Mass Picketing Halts Cleveland Police Terror

(Special to THE MILITANT)

By George Grant

CLEVELAND, O., Sept. 6. — In the greatest demonstration | Enforce Jim Crow of labor militancy and solidarity this city has witnessed in years, more than 2,000 AFL, CIO, MESA and other organized workers In Harlem Area today joined in a fighting mass picket line that gave a fitting answer to the bloody police brutality yesterday against strike pickets of the AFL Machinists in the two-week old Parker Ap-

Workers from all sections of to limit the united front to a the labor movement, many of "Jobs for All" rally on September them marching from nearby 12. plants, swarmed to the aid of the embattled machinists, 13 of whose members were fearfully clubbed and beaten yesterday by Cleveland mounted police attempting from the Parker plant gate. Withto run strikebreaking office employes through a picket line of

UNITED FRONT

Tonight, at a united front meeting of 60 delegates from leading CIO, AFL, MESA and Railroad Brotherhood locals here, originally called to organize a joint rally against mass layoffs, the spirit of unity cemented by today's joint picket line swept the conference. Delegate after delegate called for a continuation of floor to establish a permanent united front body was passed with an ovation, despite original plans of Stalinist union leaders

The beating of the machinist pickets occurred when they were attempting to persuade a carload of office personnel to turn back out warning, a troop of 26 mounted police charged with their huge horses directly into the picket line, mercilessly trampling and clubbing the unarmed workers.

COPS ORDER TEARGAS

Wayne E. Sorge, police deputy inspector, led the charge on foot, rushing to the picketed gate wildly swinging his club. Inspector Storey waved a tear gas cannister threateningly at the strikers and ordered tear gas guns to be brought forward. The workers dejoint action on all picket lines and | fended themselves as best they in the common struggle for jobs | could. One mounted policeman, and security. A motion from the unhorsed by a well-aimed brick, was sent to the hospital. Thirteen workers were injured in the

If---If----If---

New York Police

By Bill Morgan

NEW YORK, N. Y.—"Keep out of Harlem!"—this is the latest order being given by New York policemen to white people entering the largest Negro community in the country.

Lifting a page from Hitler's text-books, the New York police are conducting a campaign to inimidate white people from visitng Harlem. This campaign is designed to establish ghettos for the Negro people similar to the "For Jews Only" areas set up by the Nazis in Europe.

This policy of isolation is an extension of the already estabished procedure of Jim Crow neighborhoods in this city. Not content with driving the Negro out of "white" districts, the police are now attempting to build a wall around Harlem.

SHIFTING THE BLAME

Police Commissioner Valentine and Mayor La Guardia have both shifted the responsibility for this campaign of intimidation to "unauthorized persons who are unknown" by refusing to take any action to prevent further intimidation of white people visiting

or moving to the Harlem area. Testimony from several people who have been stopped by police-men asking, "What are you doing in the nigger section of town?" indicates an organized effort to isolate the Negro community and to prevent white people from visiting friends or rela-

tives in this part of the city. Congress Scuttles Bill Statement of a General Motors For \$25 Jobless Relief

Creaking into motion last week amidst an unemployment crisis already affecting millions, Congress from the start showed its callous disregard for the needs of American labor. Senate and House Committees openly demonstrated their hostility even to the slight improvements in unemployment compensation proposed in the administration-sponsored measure for a \$25 maximum for 26 weeks.

At hearings on Senator Kilgore's bill and its companion measure Forand, the majority of the members of the Senate Finance and House Ways and Means Committees expressed open sympathy for the views of the numerous corporation and "states rights" obbyists who paraded before

(Topics of ganda campaign on the part of Snyder recently testified, \$22 tothe Day in Wall Street, N. Y. the kept press and employers' organizations. The state govern-

ments have been lined up almost solidly against it. Representatives introduced by Representative of the latter have indicated that even if the bill were passed, laws in about 40 states might prevent payment of present state aid where the workers secure federal supplements.

This assault of the war profitsbloated corporations and their Congressional agents reached frenzied heights last week as the U. S. Bureau of Employment Security reported that unemployment insurance claims had increased from the previous weekly average of 300,000 to almost 1,000,000 by August 25.

The labor-haters' drive against jobless aid was clearly aimed at forcing the unemployed into starvation conditions where they would take any job at any wage, and thus undermine union wages and conditions. Senator George's own state of Georgia, notorious for its low wage conditions, paid last year only an average of \$10.44 weekly to its unemployed.

The very bill at which this reactionary drive is aimed would provide maximum benefits little better in terms of present purchasing power than a 1939 WPA unskilled laborer's relief wage. As Reconversion Director

(Continued on page 2)

Truman Fails To Offer Effective Solution TRADE UNION NOTES To Unemployed Crisis In Congress Message

and some supplemental handouts

MEASURES THAT FAILED Nothing in Truman's proposals went beyond the surface social reforms of Roosevelt, whom Truman acknowledged as his preceptor. Truman's measures are similar to those which notably failed, short of war, to eliminate the

"one-third of a nation ill-fed, ill- pay. clothed and ill-housed" and which "stabilized poverty" on the basis of 10,000,000 unemployed as late

On the key question immediately affecting full employment, the disposal of the governmentbuilt and owned vast war plants, Truman indicated that he is going down the line with the policy, now being speedily effected, of scrapping these huge productive facilities or turning them over to Big Business for a song, Government operation of these plants is specifically excluded by the provisions of the "Full Employment" Bill, which is Truman's principal answer to the problem of jobs for

Nowhere in his message does Truman deal with the fundamental problem of monopoly, the dominating factor in the "free enterprise" system of big profits, high prices, low wages and sabotage of full production. He refers to the "right of every businessman, large or small, to trade in an atmosphere of freedom from unfair competition." (Our emphasis).

BIG BUSINESS DOMINATION This, in effect, as Truman himself indicated by his references to the war economy, means the domination of Big Business. Thus, although he claimed "American small business is the backbone of our free enterprise system," Truman conceded "many thousands of them were obliged to close up because of lack of materials or manpower or inability to get into war production." The war further strengthened the stranglehold of the monopolies, and Truman offers nothing to alter the trend.

Especially gratifying to the Big Business moguls was the fact that Truman made no references to profit restrictions, while emphasizing his intentions to continue "wage and price stabiliza-

Truman endorsed that the percentage rate will Congress Scuttles this policy, though advising cau- yield this maximum figure. . . It | tion in moving too rapidly be cause of the enormous war debt.

SIGNIFICANT OMISSION

The most significant omission from the standpoint of labor, and the tip-off to the real direction of Truman's policy, was Truman's failure to mention the need for general wage increases to maintain mass purchasing power, now being sliced 30 to 40 per cent by reductions in the work week, shifts to lower pay jobs, downgrading, etc. On the contrary, Truman emphasizes it will be "necessary for the government to resist pressures for increases in wage rates which would imperil price ceilings.'

While Truman talks about protecting "price ceilings," his OPA has been removing one price control after another. As the N. Y. Times, September 2, pointed out: 'Virtually all of the OPA moves will tend toward higher prices."

The sole wage concession Truman advocated is the lifting of the 40-cent minimum wage, which

VOTE FOR

DOBBS & SIMPSON TROTSKYIST CANDIDATES IN THE COMING

NEW YORK ELECTIONS

he declared "obsolete." He did not specify what minimum he wants, but it is clear that it would be far less than the 75 cents hourly proposed by organized labor. Even the Pepper Bill minimum of 65 cents, which Congress is little likely to pass, would provide a wage floor of only \$26 a week, or a real wage in 1939 price terms equivalent to WPA relief

RAISES — FOR CONGRESS

More specific, however, was his proposal to take care of the 'grossly underpaid" Congress, whom Truman praises for having "most energetically and patriotically devoted its time, energies and capabilities to the immediate problems of war and to the longrange problems of peace." Truman wants to give these capitalist political tools, who have provided so generously for Wall Street and knifed every provision to aid the workers and unemployed, \$20,000 a year instead of the present \$12,500 on which they now must "struggle along."

policy and to the creation of new governmental machinery, which like the War Labor Board, would bind labor in arbitration red-tape and prevent it from taking any effective, independent militant action to secure the vitally necessary substantial wage increases every section of organized workers is now demanding.

MILLIONS OF UNEMPLOYED

Finally, Truman is confronted with the fact that millions of unemployed are already walking the streets. What provisions for adequate relief or reemployment does the government actually provide or propose to provide?

Truman starts off with the palpably false assertion that 'the Japanese sudden surrender has not caught us unawares." But from his own admissions it s clear that Congress has thus far offered not the slightest provisions for the unemployed.

For the immediate relief of the inemployed Truman advocates nis \$25 weekly maximum unemployment insurance measure. But here, as reassurance to the capitalists, he admits for the first time "what the bill does not do."

WHAT TRUMAN'S BILL DOESN'T DO

It "does not give everyone \$25 a week" but only those "who have loes not federalize the unemploy ment compensation system. . . It is an emergency measure designed to expand the present system without changing its principles." The bill has since been wrecked

And for a long-range "full employment" program, Truman supports, without specifically naming t, the policies of the Murray-Wagner-Patman bill. This fraufulent measure's most specific provision is a vague promise of the government to "assure" employment to everyone, but women and working youth, who "wants work." It contains not one concrete measure which could guarantee a single job. It is offered obviously as a means of stalling off the workers with high-sounding promises.

The administration hopes that 'free enterprise" soon will be able to "stabilize poverty" sufficiently to discourage independent economic and political action by the workers for their own genuine full employment pro-

Truman's message is but further evidence that the capitalists and their government have no fundamental solution for the antees of "normal profits" to the decayed and crisis-stricken profit corporations for years after the system of "free enterprise."

Truman is especially insistent that organized labor continue to commit itself to the no-strike Capitalist Press Distorts Figures On Jobs Crisis

By M. A. Arder

One week after the Japanese this country was well launched ican unemployed, those erstwhile "soldiers of the home front" who were being demobilized by hundreds of thousands daily, as 'bums." The press was taking up the burden of Henry Ford, that great hero of "private enterprise" who, at the depth of the last depression when there were 16 million jobless, told the newspapers: 'Anybody who really wants a job can find one.'

Let's have another look at how the kept press operates to make little ones out of big ones and/or big ones out of little ones, depending on what the said press

On August 23, the Associated Press put a story on its wires purporting to show that in the New York area "jobs still outnumbered job-seekers three to one....today, despite the swollen ranks of laid-off war workers."

Bill to Increase **Aid to Jobless**

(Continued from page 1) day is equivalent to only \$15 in 1939 buying power. The administration bill would provide less than \$22 weekly for most workers coming under its provi-

For \$25 is the maximum it would allow. It would pay, by federal supplements under state administration, two-thirds of the weekly average wage up to a top of \$25. Thus, all workers earning less than \$36.50 a week during the three months prior to unemployment would get less than \$25 unemployment compensation.

Over 50 per cent of American workers made less than 65 cents an hour-\$26.50 for a 40 hour week-during the war. Drastic JUGGLED FIGURES slashes in takehome pay with a return to the 40 hour week would mean that by the time the workers would not be entitled to full benefits.

Yet even this miserable dole is being denied by the same Congress which has provided guar-

"MORE JOBS THAN SEEKsurrender, the capitalist press of ERS." "They Lead in Ratio of 3 to 1 in N. Y. Area, U.S.E.S. Ofon a campaign to smear the Amer ficials Say," the subhead told

Philadelphians In and around New York City. there were three jobs for every unemployed worker — that's what the headline, the subhead and the body of the story impressed upon the readers of The Bulletin, whose proud boast is that "In Philadelphia, nearly everybody reads The Bulletin."

Okay—let's be like nearly everybody and let's read The Bulletin - but with our blinders off. The second paragraph of the story

"U. S. Employment Service officials estimated they had 53,484 obs — a ratio of more than three for each of the 14.385 applicants who appeared at the USES offices vesterday.

EXPOSING THE LIE

Get that - 14,000 unemployed orkers appeared at the USES offices in one day, to wit, "yesand 14,000 more tomorrow, the USES backlog of 53,000 jobs will USES lists 53,000 new jobs daily? And what kind of jobs are they The story doesn't tell you, but I will: jobs in laundries, in restaurants, in bus garages, jobs scraping wallpaper off ceilings at \$21 a week — the dirtiest and poorest paying jobs ever heard of, the kind of jobs that went begging all through the war.)

The giveaway, however, is in the very last sentence of the AP

"The CIO has estimated the total number of unemployed workers in the region at 184,000." So-ho! The "total number of inemployed," then, is not 14,000, as a careless reading of the story up to this point would lead you to believe, but 184,000! And if the USES really has openings for 53,000 workers, then the ratio is three-and-a-half workers to every job, not three jobs to every work-

juggles the figures — "figures don't lie," ha, ha! — to fob off measure is passed, if at all, most the idea that unemployment in N. Y. is a myth, that there are MORE JOBS THAN SEEKERS, that (by implication) the unemploved are "bums," working people who don't want to work.

It's very simple. You take the 14,000 unemployed workers who appear at the USES offices in one day, assume that they represent the "total number of unemployed," contrast them with the 53,-000 jobs on the USES books, and studios and recommended that voila! — you've got yourself a manpower shortage.

The Real Score On Layoffs Vs. Jobs

September the War Manpower Commission made public the first of a series of unemployment surveys, revealing that in the ten days from August 15 to August 25 in just 36 cities some 1,070,800 workers were laid-off.

The total job openings listed on August 25 for these same cities by the U.S. Employment Service were 397,500, or one opening for every three workers fired. Most of the jobs offered low pay, long hours, dirty or menial work, often under non-union conditions. Many jobs listed were for nonexistent war work which employers had not bothered to inform the USES to remove from the lists!

During the first week of

an increase through its enormously bloated war profits.

Another Blow at Negroes

Representatives of the Governors' Council recently visited the White House and demanded that the United States Employment Service be turned over to the control of the states. Truman is reported to have listened sympathetically to the demand.

Negro workers have been particularly hard hit by current mass the workers, they are suffering | working stiff."

from the policy of the USES in forcing the unemployed to take low-wage, sweatshop jobs or lose their unemployment compensa-

But if the USES is turned over to the states, the Negro workers face a special peril. The National Negro Press Association warns that under state control the government employment agencies may be used wholesalely in the South to get the Negroes back into the kitchens and other menial jobs at sub-standard wages."

Ioke of the Month

"The International Union will not be used as a strikebreaking agency for any institution." Believe it or not, that declaration is quoted verbatim from page 16, September issue of The International Teamster, personal organ of AFL Teamsters' czar Daniel I. Tobin.

The article is a self-righteous explanation by Tobin of how he was solicited by the New York Publishers Association to help break the recent strike of the independent newspaper carriers union, but Tobin "refused to enter into any kind of negotiations or conversations with any publisher in New York during the ime the men were on strike."

Of course, one could ask how come the labor-hating publishers approached Tobin at all, unless they knew their man. Aside from that, however, the labor movement can still smell the stench of Tobin's most recent strikebreaking venture, during the recent independent drivers strike in Chicago. The strike was supported by thousands of men from Tobin's own union. Tobin's paid agents mobilized hundreds of goons and gorillas who launched a reign of terror, slugging and intimidating the AFL drivers back to work, while the Army forced 13,000 troops to act as strikebreakers against the independent drivers.

On Labor Day

We're glad to read in at least ne trade union paper something different than the usual drivel bout Labor Day, the holiday sponsored by the government in competition with the traditional international day of labor struggle, May Day.

An editorial in the August 31 Seafarers Log, organ of the Atlantic and Gulf District of the AFL Seafarers' International Union, reminds us that "just as the storekeepers gave themselves Mother's Day to stimulate offseason business, so the Governworkers, a poor sucker on the other 364 days.

"On the first Monday in September" the newspapers let up a bit on their labor-baiting "to drip eulogies on the 'dignity of labor'." "The industrialists, politicians,

mass chant." But "on the first Tuesday in September the assorted industrialists. politicians and laborbaiters fall all over themselves to make sure that labor continues to make sacrifices, and to heap inlayoffs. Along with the rest of dignities upon the same 'dignified'

Monroe Workers Print Daily Strike Bulletin

By Joe White

Company workers here have been | chairs, games, first-aid kits, etc., conducting a model militant strike have been provided for the rest AFL leaders is explained partly since August 13, with full picket by their fear of a bolt to the lines, a printed daily strike paper, CIO. Should this happen, AFL a highly-organized strike head quarters and a hard-hitting campaign to mobilize community support behind their struggle.

The strike was provoked by the company when it fired Herman Kraehnke, president of Local 1000, Paper Workers Orranizing Committee, CIO, of Consolidated's plant No. 1. The plant's workers answered by walking out in a body, followed the next day by the members of Local 1004 and 1006 in plants No. 2 and No. 3.

UNANIMOUS VOTE

Approximately 1,500 men and vomen, meeting August 20 in the Monroe High School Auditorium, veted unanimously to picket all three plants until Kraehnke is reinstated. The workers also determined to press a number of other demands which the company had long stalled off with the excuse of the "war effort" and "it's in the hands of the War Labor Board."

The strike is well organized and the workers very militant. A Strike Committee is functioning continuously, with headquarters

MONROE, Mich., Aug. 27 - | located in a tent between plants Some 1,800 Consolidated Paper 2 and 3. Tents, equipped with

> and comfort of the pickets. DAILY STRIKE PAPER

An outstanding feature of the strike is the daily Strike Bulletin, which carries up-to-the-minute news and guidance for the strikers. This is published by the Strike Committee. It has proved of great value in exposing company rumors and lies and forewarning the workers on the company's next strikebreaking moves.

In addition, a loudspeaker system was secured and is being used to inform the local community of the real issues in the strike and to counteract the company's big paid advertisements in the local papers.

There is a marked difference etween this strike and the Republic Steel strike here in 1937. which was broken by tear gas, clubs, state militia and strikepreakers. This is a union city today, with the bulk of the citizens sympathetic to organized labor's struggle for decent wages and

Goodrich Workers Respect Foremen's Picket Line

By Joseph Andrews

at midnight September 3, de- order." manding a 6-hour day and seniority rights.

The foremen's strike has thus far been given militant support by the Goodrich workers who have voted in two huge mass meetings not to go to work while the foremen have a picket line around the plants.

A radical transformation has taken place in the minds of the production workers in the plant since the foremen's first strike last April. In the few months out we seal up the gates and no since then, the Foremen's Association of America, Goodrich Chapter 98, has achieved status as a union in the eyes of the the United Rubber Workers militant Goodrich rubber work- stated: "I have no love for the

This issue is one which has confronted the mass production workers nationally with a difficult dilemma. Should they support the organizational efforts of the foremen who are the very men who have in the past served as the agents of the management's speed-up, intimidation and | through a picket line. anti-union campaigns?

SURE INSTINCT

With a sure class instinct the Goodrich workers have decided that foremen who have a union will be better to work with than foremen who have no job security and no recourse but to serve as the tools of top management against the workers.

When the strike broke out, the CIO Rubber Workers Goodrich Local 5 executive board issued a statement calling upon the workers to report for work. This was done by agreement with the Foremen's Association. Workers were told to go through the picket line and ring their cards in. Since most would not be able to work for lack of supervision, they would be able to draw "report for

work" pay. But the rubber workers showed that they could not find it possible to walk through that picket line, pay or no pay. The tactic was only about 10 per cent effective.

MASS MEETING

A mass meeting of over 2,000 Local 5 members was held the third day of the strike. The executive board of the local made no recommendation. It was obvious that they were still in favor of going to work, but that they knew also that the members would not obey. They left the decision up to the members.

George Bass, former president of Local 5, and now executive secretary of the Akron CIO Council, expressed the members' sentiments when he said:

"I am inspired and proud that our membership has shown in this difficult situation that they are true to the tradition that a if the foremen do not terminate picket line should be respected. the strike under the terms of no-

Signs On Trains Voice Protests Of Army Troops (Special to THE MILITANT)

By Mary Kane

ST. PAUL, Minn., Sept. 6 -"Shanghaied for the Pacific" is the way a battalion of the Ninetyseventh Infantry division, which recently passed through this city, feel about their redeployment after five and a half months' action in Europe.

Soldiers of the division had lettered signs on their railroad coaches reading:

"We're being sold down the river while Congress vacations." "They're shanghaiing us." "Why do we go from here?"

Two St. Paul Dispatch newspapermen who interviewed and photographed the soldiers at the station were taken into custody by military police, who used the excuse of secret troop movements for their action. The reporters were released only after the Twin Cities Army Security and Intelligence Division officer told battalion captains there no longer is a newspaper censorship and that they had exceeded their authority in ordering the arrest of civilians.

In a letter to the St. Paul Pioneer Press and Dispatch, infantrymen of the Ninety-seventh complained that their division. "which cracked Fortress Metz for the first time in 1200 years," was being unfairly treated. One member, they said, has eight children at home. Another was taken out of high school when he was 18, and is now 22 years old. Average age of the division is 25 years. Few of the men are eligible for release under the Army's point

Most widely-publicized protests against redeployment have come from this division. In St. Paul almost half the front page of the Pioneer Press of August 23 was given over to the protests.

AKRON, O., Sept. 9 — In their second strike this year, 800 foremen of the B. F. Goodthat we will not go to work until rich Company here walked out they have put their own house in

A MINER SPEAKS

A former West Virginia miner and member of the United Mine Workers got a big ovation when he said:

"'I'm a new member here. I've only worked here for three months. But I'm a union man. I worked in the mines for 20 years. I was in the army for 6 years. And I'm here to tell you that in the mines when one man walks man passes.'

Another old-time militant who was among those who pioneered foremen. They're the same ones we write 90 per cent of our grievances against. They are the ones who hand out the reprimands: they're the ones who hide behind posts and spy on us if we go out to smoke. But, by God, a picket line is a picket line. And never have and never will go

"I can remember the time the company would not recognize our union. I can remember the time we had to meet in the woods. I know how much we needed help in those days, and I'm not going to be a party to being a strikebreaker when the foremen are trying to organize."

REFUSE TO WORK

The meeting finally adopted a motion not to return to work until such time as "proper" supervision was provided and management put its own house in or-

At the next Sunday mass meeting, which on September 9 packed the Akron Armory with 3,000 members of Local 5, the same union spirit was demonstrated.

The executive board and negotiating committee made a recommendation that the company be asked to take the foremen back without prejudice, and that the foremen be asked to go back under those conditions. It was made clear that the purpose of this move was to get the foremen back intact, so that later, when Local reaches a climax in its developing wage fight, a joint action can

The Goodrich company had stated it would under no circumstances deal with the Foremen's Association. "I remember when Goodrich told us they would never deal with a union. I remember DO IT AGAIN!" one seasoned militant stated.

A motion to go back to work I am proud of the union spirit discrimination got little support and was quickly tabled. The meeting voted to adopt the executive board's recommendation and not to report for work until the issue was satisfactorily settled.

PRIMARY CONCERN

A primary concern of the best militants in the local is that the foremen's strike shall not drag out over such a long period of time that it will weaken the membership's staying power, and thereby make it more difficult to conduct the great battle that is shaping up over the crucial issue of take-home pay.

"Let's try to terminate this sake of American labor we can- an "all colored" steward departnot afford to be strikebreakers."

A speech by Fleet Perrine, who has earned of late a none too savory reputation in the local, was met with stern hostility. 'Are we going to let the foremen, or any little organization that throws a picket line at the plant gates, dictate to us?" he asked. "We've got to decide what is and what is not a picket line. You may decide here and now not to go to work, but a week or two weeks from now you may think differently."

A GREAT LESSON This line got no response. For although the workers felt that the foremen had used poor tactics, and had jumped the gun, only a

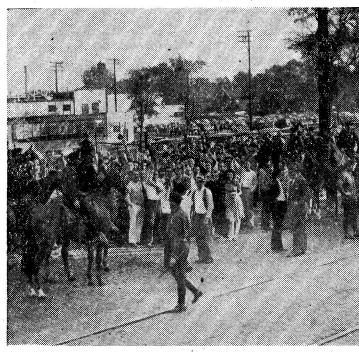

tiny handful wanted to break

their strike.

This strike will provide great essons for all CIO unions, and for the Foremen's Association. Paramount of the lessons is the proven fact that it is essential for the CIO unions and the Foremen's Association to have a working arrangement so that the company cannot use one against the other. The strength of both must be pitted against the corpora-

Diary of a STEEL WORKER

"You must be a Communist," Dave said suddenly, breaking into

our conversation. Jimmy grinned, and I did, too.

"What's this?" I wanted to know. "Red-baiting?"

"Oh, no," Dave answered quickly, looking embarrassed. "I didn't mean it that way. I meant, well. . . I used to know a bunch of Communists during the last depression, and they were like you. They didn't care what color a man was, and they were always fighting for the workingmen. In fact, a cousin of mine was out of a job and couldn't pay his rent, and his landlord kicked him out. But just

as soon as the sheriff and his men took the furniture out of the front door, a gang of them Communists carried it right in the back."

Dave saw us laughing at him and got over his embarrassment. "For a minute, I thought you meant that, about red-baiting," he said smiling back. I lit my pipe before answer-

ing him. We were sitting at our usual spot at the end of the furnace floor next to the steps waiting for the ladles to come in so we could cast. Dave was working in Reuben's place that day, while Reuben was off at a funeral. "Well, Dave," I asked, "have

you seen your friends lately?"

"No, that was about ten years ago. I was going to join, but I never did get to it. I might, one of these days, though.' "If you do," I said, "you'll be in for a disappointment."

Before he asked the question that was in his mind, I went on. "Dave, the days you remember are dead. There's a funny thing about working class political parties: without a good, solid program, they'll go haywire. And that's just what happened to the Stalinists . . that's what we call the Communist Party members, Stalinists, ollowers of Joe Stalin. They're NOT Communists, and it's wrong to call them Communists."

Dave looked indignant, righteously indignant. "Those I knew were Communists, all right," he said, raising his voice a little.

"That was ten years ago, Dave. They're changed! They're turned right around. You know why?"

He didn't answer, so I continued. "They're changed, because they hadn't been real Communists for a long time, even before you knew them

Real Communists Base Actions On Marxism

"Look, real Communists base their actions on the teachings of Karl Marx, but these people don't. They do whatever Stalin says they must do, whenever he says it. In those days you spoke about, they were pretty tough. They ACTED like revolutionists. That was their line. They said Roosevelt was a fascist.

"But then a few years later, they said, and they say it now, that Roosevelt was a great friend of labor. Why? Because Hitler, the man Stalin signed a peace pact with, turned around and attacked the Soviet Union; and so they wanted to be friends with the American capitalist government, which was fighting against Germany at the same time.

"You can expect anything from them, Dave, anything that will serve Stalin's interests. During the war they were for the no-strike pledge. They're still for it. They came out in favor of a labor draft,

and even supported the army's Jim Crow set-up." Dave was incredulous. "You mean they don't fight for racial

equality any more?" "How can they, Dave?" I asked. "How can they put up any real fight beyond just lip service? Race hatred and discrimination come from capitalism. You know that. And they don't fight against

capitalism any more. So where does that leave you?" Dave looked out into the yard. "It's kind of hard to believe,"

"Don't believe me," I said. "Look for yourself. Their paper, the Daily Worker, will show you that they've become reactionaries, scabs. They say themselves that they do NOT fight for socialism. The old days are gone, Dave. Just because they call themselves Communists doesn't mean they are."

The ladles came in then, and Dave went back to work, looking pretty puzzled. Later, on our way out, I gave him a copy of The

He looked at it suspiciously and then grinned. "Hey," he said. "This is what I mean. This is COMMUNISM! I knew you were a Communist!"

He's coming to our next forum.

4,753 Pamphlets Sold In One Day

With returns still incomplete on the results of the nation mobilization of the Socialist Workers Party branches to sell the new Pioneer pamphlet, "A Practical Program to Kill Jim Crow" by Charles Jackson, telegrams from 12 branches report sales so far of 4,753 on National Red Sunday, September 9. In a hardhitting one-day campaign which smashed all previous records in literature sales, almost half the entire edition of 10,000 pamphlets, at 10 cents a copy,

Launching its campaign for the sale of these pamphlets last week. Pioneer Publishers set a goal of most cities the mobilization lastnot more than six months for the sale of the 10,000 pamphlets. A quota to be completed during the next six months, was established and accepted by each of the 25 party branches. But the first 12 branches to report on the results of Red Sunday, show that in one day they have already sold threequarters of their combined sixmonth quota of 6,855 pamphlets!

BRANCHES REPORT

New York City's four branches sold 1,165 of their six-month quo- uted 1,200 copies of The Militant. ta of 1,800. Buffalo telegraphed that they sold out their entire duota of 300 pamphlets in two hours and requested more pamph- New York Police quota of 300 pamphlets in two

Detroit wired that 16 members of the branch sold 608 pamphlets in one day. Bill Horton was high scorer with a total of 100. In addition, 25 other timely pamphlets were sold as well as four subscriptions to The Militant.

In Los Angeles 805 pamphlets put of a six-month quota of 1,-500 were sold. This branch reported that 116 of the pamphlets were sold last Thursday at a longshoremen's union meeting. The Twin Cities reported that St. Paul sold 70 and Minneapolis 55 pamphlets. "Wonderful reception, comrades enthusiastic," these branches rejoiced.

"COULD HAVE SOLD ANOTHER HUNDRED"

Newark completed its sixmonth quota of 300 with 250 pamphlets sold on Red Sunday and 50 sold previously. Dorothy Lessing was high scorer with 79. This branch covered a Negro housing project and N e g r o churches. They said: "We could have sold another 100 pamphlets if we had them.'

In Milwaukee six comrades sold 72 pamphlets and other literature in door-to-door work. Philadelproject. Boston sold 151 pamphlets out of their six-month quota

branches: Central, 207, Southside, front.
287, Calumet, 48. Cleveland sold Rea 70 pamphlets, other literature, vited to assist in this fight and secured three 6-month subscriptions to The Militant.

Dobbs Deprived Of Separate Line On N. Y. Ballot

(Continued from page 1)

Tammany combine, the Dubinsky-Social Democratic controlled Liberal Party is "running" Goldstein, Republican candidate for Mayor who is also on the City Fusion ticket.

Stalinists and Social Democrats have the cast iron gall to pass off this skullduggery as 'independent" political action. Their action is the worst betrayal of the aspirations of the working people for an Independent Labor Party based on the trade unions with its own candidates and program taking the field against ALL capitalist parties and candidates.

COURT ACTION WEIGHED The Socialist Workers Party is ing court action in an effort to strip bare the fraudulent, thimblerigged elections laws and administration which are designed to prevent genuine working class political expression in this city. The capitalist parties contrive and administer the laws in such a way as to place every conceivable obstacle in the path of working class candidates and parties.

The Board of Elections is composed of four people — two Democrats and two Republicans. It is this combination of Tweedle Dee and Tweedle Dum who interpret and administer the election laws. Every decision they have made thus far has been calculated to block minority parties from getting on the ballot. Having failed in that attempt, they proceeded to lump the candidates of two minority parties on one line in violation of the precedents, rules and regulations which they themselves established.

The Socialist Workers Party is determined that the workers of New York City shall have the opportunity of casting their votes for independent working class candidates in the municipal elections next fall. Farrell Dobbs, and Louise Simpson, candidate for City Council, will conduct a vigorous campaign around the burning issues confronting the working people in the largest city in this country.

Readers of The Militant can get copies of the Trotskyist election platform for distribution to their friends by writing to Caroline Kerry, Campaign Manager, Socialist Workers Party, 116 University Place, New York, 3, N. Y.

Negro Artist Tells How She Fought Jim Crow In Battle For Success

By Evelyn Atwood

of those exceptional people who fight their way through capitalist poverty and hate, to bring new art and beauty to the world. Now at the age of 38 she is a recognized artist. The condescending white caste of wealth and culture smiles upon her. They sometimes visit her in the top loft at 88 East 10th Street, N. Y., which she has converted into a studio. The paid press writes a "success" story about her. But big, handsome Selma, who endows her sculpture with her own life and vitality, is still fighting the crimes of discrimination against herself and

"I am alone here much of the time, with my thoughts and my work," she said when I visited her on August 13. "Now that I canvassing the possibility of tak- am mature, I see the thoughts and dreams of my childhood in a new light. Most of all I want to help other children enjoy the things I couldn't have."

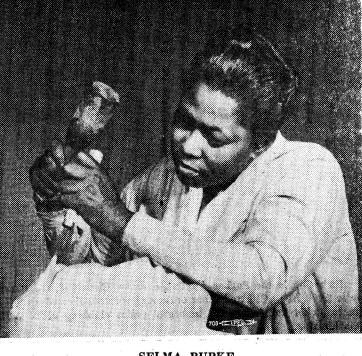

CHILDREN PLAYED TOGETHER

Selma, one of eight children in her family, was born in Moore- | Selma went to Winston-Salem to | ordered discrimination is not born in children-it is trained into them. remember when I was one of the streets with white children. 'Get out of here! We don't allow niggers on the street!' the white mothers would shout at us. Then both the white and Negro children would sneak off to some alley where they were free to play together. I could never understand mothers having that feeling ágainst us."

There were other children who began with hatred and ended with friendship. "The white children same thing. They said to the of the factory workers had to pass my house to go to school," she recalled. "They broke our windows and fought with us. But in. My friend pointed out to we fought back. We fought them and educated them. Then, when they reached the age of 16 or 18, they would come and sit on my mother's porch. We would destination, although we were play the ukelele and sing. And at | very tired. Then we learned that night, because the swimming pool they lynched a Negro in that was barred to Negroes, they would drive us several miles away to a swimming hole."

FIGHT FOR EDUCATION

Selma fought hard to get her to Negroes in the south. But ceremony. "The library was packeducation. Libraries are barred Selma was aided by the school principal, a white man, who brought her books from the library. There are no high-schools for Negroes in the south. So

SELMA BURKE

sville, a factory town in North get her high-school education. elevator. I refused to go. When Carolina. "I learned there that Finally, in New York, Selma I entered the elevator he took me worked her way through Columbia down to the basement and made College School of Architecture. a shameful scene. My hostess had Winning the Julius Rosenwald little children playing in the award of \$1,500 and three small gown to take me up in the scholarships helped to pay her

After Selma became a recognized artist, she was assigned to go to South Carolina in order to make a study of North American materials for sculpture. "I took with me on this trip a white girl who had never been out of New York. We wanted to stop at a little town for the night. But every place we asked, it was the white girl: 'You can stay, but that colored girl can't.' One place offered me a basement to sleep them that she was my guest; that they should be proud to have me stay there. But we finally had to drive on that same night to our town the night before."

One year, when Selma went back to Mooresville to visit her folks, she did a bust of the doctor in the town. The bust was placed in the library, after a fitting ed and jammed with people," she of the town "The Mayor related accepted the bust."

LIBRARY RIGHTS WON

But after the ceremony, Selma said to them: "I have given you the bust but in return I must ask you to let the Negro children use the library." They had to say yes. A year or two later when she returned to the town, she went to the library. "There I saw two Negro children poring over the books, and my heart was glad."

But vicious discrimination still ontinues, Selma pointed out. "We have to fight for every little thing we gain. Just think! Some years ago a sum of money was donated for a hospital, with the stipulation that the hospital should be open to Negroes as well as whites. The authorities bickered and fought for years. They have refused to build the hospital because of that stipulation.

"And in the schools even today, white teachers from the north come down and teach in the colored schools, they are ostracized. After a while some of them can't take it any more—they have to leave. But if they come down and fit in with the discrimination against the Negroes, then right away they become a part of the

SERVICE ELEVATOR

But discrimination is not confined to the south. Selma emphasized. "Five years ago I used to visit some white friends here to discuss educational projects with them. Two years later, when I went to see them again, a great

me into the service to come down in her dressing passenger elevator. But after that, as you can imagine, I couldn't eat my dinner."

As Selma escorted me to the door, at the close of our interview, she remarked with great feeling: "Something must be done to stop making the Negro bear the brunt of race hatred. . . Why should any of us have to suffer because our skins are black?"

Government Cuts Appropriations For Child Care

By Irene James

PORTLAND, Ore. - In the Oregonian I read that federal funds for child-care centers and nurseries will be cut off within the next two months throughout the country. About half a million working mothers will be in a desperate situation regarding care for their children.

Thus, a grant of \$92,000 of federal money made to the Portto help finance construction of a are better in mind, in body and new Creston school will be rescinded. Even worse, Maj. Gen. Agency administrator, has stated that all federal assistance for child care, such as operation of nurseries and civilian recreation projects, will be terminated as soon as possible, and not later than October 31 of this year.

This cancellation of Lanham Act grants will affect 15 "fun centers" for children of waremployed parents and also a number of nursery schools. School superintendent Willard B. Spaldbecause the army and navy have stopped shooting, it doesn't follow that the emergency is over for the school system.'

"CHILDREN STILL HERE" Pointing out that thousands of

new workers flocked to this area to do war work and that they still remain here, he said: "The pensation is clearly shown in influx which made new school the policy of the United States construction necessary is still with us. The children are still here and must be accommodated." During the war, when industry women workers in this area even needed women workers, the before the end of the war. Now, Lanham act was passed by congress to give federal aid to the off. maintenance and construction of schools, nurseries and other sion on July 20 asked that profacilities in cities whose populations were swollen by an influx of war workers.

Now, in the postwar drive of the employers to "put women in their place"—that is, fire them their place"—that is, fire them and send them back to the kitchen-the government does its many southerners had moved into part by ruthlessly cutting off all that house. The elevator man child-care centers and nurseries.

"Labor with a white skin The NEGRO STRUGGLE by CHARLES JACKSON

cannot emancipate itself where labor with a black skin is branded."

An Open Letter to White Fellow-Workers

Dear Brothers:

The King is dead; long live the King!" The trader's war is ended; the class war thunders on! No more production for death and destruction, so workers by the millions are kicked out into the streets to shift for themselves — to exist if they can. Men workers as well as women workers; white workers as well as colored workers.

The native imperialists are successful in crushing their competitors across the sea and they can now turn even more of their

attention to tightening the vise® on their real enemy, the Amer-ican working class. Mass layoffs when the very apposite is true. with a few crumbs of unemployment compensation; drastic slashes in wages by return to the four or five-day pay; continued rise in the cost of living for items the poor man needs to buy. These are the fruits of "our" great victory. That fact no working man can

ONSLAUGHTS BEGINNING And to prove that the on-

slaughts are just beginning, we hear Schwellenbach, Ickes and other capitalist agents in the ruling class government threaten to bring all the forces of the "impartial" government to bear if Big Business? - heavens No! if LABOR doesn't "behave itself!" Every white worker — even the

many who were sloganized into believing that this was a peoples' war - now, today, realizes that the fight which will, in the immediate future, most directly affect his pocket-book and his bread-basket is the rising struggle between his union and the corporation; between his working class and the boss class. The fight to get a job or to keep a job; the fight to maintain and to advance his wages so that they will keep up with the rising cost

What do these obvious facts have to do with the Negro and his struggle for equality? Everything. This fight between worker and boss is a life and death fight. The workers have on their side strength of their numbers. The boss has money with which to spread lies, and the force of the state agencies. To perpetuate exploitation the boss bars no holds.

DIVIDING THE WORKERS

The logical way for him to nullify our numbers is to divide us among ourselves. In America it is a "natural" to set white workers against colored. First because this boss through his schools, churches, movies and newspapers has poisoned the innocent white worker with anti-Negro prejuland school board early in July dice. He has told you that you in cultural background than a man with a black skin. These are Philip B. Fleming, Federal Works all lies which are aimed at every worker's downfall.

Second, he has denied the Negro both vote and job equality, through your unions, our fight and has humiliated him with con- against all types of discriminastant discrimination. This is un- tion and for indestructible solidjust. The Negro should constant- arity within the working class ly fight against it. And he does. the builders of our coming so-You are led to believe that his ciety.

Now with the whole working class resentful of their fruits of 'victory," the boss, afraid that all will turn against him and his illgotten gain, will surely try to promote inter-racial prejudice, strife and riots. The bosses did that very thing after the last imperialist war and were successful in starting race riots in the north, south and midwest.

THE BOSSES REHEARSED They have been in earnest re-

hearsal during this war. In Philadelphia they instigated an antibreak up the CIO. In Detroit in 1943 the cops carried on a campaign of intimidation and headwhipping among the Negroes, and then ignited the tinder-box on a hot night by spreading lying rumors among both Negroes and whites. In order to leave the road open for further white chauvinist prejudice, they shot up a few dozen Negro workers and published in their press the lie that the oppressed blacks had started

In Florida just before a workers' election for a closed shop, they attempted to stave off interracial solidarity by circulating leaflets bearing the caricature of a half-man half-ape. The caption asked: "Do you want this to belong to your union? Do you want this to eat at your table?"

In the south where you are taught to treat the Negro like a a program of truth and the dog, there YOUR wages are next to nothing; while in those cities where Negroes have more equality, the wages of the whites are the bfggest.

Thus your enemy cannot win in his attempt to crush your unions without setting you against your dark-skinned fellow-worker. You cannot win in your fight to gain the security of constant employment and an annual wage, the security of a workers' government, without putting up an active fight against all forms of w h i t e supremacist prejudice

YOU MUST UNITE!

"Self preservation is the first law of nature." Even on this basis you white workers, prejudiced though you may be, must join,

YOUNGSTOWN WOMEN ing has correctly stated: "Just because the army and pavy have SUFFER IN LAYOFFS

By Mary Steele YOUNGSTOWN, O., Sept. 7 | Negro women, into taking house-

work jobs which pay no compen-- The nation-wide racket to sation at all upon termination. cheat women war workers out In some cases they have been of their unemployment comsuccessful, as no one has acquainted these women with their rights. Unemployment Service in is conducting a cynical campaign Youngstown. Cutbacks hit many against these unemployed women

The War Manpower Commisfessional employers, retail store operators, laundries, hospitals, etc. place their bids for female help. On August 1 the women tion if they did not accept the jobs to which they were referred by the USES. This plainly shows the scheme to force women into the low-pay jobs with a maximum of \$16 to \$18 a week. It is done to prevent them from collecting the \$22 a week coming to them for compensation benefits.

DUAL PURPOSE

This racket has a dual purpose. By forcing women into the cheaper labor market it drags down general living standards. But also, women who accept these low-pay jobs and are subsequently laid off will no longer be eligible for the maximum benefits to which they are entitled by their work in the past three and four years. All they can expect is an average of \$7 to \$15 per week.

Not content with this huge

Meanwhile the capitalist press war workers. They publish articles stating that the reason women won't take the jobs offered thousands more are being laid to them is that they are afraid of getting dirty, that they cannot continue to look chic, etc.

This, after women have worked for the past four years in greasy, smoky, dirty factories! Of course the kept press fails to mention the extremely low wage scale in laundries, stores, restaurants, usually for much harder work. WHY WOMEN WORK

According to the Women's Bu-

reau of the Department of Labor. the vast majority of women workers are contributing to the upkeep of their homes or are the sole support of their families. But now that the war is over, gone are the glorious tributes to women for their "patriotism" and their good work in the factories. Instead of praise, we now hear slander. We women must bring this

question before our local unions and councils. Concerted action by our unions can stop this nationwide swindle. It can stop the government agencies from kicking the women around. We need union publicity to acquaint all the workers with this racket and show the women workers how to swindle scheme, the USES tries fight for their rights. Our job is to intimidate women, especially to stop this racket NOW!

turned from their vacations rolling up their sleeves for work. However, out of respect for Hiram Johnson, who died recently, the Senate adjourned after 18 minutes heavy labor and the House after one hour and 22 minutes. A STRIKING VICTORY

The release of Gunawardene,

VICTORY OF ALL LABOR

was the strike called off.

of the most unique strikes ever ards and conditions. The men also recorded in the history of the know that Origlass made replabor movement, 3,000 workers in resentations on the basis of their the Balmain shipyards at Sydney fought successfully for six weeks to maintain hard-won working conditions. Their Stalinist trade union officials had attempted to Stalinists against revolutionists coerce them to surrender these and militant workers is lies, conditions under the Stalinist slanders and frame-ups. But in "win-the-war" policy, which here as everywhere has meant swollen profits for the capitalists and workers' support for Origlass and unlimited "sacrifices" imposed his comrades grew from day to upon the workers.

The strike, which ended on May 26, was precipitated in the OUST OLD OFFICIALS middle of April when the Stalinist officialdom of the Balmain Branch of the Federated Ironworkers Association arbitrarily ordered the removal of Nicholas Origlass. He was one of three democratically elected shop delegates at Mort's Dock in the Balmain district. The officials notified Stalinist attack. They demanded, the management not to deal with Origlass but with three delegates bureaucrats attempted to us dictatorially appointed by them.

Origlass, in dealing with the employers on overtime and other grievances, had acted on instructions from the rank and file whom he represented. For thus performing his duty as a workers' representative, the Stalinists charged him with "violating union design to set up a "break-away policy" and besides removing him union"—that is, a dual organizafrom his post, expelled him from his branch. The workers at his branch continues to turn in dues dock rallied at once to the support of Origlass and his two trolled national office of the ironfellow delegates, who had resigned in protest when he was right to decide its own affairs removed. The ironworkers struck | democratically, the right to local

spontaneously. When the Stalinist officials to fight every attempt at the ordered a little handful of their imposition upon them of a dictatorial receivership of the supporters to cross the picketline, boilermakers, crane drivers and type well-known in American other workers refused to work trade unions. At the present with the scabs and joined the writing they have local affairs strike. Soon the strike spread to well in hand and are making 30 other shops where the workers came out in sympathy with the Mort's Dock strikers. The men refused to go back to work until Origlass was reinstated and democratic procedure in the ironworkers' union reestablished.

For six weeks the Stalinists in Australia carried on a rabid red-baiting campaign against the leaders in an attempt to break the strike. In the Tribune, official organ of the Communist Party of Australia, L. L. Sharkey, the party president, wrote article after article denouncing two leaders of the strike, Origlass and Lawrence Short, as "Trotskyites" who were "expelled from the Communist Party a dozen years

"MOSCOW TRIAL"

Heaping up the well known calumnies of the Moscow Trials long ago exposed by the Dewey Commission, and the old lies about "the liason of the Trotskyites with Franco in the Spanish war," he added the new Stalinist international line about the "gaoling of their leaders in England and America for sabotage of the war effort," referring to the arrests and imprisonment of the Socialist Workers Party leaders and the British Trotskyists for their Marxist views.

"Naturally," this slanderer says in the Tribune of May 1, "the Trotskyites have not the courage to tell the workers they oppose union policy because they regard the anti-fascist war as an 'imperialist war.' No, they cunningly raise issues of overtime, condi tions on the job and democracy in the union to enlist unsuspecting workers..."

But, in a leaflet issued by the strikers, there is this reply to a Mr. Thornton, a local Stalinist union official who makes the same

SLANDERS REFUTED

"In his report, Mr. Thornton states that 'Origlass is a Trotskyite. He doesn't believe that the war against Hitler Germany and Japan is a just war. Therefore he sees no need to keep ships moving.'. . . Both Mr. Thornton | their whereabouts. and the men at Mort's Dock are well aware that Origlass does not been completely legalized, the believe that on either side the liberation of the imprisoned comwar is being fought for the rades is regarded as the prelude proclaimed aims, nor that the to at least a partial legalization plea of 'keep the ships moving' of the Lanka Sama Samaja should be made the medium for Party.

What Congressmen Didn't See in France

While Congressmen made merry at French resorts, children of France hunted through garbage pails for food. The photograph above, released by the de Gaulle government in a plea for relief, shows the misery which the sight-seeing Americans overlooked.

Congress Tour Studies Gay Spots Of Europe

ports. American Congressmen on a tour of Europe to study "living conditions" of the people missed such sights, however. They wined and dined from Balmain ironworkers with the the Mediterranean to the Baltic - but nowhere near garbage cans. The scandalous story of the tion. But the reorganized Balmain Congressional junket was made public in a September 4 Scripps-Howard story signed by staff regularly to the Stalinist-conwriter Robert Taylor.

The tour was proposed by Representative Victor Wickersham of Oklahoma. Members represented various committees so that each group of the House could be represented in the "study." Truautonomy. They are determined man agreed to the trip, thus making it Government business. The Army carried the Congressmen at public expense.

In Paris the vacationing congressmen studied food conditions at dinners with American generals and at a reception given by the U.S. Ambassador. They climaxed their social survey of Paris by studying labor conditions at the Folies Bergere. 'Now they know how the French live," cynically emarked the Paris Post.

Tour members sent letters home to keep their constituents advised of their intense activities in digging into the legislative and administrative af-

Starving children in Paris are digging in gar- the group dined with General Dwight D. Eisenhow page cans for edible scraps, according to press re- er at Frankfurt and had their pictures taken with the general.

RIDE ON HITLER'S YACHT

At Wiesbaden the rollicking group went for a ride on Hitler's yacht, talked with generals and soldiers, inspected bomb damage in Berlin, toured Berchtesgaden and took snap shots from Hitler's palcony in the Reichschancellery.

Naturally these political representatives of the American capitalist class didn't miss the famous French Riviera. They stayed at the Hotel du Cap at Antibes and dined with Bob Hope and Billy Conn who were also on an entertainment tour. They went for a boat ride on the Mediterranean with Hope, Conn and others, winding up in a grand finale at Monte Carlo, the world famous gambling

The tour was scheduled to end in time to get the Congressmen back from their vacation for the opening of Congress. The Congressional tourists claim that they plan to make a report to the nation on results of their studies. Whether they will reveal the complaints of the French press that they failed to find out how the French people are fairs of the countries visited. These letters revealed | really living, remains to be seen.

Return of U.S. **Despotic Rule** (Continued from page 1)

Filipinos Fight

that of the British armies under General Scobie in Greece.

In the Pampanga area of the Philippines, unrest is particularly videspread. Gerardo Limlingan. Governor of Pampanga admitted e could not possibly hold office without "the efficient handling well trained units of the rnited States Army assigned to help maintain peace and order. According to the Gazette, "He

frankly admitted that the United States Army has every now and then to add to their military duties the policing of the province to complement the inadequate police force in Pampanga."

'CAN'T STAY FOREVER"

"The gravest threat to the ecurity of peaceful civilians, the Governor declared, "are the veiled warnings of the lawless to the effect that the United States Army cannot stay in Pampanga forever to back and protect the authority of the Commonwealth.' The Gazette reports that

tenants will not hesitate to resort to armed violence to protect what they honestly beieve to be theirs.'

From San Fernando "confidential reports" reveal that "no less than 30,000 modern United States Army weapons, consisting I Thompson submachine guns, 50-caliber machine guns, hand grenades, carbines, Browning automatic rifles, heavy-caliber pistols and light artillery pieces ere in the hands of organized groups consisting of age-old victims of the 'kasama' (feudalistic) system."

Raging Inflation **Heightens Misery** In Shanghai

The devastating effect of war upon Shanghai can be judged from the reports of correspondents of the American capitalist press on their first visit to this city since the declaration of 'peace." Although Shanghai was spared the destruction of bombng, inflation is driving down the standard of living of its four milion inhabitants to incredibly low

"Before the war," declares vireless dispatch to the N. Y. Times, August 30, "the Shanghai dollar had an official exchange cate of three for one American dollar; today the existing exchange, probably illegal but widewar strength nor are they likely ly practiced, is 100,000 for one

PRICES UNBELIEVABLE

"The average Shanghai workman earns approximately 500,-000 Shanghai dollars a month, out of which he must buy his food prices. The following are a few examples: Sugar. 8.000 dollars a pound; shoes, 1,500,000 dollars a pair; meat, 50,000 dollars a pound; rationed bread, 8,000 dollars a pound; gasoline, 200,000 dollars a gallon; butter, 100,000 dollars a pound; and peaches, 40,000 dollars a pound.

"We paid 9,000,000 dollars for a case of pre-war scotch. Our hotel bill for two days was 10,272,000 dollars."

These correspondents report the jubilation of the Chinese peoadd a somber note: "Today only hope to govern France against the memory of war lingers as the emotion-filled Chinese celebrate pretenses. Some of them were party but also the party. It not bad hang-over tomorrow when the in pre-Hitler Europe. SHOP TALKS ON SOCIALISM

= By V. Grey =

The shop is all cleaned out. There was so little doing last week that we all worked on the clean-up gang and moved out all the scrap and dirt we could find.

The bosses cleaned out the people just like we cleaned out the scrap. They cleaned out all the women and lots of the men. Some of the older men were transferred over to the strip mill. But some are out on their ear, just like the women.

They tell us that the women can go back to their kitchens. Maybe so. Maybe the fellows that were laid off can go back to kitchens, too. But neither men nor women are going to get 78 cents an hour making thin soup for the kids.

It makes you stop and think a little to see the shop so empty, and the machines so quiet, when people need so many things. The big presses down at the other end are so quiet you forget they're there at all, until a sudden bang from one of the shears makes you look down that way. It's some guy working on a "government job," fixing something for his car.

Three or four weeks ago that shear was making 800 cuts an nour. The two biggest presses were stamping out landing field mats by the thousand.

Why can't they tool the presses for refrigerator plates or washing machine parts or something like that? Ed Barnes was talking about getting his wife a washing machine. But he's out of work

now. And he won't have any money left for things like that soon. What are the bosses waiting for? Here's this big machinery standing idle. And there's Ed Barnes trying to beat a pin-ball machine in the saloon.

You'd think the bosses would put the machines to work right away so they could keep on making their big profits. But they don't. That's the way "Free Enterprise" works. It runs the government; it runs the lives of 40 million workers; but it's a slave to its own profit system, and to the capitalist market.

They're going to think twice about making washing machines over and above what the regular companies are making, even if they do have the equipment. If Ed Barnes doesn't have the money to buy one, then the washing machine will just stay in the store and gather dust while Ed's wife gets rheumatism over her scrubbing board. And worst of all of course, the boss won't make a profit.

But how crazy it all seems! Ed Barnes and all the rest of us worked six and seven days a week making things to blow thousands of people to hell. And now we can't make the things we need to live like human beings.

Are we going to let this shop rust away forever like this? Are we going to turn into bums, just because Eugene Grace hasn't got the "enterprise" to make things for people to live instead of to die? Is a profit-swelled pig going to stop a hundred thousand people

"His" plants and machinery are OUR instruments of labor and our means of livelihood. We know how to put them to work even if he does not. And we're going to fight to do just that.

FOURTH INTERNATIONAL FOUNDED 7 YEARS AGO

By George Collins

Seven years ago, 30 men and tional were anathema to them. women came together in an obscure hall "somewhere in Switzerland." A heavy curtain of secrecy shrouded the meeting from the outside world. Yet these men and they had nothing to conceal from uncompromising opposition to the

Had they been able to follow have held their sessions in the portant capital of Europe; they have broadcast the most significant proceedings of their congress over all the radios of

NO SANCTUARY

But there was no choice before the Trotskyist representatives when they gathered to found the band of Fourth Internationalists Fourth International on Sept. 3, 1938. No government of Europe or of any other continent would ple over the end of the war, but give them sanctuary. Most of the participants came to the conference illegally or under false victory with an enthusiasm that tracked every inch of the way stacles were insurmountable; their delegates never arrived.

And what obstacles they were The fiendish accomplice of world prepared to annihilate the conference physically. that awaited mankind. Though the ideas of internationalism had been considered warp and woof of the world socialist movement since the days of Karl Marx, none but the tiny kept faith with them in the fateful days before World War II. Social Democrats and Stalinists alike had already become flunkeys and liars for their capitalist governments, drill sergeants for the imperialist war. During the war, history passed its final verdict: the Second International collapsed completely and the Third International was formally dissolved.

OPPOSED THE WAR

The persecution of the parties and the leaders did not cease with ferocious, more brutal, more ruthless. The Trotskyists died before the firing squads and in the concentration camps of Hitler and Mussolini; they perished in Stalin's prisons and 'isolators; they were hurled into Churchill's jails in India and into Roosevelt's jails in the United States.

But the Fourth International alone survived of all who had once made claim to revolutionary internationalism and its survival is the guarantee of its coming victory. In the great document of its Founding Conference in 1938, the Fourth Internationalists had written: "To face reality squarely; not to

seek the line of least resistance; to call things by their right names; to speak the truth to the masses—no matter how bitter it may be; not to fear obstacles; to be true in little things as in for action arrives-these are the It is not difficult to understand rules of the Fourth International. today why the ruling classes of It has shown it could swim

By Felix Morrow

However, once the de Gaulle government was installed in France and had retrieved control of the country from the U.S. army, the industrialists felt it necessary to reorient toward Washington. France's shattered economy did not permit its bourgeoisie to collide with Washington and

London. DESTROYED OR WORN OUT The catastrophic situation of French economy can scarcely be exaggerated. The air raids and destruction when France became a battlefield left industry prostrate. Millions were made home-

less and even today hundreds of thousands are living in cellars and caves. Agriculture of course was less damaged. But the peasant, without prospect of industrial goods, has little incentive to produce, and ruined transportation renders extremely difficult distribution of what he does

Moreover, what air raids and battles did not destroy, or the Nazis cart off, is worn out. The average age of factories and industrial machinery is 25-31 years old! For France never had an inwhich there was an actual decline of the industrial potential. From the depression France directly stepped into the war; its period in the war-August 1939 to May 1940-was too short for much expansion of its factories; and of course under Nazi occupation whatever machinery was used up was not replaced.

In short, French economy is at the end of its breath. From a now? capitalist point of view, the French industrialists are correct when they say that France can live for the next two years only with ouside help, and that means primarily from the U.S. These realities set the stage for a strong orientation toward the U.S. and despite all de Gaulle's blustering he has now had to make the

There will now follow a re-

Of the workers' organizations, the C.G.T. (General Confederation of Labor) is next in importance to the Communist Party; its traditional bureaucracy, headed by Leon Jouhaux, has been more or less collaborating with the Stalinists. Likewise the S.F.I.O. (Socialist party). Now these two organizations, already being pulled away from the Stalinists by the victorious British Laborites, are certain to join the pro-U. S. bloc which will develop in French politics.

This is an extremely unpalatable development for the Stalinists. What can they do against it?

THE COMMUNIST PARTY Until yesterday, de Gaulle said

Woman Party Leader Tells Impressive Gains Of SWP

By Grace Carlson

ST. PAUL, Minn., Aug. 31, The tour is almost over. Only the Kansas City meeting on September 4 and the Minneapolis meeting on September 9 remain. Now Pittsburgh, Rochester, Cleveland, further reported that another that the hustle and bustle of worker recruited into the South | getting train reservations, checking baggage, and catching trains are over, I have a little time and energy left for thinking about the advantages which come from a national tour-most particularly those advantages which come to the speaker.

I like the way Comrade Cannon expresses this in The History of American Trotskyism: "In 1928, after the February plenum, I made one of my more or less regular national tours. I had the habit of making at least one tour of the country from coast to coast every year, or every two years, so as to get a breath of the real America, to get the feel of what was going on in America."

Getting the "feel" of what is going on in America in 1945 has been a wonderfully stimulating Party. experience for me as 'it would be for any revolutionary socialist. And now-even more than before -I feel like a missionary with a message for the readers of The Militant!

GREAT CHANGES

Great changes are taking place in the United States, particularly in the habits of thought of the American workers. They are losing faith in American capitalism. The structure of capitalism looks very solid and very impressive to the ordinary observer, but a closer inspection will reveal a million cracks in its founda- tour, one or more workers signed tions - rapidly widening cracks, Party application cards. In too. The "decline and fall" of the Detroit, there were six new American capitalist system is closer than many capitalist rulers these applications, most meetings think. In their day, the Roman would find a dozen "interest" overlords thought that the Roman cards handed in, indicating the Empire would last forever!

Throughout the length and about the principles and program breadth of this country workers of the Socialist Workers Party. are asking why there must be a "peace problem." They under- party, but we confidently expect stand that the end of the mass to become one because we believe slaughter of wartime means the that the Trotskyist program is beginning of the mass unemploy- the only program which can solve

ment and suffering of peacetime But American working men and women are doing more than merely asking questions about the 'peace problem." They are taking steps to solve the "problem." They are joining the Socialist Workers

More than anything else on the tour, I was impressed by the amount of recruiting which the Party branches are doing these days. I was able to make some very favorable comparisons between the size of the Party branches now over what they were when I visited them in 1941. Many of the branches have doubled their membership-some have even trebled or quadrupled their membership in the past few

At almost every meeting on the recruits; in Buffalo, four. Besides workers' desire to learn more

ie History Ut American i rotskyism

Previous installments of Comrade Cannon's book described the emergence of the American Communist Party out of the left wing of the Socialist Party in 1919. Factional struggles between the proletarian and petty-bourgeois elements in the party began in 1923, culminating in the expulsion of the proletarian left wing for "Trotskyism" on October 27, 1928. Slandered, ostracized and physically attacked by the Stalinists, the handful of American Trotskvists nevertheless won over individual members of the Communist Party. First contact with Leon Trotsky was established in the spring of 1929, and the program of the Left Opposition published in The Militant. At their first national conference, the Trotskyists determined to operate as a faction of the Communist Party. Then Stalin's "left turn" resulted in isolation for the Trotskyists. "Tenacity, Tenacity, Tenacity!" Leon Trotsky wrote. The little group studied, trained its cadres, waited. Finally it began in 1933 to penetrate the union movement. Then came Hitler's appointment as Chancellor of the Reich, and the Trotskyists threw all their energies into sounding the alarm against fascism. This is the seventeeth installment of Comrade Cannon's book.

Our slogan during the German events was: The United Front of the Workers' Organizations and Battle to the Death! The united fighting front of all workers' organizations against fascism! The Stalinists and the Social Democrats rejected the united front in Germany. They both pretend otherwise after the events, seeking to blame each other, but they are both liars, both guilty of betrayal. They divided the workers, and neither of them had any will to fight. Through that division the monstrous plague of fascism came to power in Germany, and threw its dark shadow over the whole world.

Trotskyists Branch Out in New York

We did everything we could to awaken, arouse and educate the American Communist workers in those fateful weeks. We held a series of mass meetings-not only the one I have mentioned. We had a series in Manhattan and, for the first time, we branched out into the Boroughs. They had so surrounded and so isolated us that we had never been able to get out of Fourteenth Street in the early days. We had only one branch because we didn't have enough people to divide up; everything was concentrated around this little area of Fourteenth Street and Union Square where radical workers

But in this crisis of Germany we branched out and held meetings in Brooklyn and in the Bronx. All over the country, The Militant reports, mass meetings were held by the local branches of the Communist League of America. Hugo Oehler-at that time a member of our organization—was sent on tour to speak about Germany. We were extremely aggressive in our approach to the Stalinists. We were determined at all costs to get our message to those willing to listen. We even invaded a Stalinist mass meeting in the Bronx, turning the tables on them. Shachtman and I. flanked by a few of our comrades, just walked into this Stalinist mass meeting and asked for the floor. The audacity of the demand seemed to nonplus the fakers in charge and there were demands from the floor "let 'em speak!" We spoke and gave our message to the Stalinist meeting.

With new life beginning to stir in the general labor movement, March 1933 a state-wide unemployment conference was sponsored the workers to avoid the catastrophe. What finally happened began everything vital and alive, poured into the young Communist or-

HITLER'S 1933 VICTORY DEMONSTRATED HOPELESS BANKRUPTCY OF COMINTERN By James P. Cannon

regulations which enabled us to appear at the local conference in negative sense, of all that he had said and explained. The prestige New York, also enabled us to send delegates to Albany. I appeared and authority of Trotsky and the Trotskyist movement began to at the conference, took the floor and made a speech to the 500 delegates on the Marxist conception of the united front in the unemployed movement. That speech is printed in The Militant of March 10, 1933. National and international issues were coordinated. At the same time that we were shouting at the top of our voices about Germany, we took time to participate in a conference on unemployment in the state of New York.

Warnings of Trotsky Went Unheeded

You know that the advice, the explanations, the warnings of Frotsky went unheeded. The German Communist Party, under the direct leadership and control of Stalin and his gang in Moscow, capitulated in Germany without a struggle. Fascism triumphed without even the semblance of a civil war, without even a scuffle in the street. And that, as Trotsky has explained many times, and Engels before him, is the worst and most demoralizing of all defeats -the defeat without battle, because those who are so defeated lose confidence in themselves for a long time. A party which fights may be vanquished by superior forces. Nevertheless it leaves behind a its banner and Lenin and Trotsky as its leaders. But, in the course tradition, a moral inspiration, which can be a tremendous factor in of events from 1919 to 1933—a brief 14 years—that very Intergalvanizing the proletariat to rise again later at a more favorable juncture. Such a role was played in history by the Paris Commune. The international socialist movement was raised on its glorious

The 1905 revolution in Russia was inspired by the heroic struggle of the Paris Communards of 1871. Similarly, the revolution of 1905 in Russia, which was defeated after a battle, became the great moral capital of the Russian proletariat and was a tremendous influence in unleashing the proletarian revolution which triumphed in 1917. The Bolsheviks always spoke of 1905 as the dress rehearsal

But what role in history can play the miserable capitulation of the Social Democrats and Stalinists in Germany? Here was the most powerful proletariat in Western Europe. The Social Democrats and Stalinists combined had polled more than 12 million votes in that the radical workers were repelled from them. the last election. Had the German workers been united in action they could have scattered the fascist riffraff to the four winds with one solid blow. This powerful proletariat, disunited and betrayed by the leadership, was conquered without a fight. The most horrible, parbarous regime was imposed upon them by the fascists. Before the event, Trotsky said that a failure to fight would be the worst betrayal in history. So it was. Ten unsuccessful insurrections, said Trotsky, could not demoralize the proletariat one-hundredth part as much as one capitulation without a fight which would deprive them of confidence in themselves. After this capitulation, this tragic culmination of the German situation, many people began to think we neglected no opportunity to take part in the new activities. In of everything that Trotsky had said and done in the effort to aid

by the Stalinists in Albany, with about 500 delegates. The same to appear to many people as complete verification, if even in a grow enormously, even among those circles which had been inclined to dismiss us as sectarians and hair-splitters.

In the Communist Party, however, here as in other countries, in the Comintern as a whole, there was no deep reaction. It became clear then that these parties had become so bureaucratized, so corrupted from within, so demoralized, that even the cruellest betrayal in history was not capable of producing a real uprising in the ranks. It became clear that the Communist International was dead to the revolution, had been destroyed by Stalinism.

And then, in the unfolding dialectic of history, a peculiar contradictory development began to manifest itself. In 1914-1918, the international Social Democracy betrayed the proletariat in support of the imperialist war. The Social Democratic parties renounced internationalism and put themselves at the service of their own bourgeoisie. It was this betrayal which prompted the revolutionary Marxists to form the new International, the Communist International, in 1919. The Communist International arose in struggle against the traitors, with the program of Marxism regenerated as national had been converted into its polar opposite; it had become the greatest obstacle and greatest retarding factor in the international labor movement. The Communist International of Stalin betrayed the proletariat even more shamefully, more ingloriously, than had the Second International of the Social Democrats in 1914

Stalinism Repels the Revolutionary Workers

Revolutionary workers of the new generation were repelled by Stalinism. In the further course of development, under the terrific pressure of these international events, and particularly the rise of fascism in Germany, the Social Democratic parties began to disclose leftist and centrist tendencies of all kinds. There were many reasons for this phenomenon. The Communist parties were so walled off by the bureaucracy from any independent thought or revolutionary life

In search of revolutionary expression, many of them found their way into the more loosely constructed parties of Social Democracy Also, the younger generation of Social Democrats, who didn't have on their shoulders the blame for the betrayals of 14 years ago, and who were not part of this tradition or mentality, were growing restless under the terrific pressure of events and searching for a radical solution. Left-wing groupings likewise began to develop inside the Social Democrats, particularly in the youth organizations. And that world trend was also reflected in the United States in an upsurge of the Socialist Party, The split of 1919 and a secondary split of 1921 had left the Socialist Party in America in shambles. Nothing remained but an empty hulk. The rebel youth, Democracy.

ganization. The Socialist Party languished for years with a few thousand members, mainly supported by the traitorous gang of the Jewish daily Forward and the labor skates of the garment unions in New York who needed the Socialist Party as a pseudo-radical covering and protection against their left-wing workers.

The Socialist Party for years was just an ugly caricature of a party. But as the Communist Party became more and more bureaucratized, as it expelled more and more honest workers and closed the door to others, the Socialist Party began to experience a revival Its loose and democratic structure attracted a whole new stratum of workers who had never before been in a political movement. Thousands of them, awakened to radicalism by the economic crisis. streamed into the Socialist Party. It experienced an upsurge and growth in membership; by 1933 not less than 25,000 members were enrolled in its ranks. Also, as a result of this new blood and the development of the young generation, the party began to show a little vigor, a leftist, centrist tendency took shape in the ranks.

Similarly, here as in other countries, there was also the development outside the Communist Party of independent groupings of workers who had hitherto not been connected with radical parties but were awakened to radicalism as a result of their own experiences. Such a unique movement in this country was the Conference for Progressive Labor Action. It was led by A. J. Muste. The CPLA started as a progressive movement in the trade unions. Under the impact of the crisis it turned more and more in a radical direction. By the end of 1933 the Muste movement was busily discussing the problem of transforming itself from a loose grouping of activists in the trade unions into a political party.

'The Comintern Is Bankrupt''

Upon the capitulation of the Comintern in Germany, Trotsky gave the signal to the revolutionary Marxists of the world, "The Comintern is bankrupt. We must have new parties and a new International." The long experiment, the long years of effort as a faction to influence the Communist Party, even though expelled from it, had run its course. It was not any decree of ours that made the Communist Party beyond reform. It was the demonstration of history itself. We simply recognized reality. On that hasis we changed our strategy and tactics completely.

From a faction of the Communist International we announced ourselves as the heralds of a new party and a new International. We began to appeal directly to the workers awakening to radicalism and without political affiliation or experience. Through long years of effort-by maintaining our position as a faction of the Comintern -we had recruited from the ranks of the Communist vanguard the precious cadres of the new movement. Now, we began to turn our attention to the Socialist Parties and independent groups and to the left and centrist groups within them. In that period The Militant printed numerous reports and analyses of the development of the Left Wing in the Socialist Party. There were articles about the Conference for Progressive Labor Action and its plan to transform itself into a political party. There were sympathetic approaches to the Young Peoples Socialist League. And, as we did it here, following the line of Trotsky, it was done on an international scale. Groups of Trotskyists everywhere began to establish contact with the newly developed and apparently viable Left Wing in the Social

Cancer Kills A Worker's Mother

My mother has just died, the victim of the dread disease -

In our household where every penny went for food and rent, the doctor or the dentist was a luxury we never could afford. Going to the doctor or calling him was only done in an "emergency," as every worker's family knows so well.

My mother had not been feeling well for many years. The only way she could find out what was wrong, was by going to a clinic. She only too well understood what free clinics meant - how not ONE but a few doctors who were "studying" would gather around and prod and look and prod some more and then give a

medicine which they gave to all. When I went to a city hospital with her once, there was a continual parade of workers coming out with the identical bottle of colorless liquid with the usual instructions. They were herded into the crowded clinic like cattle, and walked out the same way, only with the bottle of medicine in their hands.

Finally, after much resistance, she went to another clinic which told she needed an operation.

roblem of money, a great deal world of it and of it. We finally discovered the triumphant! Memorial Hospital in New York City, a skin and cancer center

We will rid the militant socialist who has tendencies toward Marxian-Leninism is forced out of the SP, a sigh of relief is heard among the hardened SP bureaucrats. I am quite sure I am not the last Bolshevik to be expelled from the "left-wing" of the YPSL. My case should serve as a lesson to those young revolutionary socialists in the YPSL who have hopes of transforming the YPSL and the SP into a genuine Marxist movement.

The procedure used by the Chicago YPSL in expelling leftwingers would closely resemble a Stalinist expulsion, if it had not peen for the stupid fumbling in presenting and drawing up the charges. During the one week before my trial, rumors were cir-NEW YORK TROTSKYIST culated throughout the YPSL to a Trotskyist, and that I had betrayed the left wing caucus of the SP. Not one of these rumors

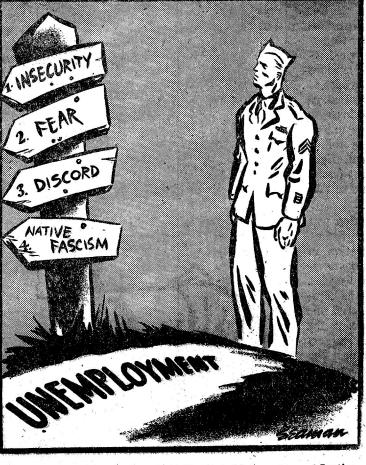

was proven to be true.

Although I received a notice that I was to be brought up on charges, I did not receive a written statement of the charges until the very night of the trial! The charge was voicing an opinion on Bolshevism at a public meeting, not in accord with the SP line on Bolshevism. (At the so-called public meeting there was one person who was not a member of either the SP or the YPSL). The charge, however, was false. I was expelled on one charge only, and the crime I was guilty of was being a Marxian Leninist. Several YPSLs protested against the procedure. However, I was expelled unanimously by a city membership meeting of the YPSL at which one-third of the Chicago membership was

In the course of the trial I found out several interesting facts. First of all, the National Executive Committee of the YPSL is empowered to decide the procedure in expelling members. Second, the National Organization Committee can actually censor or refuse to accept articles for the internal bulletin of the YPSL. This is the organization that is referred to as a "democratic socialist movement."

The reformist Socialist Party is rapidly declining into a small sick organization of tired social democrats. To the small group you turn toward revolutionary

Enjoys Lecture On 'Women in Prison'

May I express my appreciation for the very excellent talk by Grace Carlson on Sunday August 26. She brought out very clearly the tasks facing the working class and of course gave us the only real solution.

Her description of conditions existing in the women's reformatory is surely an indictment of the capitalist class! The fact that 14 year old "women" (children) are branded as prostitutes, and the truth. the cynicism of one who remarked that she thought that venereal lisease was less onerous than a head full of lice! Or the 17-year-old girl whose

hope was to get a job in order to save money to buy her parents a bed, dresser etc. because they had or become interested in The Milinever been able to afford such

And children born in prison; forever branded through no fault of their own.

If only means are found to push our education of the misinformed and misguided millions of our fellows, to speed the day of

American Capitalists Admit War Guilt

The American capitalist class has finally admitted that it was responsible for plunging the American people into the bloody war for markets. In the Army-Navy statements on Pearl Harbor, it was admitted that the "button that started the war" was President Roosevelt's 10-point memorandum sent by the state dept. to Japan. This 10-point memorandum, which asked the Japanese to practically get out of Asia, was written in such a manner as to force the Japanese capitalist class to attack America. As Gen. Marshal said, "the U. S. desires that Japan commit the first overt act."

The capitalists and their government didn't wait for Japan to tied with four subs. act because they were so peaceful. They wanted Japan to commit the first overt act so they could confuse the American workersso they could get us all whipped up about a "sneak attack" and pretend they had done everything to avoid war.

We Trotskyists exposed the lie then. We said it was an imperialist war, a war for markets. We said the capitalists were not interested in maintaining peace but PROFITS. When the American workers throw out the boss class and their agents, form the government and put in their own representatives, there will be noone to deceive us with such lies. Al Forbes

FOR ALL! A Fighting Program for Labor, and A Practical Program to Kill Jim Crow are meetng with wonderful response.

The following letter came to us last week from Reading: "Received our shipment of A Practical Program to Kill Jim Crow and the JOBS FOR ALL pamphlets. The response to both these pamphlets immediately was good. I am sure we won't have any trouble taking care of our quota and hope to be able to order more.

'The package containing JOBS FOR ALL came Saturday morning. At noon time I opened it and took twenty along back to work with me and had them all sold in no time. As a matter of fact I could and will sell more at the shop. This is significant because of the fact that where I work or unemployment whatsoever. Everyone remarked about the punch the cartoons and the cover illustration carry.'

And from Philadelphia: "We have been doing very well in our sales of A Practical Program to Kill Jim Crow. Last week a Negro comrade who recently oined us sold 25 copies to friends who were in Philadelphia for a convention of the Negro Elks. Such an opportunity was not to be missed and the comrade requested to be excused from the branch meeting to welcome his guests and push our program." Newark writes: "Last week a comrade took the Jobs for All pamphlet to the USES line. In just a few moments she had sold 40. If she had had more with her, they too could have been sold."

Gene Gannon of Oakwood, Wis. writes: "I am receiving my Militant regularly and it sure keeps one posted on the real conditions in the world of the workers.

"I am giving you the names of 12 workers who I think may be tant. Enclosed is postal note to send each one a sub. Later I will visit each and find out what they think, but you should let them know \$1 will never hurt or break a good union man interested in the present and future working conditions of us Americans."

Another reader, Walter Handy of Oakland, Cal., sent us the names of four friends who are interested in The Militant.

Oscar Lindholm of Seattle, Wash, renewed his own subscription and sent subs for three of his friends.

John Eckert of New York sent n a six-month subscription for his friend in Bay Shore, L. I.

Widening the circle of Militant readers has become an important part of branch work and seldom a week goes by that we don't receive subs from every agent. This week Philadelphia leads with eleven subscriptions. Irene Fitzgerald explains that "During all of August we obtained 11 subs; so far this month we already have 11 subs, counting three sent in Sept. 1."

Minneapolis secured eight subscriptions; Chicago, seven; Detroit, six; Reading and Seattle

A letter from H. M. Smith of Chicago reports wide distribution of the August 18 issue of The Militant bearing the headine, "There Is No Peace!": "We certainly appreciated the 3,000 Militants. We distributed 2,200 of by the victory of the British Lathem at one plant this morning. The rest of them went to the CIO Mass Meeting Monday."

A report from Chicago con- American trade union movement.

The ranks of the Militant Army | cerning the August 25 issue The Militant this week! We're eager to get out to the newsstands with it - and to see how last week's issue sold. We were out at dawn this week in South Chicago to distribute this issue to the steel workers again."

> J. Lang writes that while attending the Mid-West Vacation School: "I met a couple of Militant readers at the camp who have been staunch supporters of The Militant for two years now. They read the paper from first page to last. The husband is an official in the UAW - an educational director, as a matter of fact. His wife admitted to me that she was reluctant to read what she considered another paper when her husband told her about it. But, once she took it up, she read it from cover to cover and now looks forward to getting it each week."

Weiss Lectures On British Labor **Party Victory**

LOS ANGELES - Pointing to the example set by the British workers in their Labor Party victory, Murry Weiss, member of the National Committee of the Socialist Workers Party, predicted in two lectures here that American workers will form a labor party of their own in the next period.

"However, it is not enough to understand that this movement for a Labor Party is taking place," Comrade Weiss added It is up to us, the advanced workers, to work for it and participate in its formation."

LECTURE GIVEN TWICE

Both the audience of 30 workers in San Pedro and of almost a hundred in Los Angeles, paid close attention to points raised by the speaker. Deeply impressed hor Party, they indicated a desire to help in pressing for for-mation of a Labor Party by the

THE MILITANT

Published in the interests of the Working People

Vol. IX-No. 37 Saturday, September 15, 1945

Published Weekly by THE MILITANT PUBLISHING ASS'N at 116 University Place, New York 3, N. Y. Telephone: Algonquin 4-8547 FARRELL DOBBS, Managing Editor

THE MILITANT follows the policy of permitting its contributors to present their own views in signed articles. These views therefore do not necessarily represent the policies of THE MILI-TANT which are expressed in its editorials.

Subscriptions: \$1.00 per year; 50c for 6 months. Foreign: \$2.00 per year, \$1.00 for 6 months. Bundle orders: 3 cents per copy in the United States; 4 cents per copy in all foreign countries. Single copies: 5 cents.

"Entered as second class matter March 7, 1944 at the post office at New York, N. Y., under the act of March 3, 1879."

Only the world revolution can save the USSR for socialism. But the world revolution carries with it the inescapable blotting out of the Kremlin oligarchy.

- Leon Trotsky

Congress Of Labor

The fight for jobs is fundamentally a nationwide political fight against the bosses and their political agents. Increasing numbers of workers are becoming aware that they must have their own independent political party to wage this fight suc-

But the workers do not yet have their own political party. How then can they best defend their immediate interests in the present economic crisis? Certainly not by confining themselves to a program of sending letters and telegrams to the capitalist politicians. Certainly not by depending on Murray and Green to get jobs by whining and begging and scraping before the arrogant political spokesmen of Wall Street.

Sixteen million workers are today enrolled in the powerful trade union movement of this country. This mighty fighting arm of American labor is potentially capable of bringing irresistible pressure upon Congress and the administration. But it lacks any genuinely independent program and effective machinery for mobilizing its power and concentrating this power against the citadels of political

Right now one of the most reactionary Congresses in American history is debating problems affecting the destinies of scores of millions. These millions have no genuine voice in the legislative halls and no means of bringing direct, immediate and concentrated pressure to bear.

The obvious and crying need is for the mobilization of organized labor's power in Washington through a National Labor Congress representing every union local and labor body in the United States. This Congress of Labor would meet simultaneously with the Big-Business Congress. It would draft its own legislative program, not an echo of the proposals of some capitalist "friend of labor," but a program genuinely reflecting the needs of the

It would then proceed to hammer day and night upon the capitalist Congress for the realization of this program. This would put an end to the impotent policy of back-room conferences between a handful of top union leaders and the Washington

Out of such a Congress of Labor, tempered in the fire of direct political struggle, would undoubtedly emanate the inspiration and initiative for an independent Labor Party to deepen and extend the workers' fight for political power.

Native Fascism

The defeat of the German, Italian and Japanese capitalists by no means signified the crushing of fascism as a system of political rule. Not only can fascism revive abroad but it can reappear in more violent and frightful forms. Fascism is inherent in capitalism and cannot be wiped out definitely until capitalism itself is overthrown. It is an illusion, therefore, to believe that fascism was annihilated in the Second World War. It is an illusion, however. which the capitalists have every reason to foster. It is part and parcel of the illusion that somehow the United States is immune to native fascism.

The fact is, that participation in the Second World War greatly accelerated the organic tendency of American capitalism toward fascism. In a series of articles by Joseph Hansen, completed last week, The Militant bared the growth of the native fascist groups. During the war the fascists hibernated, now they have begun to come out in the open. One of the leading fascist demagogues, the Reverend Gerald L. K. Smith, has been actively organizing "nationalist" groups. Together with ex-Senator Robert R. Reynolds, he hopes to consolidate all the fascist organizations in one huge "nationalist" Party. The activities of Smith and Reynolds, however, constitute only the more spectacular side of the growth of native fascism. Of greater importance is the interest Big Business takes in this

budding fascist movement. Only an aroused working class, united by the tens and hundreds of thousands behind a militant program of struggle, can safeguard the labor movement from this menace. An important beginning in the fight was the turnout of the workers at the July 20 Olympic counter-demonstration of the Los Angeles workers. The more than 14,000 workers representing the CIO, the AFL, Railroad Brotherhoods and other organizations at this counter-demonstration dealt a stinging blow to the pretensions of Gerald L. K. Smith's fascists in Los Angeles.

A logical step in preparing for the next stage of struggle in Los Angeles would have been to extend the united front action. The trade unions and all other workers' organizations must follow the development of the fascist movement, fight race hatred, organize defense squads against fascist thugs, and warn the working class in time to halt the fascists at every crucial point.

But the Los Angeles counter-demonstration was headed in the main by Stalinists and their stooges. They consented to the counter-demonstration in the first place only because of the tremendous pressure from the rank and file workers of Los Angeles. These Stalinists, acting in the service of the capitalist class, have done their utmost to derail the struggle against fascism. Instead of following the path of militancy which the Los Angeles workers wished to follow — a march of protest past the fascist meeting — the Stalinists chose to limit the demonstration to speech-making. Even then, instead of giving the workers full opportunity to weld a genuine united front of workers' organizations to fight fascism, they made a caricature of the united front by turning over the rostrum to capitalist politicians, Hollywood stars and similar publicity seekers. Since then the Stalinists have still further sabotaged the struggle for a united

Against this policy of betrayal, the Los Angeles Local of the Socialist Workers Party is battling for a policy of working class struggle freed from paralyzing submission to the political agents of the bosses.

The need for uniting the ranks of labor in the struggle against native fascism is an important lesson to be drawn from the Los Angeles experience. Fascism, feeding on the discontent of the middle classes in the postwar period, can grow with great rapidity. To fight the danger successfully requires utmost seriousness and militancy.

Italy's Colonies

A dispute in the State Department over the fate of Italy's colonies casts a revealing light on the imperialist character of the Second World War. Factions have been organized, and the capitalist press reports the issue is "fundamental."

One faction favors turning the colonies over to the United Nations Organization. This solution they maintain is preferable to creating a "sphereof-influence" in which the Italian capitalists would rule the colonies as agents of the Anglo-Americans.

The other faction maintains that administrating the colonies under the United Nations Organization would give the Soviet Union influence on the southern shore of the Mediterranean.

While these factions squabble over the fate of Libya, Eritrea and the Italian Somaliland, the 2,510,546 inhabitants are not even consulted as to their fate! What business has any of the imperialist nations in these areas? Let these people choose their own form of government!

Labor In Canada

The victory of the Labor Party in the British elections has had world-wide repercussions. Everywhere militant workers took heart and renewed their courage in the battle against reactionary capitalism. Labor's victory in Britain will have profound effects inside the British Empire. The movement for the independence of India, for instance, can be expected to take a great surge forward.

Political developments in Canada can likewise be expected to veer leftward. This will especially affect American workers, since the Canadian labor movement is intimately linked up with the labor movement in the United States.

In the trade union field the Canadian workers have, in general, lagged behind the American workers. On the political field, however, the picture is different. Here the Canadian workers are considerably in advance of their American class brothers. During the great depression of the 30's, they began organizing the Co-operative Commonwealth Federation. In the June elections this year this party won 28 seats in Parliament. Had the CCF followed a more militant program, this number undoubtedly would have been greater. But the important fact for American workers to ponder is this: The Canadian workers have spokesmen of their own inside the Parliament at Ottawa; whereas the American workers, despite their vastly superior trade union strength, do not have a single representative inside Congress!

The political activities of these 28 candidates of the workers and farmers in Canada will undoubtedly prove very instructive during the coming session of Parliament. Influenced by the victory of labor in Britain, some of these candidates, especially those from predominantly working class districts, can be expected to put up a good fight in

the interests of the labor movement. The "Speech from the Throne" on September 6 laid down in Parliament the political program of the Canadian bosses. In essentials this program is indistinguishable from the program of the American capitalists toward the American working class. It signifies mass unemployment, idle factories throughout the land, and support of an imperialist "peace" that is laying the foundations of a Third World War.

During the coming weeks this speech will be answered by members of Parliament. The answers of the CCF members of parliament should be carefully followed by all militants in the American labor movement.

"I've always said a woman's place is in the home. Aren't you happier here than working in that old defense plant?"

Greece

According to a London broadcast reported in the August 29 Daily Worker, the Greek Minister of Labor has set aside as "invalid" Sunday's trade union elecwere voided apparently because cording to the Stalinists.

among the workers, since they interests of the people. involved the national trade union leadership. Earlier local union elections, both for local officials and for delegates to Sunday's national convention, according to the Daily Worker, were won overwhelmingly by ERGAS, a left- | tion to the regime. wing trade union federation controlled by the Stalinist-dominated

As the Daily Worker remarks, the invalidation of the elections shows how reactionary is the Youlgaris regime. The Daily Worker fails to observe, however, that the Communist sympathies of the workers in this election are one more indication that the mass of the Greek people seek establishment of a workers state in Greece. It was the Stalinist leaders who sabotaged the struggle for such a state, welcomed the troops of Anglo American imperialism, and paved the way for establishment of the British puppet regime.

Yugoslavia

Starvation bordering on fam ine is ravaging Yugoslavia as consequence of the Second World War. At Ljubljana the ration of bread is 150 grams a day about five medium-thick slices. Little hope of relief is visible, for the wheat harvest this year wil not reach half the normal yield and the United Nations are doing next to nothing to send food to

the stricken population. "There are pockets of starvation," Wilfred Johns, deputy chief of UNRRA in Belgrade is reported to have declared. "In the Likha district, people are living on grass. I fear people will die of hunger during the winter." The countryside is denuded of livestock. In the western regions, one out of every four peasant homes is destroyed. Tuberculosis and infant mortality are increasing at an appalling rate.

Meanwhile, the Soviet influence in Yugoslavia has resulted in the nationalization of some important foreign-held properties. N. Y. Times correspondent C. L. Sulzberger reported August 27 that the French Government has protested the "uncompensated nationalization of the French-owned Bor copper mines, the largest copper deposits in Europe, which are estimated to be worth \$42,-000.000."

Similar protests are expected to be lodged by the British Government against the nationalization of the "British-controlled Trepca lead and zinc mines" an ironic contrast to the platform promises of the Labor Party to nationalize the mines in Britain.

Sulzberger reports that these re considered test cases "concerning other Allied properties and concessions in the Danubian and Balkan states, including oil in Rumania, gold, copper, zinc and lead in Bulgaria, copper lead, zinc, tin, power and steel in Yugoslavia and other interests in Poland and Hungary."

according to Sulzberger, and "has work or in camps.

been operating them since." It is troops" have been "penned up' interesting to note that the at Aldershot for weeks while "mines are now under the control of a workers' committee."

Anglo - American imperialism and its French satellite are putting stiff pressure on the Tito tions in Athens. QUESTION BOX

Q: How much did World War II cost the United States in lives and money?

A: Total U. S. war casualties. including dead, missing, wounded and prisoners is estimated at 1,-100,000. The number of men killed in this war is six times as many as in the last war. In terms of money, this war cost \$336 billions, eleven times as much as World War I. The cost of this war is almost twice the \$157 billions spent by this government in 151 years between 1789 and 1940, for operating the government and paying for all past wars including World War I.

Q: Is it true that there are a great many mentally sick people in this country?

A: Mental disease has been increasing until today there are approximately 7,000,000 persons n this country mentally ill. More than one-third of the hospital beds in the U.S. are filled with such persons, and each year nearly 125,000 new patients are hospitalized.

Q: Now that the war is over, will many of our men have to remain in or continue to go into the armed services?

A: According to recent official estimates, a minimum force of 4,700,000 is indicated for September 1946. This is 700,000 more men than were used during World War I. As many as 1,500,000 of this force will probably be engaged in occupation work in Ger-The Yugoslav Government took many and Japan; the remaining over the Bor mines last October, 3,200,000 either in supporting

American soldiers have been "speedily and efficiently embarked for the voyage across the Atlantic to be returned to their homes.' On the evening of July 4, coninues Comrade MacDonald, "some three thousand men were strolling idly about the sunlit streets of

cident occurred. It wasn't any-

thing much, a few lads on the corner were laughing, and no one was being interfered with, but some M.P.'s decided an investigation was needed... Soldiers who paused to see what was happentheir authority in this petty

the lads alone...

"A lorry load of M.P.'s arrived on the scene. The men made a and so on. rush for the vehicle, grabbed it erans of Italy and Normandy, and brought out the fire-fighting apparatus.

"After this display the rage of the men knew no bounds. Faced with violence that had arisen out of a situation stupid and ridiculous to start with, they reacted in An inside story on the recent the only way their conditioning are in doubt don't remain inactive Appeal, official organ of the -do something!' they carried into British Trotskyists. The author, effect what training and battle experience had taught them.

"The fire engine was speedily out out of commission and then the lads gave their answers to the demonstration of force they were faced with, by knocking out every window within reach as a protest against the treatment they were receiving. Also as a warning of continue to be kept penned up and discriminated against.

"Climbing on a jeep, a colonel tried to pacify the already aroused and embittered men with lying promises and was howled down hundreds shouted angrily: 'We've heard that bunk before-get off that truck and shut up or we'll pull you off!' These Canadians, reports Com-

rade MacDonald, are in the majority "veterans and battletested, the people whom the capitalist press in the past spoke of as: Those splendid Canadians who came here in England's darkest hour.' Today they are being slandered as were the British miners in the spring of 1944, who with sons and brothers in the front lines, were forced to fight against damnable conditions at home and brave the insults of journalists who a few years back were Hitler's friends."

Comrade MacDonald concludes that "the Canadian worker in uniform has benefited by his experience in Britain, his outlook has broadened and his level of political development is far higher than it was when leaving Canada. More troops voted Cooperative Commonwealth Federation (the Canadian labor party) than for either the Liberals or Conservatives.

READ THE FOURTH INTERNATIONAL'

PROBLEMS FACING WAR VETERANS

By CHARLES CARSTEN

Baruch's Proposals Are Not a Solution to the Veteran Problem

"With their families the 12,000,000 veterans of this war make up one-fourth of the entire population," states Bernard Baruch in his report to General Omar N. Bradley, Director of the Veterans Administration. 'Measured in numbers alone this is three times the number of veterans in the last war."

Baruch, author of the "Reconversion Plan" that handed millions of dollars to profit-bloated Wall Street financiers, has become frightened by the sweeping victory of the Labor Party in England and the accelerated radicalization of the American work-

He is afraid that "unless there is prompt, corrective action, the disillusionment and bitterness that has spread among some veterans and their kin will steadily worsen." In his role of Wall Street adviser to the White House, he spouts mealy mouthed phrases about neglect of "the human side of demobilization," as though it were unusual for the Government to disregard at all times the interests of workers and sol-

"One terrible danger of failure," this Wall Street promoter warns his class, "may be to set the veteran off from the rest of the nation, cherishing the grievance of having been wronged, at odds with fellow-Americans, his feelings an explosive fuel ready to be ignited by some future demagogue."

What Baruch really means is that unless something is done to prevent it, the veterans will become a powerful revolutionary force in alliance with the working class. For, he and his class know they have nothing to fear from the real demagogues — the fascists.

Baruch hypocritically touches upon the real issue - full employment for all workers - in stating that "the solution of the veterans' problem does not cannot - proceed alone." But his corrective consists of a series of reforms aimed at streamlining the Veterans Administration and overhauling the legislative swindle called the "GI Bill of Rights," rather than a program to provide jobs for all.

He knows, also, that "there now prevails a 'no man's land' of neglect of the human problems of this little town... A trivial in- the change-over from war to peace." But instead of offering a solution comparable to the one he made for Wall Street, he proposes the appointment of an "imaginative Work Director" who, presumably, would pull jobs out of a hat.

In his hope that veterans will be appeased with a few crumbs from the capitalist table of super-profits, ing suddenly became angry and he suggests liberalization of the law governing loans when the M.P.'s tried to exercise and education, elimination of the run-around that veterans are receiving, coordination of the artificial matter they were told to leave limb program, and, of course, an adequate information service for veterans.

> To solve the problem of jobs for veterans, Baruch proposes that the Work Director establish "adequate job placement machinery," see that "barriers to employment" are relaxed, provide "training." "guidance"

Such measures will not meet the economic needs of the returning servicemen. They want well-paying toy... The M.P.'s then hit upon jobs and guarantees against unemployment. Nothing ple. They are not guilty. Guilty are those who placed them in pressure water hose on the vetan explosive force directed against capitalism.

Capitalism cannot give them this economic security. Veterans will find it necessary to fight shoulder to shoulder with the workers for a working class solution to their problems.

Children Fleeing Torture Hunted With Shotguns

In Eldora, Iowa there is an institution known as the Iowa Training School for "dependent" as well as "delinquent" boys. That is, the 565 youngsters, many of them orphaned and homeless, are herded there to be treated as criminals. But their only crime was to be born of parents ground down to hopeless misery, poverty and early graves by the capitalist system.

At Eldora, 175 of the boys on August 29 broke out of the institution and fled, shouting: "I'm not what was to come, should they going to stay here and be killed!" For that week, 17 year old Ronald Miller collapsed and died at his work on the coal pile where the boys are "disciplined." The authorities claimed the death was caused by 'heat prostration." But the coroner revealed, after an autopsy, that it was due to a blow on the head.

When the State offered a reward of \$10 per head for the capture of these children, posses armed with shotguns and corn knives beat the woods and fields. hunting them down like wild animals. By dusk 131 of them, representing \$1,310 to their hunters, were captured and returned to their prison house of torment and terror.

The same week that this criminal atrocity upon orphaned and helpless youngsters was taking place, Time magazine of Sept. 3 gushed: "U. S. Society glittered when the George Tysons of Boston and Newport presented their 18 year old daughter, blond. blue-eyed Harriet Elizabeth at a coming-out party costing an estimated \$40,000."

After the brilliant reception the rich and pampered Betty adjourned with her 600 big-shot guests to the \$20,000 ballroom which was built especially for the occasion. "Pink and silver silk, matching Betty's gown, hid the ceiling; great chandeliers held masses of pink gladioli." Music was provided by two 20-piece orchestras. A battery of flood-lights was on hand in case of need. And to guarantee the safety of this collection of human parasites, "a Newport fire company stood by."

All night long "dinner-jacketed waiters scurried through the mapled grounds carrying fancy fowl, champagne, sizzling rare cuts from an outdoor barbecue pit." The party ended at 6 a.m. with a swim at Bailey's Beach and a gourmet's breakfast.

Even modern science was harnessed to add a new wrinkle for Betty's delight: "Betty Tyson's debut might be remembered not only as ushering in a new day of peace but a scientific milestone as well-just before the guests arrived, the grounds had been liberally sprayed with DDT."
