WALL STREET THREATENS NEW WAR

\$15,000 'Militant' Fund **Campaign Starts Mar. 15**

tles against the corporations,'

By Evelyn Atwood

Appealing to its scores of thousands of enthusiastic has emphasized the critical imreaders to help maintain it as the best and fastest growing portance of this history-making labor paper in America, The Militant in this issue announces the launching of its campaign to raise a fund of \$15,000. This fund is to help extend The Militant's circulation and spread its revolutionary so-

cialist message among the of men and women on picket lines workers of the United States. from coast to coast have wel-The nation-wide \$15,000 Militant Fund campaign will continue for three months, begin- gave them guidance in their batning March 15 and concluding on June 15. All contributors are Dobbs declared. requested to send their donations to the Militant Publishing Association, 116 University Place, New York 3, New York.

Explaining the importance of this campaign, Farrell Dobbs, Managing Editor of The Militant, called upon all readers of the paper to do their bit toward reaching the \$15,000 goal by sending in their personal contributions and soliciting contributions from their friends and shopmates. The Militant counts upon receiving such support from its worker readers, said Comrade Dobbs, because they realize the vital role The Militant has played in their struggles against Big Business for a living wage and decent working conditions.

Steps Up Diplomatic Attacks In Drive Against The USSR

401

By Joseph Hansen

Wall Street and the British imperialists are beginning public preparations for the Third World War. This is the underlying meaning of the tremendous hue and cry they have raised against the Soviet Union. This war - mongering campaign reached its highest point to date with the March 5 speech of Winston Churchill at Fulton, Missouri. Churchill savagely at-

SWP Protests **French** Arrests **Of Trotskyists**

NEW YORK, Mar. 9-The Militant this week received a cable from Paris reporting a police raid on a public meeting of the Internationalist Com-

munist Party (Trotskyist) and the wholesale arrest of 32 of the audience who were held incommunicado for 24 hours. The raid occurred March 4.

This police attack on the French Trotskyists follows a systematic Stalinist campaign to suppress the Trotskyist paper La Verite. Distributors of the paper have been beaten up by Stal-

inist hooligans and arrested. The Socialist Workers Party British Tories. The choice of of the United States, through Churchill as spokesman was a James P. A NEW YORK SUBWAY WORKER'S STORY

To Avenge Murdered Pickets

Stalinist Misrule In Transit Union

(Last week "The Militant" reported the settlement accepted. by the Stalinist leadership of the CIO Transport Workers Union in New York City. They wilted under the strikebreaking pressure of the O'Dwyer administration and the intervention of CIO President Philip Murray and called off their threatened strike with no assured gains. The following account, written by a TWU member, describes the background of the New York transit situation and conditions inside the TWU under Stalinist domination.)

By William Charles

* * *

We CIO transport workers on the subways know that the conditions of the employes of the New York City Transsit system and the equipment with which we work is about a quarter of a century be-Ohind the times, and getting question "why?" We are left to assume it is our civic duty to be

worse daily. The counterfeit strike threat by Transport Workers issued Union President Michael Quill was a complete fiasco. The workers "went back" before they went out." Quill and CIO President Philip Murray gave up

everything and gained nothing. The workers in the City Transsit system were not prepared for the so-called "strike." The issues were not discussed at the shops or section meetings of the membership. The question of sole collective bargaining rights for the TWU-CIO first came to the attention of the workers in such rags as the Daily News, Daily Mirror, Journal-American, N. Y. Times, and other croaking frogs from the sewers of Wall Street. from the top. They discourage

INTOLERABLE CONDITIONS

For years we have suffered intolerable conditions. The Stalinist TWU leadership was opposed to any real fight. Throughout the war we were forced to submit to ever-increasing work, due to the overcrowding of the transportation system and shortage of workers, while our wages were frozen. We did not even get the raises permitted under the Little Steel formula. Now the capitulation of Quill means we must continue under the same rotten conditions.

The workers slave six days a week almost without exception. We do not get time and a half for the sixth day of work, nor extra pay for Saturday, Sunday or night work. The 40-hour work week is not recognized. Railroaders are forced to work around the heavy snow, we may leave the job only with the express permission of the boss and then only for eight hours out of 24. When the strike threat was announced, vacations and days off were cancelled. We were

Morris' article shows how blinded the Stalinists are by factional frenzy. Every assistance to the GM strike is viewed by them only as aiding the position and prestige of Reuther, against whom they are conducters would rather see the GM strike weakened and undermined than have an opponent of theirs in the labor movement get credit for any contribution to labor's interests.

We hold no brief for Dubinsky's or Reuther's politics and union policies. But the Stalinists descend to the lowest depths of unprincipled factionalism when they throw mud at the splendid contribution of the ILGWU members to the GM strike. This could only operate to discourage similar contributions from other organizations and is a stab-in-the-back to the GM strike.

And this comes on top of the sneaky, back-room settlement made by Stalinist leaders of the CIO United Electrical Union. in the recent strike of 30,000 UE workers in GM's Electrical Division. The exceptional maliciousness of the attack on the ILGWU's aid to the GM strike is no doubt inspired in part by the Stalinists' desire to divert attention from their own

Labor Solidarity

An example of the labor solidarity being inspired by the GM by the AFL International Ladies strike is the action of the New York Branch of the AFL Seafarers International Union in voting \$1,000 to aid the GM strikers and pledging an additional \$100 weekly for the duration of the strike. The latter pledge was made "retroactive" to February 1.

Not only labor organizations. but other progressive-minded groups are rallying behind the Walter Reuther, leader of the GM strike. Last week the National Farmers Union pledged a lished March 1, attempted to be- | contribution of \$25,000.

The landing of 20,000 | cords. France's position is likely troops of the French im- to run just as far as French perialist army at Hanoi has arms reach, and that position is

again brought into headline prominence the heroic struggle of the Indo-Chinese people for independence. The purpose of these troops is deadly clear. The French colonial despots hope they will prove sufficient -with their American-supplied equipment—to drown in blood the aspirations of the Indo-Chinese for freedom.

The landing followed a March 1 agreement between the French imperialists and the Chiang Kai-shek government to withdraw 100,000 Chinese troops who have been occupying northern Indo-China. So long as these Chinese armies remained, the Viet Namh government administered the affairs of this important part of the country.

Concomitant with the deal with Chiang Kai-shek, the French despots reported that Ho Chi Minh, president of the Viet Namh Republic, had agreed to permit the landing of French troops without opposition in return for "recognition" of the This deal specified Republic. that the Viet Namh Republic must remain within the "French Union" and under "French control." Previously Ho Chi Minh, like the rest of the Indo-Chinese nationalists, had demanded unconditional independence.

FALSE PROMISES

The French are obviously following the traditional stratagem of colonial despots faced by an uprising. They are willing to promise a great deal-with loopholes in order, to facilitate the advance of their troops. Decepwhy "according to informed March 8 wireless dispatch to the N. Y. Times, "little tranquillity could be expected in spite of ac-

Charming India-British Style

The February 22 London Herald Tribune reports that General Lockhart was "ordered to quell Bombay "as rapidly as possible." boo staves)." continues the papadds: manner will get him anywhere." us . . .

still most difficult."

Whether the French will succeed in reimposing their hated Spanish Unions regime on Indo-China thus remains to be seen. In a recent Ask Help To End er, Chief Far Eastern Correspondent of the Christian Scien-Franco Regime ce Monitor, declared that "From a purely military standpoint it is questionable whether the

French ever will be able to asbadajores and the Confedesume uncontested control again." Even with tanks and artillery "it is extremely doubtful whether they ever will be able to put union federations now in down the independence movement as a whole."

Walker reported that the Viet Minh (the principal political grouping in Indo-China) is backed by 8,000,000 followers and has a well-organized army of 50,000 troops who seized the arms of the Japanese. In his opinion the French at best could only seize the coastal cities and hold them

for a few years. But if the French do not succeed it will not be from lack of treatment of the prisoners is as brutality. In his February 25 dispatch Walker declared: "Wellsubstantiated reports from official foreign observers show Franco's communiques does not that the struggle in southern exist," continues the declaration. Indo-China has been marked by brutal massacres of natives and which he boasts. The reality is all the accoutrements of an 18century colonial 'purge.'

"Tanks and other implements used in the policing of districts eliminate the flower of the proaffected bear the 'made in the United States' label."

"Third Party" Or **A Real Labor Party?**

More and more workers are becoming disgusted and disillusioned with Democratic and Republican parties of Big Business. They are looking forward to the creation of an independent labor party based upon the trade unions which can effectively fight against the forces of capitalist reaction.

This growing revulsion against the capitalist parties is forcing some misleaders of the working people to pay lip-service to the demand for independent labor political action while actually working to keep the masses shackled to the capitalist political machines and their policies,

The leaders of the Communist (Stalinist) Party are in the forefront of those who are offering the workers "substitutes" for a genuine labor party. For years the Stalinists have been giving servile support to the Democratic administration. In New York and elsewhere they have made the most unprincipled deals with both Democratic and Republican political servants of Big Business. Now they are beginning to talk about the need for a "third party.'

At the same time the Stalinists ferociously attack the movement for an independent labor party. Their chief target is the Trotskyists who are the most consistent champions of the Labor Party. For example, in the February 1946 Political Affairs, Stalinist theoretical organ, Max Weiss attacks the "Trotskyites" for "fighting for a 'labor party', that is, a party of labor alone!"

The Stalinists call for a "Third Party." They hope to divert and discredit the movement for

ten into law and signed by Truman, has been almost completely concealed by Congress and the Big Business press. The bill was quietly slicked through Congress just before last Christmas and truly reflected the Christmas spirit felt by the capitalist legislators toward the shipping pirates.

Compared to this ship steal, the much-publicized Pauley oil scandal is just small-town boarding house intrigue. In the instance of the "Ship Sales" Bill, however, the ship lobby and their government agents have succeeded in carrying through their piratical scheme without public disclosure.

Once again, by their domination of the government, the Big Business interests have made a "legal" grab of a huge slice of the public wealth. Such robbery could never be perpetrated under the Trotskyist program for government operation under workers' control, of government-built and idle plants and equipment.

Food Is A Weapon

As a result of the devastation wrought by World War II, millions of men, women and children throughout the world are dying of starvation and disease.

The capitalist rulers of the United States and the other big powers are taking advantage of this appalling misery for their own reactionary ends. They are using the threat of withholding food and medicine to bludgeon the people into accepting governments favorable to the Allies. They use relief to fortify dictatorial and reactionary capitalist regimes.

Imperialism is thus using hunger as a weapon against the European workers and colonial, peoples, just as employers use hunger against striking workers in this country.

Herbert Lehman, director of the UNRRA, hopes to repeat the performance of Herbert Hoover, head of the American Relief Administration, which played the same role after the first World War. Now Hoover himself has been named honorary chairman of the Famine Emergency Committee.

From 1919 to 1922 the ARA served as a vicious instrument in the hands of the Allies. The masses were hungry, cold and sick. The ARA withheld food from famished but rebellious peoples while shipping vast quantities of supplies to the bloody regimes of "Butcher" Mannerheim in Finland, Pilsudski in Poland and the Horthy dictatorship in Hungary.

Allied food and supplies were especially used to aid the counter-revolutionary forces attacking the Soviet Union, while the beleaguered workers' state was blockaded.

Today in Greece, UNRRA hands over food and clothing to the puppet government there which sells it on the black market at fabulous prices. Thus the famished, disease-ridden people of Europe are again being lashed into acceptance of dictatorial governments by the sharp pangs of hunger. It is an elementary obligation of the American working people to demonstrate their solidarity with the starving workers of other lands. The American labor and farmer organizations should undertake the collection of supplies to be rushed abroad immediately.

But we must make sure it goes to the working masses and not to their enemies. Consequently American labor must insist that control over the administration and distribution of all supplies, including those sent by the government, be placed exclusively in the hands of the workers' organizations in the faminestricken areas.

PROBLEMS FACING WAR VETERANS

-By CHARLES CARSTEN-

What Happened to 'Full Employment?'

During the long, monotonous years in the armed forces, men dreamed about how they would like to live on their return to civilian life. They thought about their wives, homes and children, about steak dinners, movies, baseball games and automobile trips to the country on week-ends.

For many veterans, realization of their dreams must seem more distant and less likely now than it did when they were fighting in Africa, Europe or the Far East.

More than a million veterans are drawing the \$20 a week "readjustment" allowance. They are unemployed. Prospects for the future are not very bright. By spring, officials estimate 6,000,000 ex-GIs will be unemployed.

What has the government done to provide jobs for these men who only yesterday were "promised" economic security?

The so-called "Full Employment Bill," a mere gesture in the direction of solving the problem, was viciously opposed and cut to pieces by Congressmen. Wall Street's agents in Washington even insisted on changing the name to "The Employment Act of 1946" so that no one would get the impression that jobs for all were in any sense intended by Congress. In its final emasculated form, the "Employment Act" satisfied the bitterest opponents of the original bill. They said that "there is nothing in the (amended) bill with which anyone could disagree." It is absolutely meaningless.

Some veterans get jobs, jobs that offer neither conomic security nor a living wage. Three or four million veterans, who had no prior claim to jobs, are working for scandalously low wages. Pay rates below 65 cents an hour are common.

What has Congress done? Congress has delayed consideration of a bill which would make 65 cents an hour the minimum wage. Evyn this starvation pay is considered too high for workers by these reactionary servants of Wall Street.

Only the Unions Fight for GIs

Only the trade unions have fought in the interest of the ex-GIs. During the few months since the war ended, union after union has struck for decent-wages. It is not only the present union members who stand to gain by the wage increases they are winning. GIs will return to better paid jobs because the unions are fighting to raise the wages of all workers.

The CIO demands enactment by Congress of a minimum wage law. And it goes further than that in its fight for the veterans.

The CIO is demanding that the government loan money directly to veterans who wish to buy a farm or open a small business.

The CIO is pressing Congress to raise unemployment compensation for veterans to \$25 a week with \$5 additional for each dependent up to three. It urges payment of unemployment compensation for ex-GIs who are on strike.

The CIO is demanding government aid for veterans who wish to return to high school. It insists on elimination of the 25-year age limit on educational benefits. It calls for the raising of government subsidies to student veterans up to \$90 a month plus \$25 a month for each dependent up to three.

To solve the housing needs of workers and veterans, the CIO is fighting for slum-clearance and greatly-expanded, low-cost housing financed by the state and federal government.

These are only a few examples illustrating the concern the unions have for the welfare of veterans. Despite all the deficiencies in the present pol-

court," states the author of this A dishonorable discharge was set up on November 11, 1918. pamphlet. "It is a club with "means a lot more than you Some of the victims were enwhich the military hierarchy can hink," writes Wilson, "There is tirely innocent and were never terrorize all soldiers, instilling in a kind of black list involved. While the most severe punish- bodies.

a Labor Party. Instead of basing any new party on the trade unions, they want to place it under the control of bankrupt capitalist politicians like Henry Wallace and careerists and adventurers like Johannes Steel. The Stalinists want merely a third party pressure-grouping to use for bargaining with the two major parties.

The organized American workers have shown their tremendous power in the recent great strike struggles. They have demonstrated that they can win the leadership of all the oppressed and exploited. The 14,000,000 organized workers together with their families and friends constitute the overwhelming majority of the people. They are fully capable of creating a labor party which can not only speak for the workers in Congress but end the rule of Wall Street and put labor in power.

The capitalist rulers of America are terrified at this prospect. That is why the Stalinists, who oppose and sabotage the Labor Party movement in favor of a "third party" hodge-podge, are playing the game of Big Business.

Ship Steal

The capitalist press, in buried and tiny items, reported on March 8 that President Truman had signed the "Ship Sales" Bill, cynically described by the Associated Press as "spelling out the method of disposing of an estimated 17 billion dollars worth of surplus war-built merchant ships."

What the bill really "spells out" the January 12 Militant revealed in an exclusive expose. This is a monumental swindle of not less than six billion dollars by the rapacious ship operators.

The bill provides that the 55-million ton government-built merchant fleet shall be "disposed of" to private shipping combines and speculators at prices ranging down to 31^{1/2} per cent of "prewar domestic cost."

The bill was written by the operators themselves. It provides that their agents on the Maritime Commission shall determine what any ship is worth in terms of "prewar costs." This means that hundreds of ships built at public expense are to be handed over virtually as a gift to the profit-hungry ship owners.

The language of the bill is so complex and obscure that it can be interpreted any way the ship operators and their government agents desire. Three members of the Maritime Commission, which will handle the "disposal," recently resigned after it was discovered that the commission records contained a "slight error" of more than five billion dollars—to the advantage of the operators.

This brazen grand-scale ship robbery writ-

Rubber Union's Victory

The CIO United Rubber Workers of America has won what is unquestionbly the outstanding contract settlement of any major union in this period. Its terms are reported on the first page of this issue of The Militant.

This contract not only provides the greatest single wage gain secured for the workers of any big industry-a total of 24 cents an hour. But this wage increase was obtained without making a single concession to the union-weakening demands of the corporations.

There were no "company security" clauses smuggled into the contract to permit the corporations to victimize union militants and undermine the locals.

Moreover, the contract was so written as to permit the union to reopen the wage fight at any time in order to resist the inflation aimed at robbing the workers of their wage gains.

And be it noted, this contract was negotiated without any interference or "assistance" from capitalist government agencies.

How was this accomplished?

The heart of the rubber union is the big Akron locals with a long record of militant struggle. Throughout the war, the Akron unionists stubbornly resisted the provocations of the corporations.

In the spring and summer of 1945, while the war was in progress, the Akron rubber plants witnessed a series of militant strikes, climaxed by the Goodyear walkout which led to a government plant "seizure."

The local Akron union leaders are experienced and tested trade union militants who have earned the trust of the workers because of their fighting qualities. Three of these local leaders were on the top negotiating committee.

The rubber corporations—and there are none tougher or more arrogant-knew that the rubber workers were prepared for a battle and meant business. Many a fighting picket line has taught the rubber barons to respect the power of the union. And they knew what to expect if the rubber workers, inspired by the great strike struggles of this period, hit the picket lines.

Because the rubber workers depended solely on the independent power of the union, because they not only talked fight but meant fight, they secured an outstanding and inspiring triamph.

icies and program of the unions, which we have pointed out in this column, organized labor has shown itself to be the only real force fighting in the interest of the veterans.

The oil scandal that broke with Truman's nomination of oil lobbyist Edwin Pauley for Navy Undersecretary revealed no exceptional or accidental aspect of capitalist politics. It uncovered a typical example of the whole pattern of American machine politics under the Democratic and Republican parties of Wall Street. Most "Pauley incidents," however, are successfully hushed up.

That such "incidents" may crop up more frequently under Truman can be expected, because he is a thorough-going Democratic machine politician and a graduate of the notorious Pendergast school of graft in Missouri.

One of Truman's first acts as President was to fire Maurice Milligan, the U. S. District Attorney, who in 1939 had jailed Truman's old pal, Boss Tom Pendergast of Kansas City, for bribery. Also Truman accomplished a political pay-off that he had unsuccessfully attempted several times as Senator and as vice-president. He got a \$6,200-a-year State Department job for a Pendergast nephew.

And right while the Pauley case was so hot, another job for a Pendergast-tainted appointment was quietly approved by the Senate. George Allen, vicepresident of an insurance company that bribed Pendergast, was confirmed as Director of the Governe ment's Reconstruction Finance Corporation. At the same time, he was allowed to continue numerous Big Business positions. Drew Pearson, Washington columnist, reviewed Allen's link with the Pendergasi insurance bribe case.

Missouri's fire insurance companies had offered Pendergast \$750,000 to help them hang onto \$9,676. 000 excess rates they had been forced to impound during court proceedings. The money really belonged, of course, to policy holders, but by a compromise in the case the companies were allowed to keep 80 per cent.

Fourteen companies had paid Pendergast \$330,000 when a Government probe stopped the game. During the probe, in 1938, one of the largest companies made George Allen vice-president. This charming lobbyist admitted he knows nothing about insurance but he does "know how to get into the Executive Mansion at almost any time of day or night" since he was a former WPA administrator with White House "connections."

When the same fire insurance companies were under federal indictment for violating the Anti-Trust Act, the House rushed through a bill to exempt them from the Act's provisions. The Justice Department compromised the case. Nice lobbying-and the best recommendation Allen could have had for his new job so far as Truman and the Senate were concerned

Auto Worker Exposes **Negroes and Whites** Editor:

I am a reader of The Militant. I belong to CIO Auto Workers' Local 25, St. Louis, Missouri. We are striking for better working conditions. I would like to see a write-up on the St. Louis plants ism of the Trotskyists-like Gitof Chevrolet and Fisher Body.

The Negroes here are denied the rights to have a committeeman at Chevrolet and Fisher Body, both in the same Local 25. We think that a Negro understands his people better than anyone else. He will also stick his neck out further for his people than anyone else will. At Chevrolet there are two de-

partments that Negroes can work in. At Fisher Body there is only one department for Negroes. We are interested in more equal opportunities for Negroes, since we are trying to get better living conditions for all workers.

Management tells the white man that the Negro wants his job. And when the Negro goes to management to try to get a better job, management tells him that the white man does not he is "afraid to put you two together" because there would be misunderstanding." This should be exposed. There will then be a better understanding between white and black, and more unity.

From Minneapolis we received the following note: "We have set up a committee of three members to direct collection of this fund. We are confident we can fulfill our quota." YOUTH PLEDGE

An indication of the youth sentiment of the Militant fund drive tablished only since October, and is revealed in this letter from Grace Wayne, Campaign Director of the Trotskyist Youth Group in New York: "Our group has accepted its quota of \$50

> and results are already forthcoming. We understand the need for funds is great and want to do everything possible to help. operate to the fullest extent of Militant fund collection lists are being sent to all SWP branches. We plan to circulate these lists among Militant readers and subscribers, shopmates a n d friends and have them help us in a tangible way to successfully

complete our fund drive. Readers and friends who wish to help us may obtain these lists by writing to Business Manager, 116 University Place, New York 3. Next week's scoreboard will list the sums received from various sections. The deadline for acknowledgment in the column of the succeeding week will be Thursday. Money received after Thursday's deadline will be cred-

ited to the following week's to-

our capacity. We are confident 'Most Worthwhile,' Offers Aid

A short time ago, we received a subscription from a small Ohio community. Interested in learning how The Militant had reached this new reader, we asked where he the manner of one imparting a had received it. His warm and friendly reply proves anew that workers instantly recognize The Militant as their own paper

"I found it (The Militant) at the Willys Overland Motors plant in Toledo I am an active member of the United Auto Workers CIO, Local 12, of Toledo.

"I trust this letter will explain . . . how your organization has succeeded in the distribution of this most worthwhile undertaking.

"If I can be of any further help to you or your staff, please do not hesitate to call upon me at any time."

Now we are calling upon all of our friends to help us

To All Readers Of The Militant: What Is The Truth Worth To You?

You have been reading The Militant. You know that we tell the truth about labor's struggles for a decent living. We expose the brazen union-busting drives of the bosses. We reveal all the tricks and maneuvers put over by the Democratic and Republican political servants of the bosses.

We Need Your Help

Our subscription rates are low because we want every worker to be able to read The Militant every week. We know that some cannot afford to pay more. But to all of you who can, we appeal now for extra help.

We do not accept advertisements or any other kind of subsidy from Big Business and its spokesmen. Our only income is what we receive from workers like you who want to get their sidelabor's side—of the news.

Mail It Today

Send us your spare pennies and dimes-and dollars, if you can. No contribution is too small or too large. Every cent you send us will be used to improve the news-coverage and increase the effectiveness of The Militant, in the interests of all the working people., Mail us today whatever it's worth to you, to get the truth of labor's struggles into print!

The Editors

"Why do you say that?" I asked. "If this paper was anti-lab-or, I would be the last one to distribute it. This paper is FOR \$15,000 'Militant' Fund **Campaign Starts Mar. 15** ing The Militant for almost two

of the atomic bomb and its use, with frightful effost, against the people of Japan. The din of battle has ceated. Markind new must contem-plate the destruction and the run, the pain and the fearitreak, which the with has caused. Deople in every land are celebrating the end of the surrage, not so much with joy as with a sense of relief that it has come to an end. They do not and cambot feel scure. Over their celebrations, like a lowering cloud, hangs a grim foreboding of things yet to 20me. Here in America, where the civilian population has been spared the monitous agony enduced for long, unbroken years by the peoples af Europe and Asis, by that the war has ended is size singed with dread for the future.

with dread for the future. **Revulsion and Anxiety** The atomic bombing of the Jayáñes cities of Hiroshińa aid Nagasaki, with a combined population of 600,000 men, women and children, has sent a wave of revulsion and anxiely throughout the world, epschilly among the toiling populations who are the principal yielins of war. It is universally realised that manking has been asved from total annihildion in World War II only because the atomic bomb was invented to late. There is also the conviction, amounting to certainty, that another world war yill mean the doom of the human race. Hatred of imperialist war, and fear of what the future holds, is diving in the workers to revuluindary political con-clusions. The imperialist rulers, who alone have profiled from the side. Side to generate this at all doss. They want the side-track the workers from the struggle to end the capitalist system and establish socialism, which is the only sure guarantee thes is enoughr war will be impossible.

Through its Newark Organ-

Lenin, Trotsky Always Warned **Capitalist System Breeds War**

The great Marxist leaders have warned the working class, many times that capitalism in its decline inevitably plunges from one devastating imperialist war to another.

Shortly before his death in 1895, Frederick Engels, co-founder with Marx of the revolutionary Socialist movement, foresaw World War I and told the working class once more that only socialism could bring lasting peace.

At the beginning of the war foreseen by Engels, the Russian Marxist, Lenin wrote (November 1, 1914): "Imperialism has placed the fate of European culture at stake. After this war, if a series of successful revolutions do not occur, more wars will follow-the fairy tale of a 'war to end all wars' is a hollow and pernicious fairy tale."

In May 1940, during the opening stages of the Second World War predicted by Lenin, another oustanding Marxist, Leon Trotsky called attention to Lenin's warning: "Workers, call this prediction to mind! The present war-the second imperialist waris not an accident; it does not result from the will of this or that dictator. It was predicted long ago."

Trotsky's Warning

Trotsky furthermore warned that if socialism is not established in the meantime: "The third imperialist war would be waged not by national states and not by empires of the old type but by whole continents . . ."

Answering the argument that one victorious power such as the United States might "unify the entire world in a totalitarian vise," that is, police the world for an indefinite time, Trotsky predicted:

"But even if such a hypothesis should be realized, which is highly doubtful, military 'unification' would have no greater sta-- bility than the Versailles treaty. National uprisings and pacifications would culminate in a new world war, which would be the the Moscow bureaucracy, put it Daily Worker, December 26, eign rights; the right of every grave of civilization. THE MILITANT

SATURDAY, MARCH 16, 1946

Diary Of A Steelworker By T. Kovalesky

We were sitting on a bench in the locker room ewapping stories about the strike, when Larry McGinnis walked up to us.

"Why the hell don't youguys quit shooting the bull and get out there and earn your dough?" he grinning. "The asked strike's over now. "Listen to that labor-

faker," snorted Pete Rossi, "He's been a company since his brother got on the police

force. Larry scowled reflectively. "That brother of mine never was no good."

Jimmy said, "That's no way to talk. Mike's an officer of the law! You've got to respect him!'

Larry answered that appropriately. Then he said, "That lousy brother of mine-he scabbed it in '37, and by God if they sent him out to bust up a picket line, he'd be the first to pull a gun! . . .

The day was pretty slow, and as I worked I was thinking about Larry and Mike, and about cops in general.

There'd have to be cops, I mused, as long as there were rich and poor. Just as long as one man lived in a palace and another lived in a shack with a leaky roof; just as long as one man had everything and another man saw his wife and kids in need, there'd be cops.

They'd be hired by the rich man's govern-

ment to protect the rich man's wealth from the poor man.

Then I got to thinking-just what is a cop? He's not a rich man. He's just a guy making a living like a working man. If he loses his job he'll go hungry. But, on the other hand, cops are generally the enemies of the working man.

Guys like Mike McGinnis, who scabbed it back in '37, make particularly good cops. They hate being workers and worship "upper class" people. They believe whole-heartedly in the capitalist system and hate the unions, which they consider "communist". Give them a gun and a club, and send them out against a picket line, and they go to work on the boys, full of righteous zeal.

Labor history is filled with records of police brutality all the way from Haymarket (and before) to the Philadelphia picket line attacks. I thought of that dusty field on May 30, 1937, when ten of us died from police bullets, and God knows how many more fell, hurt by police clubs. But-there wasn't much sense wasting time thinking a lot about it-because the answer was right there, and it was the answer to a lot more. than just cops.

Under socialism we wouldn't have them except maybe to help little school children across the street. With everybody making a good living, no rich and no poor, with no depressions or layoffs and no insecurity, we wouldn't need cops and prisons. There'd be nobody's property they'd have to protect.

So I quit thinking about the cops and concentrated on a couple of grievances we were go-

ing to take up later in the day.

Notes Of A Seaman **By Art Sharon**

It seems just too much of a coincidence that every time the union longshoremen begin to put on the heat for a little more wages the ship operators shortly

Last week in New York City much fuss was kicked up by gentlemen-parasites who control shipping, over what they call

'pilferage."

after start a hue and a

cry over the great losses

they sustain through

a "scandalous increase in pilferage." They charged that the Port of New York ranks with that of Manila, P. I., in the rate of pilferage. And by "pure coincidence" the comparison with Manila is made just after the longshoremen in Manila have concluded a magnificent strike which won a 50 per cent increase in wages.

You will recall that the longshoremen in New York Port recently secured a pay increase of 25 cents an hour after a wide-spread rank and file strike of AFL International Longshoremen's Association members threatened a complete paralysis of New York's waterfront.

The apoplectic outburst on "pilferage" from the cut-throat shipping interests here in the Port of New York reminds me very much of a similar outburst on the part of their fellowparasites in the Port of San Francisco some years back after the longshoremen there had forced higher wages and better conditions through their successful strike.

In the latter case, the Frisco ship operators even went so far as to put on a public exhibit of "evidence" of "pilferage" they claimed they had gathered over a long period. It was a pitiful exhibition of empty pineapple juice cans, empty beer bottles, some broken cartons of shaving soap, etc. A few longshoremen went up to look over the "evidence" and were singularly unimpressed. As a matter of fact it only succeeded in evoking a lot of laughter.

The New York ship operators are working themselves into a sweat about "pilferage" aboard their ships because they were defeated in their recent attempts to limit the longshoremen's wage increase to a measly ten cents an hour. The ship moguls are now trying to harass and intimidate the longshoremen with this sudden wholesale slander campaign about alleged "pilferage."

What strikes me about this campaign at this time is its coincidence with an increased spirit of union militancy on the waterfront. And I am equally struck by the brazen character of this campaign launched by a small band of shipping parasites who during the war and right now are pilfering millions from the public treas-

I know and so does everyone else who has closely followed the shady trail of this band of parasites, that they, of course, conduct their operations "strictly legal." Still, not a week goes by but that some aspect of their cornercutting "pay-triotic" activities is uncovered.

Their kind of pilferage is covered up with documents designed by clever corporation attorneys to "stand up" in the courts and "prove" that Mr. Shipowner has proceeded according to all the shipowner-written laws governing the inter-relations of these capitalist thieves. They set a few rules because occasionally one of the shipowners might act in too conspicuously crooked a fashion and thus hurt the prestige and practices of his fellow gangsters.

We know the real pilferage is being done by the profiteer ship operators. What they are beefing about is not that an occasional can of beer is lifted by a thirsty longshoreman. The "pilferage" these crooks moan about is the cut they must take in their huge profits when they are forced to pay higher wages to the man on the dock and in the hold.

Telephone Workers Force AT&T To Yield; Western Electric Strike Ends In Victory

For Freedom From Police Clubs!

ARE VETS HTIM FREEDOM POLICE CLUBS

"Freedom From Police Clubs" is one of the demands made by these striking veterans as they march on the Philadelphia City Hall after police brutally assaulted CIO Electrical Workers picket lines. Demonstrating on March 3, these veterans demanded that Mayor Bernard Samuel aid their fight for unemployment compensation while on strike. decent homes to live in and adequate educational and hosnital facilities.

New York Local Of SWP Holds **Inspiring Two-Day Convention**

Workers Quit Stalinists By Paul Abbott

Support of Wall Street during the Second Imperialist World War has resulted not only in a tremendous drop in the membership and influence of the American Communist (Stalinist) Party, but also in a major shift in its class composition. Workers no longer constitute the bulk of the party. They have been replaced by petty bourgeois elements.

This fact, long apparent to competent political observers, has now been officially confirmed by John Williamson in his report to the Stalinist National Committee published in the February 24 Sunday Worker.

"The first registration reports," he admits, ... reveal another serious decline in the industrial composition of the Party. For instance. in New York the percentage of industrial workers has declined from 34 per cent to 29 per cent. This means that 71 per cent of the Party in New York City consists of white collar workers. professionals and housewives. Michigan, which always had the highest industrial composition. has also declined from 66 per cent to 58 per cent. California which, like Philadelphia and New York agreed to fight to reach a 50 per cent industrial composition this year, also declined from 41 to 38 per cent."

How serious the situation is in the eyes of the Stalinist bureaucrats can be judged from Williamson's admissions concerning one of the key sections of a key industry: "In the case of General Motors, for example, out of approximately 120,000 workers in some of the main plants only 122 are Party members."

Williamson is likewise worried over the losses in the steel industry: "We are very weak. There are many big mills-some of the biggest in the country-in which we have no Party

members at all, or a handful who are not yet even organized in a shop club. I have in mind such places as the Irwin Works, Aliquippa, Johnstown, Y. S. & T. in Youngstown, the Otis Steel Co. and the American Steel and Wire in Cleveland, as well as Weirton Steel."

Who is replacing the Stalinists as the dominant political tendency among these strategic sections of the working class? Williamson suggests the answer in the following illuminating words:

"Another dramatic example is the city of Toledo, where a most serious situation exists. Toledo is an industrial city with a great tradition of labor struggles. If there ever was a CIO town, it was Toledo . . . Toledo is also a center We do so for the same reason of Trotskyite concentration, so much so that that the mass of Negro, Mexionly recently - and, after procrastinating too | can, Jewish, Filippino, Japanese long-we expelled the Party chairman, who was and other minorities do. We a Trotskyite inside our own ranks . .

"What is the situation today in Toledo as regards our Party influence among the workers? solely through such legislative Out of 252 Party members there are only 24 auto workers and in some of the major plants there are no Party members at all."

Even in Brooklyn, one of the strongholds of the Stalinists, Williamson points out that the 8,000 members have their base in "primarily Jewish-American communities, combining workers and non-workers." In other areas that are 'almost 'exclusively and distinctly proletarian" the Party has "only 201 members."

These damaging admissions reveal how the Stalinists are paying for their ride on Wall Street's bandwagon during the war. They betrayed the working class, and the proletarian elements drew the only possible conclusion: they left the Stalinist Party by the thousands.
