NEW PURGES IN THE SOVIET UNION

NEW YORK, July 2—Mass arrests of Trotskyists in Bulgaria were today called for by Farrell Dobbs, editor of the Militant, in a new policy statement that a blood purge of major properties is now in progress in the Balkans.

Speaking for the Socialist Workers Party in a press release, Dobbs declared that: "an extension of the purge in the Balkans is now underway in the former Soviet Union. This is a direct result of his statement to the press following the purge in the Balkans."

The Militant has just received word from its Bulgarian correspondent that Dobbs has been arrested. "On the heels of the purge in Bulgaria," the report stated, "his whereabouts are now unknown to the Socialist Workers Party." The purge in Bulgaria, it was noted, was the result of the Social Democratic platform of the Socialist Workers Party in Europe.

The purge in the Balkans, Dobbs declared, is a direct result of the purge in Bulgaria. The purge in Bulgaria, it was noted, was the result of the Social Democratic platform of the Socialist Workers Party in Europe.

The Sliding Scale of Wages: An Effective Way To Combat The Rising Cost of Living

More and more unions are adopting the principles of the sliding scale of wages to protect the worker's living standards. Last week, the CIO's National Transportation Union, after a series of talks with employers, agreed on a sliding scale for the workplace. The scale is designed to help workers by providing for increased wages as the cost of living rises. The sliding scale wage is intended to be a benefit that will help workers maintain their standard of living. 

New York, June 28—In the largest vote in the N.Y. unionists' strike (ASC), eight years ago, the program's new position came within a vote of winning the control of the union. 

No sympathy was shown for the workers. The wage scale was increased by $2.50 per week, which will result in a substantial increase in the cost of living. 

General Tire Workers Hold Firm in Strike

The strike was called for the purpose of maintaining the employees' rights and conditions. The workers have been working under the new wage scale for some time, and they have not been satisfied with the conditions. The company has offered to negotiate with the union, but the workers have refused to accept the offer. 

Seal Beach, June 28—The American Federation of Labor and the United Brotherhood of Carpenters and Joiners of America, after several months of negotiations, have agreed on a new wage scale for the members of the union. The new scale was reached after several months of hard bargaining and will go into effect immediately. 

Seal Beach, June 28—The American Federation of Labor and the United Brotherhood of Carpenters and Joiners of America, after several months of negotiations, have agreed on a new wage scale for the members of the union. The new scale was reached after several months of hard bargaining and will go into effect immediately. 

Contractors Block Housing in Houston

The union's main concern is the rising cost of living, which has led to a decline in the demand for housing. The union has been working for several years to improve the living conditions of its members, and it believes that a new wage scale will help to alleviate the problem.

New Purge Is Stalin's Answer to Economic Crisis in Soviet Union

By George Brooks

Kremlin Offers Scapegoats To Cover Up Its Own Crimes

The purges in the Soviet Union have inevitably exploded into a full-fledged economic crisis. The Kremlin has been forced to admit that its policies have failed and has been forced to take drastic measures to cover up the situation.

In the face of the growing economic crisis, the Kremlin has been forced to admit that its policies have failed. It has been forced to take drastic measures to cover up the situation, but it has been too late. The economic crisis has grown worse, and the purges have only added to the chaos.

*World Socialism and the Kremlin* by M. Stein

In his latest book to overlap capitalism in the United States, M. Stein gives us an inside look at how the world socialist countries control their economies and industries, and how they confront the challenges of foreign trade and defense. Using a blend of Marxist analysis and historical research, Stein develops a comprehensive theory of world socialism that is both theoretically sound and politically relevant.

Stein argues that the world socialist countries, while facing the same problems as the capitalist countries, have developed unique strategies to overcome these challenges. His book offers insights into the inner workings of the world socialist system and provides a critical assessment of the state of world socialism today.

Stein's analysis is based on a thorough examination of the political, economic, and social institutions of the world socialist countries. He draws on a wide range of sources, including scholarly works, government documents, and personal interviews with leaders and experts in these countries.

Stein's book is a must-read for anyone interested in world socialism, political economy, and international relations.
**Why The South Must Be Organized**

**STRAIGHT-TIME MIDDLE EARNINGS**

The Workers Forum notes are open to the readers of "The Militant," letters are welcome on any subject of interest. You need not be a member of the organization.

**MUSIC**

**RISING SCALE OF WAGES**

Editor: I am very glad to hear that workers in the South are getting a wage increase. The workers have worked out a policy of raising the scale of wages in union contracts. The decision was made by the Executive Council of the AFL-CIO in June, 1946, and the decision is to be carried out by the unions and the employers. The workers have been working hard to improve their living conditions, and this wage increase is a step in the right direction.

**DYES**

In his column in the Militant, Worker's Forum, on June 28th, 1946, New York, N. Y., under the heading "New York," there is an article on the workers' struggle to improve their working conditions. The workers have been organizing for a higher wage, and the result is a wage increase of 10 cents per hour. This is a step in the right direction, and it is hoped that this will lead to further improvements.

**THE MILITANT**

**Before You Ask Which Ship of State**

To all workers and students: Every worker and student should be aware of the importance of their role in the struggle for a better society. The workers have been organizing for a higher wage, and the result is a wage increase of 10 cents per hour. This is a step in the right direction, and it is hoped that this will lead to further improvements.

**LIBERALS**

Liberalism is the most pernicious form of capitalism in the world today. It is the philosophy of the ruling class and is used to keep the working people in their place and to make them accept the exploitation of the rich. The workers have been organizing for a higher wage, and the result is a wage increase of 10 cents per hour. This is a step in the right direction, and it is hoped that this will lead to further improvements.

How Jim Crow Broke Down On A Troop Ship

By Roy Moore

I've just returned from Europe, the central, south and western Pacific areas as part of the invading and conquering forces. I have had the opportunity to see the impact of race relations on the scale troop movement. All across the field, there was a definite effort to segregate the races. In some areas, the number of colored troops was reduced to a minimum, in many areas, the black troops were made the life-line workhorses of the army.

The air force was divided into several groups, each group having a specific function. The most effective unit in the air force was the 99th Pursuit Group, stationed in San Francisco, a unit of mixed black and white pilots, and stationed to oppose to the 104th Pursuit Group, stationed in England.

The Navy was divided into several groups, each group having a specific function. The most effective unit in the navy was the 41st Destroyer Group, stationed in England, a unit of mixed black and white sailors, and stationed to oppose to the 91st Destroyer Group, stationed in France.

The Army was divided into several groups, each group having a specific function. The most effective unit in the army was the 99th Infantry Division, stationed in France, a unit of mixed black and white soldiers, and stationed to oppose to the 104th Infantry Division, stationed in England.

The Marine Corps was divided into several groups, each group having a specific function. The most effective unit in the marine corps was the 41st Marine Regiment, stationed in England, a unit of mixed black and white marines, and stationed to oppose to the 91st Marine Regiment, stationed in France.

This division of the armed forces into groups that were segregated by race is not new. It has been going on for many years, and is not likely to end soon. The reason is that the armed forces are still about the only places where race relations can be studied. In other places, the black people are not segregated, and therefore, cannot be studied. The armed forces, however, are segregated, and therefore, can be studied.

The problem of race relations in the armed forces is a complex one. It is not likely to be solved soon. But it is important to study it, because it is a problem that affects all of us. The armed forces are a reflection of the society that we live in. If the armed forces are segregated, then the society that we live in is segregated. If the armed forces are integrated, then the society that we live in is integrated. It is important to study the problem of race relations in the armed forces, because it is a problem that affects all of us.

Poison Pen Artists Attack Trotsky's Biography Of The Kremlin Dictator

By Charles Corden

Even as a new and terrible purge ramps up in the USSR, Leon Trotsky's biography of Joseph Stalin is itself under attack, praised by Stalinists as the work of a man who stood up to the evil Stalin. The book has been hailed as the key to understanding the true nature of Stalin's regime.

A well-placed source has revealed that a number of poison pen artists, who are known to target their attacks on those who oppose them, have been publishing letters attacking Trotsky's biography. These letters have been attributed to a group of high-ranking officials in the Soviet Union, who have been using their position to suppress the work of Trotskyists across the country.

The latest letter, published under the name of a senior official, accuses Trotsky of being a traitor and a saboteur, claiming that his biography is nothing more than a propaganda tool for the western imperialists. The letter goes on to denounce Trotsky's attempt to expose the crimes of Stalin and his regime, and to reveal the true history of the Soviet Union.

The letter concludes by calling for a new round of repression against Trotskyists, warning that anyone who supports the book will be dealt with severely.

It is feared that these attacks are just the beginning of a wider campaign to suppress Trotsky's work and silence his message. The poison pen artists, who are known for their ruthless tactics, are expected to continue their efforts to undermine the book and its author.

Despite these challenges, Trotsky's biography remains a powerful tool in the hands of those who seek to reveal the truth about the Soviet Union and its leader. The book continues to attract a growing audience, as people seek to understand the full extent of Stalin's regime and its impact on the lives of millions of people.

Diary Of A Steel Worker

A Hot Summer Night In The Mill

By Theodore Kosatsky

Last night and this morning didn't come to work. It is hot here and there was some rain last night. I was wading around salt water but I didn't stay long. The weather is hot here. I just turned it on the radio to the news and the weather. I heard that the heat wave is coming. The workers have to work outside but they are hot here.

I went to the mill today but I didn't stay long. I was at the blast furnace and I saw a blacksmith working. He was making a large iron object. I asked him about it and he said it was for the new mill. The workers are busy making new parts here.

I hope the weather will cool down soon. I am not used to the heat.

Victim Of Chicago Bombing

Rich Eat Cake; Urged Cut In Diet Of Poor Families

By A. F. Seeley

The Chicago Daily Times, July 6, 1945

CHICAGO, July 6—A report from the Chicago Daily Times states that the city has suffered a major disaster due to the recent bombing. The city is in shock and the people are in need of assistance.

The Times reports that the bombing caused widespread damage and many people were injured or killed. The city is struggling to recover and the people are in need of help.

The report also states that the city is in need of food and other supplies. The people are struggling to survive and the government is working to provide assistance.

The Times calls for the people to come together and help each other in this time of need. The city is in crisis and the people must unite to overcome this challenge.

Atomic Bomb Demonstration In The Pacific Is Part Of Wall Street Drive Toward War

By Robert B. Mitchell

Saturday, July 6, 1945
