HA! TTHEE M WARR-Makers: Unite On May Day Against The Imperialists!

MAY DAY — 1946

May Day Manifesto Of National Committee, Socialist Workers Party Of United States

May Day 1946 marks the 96th anniversary of this tremendous international working class holiday. It is a revolutionary spirit of this day, served by capitalist oppression and defended by the Socialists, Social Democrats and official trade-union leaders, during the period of jobbing and the eight-hour day. For we celebrate this May Day amidst a powerful movement of woman-struggle instead of reaction and retrogression.

Here in the United States, the strength of world communism, the organized industrial workers have met the Big Business onslaught against their living standards with a mighty roar and have routed capitalism and built solid ten despite the intervention of the imperialist world.

Source Of Struggle

On the other side of the Atlantic, the masses of workers are fighting for the election of a government of the left in Great Britain and in France they are fighting for the election of a government of the left. On the other side of the world, China, India, Indonesia, Korea, and the Philippines are fighting for democracy. Everywhere, the workers are fighting for freedom, democracy, socialism, and for the peace of the world.

To win support for their war, the spokesmen of the imperialists have roused the workers to believe that the war is a struggle for the defense of the democratic way of life and the freedom of the workers. Workers are thus now being asked to engage in the war as a means to defend democracy and to achieve freedom and democracy. This is now the time to answer this appeal with a no to war and a yes to peace. We, the Socialists, call on all those who are suffering from the war far and wide to unite against the Franco-English and American war of aggression.

Workers! Halt The War-Makers!

(Continued from Page 2)

Germany, the industrial bastions of Europe, has been
under attack for more than a year. The German war
machine is the most powerful in the world. It has been
invasion of the nation's most populous cities and means of life and labor. Today, all the
workers of the world have a vital interest in the
shadows of war. The American people have the
to the double-threated and oppressed workers.

There is not a single truly independent country in
the world and not a single country that is not
exposed to the threat of war. In the United States,
which is the largest country in the world, the

American workers are engaged in a struggle for
democracy and freedom. The workers of Europe are
struggling against the fascists. The workers of Asia

Africa are demanding freedom from colonial rule.
The workers of the world are united in their struggle
against imperialism.

Rule Of U. S. Imperialism Brings Starvation To People Of Germany

By Eugene V. Debs

After a year of domination by the American Imperialists, Germany is now in a state of utter degradation. The American dollar has been established as the official currency of the Reich and the American dollar has been placed on the same footing as the Reichsmark. The American occupation authorities have been given the power to make laws and to enforce them, and the American court system has been set up in Germany. The American Imperialists have taken over all the economic and political institutions of the Reich, and the American flag flies over the German soil. The American Imperialists have even gone so far as to establish a police force consisting of American troops, which is known as the American Police. The American Imperialists have also set up a network of spies and informers throughout the country, which are known as the American Intelligence Service. Housing Crisis In Milwaukee Is Greatest Problem To Vets

BY STRAIGHT HOUSE

Veterans who had looked to the army to provide for their old age found out that their government was not inclined to provide them with a home of their own. They have been told that their homes are not safe for the reason that the army did not supply them with a pension.

Discrimination Against GI Was Army's 'Accepted Practice'

BY ROBERT W. BROWN

The army has been accused of discriminating against GI's, but the army brass hats have always denied these accusations. The army brass hats have always maintained a policy of 'accepted practice'.

Pioneer Notes

In the second section of this edition of the Milwaukee Journal, there is a report on a discrimination case that was brought against the army. The case was brought by a GI who claimed that he had been discriminated against by the army. The GI was denied a promotion because he was a GI. The army brass hats have always denied these accusations.

GREEK COMRADE GREET$ FIRST MILITANT RECEIVED IN YEARS

To the Editor:

As you know, we have been receiving requests for The Militant over the past year from Greece. I have been able to respond to most of them, but cannot always meet the requests. The current demand is far greater than our supply. It would be helpful if you could provide some tips on how to increase our supply of The Militant.

Sincerely,

Diary Of A Steelworker

By T. Kovalesky

We spent the day today in a fight to save our jobs. We met our boss under the big tent of the Bethlehem Steel corporation. I am a steelworker, and I am part of the fight.

We were told that the company is closing our steel mill. This is not the first time we have been told this. In the past, we have fought hard to keep our jobs. But this time, it seems like our fight is over.

I am not sure what will happen next. We are hoping for some sort of compromise. We are hoping that the company will change its mind. We are hoping that our jobs will be saved.

I am concerned about the future of our community. We are a steel town. We depend on the steel industry for our livelihood. If our mill closes, it will be a major blow to our community.

We are united in our fight. We believe that the steelworkers deserve a chance to be heard. We believe that the steelworkers deserve a chance to save our jobs.

I am proud to be a steelworker. I am proud to be part of this fight. I am proud to be part of the United Steelworkers Union.

SUFFERING LOOKING FOR ANSWERS

A woman was seen on the street, looking sad and somber. She looked like she was in deep thought. I asked her if she needed anything, but she shook her head. I don't know why she was so sad. She looked like she was lost. I hope she finds her way back.
