American Seamen's Defory Order To Scab On Filipino Strike

By Art Shaw

NEW YORK, March 28—Delays and strikes from Manila and from other ports in the Philippines to force American personnel to leave 45 day in Manilla harbor to assist in the struggle against the Manilla Strike. The American Seamen's Union, AFM, called for a nationwide strike of all American seamen. The strike was called in response to the Manilla Strike, which is believed to be the most serious industrial strike in the Philippines in years.

The Manilla Strike is the result of a dispute between the Manilla Steamship Company and the Manilla Seamen's Union. The dispute centers around the issue of wages and working conditions for the workers.

The Manilla Strike is supported by the American Seamen's Union, AFM, which is fighting to improve working conditions and wages for American seamen.

On the Insider

The Manilla Strike is a crucial test of the strength of the American Seamen's Union, AFM, in the face of opposition from the Manilla Steamship Company and the Manilla Seamen's Union.

On the Billboard

The Manilla Strike is a test of the resolve of American seamen to fight for better working conditions and wages.

Fund Drive Gets Good Start

By Evelyn Atwood

The three-month campaign of the United Auto Workers Union (UAW) for a national fund drive to benefit the American Federation of Labor and Congress of Industrial Organizations (AFL-CIO) is off to a good start. The drive was launched in March, and the goal is to raise $1 million for the AFL-CIO.

The UAW has set up collection boxes in various locations, including auto plants, grocery stores, and other retail establishments. The boxes are staffed by union members who are trained to collect donations.

The money raised will be used to support the AFL-CIO's various programs, including education, health care, and legal services for workers.

Greek Trotskyists Slain By Stalinists

Despite serious losses among the leadership of the Greek section of the Fourth International, the Trotskyists are still a viable opposition in Greece. Stalinist harassment continues. Three of the most important leaders of the Greek Trotskyists were murdered during the past month. Two were killed by the Greek police and one by a far-right black-shirt group.

Italian Police Shoot Down Jobless Workers

Italian Police Today Shot and Wounded Seven jobless men. According to the Italian press, the police were responding to an incident involving the dispersal of an illegal political meeting. The Italian Ministry of the Interior confirmed that the police action was necessary to maintain public order. The shooting occurred in the city of Turin, where a large crowd had gathered to protest against job cuts and economic austerity measures. The police used tear gas and rubber bullets to disperse the crowd. The incident has sparked widespread condemnation from political and human rights groups. The Italian government has denied reports of human rights abuses and has insisted that the police acted within legal bounds.

Dutch Troops Pour Into Java; New Battles Flare

By Mike Cort

The Indonesian people long waited for the Dutch to strike. As the British forces massed for a bold move to retake control of the islands, the Dutch were prepared. On March 13, the Dutch launched a surprise attack on the British forces on the island of Java. The British forces were taken by surprise and were forced to retreat. The Dutch victory was a stark reminder of the power of the empire and its ability to project power across the globe.

Italian Farm Workers Stage Huge Demonstration At Apulia

The Italian government has announced it will introduce new measures to protect farm workers' rights. The move comes after a series of protests by Italian farm workers, who have been demanding better working conditions and higher wages. The government has also pledged to increase funding for education and healthcare, as well as to introduce new measures to combat poverty and inequality.

British Troops Attack Malayan Workers

British imperialism, whose bloody hands already grip the food of the French and the Dutch, has now turned its troops to impale the food of the Malayan and the Indonesian people. The British have been engaging in a policy of repression and violence against the working class, in order to maintain their control over the region.

Trotskyists In Norway Survive Nazi Invasion

The Norwegian Trotskyists have survived the Nazi occupation of their country. The Norwegian section of the Fourth International, led by Arne Olsen, has been active in organizing resistance against the Nazi regime. The Trotskyists have been involved in various forms of direct action, including sabotage and underground publishing. The Norwegian Trotskyists have also maintained close ties with the Mass Unity Council, a left-wing organization that played a key role in the resistance movement.

CIO Political Action

At the meeting in Washington on March 15, 1946, the CIO Executive Council voted to spend $40,000 to help in the 1946 political campaign. The funds will be used to help elect the present administration. In return, the CIO will get labor support by proposing legislation to restrict unfair labor practices and by working to establish a minimum wage and to fight social security legislation. This was the decision of the Executive Council, which had been approved by the delegates of the CIO at a convention held this week.

Stalin’s Policy

Stalin’s policy has reacted in a surprising way to the anti-Bolshevik war of the United States, which is now in its second year. It has been described by many as a “cold war,” by others as a “hot war,” and still others as a “cold war with hot spots.” Whatever one calls it, Stalin’s policy has been effective in a way that few would have expected a few years ago.

Only the world resolution can save the U.S.S.R. But the world revolution continues with it, and the world revolution is the basis of the struggle for peace.

Workers Striking for Wage-Slave System

Slower Struvor For Workers

Wage slavery is not a new phenomenon. It has been around for centuries. The working class is often exploited and underpaid. Workers are forced to work long hours for minimal wages. This is a struggle that workers have been fighting for generations.

Women's Contribution to Society

Women's contribution to society is often overlooked. Women have played a vital role in many aspects of society, from politics to science. Their contributions have been instrumental in shaping the world we live in today.

What Karl Marx’s Teachings Mean For The American Working Class

By Lorine Bart

Sixty-three years have passed since Karl Marx, founder of the revolutionary theory of political economy, blackailed the theory of the working class, and died at London in 1883. By far the most influential of the many thinkers who have contributed to modern history, Karl Marx’s teachings are even more relevant today than when they first appeared.

KARL MARX

The result of the working class, has been to provide the working class, with the political consciousness necessary to make it a class. The working class, has been the subject of capitalist exploitation.

UMW Negotiates Indict Coal Operators
For Million Casualties In Mine Disasters

Murder for Profits

Every ton of coal mined in the United States is "assassinated," the rails are "stained with the blood of victims," and the workers are "sacrificed" by almost every contract negotiation on March 22, according to the UMW. The "score for profits" of the American coal industry has approached the "score of the War Department" in the "race for murder," according to the UMW.

The Million recently exposed to the country the names of the coal operators responsible for the recent record of mining dis- asters. The names were compiled by the organization's independent hospital investigators and published in the "Score for the Million," a magazine issued by the UMW. The investigation disclosed that the million casualties in the mines were the result of "barbarous" mining practices and "unnatural" conditions. The UMW demanded that the operators of the coal mines be held responsible for the deaths and injuries of the miners.

The Million concluded its investigation by demanding that the operators be held responsible for the deaths and injuries of the miners. It called for a "war on the mines" to end the "barbarous" mining practices and "unnatural" conditions.
