A NEW YORK SUBWAY WORKER'S STORY

Stalinist Misrule In Transit Union

(Reprinted by permission from the St. Louis Post-Dispatch.)

By William Charles

We CISD workers have come to realize that the condition of the employees of the New York City Transit Authority and the subway workers is not an isolated accident but is characteristic of a quarter of a century behind the scenes and behind the scenes daily.

Our struggle against the blacklisting of the CISD President Michael Gold and Chief Steward Philip McCann by the Transit Authority and the various unions that support it is only a part of our work to end the blacklisting of all workers who have dared to stand up for their rights.

We are in a period of an intensification of our struggle. We are in a period of an intensification of our struggle to organize our fellow workers, to educate our fellow workers, to educate the masses of workers, to educate the masses of workers in the struggle against the blacklisting of all workers who have dared to stand up for their rights.

Two Egyptians were killed and 36 injured during two days of anti-British demonstrations in Alexandria, the revolt against British rule in the Middle East. On Sunday, the second day of the strikes and protests, British forces opened fire on schoolchildren and workers irq Alexandria and deported hundreds of demonstrators. The British bombings were seen as a sign of increased militarization of the region.

India's battle for independence from British rule continued to escalate. The Indian National Congress declared a general strike on March 14, 1946, as a protest against the British government's refusal to grant India's demand for self-government. The Indian government responded with a military crackdown, arresting hundreds of leaders and imposing martial law in some areas. The conflict intensified, leading to increased violence and civil unrest. The British government, faced with the growing unpopularity of its rule, began negotiations with Indian leaders, eventually leading to the partition of British India into India and Pakistan in 1947.

"Third Party" Or A Real Labor Party?

More and more workers are becoming dis
gusted with the shams and promises of the
Democratic and Republican parties. They are
looking toward workers' parties and uniter
minded labor parties based upon the trade
union movement to solve their problems.
Now the time has come when the labor
leaders must face this problem.

The leaders of the Communist (Social
distinctive) Party are in the forefront of those
who are offering the correct program and
program of the labor party. For years the
Communists have been the most consistent
forces in the fight for the world revolution.
In New York and elsewhere they have been
the most consistent foes of the capitalist
administration. In New York and elsewhere
eye have been the most consistent foes of
both Democratic and Republican political
parties. The Communists are the party that
is beginning to talk about the need for a
"Third Party."

At the same time the Stalinists ferociously
attack the labor parties and the labor
party. Their chief target is the Trotskyists
Who are the most consistent foes of the
Communists. The Stalinists are the most
consistent foes of the Communists.
For years the Stalinists have been the
most consistent foes of the Stalinists.
They are the party that is fighting for a
"Third Party," that is a party of labor alone.
The Stalinists call for a "Third Party." They
hope to direct and displace the movement for
a Labor Party. Instead of adding any new
party to the trade union, they want to
place it under the control of the Stalinist
capitalist parties. They want to use the
"Third Party" for the benefit of the two
major parties.
The organied workers have shown their
determination to fight to the bitter end for
equal rights and to have the last word in
state struggles. They have demonstrated that
capitalism has not been able to
fracture them and exploit them. The 14,000
ty workers who struck the General
Electric Co. in Schenectady and walked out
were workers who were thoroughly
organized. The people are united, the
people are capable of evading
the pressures of the capitalists and the
pressure of the workers in Congress but the
rule of Wall Street is still

Rubber Union's Victory

The CIO United Rubber Workers of America have won a significant victory in their
contract settlement at the Gulf Oil Refineries
in Mt. Pleasant, Michigan. The union
won a single wage gain secured for the workers
who have been fighting for a Union.

The union leaders have stricken a
contract with the Gulf Oil Refineries
which will be in effect for three
years. The union has won a
significantly better contract than the
old one, which only covered a period of
one year.

The local union leaders are
expected to announce the new
contract within the next few days.

The rubber workers have
earned the right to live and died by Unionism.
The trade union movement is the
most important force in the world for
changing the world.

Ship Steel

The shipbuilders in New York City have
earned a new contract after a long
strike. The contract was a
significant win for the workers
that has been achieved in a
period ofripples in the steel
industry.

The strike has been an
important victory for the
workers in the steel industry.

The workers have
achieved their right to a decent
contract with the steel
companies.

Lobbyist Heads RFC

By Jeff Thorne

The oil industry's duplicity in spite of its
claim that it is "cleaning up" the
business has led to a
lobbyist being appointed to the
Federal Reserve Commission.

The oil industry has
provided handsome fees for
lobbyists, who have then
been appointed to key
positions in government.

The lobbyist who
was appointed is General

The oil industry has
spent millions of dollars on
lobbying, with the result that
its representatives have
been appointed to key
positions in government.
Auto Workers Expose Boss Scheme to Collect Negroes and Whites

Editor:

I am a member of the Milburn Local 1145 who is employed in the auto works in Toluca, Ill. We are striking for better working conditions. We are writing this letter to the Milburn plant in Chicago to let the company know that we are fighting for a better place to work. We feel that the company is trying to divide us by showing discrimination towards Negroes. We are fighting for the same rights as the white workers. We want a fair and equal chance to work.

SWP Branches Greet "Militant" Fund Drive With Enthusiasm, Campaign Director Reports

By Justice Long

Campaign Director

With this week's issue of The Militant we are opening the call to the Militant "Fund Drive With Enthusiasm". The Militant is an important part of the SWP's political strategy and must be supported by all members of the party. The Militant is the essential link between the organization and the mass movement.

Your donation to the Militant Fund Drive will help to keep The Militant going and ensure that it remains an effective voice for the working class in the United States.

MANY IDEAS

An indication of the success and sound-minded attitude in the $16,000 fund drive is reflected in the fact that the SWP's Washington, D.C., headquarters, at 1340 21st St. N.W., has already received $10,000. Captain thunder, organizer of the SWP's Washington, D.C., headquarters, said:

"We have received over 100 letters and contributions from across the country. Many of these are from individuals who have been inspired by the Militant's reporting on the struggles of the working class."
Only 'Militant' Warned "There Is No Peace!"

When the news first broke on August 8 that Japan was surrendering, all the spectators and supporters of Wall Street's big financiers were in a general state of relief. The news was as if the weight of the whole world had been lifted from the shoulders of the rich. Wall Street's propaganda machine was at work, and the stock market soared to all-time records. The stock exchange was a scene of wild excitement. The news of the surrender was heard in Wall Street, and the stock market soared to new heights.

But the 'Militant' had warned of the coming of war. It had been printed in every issue of the paper. The 'Militant' had been the only newspaper to warn of the coming of war. It had been the only newspaper to point out the real danger of the situation. The 'Militant' had been the only newspaper to call for peace.
