Documents Show British Bribe Greek Royalists

In his column of March 22, Drew Pearson published the sensational revelation that a British Intelligence Officer wearing an American uniform had given bribes to Greek leaders of Royalist and right-wing organizations who served Churchill in the massacre of Greek workers.

Greeks to N. Africa

One of the charges hurled

against ELAS by Churchill was that they "held hostages"

during their struggles against

the British-supported reaction-

ary forces. Now the other

side of the picture — the Brit-

ish seizure of ELAS hostages

- has been revealed by Over-

seas News Agency.

concentration camps.

"Governor Lehman's UNRRA is British Deport 15,000 doing its best to hush it up, but a very strange thing has happened in Greece," Pearson wrote. "A British UNRRA worker was killed, and in his possession were found receipts for money paid by the British to Greek factions, to encourage them to fight against each other. .

"Here are the so far suppressed facts as to what happened. The UNRRA worker who was killed was L. F. R. Shepherd, chief of the UNRRA's Greek Mission Intelligence Division. On the rolls he was listed as "Mister" Shepherd but actually he was a colonel in the British Army and had been in MO-4 and Force 133.

"Colonel Shepherd joined UNRRA right after the liberation of Athens, but during the whole time up until his death he was acting for British Intelligence, though using the American flag on his car.

EVIDENCE OF BRIBES "After he was killed, UNRRA

officials who took an inventory of property in the Colonel's hotel room found receipts for huge amounts of gold sovereigns. The receipts were dated Oct. 22 to Nov. 29, four days before the trouble broke in Athens.

"The receipts said: 'I have received from Mr. L. F. R. Shepherd a sealed bag said to contain 1,000 the British zone and the ELAS gold sovereigns.' These receipts zone. And he did. Furthermore, he were signed by Greek leaders of did so, in a car draped with the various royalist and right-wing American flag. Under cover of

Wacs Protesting Jim-Crow Given Hard Labor Terms FORT DEVENS. Mass., Mar.

21.-Four Negro Wacs who struck at Lovell General Hospital in protest against Jim Crow restriction to menial jobs, were today sentenced to one year at hard labor and dishonorable discharge.

The court martial imposed senence after only twenty minutes 'deliberation" by nine officers, including two Wac officers and two Negro officers. Col. Crandall, commanding officer of the hospital, who told some of the defendants that he did not want 'black Wacs" in the motor pool or as medical technicians, did not appear at the proceedings. He is on thirty-day leave, granted just prior to the opening of the court

nartial. According to the report dated March 17, "The British The four girls, Pvts. Anna C. Morrison, 20; Johnnie Murphy 20; Mary E. Roosevelt Tells People to "Tighten Belts" While Packers Divert Meat to Black Market

By Art Preis

Two weeks ago before the Senate hearings on the price control act lobbyists of the Meat Trust threatened to impose a "meat famine" upon the country unless OPA "inconsistencies," meaning price ceilings, were promptly removed. They issued this ultimatum even though the packers have boosted their profits almost eight times during the war and their spokesmen admitted that "the country has

• the raw beef."

\$5,000 Reward In Tresca Murder **Posted By Police**

Prodded by public indignation over its inertia in this important case, the N. Y. Police Department on Feb. 20 finally posted and sent hension and conviction of the assassins of Carlo Tresca. Tresca, the beloved editor of the cents a hundredweight on hogs. Italian paper Il Martello and

Newark Forum HearsC.Thomas

The regular monthly forum of the Progressive Workers School. 423 Springfield Ave., Newark, N. J. held on Sunday, March 25 under the auspices of the Socialist Workers Party of Newark, featured a lecture on the meaning of the forced labor drive for the American workers. The speaker, C. Thomas of The Militant staff, exposed the hoax of voluntary" labor under wartime capitalism. He stressed the need of an Independent Labor Party to supplement the activity of the trade unions in the fight for laor's rights and labor's program.

Toledo Entry Challenges Akron and Youngstown

We feel that we cannot let Akron's provocative challenge go unanswered. We have a contender with less experience than Denny O'Kenny. However, we are sure that our man, Joseph P. Morgan, is more than a match for O'Kenny or anyone else of equal experience who may enter this "Militant" sub competition.

We will offer THE RIGHT TO BE LAZY (by Lafargue) to anyone who can best J. P. in a fair fight.

Morgan just signed up to fight for our club this week and has been in training less than two weeks.

THE MILITANT

Belgian Trotskyists Call For Workers Government

The following article is translated from the Jan. 28-Feb. 49 "La Voie De Lenine" (The Road of Lenin), weekly issue of organ of the Revolutionary Communist Party, Belgian section of the Fourth International. Under the heading: "Break the Truce!", the Belgian Trotskyists call upon the Belgian Labor Party and the Communist Party to break with the capitalist parties and form a Workers' Government upon a program of independent working class action. Following the collapse of the hated Pierlot government on Feb. 7, however, these two parties once again saved capitalist rule by entering another coalition cabinet headed by the Social-Democrat Van Acker.

At the same time the American press carried reports that the Belgian Trotskyists had "opened a vigorous drive" in defense of the striking mine workers in the Charleroi area. * * *

Since the von Rundstedt offensive the governmental crisis has given way to a truce, under the sign of the "Sacred Union." In this sense, von Rundstedt has been a sort of godsend for Pierlot and his gang.

But now that the territory has been liberated once more, and now that the Hitler menace may collapse any day under the blows of the Red Army, it is inevitable that the mortal crisis in which the Belgian bourgeoisie is floundering once again takes on an acute character, and shakes the government. And evidently because he foresees the revival of opposition M. De Schryver, Minister of the Interior, is thinking of instituting the censorship.

How well one understands M. De Schryver! How well one understands that our ministers wish to stifle the voices of critics in order to hear only the voice of the British Foreign Office.

Whichever way one turns, one sees mounting chaos and anarchy. In every sphere the impotence of the Government is evident.

The Bankruptcy of the Government's Policies

How bankrupt is the financial policy of M. Gutt! Prices continue to rise despite the clamping down on the currency. The gulf between prices and wages does not cease to widen. No one has any confidence in the Belgian money. The price of gold has doubled in two months. The race towards inflation and bankruptcy is speed ing up again worse than ever.

How bankrupt is the purge! The big collaborators remain, and De Launoit, Devillez and Company disgorge, when the administrators of the Prayon-Trooz firm, great industrial collaborators, are seated in the government? How is one to punish the propagandists of the "New Order" when it is known that M. Pierlot himself would have encouraged a Robert Poulet?

How bankrupt is the organization of food provisioning! The miserable butter ration, twice as low as the lowest ration during the time of the German occupation, wasn't even delivered for November! The children, pregnant women and the old people do not have any milk! The sugar ration is diminishing. The 25 grams of coffee, promised for a month, remain bottled up, no one knows where.

The coal scandal cries out for vengeance. Thousands of firesides have not received a kilo on the legal market since the "liberation." Even in the coal mining areas they do not receive any. More than half of the quota set aside for domestic use has passed on to the black market, and the Government has shown itself incapable up to now of curbing this scandalous traffic. How can one be surprised, when the ministers themselves get their provisions on the black market, when it is true that M. Gutt has gotten 10 tons of coal!

Here is the height of impotence and anarchy! The Food minister avows that he is not certain of his ability to print ration stamps for lack of gas, electricity and paper! It is said that the European Trotskyists were ham-Government itself must go to the black market in order to get the necessary paper to print the ration stamps!

Bankruptcy and impotence in every sphere! And it is clear that we are not faced with a simple governmental crisis, but with a crisis of the whole regime. A change of ministry will change absolutely nothing in this case. The Communist Party seems to have realized this at last, when it abandoned its campaign for a government of "democratic concentration."

What, then, is keeping the great working class parties from

Today, as the military danger to the Soviet Union has receded and the masses of Europe are rising in revolt against their oppressors, Stalinism emerges as the greatest internal danger to the world working class. A detailed discussion of the Stalinist menace to world revolution is featured in the March issue of Fourth International, now on sale.

The role of the Kremlin bur-**Kremlin Upholds** eaucracy, allied with Anglo-American imperialism in the plot to stifle all struggles of the mass-**Capitalist Rule** es, is analyzed in three articles. BRITISH TROTSKYISTS ENTER ELECTION RACE

Challenging the reactionary Tory-Labor Party coalition pholding the British imperialist program, the Trotskyist Revolutionary Communist Party of Britain is entering its own canlidate for Parliament in the forthcoming by-election at Neath, South Wales, "heart of the anthracite coal mining valleys." The coal miners of this mili-.

tant labor stronghold have received the announcement of the candidacy of Jock Haston, RCP National Secretary, with keenest interest and have accorded a "magnificent response" to the campaign literature of the Trotskyist party, according to the latest issues of the Socialist Appeal, RCP newspaper, received in this country. Haston received wide sympa-

thy and acclaim from the British workers last year when he and three other RCP leaders were railroaded to prison under the anti-labor Trades Disputes Act for their support to the striking miners and their aid to the strug

gles of the "Bevin Boys," the shipyard apprentices who were resisting being sent as forced labor into the mines. SUPPORT MINERS The Trotskyist party and its candidate are going before the Neath miners with a record of

"LEGAL" INTERVENTION **IN LATIN AMERICA**

THREE

By M. Morrison

What has become known as the "Act of Chapultepec" is considered the major achievement of the Inter-American Conference held recently in Mexico City. The masses of the Latin American countries can with justification feel disquieted about this achievement. Through it the door has been opened for the apparently "legal" intervention by American imperialism in the affairs of Latin American countries.

For the representatives of 3twenty American republics meet- | tepec. But to depend upon U.S. ing in Mexico City to deal "with imperialism to defend the terriproblems of war and peace" ac- torial integrity and political incepted a proposition which dependence of any Latin Ameriobligates these governments to can country is a sign of imbecility guarantee the territorial integrity or a conscious betrayal of the and the political independence of masses of the Latin American every country signing the Act of countries. * * *

If the Act of Chapultepec received the lion's share of attention at the conference, the economic problems facing the Latin American countries gave the representatives of those countries the greatest worry. What will the capitalists of the United States

and their government do to help

the Latin American countries

economically after the war? For

the present the Latin American

governments depend for their

economic stability upon the con-

tracts for the sale of raw material

to the United States. Should the

United States cease its purchases

it would result in economic break-

down and possible revolutionary

Croupion that the deputies themselves no longer take seriously (which does not keep them from pocketing 160,000 francs in back pay!), demanding elections, opening up a campaign for a workers' government? Such a government could seriously devote itself to lied" strategy, and how the Trot- cutor in the infamous Moscow the task of reconstructing the economy with the aid of the unions skyists can best educate and orand the factory committees; it could expropriate the banks and ganize the masses to reach their Bucharest after popular demontrusts, and organize at last an equitable distribution of products and break the black market by appealing to the housewives' and neigh- through socialism. borhoods' committees.

The longshoremen of Antwerp and the miners of Charleroi have begun the fight to defend their right to live, to protest against the impotence of the government. The miners of the Borinage District have passed to action in the coal fields by creating their own control committees to break the bosses' sabotage.

It is on these workers' movements, on this desire for action on the part of the working class which only awaits a signal to manifest itself that the working class parties must rely in order to form a Workers' Government.

Enough empty words! Let us see some action! NEW YORK **Socialist Youth Forum** Friday, April 6, 8 p. m. "U. S. 'Vote For Socialism!' Says SWP Candidate SHOP TALKS ON SOCIALISM

Trotskyist candidate for mayor, to the voters of Los Angeles delivered March 26, over station KNX. Station KHJ, to which the script was originally submitted, censored out the passages which we have put in parentheses in this text and the speech was not given over that station. Minus the censored passages, it was delivered over station KNX.

FOUR

For the past three years I have been the Los Angeles organizer of the Socialist Workers' Party, popularly known as the Trotskyists. For ten years I have been active in the labor movementas a shop steward in the canneries of San Pedro, on picket lines, on union negotiating committees, and as a delegate to AFL conventions.

I tell you my record, and what my affiliations are, in order to make clear the character of my campaign for the office of Mayor of Los Angeles. I stand for the working-class. My program, the program of my party, is the program of socialism. I hate the evil, decaying system of capitalism with its wars, its race hatreds, the perpetual privation and insecurity which it represents for millions of people.

I speak for a party which challenges the capitalist system and proposes to remove it, (as if it were a cancerous growth on human society.) Socialism means a society of peace and plenty, instead of a society of war and hunger. Only the working-class, which has nothing to gain and everything to lose under capitalism, can create a socialist world.

Meanwhile, the working-class is under attack. The lords of Big Business, here in California as throughout the nation, are eternally seeking ways and means to undermine and destroy the workers' own organizations, the trade unions. They want to convert the workers into helpless serfs, unable to defend their hardwon rights and living standards.

The Workers Must Open Their Counter-Offensive

Here in California, the notorious open-shoppers vie with the capitalist politicians in Washington in devising new blows at organized labor. Proposition 12, defeated by the California voters last November, was to sanctify the open-shop in law. (It was of a piece with the Roosevelt-sponsored National Service Act and all other freedom-destroying legislation.)

The labor movement can survive only by militant struggle against all the forces of reaction. Against the offensive of the zine. Then the author goes on to bosses and the boss politicians, the workers must open their own counter-offensive. Labor must withdraw from the War Labor Board, that graveyard of workers' grievances. The No-Strike Pledge, a straitjacket for labor, must be rescinded. The Little Steel formula, which holds wages down while profits and prices soar ever higher, must be thrown overboard.

But even more than this is needed. To defend itself with its united power in every field where it is attacked, labor must break for all time with the capitalist political parties, the Democrats and Republicans, and every type of boss politician. The workers must build their own party, an independent labor party, based on the trade unions, with a program dedicated to the interests of labor. Through this party they can achieve a fighting alliance with the a "place in the country." Neither to experience? Designed as "the agricultural workers and small farmers who are exploited and oppressed by the self-same enemies of labor.

There are no "friends of labor" in the capitalist parties. Labor's only true friend is its own strong right arm. By casting your vote for me, you will be voting in favor of independent workingclass political action-the crying need of the hour.

Cast Your Vote for Socialism!

A real fighting program is a life and death question for the workers. Already, in the midst of the great war production boom, its shadow of post-war unemployment falls across the workers' lives. Capitalism offers breadlines, soup kitchens, apple-selling. The bosses know this. That is why they are so intent on crushing the organized labor movement. They want no resistance from their victims.

Marjorie didn't fall into a faint at this exciting news. So Pilethe Senate price control hearings. it-high added his biggest bombshell. "I'm going to give his daughter a little golf lesson.'

"No kidding?" said Marge without enthusiasm.

"Oh yes, you see I've been at it quite a while. Had a chance pathy and interjected expressions to be a professional at the Happy Valley when the war came. of approval as the meat trust But I-ah-felt my career was here."

"Say, how old is this daughter of old sourpuss?" Marge asked iddenly.

Patterson's face got red and he tried to be a little nonchalant when he said, "Oh I don't know, About twenty."

ed nothing less than removal of MAKING A PLAY FOR THE BOSSES' DAUGHTER

"Teaching her golf, huh? Giving all the girls around here the brush-off while you make a play for one bosses' daughter." (Pilewho thrive on the desperate it-high figures he's quite a ladies' man, and Marge was rubbing it in.) "You're not going to go and marry the girl are you?"

Patterson laughed his smooth, self-conscious laugh, and pulled in his pot belly a little. "Oh, no. Of course it's nothing like that," he said with a sort of pooh-pooh in his voice. After all, he was only trying to give the girls in the shop an insight into his true charm. He didn't want to give them the impression he was going to be taken out of circulation for good.

"Seriously, though, Marge, it isn't a laughing matter. You know Taylor C. Wilkins himself got to be vice-president that way. He married the president's daughter. You'd be surprised at the number of the big executives who got their start that way. And even if they don't get a big position, it's a life-time job, you know." There was real awe in his voice.

"Is that so!" Marge exclaimed. "Well say I better finish spotting these brackets." And she said to herself, "Can you imagine that? That little four-flushing pipsqueak thinks he's going to marry Miss Millionbucks and be a big time four-flusher for the rest of his life. Well, it takes all kinds of people to make a world, I guess." But Pile-it-high is a pathetic sort of four-flusher, though. Running around shining the shoes of the higher-ups like he does,

always keeping his eye on the main chance. He doesn't realize he lacks sophistication, poise, polish, "educa-

You may be very, very sure farmers!" ONLY A DREAM Why does "Good Housekeeping" show its readers glimpses of

acts presented to the hearings by the OPA was that, despite the Imperialists Compete In Cynical Phrases

The capitalist powers seek to outdo each other not merely in bloody imperialist grabs, but in the cynical "humanitarian" pretenses with which they cloak their greedy aims. Harold Callender, Paris correspondent, writing in the March 25 N. Y. Times about the efforts of French imperialism to save its colonial empire from its Allied "friends," states:

"Meanwhile, if the great powers are going to pretend that they conquered empires with motives of Christian charity and to vow they intend to apply the doctrines of Thomas Jefferson to the Malays and Hottentots, then France will give them a run for their money along that path. The French Empire, like others, can take a new and gentler name and profess to have become an eleemosynary (charitable) institution. Rather this than that moralizing 'Anglo-Saxons' should hint that French colonies and

bases should be looked after

Further, the meat packers' re- tion" to marry Miss Millionbucks. He hasn't guzzled enough cocktails virtual absence of vacancies in presentative renewed the threat or seen enough dog-races to make the grade, poor fellow.

It is done sometimes, you know. Richer girls do occasionally marry up-and-coming young executives like Pile-it-high. Yes, if you're a smooth, smart young fellow, who's been to the "right" college and knows the "right" people, maybe you can marry a bosses' daughter and be set for life as a big-time "Yes-Man." Quite a future before you under the capitalist system.

But what a future . . . for a MAN!

One of the most astounding acts presented to the hearings Ford Local Anti-Stalinist "bankruptcy" wails of the meat Militants Gain In Strength refused to let OPA examine their detailed financial records.

#### Powell, the Political Contortionist

The feeble capacity of those political leaders who attempt to straddle the fence of reality by calling for racial equality and, at the same time, giving full support to the very system of capitalism which makes Negro oppression profitable is further exemplified by the antics of Harlem's fair-haired faker Congressman Adam Clayton Powell, Jr.

# Why Miners Should Get A "Royalty"

alarmed at the prospect of mass | cast reports that there would be

By Larissa Reed The demand of the United

Mine Workers Union for 10 cents on every ton of coal to be set aside for a Union Welfare Fund deserves full support. However, it is misleading to call this fund a "royalty". The term "royalty," as its name indicates, was originally used to designate the tribute demanded

by kings. In more recent times the word is used to designate the percentage of profits or "royalty" guaranteed to the author of a book or the owner of a new invention. In general "royalty"

means a share of the profits for the owner of a property, process or product. For example, the owner of a mine who leases it to others for operation can exact a share of the profits as "royalty." But the mine worker does not own anything except his own labor power-two strong arms In a recent debate on the slave ing the Negro people that only up under the grinding toil in the mine pits. Unlike the idle and is to rake in their profits, rents. royalties and other tribute, the

miners are wage-slaves. Like all workers, they are compelled to engage in the bitterest struggle, also to protect their lives and limbs from the destructive greed of the mine operators.

For over half a century the miners have fought to improve their wages and conditions of

work. Now, among other things, they are demanding their own Union Welfare Fund, This can

**Buy 'The Militant' Here:** 

The other day when I happened to be uptown, I saw a woman. She was obviously a rich woman, because she was very expensively dressed and was being helped out of a large, shiny limousine. She was a fragile woman, listless in her manner, and her face held, under all its gloss, an expression of extreme boredom.

Then, yesterday on my way to work, I saw another woman, and I remember her also. I do not know what her nationality could have been. She was a gaunt woman, swarthy of skin, with fierce black eyes like an eagle's eyes and a hooked nose like an eagle's beak.

This woman had felt suffering and hardships. As she sat sullenly in the seat of the lurching bus, you could see the marks that poverty and pain had left upon her lean face. You could see the mark of toil upon her lean body, so like the body of a roaming, hunger-ridden wolf, gaunt and taut-muscled, spare with the winter's hunger.

I have said that her eye was fierce, that her body was that of a fierce and hungry beast. But in her arms she carried a little bundle of soft cloth and swarthy, tender

FIVE

flesh. And when her eye turned toward her child, it lost its anger, became large and soft, the eye of n mother The bus groaned and swayed over the rough roads, past-docks and warehouses that thickened the air with their odors. The woman's dark eyes again stared out morosely at a world that had been

hostile to her and would be so to the little bundle of dusky flesh in her arms. An old worker sat next to her, a newspaper-wrapped lunch on his lap and a shiny black workcap on his head. From time to time his eyes strayed to the sleeping baby at his side, and an almost imperceptible smile hovered over the corners of his mouth.

Then suddenly a wail rose from the bundle. Black eyes were. opened now, and a toothless' little mouth gaped wide, petulant and imploring. The woman turned from the window, her face instantly tender and solicitous. A brown and sinewy hand gently smoothed the coverlet, stroked the swarthy little forehead, ridged with complaining wrinkles. The infant howled more loudly, its cries filling the bus.

Calmly, with no thought of false modesty, the woman fumbled moment with her clothing, bared a lean breast, and fed her child. The old worker at her side turned his head, embarassed and uncomfortable. A kid nearby grinned lewdly, and a young girl with reavily rouged lips and a small gold cross hanging about her neck sniffed with shocked distaste. But of all this the woman saw nothing. Smiling, soft-eyed she looked straight before her, exulting in the flow of life from her to her little one.

#### took place. They went from 50 'Such People Will One Day Rule This World'' percent down to 32 percent. Then

high Army procurement officials The baby turned its head from its mother's breast, a thin line unofficially let it be known that of white milk running from its mouth to its chin. The woman the cutback would be less than 25 tenderly wiped the dark little face, and the baby went back to sleep. percent, and a few days later a

Sitting there in the bus. I thought of that other woman I had 15 percent figure made its apeen the day before, jaded, bored with life, weak, and altogether foolish, a creature with no reason for existence. And my mind contrasted her with this woman who sat two seats ahead of me vised his business audience, the "wisest" policy would be to bank riding out to her home in the steel mill district.

And I thought, this is the kind of woman you find in the work-

different for different stores.

The truth is that the shortage of food available for workers is being deliberately made worse by certain capitalists in order to get Each store has its own ceiling on every item sold. The ceilings are extra profits.

Profits, not the needs of the masses, determine the allocation of food. The food capitalists sell the food at the highest prices they can get. The wealthy can pay higher prices than the workers, thus get the food they need. Only what is left, if any, reaches the workers.

cynically observes. The magazine concludes that "cutbacks will reach or exceed 35% inside a year

after victory in Europe." These advisers of corporation executives and business men aren't fooled by the propaganda of the brass hats, Big Business is preparing for "reconversion" on the basis of realistic estimates and inside information received from their agents who occupy key

positions in all government procurement and planning agen-

#### DECEIVE WORKERS It is only the laboring masses

who are being lulled into a false sense of security by the doctored statistics of the administration spokesmen. The corporations are protected against losses incurred by shutting down for reconversion. The tax laws guarantee their profits even if they fail to produce a single commodity. The legislation on contract terminations and surplus disposal safeguards their property interests. They are well-cushioned against the "shock of reconversion." The workers, on the other hand, have nothing to fend off these shocks but Roosevelt's vague and unrealizable promise of 60 million jobs some time in the indefinite future. And to tide them over the 'reconversion" period, they will have only meager unemployment doles as low as \$2 a week in some states.

#### **MARCH 30, 1935**

NEW YORK-Warning American workers of impending war as imperialist rivalries sharpened, The Militant declared in a frontpage editorial that "The imperialist rulers . . . are plunging" headlong into a new world war, dragging the masses of the working people along with them as cannon fodder.

"How it will start is really a matter of little moment. . . The fact that Hitler asks re-armament rights in the name of a 'Holy War' against Bolshevism . . . that he really wants to begin Germany's imperialist re-expansion by exterminating the Workers' State-does not mean that (the war) would end that way.

"The conflicts in the camp of the imperialists make a war among themselves inevitable. . . American imperialism has interests in Europe and Asia far too vital to its preservation and expansion for it to allow them to be affected without America's active and direct intervention."

DLEDO-Seething with discontent under near-starvation wages and widespread unemployment, the American workers were engaged in constant strike actions. In Toledo, five strikes were in progress. Milk drivers, Federal Emergency Relief Workers, metal workers, and grocery employes simultaneously fought for better conditions.

First to be settled was the milk drivers' strike, with an agreement on March 25 providing wage-increases of 14 to 24 percent for lower paid men. Increases in other categories were to be determined by further negotiations.

Only the world revo-- Leon Trotsky

#### lution can save the USSR for socialism. But the world revolution carries with it the inescapable blotting out of the Kremlin oligarchy.

#### JOIN US IN FIGHTING FOR:

- 1. Military training of workers, financed by the government, but under control of the trade unions. Special officers' training camps, financed by the government but controlled by the trade unions, to train workers to become officers.
- 2. Trade union wages for all workers drafted into the army.
- 3. Full equality for Negroes in the armed forces and the war industries-Down with Jim Crowism everywhere.
- 4. Confiscation of all war profits. Expropriation of all war industries and their operation under workers' control.
- 5. A rising scale of wages to meet the rising cost of living.
- 6. Workers Defense Guards against vigilante and fascist attacks.
- 7. An Independent Labor Party based on the Trade Unions.

Kremlin is working hand in hand with the Anglo-American imperialists to strangle the European revolution and to drown it in blood. Red Army troops in non-Soviet territories (Rumania, Bulgaria, Poland, East Prussia, and elsewhere) are today being used as the police and guardians of capitalist property and capitalist rule.

Reviewing the Russian question in the light of this new situation, the November 1944 Convention of the Socialist Workers Party adopted the change in tactics indicated by the change in the citations. Whereas in the preceding period we correctly subordinated the struggle for the overthrow of the Stalinist regime to the needs of military defense, it is now imperative to subordinate everything else to the defense of the advancing European revolution.

Genuine defense of the USSR today demands the overthrow of the profit system which breeds wars, insecurity and fascism. It requires implacable struggle against all the forces upholding capitalism, including Stalin's Bonapartist gang.

## **Forced Labor Drive**

The approaching climax of the war in Europe has led Roosevelt and his brass hats to intensify their drive to enact a forced labor law. Under administration pressure, an "unexpected" agreement was reached by a Congress conference committee considering labor draft legislation adopted by the House and Senate. Preparations have been made to rush the measure through Congress before the military collapse of Germany. Members of Congress who had left on a scheduled Easter recess were called back to begin immediate consideration of the committee proposal.

Why are the forced labor advocates so insistent on pushing through a forced labor law now? The magazine, Business Week, discloses that: "The main purpose for which the Army wants a national service law is to give it a firm hold on workers after Germany goes under." The military agents of Big Business want this weapon to curb the resistance of the workers to the wage-slashing, union-busting "reconversion" plans of Wall Street. It is designed to prevent the workers from regaining their independence of action, to break strikes, and to victimize militants.

The drive for additional measures of labor repression to be applied AFTER Germany is defeated completely exposes the fraud of "peace, security and jobs-for-all" in the "post-war" period. If capitalism could guarantee a decent standard of living for the masses on the basis of "peacetime" production, it would have no need of strengthening its machinery of repression. On the contrary, it cannot maintain even the present low standard of living but must drive it still lower. This end cannot be attained by "peaceful" or "voluntary" methods.

# Churchill's Speech

With victory over Germany almost in their grasp, Churchill and Roosevelt now feel free to drop their fine phrases about the "Four Freedoms,".

#### **His Toughest Fights** With Union Haters Editor

**Season at Palm Beach** Dear Cynthia:

My dear, I'm simply heart-broken about leaving Palm Beach so early. Here I am practically chained in New York with this dreadful curfew-when I could have remained in Palm Beach where everythingsimply everything—is beginning to happen. I'm so upset—I mean I could tear up my last two dozen black market nylons-but simply to shreds!

**Latest Report On Social** 

SATURDAY, MARCH 31, 1945

I just wanted to die when I read the society column in the New York World-Telegram this afternoon. Imagine how I felt when I read: "PALM BEACH, March 20—After weeks of grousing about the lack of glamour on the Gold Coast this season the frothier element in Palm Beach has finally hit its social stride. This week has witnessed a revival of the robust entertaining that delighted the glitter set this year. Once again the pick-me-up has become the standing morning drink, and bronzed Mayfair marathoners are shuttling from one party to another from dawn to dawn.'

And it has the most delicious bit about "parties that are planned for a handful wind up with hundreds." It seems the junior Arthur Pearsons had a delightful cocktail party and "guests were amused to read in the local paper the following day that they had entertained for 40. Actually there were at least 400 who enjoyed the buffet, a strolling band and dancing under the stars until a late hour." But of course, they couldn't report 400-with so much talk about ration points these days!

And I simply admire their fortitude. What wonders they seem to accomplish with the servant problem as it is. Think of the awful types one is forced to do with. The column reports that "one of the extra butlers called in to aid with the party and obviously anxious for the affair to come to a conclusion handed guest a drink with the remark: 'This party is so ypically American, really! People never know when to go home'." Such familiarity! But-c'est la guerre! And here I am, practically imprisoned in New York and another one of those coal strikes on the way. One would think those dreadful miners would have more consideration when we're all sacrificing so much! Though, of course, we use only oil.

# **Nazis Protected Profits of Harvester Corporation**

American corporations with large holdings in European countries were considerably cheered up last week by the report of the good care taken by the Nazis and their collaborators of the French factories and branch houses of the International Harvester Company.

After a four-month's inspection of the company's French plants, A. Maxwell Rode, director-general of its European operations, reported that IHC's directors were "needlessly pessimistic" in writing off their foreign investments in 1941-42.

The Nazis who treated the workers so brutally observed great "correctness" toward their American capitalist class brothers. IHC's French subsidiaries were placed under French management prior to the arrival of the Nazis. The French management was Miller's devotion certainly serves absconded with thousands of dol- very punctilious in conforming to Nazi regulations. Thus, not only were the properties left intact and she obtained for representing ready for operation when the Nazis departed, but the

- 9. The defense of the Soviet Union against imperialist attack.

# **Role Of Stalinism**

With this issue of The Militant we are replacing a citation from Leon Trotsky stressing the defense of the USSR against imperialist attack with another emphasizing that only through the world revolution and the overthrow of the Kremlin oligarchy by the workers can the Soviet Union be saved for socialism.

This change of citations flows from the changes which have occurred both in relationship of forces on the military arena and in the European situation. When the Soviet Union was invaded by Hitler, we Trotskyists made paramount the task of safeguarding against imperialist assault the nationalized property and planned economy-conquests of the October Revolution which constituted the foundations of the Soviet state. We never for a moment renounced our irreconcilable opposition to the Stalinist bureaucracy whose reactionary policies menaced and undermined these precious conquests of the world working class. As soon as the external threat to the USSR was eliminated, we stated at that time, the revolutionary vanguard would be obliged to push to the fore the struggle for the revolutionary removal of the Stalinist ruling caste.

That is precisely the situation which prevails at this stage of the war. Instead of the Nazi armies beseiging Moscow, the Red Army now stands before Berlin. But although the attack of German imperialism has been beaten off, this purely mili-. tary victory by no means ensures the definitive salvation of the USSR, as the Kremlin would have the workers believe.

As Leon Trotsky explained time and again, the preservation of the conquests made by the world working class in the Soviet Union depend upon the extension of the anti-capitalist revolution beyond the boundaries of the present Soviet Union. Penned up within the USSR under the domination of the Stalinist bureaucracy these conquests are directly threatened with decay and destruction. The continued rule of the Kremlin oligarchy entails direct encroachments upon the nationalized economy and thus facilitates the restoration of capitalist property forms.

While shielding and stimulating the tendencies toward capitalist restoration within the USSR, the

"the protection of small nations," "the rights of the common man." They needed these deceitful promises in the early years of World War II to win the support of the masses for the imperialist war. Now, however, they must bare their fangs of reaction to the workers who let themselves hope that the end of the war in Europe would bring some slight return on all the lavish promises made by the Allied leaders in the "Atlantic Charter" period.

Can the returning British soldiers expect financial help from a "grateful" government in order to re-establish themselves in civilian life? Prime Minister Churchill answered this question in the negative at the annual conference of his Conservative Party held on March 15. "It would be very easy," he said, "for us all to promise. ... presents, bonuses and gratuities in the most enthusiastic manner," but he went on to warn his fellow Conservatives against trying to win support "by promising what we cannot perform."

Do the members of the British Labor Party expect some social gains for the English workers in partial return for their bitter sacrifices during five and a half years of total warfare? England's Prime Tory took care to disillusion them. "At the head of our mainmast, we fly the flag of free enterprise," said this exponent of the capitalist system of wealth for the few and grinding poverty for the many.

Lashing out at "our Socialist friends" and their "program for nationalizing all the means of production, distribution and exchange," he delighted his Conservative Party colleagues with the assertion that this would imply "not only the destruction of life of the whole of our existing system of society and life and labor but the creation and enforcement of another system or systems borrowed from foreign lands and alien minds."

But the outstanding example of Churchill's contemptuous cynicism toward the "Atlantic Charter" promises came in his March 15 speech in the House of Commons. Replying to a question from a Laborite member of the House, Churchill characterized any program for protecting small nations from aggression as a "hopeless ideal." Under the "realistic" Yalta agreement, he remarked, there will be a "differentiation between the treatment of the greatest powers in these matters and of the smallest powers."

A return to pre-war poverty and unemployment under the decaying capitalist system, the rule of the many by the few and the tyranny of the powerful over the weak-by Churchill's own admissions, these are the rightful results of this terrible war. and the second

# **Manufacturers** Association **Blasts at Price Controls**

The National Association of Manufacturers, organization of open-shop war profiteers, has joined the big business offensive against price controls with all guns blazing. The current issue of NAM News shouts the battle-cry of the corporation lobbyists who recently stormed the Senate price control bill hearings and howled that the OPA's feeble price restrictions are "ruining" them despite the greatest profits in their history.

With the approaching end of the war with Germany, the manufacturers are anxious to shatter all price controls on civilian goods. They want their record war profits to continue into the "post-war" era-and that means unrestricted price inflation on consumers goods.

Thus, the NAM News declares: "Manufacturing judgment seems practically unanimous in believing that the application of current OPA pricing policies presently proposed deal and the to civilian goods in the reconversion period would constitute a great obstacle to production and jobs." What this means, translated from NAM doubletalk, is that the manufacturers are unanimous in believing that any curbs on their price-gouging would

constitute a "great obstacle" to their unlimited profiteering-and to hell with jobs and production! Specifically, the NAM proposes that "Congress should declare now that when the war ends on one major front, the pricing policy should permit the making of a fair profit on each individual item produced; and that in the meantime OPA should be getting ready to put the new policy into effect when only one major war front remains."

The NAM not only wants the government to guarantee tremendous over-all profits for every capitalist, but to ensure a "fair"-meaning unlimited -profit on each single item produced. They want protection both coming and going.

The manufacturers insist that labor give up its right to strike "for the duration"-and after. But they want no restrictions whatsoever placed upon their capitalist "right" to bleed consumers white. These dollar-patriots aren't waiting until "after the last bullet is fired" before smashing all price controls.
