AFL Interviews Secret Allied Conference At Yalta SWP Candidate Designs Plans To Dominate Europe In Los Angeles

LOS ANGELES, Feb. 8-"Building a labor party is the essential next step for the labor movement if it is to stem successfully the wave of reaction that threatens its very existence in the period ahead," Myra Tanner Weiss, Trotskyist candidate for Mayor of Los Angeles, today told the United AFL Interviewing Committee representing 500,000 AFL members in Los Angeles County.

Asked whether she would withher support to the labor-endorsed candidate for mayor if she is not date stated. "If the labor movement puts forth an independent ment puts forth an independent Socialist Views withdraw and support such candidates vigorously. But we definitely would not support a Democrat or Republican candidate. Both of those parties are employers' organizations.

"We consider it a matter of extreme urgency for the labor field with its own candidates hagan Douglas 'friends of labor' or jail' labor draft opposed by the entire labor movement.

"With the prospect of reconversion and unemployment before us, the bosses attempt to pit the returning veterans against or ganized labor, to set racial and national groups against each other to smash the labor movenent.

"I have studied the developnent of many fascist groups locally and nationally and have noted with alarm their growth and activity. Only the labor movement will fight these organizations. We cannot permit any complacency in this struggle. Labor must organize itself not only in the economic field, but in the nalitical field as well."

By C. Thomas

As the war in Europe approaches a climax, the campaign for additional instruments of labor repression is intensified. The Roosevelt administration is using all the pressure tactics at its command to jam a slave labor law through Congress before the military collapse of Germany. All the tricks of "psychological warfare" are being employed to whip up sentiment for a National Service Act and batter down the opposition. The brass hats are conducting an all-out drive to regiment labor under control of a military caste. They look upon the war as a heaven-sent opportunity to straitjacket the unions and are fearful lest "VE Day" arrives before they can succeed in fastening the American working class in the totalitarian fetters of forced labor.

Spearheaded by the brass hats, a number of administration ? spokesmen have appeared before closed hearings of the Senate head of the National Association of Manufacturers in a letter to Military Affairs Committee to urge the immediate enactment asked for a transfer to noncomthe N. Allied Leaders Fear European Revolution

So deep-going are the fears of the Allied spokesmen about the impending revolutionary developments in Europe that the capitalist press cannot completely refrain from expressing them. For example, a former Washington corre-

Conceal Reactionary Aims Behind Deceitful Promises

Roosevelt, Churchill, Stalin Scheme to Crush Popular Revolutions Against Capitalist Rule

By William F. Warde

Meeting in conspiratorial secrecy at Yalta on the Black Sea, Roosevelt, Churchill and Stalin further elaborated their plans outlined at Teheran to carve up Europe, reduce its segments to semi-colonial status, subjugate its peoples, and crush the popular revolutions against capitalist rule which are maturing throughout the war-torn continent.

Their latest deliberations, like their previous conclaves, were shrouded in secrecy because these leaders do not dare to divulge the real character of their predatory aims and oppressive schemes. The people will learn the true nature of the decisions at Yalta, as they learned about the Teheran agreements, only as they are revealed in the brutal actions of the Allies. Thus, the world found out about the agreement to have British troops occupy Greece and restore the monarchy, as part of the deal to divide Europe into spheres of influence, only after men, women and children were massacred in Athens.

The "Big Three" conspirators have issued a statement from Yalta. which consists of the same hollow generalities as the declarations of Cairo and Teheran. They reaffirmed the Atlantic Charter which Roosevelt himself recently characterized as nothing but "a pretty good thing to shoot for." Their pronouncement is further embellished with noble promises to "assist the peoples. . . to solve by democratic means their pressing political and economic problems. . . rebuilding of national economic life. . . relief of distressed peothe form of government under which they will live. . . self-government.'

How glaring is the contradiction between these deliberately deceitful phrases, these false promises and the actual deeds of the Allies. In Western Europe, against the manifest will of the people and without bothering even to consult them, the Anglo-American imperialists have set up dictatorial puppet regimes, as in Italy and Greece, composed of militarists, monarchists and ex-fascists together with the traitorous Stalinists and Social-Democrats. The masses starve, while the Allied armies loot the scant resources of the occupied countries. The scum of the ruling classes who collaborated with the Nazis are not only protected from the just wrath of the people, but kept in positions of authority and power In Eastern Europe, the Kremlin has followed a similar pattern. In Rumania, Bulgaria and Yugoslavia, Stalin has established regimes staffed by the most reactionary capitalist and landlord oppressors of the people and by his servile native agents. These are the hideous living realities which expose the utterly reactionary content concealed within the glittering phrases of the Yalta declarations. The Anglo-American imperialists aim, with Stalin's aid and connivance, to divide and exploit Europe for the benefit of Wall Street and the London bankers. They want to eliminate Europe as a rival (Continued on page 5)

Strikes, Mass Actions Topple Pierlot Rule

By Frank Lawrence

The Pierlot puppet government in Brussels was forced to hand down its resignation on Feb. 7 to the King's brother, Regent Prince Charles of Belgium, following a series of political crises touched off by mass demonstrations and strikes. In his two and a half hour speech of resignation before a silent and hostile Chamber of Deputies, Pierlot blamed the inability of his regime to cope with the dissatisfaction of the hungry people upon the failure of the Allies to deliver the food they had promised.

Charleroi area has opened a But it is clear from the events vigorous drive to maintain and preceding and precipitating Pierspread strikes," This means that lot's fall that the Belgian people the Trotskyists are again active hold him also responsible for their in the region and supporting the suffering. \$18,000 Party Expansion Fund

A Fitting Welcome to Our 18 Class-War Prisoners

By Rose Karsner, Campaign Director

The campaign for the \$18,000 Fund which the Socialist Workers Party is concluding on March 1st is only a means to an end-to enable the party to carry out its Program of Expansion and thereby take further important steps on the road to becoming a mass party. With this thought in mind, every member and sympathizer who contributed so generously to the Fund has done so in the deep conviction that their efforts represent the means with which to make this end a reality.

The people are seeking a way out of the jungle of wars and lies and poverty. They will soon discover that the Trotskyist party is the only party that has been telling the truth; the only one that points the sure road to a new world-a world of peace and plenty for all. They will find their way to our banner and we will become the mass party of the workers and exploited farmers. Of that we are certain.

FROM THE BRANCHES

Two weeks left in which to register 100% on the Scoreboard! Those branches which have not as yet completed their quotas expect to do so without delay. Every member will make a special effort to fulfill his pledge so we can end this campaign in true Trotskyist manner. Thoroughly, resolutely, wholeheartedly.

Upon completion of their quotas, every branch, member-atlarge or group is entitled to an original drawing of a Gray cartoon which has appeared in The Militant. The following have made their choice, and the drawings have been mailed to them.

Youngstown-"Beggars at the Gate" and "The Only Road." Youngstown has been the leading branch in this campaign, fulfilling its quota only a few weeks after it started. For this reason we awarded them both cartoons they asked for.

Mine Workers has already served Milwaukee-received its second choice, "The Octopus" as "The notice that it is going to press Only Road" had already been sent to Youngstown.

Pittsburgh-got "It Takes Guts to Run this Country," from the

January 13, 1945 issue of The Militant. Toledo-its second choice of "Roosevelt's Coolies" from the November 18, 1944 issue.

Dayton-asked for "Capitalism in War and Peace" which appeared in the center of The Labor Party pamphlet. Boston requested the same drawing but will have to make a second choice as Dayton hit 100% ahead of them

Allentown, Leona: "Enclosed you will find the final payment on our Expansion Fund quota. If at all possible we will send more, but what I'm anxious to know, does this entitle us to an original Gray cartoon?" Yes, it does.

Newark: "We have completed our quota and the branch is now thumbing the back issues of The Militant to make its choice of a cartoon for our headquarters."

Dayton: "Please tell Rose Karsner I am still in the running the fund campaign and that she can expect to hear from me shortly.

Chicago: Although this branch received a rather stiff quota, considering the local circumstances, they are confident that they will fulfill it. Comrade Radlow sends in a check for \$185 and says "more later."

Buffalo: "Working hard to fulfill our quota. Enclosed find a small check toward it." San Francisco, Ruth Haddon: "One of the regular renewals to The Militant enclosed herein was secured through the subscriber coming up to our headquarters, and at the same time contributing \$4 to the \$18,000 Fund Campaign!"

We know that many of the branches have had similar experiences, which indicates the kind of new readers we are getting. They are really sympathizers of the party and it won't be long Detroit: Millie Gordon sends a check of over \$200 to the nationa office. A good portion of it is for the regular monthly Sustaining Fund and part of it is for the Expansion Fund. The gratifying fusal to grant increases to the aspect of the \$18,000 Party Expansion Fund Campaign is that with Canadian miners, organized in very few exceptions, the branches have kept up to date with their Sustaining Fund pledges. This is extremely important in our special fund campaigns, as the party functions on a planned budget system. A drop in the regular monthly Sustaining Fund dislocates the national office budget and therefore negates the purpose of the special fund.

GENARO GOMEZ

By Oscar Fisher

MEXICO CITY--On December 13, 1944, Comrade Genaro Gomez died in Mexico City after a long and serious illness. In him, the workers' movement of Mexico has lost one of its most devoted and loyal champions, and the Trotskyist movement one of its firmest friends. Genaro Gomez embodied a

chapter of the history of the Mexican trade union movement. In his youth he participated actively, as a bakery worker, in the beginnings of the Mexican workers' movement: and in 1916. through his initiative and leadership, the Bakery Workers Union (Syndicate de Obrero Panaderos)

was formed — one of the best led and most revolutionary trade unionist; he was, even more than unions in Mexico.

When in 1934 the CTM (Confederacion de Trabajadores Mex-icanos, or Federation of Mexican icanos. or Federation of Mexican Workers), under the leadership his help and the help of the Bakof the lawyer Lombardo Toledano, moved out to establish its ery Workers Union. But this union. and Genaro Gomez. resisting the Toledanist totalitarianism, decided to maintain intact the union's independence. The CTM, however, would not accept the democratic decision of the bakery workers. With the help

But the transformation of the Soviet government into the Stalof a gang of pistoleros (gunmen) inist dictatorship cut a sharp they organized an attack on the line between Genaro Gomez and union headquarters and forcibly the Stalinist bureaucracy. His took possession. Obviously, they sympathies belonged to the Left were able to do this only because Opposition-to Trotskyism. And of their official or semi-official when finally Leon Trotsky found character. The fighters for the his last asylum in Mexico, it was union's autonomy, with Genaro Gomez at their head, were driven again the Casa del Pueblo which - among other organizations out by violence. But in spite of the material loot — the building came forward to offer him their services and to defend, against itself, its equipment, the union the Stalinists and the CTM, his treasury - the CTM succeeded only in splitting the union. right of asylum.

How It All Adds Up

THREE

Few Gains In Steel Wage 'Victory' Textile Barons

By Ed Conti

YOUNGSTOWN, Ohio, Jan. 25 -Philip Murray made a public statement last week that the steel workers' wage increase is still being considered by Roosevelt. The workers in the plants no longer take such statements seriously. The 17c. wage increase is not talked about.

When the War Labor Board directive on the steel case was handed down Murray shouted "Great Victory!" His field representatives took up the chant. They were able to do this the first few days because union members were not yet sure exactly what they got. It is evident to all now that the steelworkers won no real benefits. Murray's field representatives and international stooges are quiet today.

A good example of a "great victory" which turned out worthless is Section 10 of the WLB directive, which provides for a commission to standardize wages and have everything ready for this commission which would grant everywhere a 5c department wage adjustment, but not more inasmuch as the commission had no authority to grant a higher increase.

ALL RATES FROZEN

Thereupon the grievancemen ment inequality cases before the management. The company flatly refused to hear the cases. Only that under Section 10 all rates were frozen as of November 25, 1944. No wage inequality cases can be processed any longer by grievance committees.

cases had been won, and this despite the Little Steel formula. Now even the most glaring cases are frozen, too. The WLB directive accomplishes this by setting up another complex procedure. within a plant. Thus the lower The basic steel companies and the union are to meet and set up some magic formula to measure all wages. If no agreement is reached the matter must next be

referred back to a WLB commission which is studying the prob- now see more clearly the results lem. The WLB will then set up of the no-strike policy. The logithe standard formula for wage cal conclusion of this policy is to have all union demands sold out evaluations.

Judging by the WLB's past per- to government agencies. Workers formances, it is a certainty that in the plants are talking about these standards will be the bare the necessity to scrap the nominimums now paid in the steel strike policy and have a real industry. Once these standards showdown. This is the real step are fixed, another commission in a real fight for equalization of will be set up after the model of rates in the steel industry, on the first panel. It will consist of an industry-wide basis.

Who Was It That Won the Elections?

A cartoon in CIO News, Jan. 29, shows a worker wryly tasting a pot of stew prepared by the "New Congress" chef. Is there a worker who isn't gagging at what Congress is now ramming down the throats of the American peo-

ple? However, what the cartoon does not show is the Chef-in-Chief, Roosevelt—the master cook in the White House and his congressional assistantswhom the CIO-PAC boasted about and elected. To do what? To prepare the vilest of stews for the workers and the richest of banquets for Big Business.

members from labor, management and the "impartial public." Its job will be to evaluate each of the thousands of rates within a plants. At first the international steel plant. Every rate may be representatives painted a rosy ance with the "magic formula." picture. Everyone was told to Once the WLB commission has process the grievances through fixed the rates, they will be writthe regular grievance machinery ten into the existing contracts and cannot be changed until the contracts are re-opened.

ANOTHER SELLOUT All conscious stewards and grievancemen realize that it will be a good year or more before the commission ever gets' set to re-

view the rates. Meanwhile grievancemen have the unpleasant proceeded to take a few depart-task of keeping departments in line. This is causing many grievancemen to see Mr. Murray as a barrier to further gains and not then did the grievancemen learn as the "great invincible leader." The grievanceman's right to negotiate department wage adjustments has been forfeited to a government agency. When rates are set it is inevitable that those tory," a few obvious inequality won higher rates through a consistent fight will have their rates brought down to the average. Moreover rates will not be com-

What Forced Labor Means For the Negro People

The February issue of The Crisis, published by the National Association for the Advancement of Colored People, vigorously condemns Roosevelt's forced labor proposals.

"Negroes cannot support this type of legislation. It means not only forced labor for all Americans, but it means with certainty discrimination against Negroes. So-called 'work-or-fight' laws in the first World war operated viciously against the race. Local and state administrators interpreted the law as they saw fit with respect to colored people, and will do so again.

"Under such a law Negroes could be placed in certain nes of work and barred from others. For example, the

Laud OPA Heads

The Roosevelt administration and textile manufacturers conspiracy to block textile wage increases and slip over price and profits boosts was further exposed last week with the publication of the full text of the secret "confidential report" sent out to the textile firms by William P. Jacobs, Executive Director of the Print Cloth Group of Cotton Manufacturers.

A portion of Jacobs' revealing document, reported in the Feb- and hope for friendly, co-operative relief, arm in arm with our ruary 3 Militant, laid bare the difriends in OPA." It pays to have rect dealings between the textile friends! profiteers and Roosevelt's lead-He concludes: "I have high es-

It's a safe bet manufacturers to push up price that the OPA will not prove a ceilings. Jacobs writes: "We have "revolutionary hotbed" and that succeeded in inducing OPA to whatever deal is cooked up by hold off final textile ceilings unthe OPA officials will be "fair" til the wage matter is determin--that is, will put more dough ed." The "inducement" was effected at a conference between into the bottomless pockets of the textile manufacturers. Jacobs and Bowles. **BOWLES INTERVIEW**

"As suggested by Judge Vin-son, I conferred with Mr. Bowles. It was a fine, uninterrupted conference of nearly two hours. I found that he speaks the same language that we do." Since the only language the textile bosses speak is profits, that is precisely what Bowles spoke about.

"He said OPA only needs profit information from industry to Marx wrote in the Communist protect the manufacturer from Manifesto that 'the spectre of hardships. He is opposed to the Communism is haunting Europe.' discouragements of quantity production and, of course, anxious skyism which haunts the capito encourage increased war production. Flint Unionists Urge Creation Of Labor Party

nazism!

By Jeff Thorne

FLINT, Mich., Feb. 4-Such "Let Them Eat Cake" a wave of disillusionment with Roosevelt is sweeping the auto workers here that even some of his former staunchest supporters and apologists are changing their tune about the "Friend of Labor" in the White House.

A striking example of this growing awareness of the antilabor role of Roosevelt is contained in the January 31 issue of Headlight, official organ of the powerful Buick Local 599, CIO United Automobile Workers. In an editorial entitled, "Is

Labor Taking A Licking?", the editor, Ed Geiger, and his staff, list a number of the reactionary acts of Roosevelt since the elections and conclude with a call for a "true labor party under the control of labor."

This is a significant about-face for Geiger and other local UAW leaders who supported the reelection of Roosevelt, and reflects the sentiments of a large section of the ranks. Geiger only three months ago played a prominent part in the Flint CIO campaign for Roosevelt and opposed CIO endorsement of the Michigan Commonwealth Federation's labor candidate for the legislature.

"WAKE UP, LABOR!"

The editorial cites various examples of Roosevelt's anti-labor policies, including his turning over of the State Department to the direct agents of Wall Street, and his campaign for forced labor. "If labor is not getting a black eye out of their battle for Mr. Roosevelt, then things must change darn soon!' The editorial states.

It concludes: "It is time for labor to wake up, and fight their own battles and not depend on either the democratic or republican parties to fight for them. A

true labor party under the control of labor, and not under the control of minority groups is what we need. Wake up, labor, and fight for your rights and the rights of the returning veterans.'

actions will follow from this editorial statement, how seriously the movement for a labor party will be pushed, and what program will be advocated for such a party. What is of great importance, however, is the indication this editorial gives of the shift of sentiment among the auto militants from support of Roosevelt and capitalist politics toward death.

class-conscious independent labor Although indignant outcries aTHE MILITANT

Masses Demonstrate Against Pierlot

The resignation of Pierlot was forced by mass demonstrations like this one held in Brussels three months ago on Nov. 19, 1944. Thousands of men and women marched through the streets carrying banners which read "For the Punishment of Trai tors!" After police and British troops acting under orders of the Allied commanders fired upon the unarmed demonstrators, the cry changed to "Down With Assassin Pierlot!"

Unions Congress, who headed the Congress delegation sent to for nothing that he was singled of the Pierlot regime and the Greece after nation-wide labor protests against the shooting of out for knighthood by His Ma- of the Pieriot regime and the Greek workers, returned last week with a report that completely jesty. Pierlot Cabinet Falls As Strikes In Belgium Spread (Continued from page 1)

material benefits in their wake One thing, however, they did bring, and that was your freedom from the Nazis."

Here is what this "freedom' has meant to the Belgian work ers. Of the 100.000 Fascist col-

laborators arrested, only 2.000 have received sentences, and 10 their properties. Dockworkers on strike have been driven from the wharves and replaced with Allied soldiers who were forced to serve

as strikebreakers. Electric lights are cut off from dawn to dusk to save power. "It is the fortunate household that can get gas for half an hour out of each 24 hours," says the PM

correspondent. Few houses are heated. "It is common in the streets of Brussels to see both adults and children chasing coal trucks with pails."

Factories are closed and there is mass unemployment. There is little production of consumers goods. Although food supplies are nearly exhausted, the black market flourishes. "Some butchers put up 'no meat' signs in their shop windows and cut off their customers who have ration coupons, only to sell their regular quota of beaf, mutton and lamb on the black market."

PIERLOT'S REGIME

The Pierlot government was solely concerned with protecting the bankers and industrialists who thrived under the Nazi occupation. At the time of the German invasion, Pierlot and his associates were packed up and sent to London to represent the interests of the Belgian capitalist class in the Allied camp. Before leaving, they set up a five- But we could all see he was. man committee of bankers and big business men "to counsel the nation and maintain production' under the Nazis. When the Allied armies in turn occupied Belgium. put back into office against the will of the people.

His government would not have lasted a week without the military backing of the Allies and the political support of the Stalinist and Socialist parties, whose representatives sat in his Cabinet. Pierlot and the Allies at once tried to disarm the fighters of the resistance movement, to dishand the workers' militias and

factory committees, and to provide protection for the hated capitalist collaborationists. The grow-

By V. Grey

"I dont care what you say," Scissorbill Sam (the bosses' man) was very positive. "You can't take all the factories away from the owners. The factories BELONG to the owners. It would't be RIGHT for us to take them."

"Sure they belong to the owners," Slim commented, as he reached into his locker for his gloves. "So do you. But that's no executed. Almost all have kept reason you ALWAYS have to be a slave."

"If I'm a slave you're a slave, too. You do the same work I do, and you get the same pay."

To this indisputable logic Slim replied, "Yep. We're all slaves. Wage slaves. Only difference between you and the rest of us is that you LIKE it."

"Whaddaya mean-we're slaves?" Breezy said, as he looked up from a list of teams for the big hockey pool. "I ain't no slave."

"Anyway we're not slaves until they pass that slave labor law," Shorty said, with his mouth full of a baloney sandwich.

"What I was getting at," Slim began again, "is that this plant and all the machinery in it don't do the capitalists a bit of good unless they have us to work it for them. We have to be their slaves when you stop to think of it. And the only way we can stop being their slaves, and work for ourselves, is to kick them out."

"Listen!" Scissorbill Sam said belligerently, "Don't you know that widows and orphans own stock in this company? What do you want to do? Kick them out in the streets?"

"Now, wait a minute, Slim," Pop Philliber set his thermos jug down real quick. "Don't you fly off the handle at Sam. Anyway that's a real good argument he's got there."

The fellows looked at Scissorbill Sam. He was pleased. But he looked a little bit self-conscious, because everybody could see that Pop was getting wound up with an argument, too.

"Slim here says that if you take the factories away from the rich, you take their slaves away at the same time. But as Scissorbill points out, you also take the slave away from some poor widow that never done you any harm-," Pop lit his pipe while he let the moral sink in. 🖤

"Now just look at that widow. All her money is wrapped up in that slave. Maybe just ten or fifteen thousand dollars in stock. It's all she has in the world. Now just pretend that all the rest of us here are slaves belonging to Eugene Grace, or some other rich and fancy stockbroker. But poor Scissorbill there, he's a slave of this nice old widow woman.'

Scissorbill tried to make out he wasn't paying much attention.

SCISSORBILL AND HIS LADY SLAVEOWNER

"You see," continued Pop as he squinted into his thermos bottle at nothing in particular, "this here is what you call a problem in Pierlot was brought along and ethics. It might be all right for all the rest of us to kick our owners out, on account of their being mean and no-account crooks that get real fat off'n us. But you take the sweet old lady slaveowner that lives off Scissorbill. Why he just keeps her in crinkly dresses, a nice little cottage with a board walk and roses, maybe a buck in the collection plate at church now and then-"

> "Maybe she's got a couple of pet cats and dogs, too," Shorty added. "Mebbe.

"I ain't supportin' no pet cats and dogs!" Scissorbill shouted. He was getting a little mad.

"Well if you're gonna be a slave for a nice old widow you got to work for her pets, too," Pop said with an air of finality. "I guess you just got to take the bad with the good, that's all."

"Anyhow," the old boy went on, "if the majority of the boys ing indignation of the masses | figure this poor woman hadn't ought to lose her slave, just on account of a little Socialism or something, well you can let Scissorbill go right on being her slave. That's fair enough, ain't it, Sam?"

What better emissary could prop up the most reactionary English imperialism have found capitalist regimes.

Now Achille van Acker, Social Democrat and Minister of Labor in the fallen Pierlot cabinet, has pasted together a new four-party ministerial combination, including the Catholic Conservative Party and the Stalinists. But Van FOURTH INTERNATIONAL Acker's program and methods are not basically different from those which led to the crumbling of Pierlot's regime and will be no more capable of coping with the problems afflicting Belgium.

Indeed, Pierlot himself pronounced the sentence of doom on his successor. In his speech of resignation, after recounting the insoluble difficulties that brought down his government he predicted: "It will be the same thing for the Government of tomorrow."

But the bosses' man walked out in a huff, while everybody laughed.

"Now that I think of it," Shorty said, "My old lady was a widow. She never had time for rose gardens and stuff like that, though. She worked ten and twelve hours a day at the laundry to keep us kids in school.'

"Of course if you was to get technical, now," Pop said with a little sigh, "you might say there's quite a few poor widows in this country that don't have any ten or fifteen thousand dollars worth of stock in this company."

Slim clenched his teeth. And without opening them very much he said, "For every widow who gets a cut on the profits, they mail the lousey five hundred dollar insurance to twenty new widows right in this town. And they're making thousands and thousands of widows in this war that they'll kick out on the streets when it's all over. It's THEM that's robbing widows and orphans. And it's US that's going to put a stop to it."

Jackson Meeting In Buffalo

BUFFALO, Feb. 11--Braving | they would adopt militant mass unfavorable weather and icy action tactics, could, with the streets. an audience of fifty people assembled here this afternoon in the Dining Car Porters hall to hear a lecture by Charles Jackson, noted writer of the Column "The Negro Struggle" which appears weekly in The Militant

Speaking on the "Struggle for Negro Equality," Comrade Jackson presented a well-rounded explanation of the origin of racial prejudice and its role in capitalist instilled race prejudices. society today. He demonstrated that Jim Crow conditions existing in every walk of life, civilian and military, is the application by the bosses in the United States of the old device used by all ruling classes to maintain their positions of privilege-the device of "divide and rule." The part the government plays as an agent of the capitalists, the role of the church, the press, and the system of education in maintaining discrimination was clearly revealed. The nature of the present war was explained and the speaker showed that the struggle of the imperialist powers for re-division of the world could only result in increased exploitation and discrimination.

ROOSEVELT'S RECORD

The record of Roosevelt and the Democratic Party on the Negro question was next examined. Jackson thoroughly exposed the President's hypocritical claims that he is the Negro's friend and showed how Roosevelt upholds Jim Crow in the armed forces and in industry. He pointed out that workers everywhere, colored and white, were becoming increasingly uneasy over the many open reactionary moves of the President since he started his fourth term, and are beginning to wonder who won the elections.

In developing the need for an Independent Labor Party Jackson castigated the "Uncle Toms" | sold, particularly the Labor Party parties. "The Labor Party," asserted Jackson, "based on the

trade unions and progressive oral activity, protect labor's interdiscrimination.

"The Negro organizations, if | comed by all.

Allied Rulers In Secret Conference At Yalta **Design Plans For Joint Domination Of Europe**

in their drive to master and plunder the whole world. These designs are most clearly

indicated in their expressed plans for Germany. Germany, whose capitalist rulers have twice in a quarter century challenged the Anglo-American imperialists, is to be ruthlessly dismembered and subjugated. The country is to be occupied indefinitely by American, English, Soviet and possibly French forces, and divided up into separate spheres of military and economic control.

Jackson cited the record of the CIO to demonstrate that in this All industry for "military proprocess the white worker will be duction"-that is, all basic indusgradually stripped of his bosstries-are to be "eliminated or controlled." "Reparation in kind" - unrestricted confiscation of FIGHT FOR SOCIALISM goods, machinery, raw materials

"In the final analysis," Jackson concluded, "The struggle for Negro equality is the struggle for all means of livelihood, the im-Socialism. Only Socialism based on full equality, on the community of all people, will end forever the cruel injustice of racial dis-

support of progressive trade un-

Diary Of A Steel Worker

By Theodore Kovalesky

We called him "Shorty," but his real name was Haifa. He was swarthy little man with great soft brown eyes like a spaniel, and he had a childishly friendly manner that was sort of like a little dog, too.

Shorty was a long way from home, here in the steel mill. Some years ago he had come from his sunny homeland on the other side of the earth down below the equator and had ended his journey in a run-down rooming house that looked up, as it seemed, fearfully at the open hearth stacks across the road.

But always before him he kept the hope of soon being able to send for his wife and children. We used to kid him about it, not unkindly, and I think he used to enjoy our banter.

I remember one day the furnace gang was sitting down after the cleanup, when Shorty walked in, smiling as usual.

"Here comes the money man," Jimmy said.

"Aw, what you mean?" Shorty beamed.

"You been working so many doubles I bet you got a whole sock full of money under your mattress." "You crazy. I got no money."

"Shorty's saving up to send for his wife and ten kids," Pete Rossi said. Pete had come over from the disintegrator and was sitting with

"What you mean?" Shorty

grinned. "I only got two kids. I got two sons, big boys. Bigger than am, I betcha. I bring them over here, they beat up your sons." "You better watchout," Jimmy warned him. "Maybe they'll beat

up their old man." "Aw, no. They take care of the old man, work, bring home

tsa money."

"Bring home lotsa money!" Reuben said. "Where they going to work-blast furnace?"

"Aw, no. No money here. They get good job some place else."

The End of the Road for Shorty

Jimmy winked at me and turned to Shorty. "I know," he said, 'Shorty don't want to bring his wife here at all. He don't want her to find out about all the other women he's got here."

"Is that right, Shorty?" I asked innocently.

"Aw, no. He's crazy. I got a wife. I no want other women." "He's got ten wives," Pete said. "Over in Arabia he's got ten

wives. You can have as many wives as you want in Arabia.' Reuben said, "Maybe I ought to go to Arabia. Want to come,

limmy, and have ten wives like Shorty?" "I got one wife," Shorty told us emphatically. "I no got ten wives. Poor man only got one wife anywhere. Pretty soon now I

I could feel the loneliness of the friendly little man, and I hoped he could send for his wife very soon. "When do you think you'll be

Shorty coughed. He caught his breath and beamed again. "Oh,

FIVE

THE MILITANT

"What's to Become of Me?" By Bill Horton and Louise Jordan

When I've toiled and slaved in the bosses' hire, Working for victory, making the tools for a bloody war Supposed to make ALL free. When the fray is done And the last big gun is silenced on land and sea And the "victors" dig in to stolen gains, Then, what's to become of me?

Of what use, then, these toil-worn hands That have worked many hours to feed A family, when there's no demand That they serve their master's need?

What's to become of our fighting sons Who have answered the war drum's beat? Will they return to a victory won Or encounter ignoble defeat?

From the hearts of the millions who think Like me. . . Who know the power of Unity. . . Who've glimpsed the splendour Of worlds to be, The answer comes.

Together, together down Freedom Road A will of united steel We'll pit the Right 'gainst the Monster's might For the Freedom that's lasting and real.

That Freedom, which knows the debt it owes To the men who gave it birth, Whose broad wings span over all the land To the utmost ends of the earth.

was drawing his last pay before leaving for a state-subsidized. "Whereas, certain CIO members, some of them connected tuberculosis sanitarium.

As we walked outside I spoke to him, wanting to say something kind, something helpful, but not knowing exactly how. "I heard about your tough luck, Shorty," I said. He looked up. "Yeah. I got to go away."

"I know, Shorty, but . . . look: don't lose heart. You'll be working again, and you'll send for your wife and kids."

"Oh . . . sure." He tried to smile. "Pretty soon now." And he stumbled away through the snow toward the gate.

FEBRUARY 16, 1935

PITTSBURGH-As 78 locals of the Amalgamated Association of Iron, Steel and Tin Workers, AFL, faced expulsion, The Militant called for united action by progressive unionists to defend their rights. Expulsion orders had been issued after delegates of the 78 locals met on Feb. 3 in a special conference to call for organization of the unorganized steel workers and for a program of action to wrest wage increases from the steel barons.

"There is no doubt," said The Militant, "that the conference . . . expressed the dissatisfaction of the workers with the Tighe machine." The conference had drawn up "a detailed program of action (calling for) mass meetings, publicity, unemployed relief committees, ladies' auxiliaries, and a supporting committee of liberal and professional elements."

The Militant also pointed out that the confidence in the AFL bureaucracy expressed by the conference hampered the work of the militants, and "the job of building a real, national progressive movement in steel has just begun."

CRAMENTO-In the "Criminal Syndicalism" frame-up trial of 18 Agricultural and Cannery Workers Union leaders, the State of California produced its second stool-pigeon in M. Harris, agent of the Associated Farmers, the Industrial Association of San Francisco, and the State Criminal Identification Board. He attemped to show that the defendants were aiming, not to organize the agricultural workers, but to "overthrow the government." Harris testified that he had been planted in the Communist Party and had managed to become section organizer with access to party records.

Conducting its own vicious slander campaign against defendant Norman Mini, who had resigned from the Communist Party and joined the Trotskyists, the Stalinists abetted the red-baiting persecution. Vigorous protests against the treacherous conduct of the Stalinists were made by some of the other defendants and by the Non-Partisan Labor Defense Committee

WASHINGTON-As the Senate Appropriations Committee weighed a pending Work Relief Bill, The Militant pointed out the real meaning of this sop to the workers. The bill provided for only part-time employment at "prevailing wage rates." Under these provisions workers would be forced to "support" entire families on an average of \$50 a month, while living costs were soaring under Roosevelt's National Recovery Act. The NRA's avowed purpose was to increase retail prices for the benefit of business.

- 2. Trade union wages for all workers drafted into the army.
- 3. Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on

claims that the recent developments "lead to one inevitable conclusion." This is it. "PAC will have nothing to do with the creation or fostering of a third party on the national scene.

During the recent campaign, we demonstrated that we are not encouraging such an idea. . . Instead we tried to liberalize both (the parties of Big Business). That we shall continue to do.'

This is an open declaration that the labor bureaucrats of the CIO remain the sworn enemies of genuine independent labor political action. But the union militants who have drawn a balance sheet of the past events understand that without an independent labor party the workers cannot stem the tide of reaction. They must demand a repudiation of Hillman's bankrupt policies and explain the urgent necessity for the building of a labor party. They must put forward this program day in and day out, in union meetings, in the shops, in the PAC.

Further developments are certain to convince ever greater numbers of their fellow-workers of the indispensable need for their own party. Once the ranks are convinced of this truth, the CIO leaders will no more be able to successfully obstruct the creation of the labor party than the AFL bureaucrats were able to halt the formation of the CIO industrial union movement.

World Labor Parley

While Roosevelt, Churchill and Stalin were meeting in Yalta, the labor leaders of their countries were staging a "World Trade Union Conference" in London. The London conference was organized by the heads of the trade unions of Great Britain, the Soviet Union and the CIO.

These union leaders did not bother, before they attended the conference, to find out what views their members held on the vital problems discussed, or even to notify them what questions, were to be on the agenda. Ever since the war began they have been telling the workers that they must sweat and shed their blood to defend democracy. Yet they do not permit their rank and file to have any say in the decisions they make or in the policies to which they commit their organizations. These bureaucrats show that they have no more regard for democratic rights than the masters they serve.

The conference delegates were unanimous, for example, 'in advocating a "harsh peace" for Germany. Fresh from whitewashing Churchill's crimes in Greece, Sir Walter Citrine, General Secretary of the British Trades Union Congress, presented a "nine-point program on how to deal with Germany." His approach, observed the N. Y. Times, "seemed to reflect the views of high personages in the British Government now conferring in the Black Sea area."

In fact, the decisions made at London actually anticipated by several days the identical views set forth in the Yalta declaration. That is how the labor lieutenants of the "Big Three" fulfilled their assignments of giving a labor cover to the Allied plans to enslave the German working class.

These labor leaders are following the same

How to Get to Congress --**According to An Authority**

In a moment of boastful confession, Ex-Congressnan Calvin D. Johnson of Illinois recently described the kind of legislators the capitalist political parties send to Congress.

Mr. Johnson was relieved of his seat in the House during the last election. But he's not sore. He's been set up handsomely as a representative in Washington . for a dozen leading manufacturers to engineer profitable deals with the government. While he no longer quency and receive more space in it, showing that they could resist holds a Congressional post, he admits his duties have not materially altered.

Ar.

"The original idea was to get 25,000 people to put up \$1 each to send me back to Washington," he related. "But I vetoed that. I didn't think it looked right." Mr. Johnson was anxious to do what "looked right," "so now I am representing these businessmen, doing for them about what I used to do when I was a Congressman." That is, helping the profiteers sop fellows in the shop where I work. up government gravy.

The Congressman-without-portfolio also expatiated on the fine art of becoming a capitalist congressman. Before getting into Congress he had been a building contractor. He tells how he stole steel railroad tracks once for a war plant he was building in Granite City, Ill. "I trucked out those rails in the dead of night and by the time the WPB caught up with me, I had most of 'em spiked down. The government man was sore. He said I was in danger of going to jail. I said I had to have 'em to get this war plant going. I said. anyway, that people who stole bread went to jail, but people who stole railroads went to Congress."

He was right, and he did. The corporations couldn't niss up on a slick trick like Johnson. He's the kind of fellow they know will look after their interests. And his type is always within spitting distance on the floor of Congress.

Company - Store Prices Boosted by OPA Order

Roosevelt's Office of Price Administration in Washngton has given the mine operators a further chance o milk millions of dollars from the coal miners.

It reversed the findings-kept secret for more than year-of its regional office in Cleveland and reclassified from Price Group 3 to Group 1 the company stores operated by two of the richest coal corporations, Koppers Company and Island Creek.

These company stores, which have rooked the miners endlessly, are now permitted to charge the highest prices and maintain the largest profit margin pernitted under OPA regulations.

Most of the coal-company stores, where the miners re compelled to purchase their necessities, long ago instituted the change illegally. Now they are being 'forgiven" these past offenses and permitted to coninue them "legally."

As the February 1 United Mine Workers Journal pointed out: "It means higher prices at a time when coal company earnings are the largest of any period in the last 25 years, all at the expense of the coal miners and their families who are experiencing difficulty, after taxes and bond purchases, in making both ends meet, and who are forced to depend for

CIO-PAC Policy

One of the principal questions in the minds of the organized workers is the future of the CIO Political Action Committee. What do the ClO leaders propose to do with the PAC in the light of events since the elections?

The PAC leaders claimed that the labor movement had won a "great .victory" by re-electing Roosevelt and a "progressive Congress."' They boasted that the PAC's policy had ensured enormous benefits to labor and would fend off the assaults of labor's enemies.

But in the forefront of the intensified anti-labor offensive launched since the elections are to be found the very candidates returned to office by means of PAC support. Heading the list is "labor's friend in the White House."

Roosevelt's first act was to reinforce the wagefreeze through the WLB decision in the steel wage case. He followed through by appointing direct representatives of Wall Street to the State Department and other leading government agencies. He capped this by his drive to institute forced labor for private profit and impose military regimentation upon the workers.

Taking its cue from Roosevelt, this Congress controlled by a Democratic majority has hoisted the black flag of reaction. As its first act, it demonstratively set up a permanent Dies witch-hunt committee. The House, under the White House whip, has already speeded through the May-Bailey slave labor bill. Numerous other anti-labor measures are being cooked up in the congressional committees.

In the face of these facts, Sidney Hillman, PAC chairman, has published in a recent issue of This Week an article which shows that the PAC leaders are determined to continue along the road which has already led the labor movement into its present blind alley.

Despite the patent bankruptcy of the PAC's policies of subservience to Roosevelt and of captivity to the capitalist political parties, and in defiance of the workers' growing desire for genuine independent labor, political action, Hillman pro-

treacherous policy in the field of foreign affairs as they do on domestic issues involving the working class. They work to impose the program of the capitalist ruling class upon the labor movement without consulting the workers or caring about their welfare. They readily respond when their masters demand a no-strike pledge at home or the savage treatment of workers abroad, but they remain deaf to the voices of their own rank and file.

U.S. Constitution

The spokesmen for the capitalist class portray the U.S. Constitution as a sacred document which binds the governors as well as the governed and which can never be violated. They are especially outraged whenever the slightest move is made to limit capitalist property rights. These, they declaim, are guaranteed by the Constitution. The slaveowners used to talk in the same way about their inalienable right to hold slaves, a right which was also originally guaranteed by the Constitution,

But chattel slavery was abolished and the 13th Amendment was adopted at the end of the Civil War which specifically stated that "neither slavery nor involuntary servitude. ... shall exist within the United States." Despite this clear prohibition, the President has demanded, and the House has already passed, a forced labor bill which would impose involuntary servitude for private profit upon the American working class and which, as the NAACP states, would mean a return to virtual slavery for the Negro people.

Moreover, the first article of the Bill of Rights declares in unmistakable terms: "Congress shall make no law. . . abridging the freedom of speech or of the press." This did not prevent Congress from passing and Roosevelt from signing and applying the Smith "Gag" Act, which, by making the mere expression of opinion a crime, obviously nullifies the rights of free speech. Under this vicious law the administration railroaded 18 Trotskyist leaders to prison while the Supreme Court which is also sworn to uphold the Constitution simply refused to consider the convictions or to pass upon the legality of the statute.

Isn't it clear from these two instances that the capitalist rulers demand obedience to the Constitution only where it suits their own interests? And whenever they find it expedient to do so, they do not hesitate to set aside the specific provisions of their sacrosanct Constitution and to treat it like a worthless scrap of paper.

to the food bills of coal-mining families by this one act of the OPA-the agency which is supposed to 'hold the line' on the cost of living.'

Now just watch the howl that goes up from the rovernment agencies and coal operators as the miners lemand a raise in pay when the contract is up for negotiation!

The very first whiff of war "surpluses" honey has prought the scavengers swarming. Last week the Senate War Investigating Committee was beginning to uncover some illuminating facts about the war properties "disposal" racket, in hearings on the activities of Surplus Liquidators, Inc., a private company established with the aid and blessing of the government's Defense Plants' Corporation.

Surplus Liquidators received a contract for the uction of \$6,000,000 worth of "surpluses" by using references to Bernard Baruch and Herbert Bayard Swope, two of Roosevelt's closest Wall Street advisors. Part of the surpluses, it was charged, were disposed of in private deals. Some auctioned goods were later resold to other government agencies at phenomenal profits.

The most startling disclosure was that while certain items, particularly medical supplies, were being sold as surplus, the factories producing these goods were continuing to turn them out 24 hours a day. The production of "surplus" commodities-despite alleged abor "shortages" - has been a bonanza to the profiteering war contractors.

Representative Arthur L. Miller, Nebraska physician, testified before the Senate committee that there are vast stocks of declared syrpluses while the factories that made them "are still working 24 hours a day turning out the same material for the military." The government has for sale, he stated, 531,000 test tubes, 5,400,000 stopper corks, 470,000 medicine bottles and 3,000 five-gallon drums of soap, etc.

"I might add that even while one arm of the government is trying to get rid of 31,000,000 sterilized surgical dressings, another arm is trying to buy 47,000,000 new dressings. The government now has for sale 12,272 bottles of adrenalin. That is enough for 2,000,000 doses of a drug that is very seldom used. It has 29,000 bottles of 1000 tablets each of sulfanilamide, which the public has found very hard to get."

One of the surplus items he mentioned was 34,498,-000 cathartic pills, enough to ruin three times over the entire personnel of the armed forces. "What gets me is that one drug company has produced an 18month supply of its particular pill, yet it is being urged to work night and day producing more."
