

Fighting Policy Needed To Win The GM Strike

-By The Editors

18%

Through four weeks of bitter struggle, the General Motors workers have inspired American labor by their unity and militancy. But despite the magnificent fight of the GM ranks, their strike is being thrown on the defensive all up and down the line solely because of the policies of the CIO United Automobile Workers leadership.

From the start, these leaders have acted upon a totally false concept of the nature of this conflict. They have failed to understand that the titanic GM strike is the spearhead of the whole unfolding battle between labor and capital in America.

The super-slick strategy devised by the auto union leadership of taking on the Corporations one at a time, of isolating GM while keeping its rivals working, has collapsed like a house of cards.

It is not the General Motors corporation that is isolated. It is the General Motors workers who find themselves isolated. Such are the first fruits of the Thomas-Reuther "strategy."

The General Motors strike has temporarily been thrown on the defensive not because of any weakness in the workers' ranks. This strike has been thrown on the defensive for one reason and one reason alone: the inadequacy, the bewilderment, the fear of the top union officials. It is they who have retreated step by step until they have today handed over the initiative to the auto barons, the industrialists in general, and their government agents.

Let us review the most important of these retreats which in their totality are responsible for the present defensive status of this strike.

The Record Of Leaders' Retreats

First, there is the question of the office and supervisory workers. Ever since the GM strike started this issue has agitated the ranks and created endless confusion and dissension. The workers on the picket lines, with a true class instinct, understood that these office and supervisory workers, if permitted to go through the picket lines, could become the starting point for a future back-to-work movement. Therefore they wanted to keep everybody out, to the largest picket line in the city's history in a display of keep the plants shut down tight.

Flint City Wide Committee Hits Plan To Fine Strikers

Demand UAW Officials Repudiate Proposal Offered To Ford; Want Leonard Reprimanded

By Jerry Kirk

FLINT, Mich., Dec. 14.-The Flint city-wide strike committee, representing 45,000 General Motors workers here, went on record today sharply condemning the company security clause proposed by UAW Ford Director Richard Leonard to the Ford Motor Co.

Cleveland Judge Limits Pickets On Fisher Line BY WIRE TO THE MILITANT

CLEVELAND, O., Dec. 17 tion. The injunction orders CIO reprimand Richard Leonard." United Automobile Workers Local 45 to permit supervisory and salaried personnel not covered plant "so long as the corporation does not resume manufacture and production operations." The terms of the injunction were worked out in the judge's chambers by agreement with union officials. In this sense there has been

a widening gap developing be-

tween some of the UAW officers

The top union officials, contrariwise, revealed from the first on this issue an attitude of indecision and cowardice. They wanted to temporize. They wanted to make some kind of "deal" with the company. Thus, they hoped to prevent the company from getting court injunctions against the union, against mass picketing.

But it was clear right from the beginning that the General Motors Corporation was not interested in concluding which, occupies an entire of time. The first to arrive joinany practical agreements with the union on this issue. city block. It was clear from the beginning that the corporation intended to keep this issue alive precisely so it could go into the courts at the opportune moment and get its paid al conference of all CIO United Building. Within a few minutes judges to illegalize the mass picket lines.

And despite all of Thomas' and Reuther's and Addes' attempts to capitulate on this point, the corporation officials adamantly turned down EVERY proposal. And now, at what they believe is the propitious moment, they are securing their injunctions against the union.

More And More Steps Backward

The retreat of the top union officials, however, has not been halted at this point. On the contrary, frightened by these injunctions, they have instructed the locals to withdraw pickets from the GM Administration Buildings and to permit the office and supervisory workers to pass through. Of course, automobiles will not be manufactured by either the office or the supervisory workers. And in and of itself, this retreat will not break the strike. But it represents, nevertheless, a CRUEL BLOW to the strike. It undermines morale. It breeds confusion and lack of confidence and disgust. It weakens the strike. It paves the way for a possible future back-to-work movement.

As for injunctions, there is only one way to fight them and beat them. That is the way they were fought at Toledo in the Auto-Lite Strike of 1934 and the way they were fought at Flint in the GM strike of 1936-37. There is no other "easier" way. There is just no way of most crucial for the packingwinning a battle of this magnitude and importance except house workers' union. They face by hard fighting. You can't do it by bluffing, even when the organized onslaught of the it is a Walter Reuther who is doing the bluffing.

Next, there was the proposed retreat on GM parts meat packers who are scheming production. We are all acquainted with the tragi-comedy of Thomas' letter to the General Motors Corporation agreeing to reopen those GM plants which manufacture parts workers. for the other automobile companies. Some people imagine that this fantastic, irresponsible proposal was just a personal brainstorm on the part of R. J. Thomas. Not at all. ARBITRATION MOVE

The latest move of the International and Local union officials to undermine the militanof the ranks and bring the strike to an end, has been to gree to hold a referendum of all Local 200 members on the evention of submitting the dispute to government arbitration.

The request for a referendum eme from Canadian Minister of Loher, Humphrey Mitchell, and has the support of the officers. policy committee and negotiating committee of the Ford Local. Sven the steward's body, which had previously held out for conchauing the strike, has begun to wild to the terrific pressure, and AID GM STRIKE has voted by a two-thirds majority for the referendum.

On Sunday, December 16, union leaders will try to "sell" the referendum to the ranks at a membership meeting. If they succeed, a referendum will be held on December 18 and 19 on the following proposal: To return to work and resume negotistions with the company, with ting foremen and office workers some Supreme Court Judge of ta, as government arbitrator, sitting in on the negotia-If no agreement is reached, the strike, they allowed foremen to before the strike started.

Fighting Policy How Auto Workers' Historic Battles Needed To Win Stopped The Threat Of Injunctions

(Continued from Page 1)

cracy. We discussed how Murray and the other top CIO leaders stopped half way in their break with the Truman administration, how Murray was not making good on his promise to labor that the CIO would mobilize the American people to fight this assault on their liberties. Murray's timid half-hearted policy was capped this week by the action of Thomas and Reuther.

After Truman appointed his three-man Fact-Finding Commission to "investigate" the General Motors strike, Thomas and Reuther reversed their previous stand and announced, in effect, that the UAW would cooperate with the Commission. This new stand violates the express decision of the recently held GM National Conference of the Union, and represents at the very least a 75 per cent reversal of the union's previous policy. The position of Thomas and Reuther commits the union, at least in part, to accept any final decision of Truman's Fact-Finding Commission. It weakens labor's whole fight against the Truman-proposed anti-labor legislation. It is a set-back to the GM strike. It is a set-back to labor's whole fight for a decent standard of living.

On top of all these retreats comes the worst action of all: the "stab in the back" of the GM strike from inside labor's own house. This "stab in the back" is the offer made to the Ford Company by Richard Leonard, UAW Ford Director, to "discipline" the union ranks and to provide the company with "security." Leonard made the proposal that any worker guilty of "agitating" for an "unauthorized" strike shall be fired and that all workers participating in such "unauthorized" strikes shall be fined first \$3 and on the second offense \$5 per day.

This outrageous proposal to housebreak the great auto union is made in the name of and represents the unanimous position of every international executive officer of the UAW. This is a proposal to convert the proud, militant, fighting auto union into a miserable job trust. This is a proposal to organize a joint conspiracy between the corporations and the union bureaucrats against the workers. The corporation would help bolster the union bureaucracy and protect it from the wrath of the rank and file by means of the check-off and the "disciplinary" provisions of the contract. In return the union bureaucrats would become policemen for the company to keep the working force docile and submissive.

The Net Results Of This "Strategy"

These bureaucrats of the auto union, scared as rabbits by the fast-moving events and the big problems confronting them, are so stupid, so blind, that they don't stopped the attempt of Fisher Body officials and supereven realize that they would be digging their own graves, intendents to enter the struck GM plant here at the even if they succeeded in putting their sell-out proposal across. A "unionism" of this kind would engender such Automobile Workers, were supported by striking members fierce hatred on the part of the more backward workers of Murray Ohio Local 65, against the union organization and its leadership, that in UAW-CIO. These are the reasons why the GM strike, and with it labor's wage fight on a national scale, are today on the back. Price continued to move defensive.

What must be done to retrieve the situation?

How To Retrieve The Situation

To begin with, the active militants must make up their the whole gang of company minds that the "super-slick" Thomas-Reuther "strategy" of "isolating" GM is deader than the proverbial Dodo. from the picket line. The plant No attempts to revive it will succeed. It must be buried. The GM strike cannot and will not be won on that basis.

Labor then must proceed to organize a counter-offensive all along the line. What does this mean in practice? of General Motor's arrogant ac- room and restrooms. Leading ple are also in action in the labor scabs.

must immediately be closed up. That means closing down it was abrogating all local agree- verted into an attractive patio the plants tight, and asking all workers, office and super- ments as well as the national in the summertime. visory included, to stay out and respect the picket lines. contract with the UAW. But During the evening, talented That means to stop all work on GM tools and dies in the the corporation's attempt to members of the branch presentjob shops and to close down the GM plants organized by the UE.

Next, the militants on the picket lines must make up Chrysler must join the picket lines! their minds that there is only one way they can beat the injunctions emanating from the labor-hating judges: by the union that is first indicated to do the job and bring using the methods employed in the Flint GM strike of up the necessary reinforcements is the CIO Steel Union. 1936-37.

Furthermore, the treachery at Ford's must be roundly condemned and the international officers instructed to withdraw immediately their sell-out proposals. (We note the other steel union leaders have taken upon themselves with satisfaction that action along this line has already to set the strike date one month off, January 14! There started.)

Next, the threat of hostile legislation from Congress, the threat of compulsory arbitration by the imposition of Fact-Finding Commissions, must be met by mass action and resistance on the part of labor.

Extend The Strike Front!

A second s

-Leon Trotsky

Ford "Fines" Plan

The billionaire Ford Motor Corporation has arrogantly demanded that the United Auto Workers Union pay \$5 for each worker for each day he might engage in what the Fords call "wild cat" strikes.

R. T. Leonard, head of the Ford Division of the UAW, yielded in cowardice to this outrageous demand of the Ford dynasty. Only Leonard wants the fines donated to some "worthy" cause, he wants them set at \$3 per day for first "offenders" and \$5 per day for the second, with the fines deducted from the workers' pay.

Evidently the Fords have been studying history. The system of fines was employed by the most vicious capitalists during the early days of capitalism. It survived in Russia under the Czars up until November 7, 1917, when the working class, led by the Bolsheviks under Lenin and Trotsky tossed this hated privilege into the ashcan along with the Czars and the whole capitalist system.

In other countries, when the union movement gained strength, one of the principal grievances they toppled in the early days, was this dictatorial privilege of the bosses.

But now the Ford dynasty wants to turn back the pages of history. It wants to revive the old days when the capitalist robber barons fined their unorganized employes for the most trivial reasons, such as lateness to work, spoiling a job, accidentally breaking a tool, falling behind the speed-up.

The Ford dynasty, however, forgets a small item. It faces the most democratic militant union the country has yet seen. The auto workers will give the Ford "fines" plan the fate it deserves; namely, crumple it up and toss it contemptuously into the wastebasket.

gloats editorially over these services performed by Stalin: "Russia (Stalin) and the United States (Wall Street) see eye to eye on the Chinese situation."

Stalin has again betrayed the Chinese people. He has again sacrificed the Chinese Stalinists as "expendable." For an undisclosed price, he is again giving moral, political and material aid to Chiang, Wall Street's agent and the butcher of the Chinese masses. No other conclusion is possible.

"Chiang Kai-shek is making rapid progress," observes Wall Street's reactionary spokesman, the N. Y. Times, with satisfaction, "largely because of the help given him by both Russia (Stalin) and the United States (Wall Street)."

Thus the American Stalinists are left in a most ludicrous and politically hopeless position. While they try to convince people that they sincerely want to stop intervention in China and bring the troops back home, their "genius-like" horse trader in the Kremlin perfidiously joins Wall Street in bolstering up Chiang Kai-shek, knifing the struggle of the Chinese people, weakening the Soviet Union and betraying socialism.

Small wonder that the Stalinists are finding it impossible to retrieve the prestige they lost forever with their open support of Wall Street's imperialist war!

Free The CO's

An appeal for grant of amnesty to the 3.000 conscientious objectors now in Federal prisons has been sent to President Truman by the American Civil Liberties Union.

An accompanying letter points out that "the number of men now in prison is seven times the number in World War I." Pending the granting of amnesty, the letter urges that parole conditions for the conscientious objectors be amended to give the prisoners "at least the same consideration as ordinary offenders.'

Some 6,000 additional conscientious objectors are serving in labor battalions called the "Civilian Public Service." Since the Selective Service does not award these men points toward discharge, they face an indefinite term. Besides asking that a point discharge system be set up for these laborers, the letter sponsored by the ACLU asks that the War Department be requested to review all convictions by courts martial of men in the Armed Forces whose records show claims of conscientious objection.

The conscientious objectors represent a political current which opposes 'war on moral grounds. They preferred prison to engaging in the slaughter of their fellow men.

The Militant disagrees sharply with this method of opposing war. The method of the conscientious objectors is not only futile but can serve to disorient the working people from the only correct way of ending wars forever--that is, by ending the capitalist system,

The Trotskyists too were imprisoned by the Roosevelt Administration for opposing the imperialist Second World War. But in the Minneapolis court room where they were tried, the Trotskyists pointed out that those who genuinely hate war should not separate themselves from the worker-soldiers, but go with them, participate in their experiences and convince the workers of the need to overthrow the economic system which breeds such evils as depressions, imperialist war and fascism. The Militant, however, underlines the fact that the conscientious objectors are not criminals but political prisoners. They have been unjustly thrown in prison because they refused to support the mass murder sponsored by the capitalist class. The release of these political prisoners is a cause every believer in freedom of speech and freedom of opinion should back wholeheartedly.

Unions Must Organize Veterans A Mass veterans' organization must be created by the trade unions. Such an organization will be a powerful ally of the labor movement. It will be a bulwark against reaction, another weapon in labor's hands, one that can be used to stop the anti-union drive of Big Business.

Even veterans belonging to unions find it necessary to join other organizations in order to fight for aims applying specifically to veterans. To struggle for the needs of their disabled comrades and those still in the armed forces, to press for better veterans' legislation, to fight for objectives of special interest to the veterans, they join separate organizations.

Wall Street is fully aware of this. The bosses' strategy is well worked out. Most of the existing veterans' organizations are dominated by Big Business. All of them have a common goal; mislead the veterans, dupe them into following a program invorable to the bosses; divide them from the rest of the workers. These Wall Street controlled organizations try to buy off the veterans with rosy promises, and to drive a wedge between veterans and non-veterans.

Through trickery, lies and deceit, the bosses hope to turn the resentment of the veterans away from themselves and direct it toward the labor movement. They hope to make an ally of a large section of the veterans and use them to strike a blow at the unions.

In the present General Motors strike a Captain Jack Packard tried to organize the 3,300 veterans employed by General Motors in Flint. He planned to use them in a strikebreaking move. The Ku Khur Kian made a bid for the veterans in Detroit.

But the vast majority of the veterans have shown that they are solidly with the unions. They are the most active militants. In every strike poll they vote overwhelmingly for strike. They are in the forefront on the picket lines. Time and again veterans have demonstrated that they are against the bosses, against the fascists and reaction of every kind.

However, to make their struggle most effective, they must be brought into an organization that is allied with the labor movement.

To counter the anti-union moves of General Motors during the present strike, it was necessary for the UAW veterans to form a veterans' committee in Detroit. The veterans had to be organized after the strike began. And until a mass veterans' organization is formed by the unions, this will be the case in every strike. Veterans will have to be organized either on the eve or in the heat of battle.

The Veterans Committees' set up in the General Motors strike should be extended to other regions and unions. These should be tied together to form a national organization of veterans. The expanded organization should adopt a broad program that meets the needs of all veterans.

Such an organization will not only be a barrier against reaction. It will be able to fight effectively for the special needs of the veterans, because it will have no interests other than those of the labor movement and the rank and file veterans.

Vast Army Supplies Wantonly Destroyed

Stalinists In China

The American Stalinists have launched a campaign to "Bring the GI's Home" and "Stop Intervention in China."

As a result, Times Square in New York on December 8 saw the first Stalinist demonstration of that character since Browder came out in support of Wall Street's imperialist war some five years ago. The Stalinists have promised similar rallies in other cities.

The Trotskyists were the first to demand the withdrawal of all American troops from foreign soil. The belated decision of the Stalinists to finally join in this fight can only be welcomed-even though their active participation so far has been limited almost exclusively to China.

Undoubtedly many rank and file Stalinists hope that the campaign on China foreshadows further militant activity. The wish to refurbish their tarnished reputations as militants is quite natural. They feel the pressure of the wide sections of American workers who have turned in utter disgust and scorn from the belly-crawling attitude of the Stalinist leadership before Wall Street during the war. Many of the ranks are undoubtedly striving to suppress their doubts about the correctness of official policy, to regain their morale, and give Foster a longer opportunity to prove Stalinism has really reformed.

These hopes, however, are doomed to swift and miserable disappointment. Precisely the campaign on China illustrates why American Stalinism cannot hope to escape its doom. The rank and file will presently discover they are neither advancing socialism nor defending the Soviet Union by remaining in the Communist Party. Already the fountainhead of Stalinism in the Kremlin is selling them down the river. Stalin couldn't even wait for his lieutenants to cash in on this new "militancy" in the United States.

Under Generalissimo Stalin's command, the Red Army is now clearing the roads for dictator Chiang Kai-shek's puppet troops in Manchuria.

Generalissimo Stalin is likewise turning over to the Chinese butcher the main cities of Manchuria. Chiang is far too weak to seize them without the aid he is receiving from both Stalin and Wall Street.

The Generalissimo in the Kremlin has likewise ordered the Red Army to guard the airfields for the arrival of Chiang Kal-shek's American-equipped troops.

Wall Street's mouthpiece, the N. Y. Times.

A Stab In The Back

When John L. Lewis was the fighting leader of 525,000 striking coal miners who stood out against the whole yelping jingo pack of capitalists, government officials and rival union leaders during the war, he deserved support and commendation.

But when John L. Lewis uses the occasion of a Congressional hearing on a proposed antilabor bill to make a snide, gratuitous and utterly vicious attack against the General Motors strike, which is the spearhead of American labor's fight for higher wages, there is but one thing to call it:

A treacherous, strikebreaking stab-in-theback.

There is no other term to apply to his widelypublicized comments on the General Motors strike during his testimony on December 10 before the House Labor Committee hearings on Truman's "fact - finding" bill to restrict strikes.

Lewis had a great time, in his usual Shakespearean oratory, pointing out the "blunder" of the General Motors workers in striking "at this time," and telling how he would end the strike by letting the profits-swollen corporation charge higher prices.

Whether the GM workers "blundered" is totally beside the point. They are in the midst of a vital and desperate battle now. There is but one honorable thing for any real union leader to do. SUPPORT THE STRIKE TO THE UTMOST.

Instead, Lewis tried to capitalize on the GM situation to inflate his own stature at the expense of the embattled auto workers, by putting them up to ridicule and scorn. That we condemn as mean and base and unworthy of a union leader.

The Militant was the only labor paper in America to back the miners' wartime strikes 100 per cent. We are proud of that fact. We then called Philip Murray and William Green strikebreakers for their attacks on the miners. When John L. Lewis today imitates the conduct of Murray and Green he merits the same condemnation they so richly deserved.

Congressmen At Work

Most of Wall Street's Congressmen are convinced it is only a question of time until the Third World War breaks out. But they are troubled over the fact the voters want peace. Naturally the Congressmen are anxious to discover a miracle that would make peace possible under the capitalist system, as it would be good for a life-time political meal ticket. And so they are devoting a lot of study to the problem. Representative Horan of Washington, for instance, has pondered deeply.

"Mr. Speaker, if our hope for tific law: "Skiing has probably world peace is to come from the association of peoples rather from Norway, Sweden and the than governments. I should like to have you listen to me for about five minutes on skiing . . .'

NEW YORX Holiday Social Saturday, Dec. 22 Bring A 10c Gift For The Grab Bag! 116 University Place 8 p. m.

Thousands upon thousands of tons of American military supplies---from food, clothing and medicine to jeeps and planes-are being deliberately and wantonly destroyed before the eves of starving. ragged, diseased millions in India. Burma and elsewhere. According to Paul Mallon, who first disclosed

some of the facts in a Washington dispatch, November 1, in the Assam, Malay, theater "the British have succeeded in imposing upon our armed forces an officially ordered restriction against leaving anything behind of benefit to the natives."

Hospitals were razed to the ground, Mallon reported, and "chemicals and drugs are buried in the ground for destruction when no longer of use to us and surgical instruments are systematically ruined in a government dump prepared for that purpose. Appeals for use of the drugs in mission hespitals were unavailing."

Sun glasses, costing the American taxpayers \$7.50 apiece, were systematically collected from departing Air Corps men, taken out to the air strip where a steam roller was run over them. Some 6,000 ordnance wrist watches were collected and destroyed. In India, 14-pound sledgehammers were used to smash generators, fans, refrigerators, radios and X-ray equipment.

Confirmation of this destruction, "staggering in scope and thoroughness," came from Sydney, Australia, November 28, where the Sydney Sun correspondent C. A. Burley wrote from Rabaul, that the American forces in the Pacific Islands "are dumping in the sea or are burning millions of pounds worth of gear."

At Saigon, tons of food have been dumped into the sea. 200 Hellcat fighters were tossed overboard in the Admiralties. Pontoon-loads of jeeps, complete dental outfits, mobile radio outfits were tossed into the ocean at Finschhafen, while small vessels were burned in the harbor and vast stores of clothing were burned on shore. Whole warehouses filled with photographic equipment and other scarce supplies were abandoned at Lae.

A mess sergeant writing from India to the New York Daily PM, November 29, reported indignantly that millions of dollars' worth of useful planes and plane equipment are being tossed into gasoline. filled ditches and burned. He reported 200,000 parachutes of silk and nylon, which could have been used "for all kinds of underwear, pajamas, shirts, and nightgowns for our families," were burned at Lashio.

"They burned all the extra clothing issue equipe ment they could find. They just took blankets, shirts, trousers, underwear - just everything out of the warehouses, piled them up and burned them . . ."

THE MILITANT

To All Readers Of The Militant: This Is YOUR Fight, Too!

You recognize The Militant as a fighting newspaper of the working people. You know its ideas and most of you agree with them. BUT

It Is Not Enough To Have Ideas

The important thing is to make your ideas a living reality.

The Militant expresses the ideas and program of the Socialist Workers Party. The Socialist Workers Party fights day by day, in the trade unions and on the political field to put these ideas into action.

The Socialist Workers Party is made up of workers like you. It is led by workers like you. It needs more and constantly more workers like you, organized to fight for the needs of all the working people.

Take Your Place In Our Ranks

Join the fight for a better world—a socialist world—for yourself and your children. If you evade the struggle today, if by your inaction capitalism continues to rule, your own children will be blown to atomic dust in World War III.

Only if you organize today will your children tomorrow have life and the abundance to enjoy life.

Fill Out The Application Blank

The blank at the bottom of this page is for your convenience. Tear it out and mail it today.

THE HISTORY OF AMERICAN TROTSKYISM — by James P. Cannon

Previous installments of Comrade Cannon's book described the emergence of the American Communist Party out of the left wing of the Socialist Party in 1919, the expulsion of the Trotskyists in 1928, the formation of a new party and the Minneapolis Strikes of 1934. In 1935, the Trotskyists turned

ENTRY INTO S.P. WAS POLITICAL TASK

for reopening the question and changing their minds."

We received no welcome, no friendly salute, no notice in the

in numerical strength, in mass militancy, and in its composition of the basic lower strata of the proletariat-this second big upwas the time when only the Trotskyists, the bona fide Marxists, foresaw, in the period of darkest reaction and isolation, that a foresaw, in the period of darkest reaction and isolation, that a press of the Socialist Party. Nothing was offered to us. No one new rise was bound to come and consciously prepared for it in war was about to break out in full force; and to raise once a in the most acute manner, the prospect of a second victory of the proletarian revolution in Europe. The Spanish revolution had within it the possibility of changing the whole face of Europe if it. should succeed. A few months afterwards the Moscow trials were to shake the whole world.

their attention to a growing left wing tendency in the So ist Party

We tried to educate not only the comrades involved in Allentown, but the whole party on what conciliation with Stalinism means in a revolutionary sense. But this work was hampered by the fact that these people were personal friends of Muste and that Muste protected them. For factional reasons he protected his friends against those, who he admitted, were defending a correct political line. Instead of taking a clear stand with us, and joining with us to put pressure on the Allentown people, he would step in between us and them, blur the issue and prevent any kind of disciplinary action even in the most flagrant violations. Blinded by the intensity of the factional fight, Muste put the thing on a factional basis, protecting his friends. That is one of the gravest offenses against the revolutionary party. What has to be protected in the party, first of all, are the principles of Bolshevism.

If one has friends, the best thing he can do for them is to beach them the principles of Bolshevism, not to protect them in their error. If you don't, not only do your friends go to the devil, but you go with them. The friendship business is all right for Tammany Hall, which is based on the exchange of personal favors. But friendship which is a very good thing in personal life, must always he subordinated to principles and the interests of the movement. I said to Muste after one of those exhibitions: "You are going to be terribly shocked some morning when you wake up and discover a Stalinist nucleus in Allentown trying to betray theparty.'

'He wouldn't listen, but persisted in his fatal course. And he was assisted in this crime by those who knew better. Muste was not a man of long experience in the tradition and the doctrines of Bolshevism. That might be said in his extenuation. But Muste was supported and egged on in this shielding of Stalinist tendencies and elements for factional reasons by Abern and his little clique. And I won't say anything more about these people here because I have said all that need be said about them in my book The Struggle for a Proletarian Party.

in the convention in March 1936. Then, in return for his coddling and covering up and protecting of the Stalinist tendencies in Allentown, Muste was rewarded by the announcement in the Daily Worker, on the day our convention opened, that Reich, Hallett of political leadership is to understand what is possible and necesand Johnson had joined the Communist Party! Muste's "friends" issued a statement denouncing the "counter-revolutionary Trotskyists," on the very morning that our convention opened. This was the final devastating blow to the Muste-Abern faction, which had already been discredited enough. They had to suffer the final disgrace of seeing a group of people, whom they had protected for factional reasons, turning out to be Stalinist agents trying to demoralize and split our convention on the day it opened. Fortunately, the traitors were completely isolated; their action remained only a personal episode, and did not disturb the convention or the party in any way whatever. It only discredited the faction that had covered them up so blindly in the preceding months. By the same token, this denouement reinforced the authority of the majority faction, which had followed a clearly principled line and was in no way involved in the scandal.

The Big Majority in Favor of Entry

minority, which was a very small minority by then, accepted the not yet ready to hear the revolutionary word. decision. There was nothing else they could do. At the Socialist Party convention in Cleveland a few weeks later, the split with ped the world labor movement in the first years of our existence the Right Wing was completed on a national scale, and our mem- as a Trotskyist movement in this country, namely from 1928 until bers all over the country began joining the Socialist Party as 1934, we could not avoid isolation. That was the time when the individuals under the direction of the national leadership. We sus- whole weight of the world seemed to bear down upon a small pected a double-cross even at that late date. Our advice to our group, a small handful of irreconcilables. That was the time veritable revolution, were taking place at the very moment we were comrades everywhere was: "Hurry, don't delay. Don't dicker for when fainthearted people, especially those without a theoretical terms but get into the Socialist Party while there is time. Don't grasp of the nature of modern society and the laws working within CIO, destined to carry this tremendous movement to greater heights

of the leaders of our party was offered so much as a post as branch two ways: first, by elaborating the program which would equip organizer by these cheapskates-not one. The Stalinists were these Trotskyists." They were warning them what would happen when the Trotskyists came in. And this was scaring the "Militants" blue in the face. It was a shabby business-the way they received us. If we had had been subjective people standing on our honor, we might have said, "To hell with it!" and walked away. But we didn't, because we were serving political ends.

We didn't construe all these humiliating concessions we had made as conciliation with the centrists. We just said to ourselves: that is blackmail we are paying for the privilege of carrying out an historically important political task.

We went into the Socialist Party confidently because we knew that we had a disciplined group and a program that was bound in the end to prevail. When, a little later, the leaders of the

Socialist Party began to repent of the whole business; wishing they had never heard the name of Trotskyism, wishing to reconsider their decision to admit us, it was already too late. Our people were already inside the Socialist Party and beginning their work of integrating themselves in the local organizations. We issued a declaration in the last number of THE MILITANT, published in June 1936, announcing that we were joining the Socialist Party and suspending THE MILITANT. We stated our position very clearly, so that nobody could misunderstand us; no one could have any ground to believe that we were joining as capitulators, as renegades from Communism. We said: "We enter the Socialist Party as we are, with our ideas." These world-conquering ideas once again were on the march. And there was a fruitful year of work ahead of us in the Socialist Party.

CHAPTER XII

The Trotskyists In The Socialist Party

The last lecture in this series deals with the period of approx-

imately one year that we spent inside the Socialist Party and the This adventure of Muste and Abern had a terrific kickback six months during which we were neither in nor out, but on our way to another destination. In the course of these lectures I have emphasized repeatedly that the tactics of a party are imposed upon it by political and economic factors beyond its control. The task sary in a given situation, and what is not possible and not necessary. This may be said to be the gist of political leadership. The in 1936 at the time of our entry. The Socialist Party was destined. activities of a revolutionary party, that is, a Marxist Party, are conditioned by objective circumstances. These circumstances sometimes impose defeat and isolation upon the party despite anything that can be done by the leadership and the membership. In other situations the objective circumstances create possibilities party always moves within a set of social factors not made by society.

There are times when the best leadership cannot move the party forward by a single inch. For example, Marx and Engels, the greatest of all the teachers and leaders of our movement remained isolated practically throughout their entire lives. . They could not even create a substantial group in England where they lived and worked during the period of their maturity. This was not due to errors on their part and certainly not to incapacity, but to We had an overwhelming majority at the convention. The external factors beyond their control. The British workers were

During the long period of reaction and stagnation, which griphold out for formal concessions which will give them a pretext it in favor of crises leading to revolution, fell by the wayside. That

the party for the new time; and, secondly, by assembling the prehowling at the top of their voices: "You will never be able to digest liminary cadres of the future revolutionary party and inspiring them to hold on with faith in the future. This faith in the future was justified as we have seen in some of the preceding lectures

> When the log jam in the world labor movement began to break up, especially beginning with 1934, a new movement of the masses was to be seen in this country, and all over the world. When that new situation began to reveal itself we were put to the test and given our opportunity. That was no longer the time to remain contentedly in isolation, clarifying principles. That was the time to bestir ourselves and apply those principles in action in the life of the surging class struggle. Our determination to do this, our recognition that the opportunity was before us, and our determination to grasp that opportunity, brought us into conflict with the sectarians, the ultra-leftists. We had to fight them, we had to defeat them, in order to go forward. We did that. In the Minneapolis strike we took a step forward in the economic mass movement. The fusion with the American Workers Party was another important step along the road toward the development of a serious Marxist Party in the United States. But these progressive actions were only steps, and we had to recognize the limitedness of the accomplishments. Political initiative and resolute actions in more complicated situations were still required of us.

In Politics Time Does Not Wait

The entry of our group into the Socialist Party of the United States was a still more important step along the complicated, winding, long drawn-out path toward the creation of a party that will eventually lead the proletariat of America to victory in the socialist revolution. That step, the entry into the Socialist Party, was taken by us at just the right time. Time is always an important consideration in politics. Time does not wait. Alas for the political leader who forgets it. There is a legal expression: "Time is of the essence of the contract." Ten times, a thousand times more does that apply in politics. It is not only what you do that decides, but when you do it; whether you do it at the right moment.

It was not possible for us to join the Socialist Party earlier than we did, and if we had tried it later, it would have been too late. The heterogeneous Socialist Party that was attracting so much of our attention in those days, this centrist mishmash this headless, helpless party, was buffeted by external events and squeezed by all kinds of pressures. The party itself was not viable. It was already in the stage of violent ferment and disintegration in any case, to be torn apart. The only question was how and along what lines the disintegration and eventual destruction of the historically unviable party would take place.

There was a powerful, though not yet fully conscious movement in the Socialist Party toward reconciliation with the Roosefor successes and advances, but at the same time limit them. The velt administration, and thereby with bourgeois society. The propaganda and material resources of the well-heeled apparatus of itself. They are features of the process of the development of the Communist Party pressed heavily upon the leaderless Socialist workers. The question was: Would the potentially revolutionary element of the centrist party-the worker activists and rebellious youth-be engulfed by these forces? Or, would they be fused with the cadres of Trotskyism and brought over to the road of the proletarian revolution? This could be tested only by our entry into the Socialist Party. It was not possible for the Trotskyists to come into contact with these potentially revolutionary elements of the Socialist Party otherwise than by joining the Socialist Party, for the simple reason that they showed no disposition to join our party. Organizational fetishism had to be cast aside. It had to give place to the demands of political necessity, which always stand above organizational consideration.

> Our entry into the Socialist Party took place against a backround of great events which were in process of unfolding, both at home and on a world scale. The sit-down strikes in France, a arranging to join the Socialist Party. The second big upsurge of the than the organized labor movement of America had ever known-

> > Sec. March 1

Our Party Gains Valuable Political Emperience

This great panorama of world-shaking events-and the rise of the CIO was not less important than the others in my judgment, from a world historical point of view-created the most favorable auspices for a forward march of the Marxist vanguard. There was no lack of political interest, no lack of mass activitie. no lack of an adequate field for the operation of Marxist revolutionists at the time when we were conducting our activity within the framework of the Socialist Party. If we were worth our salt under such objective conditions, we were bound to gain. We would have had to be the worst kind of leadership; we would almost have had to set out consciously to defeat ourselves in order to fail to gain in such favorable circumstances as those.

Our work in the Socialist Party, when viewed in retrospect, was by no means free from errors and neglected opportunities. There is no doubt at all that the leaders of our movement adapted themselves a little too much to the centrist officialdom of the Socialist Party. A certain amount of formal adaptation was absolutely necessary in order to gain the possibilities of normal work in the organization. But this adaptation undoubtedly was carried too far in some cases and led to illusions and fostered deviations on the part of some members of our movement. There is no doubt at all that after the entry too much time was spent in negotiations and palaver with the leaders of the New York "Militants" group-Zam, Tyler and other Lilliputians of this type, who had absolutely no real power in the party, and whose strategic position was a transitory one rather than that of real influence over the ranks of the party. There is no doubt that in carrying out the political maneuver of entry into the Socialist Party and concentration on the political problems raised within the Socialist Party, we neglected to do as much mass work as might have been done. There is no doubt that such errors and neglected opportunities can be charged against us. But, on the whole, with the advice and the guidance of Trotsky,-a decisive factor in all this work-we complished our main task.

We accumulated invaluable political experience, and we more than doubled our forces as a result of the entry and one year's work in the Socialist Party. We began our work very modestly and according to plan. Our first prescription for our people was: Penctrate the organization, become integrated into the party, plunge inte practical work and thus establish a certain moral authority with the rank and file of the party; establish friendly personal relations, especially with those elements of the party who are activists and therefore potentially of some use. Our plan was to let the political issues develop normally, as we were sure they would. We didn't have to force discussion or to initiate the faction struggle artificially. We could well afford to let the political issues unfold under the impact of world events. And we didn't have long to wait.

The situation was vastly different from that of our early years when the general reaction and stagnation held us down. Now objective factors worked in favor of the revolutionists and created the conditions and opportunities they needed to move forward. The Spanish Civil War began in July 1936 with the insurrection led by Franco and the great counter-attack of the workers. The Morcow trials broke over a startled world in August, a few months after we had joined the Socialist Party. These were issues of world significance, and consequently they became known as "Trotskyist" issues. As far back as 1928 it had been recognized by our enemies, even by the most ignorant, that Trotskyism is no provincial dogma. Trotskyism is a movement of world scope and world perspective. Trotskyism proceeds from the standpoint of internationalism and concerns itself with the problems of the proletariat in all parts of the world.

THE MILITANT

PAGE SEVEN

The Trotskyists Call For Solidarity With The Heroic German Workers

Editorial Note: The following manifesto, proclaiming solidarity with the German workers, has just been received from Europe by THE MILITANT. Printed in the German language and isnight in leaflet form, it is signed by the European sections of the Fourth International. This call for international support of the German proletariat demonstrates that the Trotskyists alone remain true to the heritage of the martyred revolutionary leaders of the German workers, Liebknecht. and Luxemburg. In their spirit, the Trotskyists alone carry forward the work of the socialist revolu-

INTERNATIONAL SOLIDARITY With the German Proletariat

Hitler-fascism lies prostrate-broken by armed power-and it would seem that a breathing space for humanity is possible. Finally, after 12 years of frightful suppression and five terriple years of war, full of blood and tears, it would seem that the working people of Germany shove all should be free to breathe and hope for a better future.

But it is turning out quite differently. The lie propagated through the years by Goebbels' propaganda machine-that Hitler and the German people are one and the same-has now become the official pretext for the treatment imposed by the victorious Allied powers. Vansittart in England, Morgenthau in America, and Ehrenburg in Russia all preach with equal hatred that the entire German people bear the guilt for Hitler's crimes. The partitioning of Germany. the annexation of territories, the forced agrarianization of Germany, the plundering of machines from factories, requisitioning of all types, the confiscation of arms, deportations, the evacustion of millions from their native homes, the hunger blockade, reparations running into billions-this is the "Peace" given the German people under the excuse that they are collectively guilty.

German working people in the cities and on the farms! In this situation, we, the International Communists, feel obligated to stand by you with all the power and conviction of our class solidarity. Understand that we are not Social Democrats-who with cowardly opportunism support the label of collective guilt and act as agents of Anglo-American and French imperialism in Western Germany. Understand the that we are not Stalinists-who shout still louder under Russian command in declaring the German people guilty and who hail the annexations in the East carried out by the same Stalin who once declared he didn't want an inch of foreign territory. We are Communists in the spirit of Lenin and in the tradition of the forever glorious Russian October revolution. We simply defend the basic principles of this revolution when we oppose all imperialist exploitation and assaults no matter from what power they come and no matter against whom they are directed.

Today it is you, the German proletariat, the preletariat of Karl Liebknecht and Rosa Luxaburg, who above all need the solidarity of the proletariat of other countries.

We International Communists wish to testify for you, the German proletariat, who have stood to a man through hundreds of class battles, bleeding at a thousand wounds, you, who have lost tens of thousands of your best representatives in concentration camps. We do this dethe fact that we know we shall persecution and the lies of the prostitutes of the press and corrupt labor bureaucrats labeling us as "Hitlero-Trotskyites." Let them attack us. Solidarity remains, solidarity. And truth remains truth despite everything.

against the German proletariat before launching into World War. Hitler had to smash the German workers' organizations and slaughter | the entire workers' leadership before he could build his war machine unmolested and then commit his war crimes. So long as Hitler directed his butchery against the German pro--letariat, the foreign capitalists backed him. It was the foreign capitalists who encouraged and did business with Hitler. The guilt of international capitalism in supporting Hitler-fascism is only underlined in retrospect when it plasters the label of "guilty" on the German people in order to squeeze billions in reparations out of them.

Truth further demands that we note the Second World War broke out when Hitler attempted in the interests of German monopoly capitalism to secure a world redivision of markets and spheres of influence. If Hitler, representing belated German imperialism on the world market, appears as the aggressor, the other imperialists cannot thereby be labelled peace-loving democrats, since they simply defended imperialist robberies made at an earlier stage. Their lack of innocence is all the more emphasized by the fact that scarcely did they militarily defeat their competitor Hitler than they began new imperialist quarrels among themselves, organizing new blocs and laying the foundation for another war. And these imperialist squabbles are being fought at the expense of the German proletariat in particular.

Capitalism Is The Culprit

We International Communists therefore denounce as the main culprit above all the capitalist system which creates war and fascism. We say to the German proletariat and all other workers that the fall of Hitler-fascism has not assured world peace. Peace can be secured only through the struggle for socialism and the Socfalist United States of the World.

But from the viewpoint of the working class, to fix responsibility it is necessary first of all to point to the former leaders of the German proletariat.

From the murder of Liebknecht under Noske to the Administration of Severing, a straight path leads to the development of Hitler, a path passing through the whole coalition politics of the murky waters of nationalism. The danger the Social Democrats and their participation in the capitalist government. The Stalinist leadership on their part with their idiotic theory of "Social-fascism" contributed decisively to the victory of Hitler by deepening the split in punishment. the already broken class unity and thereby

further weakening the German proletariat. The German workers, despite the betrayal of their leadership, heroically defended themselyes. The thousands of martyrs alone make the thesis of "collective guilt" an insult to these heroes of the German proletariat. Even up to are the same capitalist cliques who are already the end, when the Allied armies were laying carpets of bombs over the workers' sections and seriously paralyzing any full-scale resistance against Hitler, the German revolutionary workers engaged in strikes and demonstrations people. against fascism. Deserters from the German army together with foreign workers rose against

Displaced Families In Germany

Millions of families, torn from their homes by the Allies, are swelling the ranks of the masses uprooted by the war and now wandering in central Europe. The above photograph was taken at the railway yards at Bamberg, Germany, last July. Lacking food, shelter, and adequate clothing, these people face death during the coming winter.

perialist yoke.

the SS. In some towns the workers in daring insurrections even seized power before the Allied armies arrived.

These same military powers, who blame the German people for not overthrowing Hitler, did everything to liquidate and suppress the news of these uprisings. In the final analysis the victorious imperialists, as well as the defeated Hitler-fascists and the now hypocritically democratic German bourgeoisie, all find their main enemy to be the proletarian revolution. The treatment of the German people on the principle of collective-guilt provides the fascists precisely with new possibilities to fish in is all the greater since, if the German people are collectively guilty then the Nazis who are the real guilty ones can logically hope to escape

Diary Of A Steelworker By T. Kovalesky

His name is George P. Ellsworth, but the fellows generally refer to him as "Old Ellsworth." "that goddamn Ellsworth," or one or two other

> names that you might say but you wouldn't write

> down. He's a large man

with a lantern jaw and hair that's just beginning

to turn gray. His face is

hard as a chunk of steel

and his eyes are just that

cold. He is superintendent of the blast furnace department George P. Ellsworth was born, they say, somewhere in the south, grew up there, and went to college to learn about the steel industry. They taught him everything about blast fur-

naces that you can learn out of a book, and they taught him how to handle workingmen . . . the company war. Then they turned him loose in the steel plant.

He started out "at the bottom." He came to work in overalls tending stoves on a blast furnace in the times when we used to work eleven-hour days and thirteen-hour nights, with a twenty-four hour shift once every two weeks. Oh, yes George P. Ellsworth was once a workingman with a dirty face and sweaty woolen underwear.

But he was always a man apart. We knew what he was here for, so we never took him into our confidence; and he, on the other hand, associated with us only as much as he had to on the job. When we cursed the company for our hard work and low pay, his eyes would narrow, and he'd walk away from us. When the colored fellows would talk, he'd listen with an amused, superior smile; for George P. Ellsworth was from the south, a "southern gentleman.

He started at the bottom but he didn't stay there long. Within a year he was a blower. Not long afterward he was a foreman, then assistant superintendent, working under Old Houseman. George P. Ellsworth was a man of destiny. There was a place waiting for him in this world.

Then one day, Mr. Housman retired, and Ellsworth became superintendent of the department. He had made the grade.

From the company's standpoint, he was a fine man for the job. Always looking for a way to save money, he cut the working force first in one place and then in another, loading more work on those left on the jobs. When we'd complain about this, Ellsworth would say, "Don't tell me that! I worked on those furnaces, myself, and I know how much work there is. You fellows still have it easy." Well, there was no union then, so we couldn't do anything about it. He ruled the department with an iron hand.

That's the way it went for a long time. There were vicious and spiteful punishments meted out to anyone who broke the company's rules. Promotions were given to favorites regardless of their ability, even more openly than now.

Then Something Happened

But then something happened. The SWOC came around, and the men began joining it. Ellsworth was furious. Here was an organization coming in to challenge his absolute rule. The company OWNED the plant. The company had put him, George P. Ellsworth, in charge of the blast furnace department. And now this damned union, this gang of red radicals, was trying to come in and tell him, HIM, George P. Ellsworth, how to run HIS department! As he stalked about the furnaces, hatred tightened burned by British troops on Dehis face and vibrated in his voice.

All the active unionists were closely watched. Whitey Larson was soon fired for some trivial Buitenzorg, was put to the torch, reason that I have forgotten now. Soon after- the British asserted, because ward the same thing happened to me, but we sniping from the village interboth kept on organizing the union from outside fered with troops guarding a rail the plant.

Then came the strike, and the union was forces were said to have been recognized. What a blow this was to Ellsworth! ambushed. Here in his OWN department, he had to deal with a Grievance Committee . . . and more burned every building in the vilthan that, on this committee were two men lage of Beknassi, Java and that he had fired and the union had gotten strafed trucks as they left the back into the plant. He was a wounded man, town. and he showed it.

But you have to make the best of a bad sit- U. S. RESPONSIBILITY uation, so Ellsworth began to act more cooperative. He began to joke with the committee when visions on the way to Java will we went in on grievances, and that was OK raise the Empire's forces to 100,with us, as long as we won our points. Some- 000 men. When the additional times it would be a little too hard for him to Dutch troops are brought in, the take, and he'd try to be his old tough self; but combined Anglo-Dutch forces will a little strike would usually be enough to set amount to 150,000. The Dutch him right.

When war was declared, and the International gave the no-strike pledge, Ellsworth began to States. All the imperialist troops get his footing once again. He began to say in Indonesia are fully equipped "No" more and more often, and we couldn't with the most modern arms. do much about it. A little strike couldn't beat both the company and the union bureaucrats, and the workers weren't ready to have a big one in wartime. So we were stuck, and George P. Ellsworth began to ride high almost like the old days.

Well, he's still riding high, but he's due for a fall, and I think he feels it because he shows, once again all the old hatred. The union has given notice. We'll go out on the fourteenth of January and we're ready and anxious. Ellsworth is powerless to do anything about it, so he stalks about the department like a wounded bear, glaring and snarling, wishing for the good old days, when a superintendent was king of the department, and there were no union men to interfere with his royal will!

Their Heroic Defense Against Allied Assault By Charles Carsten "Bring Back Daddy," Demand Wives And Children Of War Veterans

Fighters For Freedom Of Colonies Continue

By Winifred Nelson ST. PAUL, Minn., Dec. 10 - Over 100 mothers, members of the "Bring Back J Club, marched on the State Capitol too protest against the delay in returning fathers to their homes.

Despite sub-zero weather, all the women brought their children, ranging in age from 10 months to seven years, bundled in snowsuits. scarves, mittens and overshoes, to impress upon the Governor the need for doing something NOW to relieve the situation of servicemen's families existing on inadequate government allot-Hanging from the children's shoulders were signs reading: "Please bring my daddy home." 'I want my daddy back." "No boats, no votes." Chief protest of the group is that men "are being kept overseas doing nothing while their families are suffering at home from lack of funds to support them during the winter." One of the women stated, "Our children are cold. Something has to be done. Our children cry their hearts out every night in loneliness. They go to Santa Claus and ask only that their daddies be returned for Christmas."

Although Mrs. Ruth Orlando, club spokesman, expressed satisfaction with the Governor's promise to "do all he could," other mothers in this morning's "March on the Capitol" were far from satisfied. They threatened that, if nothing is done, Thye will get no votes from them in the next election.

Allied 'Lidices' In The Far East

- By The Editors -

One of the most shocking Nazi atrocities during the ar was the levelling of the Czechoslovak village of Lidice.

This small town, claimed the Nazis, "gave shelter and assisted" the underground fighters who had shot Reinhard Heydrich, brutal Nazi leader. In retaliation, the Nazis shot all the men in the town, sent the women to concentration camps, and then razed the town, leaving nothing but smoking ruins.

statement on policy in China The Allied propagandists utilized this frightful atrocity appears all the more hypocritical. to make the name of Lidice a rallying cry for vengeance. He declared that "the United States has long subscribed to the They pointed to the bestiality of the Nazis at Lidice to principle that the management whip up the morale of the Allied troops. The inhuman of internal affairs is the respon- monsters capable of such a foul crime, cried out the prosibility of the peoples of the sov- pagandists, must be fought to a finish by every decent human being.

> Now the Nazis have been defeated. It might appear that human decency had triumphed.

But on December 4-more than three years after the Nazi Lidice___the American military command in China gave the world another Lidice. Two Americans, claimed General Rockey, had been shot by Chinese. Those accused of shooting these armed invaders of their land fled to a small village named Anshan. When the villagers failed to produce them, the Marines pumped 24 mortar shells into this defenseless town. Seasoned combat men estimated the village could have troops are being transported to been wiped out," reported Associated Press.

Again on December 13, the British command in Indonesia equipped with American-made arms, gave

the world still another Lidice. The British generals claimed that Indonesian "terrorists" had killed British airmen and Indian soldiers who were part of the Allied forces invading Java.

The British cold-bloodedly selected the village of Bekasi for retaliation. Then "truckloads of soldiers swept through the village, drenching wooden buildings with gasoline and planting incendiary bombs, while tanks and artillery stood by to repel any attacks . . . " A column of black smoke more than 1,000 feet high rose over the town.

These are not the only new Lidices smoking on the altar of Allied "democracy."

On October 28 French troops, transported in American ships and equipped with American arms, burned down a village near Saigon, Indo-China.

The Allied Commander used as the pretext for this atrocity the charge that Annamese fighters for the independence of their country had fired at British armored cars as they sped through the village.

The Allied atrocities in China, Indonesia and Indo-China prove that the war criminals are not confined to the ranks of the German imperialists. The war criminals in Wasly ington, London and Paris are just as vile, inhuman and bestial as their Nazi opponents.

These Allied atrocities give new insistence to the widespread demand that all troops be withdrawn immediately from the Far East. Hands off the colonial peoples!

Notes Of A Seaman It is now like the morning after for the memwhat the Journal of Commerce confirms. bership of the CIO National Maritime Union. During the war, the NMU, under the whip of its Stalinist leader-

ship, was driven to submit meekly to the antilabor policies of the Maritime Commission and the profiteering ship-"owners." Not even

the labor hating brass of the Army Transport Corps went as far as the Stalinist leaders of the NMU to keep the seamen on the ships and submissive to the thousand and one restrictive and repressive measures devised by Washington.

Now Mr. Ship-"owner" and his me

in Wall Street and Washington have stopped smiling and making pretty speeches about the "unsung heroes in dungarees." They are showing their teeth and are talking fight,

Listen to the editorial spokesman for the ship-"owners" in the New York "Journal of Commerce," December 10: "Strikes and the threat of strikes are a very serious factor. Another strike on a par with that of the stevedores in 1934 might have unpredictable results. It would leave a trail of ruin . . . There would be unions there too; dead ones."

Consider this sinister statement of the Wall Street spokesmen for the ship-"owners" in the light of what the NMU leaders promised during the war.

* * *

You don't need a very good memory to remember what was said by the Stalinist leadership of the NMU not so very long ago. The "post-war" period was to be one of sweetness and light and brotherly co-operation between the sea-going workmen and the ship-"owning" capitalists. Any NMU member who said otherwise was slandered as a "Jap spy" and a "Trotskyite."

Well, we are in that "post-war" period of Capital-Labor "co - operation" that Curran, Bridges and Co. talked so much about. And the seamen are now learning the hard way

. . . .

The top Stalinist clique has split since then. Now for the first time, the rank and file of BUT REAL! the union are learning the bitter truth of the role these elements played all during the war.

National Director Ralph Rogers, as reported in The Militant, December 8, resigned with a letter to NMU President Joseph Curran, charging McKenzie, Smith and others of the leadership with selling out to the ship-"owners." Tommy Ray, long the Number 1 man in the Stalinist machine, and Alexander have quietly resigned. Apparently the Stalinist machine has found some way to keep them quiet. Now Hedley Stone NMU treasurer, has placed his China under Lend-Lease. resignation before the National Council which is meeting at this writing.

How does this all stack up? The top Stalinist cliquesters followed a treacherous course all according to army reports, Japduring the war and succeeded in completely disorienting the union. They are now trying to cover up their tracks by centering the at-order," that is, they are being Nass Meeting during the war and succeeded in completely anese soldiers are being allowed Garlo Tresca sues and questions, when the very existence of the union is at stake.
