CIO Convention **Reflects Policy Of Bureaucrats**

By Joseph Keller

Scarcely an echo of the voice of the militant rank and file was permitted to penetrate the sessions of the national CIO convention held last week in Chicago. Under the domination of Murray and Hillman, who were aided by Rooseveltian choir boys like Wallace and the military brass hats, the 600 delegates, largely from the top CIO circles, were treated to a bureaucratic parade and an unrestrained display of servility before the Roosevelt regime and Wall Street government.

The attitudes which prevailed ⁹

at this convention were a world ders of business before the conapart from the real sentiments vention his resolution for reafof the CIO ranks. In the recent firming the no-strike surrender CIO international union conven- policy.

Rejects Main Wage Demands Of CIO Steel Workers Union

267

Board Grants Face-Saving 'Fringe' Demands In Move to Perpetuate Little Steel Formula

By C. Thomas

Roosevelt's "wage stabilization" witch-doctors have cooked up another bitter pill in the form of a War Labor Board directive rejecting the demands of the United Steel Workers Union (CIO) for a 17 cents an hour wage increase and a guaranteed annual wage. The decision came after a year of stalling on the steel workers' demands which sought to bring wages in line with the rising cost of living.

While the WLB granted a number of "fringe" demands in an attempt to sugar-coat the bitter wagefreezing pill, it is universally recognized that the

Party Greets Natalia Trotsky

The 11th Convention of the American Trotskyists sends you its warmest fraternal greetings. This Convention, larger and more proletarian in composition than ever before in our history, is living testimony that the ideas of Trotskyism are penetrating more deeply among the advanced American workers.

After the most thoroughgoing discussion of the tasks of the Fourth International in the unfolding revolutionary developments in Europe and on a world scale, the American Party is prepared to discharge its international obligations in the light of the teachings and example of our martyred leader, Leon Trotsky. Although not yet a mass party, the Socialist Workers Party is already the unrivalled champion in the labor movement of the program of revolutionary Marxism. The persecution of our Party and its leaders by the Wall Street rulers of American capitalism is confirmation of this fact. Trotskyism is the charge hurled by labor bureaucrats and Stalinists at every militant revolt of the workers against the repressions of the capitalist war machine.

We are fully confident that the forces of American Trotskyism together with our co-thinkers in Europe and in' the colonies will apply Trotsky's ideas in the coming struggles, which are also on the order of the day in the United States. The Fourth International will rally the million-headed masses behind its unsullied banner and program for the revolutionary battles that will lead to the triumph of socialism on a world-wide scale.

explaining to them the importance of the Minneapolis Labor Case as the outstanding fight for civil liberties in this Second World War. They have pointed out the political reasons for the administration's attack upon the Trotskyists. They have answered in Marxist fashion the problems faced by the workers in their unions and on the poli-tical field. They have sold the pamphlets as primers of socialism to workers who were looking for the answer to the question of their the problems faced by the workers in their unions and on the poli-

The increased attendance at forums held by Socialist Workers Party branches all over the country and higher rate of recruitment ers for the CIO show last week testifies to the success of the pamphlet campaign as a means of building the Trotskyist movement in America, and widening the arena of party work in future campaigns. Just as the campaign conducted last spring brought 7,614 new readers to The Militant and the CIO ranks to the uncondi- point printed arguments for vot- laid the basis for the distribution of over 10,000 copies of the Minneapolis Case pamphlets, so will this campaign mark the beginning Among the most cogent and of more intensive work in selling Marxist literature to wider layers

> The pamphlets, including James P. Cannon's "Socialism on Trial." Albert Goldman's "In Defense of Socialism," "Why We Are in Prison." and the Civil Rights Defense Committee pamphlet "Who Are the 18 Prisoners in the Minneapolis Labor Case?" were attractively packed in a container inscribed "The Case for Socialism." The regular sale price of the pamphlets, 10 cents each, was cut to only 25 cents for the boxed set. These sets will continue to be available at the same price, as long as Pioneer Publishers' stock remains.

> Not only have our comrades sold these sets to readers of The Militant, but they have also sold hundreds at union meetings, political meetings, and on newsstands which have carried The Militant and Fourth International. Reports from branch literature agents explain that our comrades, filled with enthusiasm by the success of their work in selling the Trial pamphlets, intend to use the same methods to sell other pamphlets in large quantities.

From Our Mailbag

.Los Angeles: One of the comrades on this Sunday's mobilization who represent a good fifth of the new crop of millionaires would sold a set of the Minneapolis Case pamphlets to each of the people CIO membership, may scrap the be born as a result of war profits. he visited, five in all. Later in the day two of us covered a meeting nostrike policy in the forthcoming Not one of these promises made of the NAACP at which Roger Baldwin spoke. Unfortunately, we had taken with us only 20 sets of the Minneapolis Case pamphlets, ten copies of "The Struggle for Negro Equality," and ten copies of "Negroes in the Post-War World." We sold all of these pamphlets and had to leave for lack of literature.

Youngstown: We have sold a total of 132 pamphlets, which is 12 over our quota. We still have some Militant subscribers to call on, on the auto workers to swing mands for our protection or ex- and expect to sell some more pamphlets even though the campaign

TENNESSEE LYNCH MOB MURDERS YOUNG NEGRO

Another brutal lynching of a legro occurred on Nov. 23 in Roosevelt's Southern Democraic stronghold. A 17-year-old youth, James T. Scales, was dragged from the Pikeville, Tenn., jail by a white gang, paraded to the grounds of the State Training and Agricultural (reformatory) School for Negro Boys, and there shot to death "when he attempted to run away."

Scales had been imprisoned in the Pikeville jail after he had been accused of killing the daughter and seriously injuring the wife of the superintendent of the reformatory, where the youth was a trusty. Whether he was guilty or not will probably never be known. He was lynched before he ever had a chance to a fair trial.

Scales had been away from the reformatory grounds when the two assaulted women were found in their home. He had returned to the school with a former employe of the institution who did not know about the attack on the two women.

The Negro youth was promptly clapped into jail. There in short order the usual gang of white hoodlums formed. As happens so frequently in Southern lynch cases, where everyone in town

be absent from the jail house at didn't put up any fuss. According to the Police Chief,

the group which lynched Scales numbered only "eight or ten," but he could not seem to get any of his outraged victims. clue to their identity. Although were disguised or not.

Insurgent Greek Workers Refuse To Surrender Weapons To Reaction

By Paul Stevens

As in Belgium, France and in fact all of "liberated" Europe. tension in Greece is mounting over Allied orders to the armed masses to lay down their arms. With the expulsion of their German imperialist rivals already accomplished mainly by the Greek insurgents themselves, the Allied imperialists are anxious to disarm the aroused people.

The workers and peasants however are resisting with fierce tenacity every attempt to disarm them, because they are determined not to return to the old regime which the Allies are trying to impose upon them. This tenacity of the Greek masses has been variously misrepresented in the P-

capitalist press as a "lynch spir- their own armed might. That is it," as the sentiment of "trigger | why the insurgent workers refuse happy" adventurers, etc., etc. | to give up their arms. But facts that seep through the ATHENS SITUATION

dispatches of the correspondents give the lie to all these charges and reveal the true motive for the determination of the Greek masses to retain their arms. These Athens, the capital, which is facts show that the Greek workers and peasants want to keep their arms and their armed workers have to resort to other formations in order to establish means to keep their families fed. their own "order" in the country, to assure themselves justice, freedom and bread, and prevent any further betrayals of their interests.

Of course, the chief official reason offered for the edict of the Allied high command to dissolve the armed forces of the people (the ELAS) is the "need for law and order." How do matters stand here? On November 17, the N. Y. Times reported: "Outside of the Athens area the politophilaki, which is the ELAS' own police force, continues meanwhile to enjoy full powers. . ."

Further: "With the exception of a relatively small area, Epirus . . . the situation is that the armed force of ELAS ... remains supreme in the provinces. and it is clear that ELAS has no intention of giving up any of its Athens, is obvious from the ginpower."

"LAW AND ORDER"

In other words, "law and carried the following dispatch order" is pretty well established liking of the Anglo-American imperialists. Why it is not to their liking becomes understandable from a description of the powers that ELAS exercises. The politophilaki, the Times disarm. If they refused, the dispatch tells us, "control the order said, they would be handed indicated by Captain Macauley, movement of all citizens and can continue the present practice of

the ELAS to levy taxes and to distribute food stocks only to those selected to receive them." Translating the language of

capitalist journalism into terms of the class struggle, this means that ELAS has assumed the power of taxing the rich in order to meet the expenses of government. And more than that, it revolution.

means that ELAS supervises the food stocks so that the masses

An Unpalatable Dish Their situation is brought even more sharply home to them by comparison with the situation in under complete control of the Allied military forces. There 'At Piraeus, the Athens port," a N. Y. By Jack O'Connell

The elevation of two ex-"militant socialists," hoice products of the Norman Thomas school of politics, to government posts, stands in revealing contrast to the prosecution and imprisonment of the 18 Trotskyist leaders for their devotion to the working-class and the struggle for socialism.

The same Roosevelt who initiated the prosecuion of the Trotskyists nominated the ex-"socialist" Paul Porter of Kenosha, Wisconsin to the War Labor Board on the West Coast and intervened to secure the election of another ex-"socialist." Andrew Biemiller, to Congress on the Democratic ticket in Wisconsin. A less obvious reward to a "socialist" renegade of similar stripe was Roosevelt's grant of government-built plant and lush war contracts to the AMPCO Metal Corp., of which Dan Hoan, former "socialist" mayor of Milwaukee, is a major stock-holder. This qualified the budding industrialist Hoan to run as candidate for governor of Wisconsin on the Democratic slate in the 1944 elections. Workers fresh to the socialist movement often wonder why this movement is seemingly split by the presence in the field of more than one party claiming to stand for socialism. The Trotskyists have always sought unity with any party or group which stood on a genuine socialist program and showed willingness to fight for socialism - not just talk airily about it. At the same time, they have always warned the workers against those parties which talk socialism only to practice betrayal-parties like NormanThomas' Socialist Party which produce a string of war patriots and venal office-seekers such as Porter, Biemiller and Hoan.

James P. Cannon, Trotskyist leader of the Socialist Workers Party, who is now imprisoned in the Sandstone. Minnesota Federal Penitentiary, has given a timely description of these birds in his book, "The History of American Trotskyism." With the aim of uniting all revolutionary socialists behing their Bolshevik program, the Trotskvists entered the Socialist Party in 1936 in order to win over the leftward-moving elements. Inside the SP, they had to deal with says

"There were Biemiller and Porter from Wisconsin, young fellows who at the age of thirty had acquired all the senile qualities of the European Social-Democrats. Having lost the flame

of idealism, if they were ever touched by it, they were already settling down to the business of laborfaking on weekdays and pretending to be radical on Sundays. They were nearly all of the same type, and it was a very poor type. Yet they were the leaders of the left-wing of the Socialist Party and we had to negotiate with them all, including Norman Thomas who was the head of the Party nominally, and who, as Trotsky very well explained, called himself a socialist as a result of a misunderstanding."

-THREB

While the Trotskyists always opposed and exposed these fakers, the SP always shielded them. This made it easy for careerists to go over into the service of the ruling class as soon as they found the opportune occasion. Thus in 1942 Paul Porter acted by knifing the West Coast unions in a wage stabilization conference on which he sat as a representative of Roosevelt's War Manpower Commission. He just slid out smoothly and quietly from the SP and has been rewarded by appointment to the wage-freezing, anti-labor Board.

In Norman Thomas' outfit, the workers are looked upon as mere election fodder to be shifted around in deals made by office-seeking politicians. The vaunted "democracy" of the SP is simply a cover for the free-wheeling maneuvers of the party careerists. Discipline is only for those among its rank-and-file who display an urge for the real struggle for socialism. "Democracy" is then thrown to the winds and the bureaucratic expulsion whip is brought into play.

In contrast to this evaporating ghost of a party, which again exhibited its lack of flesh and blood in the recent elections, the dynamic. growing Socialist Workers Party, the party of Trotskyism, is a genuine workers' combat party whose leaders are tested for firm adherence to revolutionary socialist principles and who must at all times represent the party program and work under the direction of the party.

The difference between this party and the apparition of a party led by Norman Thomas is fully illustrated by the fact that the Trotskyist leaders were sent to prison while most of the leading SP "militants" of yesteryear have embarked on careers either in the direct service of the capitalist state or in the ranks of the trade union bureaucracy which keeps the labor movement shackled to Wall Street's war-machine.

workers. Roosevelt seeks to Another demonstration of the CIO leadership's subservience to the program of American imper- tinue to betray the interests of co-operatively as they could.

Piece work is a lousy system, all right. It sets people against each other in such a slick way, that after a while it just seems ike a law of nature. Everybody being jealous of each other for getting "better" jobs and rates, everybody blaming everybody else for getting in his way or not being fast enough-that's just a part of human orneriness, or so you'd say at first glance.

In a way maybe it is, just like the capitalists' continuous bloody, murderous scramble for profits between themselves. Under capitalism there's not enough jobs or "good" jobs to go around, and the working people have to scramble, too, and exchange a few hard words once in a while. Piece work makes this a hundred times worse. That's another reason why the bosses love it so much. It's always harder to organize a union where you have piece work.

formula! But at the same time, We've had piece work on most of the jobs in the shop for years. Everybody thought piece work and dreamed piece work. Seniority delegates for what was coming is applied on the best paying piece work jobs, fights with the comby giving fervent assurance that, pany center on the piece work price on new jobs. But the piece work. 'regardless of labor's grievance system as a whole has been pretty well accepted. Release of British Trotskyists Hailed By SWP Convention

From this 11th National Convention of the American Trotskyist movement and the 6th National Convention of the SWP, the delegates assembled send their warmest fraternal greetings to our four British Trotskyist co-thinkers of the Revolutionary Communist Party who have been released from Churchill's jails through the pressure of an aroused working class. Like our own 18 leaders they have undergone persecution and imprisonment for their revolutionary ideas and devotion to the working class.

In the very citadels of Allied imperialism you and we have worked to expose the fraud of the "Four Freedoms" as a screen for the most predatory imperialist ambitions. To Churchill and to Roosevelt and their trade union flunkeys there could be no more heinous crime than telling the truth to the working masses. But they cannot suppress the great mass movement for the program of Lenin and Trotsky, the program for the liberation of the oppressed peoples.

The vigorous protest movement among the advanced workers that developed both in England and in the United States against the imprisonment of the Trotskyists gives us confidence and hope for the great revolutionary future of our parties. Neither slander, repression nor persecution will prevent our movement from fulfilling its historic mission as vanguard of the working class in the struggle for a socialist society. United by common ideas and aims, we will fight together on both sides of the Atlantic for the program of Trotskyism which alone can lead humanity to its glorious socialist future.

PROBING REALITY

Instead of considering anything superficially, a Marxist probes the very depths of things that seem of little importance to those who have within their grasp only the methods of thinking that have been made available to them by capitalist society. He views every article, individual, theory, political party or class of people not just in terms of its surface appearance. He also has to know where it came from, where it is going, what effect it will have on the forces that surround it and what effect other forces will have on it. Therefore Marxism. we could say, is the whole truth.

But what has that got to do with the internal life of the Marxist party? Simply this. If an individual or a movement insists and insists upon speaking only the truth, it certainly follows that an individual or such a movement must also live the you would utterly reject any ra- through the revolutionary party. cial prejudice. Solidarity With Trotskyists in Europe Voiced By SWP Convention

With great joy and hope the SWP in Convention assembled has heard the inspiring news of the activity of the resurgent Trotskyist movement in France, Italy, Belgium and Western Europe. Our movement in Europe has withstood the terrible tests of fascist repression and imperialist war. First on the honor roll of the European Trotskyist parties are a long list of martyrs who have fallen under the bullets and in the concentration camps of the Nazi executioner. The organization of a Trotskyist Party in the very cauldron of revolutionary crisis in Italy; the outstanding participation of the French Bolshevik-Leninists in the Paris uprising of August, give great promise for the future of European Trotskyism.

We are confident that our parties in Europe will know how to mobilize the masses in the struggle for the Soviet Power and the Socialist United States of Europe. With this program the parties of the Fourth International will wrest the leadership of the masses from the Stalinist and Social-Democratic lackeys of imperialism and lead the European masses to liberation from the tyranny of the new Anglo-American conquerors of the continent.

We pledge our untiring support and collaboration to our co-thinkers in Europe! We will leave no stone unturned to mobilize the American working class in support of their class brothers engaged in revolutionary combat in the European continent against native and foreign oppressors. We will strain our every nerve and all our resources to aid in the building and strengthening of your parties. You can count upon us!

Diary Of A Steel Worker

By Theodore Kovalesky

Sometimes in the summer you will see a fly land on a piece of garbage. Soon he is followed by another fly, and another. Then several more swarm onto it. Pretty soon there are hundreds of them, all buzzing round and walking over it. That's what it's like in the plant when rumors begin to circulate.

A little over a month ago somebody remarked that we would probably be going on five days a week before long. That was the first fly. Now all the others have been swarming in. Every day you hear jokes, curses, angry, and fearful comments about how soon it may happen and how hard it is going to be to get along on five days' pay.

Just yesterday Jimmy said to me, "If a man can't get along on the money he makes nowadays, how in hell is he going to get along when they take away our time-and-a-half day? There won't be any more doubles either. We'll be lucky just to get our forty hours."

Even the vice-president of our local, a strong Roosevelt man who almost worked himself to death during the PAC drive and carried around ten pounds of Roosevelt-Truman buttons, has begun to look a little thoughtful. Every day now he comes to me and says a little pathetically, "Well, have you heard anything more about the raise? If they don't give us something pretty soon, it's going to be hell when they cut out the sixth day."

It's going to be hell, all right, Mac. It's no comfort to you when I show you how The Militant has

been predicting these things all along. And it doesn't help you either when I point out what's happening in Washington, where Roosevelt with Murray's able assistance, is carrying on a long comedy before the whole sellout is revealed nakedly. I may be able to show you where we're going, but that won't get rid of your worries.

It's going to be hell to get those short paychecks that won't measure up to even a half-way normal standard of living with today's prices so far out of reach.

In Emil's place last payday when we were cashing our checks and having a couple beers, Gus Miller turned to me with angry suddenness and burst out, "Look, I haven't got a damn thing. I sold all the bonds they made me buy. I had to. I couldn't make both ends meet. What the hell are we going to do when we get back on a forty hour week? I can't make it. I know I can't."

From all corners the stories come. They grow in volume and intensity. Fear is stalking the blast furnace line. Fear and worry are rampaging up and down the whole plant. Shabby old memories that had been gratefully discarded are once again rising up like ghosts to haunt us.

Unrest is felt. There are vague stirrings. Every now and then a worker, sometimes an ex-scab from the big strike several years ago, will tell you angrily how we ought to shut the whole damn place down, and we should show Murray who's boss in the union. But it's still vague-just letting off steam. It'll grow. Maybe it'll grow with a terrific rush, but still, it will have to grow before anything can come of it, at least anything that will have any chance at all for success. The anger hasn't caught up to the fear as yet.

It's going to be hell. That is the sentiment expressed by everyone. We feel, many of us, like a condemned man on the eve of his execution. We've known it was coming, known it all along. But now that it appears to be hanging over our head, we're not ready for "If it would only hold off a little while!" we think D

it won't.

Like the heavy clouds of smoke and flue dust that come between us and the sun, the shadows of the oncoming hard times, of the new depression are darkening the future. The cold winds of approaching winter are a little sharper to every steelworker. And of the days to come, the grey skies are more threatening.

DECEMBER 1, 1934

NEW YORK-"The Workers Party of the United States has been formed!" proclaimed The Militant, describing the Fusion Convention of the Communist League of America (Trotskyist) and the American Workers Party (Musteite). "Sleepless delegates, without rest from the all-night sessions of their respective organizations, shook off their weariness to speed the foundations for the new party. . ."

Full text of the declaration of principles and the constitution of the Workers Party of the United States appeared in The Militant, setting forth a revolutionary Marxist program and establishing firm Bolshevik organizational principles.

GERMANY-Franz Bobzien, a young member of the Socialist Workers Party and the Young Socialist League of Germany, was murdered by Hitler's gunmen in a Hamburg prison, The Militant announced. Comrade Bobzien, arrested by Holland police in February, 1934 when he attended an international conference of revolutionary youth organizations, had been delivered by the Dutch government into the hands of the Nazis, who sentenced him to four years in prison for "high treason."

"Refusing for purely factional reasons to participate in the international movement of protest (against Comrade Bobzien's arrest), the Stalinists share in the guilt of his execution," The Militant said. "We swear to carry on until his executioner's will feel the heavy hand of proletarian retribution."

NEW YORK-National Unemployed Day, November 24, went down in American labor history as a landmark of militant activity. All over the nation, even in the "deep South," hundreds of thousands of jobless men and women paraded to the doors of local relief administration offices, with banners proclaiming demands for cash relief, recognition of Unemployed Workers' Unions. a broad program of public works, and a 30-hour week at a minimum wage of \$30 for all industries.

- 3. Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.
- 8. A Workers' and Farmers' Govern

icalization of the working class in this country, the convention outlined a bold program of expansion, envisaging a great increase in circulation of the press and a considerable influx of new members.

The Eleventh Convention showed that American. Trotskyism is becoming a force to be reckoned with in the labor movement. The SWP is now closely fused with the militant vanguard of the American working class.

In the stormy class battles which lie ahead the workers will cast aside the labor bureaucrats with their records of betrayal and turn attentively to the Trotskyists who never sold them out. The Trotskyists, for their part, are seriously preparing themselves to lead the American workers to victory in the struggle for socialism.

Politics Of Betrayal

The most important lesson of the November election is the perfidious role of Wall Street's labor lieutenants. The workers and poor farmers constitute the overwhelming majority of the population. Yet in the election they not only failed to elect a single representative to office, but they failed even to nominate one on a national ticket.

The political power of the working class, however, was demonstrated by the fact that Roosevelt was elected by their vote. Their potential strength was furher demonstrated by the doubling of the 1940 vote cast for the American Labor Party and its Liberal split-off.

How could this powerful class fail so signally to gain even one seat in Congress? The fault lies wholly with the trade union heads who represent Wall Street's political interests. John L. Lewis, for example, who in 1936 was spoken of as a possible future labor president, in 1940 and again in 1944 called on the working class to support the Republican Party.

The CIO Political Action Committee, organized ostensibly to activize the labor movement politicaly, turned its entire energies under the direction of Hillman, Murray and the American representatives of the Stalinist bureaucracy, to mobilizing the labor vote for Roosevelt.

The American Labor Party and the Liberal Party called on the workers to support the candidates and the program of the Democratic Party, whose anti-labor record in the last decade begins with the consistent strike-breaking of 1934-37 and culminates in the wage-freezing and government straitjacketing of labor today.

It was the labor bureaucrats, and only the labor bureaucrats, who stood between the workers and the formation of an independent labor party. Had these labor organizations called on the workers to oust Big Business representatives in government and replace them with labor's spokesmen, the entire political picture would today be different.

An independent labor party would now stand on the scene. Under the proper leadership it would exert its enormous pressure to end the wage-freezing that is pushing down the workers' standard of living. It would demand an end to war-profiteering, an end to reconversion for the benefit of Wall Street, an end to the counter-revolutionary schemings of the American imperialists in Europe and throughout the world.

The columns are open to the opinions of the readers of The Militant. Letters ire welcome on any subject of interest to the workers, but keep them short and include your same and address Indicate if you do not want your name printed - Editor

Capitalist politicians operate on the premise that emagogic promises, to be effective, must always be big and bold. An example is Roosevelt's recent promise of a "postwar" employment program providing no less than 60,000,000 jobs, which would be 5,000,000 more than during the peak of war production and 20,000,000 greater than the 1936-39 average.

The only specific item of this program so far revealed is a proposal to build a system of "TVA's" on six major watersheds and to undertake Roosevelt's pet project, the St. Lawrence Seaway. But all these projects put together will not provide employcoming period of economic crisis.

When one considers how long and successfully the public utilities corporations prevented the undertaking of these projects in the past, and particularly during the New Deal Era of 13,000,000 to 15,000,000 unemployed, it is hardly likely that all or any of provide jobs for more than a few tens of thousands of unemployed.

Stand .

Such Rooseveltian demagogy is intended to conceal the real Wall Street-Roosevelt program, the Baruch-Hafcock plan already embodied in major legislation. This provides for the "speedy disposal" of approximately \$10 billion worth of government-owned monopolies, which intend to "plow them under" in order to limit production and maintain scarcity prices. At the same time, the George "Starvation" Bill is providing "states rights" unemployed relief as low as \$2 a week for only six weeks.

According to previous estimates put forth by official government agencies, war contract terminations and production cutbacks were expected to reduce industrial employment following the defeat of Germany by "only" 40 per cent. Now, it is reported, the administration has been compelled to "revise" the first estimate and is trying to devise a method for breaking the news "gently" that anticipated war industries unemployment is likely to reach over 70 per cent.

LERNATIONAL NOTES

Germany

The hell of privation and suffering now being endured by the led by a revolutionary party, is people of Germany was sharply indicated by the recent reports (see last week's Militant) of peace demonstrations brutally suppressed by the the Nazis. A tional. glimpse of the actual conditions

of life was given in a Stockholm Soviet Union report to the N. Y. Times on Nov.

A graphic picture of the Soviet 22 which said that a "freakish Union under the rule of the councold snap, heralding an early and ter-revolutionary Stalin and his unusually severe winter, has ingreedy bureaucracy was given in flicted extreme hardships on a Moscow dispatch to the London some 2,000,000 people still re-News-Review on Sept. 21: maining in the ruins of Berlin."

"For anyone with the time and According to this report, 60% money, life has improved in Mosof the population have no windows and 30 percent are without cow as rapidly as the Red Army any means of heating their has advanced on the front. But abodes. "In the past week" it not everyone by any means has continues, "the suicide rate has the necessary rubles. The nev risen to an average of 50 persons | unrationed Soviet Commercial Department stores, food shops a day." There is a tremendous increase in crime. Stalin Protests Lenin Pamphlet

An Associated Press dispatch from Rome (Nov. 22) reports that Stalin's government demanded of Allied military headquarters in Italy the suppression of a "Life of Lenin" pamphlet circulated in the Italian capital. Moscow declared the publication was "insulting to the USSR" and that the author was an enemy of

the USSR and a "Fascist." The author and publisher of the pamphlet - which the Allied authorities, for their own reasons, refused to suppress-were not identified in the dispatch. But when Stalin calls the author a "Fascist" and an enemy of the Soviet Union, we wonder whether the pamphlet could not have been published by — the Italian revolutionists.

The Myth of High Wages **During Second World War**

Testimony of union workers from the textile, tobacco, cannery, maritime, telegraph and telephone and other low-wage industries, given last week before a Senate Subcommittee considering union demands for legislation to establish a 65 cents an hour minimum wage standard, offered graphic proof of the government's own figures showing that 40 per cent of all American wage-earners receive less than 65 cents an hour, or \$26 a week.

One after another, workers and their wives bitterly told of their hopeless efforts to stretch pitiful wages to provide a minimum decency standard of living for their families. Most of the workers who testified work long hours of overtime and have been employed by the same firm for many years. War price rises have reduced their previous subsistence wages almost to starvation levels.

Emil Rieve, CIO Textile Workers Union president, used statistics from a War Labor Board study in January, 1944 to summarize the wage situation. This study shows that 21.7% of all American wage earners receive less than \$20 per week; 54.3%, under \$32; 87.3%, under \$48. Over 50% of all workers are getting wages which in terms of pre-war purchasing power are the equivalent-or less-of a former WPA relief worker's pay.

SWP Convention

The more than 400 delegates and visitors who convened in New York November 16-20 made the Eleventh Convention of the American Trotskyist movement the largest in number and most proletarian in composition yet held. No more convincing demonstration could have been given of the frustration of Roosevelt's plan to decapitate the Trotskyist movement at the beginning of the war by railroading its outstanding leaders to prison. Despite this cruel blow, the Socialist Workers Party has grown and progressed.

The convention gave proof that our party succeeded in converting the persecution into a powerful weapon, utilizing the trial and imprisonment to. spread the ideas of socialism to new layers of workers. The SWP is today recognized throughout the nation as the only party with a serious program of opposition to imperialist war.

The party succeeded in rallying millions of workers to defend their own civil liberties by defending and supporting the 18 Trotskyists framed up under the Smith "Gag" Act. The convention likewise demonstrated that the party during its defense campaign succeeded in recruiting numbers of the very best militants of the labor movement.

The convention adopted two resolutions on political perspectives. The first analyzes the developing revolutionary situation in Europe and sets forth the strategy and tactics for the proletariat to take power and create the Socialist United States of Europe. The second resolution analyzes the profound crisis confronting American capitalism. It presents the Trotskyist program of transitional demands as the working class answer to this developing crisis. Some of the most inspiring reports of delegates were those from the field citing instances where the advanced workers are already adopting these transitional slogans.

The full text of these two important resolutions will be published in the December issue of Fourth International.

Basing its perspective on the coming revolutionary developments in Europe and the growing rad-

29 1 V

As it is, the reactionary program of Wall Street has been given a new lease on life. This is the measure of the sell-out of the labor bureaucrats.

Jim Crow Verdict

Last week in San Francisco a brass-hat, Negrohating court martial imposed sentences ranging from eight to fifteen years upon fifty Negro sailors, convicted of "mutiny." The case began when a ship in Port Chicago being loaded with ammunition blew up, killing 327 men. The great majority were Negro sailors in "labor battalions" doing longshore work. All those on trial were either survivors or among the squads that cleaned up the wreckage and dismembered bodies.

These Negro sailors allegedly circulated a petition asking for transfers to other types of work. Although the longshoremen's union does not permit men to load ammunition unless they have had at least five years experience, some of the Negro sailors were put on ammunition after only two to three months training. Simply for exercising the democratic right of petition-a right included in the Bill of Rights of the Constitution-they have been found guilty of "conspiracy to mutiny" in the Navy of American "democracy."

A monstrous crime has been committed in this case-against the fifty Negro sailors who are being railroaded to prison. That crime has been committed by the Navy brass hats, by the military high command and by the Commander-in-Chief in the White House, who enforce Jim Crow policies in the armed forces and relegate Negro sailors to the most menial and dangerous tasks. As Grant Reynolds correctly declares in "The Crisis" for November: "The gods of justice might better be served if those responsible for the miserable plight of the Mare Island mutineers were tried in mass court martial instead of the innocent victims of their despicable policies."

Every labor and progressive organization must join the Negro people in demanding that this vicious verdict be set aside and the fifty Negro sailors freed.

International Monopolies Prepare for the 'Peace'

In the secluded, swanky precincts of the Westchester Country Club at Rye, N. Y., representatives of the world's most powerful capitalist monopolies have been gathered in an "International Business Conference" called formally by the U.S. Chamber of Commerce, the National Association of Manufacturers, the National Foreign Trade Council and the American section of the International Chamber of Commerce.

This secret conclave has been laying the basis for the real "peace treaties" - the private agreements of the great international trusts. In the luxury of the Westchester Country Club, the agents of the rapacious imperialists have been bargaining for the spoils of war, favorable world trade positions, spheres of economic influence.

One of the big issues before this conference was the question of cartels, the international combines in restraint of world trade and production maintained between the monopolists of all capitalist countries. The Brit'sh, for instance, favor the old cartel system; they look to alliances against their more powerful

American competitors. Some of the American spokesthe Resistance Forces, reports men "deplore" cartels in the name of "free enter-Time magazine (Nov. 27) have prise;" their resources make them confident that they can destroy their competitors if they keep them

> Senator Kilgore termed the conference an attempt "to return to that same system of private economic treaties which contributed so largely to the depression and the breakdown of the peace."

But he directed his fire mainly at the prospect of the revival of the "German cartels" and offered no proposals for liquidating the American trusts which have helped to bolster up the cartel system in alliitem: "'We took up arms against ance with the German and other monopolists. Kilgore with the popular and resistance movements of Europe in driving out collaborators" with the Gorman trusts. Actually, the Roosevelt administration has protected the big American cartelists by shelving anti-trust prosecutions "for the duration." And the Roosevelt-Churchill AMG and Allied Commissions in Belgium, France, Italy, etc., cooperate with the former pro-Nazi capitalist collaborators and back the capitalist puppet regimes in their attempts to disarm the popular anti-fascist resistance movements.
