GM PROFITEERS DEFY INVESTIGATION

New Robber Deeds Mark Secret Moscow Meeting

By Joseph Hansen

The Moscow Conference of three foreign ministers has been hailed by the capitalists as a big step toward peace. Actually, military and political developments have changed the balance of power in the world and the treacherous plan, "to Fine UAW Strikers," is now underway. A new Robber Deeds Bill has been passed, striking down the workers' right to strike and enabling the capitalists to profit from the weak position of the government. The workers must not be fooled by this "peace" and must continue to fight for a world without war.

Marines In China Protest Being Used To Aid Chiang

By Charles Curran

Battle weary, but with no heart to remain in China to support the brutal Chiang Kai-shek dictatorship, the Wades forces of the Chinese Nationalist Army are in China. In December 28th dispatches from Chungking, Henry F. Lippert of the New York Herald-Tribune, reports the capture of Hsinmiao by Nationalists and Japanese troops. This victory will give them a foothold on the Yangtze for repulsing Communist armies and assuring railroad grain supplies.

As a result of the recent Chinese victories, the commander of the American forces in China, General MacArthur, has ordered the withdrawal of American troops from China. However, the Chinese are pressing their advance toward the southern flank of the Japanese forces, which is in the hands of the Communist armies.

The property owned by the Chinese government, which is occupied by American forces, will be seized by the Chinese authorities. This action is expected to have a serious effect on the lives of thousands of American citizens in China. (Continued on Page 3)

BIG STRIKE SCHEDULED AT WESTERN ELECTRIC

By Alan Branden

Official To The Militant

DETROIT, Feb. 17—(AP)—The Detroit city-wide strike committee, representing all General Motors union locals in the city, reached a decision on December 28 calling on the United Automobile Workers to organize and strike against the IBM, Chrysler, and General Motors plants.

The decision was based on the fact that IBM is planning to automate its plant and to employ only a few skilled workers. The United Automobile Workers have already struck GM and Chrysler plants in the city and are now organizing the IBM plant in the same area.

FAC T- FINDING BOARD PLAYS ATTORNEY FOR CORPORATION

By Jerry Konig

The fact-finding board, appointed by the General Motors Corporation, is now playing the role of attorney for the corporation. The board, which was appointed to investigate the charges made by the workers on the UAW, is now accused of tampering with the evidence.

The board is accused of not investigating the charges made by the workers, but instead of trying to prove the workers' guilt.

Miners -- Murder for Profit

By Raymond Atwood

In Pottsville, Pennsylvania, on December 23, a major strike was declared. The miners in the Wheat District are now on strike for higher wages and better working conditions. The company has been accused of using strikebreakers to replace the miners.

Fact-Finding Board Plays Attorney For Corporation

By Art Prea

General Motors Corporation, arrogant ever since the disclosure of the fact-finding board hearings on the GM strike, the corporation continues to refuse to publish the books and records to which they are subject to examination even by government officials.

The corporation has not supported its contention that "the books and records of the corporation should be subject to government officials" because this is not in the interests of the corporation. (Continued on Page 6)

CITY-WIDE STRIKE SET FOR STAMFORD

(From The Militant)

STAMFORD, Conn. — A general strike in the city has been called to protest the closing of the plant. The workers have been told that the company will close the plant unless they accept a new wage rate.

Detroit SWP Organizer Warns CIO Auto Workers Against Treacherous "Fines for Strikers" Scheme

By Arthur Burch

The SWP has been trying to build up the plastering CIO United Automobile Workers and the General Motors Corporation. The SWP leaders have been in Detroit for three months, Business Week, the magazine of The Chamber of Commerce, stated that the SWP effort was "one of the most important capitalist coups of the past year." But what is the SWP doing? What is the SWP in Detroit? And why is it so difficult to get at the truth of these matters?

The SWP organizers in Detroit are working hard to build up the trade union movement among the workers. They are trying to convince the workers that the SWP is the only union that really represents the interests of the workers. They are trying to convince the workers that the SWP is the only union that really represents the interests of the workers. They are trying to convince the workers that the SWP is the only union that really represents the interests of the workers.

B-school strike ends

The B-school strike of 21,000 United Auto Workers against Oldsmobile ended last week. The workers had been on strike for five months, demanding a new contract that would provide better wages and benefits. The company had been unable to reach an agreement with the workers, leading to the strike. The strike was ended when the company agreed to a new contract that would provide better wages and benefits for the workers.

GM Defies Any Investigation Of Its Profits

By Grace Carlson

While I was shopping for a Christmas gift at the department store, I was fascinated by the display of cars and appliances. It was evident that these products were manufactured by General Motors, the largest automobile company in the United States. I was struck by the fact that General Motors is one of the most profitable companies in the world, yet it has been accused of exploiting its workers and the environment.

I was curious to know how General Motors is able to maintain such a high profit margin. I decided to conduct some research and found that General Motors has been under investigation for various violations of labor and environmental laws.

I contacted the National Labor Relations Board (NLRB) to inquire about the status of the investigation. The NLRB informed me that the investigation is ongoing and that it has not yet reached a conclusion.

I also contacted the Environmental Protection Agency (EPA) to ask about the company's compliance with environmental regulations. The EPA informed me that General Motors is currently under investigation for several environmental offenses.

I decided to write to General Motors to express my concerns about the company's profitability and the potential negative impact on the environment. I also sent a copy of my letter to the United Auto Workers (UAW) to inform them of the situation.

I hope that General Motors will take responsibility for its actions and address the issues raised by the investigations. As a consumer, I want to support companies that prioritize the well-being of their workers and the environment. I believe that General Motors should be held accountable for any violations of labor and environmental laws, and I hope that the investigations will lead to meaningful changes in the company's practices.
5th Congress Manifesto

Of Belgian Trotskyists

II. Towards Genuine Liberation

Editorial Note: This is the second section of the manifestos by the 5th Congress of the Belgian Trotskyists. The manifestos were addressed to the PCF by the 5th Congress of the Belgian Trotskyists on February 1st, 1970. They were published in Le Militant, N°95, 1970.

For a Socialist and Communist Government!

It is more than time to break with the present form of bourgeois democracy. The nationalization of the banks and major industries is inevitable. The seizure of the means of production must be a priority. This is the only way to prevent the crisis from spiraling out of control.

Kick Out the Liberal and UDB Minority!

For a Socialist and Communist Government!

Immediately we must establish a coalition cabinet of the working class. We must call a people’s council to discuss the measures that need to be taken. The working class must be in charge of all the major decisions.

The solution of the PCF (NCP, NCPA, NCPB, etc.) and its leaders is to claim that the working class has already won the revolution. This is a lie. The working class needs a government that is committed to their interests.

The first task of this government will be to extend the people’s council. We must demand that the working class take control of all the major decisions.

Immediate elections in every workplace! The working class needs to be able to take control of their own workplaces. They need to be able to elect their own representatives.

National Planning by the Unions!

Fair Trade to Socialism

The basic purpose of the working class is to produce. The working class needs to be able to control the production process. Only then can the working class be able to take control of the means of production.

The Fourth International has been the most consistent critic of the PCF’s refusal to nationalize the banks and major industries. The Fourth International is the only one who is willing to take the necessary steps to ensure the working class’s control over the means of production.

Only the Fourth International, Trotskyism, has retained Fair Trade to Socialism!

Defend Workers’ Rights!

End the Labor Draft!

The labor draft is a brutal imposition on the working class. The labor draft is a brutal imposition on the working class. It is a brutal imposition on the working class.

The labor draft is a brutal imposition on the working class. It is a brutal imposition on the working class. It is a brutal imposition on the working class.

**PROBLEMS FACING WAR VETERANS**

By CHARLES CASSEY

---

**SATURDAY, JANUARY 5, 1946**

**Where Are The Jobs For Veterans?**

For every 100 men coming back, 90 jobs have been lost. For every 1 million jobs lost in the last 2 years, only 1 has been recouped.

Even jobs at such traditionally low wages are becoming scarce. As veterans are finding that placement in New York State was surveyed for the month of December, 1945, 10,000 jobs were offered to 2,000 veterans. In his January 18 speech the President said veterans would be given preference in war work. If the veteran comes too late to the party, he may be lost.

It is in this sense that the phrase is becoming true that there is a scarcity of jobs for veterans.

TROTSKY'S DREAM

O'WING man, O'Wing man,
It's time you did go home
To build your golden dream;
And build it with hand and heart.

Once a good dream for you
Or rather a bad dream!
In the golden dream of you
The writer's heaven is born.

- I. Z. Grossman

Some lines are a song from America's...
Senator Says State Department Suppressed Report On Germany

Senator, in the case of the State Department is an official report on that country, which would have cost the lives of thousands of Americans. The report was sent to the Senate, but it was never released to the public. The report was commissioned by the State Department to study the state of Germany post-WWII. The report was completed by a team of experts, including a group of former American military officers. The report contained intelligence that suggested the presence of a secret military force in Germany that was not under the control of the government. The report also indicated that the military force was engaged in illegal activities, including the use of chemical and biological weapons. The State Department, however, suppressed the report and never made it public. The suppression of the report is seen by many as a major omission in the history of American foreign policy. The report was leaked to the public, and the Senate committee investigating the leak is expected to release it in the near future.
Detroit Case Of False Arrest, Police Harassment Symbolizes The Daily Oppression Of Negro People

By Ted Reading

Everyone has read and heard of the plight of Negroes, especially in Detroit. And everyone knows that this is a day-by-day, year-by-year persecution and legislation that goes on, not only in Detroit, but throughout the whole country.

Recently a Negro friend of mine, Mr. Edward Bancroft, of Detroit, the same great northern city which is well known for its heavy industry, great social and economic growth and a black business city. The business people here, and the Negroes here, are always in the news because of the cases of National Guard and Federal troops that have been on the scene of October 24th, 1967.

At the beginning of the Civil Rights movement, the Group of Negro businessmen, who had been leading the fight in Detroit, was already purchased the car and was asked to return to the car. After all, the driver is a Negro and we did not want to be seen with him.

"Then we walked one hour and twenty minutes to the nearest police station and were told that a 'transit permit' would be needed before we could continue our journey. We were told to go back and get a permit from the police station."

"So we went back to the police station, where we waited for another hour and forty minutes before we were finally given a permit."

"We were told that the permit was valid for only one day and that we had to get another one the next day."

"We were then told that we had to return to the police station every day that we wanted to continue our journey."

"We were also told that we could not continue our journey until we had obtained a permit."
Diary Of A Steelworker
By T. Kovalesky

STEEL PLANT SCENE

It is a black, wintry night, darker than the soul of the St. Paulites. The sky is awakening to the sound of gunfire. The moon is rising, casting a pale light over the surroundings. The darkness is thick, and the steelworker is about to begin his shift.

The steelworker must be alert, for the steel is hot and can cause serious burns. He has to wear protective gear, including a hardhat, safety glasses, and gloves. The noise is loud, and the heat is intense. The steelworker is a hardworking man, dedicated to his craft.

As he walks through the steel plant, he passes by the blast furnaces, the converters, and the扒钢机. The smell of smoke and steel fills the air. The steelworker is proud of his work, and he loves the satisfactions of his job.

He spends his time in the steel plant, working hard to produce steel. The steelworker is a vital part of the steel industry, and he knows that his work is important.

As he finishes his shift, he takes a deep breath of fresh air. The steelworker is tired, but satisfied. He knows that tomorrow he will be back at work, continuing his work.

The steelworker is a hardworking man, dedicated to his craft. He loves his job and the satisfactions of his work. He is a vital part of the steel industry, and he knows that his work is important.

PGM Strike Children Have Fun At Pickle Line Christmas Party
By M. Patrick

LOS ANGELES, Calif., Dec. 24—Christmas came to the children of striking workers at the General Motors-Los Angeles plant in California on Christmas Eve, as the company agreed to pay a $150,000 bonus to the children of the picketing workers.

The General Motors-Los Angeles plant is one of the largest in the United States, with a workforce of more than 25,000 employees. The strike began in September, and has lasted for several months.

The company agreed to pay the bonus as a gesture of goodwill, and to show its appreciation for the sacrifices made by the picketing workers and their families.

The bonus will be distributed to the children of all picketing workers, regardless of whether their parents are still on strike or have returned to work.

The company also agreed to continue to pay the picketing workers' health and welfare benefits, and to make available a fund for the education of the children of the picketing workers.

The bonus is a significant victory for the striking workers, and is a sign of the solidarity and support that exists among the picketing workers and their families.

The company's decision to pay the bonus is a testament to the strength and determination of the striking workers, and is a reminder of the importance of solidarity in the face of adversity.
