## **Crisis In Italy** Sharpens Under Parri Cabinet

### Special to THE MILITANT

ROME, June 28 - Italy has a new cabinet. Bonomi has given place to Ferruccio Parri, leader of the Action Partythe Italian equivalent of the British Common Wealth Party. The Stalinist and reformist press hail the new government as a "victory for the working class." In fact, nothing has been changed. A few cabinet posts have been juggled about, the Action and "Socialist" parties are now in the government instead of giving "critical support" from without, Otherwise it's the same old faces and the same old policies-or rather, lack of policies. \*Two issues held up the forma-9

tion of the new government for were constant meetings between 52 days. First, there was the the representatives of the six question of the premiership. Both parties. There were constant the Christian Democrats (speak- | comings and goings to and from ing for the Vatican) and the the Royal Palace, where the "Socialists" wanted the post. various leaders went to consult Parri, representing the radical Crown Prince Umberto, lieutenant wing of the middle class, was of the realm. There were interviews between the party leaders pushed forward as a compromise. Then the fight started all over and the British and American again. The Christian Democrats ambassadors. Everyone was consulted—except the Italian people.

and the "Socialists" again pushed forward their respective candidates-this time for the key posiWorkers in Argentina Denounce Wall St. Hundreds of posters denouncing "Wall Street imperialism" appeared on the streets of Buenos Aires July 19 to advertise a memorial mass meeting for victims of a recent Chilean copper mine fire. The posters were construed, says AP, as an oblique attack on U. S. Ambassador Spruille Braden, inasmuch as the name of the Chilean firm-Braden

Copper Company—was featured prominently. The company was owned formerly by the ambassador's father. Proclaimed the posters: "Braden means exploitation and crime in Chile.'

## **Premier Demands Return of Fascist Empire's Colonies**

Events in Italy last week cast glaring light on the reactionary character of Allied Military Government and the new puppet regime of Premier Parri which it supports, besides revealing anew the revolutionary temper of the Italian workers. In the northern industrial city of Milan a 20-year-old anti-fascist fighter, Fermo Lini, was sentenced to death by an Allied military tribunal on charges of banding together with other anti-fascists to kill two fascists and seize

## John Potts, Fired Shop Steward, Tells How Wright Aero Mistreats Union Men

### By Evelyn Atwood

About 100 pickets were marching in front of the huge B-29 Wright Aeronautical Corporation plant No. 7 in Wood-Ridge, N. J. on Saturday afternoon, July 21, when I got off the bus. Veterans of both wars were leading the pickets. The action grew out of a mountain of accumulated grievances, topped off by the persecution and ruthless firing of a union steward, veteran of the First World War.

A picket captain came off the line to greet me. He led me to John Edward Potts, 585 Isham St., New York, the victimized veteran. Calm and collected, Potts was very wiling to tell his story, unknown as yet even to all the workers in the plant. "I have worked in Wright's on engine assembly since November, 1942," he began. "Never, until last Wednesday, has there, ever been the slightest criticism of my work. I am union steward of both the green and final assembly lines.

### PROTEST ACTION

We sought refuge from the hot afternoon sun in the shade behind the lunch dispenser across the road from the plant, and sat down on some loose lumber and concrete blocks. "Trouble has been brewing "here for a long time now," Potts continued. "Our contract with the company expired last October. This action is also a general protest against working without the company abiding by the contract." In the meantime provocations against the workers by the "lead men" (straw-bosses) in charge of supervision have increased, aggravating the grievances to the point where the situation is explosive. (The lead men, he pointed out, are company men, not controlled by this union).

"My own case dates back to last Wednesday," said Potts. "At 4:30 in the afternoon, having finished my operations, with quota completed for the day, I was approached by a new worker here, John Lynch. He is a man who was retired by the U.S. Army last February after 33 years in its OUT TO 'GET' SOMEONE service.

"Lynch asked me if something possible. After talking to him for | facts. a few moments, I found out that he had a legitimate grievance.

and a former Commander of the Veterans of Foreign Wars. Then I left for the day.

TEXTILE UNION

In order to explain the subsequent developments in the persecution against him, Potts said:

'Our contract requires that a steward contact his foreman when going on a grievance investigation. But I was unable to locate my foreman when Lynch came to me. In such cases it has been the practice that the steward can begin the investigation and report to his foreman later." Besides, day.' as Potts repeated, the whole incident started after he had al-

ready completed his day's work and fulfilled his quota.

All these facts were presented

by Potts and his committeemen couldn't be done for him. His lead at the three hearings which folmen were pushing him around lowed in the next two days. But pretty bad and he wanted a the company men were out to transfer to another department, if "get" somebody and disdained the

now, and let the bosses themsel-ves tell us why, in one word — what they say." They won't be What these "necessary steps"

As soon as Jimmy jumped up off the steps to hit the boss we grabbed him.

"That won't do you no good," Tom told him quickly. I said, "Let him alone, Cramer. His work'll be done by cast time.

Cramer, the blower, looked at Jimmy a moment and then laughed. "The CIO sure did a job here," he said to me. "Tell a man to get his work done, and he wants to kill you." Then he walked away shaking his head.

NEW YORK, July 23-Spokes- of picket lines around War Ship- | maritime bureaus are planning to men for five maritime unions ping Administration offices in handle maritime labor without We all laughed at Jimmy. "So argued before the National War every major port, is a pantomine the aid of the WLB as soon as you wanted to beat the life out Labor Board July 19 and 20, for of what may happen on the water- war ends. The pattern is the same of him," Tom chuckled. as that followed after World War

The Ingrinning a little shame-facedlyternational Seamen's Union was and a little proudly.

"I'll tell you what it was," he said, growing serious. "I got tired digging in that runner."

He lifted a wrinkled paper bag and took out part of a sandwich. "Look at this!"

Tom yelled, "Look at that man. He's got MEAT!"

MEN CAN'T WORK ON POOR FOOD

We looked at the sandwich. It was made of something thin and pink that looked somewhat like meat and gave off a damp, sort of musty odor. It was a thin slice and seemed lonesome and miserable between the two dried slices of bread. There was no butter in the sandwich, just a coating of ketchup that had sunk into the bread like ink on a dried blotter.

Jimmy dangled the meat before us between his thumb and forefinger. "No points," he announced.

"I guess that's why I was going to hit Cramer," Jimmy went on. "We can't get meat at home; we're all out of red points. Sometimes we get hold of a chicken and have to pay anything the man SAN FRANCISCO, July 10 - "Harry has fixed it up again asks for it. But you can't afford to keep doing that on what we make a week. And you can't even get it most of the time, even if

you could pay it, especially in our neighborhood." Slim pounded Jimmy on the shoulder and let out one of his bellowing laughs. "That ain't the blower's fault!" he howled.

'You got to kill the whole OPA!" "No," Jimmy said, "what I meant was, you eat junk like this

and then come out here and work in the heat, and then you get gangs already, isn't it? They don't go through the hall, do tired. I can't work like I used to." they? Let's see where all this

"You're an old man, now," Tom told him solemnly.

"Maybe," Jimmy answered, "but I'd get a lot younger in a "Say I'm a walking boss for hurry if I had something good to eat. really Mitchell gangs. As a mat-The gang became more serious. "That's right," Tom said. 'I get feeling that way, too. When a man does work like this, he's got to get something solid to eat. You can't sweat the life out of Flood Brothers gangs, etc. beyou and do all this heavy work on an empty stomach."

### THE MINERS SET A GOOD EXAMPLE

Somebody mentioned the miners, and everyone nodded. "Sure, hey said, 'If we can't get meat, we can't work,' and they didn't. They walked out. That's what we ought to do."

"Well, fellows," I said reprovingly, "the trouble with you is that you don't adapt yourselves. You're always dissatisfied, always start building production gangs grumbling and complaining. I think you're a bunch of red agitators," "There he goes again," Jimmy said.

"You don't find the rich people complaining," I continued, "and even though they can get anything they need, look at the black

## **Program They "Forgot"**

**UAW Leaders And The** 

### **By Art Preis**

The trade union leaders have long been aware of the deadly threat of production cutbacks, wage slashes and mass unemployment. There has been no lack of complaints from them about the government's "abysmal absence of policy, no concrete steps being taken to meet these needs." (CIO Steel Labor, July, 1945). Nor has there been any lack of a plan — a sound plan — to meet the impending crisis.

In July, 1943 when large scale layoffs were still far ahead, the sands. Thomas wanted Kaiser to fine themselves to issuing frantic on "The People's Plan for Recon- back again.

the CIO United Automobile the government and "give" jobs Workers projected a progressive to the UAW members, that is, to thing." This is the essence, for posals of the CIO leaders. "Here plan for "Post-War Full Employ- sweat out more profits for Henry instance, of a three-point pro- Is What You Can Do," trumpet ment, Security and Lasting J. Kaiser. Peace."

HATE STRUGGLE

competitive capitalism.'

This plan, featured across two pages of the United Automobile Worker, July 15, 1943, proclaimed the elementary principle that the needs of the people stand above the "rights" of the owning minority. It declared: "Our industries can no longer be operated to serve private interests where these conflict with the public need."

#### WHAT UAW DEMANDED

Therefore, as the first and key point under "Planning for Full gram of the CIO and AFL lead-Production and Full Employ- ers is contained in the capitalment," the UAW leaders demand- labor "Peace Charter" they signed: "Government or municipal ed with Eric Johnston, head of the ownership and operation of mono- U.S. Chamber of Commerce. This polistic industries and of indus- "peace pact for post-war prostries strategically essential to the perity" has as its corner-stone national safety. Government con- the recognition of the "supretrol and regulation of other in- macy" of "the rights of private dustries to prevent the abuses of property and free choice of acmonopoly and to assure production in the public interest."

Together with this fundamental demand, the 1943 plan called for: "Reduction of the working week to thirty hours without reduction of (take-home) pay, as a result of a full production program."

But when the time came for action, in 1945, when hundreds of ference or burdensome restricthousands in auto and aircraft tions.' were tossed out on the streets. when vast government-owned plants like Willow Run were shut down, these union leaders "forgot" their own union proposals.

market prices they have to pay for it. And then they have the servant problem to put up with as well. How many of you have had to wear yourselves out looking for a cook or a butler or a maid?

"It'll go like this. Say John is "Instead of wasting your time agitating and threatening poor, nnocent foremen, you should be saving your money and getting rich, if you think you'd be any better off."

But Jimmy started to get to his feet once more, and this time o one held him back, so I moved out of his way.

But underneath the kidding, we were all sore. We still are.

### JULY 27, 1935

TERRE HAUTE, IND .- For 48 hours a general strike paralyzed Terre Haute, the home town of Eugene Debs. Workers in every union of the city walked out, when the Enameling and Stamping Plant, whose workers had been on strike for 17 weeks, brought in a crew of scabs under the protection of armed guards.

"No sooner did the general strike go into effect," The Militant reported, "than 'little Napoleon' Governor McNutt declared martial law in Vigo County and shipped truckloads of National Gaurdsmen into the territory... they proceeded to disperse picket lines with tear gas and rifle butts, showing no concern for sex or age." (The "little Napoleon" was the same Paul V. McNutt who in 1937 became High Commissioner for the Philippines, and today is chairman of the War Manpower Commission which directs the drafting of striking workers).

The workers held firm in spite of McNutt's reign of terror. But the head of the Central Labor Union of Terre Haute, himself afraid of the workers' militancy, suddenly called off the general strike.

The Militant, warning that it had been "the AFL bureaucracy which torpedoed the strike," called for "an organized left wing" to be built in the AFL, from a local to a national scale, to provide for American workers "that necessary point of support and rallying center which it richly deserves."

#### **DOUBLE TALK**

Connelly's speech, as full of double talk as the Stalinist line which he follows, explained Smith's presence in Los Angeles effort in the Pacific." He then touched on other reasons: "to hurt reconversion... to create storm troops and to mobilize returning veterans against labor when reactionary employers decide to reopen the fight for the open shop.'

Then, touching a basic truth for once, he said: "This is the reactionary big business method of third and fourth proposals in the solving postwar problems."

Pioneer Paragraphs

LIMITS OF DISCUSSION

To one who has any experience with Stalinism and follows the current discussion it is clear that we have to modify our proposition with reference to discussion in the Stalinist parties only to the extent that it is necessary to add that now Stalinism has reached a point in the development of its parties where the top bureaucrats no longer fear a discussion of a certain type. Furthermore, as a practical matter, the Moscow bureaucrats have more to gain than to lose from permitting discussion on the question of Browder's "revisionism."

In the first place, one must notice that the discussion is limited to the question whether or not a fundamental policy adopted by Stalin is being carried out correctly. We have always contended that discussion is permitted among the Stalinists on a question as to whether or not a policy adopted by the top bureaucrats is being correctly applied by lower functionaries.

The policy itself is not discussed, only its application. The present discussions among the American Stalinists does not raise the question of the fundamental policy handed down by Stalin but only Browder's application of that

48 pages, paper .15 **Pioneer Publishers 116 UNIVERSITY PLACE** NEW YORK 3, N. Y.

ready to follow Foster just as blindly. The Stalinist bureaucrats need no longer fear a discussion because the membership does not know what to discuss. This is the modification that we must introduce into our general proposition that the Stalinist bureaucrats fear discussion.

Everyone with any understanding of Marxism and with the necessary independence to raise his voice in criticism has long ago been expelled. The old members who have become functionaries have probably not forgotten the principles of Marx and Lenin, but

have become so thoroughly corrupted that there is no danger whatever that they will raise the real issue, the revisionism of Stalin and not of Browder. cussion.

**Economic Crisis Brings Misery to Austrian Workers** 

The economic crisis in war-torn Austria is steadily worsening. Typhus, one of the dread scourges of the First World War, is now spreading among a hunger- $\approx$ reakened people. The acute hous-

ng shortage adds to the gravity of the epidemic. Shortages of medical facilities, vitamins and foods are so severe

it is impossible to establish a minimum standard of health. Transport, water supply and broken down beyond repair without outside aid. Vienna now has only 12 trucks in the entire city. learn in the course of the dis-

I see by the papers that the Japanese "GI's" aren't very good oldiers. According to Lieutenant-General Geiger, as soon as they get into a tight corner, they commit suicide. Of course, you couldn't expect them to be very enthusiastic about fighting for Japanese capitalism. But you wouldn't think they'd be such dissolute characters as to go and kill themselves.

That's taking the easy way out. Anybody can kill himself. You're not going to get hurt killing yourself - because no one's going to hit back at you. Why, when you look at it that way, it's lower than attacking a little child! The child can raise its hand against you. But how can you fight back against yourself when you're using both hands already — to kill yourself!

It's a mean trick all right, and nobody but the lowest of the low would do it. Here they have a chance to surrender and give their bodies a break by living in a prison camp. And they're so mean to their bodies, they go and kill them!

### GREEKS AND ROMANS THOUGHT IT BRAVE

Of course the ancient Greeks and Romans used to think it was a brave thing to commit suicide rather than surrender. But after all, they used to think heaven was a gloomy place — and it took lots of guts to face it. Nowadays, with the Japanese and American heavens such happy places, no one but a coward who wants to get away from the shooting would think of doing himself in to escape.

And of course when General McAuliffe was asked to surrender at Bastogne, he said "Nuts." He didn't commit suicide: he just sent in a few hundred more American soldiers to get killed by the Germans. You might say he did commit suicide by proxy - if you wanted to be nastv.

All of which reminds me that Scissorbill Sam, the bosses' man, got a letter from his brother in the Pacific Islands telling of the dirty tricks the Japanese soldiers use when they fight. Scissorbill said

"My brother says three or four of our boys will be in a foxhole and it's pitch dark, see? A Jap jumps into the hole with them and shoots one of them. So they all begin shooting and they all kill each other. That way one Jap kills three Americans. Oh, the Jap gets killed, too, of course. But hell, he don't give a damn!"

## ROBBED BY PHILLIPS PACKING CORP.

And so they called a strike. The workers of Barbadoes are The company immediately orlered out the police and sent for a British liaison officer to "arbitrate" the dispute.

The company is thoroughly confident it will win, for under the terms of the contract, the Barbadians, like laborers under the Nazi regime in Germany, may not be employed by any other person except Phillips Packing.

## VOTE TROTSKYIST!

## In the Coming New York Elections

Among other important issues, the Socialist Workers Party Election Platform advocates:

### ORGANIZATION OF THE WAR VETERANS BY THE TRADE UNIONS!

The forces of native fascism are lying in wait for the veterans. They want to turn them against racial minorities, poison them against the labor movement, organize them into fighting detachments and establish fascism in America. The trade unions must act in time to save the people from this fate. Make the struggle for the veterans' rights a union fight!

## Mid-West Workers Hear Grace Carlson

By JACK O'CONNELL

MILWAUKEE-Convinced that listened to her speech. Forty-two he Socialist Workers Party is a party of fighters, more than 50 workers left the meeting for Grace Carlson at the Pfister Hotel July 17 with a much clearer vision

of the socialist future. Among hose present were auto workers and their wives from the most nilitant UAW local here. The audience was visibly moved

when the speaker "got tough" with a "freethinker" who inlignantly attacked her sympathy with the women victims of social injustice and the strayed girls thrown into Federal prison and oranded for getting an extra serviceman's allotment. She insisted that we fight the "big criminals," the robber barons and their system that breeds crime. The meeting adopted a resolu-

tion on behalf of William Patterson, militant miner framed-up and imprisoned under the Smith-Connally Act. A collection of \$20.00 was taken and several

### Uict( **MISLOFY UT AMERICAN** ITULSKYISI

In previous installments of his book, Comrade Cannon told how the Communist Party grew out of the left wing of the Socialist Party in 1919. After four years of underground life, it was organized as a legal party in 1923, beginning to penetrate the union movement. Factional struggles on a high theoretical level involving the Russian question, began between the proletarian wing and the petty bourgeois tendencies within the party. Comrades Cannon and Spector smuggled a single copy of Trotsky's suppressed Criticism of the Draft Program of the Communist International to America, and slowly built a group of adherents within the party. Tried and expelled for Trotskyism on October 27, 1928, the Left Opposition then issued The Militant and led an open fight for American Trotskyism. Slowly they won over individuals from the Communist Party. By 1930, with their own office and mimeograph machine, they began to "sail forward." This is the tenth installment of Cannon's book.

Last week we finally got out of the Stalinized Communist Party, found ourselves expelled, formed the faction of Trotskyism and began our great historic struggle for the regeneration of American Communism. Our action brought about a fundamental change in the whole situation in the American movement, the transformation, virtually at one blow, of a demoralizing, degenerating national faction fight into a great historical principled struggle with international aims. In this abrupt transformation one can see illustrated once them with new hope and new energy to persevere in the struggle. again the tremendous power of ideas, in this case the ideas of unfalsified Marxism.

\* \* \*\*

These ideas made their way through a double set of obstacles. The long drawn-out national faction fight, which I have briefly described in the preceding lectures, had brought us into a blind alley. We were lost in petty organizational considerations and demoralized by our nationalistic outlook. The situation seemed insoluble. On the other side, in distant Russia, the Bolshevik-Leninist Opposition was completely smashed in an organizational sense. The leaders were expelled from the party, proscribed, outlawed and subjected to criminal prosecution. Trotsky was in exile in far-away Alma Ata. Units of his supporters throughout the world were scattered, disorganized. Then, through a conjuncture of events, the situation was righted, and everything began to fall into its proper place. A single document of Marxism was sent by Trotsky from Alma Ata to the Sixth Congress of the Comintern. It found its way through a fissure in the secretarial apparatus, reaching the hands of a few delegates-in particular, a single delegate of the American party and a single delegate of the Canadian party. This document, expressing these all-conquering ideas of Marxism, falling into the right hands at the right time, sufficed to bring about the rapid and profound transformation which we reviewed last week.

### **Repercussions Throughout the World**

The movement which then began in America brought repercussions throughout the entire world; overnight the whole picture, the and especially I, had been accustomed to speaking to fairly large whole perspective of the struggle changed. Trotskyism, officially pronounced dead, was resurrected on the international arena and tour, speaking to hundreds and sometimes thousands of people. inspired with new hope, new enthusiasm, new energy. Denunciations Now we had to speak to individuals. Our propagandistic work against us were carried in the American press of the party and re- consisted mainly of finding out names of isolated individuals in the printed throughout the whole world, including the Moscow Pravda. Communist Party, or close to the party, who might be interested. a rule, it isn't to serious because when you leave one set of asso-Russian Oppositionists in prison and exile, where sooner or later arranging an interview, spending hours and hours talking to a single ciations, political, personal and social, you are immediately propelled Square we had to defend ourselves against physical attacks. copies of Pravda reached them, were thus notified of our action, our individual, writing long letters explaining all our principled positions into a new milieu. You find new friends, new people, new associates.

## HOW GENUINE MARXISM WAS RE-BORN AND TOOK ROOT THROUGHOUT THE WORLD

## By James P. Cannon

they learned that fresh reinforcements had taken the field across people-not by tens, not by hundreds, but one by one. the ocean in the United States, which by virtue of the power and things done by the American Communists.

Leon Trotsky, as I remarked. was isolated in the little Asiatic village of Alma Ata. The world movement was in decline, leaderless, suppressed, isolated, practically non-existent. With this inspiring news of a new detachment in far-away America, the little papers and bulletins of the Opposition groups flared into life again. Most inspiring of all to us was the assurance that our hard-pressed Russian comrades had heard our voice. I have always thought of this as one of the most gratifying aspects of the historic fight we undertook in 1928-that the news of our fight reached the Russian comrades in all corners of the prisons and exile camps inspiring

As I have said, we began our fight with a rather clear vision of what we were up against. We didn't take the step lightly or without due thought and preparation. We anticipated a long drawnout struggle against heavy odds. That is why, from the very beginning, we held out no optimistic hopes of quick victory. In every issue of our paper, in every pronouncement, we emphasized the fundamental nature of the fight. We stressed the necessity of aiming far ahead, of having endurance and patience, of awaiting the further development of events to prove the rightness of our program.

### 'The Militant'' Is Launched!

First in order, of course, was the launching of our paper, The Militant. The Militant was not a surreptitiously distributed mimeographed bulletin, such as satisfies many little cliques, but a fullsized printed paper. Then we set to work, the three of us-Abern, Shachtman and Cannon-whom they disdainfully called the "Three Generals Without an Army." That became a popular designation fidence. We had a program, and we were sure that the program would enable us to recruit the army.

We began an energetic correspondence; wherever we knew anybody, or whenever we heard of somebody who was interested, we would write him a long letter. The nature of our agitational and propagandistic work was necessarily transformed. In the past we, audiences-not long before our expulsion I had made my national

revolt in America. In the darkest hour of the Opposition's struggle, | in an attempt to win over one person. And in this way we recruited

No sooner had the explosion taken place in the American move weight of the country itself, gave importance and weight to the ment, that is, the United States, than Spector carried through his part of the compact in Canada; the same thing took place there; a substantial Canadian group was formed, and began cooperating with us. Comrades with whom we had been in contact came to our banner in Chicago, Minneapolis, Kansas City, Philadelphia-not big groups as a rule. Chicago began with a couple of dozen, I think. The same number in Minneapolis. Three or four in Kansas City: two in Philadelphia, the redoubtable Morgenstern and Goodman. Ir some places single individuals took up our fight alone. In New York we picked up a few here and there-individuals. Cleveland, St. Louis and the mine fields of Southern Illinois. This was about the range of our organizational contact in the first period.

### The Pressure of Social Ostracism

While we were busy with our singlejack agitation, as we used to call it in the IWW-that is, proselytizing one person to anotherthe Daily Worker, with its comparatively big circulation, blazed away at us in full-page and sometimes double-page articles day after day. These articles explained at great length that we had sold out to American imperialism; that we were counter-revolutionists in league with the enemies of labor and the imperialist powers scheming to overthrow the Soviet Union; that we had become the "advance guard of the counter-revolutionary bourgeoisie." This was printed day after day in a campaign of political terrorization and slander against us, calculated to make it impossible for us to retain any contact with individual members of the party. It was made a crime punishable by expulsion to speak with us on the street, to visit us, to have any communication with us. People were brought up on trial in the Communist Party charged with having attended

a meeting at which we spoke; with having bought a paper which we sold on the streets in front of the headquarters on Union Square: and we had to admit there was some truth in it. We couldn't help or with having had some connections with us in the past-they were admitting that we had no army, but that did not shake our con- compelled to prove that they had not maintained this contact afterwards.

A wall of ostracism separated us from the party members. People whom we had known and worked with for years became strangers to us overnight. Our whole lives, you must remember, had been in the Communist movement and its periphery. We were professional party workers. We had no interests, no associations of a social nature outside the party and its periphery. All our friends, all our associates, all our collaborators in daily work for years had been in this milieu. Then, overnight, this was closed to us. We were completely isolated from it. That sort of thing usually happens when you change your allegiance from one organization to another. As

But we experienced only one side of that process. We were cut off from our old associations without having new ones to go to. There was no organization we might join, where new friends and coworkers could be found. With nothing but the program and our bare hands we had to create a new organization.

We lived in those first days under a form of pressure which is in many respects the most terrific that can be brought to bear against a human being-social ostracism from people of one's own kind. In a large measure, I personally had been prepared for that ordeal by an experience of the past. During the first World War, I lived as a pariah in my own home town among the people I had known all my life. Consequently the second experience was, perhaps, not as hard on me as on some of the others. Many comrades who sympathized with us personally, who had been our friends, and many who sympathized at least in part with our ideas were terrorized against coming with us or associating with us because of that terrible penalty of ostracism. That was no easy experience for our tiny band of Trotskyists, but it was a good school just the same. Ideas that are worth having are worth fighting for. The slander. ostracism and persecution which our young movement throughout the country stood up against in the first days of the Left Opposition in America was excellent training in preparation for withstanding the social pressure and isolation that is to come in connection with the second World War, when the real weight of capitalist society begins to bear down upon the stiff-necked dissenters and oppositionists.

The first weapon of the Stalinists was slander. The second weapon employed against us was ostracism. The third was gangster-

Just imagine, here was a party with a membership and periphery of tens of thousands of people, with not one daily but no less than ten daily papers in their arsenal, with innumerable weeklies and monthlies, with money and a huge apparatus of professional workers. This relatively formidable power was arrayed against a mere handful of people without means, without connections-without anything but their program and their will to fight for it. They slandered us. they ostracized us, and when that failed to break us, they tried to beat us down physically. They sought to avoid having to answer any arguments by making it impossible for us to speak, to write, to exist.

### Bringing Trotskyism to the Vanguard

Our paper was aimed directly at the members of the Communist Party. We didn't try to convert the whole world. We took our message first to those whom we considered the vanguard, those most likely to be interested in our ideas. We knew that we had to recruit at least the first detachments of the movement from their ranks.

After our little paper was printed, then the editors, as well as the members, had to go out to sell it. We would write the paper. We would next go to the print shop, hovering over the printer's forms until the last error was corrected, waiting anxiously to see the first copy come off the press. That was always a thrill-a new issue of The Militant, a new weapon. Then with bundles packed under our arms we would go out to sell them on street corners in Union Square. Of course it wasn't the most efficient thing in the world for three editors to transform themselves into three newsboys. But we were short of help and had to do it; not always, but sometimes. Nor was this all. In order to sell our papers on Union (To be continued)

### From England Editor:

We in England are awaiting the result of the election and we are hoping that the noticeable swing to the left will be seen by the election of a Labor Government. The election has been a good field of work to us here in Sheffield, for it has enabled us to put our program before a very wide strata of the workers.

We came across many people, while working for labor candidates, who told us they had no faith in the reactionaries. This was very encouraging and you may be sure we used these opportunities to the full. We had two Stalinist candidates in Sheffield, the only town in England with more than one, and we have exposed them and their so-called policy and program at every opportunity.

I don't think either of them has a chance of winning, due in a lot of respects to our exposure of them. We promise the workers here

nothing, only by Socialism on the revolutionary program of our party and our International. "Long live the 4th Interna

## WIN AN ORIGINAL LAURA GRAY CARTOON!

Have you been following the trials and tribulations of the "poor rich" family in Laura Gray's feature cartoons on Page 8 of The Militant? If you have, you most likely have your own pet name for this family. With this issue, we launch a contest to find the most appropriate descriptive name for them.

Three originals of these feature cartoons, personally inscribed to the winners by the cartoonist, will be awarded for the three best names submitted. First choice of the originals will go to the first-place winner; second choice to the secondplace winner; third choice to the third-place winner. In case of ties, all who submit winning names will receive an original feature cartoon, by Gray.

All readers of The Militant are eligible for the contest and there is no limit on the number of suggested names a contestant may enter. Just send in your entries, clearly written on a sheet of paper, together with your full name and address.

The contest will run for six weeks. All entries must reach The Militant office, 116 University Place, New York 3, N. Y. by August 31. Editors of The Militant will judge the contest and decide the winning entries. Their decision will be final.

helped palm him off as a people's By Jeff Thorne I said Lausche is a "dangerous enemy" of the working people. FLINT, Mich., July 21 fortable by treating us with That cannot be too strongly

The solid front of Flint's 50,-000 auto workers against warfattened General Motors Corporation was demonstrated July 18 when workers of the AC Spark Plug Division of GM voted 6603 to 1650 for strike action.

The day before the vote, conducted by the National Labor Relations Board, the presidents of Flint's three major UAW-CIO Locals personally distributed handbills bearing their local's endorsement of AC Local 651 and urging a pro-strike vote. They are Everett Francis of Fisher Body 581, Ben Woodard of Buick 599 and Tex Owens of Chevrolet 659. This was the more significant because Regional Director Carl A. Swanson and UAW Vice President Walter Reuther had tried to get the vote canceled and had issued statements little different from those of the government and AC management. But the ranks and local leadership rallied behind the AC workers.

REVIVE FLYING SQUADS The general discontent is reflected in the revival of Flying Squadrons in the Flint locals, such as led the 1937 strikes. Hundreds of union militants are joining the flying squadrons and meeting weekly, although the locals meet only monthly.

Besides the universal breakdown of bargaining, AC workers have a major grievance in their 20 per cent lower wage scale than other GM plants here. This issue is always in the background and has been before the War Labor Board many months. Out of more than 100 recent grievances, only five have been settled satisfactorily.

VOTE FOR DOBBS & SIMPSON TROTSKYIST CANDIDATES IN THE COMING NEW YORK ELECTIONS

with no reduction in pay!

A rising scale of wages! Increase wages to meet the increased cost of living!

Operate all government-built plants under workers' control!

2. Independence of the trade unions from the government!

Rescind the no-strike pledge! Withdraw union representatives from the War Labor

Board!

3. Organization of the war veterans by the trade unions!

4. Full equality for Negroes and national minorities! Down with Jim Crow!

5. Working class political action! Build the independent labor party! Establish the workers' and farmers' government!

6. Tax the rich, not the poor! No taxes on incomes under \$5,000 a year!

7. A working class answer to capitalist militarism!

Military training of workers, financed by the government, but under control of the trade unions! Trade union wages for all workers in the armed forces!

8. Hands off the European and colonial peoples!

Withdraw the Allied Occupation Troops from Europe! Solidarity with the revolutionary struggles of the European and colonial peoples!

A HISTORICAL SKETCH A WORKERS' PROGRAM By FREDERICK J. LANG IONEER PUBLISHERS . NEW YORK **Order from Pioneer Publishers** 

116 University Place, New York 3, N. Y.

ant for some time and was curious to hear some of the ecturers, so I went down to Philadelphia to hear Grace Carlson. After being spellbound by her, I would certainly like to hear more. On Sunday, June 20 I heard Vincent Dunne speak at a picnic, and he had the same effect on me. I wish I could hear them over the radio-that would be swell! I have just seen the propaganda movie "God Is My Co-Pilot." In the beginning of the movie, a farm boy started fooling with planes. He wanted to become a pilot—so all he did was go to West Point and become a cadet! When he came out he was a firstclass pilot. But in the whole city of Reading, no one that I have talked to has ever known anyone in the city who ever had a chance to go to West Point. Why don't the movies show how a farm boy got that chance? Personally I don't believe it, do you? I only had a little schooling, but with The Militant I am learning fast. I expect to go to the Quarkertown picnic on August 5.

If I had enough money, I would hire Grace to speak on the radio five hours a day! If someone like me can see the light at only one of her speeches, how they would affect all the working people!

B. N. D. Reading, Pa.

Ambition, power, and avarice, now have hurled Death, fate, and ruin, on a bleeding world. See! on yon heath what countless victims lie,

Editor:

Hark! what loud shrieks ascend through yonder sky: Tell then the cause, 'tis sure the avenger's rage Has swept these myriads from life's crowded stage: Oppressors of mankind to you we owe

The baleful streams from whence these miseries flow; For you how many a mother weeps her son, Snatched from life's course ere half his race was run! For you how many a widow drops a tear, In silent anguish, on her husband's bier!

Ah! when will come the sacred fated time, When man unsullied by his leaders' crime, Despising wealth, ambition, pomp, and pride, Will stretch him fearless by his foemen's side?

Kings are but dust - and the last eventful day Will level all and make them lose their sway. . . .

may not strictly come within that category, but they are an excellent commentary on the causes and effects of war, as true now as when written in the early part of the 19th century. Shelley died at 28, already a political exile, though per-

death, he participated in Greece's war for independence. D. S.

"Entered as second class matter March 7, 1944 at the post office at New York, N. Y., under the act of March 3, 1879."

Only the world revolution can save the USSR for socialism. But the world revolution carries with it the inescapable blotting out of the Kremlin oligarchy.

— Leon Trotsky

## "Peace" Pact Pay-Off

Not so long ago, with a great fanfare of publicity, William Green of the AFL and Philip Murray of the CIO signed a "peace pact" with Eric Johnston, president of the U.S. Chamber of Commerce. This pact, the workers were told, would insure industrial peace in the postwar world.

Now comes the payoff — in the shape of a virtual declaration of war on the labor movement by the self-same U. S. Chamber of Commerce. This declaration of war takes the shape of a program adopted by the Chamber by a vote of 2,658 to 42 - not far short of unanimous.

The program calls for government regulation of the trade unions and an end to the closed shop. Evidently the Chamber, which maintains powerful lobbies in Washington and in the State legislatures, intends to drive through additional antilabor legislation.

This is not all. The Chamber's program calls for an end to "Federal appropriations or participation in the financing of public subsidized or welfare housing." This in spite of the fact that there is an acute and country-wide housing shortage, that 14 million out of 37 million housing units lack modern toilets, that 12 million have no private bathtubs, 11 million no running water, 8 million no electricity.

With the replacement of Browder by Foster, they hope to see the dawn of a new day in their party. They hope that it will once more become a revolutionary party — the vanguard of the workers in their struggle for emancipation. But all such hopes are illusory. A party that has gone for so many years through the corroding, degenerating influence of Stalinism can never be reformed. Before the Stalinist workers shout themselves hoarse for Foster as the new leader, let them pay close attention to Foster's line as he himself announces it.

On the second day of the New York State Convention of the Stalinists, Foster "emphasized," according to the July 23 Daily Worker, that the war against Japan "is a people's war of liberation." This is a continuation of Browder's support of imperialist war.

On the no-strike pledge, key question facing labor, Foster "maintained that Communists remained adamant in support of it." He added, it is true, the proviso that "Communists and trade unionists will have to analyze" strikes when they "do break out" but adamant support of the no-strike pledge clearly leaves little room for "analysis." So what is the difference between the line of the

newly-anointed Foster and that of the now disgraced Browder? The answer is that there is no essential difference. The old line of Browder has simply been dressed up in radical phraseology. That line is the line of subordinating the interests of the workers to the interests of the imperialist war-makers. It is a line which means sabotage and betrayal of the workers' struggle to preserve their unions and defend living standards.

## **Capitalist Generosity**

Counter-revolutionary intent, sugar-coated with a hypocritical humanitarianism, formed the substance of an announcement last week by Secretary of Interior Ickes that 6,000,000 tons of American coal must be shipped to Europe by year's end to keep public utilities in operation, provide fuel for cooking, and to keep the water from freezing in millions of homes.

Ickes was speaking as Solid Fuels Administrator for War. Said he: "Cold and hunger can be expected to kill thousands and the children of Europe will surely carry the marks of the coming winter to their graves."

Mr. Ickes was quite complacent while these same children were being bombed out of their homes. His pretended concern for their plight now is intended to quiet possible opposition to the shipment of American coal abroad, which, as he warns, will contribute further to the severe fuel shortage in this country during the coming winter.

The Wall Street capitalists for whom Ickes speaks are not really concerned about the fearful plight of the European masses. What they ARE concerned about is the possibility that a revolution in Europe would end the system of capitalism which produced this terrible welter of misery.

Ickes admitted that himself when he further stated: "The race in Europe today is between coal and anarchy. Europe must have coal without loss of time if serious political and social upheavals are to be prevented. I do not think it is going too far to say that a coal famine of such severity as to destroy all semblance of law and order is certain

"If you can't send hamburger for the servants I'll find a market that will. I'm certainly not going to feed them steaks-what with the shortage and our boys fighting overseas and all!"

## **Shoddy Goods Conceal Skyrocketing Price Rise**

SATURDAY, JULY 28, 1945

To the worker's wife whose mending basket looks like a mountain, quality deterioration isn't news. But 🕹 Consumers' Union has released some facts on why clothes costing many times their pre-war figures, literally fall apart.

Since 1941, quality deterioration throughout the country has raised merchandise prices 20 percent, the report (PM, July 22) reveals. That's OVER the "legal" price increases. Arthur Kallet, director of Consumers' Union, said that while textiles and house furnishings have deteriorated most, "upgrading" has increased ALL consumers' goods prices.

"Mothers who have to pay 100 percent above prewar prices for children's garments, are actually paying 200 or 300 percent more if shoddiness of the garments is considered," he explained.

Mrs. Nessa Feldman, executive member of the League of Women Shoppers, added more examples. "Some children's shoes are made with paper soles. Shoes that used to last three months with one repair, now last two weeks." And some are so poorly made they "cannot be repaired at all."

Housedresses are skimpily cut, shrink out of wearable size at one washing, and split at the seams. But there's no limit to their prices. By taking off a ruffle, the manufacturer changes the style, making it a "new product" at a new and better profit. Former \$2.98 house-dresses, Mrs. Feldman declared, now sell as \$5 "street dresses."

Textiles are a boon to profiteers, too. Cheap cotton potato-sacking known as Osnaburg, which has no strength or durability, was bleached, dyed, printed and sold as "butcher linen" at a fancy price. A doctor who obtained priorities on gauze for bandages, sold it to converters. They starched it, labeled it "curtaining" and "dress fabric," and changed the price-tag -made it 40 cents a yard instead of the previous ceiling price of 51/2 and 9 cents!

Textile manufacturers, who have blocked the manufacture of low-priced clothing for children and workers, are reaping eight times their pre-war profits. Department stores are wallowing in ten times their 1939 "earnings." Meanwhile government agencies continue the freeze-not on prices and profits, but on workers' wages alone.

## **Republic Steel Grabs Sixty Percent More!**

The Republic Steel Corporation cleared a net profit in the first six months of 1945 of \$6,356,252. This is AFTER taxes, and after all the fat salaries of the big executives, superintendents, etc. have been paid.

In the same period of 1944 the take was only \$4,-275,266. This year showed a net profit gain of over 60 percent. It is just one more glaring proof that the income freeze is a wage freeze only, and applies strictly to workers, not their employers.

The men who make the steel get as low as 78 cents an hour. But Republic and other steel giants whose profits have more than doubled in the war years refuse to give one penny hourly raise to the men who produced these millions.

Since April, 1941 the steel workers have received Pleas for rice from Szechwan appear in the history of the exactly 41/2 cents general increase in their basic hour-Province were denied by the Second World War as another of ly rate. This was the famous 15 percent (War Labor Chiang Kai-shek government. the unspeakable crimes outlived Board decision, June 1942) which was supposed to

The program of the Chamber also opposes adequate relief for the unemployed, whose numbers are growing every day. (The War Manpower Commission estimates that there will be two million without jobs by fall). Says the program: "If economic conditions compel expenditures for unemployment relief in the postwar period, reliance should be primarily on State and local administration and financing." That means starvation! •

Regarding war plants built by the government with public funds, the Chamber demands that they be "earmarked for orderly disposal to private industry." That means handing them over to the war profiteers for closure and dismantling!

Naturally the Chamber's program did not omit the demand for greatly reduced taxes — not the taxes that bear down on the workers, but those which irk the capitalists, especially estate and inheritance taxes.

Too corrupt and too cowardly to fight for the interests of the millions of workers they are supposed to represent, Green and Murray evidently thought they could head off the threatening offensive of Big Business by their "peace pact" with Johnston. The Chamber's newly-published program is the answer they have received to their belly-crawling tactics.

## **Browder And Foster**

The discussion taking place in the Stalinist ranks, since the publication of the article in which Duclos denounced Browder, is typical of that "unanimity" which is so peculiar to the Stalinists. Every discussion article in the Daily Worker is cast in the mold supplied by Duclos. All the articles read alike; they all make the same arguments; they all use the same phraseology. "Unanimous" approval of Browder, which has been the rule in the Stalinist ranks for the past 15 years, has now become ----"unanimous" disapproval! Today instead of Browder, it is Foster who receives the unanimous acclaim.

This unanimity with which Browder is now being denounced is, of course, part and parcel of the totalitarian Stalinist Party, its regime and its method of functioning. However, it would be wrong to minimize the degree of genuine resentment against Browder's line, resentment which has been pent up in the breasts of Stalinist workers. Many of them are sincere believers in Socialism. How they must have burned with shame at having to act as strikebreakers, finks and fingermen for the bosses at Browder's command! What pariahs they must have felt themselves among militant workers fighting to defend the interests of the labor movement against the onslaught of Big Business!

in countries in northwest Europe next winter unless immediate and drastic action is taken."

## Seeds Of War

Despite all the high-powered publicity dished up by the Allies about fighting the present war in order to achieve enduring peace, the curtain rising on the European postwar scene reveals a situation which promises anything but enduring peace.

Defeat of the Axis, we were told, would insure world peace, because only the Axis powers were "aggressors," while the rest were "peace-lovers." In Europe, the Axis has been destroyed. Yet here, right now, the seeds of World War III are rapidly being planted. Defeat of the Axis has not banished imperialist rivalries which lead to war. It has only shifted their focus.

An illuminating example of the development of these rivalries is contained in a Paris dispatch to the N. Y. Times telling of the "gulf between France and Britain," which is "as broad as ever." Negotiations for a "pact" between the two countries "have been in suspension for six months because of differences that seem to grow rather than diminish."

The imperialists of France and Britain are at odds for the most sordid reasons. The French, greatly weakened by the defeat they suffered at the hands of Germany, fear the British will seize. their colonies. They are burning with rage because Britain's troops moved into French-dominated Syria. These "peace-loving" powers are also snarling at each other over war booty in Europe. French capitalism wants to sink its teeth in the great industrial areas of the German Ruhr and Rhineland. But the British bulldog has already fastened a grip there and doesn't intend to let go.

This single segment of the world of imperialist rivalry — the Anglo-French antagonism — is typical. The "peace" in Europe, far from evidencing an era of "international cooperation," discloses unmistakably the root beginnings of more bloody wars.

The Indian capitalists are eager to reach agreement with the British imperialists. "The Congress Party will show the same cooperation and friendliness, Nehru affirmed, "that we have displayed during the Simla con-

Viceroy.

India

gress Party and the Moslem

League. The Central Executive

Committee is appointed by the

the Simla conference.

ference if the Wavell plan is revived in the future." Against the aspirations of the Indian people for freedom, the native capitalists act as agents of the foreign imperialists. They fear a revolutionary upsurge of the masses, for it would mean the end of their privileged position. On the other hand, they are not the least reluctant to strengthen their position and increase their profits at the expense of the British. But Nehru's declarations give public notice that the Indian capitalists will work hand in glove with the British oppressors when the revolutionary storm breaks.

capitalism has committed against | bring wages in line with the cost of living. The Republic Corporation is called part of "Little Steel." But this is only by way of comparison with the tremendous size and colossal profits of U.S. Steel ("Big" Steel). The only thing really "little" is the miserable size of their workers' paychecks.

## "Raise Workers' Taxes," Wall Street's Battle-Cry

The Financial World for July 18 comments that Secretary of the Treasury Henry Morgenthau lost his job because he was too hard on the big corporations with his tax program.

"The times are changing," the article says. "The New Deal with its peculiar financial and economic views (i.e. its policy of giving a few crumbs to the unemployed, etc.) is being relegated to the background. . . what likewise militated against Morgenhau was his strict adherence to rigid and harsh tax policies (excess profits tax?) that could not set well in the reconversion and post-war adjustment period whose threshold the nation is now approaching."

The corporations make the biggest profit-grab in nistory-after taxes-but the tax collector is "rigid" -and "harsh"! High taxes would not "set well." And yet there will be a three hundred billion dollar national debt. Each year's interest alone will amount to more than was ever spent in any year on WPA.

As for paying back the principal itself, this can't be considered-without a program of even higher taxes.

This debt is owed to banks and financiers mainly. The working people can't afford to hold many bonds. And the banks and financiers are going to see that

They want a tax policy which puts the whole burden of payment on the workers. The new Secretary of the Treasury, Fred Vinson, Financial World goes on to say, is a "more practical man, one who can work with Congress in shaping up new tax policies in conformity with the changed economic conditions that our post-war years will bring."

Vinson's "practical" attitude toward workers was demonstrated when he gave the railroad workers such a dirty deal a year and a half ago. He can be depended upon to give the whole working class an equally dirty deal in taxation.
