HALT THE LYNCHERS!

To the National and Local Leaders of the CIO, AFL and Railroad Brotherhoods:

As the crisis of lynching continues to demand the highest possible repudiation of this prehistoric evil, it is of immediate concern to you, your organizations and every working man and woman in the United States. The main aim of this reign of terror is to discourage any attempt on the part of the South for a fight against lynching wages and the open lynching.

The chief behind-the-scenes instigators of this vogue of lynching are the imperialists and the reactionaries. Their purpose is to set the stage for an anti-labor offensive in the South. In the South you will find the majority of all fundamentalism. It would provide ammunition for the right-wing mobs, and before they could be put down, they would have committed crimes against humanity and against the Negro. If these leaders are not stopped, they will continue their campaign until the whole country is threatened.

The labor movement cannot depend on either the federal or state governments to take action against these terrible crimes. More and more evidence is accumulating that the United States government will not only remain indifferent, but will actively encourage the crime. The only way to stop this is to mass our forces and closely monitor the lynching activities. Federal and state laws alone cannot stop this. Only a united action of the working class can bring down this reign of terror.

In New York, N. Y., the killer of two Negro workers was set free to perpetrate more crimes. Similarly in Pennsylvania, "investigation" of these murders is an outrage here.

In Akron, Ohio, a similar case occurred recently, and the killer of four Negro school children was set free to perpetrate more crimes. In this case, the local police were not interested in arresting the murderer, while the local government and the state police were not interested in arresting the police.

In a similar case in Mississippi, the police did not make any arrests or even attempt to catch the murderer. The murderer was allowed to continue his crime without any interference. The state police were as guilty as the murderer.

In conclusion, it is necessary for all workers to unite and fight against lynching. Only by massing our forces can we stop this reign of terror.

Socialist Committee

War Profiteers

War profiteers are lining their pockets while standing on the shoulders of the men who died fighting this war. They are the leading percentage of the workers and soldiers who died in the war. Many of these profiteers were men who were not even in the war. They were stockholders or directors of the companies who were profiting from the war.

The Working Man's Committee of Cleveland, Ohio, has recently made a study of the profits made by the war profiteers. The committee found that the profits made by these companies were so large that they amounted to millions of dollars. The committee also found that the majority of these profits were made by the large corporations.

The committee further found that the profits made by these companies were not used to help the workers or soldiers who died fighting the war. The profits were used to pay dividends to the stockholders and to increase the profits of the companies.

The Working Man's Committee is calling for a national movement to stop the war profiteers and to demand that the profits made from the war be used to help the workers and soldiers who died fighting the war.

CIO Leaders Retreat From Wage Fight; Substitute Weak Program Calling For “Roll Back” Of Prices

By Art Preis

Just before the adoption of the new CIO constitution last month, the leadership of the CIO announced that they would abandon the immediate wage program. While this decision was not unexpected, there was no hope of halting strikes and their resultant striking standards could be protected only by extreme new

Wagner, however, president of the powerful CIO United Auto Workers Union in Detroit, in an interview with the authors of this newspaper said that the union would not abandon the immediate wage program. While the union has indicated that a new program would be called for in seven days, Wagner said that the union would not pursue the immediate wage program but would continue to pursue the immediate wage program.

The new program was immediately rejected by the CIO membership, but it was announced that the union would continue to pursue the immediate wage program.

Workers In Egypt Battle Repression
By T. CIII.

(The Militant is proud to present the first of a pair of articles on recent developments in Egypt by one of the best-informed and most articulate voices on the Middle East scene, George Galloway. Galloway’s visit to the U.S. and his work with political refugees in Egypt made an indelible impression on us, and we’re delighted to share his insights with our readers.)

Discontent has increased to the figure of 300,000. In Egypt, there is a widespread belief that the police are the central instrument of the ruling class. The regime, slavishly and obediently, is dominated by the big land owners and big business. They are the real masters of the day, and the workers, as always, are the victims of their anger.

The Manchurian Guards, as they are known, have been active in some areas of the country, particularly in the industrial centers. They are called upon to protect the regime and to keep the peace. The guards are armed with rifles and are often clothed in military uniforms. Their presence is a constant reminder of the regime’s power and its willingness to use violence to suppress any opposition.

Labor Solidarity

We salute the splendid demonstration of labor solidarity which has been made against the savage war attack made by villainous employers. In the strike of June 5th at the headquarters of Remington Rand, Inc., over 1000 workers went back to work and they refused to work under the conditions of the plant. This was a magnificent action by a large number of workers and it is a credit to the trade union movement.

These labor leaders frankly state that they do not feel there is any possibility of a settlement. This is the opinion of the workers and they are right. The strike is a protest against the policy of the employers and they are determined to fight for their rights.

In a similar action, over two years ago, the workers of the Remington Rand, Inc., showed their solidarity in the strike against the employers. These workers refused to work under the conditions of the plant and they were supported by a large number of workers.

In both cases, the united labor front stalled Big Business, preventing a settlement and enabling the workers to win their demands. The workers were determined to fight for their rights and they were supported by a large number of workers.

CIO Leaders Retreat

Just prior to the passage of the OPA price control law, the labor leaders had a meeting with the workers. They agreed to continue the program of the CIO and to support the workers in their struggle for better working conditions.

One of the leaders, CIO President John L. Lewis, stated that the workers "must understand that the workers must do their utmost to bring about a settlement of the strike. The workers must not be satisfied with a settlement that gives them less than they were asking for. The workers must be prepared to fight for a settlement that gives them everything that they were asking for."

Eight Ex-GIs Raise Objection To Our Demand For Military Training Under Control Of Trade Unions

A Letter

Chicago, Ill. July 24, 1946

Editor:

We the undersigned, originally from various parts of the United States, have had considerable experience with military training, either as soldiers or reservists of the National Guard, and we believe that one of the important factors which can make the difference between an efficient military establishment and a failure is the proper administration of the training program. We feel that the present system of military training is inadequate and that it is time for a change. Therefore, we believe that the military training should be controlled by the trade unions.

Sincerely yours,

And An Answer

The editor of The Militant had asked for a letter from a former soldier, to answer your letter and ask you to consider the following points:

1. The necessity for military training
2. The importance of controlling military training
3. The need for a new system of military training

In your letter, you stated that military training is necessary for national security. This is true, but it is important to consider the efficiency of the training. The current system of military training is not effective, and it is time for a change. Therefore, we believe that military training should be controlled by the trade unions in order to ensure the proper administration of the training program.

Sincerely yours,

The Kansas City Star sent a special correspondent to the Missouri town of Fairview. The correspondent reported that the trial, which had been postponed several times due to the defense's efforts to delay the proceedings, finally got underway in the courtroom of Judge John H. Miller. The defense, led by Attorney John D. MacShane, is arguing that the accused, John E. Johnson, is mentally incompetent to stand trial.

The trial is expected to last several weeks, and a decision is expected to be made by the jury. The case has attracted national attention, and many people are following the proceedings closely. The defendant is charged with the murder of a local businessman, who was founddead in his home yesterday.

Chicago AVC Chapter Backs Resolution on Defense Budget

CHICAGO, Aug. 2 — The Chicago Alliance for Voluntary Choice (AFC) has endorsed a resolution calling for a reduction in the defense budget. The AFC is a group of activist socialists who advocate for voluntary choice and free will in all aspects of life.

The AFC has been active in Chicago for several years, and has been involved in a number of political campaigns. The resolution on defense is part of the AFC's broader agenda, which includes issues such as climate change, workers' rights, and gender equality.

The AFC is calling on all political parties to support the resolution, and to work towards reducing the defense budget. The AFC is committed to working towards a world where voluntary choice and free will are respected and protected.
Civil War In Athens, Tenn.

By Art Hoyle

In the morning in the shantytown, when the shells began to crash, the red men ran into the smoke; but they could not move fast, for they had their cheeks and backs against the great rocks, and the smoke filled their eyes and ears, and they were forced to go to the ground. In the middle of the day, they came out again, and the shantytown was in ruins. "Little Tom," who had been the leader of the raid, had been killed by a stray bullet. The red men were scattered, and the town was in disarray. The only saving grace was that the few who were left were able to escape the pursuing forces.

The victory of the General on the field of Moosilauke was won by the gallant little band of Union soldiers, who, under the leadership of Col. Henry W. Hager, marched over the mountains and crossed the river, driving the Confederates back into their own lines. The heroism of these soldiers has been recorded in history, and their names will live forever in the annals of the Civil War.
