with other gaunt and ragged men waiting, waiting and thinking, 'Please, Lady Luck,

please, just this once. . .,' and you'd have straggled home again looking for some different way o say, 'I didn't find a job!'

"So I'm using my big fists now harder than ever, because your little fists are lying still, down under the grass and earth, and they'll never be lifted to defend yourself and your comrades.

"Little Dick, I go out each day like one of the structural steel vorkers or bricklayers putting up a great building. It is the home of the people of the future that we're building. It is Socialism.

"Here men will approach each other not with a lunging bayonet, out with the helping hand of friendship, not bitter competition, but organized, fruitful cooperation.

"There will be great laboratories here. Would you have wanted to be a chemist? Here you could be. Our chemists will be chosen not by the weight of their gold, but by the keenness of their brains and by the intensity of their desire to serve the human race. And what will they do? Poison gasses and explosives to bring death, destruction, and misery to the people of the world will no longer be needed.

White-coated men and women will wage relentless and unceasng war upon disease. Boiling test tubes and steaming retorts will contain the weapons of the people's army, which we'll muster to fight against the enemies of mankind, polio, tuberculosis, syphilis, and even the common cold. And we'll defeat them all.

"You and your pals wouldn't be driven to steal guns and prowl about in the darkness, waiting to prey upon a fellow creature so that you might live, answering one violence with another and you might keep a little self-respect. No, and there'd be no more broken

"And my part of this proud building that I go out to build day pasic war-program of American which the workers wrested in them victory, while the Democrats by day, girder upon girder and brick upon brick, will be a great, white monument glistening in the sunshine. On it will be written, 'In memory of little Dick, who had to die July 14, 1936, because poverty forced him to play in the busy streets and in memory of all the other children who had no sunshine and no opportunity.' And this monument will be dedicated to the youngsters of the new world and will be a testimonial to health and happiness, peace, and the laughter of children."

OCTOBER 27, 1934

SPAIN-A special bulletin to The Militant reported that in the front ranks of the workers victimized by the Spanish Government during the two weeks of struggle against its regime, were "most of our comrades of the Madrid section" of the Trotskyist movement. The Trotskyists were arrested at the Madrid Armory. .Comrade Fersen, one of the leaders of the organization, faced court-martial on charges of high treason. The fate of many other leading Trotskyists participating in the events was still inknown.

VEW YORK-First draft of the joint programmatic statement issued by the negotiating committees of the Communist League of America (Trotskyist) and the American Workers Party (Musteite) appeared in full in The Militant. The program, subject to ratification by the membership at its National Convention, was to form the basis for unification of the two parties. This unification proved to be the first great step taken by the American Trotskyist movement toward extending its influence to wider layers of politically advanced workers in the American labor movement.

- LEON TROTSKY

JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- **3.** Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- 8. A Workers' and Farmers' Govern

corresponding to the needs of the country's millions of toilers.

Meanwhile, from the commencement of the present electoral campaign we have continued and intensified our agitation for the formation of an independent Labor Party, based on the trade unions and armed with a militant program of struggle for the defense of the workers' living standards and their democratic rights, a program which alone can assure a true and lasting peace by ending capitalism and establishing the socialist rule of the working-class.

In Michigan, the Trotskyists are backing the slate of six candidates put forward by the Michigan Commonwealth Federation, because this slate represents a step in the direction of independent political action by the workers and points up the growingly urgent need for labor to build its own political party. In Reading, Pa., the Trotskyists are supporting critically the local candidates of the Socialist Party for reasons explained elsewhere in this issue.

The workers have nothing to gain by casting their ballots for any of the capitalist candidates of the two big parties. The election will be profitable for the workers only if from it they realize the urgent need for a party of their own based on the trade unions and proceed without delay to create one. The advanced workers don't want to vote for the political representatives of Big Business, but the labor lieutenants of the boss class have sidetracked their growing sentiment for a party of their own into a campaign for the capitalist candidates, and above all for Roosevelt.

The workers want to vote labor. But to vote labor they must have an independent Labor Party. The time to start building it is NOW!

Dealing With WLB

About one year ago, the coal miners ended their fourth strike after gaining resounding victory over the combined forces of the coal operators and the Roosevelt administration. From the beginning of their negotiations, the coal miners refused to place the fate of their wage demands in the hands of the employer-dominated War Labor Board. John L, Lewis thundered: If I had a yellow dog I wouldn't trust his standard of living to the zombies on the War Labor Board. The WLB denounced the coal miners, tried to foist a yellow-dog contract on them, knifed the union at every turn.

Among those who condemned the coal miners for not submitting to the domination of the WLB was Philip Murray, ex-official of the United Mine Workers, president of the CIO and of the United Steel Workers. Despite the opposition of the Roosevelt administration, despite the hostility of the entire capitalist press, despite the treachery of the top leadership of the CIO and AFL, the coal miners fought through to victory. Just two months after the fourth coal strike, the contract of the United Steel Workers Union expired. Murray proceeded to steer the wage demands of the steel workers into that graveyard of grievances commonly known as the War Labor Board.

Eleven months have now elapsed since the expiration of the steel workers agreement. Eleven months of stalling and filibustering against the wage demands of the union. In August Murray whined: "We have suffered the inequities of frozen wages for some three and one-half years. We have

Auto Barons Demand High Prices For Civilian Cars

Before, during and after the war, the all-absorbing interest of the corporation owners is profits. The automobile moguls, following the action of the steel industry, are pressing for a policy of low output and high prices in the coming period.

The auto industry recently turned down an OPA proposal to reduce prices to the 1942 level on civilian education and information, al- the paper, with a bi-monthly production. Even at the proposed level, the industry would be permitted to sell cars at enormously higher prices than before the war.

According to the CIO United Automobile Workers' reports, the auto industry is insisting instead on price in ignorance not only about the news and views it has become one increases for new cars of from 25 to 40 per cent. At such prices, taken together with the inevitable reduction of mass purchasing power, the market for cars would be limited and the industry would operate at a low capacity with tremendous unemployment.

The industry representatives have already informed the government that they are prepared to produce 6,700,000 cars a year-with 40 per cent less workers than now employed in the industry. This is an adfighting for a socialist world and consolidate their control. In mission that labor productivity, the amount of production per man-hour of work, has increased 26 per cent during the war, without a corresponding increase in hourly wage rates. The vast increase in productivity has gone into the pockets of the auto nonopolists as profits.

> General Motors, for instance, which is spearheading the drive for higher prices, lower wages and reduced employment, increased its cash assets alone since 1939 from \$155,000,000 to \$287,000,000. Its "net quick assets," like short term notes and accounts receivable, blossomed from \$183,000,000 to \$652,000,000.

"When thieves fall out, the truth will out," is a saying particularly applicable in capitalist politics. Wayne L. Morse, one of Roosevelt's criginal appointees as public member of the War Labor Board, recently "spilled the beans" about the dirty manipulations between Roosevelt and the eight public and industry members of the Board against organized labor's demands.

We can disregard Morse's motives in making his belated revelations, timed to invite labor support for Dewey. But his specific charges bear the earmarks of truth, substantiated by the actual anti-labor practices of the Board. Morse declared recently that "political influences entered into War Labor Board decisions," and cited as "outstanding examples" the "political manipulation of the Board's decisions . . . (in) the United Mine Workers' coal case and the West Coast aircraft case."

"In the aircraft case I found on returning to Washngton that the Board's opinion had been written before the Board had even considered the case." Contrast this decision made in advance to deny wage demands of the railroad workers with the latest refusal of the Board, after one year's "study," to recommend revision of the Little Steel Formula to Roosevelt!

In the railway wage case, Morse discloses, "great and unjustifiable damage was done to railroad labor," million workers and peasants, who "were forced" to threaten strike action "in order can give points to Earl Browder's to bring the case to final determination."

It is true that the ruling dominated.

- ment.
- 9. The defense of the Soviet Union against imperialist attack.

The 1944 Election

When the mighty working-class of America goes to the polls on November 7 the labor officialdom will confront them with the choice of voting for the presidential candidates of one or the other of the capitalist parties.

The programs of the Democratic and Republican parties are abundantly clear. In the platforms, as in the spate of speeches of the "rival" candidates, there has been revealed a virtual identity of views on all essential issues.

In the domestic policy, both Roosevelt and Dewey stand for the preservation of capitalism with its vicious exploitation of labor, its crises and unemployment, its hunger, its breadlines, its poverty-and its lush profits for the parasitic bosses.

Abroad, both are committed to the reactionary and predatory imperialist aims of Wall Street, which is bent on world domination. Both stand for the Roosevelt formula of "keeping the peace by force," which lays the foundations for yet another and more terrible war.

The Wall Street plutocrats are only too well aware of the similarity of the Democratic and Republican candidates. As Business Week, the Wall Street organ, remarked: "Each says merely that he would do the same things better." No wonder Wall Street is largely indifferent to the outcome of the election! It wins either way!

But what about the great working-class electorate? All reports point to a widespread apathy among the workers. Large numbers of workers have come to realize that for them, too. the choice offered is merely a choice between Tweedledum Roosevelt and Tweedledee Dewey. Just as Wall Street knows that it will win either way, classconscious workers know they will lose either way. Neither of the parties, neither of the Presidential candidates stand for their interests.

Because they have no party and no candidates of their own, many workers will not cast their ballots on November 7. Because of many difficulties and obstacles, the Socialist Workers Party is unable to place its own candidates in the field, candidates who would advance and fight for a program

had wage regimentation since January 1941. The only portion of the national population which has suffered the effects of these atrocities are the wageearners, and particularly those in the steel industry." Whining, belly-crawling and complaining, Murray has led the steel workers ever deeper into the blind alley of compulsory arbitration. There is no way out along the road chosen by Murray. The steel workers can win their wage demands only. by following the example of the coal miners. The wage-freeze can be smashed only through independent action, only by depending solely on the strength of the organized labor movement.

Remember Lidice?

On September 14 the German village of Wallendorf, northwest of Trier, was put to the torch and burned to the ground by order of the commander of the American First Army. The following day a neighboring village, unnamed in press dispatches, was likewise burned off the map. Both places had already been captured by American troops. The excuse given for these vicious acts of incendiarism, as reported by the Associated Press, was that "vicious sniping was going on and that it was necessary to burn them out.'

Precisely the same type of excuse was advanced by the Nazis when they put the torch to the Czech village of Lidice. The press of the "democratic" imperialists then indulged in an orgy of hysterical invective against the Nazi barbarism. The same press has found only words of approval for the barbarism perpetrated at Wallendorf. The British Sunday Dispatch noted with evident satisfaction that Americans were using the "iron hand" in Germany.

Wallendorf and Lidice-both are samples of the savage cruelty of imperialism which brings only torture and ruin to mankind. The villagers of Wallendorf had as little responsibility for the war as the villagers of Lidice. Both were victims of imperialist savagery and lust for profits.

In burning villages the "democratic" Allies are only returning to a not so remote past. The British Black and Tans did it in Ireland. Within the past decade the British Air Force has burned down villages on the Northwest frontier of India and in Iraq.

There is only one way to insure against future atrocities of this kind-abolish capitalism with its barbarous wars and institute a socialist society.

AFL Economist Predicts Catastrophic Crisis

Contrary to predictions from various administration sources that unemployment following the end of military operations in Germany will increase to "only" 4,000,000, Boris Shishkin, conservative AFL economist, declares in the October American Federationist, official monthly organ of the AFL, that the unemployed army will reach 11,000,000.

While a minor portion of these may secure employment eventually in low-pay consumers goods industries, the end of the war with Japan will shoot unemployment up to at least 20,000,000, Shishkin declares.

The AFL economist bases his forecast on the fact that wholesale unemployment through the shutdown of war industries, together with reduced working hours, elimination of overtime pay and downgrading to lower-paying jobs, will slash workers' mass reeking with poverty and oppres- purchasing power by 40 per cent.

> This will "knock the bottom out of the civilian market" and catapult the country into a "deadly depression" unless "steps are taken immediately to forestall such a catastrophe." Such steps must 'achieve a level of production without precedent in the past. Turning back to pre-war levels would spell disaster."

> Shishkin confesses that "no comprehensive program is ready to be put into operation to hold employment at high level and assure stability in transition."

> On the contrary, Big Business has pushed through Congress and gained Roosevelt's signature to the George Demobilization and Reconversion Bill. This is the bill to ensure the unrestrained piracy of capitalist "free enterprise"-that "free enterprise" which constitutes the first plank in the program of AFL President Green and his bureaucratic henchmen.

Like the rest of his colleagues who complain loudly about the bleak future for labor, Shishkin lamely proposes as a solution for the impending economic crisis the utopian idea of "high wages, full production capitalist "free enterprise." But the plan of the capitalists, as embodied in the George Bill, envisages "plowing under" the billions in new government plants, low production, high monopoly prices and starvation wages.

vent them from fighting for of the times. Without a clear anese hatred, failed to whip up bald account of the atrocities committed by the Axis powers would have roused the hatred of any man.' When the Austin men began The Indian masses, of course,
