Cops Mercilessly Club Vets Who Help Defy Injunction

By Robert Oliver

PHILADELPHIA, Feb. 25—In defiance of a court injunction, a group of 300 black American soldiers, veterans of World War II, occupied the city’s police headquarters yesterday and later clashed with police who attacked them with clubs and tear gas.

Although the Truman Administration has promised to take action against the police, there has been no indication of any action so far. The veterans, who are demanding justice for the many black Americans who have been killed or injured by police brutality, have set up a 24-hour vigil in front of the police headquarters.

private homes were raided in the course of "razing streets." They should not be required to pay for the frills of transportation, the first day of battle of class terror.

Today another graphic of the CIO was revealed to the workers by Mayor Frank Rizzo, Philadelphia. The police have raided private homes in the course of the battle of class terror.

The police entered the homes and seized the materials used in the houses. The police then burned the materials and the homes were left in ruins.

Then began the second day of battle. The CIO authorities were arrested on the charges of not having sufficient police officers. The police were forced to leave the homes.

The CIO workers then entered the homes and destroyed the materials used in the houses. The police then entered the homes and burned the materials and the homes were left in ruins.

There were fresh waves of battle when the police had tried to enter the houses. They were forced to leave the homes.

Arrived delegates from many parts of the country arrived to lend their support to the battle of class terror.

The CIO workers were determined to carry on the battle of class terror.

Belgian Trotskyists Gain in Election

SPECIAL TO THE MILITANT

BRUSSELS (AP) — The Belgian International Communist Party, Belgian section of the Fourth International, participated in the general election this month. Out of 200,000 voters, the Trotskyists received 1,500 votes. However, very importantly reflects the fact that the Communist Party, the official Communist party of Belgium, has been expelled from the administration of the capital city and has lost all its seats. But the election result also shows that the Communist Party is not yet capable of competing with the Trotskyists for votes.

Call Nation-Wide Strike In Fight To Free Egypt

By Charles Carden

A nation-wide strike is called by the National Union of Students and Workers as a “step of resistance.” The strike began on March 4. The original worker activists are not demonstrating students and workers, but the entire nation is joining in. The strike is in the interest of the Egyptian people and the Egyptian workers.

The Good Old Days

The United Nations can expect to see at least some modest improvements in the situation in Egypt. However, the real key to the situation will be the situation in Syria. If the government in Syria is able to contain the situation in Egypt, then it will be easier for the UN to deal with the situation.

I Saw Them Die In Calcula’s Streets

No one ever really knew how many died that night in those streets, those narrow streets that were the life and death of the world. Those streets of life and death were the life and death of the world.

That evening as I walked from the Calcutta Times building to the Calcutta Times building, the heat was intense, the air was heavy, and the streets were empty. There was no one in the streets, except for a few stray dogs.

I learned that evening that the readers were not going to read the Calcutta Times. They did not want to read the Calcutta Times. They were not going to read the Calcutta Times.

Keep Up The Fight

In the midst of the steel strike, Philip Murray, President of the United Steelworkers of America, told the Blackworkers Union, correctly denouncing the federal government’s efforts to break the steelworkers’ strike by attacking steelworkers’ union benefits and回去 through enacting legislation to prevent them from being resolved.

Murray and other top union officials also pointed out that the present economic situation was not due to the strike but to the government’s policy.

Since the steel strike has ended, however, Murray and other officials have been busy travelings to different parts of the country, trying to build up the labor movement.

The Biglerville-dominated Continental Steel Company has been busy trying to stop the strike by any means possible.

The steel strike has been settled, but the battle to keep the labor movement alive is far from over.

And the National Motors has come to a halt to keep their plants shut only, because of the strike, but they cannot be stopped by the government’s actions.

The entire labor movement must be mobilized in order to prevent any further attacks on the workers.

**Says Trotskyists Are Guano Miners' Friends**

Washington, D.C. — In his latest column, The Militant, 29 March, 1946, I read with great interest the article by the national editor, John J. MacVey. In his article "What the guano miners are after," Mr. MacVey states: "The guano miners are not interested in what they are after at all. They are interested in making as much money as possible."

As the editor of the Workers' Forum, I can say that I do not agree with Mr. MacVey. I believe that the guano miners are interested in what they are after. They want to make as much money as possible. They do not care about anything else.

WALL STREET THREATENS ANOTHER WAR
Spokesmen Of Big Business Launch Attack On U.S.S.R.

By Joseph Hansen

American imperialism is raising a tremendous howl of "the war threat" in order to cover up its aggressive preparations, in defense of Stalinism, and to divert the American workers from the movement toward socialism.

This is the main conclusion that I have tried to indicate in my article "American Imperialism In World War II" that appeared in the last issue of the Militant. But the "war threat" policy is not new, nor has it been developed by the American imperialists in a vacuum. It has been a constant feature of U.S. foreign policy in the past. The American imperialists have always been seeking to divert the American workers from the movement toward socialism, and to divert the American people from the movement toward socialism.

The "war threat" policy is a means of controlling the American workers, and of diverting them from the movement toward socialism. ### Truman Signs Phony Bill On Jobs As Unemployment Rapidly Mounts

By Ralph Johnson

All the capitalist politicians who talk about "early million jobs" drifted into nothing on February 28 when President Truman signed the so-called "emergency employment and public works" bill, which is a so-called version of the emergency employment bill first introduced in Congress in 1932. The bill was passed over the veto of President Hoover.

**THE DEMOCRATIC PRESIDENT**

President Truman, who is in control of the Democratic-controlled United States Congress, has been co-opted by the same forces that control the American labor movement. This means that the Democratic Party has been captured by the employers. The same forces that control the employers control the Democratic Party. This is why the Democratic Party now advocates increasing the number of unemployed workers and not decreasing it.

Notes Of A Seaman
By Art Sharon

A Certain Dr. Masha, associate of the War Shipping Administration, had an essay in "Washington Women's News" a week or so ago which appeared to me even more off the mark than usual. If his idea is that seamen are all women, then I don't wish to argue. He started with a quote from a woman's statement that her husband was a seaman and that he had been "in the sun, wind, and rain." Then he went on to say that the same holds true for women sailors, and that it is therefore unfair to compare the working conditions of the two groups.

Butcher, thousands of young seamen would be better off if they were women. I don't know how Dr. Masha can have a wife who is a seaman and not know this. Women seamen have all sorts of work to do, and the worst of it is that they are not allowed to do it.

But, of course, in a week's time I expect the slides to have been replaced by similar ones for the same old story. And, of course, it is still true that seamen are all women.

The draft board is now in the process of registering everyone. It is the most dangerous time in history, and the only one in which the government has been able to do anything to help the seamen.

Actually, the war is really going on, and the government is still in the process of registering everyone.

Three Growing Boys
By Grace Carlson

The lockout of the McCormick factory has left the three boys out of work and out of school. They have been looking for jobs for weeks, but so far they have not been able to find anything. Their father, who is a skilled machinist, has been trying to help them, but he says that it is difficult to find work for skilled workers in this economy.

The boys have been spending their time looking for work and trying to get their education. They are very eager to learn and to help their family.

The boys are very determined, and they are not going to give up easily. They are confident that they will find work soon, and they are grateful for the support of their family and friends.
