His Victims For Greek Slaughter

By Joseph Hansen

Winston Churchill, champion of capitalist counter-revolution for a quarter of a century, is now openly preparing the next great stage of the Second World War-suppression of the advancing European socialist revolution. In a sinister speech before the House of Commons on January 18, Churchill raised the banner of an unholv crusade against a spectre haunting Europe. The spectre Churchill wants to exorcise is "Trotskyism."

This is not the first time that Britain's Prime Minister has step. The Unholy Alliance ped forth as the director of reaction's vanguard. When the Soviet Against Trotskyism Union was born in the October 1917 revolution. Churchill organized the protracted Allied intervention which sought to drown the first workers' state in blood. Only the heroic defense of the Red Army led by Trotsky, combined with the support of the world working class, frustrated Churchill's designs.

Churchill spoke to Commons in another attempt to quell the political crisis his government faces in consequence of public indignation over the slaughter of Greek workers and peasants. He again slandered these heroic fighters as "brigands." He lied that Allied troops invaded Greece solely to bring the blessings of food and democracy. He did not breathe a word about General Scobie's orders that the Greek partisans give up the arms they had used against the German armies and get out of Athens. He lied that the partisans had provoked civil war, although it was British-armed police who fired on an unarmed demonstration against the British-supported puppet government of Papandreou. He was discreetly silent about his order to Scobie to provoke civil war even if he must kill women and children.

Churchill labels as "Trotskyist" the insurgent Greek workers and peasants murdered by Allied troops. The January 11 Daily Worker, commenting on Churchill's use of this term in his vicious speech, offers the assistance of the Stalinists in putting down "Trotskyism." "Commu-

nists (Stalinists) everywhere have a long experience with Trotskyists," declares the editor of the Daily Worker; "if Churchill means to fight their influence, the Communists will always assist him just as we have been fighting them without his assistance."

There is a third member in this unholy combination—the Nazis. Last May, the reactionary Greek government-inexile announced that 17 members of the Archeo-Marxists (Trotskyists), among them Vite, the General Secretary, had been executed by German occupation authorities in Athens. Four other Trotskyists fell before a German firing squad in Salonika. Vite had returned from exile to help organize the workers' struggle against the Nazi armies of occupation.

FLINT CIO COUNCIL SCORES **ALLIED POLICY IN EUROPE**

Taking the lead among American unions in publicly condemning Allied counter-revolutionary policy against the workers in Greece and throughout "liberated" Europe, the Greater Flint (Mich.) Industrial Union Council at its regular meeting on January 6 adopted the following resolution:

- WHEREAS: To forestall a Democratic Government in Greece and restore the puppet King George, the Churchill Government has slaughtered Greek Soldiers of the Worker's Army (ELAS) that drove the Nazis out of Greece, and
- WHEREAS: Allied tanks, planes, munitions and men were used against Greek Workers at the very moment when American Workers were being slandered with blame for an alleged shortage of armaments on the Western Front. and
- WHEREAS: Allied forces have been used also against Italian and Belgian workers who protested being ruled after "liberation" by the same native S. L. Averys, Tom Girdlers and Smith-Connallys who oppressed them under the Nazi heel, and
- WHEREAS: American workers with our own Quislings and would-be Hitlers and Mussolinis to deal with have common cause with European workers trying to make a reality of their so-called liberation, and
- WHEREAS: The right of Nations to determine their own government is a fundamental demand of oppressed peoples everywhere, regardless whether there ever was en Atlantic Charter, therefore be it
- **RESOLVED:** That the Greater Flint Industrial Union Council calls upon the CIO National Office immediately to launch a nation-wide campaign to protest the use of Allied troops against workers of any country who are trying to establish their own democracy. We particularly protest the Churchill-Scobie butchery in Greece. Let the people of Greece, Belgium, Italy, North Africa, etc., choose their own governments and deal in their own way with their native Mayor Hagues, Hoovers, etc. We protest our brothers in the Allied forces-mostly denied the right to vote here at home,-being ordered to shoot European workers who want a voice in their governments, and be it finally
- RESOLVED: That copies of this Resolution be sent to the CIO National Office, to the White House, State Department. Winston Churchill, affiliated Local Unions, and the press.

Speed-Up Hits Rubber Workers

By Joseph Andrews

AKRON, Jan. 15-The rubber industry this month launched a 120-day non-stop speed-up drive to increase the production of military tires. Sponsored jointly by the corporations and the government, the 4-month drive has been endorsed by the officials of the United Rubber Workers of America, CIO.

The program has been sent off with a cannonade of propaganda in the press, designed to convince the tire builders that there must be a truce in the class struggle in the plants, and that uninterrupted production@

and extra effort are needed. Sixteen rubber companies, including the Big Four, Goodyear, Firestone, Goodrich and U. S. Rubber, have pledged, "Business as usual is out!" They also have faithfully promised that "there can be no changes in hours, wages and working conditions EXCEPT (the emphasis is ours) in the interest of greater production.'

This pledge is a 100% fraud. With the 120-day campaign hardly under way, the corporations have intensified their wageslashing drive by cutting standards for piece work.

When the unions protest this violation of the 120-day agreement, the bosses reply: "But this is in the interest of greater production."

To what extent "business as usual" has been suspended was made very clear in an article written on January 8 by Drew Pearson which made a sensation in Akron. He revealed that for the next 120 days, precisely during the period of the so-called drive. War Mobilization Director Byrnes has extended high premium prices on passenger tires,

Condemn Dalrymple AKRON, Jan. 15 - Good-rich Local No. 5 URWA-CIO last week adopted a strong resolution condemning URWA President Sherman Dalrymple for his dictatorial action in fining 500 union members of Local No. 101, U.S. Rubber, Detroit, for participating in a walk-out.

Branding the wholesale fines as "a repetition of his action in the firing of 62 bandbuilders at General Tire and Rubber Local 9" the Goodrich local adopted the resolution at a general membership meeting almost unanimously. There was one pro-Dalrymple vote. That was the vote of a wellknown Stalinist stooge, Keller Snyder, newly elected to the executive board.

The 500 workers at U. S. Rubber, who have refused to pay their fines without first getting a fair trial, have been threatened with expulsion from the union, and consequently with being fired by the company.

By Paul Abbott

After a six-weeks visit to Bulgaria, Joseph M. Levy has published a series of articles in the N.Y. Times depicting conditions there under Stalinist domination. Living conditions have worsened. Levy says this is particularly true of the Jews who were singled out for persecution under Nazi occupation. "They are clotheless, shoeless and starving. They are existing, not living, under the most unsanitary conditions, three and four families sharing a dingy little room which is unheated and without windowpanes. . . The children's bitter cries for food and agonizing moans of the sick are still ringing in the writer's ears. Despite innumerable appeals for help, no relief from abroad has been forthcoming.

Lynn Case Appeal **Rejected Again By Supreme Court**

The Supreme Court has for the second time refused to take action in the Lynn Case, reports the Lynn Committee for the Abolition of Segregation in the Armed Forces. This case has been nationally recognized as a test case involving violations of the Selective Service Act by Jim Crow methods of selection by racial quotas.

On May 29, 1944 the Supreme Court ruled that it could not review the case on the pretext that Winfred Lynn, who had instituted suit for release from the army at the time of his induction, was no longer in the custody of his first commandant at Camp Upton, N. Y. He is now a corporal serving in the South Pacific.

The Lynn Committee, with the assistance of Arthur Garfield Hays, noted civil liberties attorney, appealed the first refusal to review. It is this appeal which has just been rejected.

The Stalinists set up a class collaborationist "Fatherland The legal basis for the suit is the wording of the Selective Serv-Front" whose representatives take part in the government side ice Act, which states that "in the selection and training of men unby side with former reactionaries. der this act . . . there shall be no discrimination against any pervails in Bulgaria," declares Levy; son on account of race or color." Stalinist Fink Clause In ILWU Contract

SAN FRANCISCO, Jan. 17-On December 5, 1944, the Stalinist leadership of Local 6, warehousemen's section of the International Longshoremen and Warehousemen's Union, CIO, signed a new three-year master contract with the San Francisco Distributors Association, affecting over 12,000 workers. This contract, widely advertised as another step toward "unity" contains no wage increase for the great majority of the workers. Instead, it features Bridges' notorious permanent no-strike pledge and an even more infamous "strikebreaker clause."

The ILWU Dispatcher, as is. usual with every Bridges action, hailed the event as a "great step forward in industrial relationsa challenge to all sections of American labor and capital who are giving serious thought to the Post-War World." This sentiment was promptly echoed by the Peoples World, West Coast Stalinist sheet, which headlined its article on the contract "A Model for Post-War Industrial Peace."

Rank and file warehousemen have not responded to these exalted proclamations, however. What they wanted and did not receive was a 15c per hour raise asked for in the negotiations. The wage increase was sold down the river for this "Post-War Unity." According to Richard Lynden, president of Local 6, the union had requested a general wage increase of 15c per hour, but in the interests of settlement had agreed to forego a general increase at this time.

Rank and file longshoremen too, have begun to wonder if their new contract, now up for negotiation with the same demand for a 15c increase, will not follow the same course.

The only concessions gained by the union were a 5c increase only for those women making 70c per hour, vacation pay to be based on a 48 instead of a 40 hour week, and a 5 day sick leave clause. Even the 5c increase, granted only for the lowest scale of pay for women, has not been O.K'd but is subject to approval by the WLB.

Rankin Speaks on Negro Slavery

In keeping with the reactionary character of the new Congress, Democratic Congressman Rankin of Mississippi, greeted it with one of his typical tirades against labor and the Negro people. As usual, this Southern Bourbon interspersed his fascist-like rantings with a pious expression of his "good-will" toward Ne-

groes. He boasted that once he had even condescended to shake hands with an old man who had been one of his grandfather's slaves. "My people were slave owners," he bragged, "but they didn't enslave the Negro, they lifted him from savagery."

This is like the lynch gang who cynically sneered when they murdered a Negro, that they didn't hang him, they "just lifted him up from earth to heaven."

Auto Militants Rally to Fight No-Strike Pledge By Jerry Kirk

DETROIT, Jan. 20. - The UAW Rank and File Committee here is steadily stepping up its campaign to win a majority for scrapping the no-strike pledge in the CIO United Automobile Workers' national referendum

Discussion over the referendum on the no-strike policy is reaching new heights in this heart of the militant auto workers union. Voting is under way as ballots have been mailed starting January 4, to all UAW members, including some 400,000 in the armed forces.

The climax of the referendum campaign to rescind the pledge will be reached this week-end when the powerful Briggs Local 212 presents a half-hour radio program to urge the auto workers to vote down the no-strike

policy. A number of union locals are implementing the campaign of the Rank and File committee with leaflets and other literature issued by the locals themselves. In addition to its scheduled radio broadcast, officers and mem

bers of Local 212 have issued an excellent leaflet entitled, "Revoke the No-Strike Pledge," which

ises of Roosevelt to institute "equality of sacrifice." This leaflet has been widely circulated throughout the Detroit east side and has met a heartening reponse from the auto workers.

The Rank and File Committee has mailed out thousands of cop-

ies of its program, described pre-viously in The Militant, to local officers, committeemen and active militants throughout Detroit and Michigan. All reports indicate

that this program is making strong headway. The Rank and File Committee is becoming recognized as the only group willing and able to lead the struggle

"I don't care what you say," Scissorbill Sam (the bosses' man) was protesting, "You've got to have executives."

"Why of course you have," said Pop soothingly, "of course you have.'

"Well that screwball Slim says things can run by themselves." "Nope, 'taint so," Pop replied, not making it clear whether he meant it wasn't so that things could run by themselves, or it wasn't so that Slim had said they could run by themselves.

Anyway, feeling thus encouraged, Scissorbill Sam got under way. "And even if you had your own executives—Slim was talking about a bunch of two bit bookkeepers-huh!-even so, they'd have to have someone over them, wouldn't they? Even Eugene Grace has someone over him, hasn't he?"

"Who?" said Shorty. *

"The stockholders!" was the triumphant reply.

"Oh, the thirty-eight million dollar a year boys. Grace is in on that gang as well as being president of the corporation. So he must take orders from himself."

"That's only accidental." "Pretty happy accident," Pop chuckled.

"I mean incidental," snapped Scissorbill.

"Now don't get excited. What's your point?"

"The point is that these engineers or bookkeepers or whatever they are, won't have anyone to make them toe the line. Who's going to call them to order, who's going to fire them?"

WHO'LL DO ALL THE FIRING?

"Well for that matter, who's going to fire us under that kind of a set-up? Things'd come to a pretty pass," said Pop "if there was nobody to fire us."

"Yes, for that matter, when you come right down to it," said Scissorbill, looking all around with a challenging look, "who is going to ?"

Then he calmed down and was very patient with the fellows. draws the balance sheet of the 'What you guys don't understand is that even these big executives, blows against labor since the even Eugene Grace himself, has to make out reports for the stockpledge was first made by the top holders. And if they don't manage the business to show a profit, the union leaders on the false promstockholders give them the air."

"That doesn't sound too bad," said Shorty. "At least it's systematic, if it really works that way. But what I'd like to know is this-if it really is the executives that make the business show a profit, and if the stockholders really do fire them if they fail, how come the stockholders get thirty eight million dollars a year just for firing people? Why Crabapple Jennings, over to the main gate, does all the hiring and firing for this whole plant, and he makes

hardly any more than I do." "It's their plant, don't you understand?" shouted Scissorbill.

"They own it-that's why they get so much. . . You'd get it too," he said grudgingly, "if you owned it."

"Yeah, I'll buy you a drink when I own it. But that isn't the point. You were tryin' to tell us why you have to have the owners. Sure they are the owners right now. But suppose all of us here, including Scissorbill and all the other working people, was to be the owners. - Suppose we were just as extravagant as the present incumbents and paid our stooges a half a million or so a year just like they're doin' now-we'd still save the thirty eight million

profits, which isn't peanuts. But according to Scissorbill, we wouldn't have sense enough to fire these half a million dollar babies if they acted up."

"I didn't say that. But who would you have over them to do the firing? A couple thousand jerks like you couldn't just walk up in a body and do it."

"If a couple thousand jerks like me walked up to Eugene Grace ment. A War Labor Board, set Strike Pledge, which appears lush in a body, it'd be lots of fun" mused Shorty. "Here comes Slim. Scissorbill was tellin' us they wouldn't have anybody to prod them.' "You mean there wouldn't be anyone over them with a whip, like the foreman over us?"

HOW WE'LL MANAGE SOCIALIZED INDUSTRY

"Yeah, I was just coming to that. I was figuring we could save a lot of money just to give some guy three or four thousand bucks a year and give him a bull whip. And the only thing he'd ever have to do would be crack somebody with it when they got out of line. That would save us thirty seven million, nine hundred ninety six thousand dollars. Right?"

"Right," said Slim solemnly. "But I'm afraid we'd have to spend a little more of our thirty eight million than that. In the first place there'd be hell of a lot more than thirty eight million anyway, but say there was only that much more produced than the wages we're getting right now, we couldn't add all of that onto our wages. We'd have to spend a little making this place a little more decent to work in. We'd get the new wheel on that number two crane right away, for instance, instead of waiting for the insurance company to make us do it, after somebody got killed.

"As for the guy with the whip. Well, that's getting by pretty cheap for us. But it's too much like Capitalism for my taste. We want to produce more than we do today. We've got to have a more efficient system that won't break down in depressions and bust out into wars. You can't bring that about with a whip,"

"You mean the capitalists will let us walk in like cows going to clover ?" queried Shorty.

"Oh that's something else again. I'm talking about how we're going to work things-how we're going to make production go."

"We could elect an industrial commission, sort of inspectors on a nation-wide scale. Only instead of holding a rule or a pair of mikes on the margin of a piece of sheet metal, they would have to measure up the total production of the whole country. If the steel plants weren't up to specifications with the auto plants, the guys who were organizing the output of steel would be told about it."

"There you are," said Scissorbill. "These super-inspectors of yours would eat up your thirty eight million. You'd have to give them a damned high wage."

"I don't know about that-" Slim started to reply.

"Now don't tell me they'd work for the kind of money you do." "Well, the capitalists get their Congressmen to work for ten thousand a year. -Rank and file longshoremen of Local 10, International Longshoremen's Union, CIO are restless these days. After three years of waiting, a wage raise seems as far away as ever. Recent hearings before a special WLB panel have not brought it any closer. Meanwhile conditions on the job, won in the great strikes of 1934-1937, are being given up without a struggle.

Longshoremen have not received a wage increase since 1941. Polite requests by the Stalinist-Bridges leadership for a 15c per hour increase, made in 1942 and 1943, were summarily rejected by the bosses. Diary Of A Steel Worker

By Theodore Kovalesky

DIARY OF A STEELWORKER The newspapers have carried a tiny note informing the public that "Benjamin Grimes, beloved husband of Eliza" etc. is no longer among the living, the local has sent flowers, and Johnny Crummit has taken over the keeper's job that old Ben used to have. Every now and then one of the fellows will say something about Ben, but even that will die out soon. He's just one more worker whose tired-out body has been laid to rest in a peaceful grave.

Old Ben came out of the deep south a quarter of a century-ago, a tall. hungry-looking man of thirty with big, powerful hands, calloused from the plough. Life had been hard there. Daily he had struggled to bring forth good live crops from his stale patch of earth. The sun beat upon his head, and the Jim Crow system pressed down upon his spirit, and he felt himself trapped.

It was a happy day for Ben when the white stranger came to his door and said, "Boy, how'd you like to go north and make a lot of money working in a steel mill?" Ben felt the trap open. He thought he saw a new life for himself and his family, a life that would not be so hard and barren.

So Ben went north in 1919 as a scab and a strikebreaker. He didn't know that there was a great strike throughout the nation's steel plants. He didn't know that the steelworkers had put up too long with intolerable grievances, and that finally they had borne all they could and had banded together to

fight with doomed courage for a halfway decent life. He knew nothing of this. All he knew was that he was going to the fabulous north to make a lot of money.

The train took Ben and his fellow passengers right into the plant, and almost the minute it stopped he was put to work on blast furnace. A white boss with a sneering, scornful face showed him what to do and complained in passing about the "damned Communist International in Mos-Bolsheviks" who had stirred up trouble in the plant and made it The January Socialist Appeal, cow. Under the Metaxas regime organ of the British Trotskyists, the 'Archivo-Marxists' were wiped necessary for the foreman to do a pile of extra work trying to teach reports that in some provincial out by police repression; and it a bunch of ignoramuses how to work on the furnaces without killing, ous speech he indicated that he Churchill himself points out, are editions of the capitalist press seems somewhat doubtful wheth themselves and everybody else. Ben didn't know about any of these things, but he thought it was a pity for anyone to be stirring up trouble in a world that was troubled enough anyhow.

> The very first day, Ben saw he had been mistaken. Here too, "But it is guite possible that life would be hard. He worked until he almost dropped from exsome such unorthodox Communhaustion and then worked some more. He sweated until his clothing ist tendency may have established was drenched. Only the dirtiest, lowest sian armies. This will probably paying work was left to the Negroes. For a long time there was hard feeling.

What Ben Came to Learn-and to Do

In spite of the low wages (he recalled the "big money" the stranger had told him about) Ben managed to send for his wife and family and to install them in a rented house in the Negro steelworkers' section, where he became part of the community, no longer feeling out of place in a strange land. In fact, the land was quite like the south. True, there were no lynchings, but there was Jim Crow all the same. In slack times Ben found that the colored workers were the first to be laid off, the last taken back. He saw young white workers advanced ahead of him even though he knew the work better than they, and in many cases, taught them all that they did know about furnaces. Ben finally worked up to a job as keeper, but* that was as far as he could go, and he knew it. Still, in spite of the discrimination that he found in every phase of life, Ben came to realize that all white men were not the same. Bit by bit he came to know some of us and to like us as we liked him, as workers like each other when they work together day in and day out, laughing together, struggling together on tough jobs. I think he was even beginning to understand the whole problem-how children are trained in ideas of racial superiority by the ruling class of a nation so that the working class will be split up and unable to fight against the real enemy, the capitalists, how race baiting is used by the companies as a union-busting weapon. He knew the difference all right between Girdler or Grace and the white steelworker. When the SWOC started organizing the plant, old Ben was strong union man from the start. When they called us reds he recalled what they had told him in 1919 about the Bolsheviks. Above all, I guess he remembered how he had been barred from advancement. The CIO stood for racial equality and better conditions for But now that's all past, and Ben's in his grave, and Ben's CIO "Criminal Syndicalism," a united front defense committee held local has sent a wreath, and pretty soon everybody will forget all its first meeting on January 19. TTSBURGH-In the American Federation of Labor, there was growing unrest, as the need for industrial unionism was felt in mass industries. Symptomatic of the ferment was an unofficial rank-and-file convention called by militant unionists, to be opened in Pittsburgh on February 3. Many of the major AFL unions were to be represented, with the Amalgamated Association of Iron, Steel, Tin and Sheet Metal Workers in the forefront. "Ostensibly this 'rank-and-file convention' is called to consider the decisions of the official San Francisco convention recently held by the AFL and to lay plans for carrying out these decisions," said The Militant. ". . .But there is implicit in such a procedure a revolt against the AFL officialdom." ASHINGTON-Exposing the anti-labor mechanism of the New

Supreme Court Juggles

Words on Child Labor

Roosevelt's hand-picked Supreme Court on January

did another chore for the sweatshop interests and child labor exploiters. By a 5 to 4 decision, the august

court sustained an appeal of the Western Union

The decision was a masterpiece of legalistic hairsplitting intended to evade the child labor provisions

of the Wage-Hour Act by uncovering an "exception"

Under the Wage-Hour law, firms producing goods

for interstate shipment are prohibited from employing

under 16 as messengers.

This fight does not end with their release. These devoted working class fighters have been deprived of their civil rights. The viciously anti-labor Smith "Gag" Act remains a constant threat to labor and democratic rights.

Restore the civil rights of the 18! Repeal the Smith "Gag" Act! Defend labor's rights! Under these slogans the struggle must and will go forward.

Roosevelt Deceit

The official organ of the Railroad Brotherhood, Labor, focuses an editorial spotlight on the deception practiced by Roosevelt in the recent election. "Strangely enough," the editorial remarks, "the President did not have anything to say about this scheme to draft labor for private profit when he was facing the voters in the last campaign. He opened his battle for the presidency at a dinner arranged by the Teamsters' Union. On that occasion he might have said something like this:

'My friends, I assure you that if you will reelect me for a fourth term the first thing I will do will be to demand that Congress pass a law to draft American workers.' We all know he didn't say anything like that. So far as we can recall he never mentioned the labor draft during the campaign."

This cynical deceit is not peculiar to Roosevelt -although this master demagogue excels in the art of hoodwinking the people. It is characteristic of all capitalist politicians and parties foresworn to uphold a system of exploitation, tyranny and oppression. The political structure of capitalist "democracy" rests on the twin pillars of deceit and force. In pre-election periods the political agents of the ruling class mask their subservience to the predatory money interests and swear eternal fealty to the interests of the common man. After the returns are in and they take office, the mask is discarded -until the next election.

Roosevelt is an old hand at this routine. If all his broken promises were compiled in one book, it would make a formidable volume. According to capitalist standards, Roosevelt is a "smart" politician. A smart politician is one who promises the people one thing prior to the election, does exactly the opposite after-and gets away with it. Once in office the stage-play is finished. The President can defy the electors; for four years his seat is secure. He is independent of those who elected him. Capitalist law does not permit him to be recalled.

Lacking their own political party, the workers are denied any control over those elected to office. It would be impossible to perpetuate this farce were it not for the treacherous role of the "labor statesmen" who prevent the workers from organizing their own Independent Labor Party.

The War Criminals

During the last world war, the Allied rulers threatened dire punishment for the war criminals of the opposing imperialist camp. What finally happened? The Kaiser lived to a ripe old age in luxurious exile. With the benevolent aid of American bankers, the German capitalists and Junker generals survived to plunge the German masses into a second world imperialist slaughter.

London

The Supreme Court's Western Union decision has supplied additional fuel to the machinery of child labor exploitation which has been operating at high speed during the war. It has further undermined the structure of social legislation established by decades of labor struggle to protect children, the most defenseless section of the population, from the worst evils of capitalism.

When OPA officials hailed a small Philadelphia estaurant owner into Federal court for violating price ceilings and asked that he be jailed. Judge Kalodner blew up.

He charged that the OPA agents had previously rought before his court for similar violations the managers of several swank hotels and restaurants, including the Bellevue-Stratford, the Barclay and Henri's. But the OPA had not asked for jail sentences or severe penalties for these big price violators. This was favoritism, the judge pointed out, toward wealthy

Greetings To The 12

This week we greet with joy the emergence of the 12 Trotskyist leaders from Roosevelt's "democratic" prisons where they have been incarcerated for thirteen months.

These valiant working-class revolutionists committed no crime whatsoever against the interests of the people. They simply did their duty to the working class in its hour of greatest need. They told the truth about the exploitation, the tyranny, the hopelessness of life under capitalist class rule. They told the truth about the imperialist war. They urged the masses to rid themselves of the plutocratic leeches and build a socialist society which could give peace, security and plenty to all.

These were unpardonable crimes under a social system where the lie which serves the exploiters has been crowned King. That is why the Roosevelt administration railroaded the Trotskyists to prison under the infamous Smith "Gag" Act.

Our comrades never flinched in the fight against this vile conspiracy. All have dedicated their lives to the cause of the working class, to the struggle for a socialist world. They were prepared to pay the penalties meted out to those who dare oppose the ruling minority on behalf of the oppressed majority. They viewed their persecution not only as a blow directed against the entire labor movement but also as an opportunity to warn the workers against the plans of the capitalist war-makers, to teach the ideas of socialism, and to give an example of principled revolutionary struggle against capitalist reaction.

We are proud of the manner in which our comrades fulfilled their obligations to the working class. It is worthy of the finest traditions of the revolutionary socialist movement.

We commend the Civil Rights Defense Committee for the magnificent nation-wide fight it conducted for the freedom of the 18 and for the repeal of the vicious Smith "Gag" Act.

We hail the more than 4¹/₂ million members of over 500 labor organizations who rallied to the support of the 18 class-war prisoners in a splendid demonstration of class solidarity.

At the start of this war the Allied leaders proclaimed that "this time" all the fascist war criminals, including Hitler, Mussolini and Hirohito, would "pay in full." A special United Nations War Crimes Commission was established to draft a "war criminals" list and devise machinery for bringing them to justice.

But as the day of Allied military victory draws closer, the reluctance of the Allied rulers to deal harshly with the fascist war lords is being amply demonstrated. In Italy, for example, leading fascists are not merely protected from the masses by the Allies, but are retained in positions of power and privilege.

The real Allied attitude toward the fascist war criminals has been further revealed through the resignation of the head of the War Crimes Commission, Sir Cecil Hurst, who complained that its work was being "frustrated" by the British Foreign Office. The London Sunday Express discloses that Churchill's government objects to trying the fascist leaders "in the dock of a criminal court." It wants them "dealt with politically-as was Napoleon, who was never put on trial but merely exiled."

The Allied imperialists feel that an open criminal trial might prove "embarrassing," explains the Express. "... Those in the dock might endeavor to have prominent British statesmen brought to the witness box to give evidence for the defense. This evidence would take the form of past utterances in praise of the prisoners and, in some cases, the extolling of the virtues of Nazism and Fascism. Altogether, it would be an embarrassing business to have these skeletons trotted out in court."

The Allied rulers also fear that such a trial might lead to the demand that all the war criminals be placed in the prisoners' dock-the capitalist imperialists of both war camps whose greedy rivalry for world markets, colonies, spheres of influence has plunged the peoples of the earth into the bloodiest shambles of all history.

The fate of the war criminals is not being written in the secret conclaves of Allied commissions. It is limned in the flames of the international socialist revolution now rising in Europe. None will escape stern retribution.

As Leon Trotsky predicted in the 1940 "Manifesto of the Fourth International": "The butchers of the second imperialist war will not succeed in transforming Hitler into a scapegoat for their own sins. Before the judgment bar of the proletariat all the present rulers will answer. Hitler will do not more than occupy first place among the criminals in the dock."

That Revealing Leaflet **American Legion Withdrew**

The American Legion, veterans organization run by Big Business and the brass hats, has been conducting agitation for compulsory peacetime military conscription since 1919. Usually, the Legion's propaganda has been sugarcoated by assurances that such compulsory military training would be for "not over" a year, that it was intended merely to "build up" the health and character of American youth and to "strengthen" democracy.

Recently, the American Legion hastily withdrew its leaflet entitled "Answers to Questions Regarding Universal Military Training" because the author made centration or labor camps if they a slip-up which disclosed the real nature and intent of the program to establish a permanent system of milidown to such an extent that ers are miserably paid—80 francs tary regimentation. Despite its attempts at suppresa day-and the cost of living is sion, the Legion was unable to prevent a number of copies of the revealing leaflet from being circulated.

> There were two questions and answers in the leaflet which made it particularly "unsuitable" for public dissemination.

> "Question: Will those who have completed 12 months of training be obligated for further service? "Answer: Yes, after the period of training there will be a period of obligation. That period can be served in the regular army, or navy, the national guard or the reserve corps.

"Question: While serving the period of obligation, can the reservist be called to active duty?

"Answer: Yes, at the call of the Federal govern-"But none of the great indu ment."

In short, as it was pointed out in Labor, weekly organ of 15 railway unions, "young men who go through the compulsory training will be subject to the Germans and we have been military service for an indefinite number of years on duty here ever since. Now the thereafter. Suppose such young men, having returned Pierlot government wants to kick to industry, go on strike for better conditions? Why, us out and put us in the Army they would still be in the 'period of obligation' and so it would be the easiest thing in the world to summon them to the colors and thus break the strike.

> "Perhaps someone will say that can't happen here. Well it happened in France when a democratic regime still governed the country, back in 1937. Railroad workers struck and the government cracked down by calling them into the army, France, you see, had the kind of peacetime conscription now advocated for this country."
