# **Union Leaders** MINNEAPOLIS PICKET-LINE **Protest Rulings Of Price Board**

### Government's Latest Aid To The Profiteers Shows Need For Renewed Union Wage Fight

### By Art Preis

The Price Decontrol Board's rulings have given another stiff jolt to the trade union leaders' policy of dependence on the capitalist government to prevent price rises. The government's latest aid to the profiteers and pricegougers has posed squarely

the need of renewed struggle for higher wages. CIO leaders, who had concentrated all their efforts to get a "roll-back" of prices, were compelled to denounce the Decontrol

Board's rulings. Philip Murray, CIO President, charged on August 21 that the Decontrol Board's decisions mean freeing 50 per cent of all food guard British-controlled proprices from any regulation. The Board, he said, has given a free N. Y. Times correspondent Benhand to "speculators, greedy for profits, to push prices up."

### POLICY BANKRUPT

It is clear from the CIO leaders' own admissions that their policy of relying on the Big Business government to "control" prices is bankrupt.

MINNEAPOLIS, Minn., Aug. 22-A united abor movement stopped Fascist Gerald L. K. Smith from speaking last night in Minneapolis. More than 1,500 pickets from AFL, CIO and Railroad unions, along with members of veterans. Jewish, Negro and working class political organizations, including the Socialist Workers Party, rallied in

a fighting mass demonstration against America's No. 1 fascist leader. When Smith's goons assaulted several pickets outside the fascists' meeting place at the Leamington Hotel, the aroused workers stormed the meeting hall and routed Smith and his followers in a pitched battle.

Smith's talk was originally booked for the Hennepin County Republican club rooms at 703 Third Avenue South. Long before meeting time, an organized picket line was formed under the direction of Walter Frank, secretary of AFL Lathers Union, No. 190, and representative of the Minneapolis Central Labor Union,

who acted as picket captain. Assistant picket captains were Henry A. Schultz, representing the Brotherhood of Railroad Trainmen, Lodge 102, and Earl Cluka, financial secretary of United Electrical, Radio and Machine Workers, representing

# **Decontrol Board's Decisions Pave Way For Higher Prices**

The Price Decontrol Board, composed of two bankers and an industrialist, on August 20 released its widelyawaited decision on five basic food commodities; meat, cottonseed and soybeans, grains, milk and dairy products. Of these, only meat, cotton-®

back under ceilings - but with major concessions to the pricegougers. "Dairy products and grains, despite their soaring

prices, will remain uncontrolled. Immediately after this announcement, the OPA raised prices on fats and oils. It postponed the setting of meat ceilings to September 9, with the avowed intention of allowing dealers "to sell off the meats they have acquired at aboveceiling prices."

PACKERS THREATEN

While workers' families are being forced to pay top prices for meat still on the market, the meat packers are brazenly proclaiming their defiance of future controls. They threaten to divert supplies to the black market, as they did under the former OPA. And "they expect the pickings to be better than ever." as one New York meat dealer proclaimed

(See article on Page 3 and

Not that the profits of the meat packers are endangered! Far from it. Government subsidies, which went out with the OPA on June 30, are being restored. These will be paid by the consumers in taxes. In addition, price ceiling increases over June 30 are in preparation on beef, pork, veal and lamb.

"We have been promised some price modifications." Benjamin Rosen, preident of the National Meat Industry Counsel, announced on August 22.

# Yenan Mobilizes For War; Dutra Regime Suspends Press Of Brazil CP Wall Street Backs Chiang

### By Li Fu=jen

The civil war in China, in which the Kuomintang government is fighting to retain power in face of nation-wide rebellion against its continued rule, entered a new phase on August 19 when the Yenan government ordered a full-scale mobilization of its forces to.

meet the stepped-up offensive which Chiang Kai-shek has launched against the areas under Stalinist control.

Despite the intensification and widening of the conflict, Stalinist negotiators are remaining in Nanking, the Kuomintang capital, endeavoring to reach an agreement with Chiang Kaishek for the establishment of a coalition government and the institution of democratic reforms.

Wang Ping-nan, spokesman for the Yenan negotiators, declared that the Stalinists "have no desire to overthrow the (Kuomintang) government." The mobilization order issued by Yenan, he said, "was not a declaration of war. It was in no way a mobilization of troops, but merely a moral mobilization.' All the Stalinists want, he said, is "unconditional peace and a resolution of all problems ac-

Also, as editorial on August 18, urged inbroadcast from the Stalinist radio creased American military instation at Kalgan, in Inner Mongolia, the order "emphasized that not only troops but all of China's Communist population was being mobilized." (United Press dispatch, Aug. 19).

According to the latest estimates, the Stalinist-controlled areas now embrace a population of 130,000,000, Regular troops in these areas number 1,200,000, in addition to more than 2,000,000 guerrilla fighters under arms. Chiang Kai-shek's armies total some 8,000,000 men.

As a condition for forming a coalition government, Chiang Kai-shek demands that the Stalinists relinquish control of vital communications (railroad areas) in north China, that they "integrate their armies" with those of the Kuomintang, and "that the Communist Party change its policy of seizing power by mili-

Looking Forward To World War III

# THERE IS NO PEACE!

One year ago, on September 1, the Japanese Government signed the articles of surrender that brought an end to the Second World War. But there has been no peace since then.

Today, on the first anniversary of the close of the most terrible slaughter in all history, the capitalist rulers are preparing a still worse slaughter. They are jockeying for position in a Third World War that can mean the end of civilization and even the extinction of mankind. In China, Wall Street is feeding the flames of civil war. The Chinese people are gathering their forces to rid themselves of the hated, bloody, despotic regime of Chiang Kai-shek. But American imperialism wants to keep this dictator in power. Consequently Wall Street is throwing its vast financial, economic, and military power squarely behind Chiang Kai-shek in

the ever-widening civil war. In Yugoslavia, Wall Street has precipitated crisis of such tenseness that in any previous decade it would have meant the outbreak of war. Why were American planes flying over distant Yugoslavia if not to provoke an "incident"? Such incidents are used by the war-mongers to

and feeling the need of widening their base of popular support, the Stalinists are resuming their long-abandoned policy of land confiscation in rural areas entered by their armed forces, according to reports which this writer has received from China. This policy, while winning for the Stalinists new allies among the peasantry, is widening the gulf between the Stalinists and the Kuomintang by arousing revolutionary class warfare in other rural areas of landlordridden China.

In mortal fear of working-class uprisings in the cities, Chiang Kai-shek is cracking down on the trade unions, newly-arisen since the defeat of Japan. A United Press dispatch from Shanghai on August 12 said that government agents and police seized the offices of the Chinese Association of Labor in Chungking, a workers' hospital and two welfare centers built for the CAL from a fund of more than \$250,-000 contributed by the CIO and AFL. Twenty officials of the CAL tion squads and volunteer workwere arrested and held without charge. Similar seizures and arrests were made in Hankow and in Kwangsi Province.

#### APPEAL TO LABOR

Protesting these acts and appealing to world labor to come to the support of the Chinese labor movement. Chu Hsuehfan, president of the CAL, declared: "Labor's existence is in danger. The British attempted to conceal their own role in the conflict. At the height of the clashes, on August 17, an India Office spokesman in London said that the "matter was one for Indians themselves to settle, although of course British troops would help to restore order."

Already the capitalist press is filled with wild incitement for another war. "All hell could break loose at any minute," says the August 20 N. Y. World-Telegram. "This is a time to keep our powder dry."

And wide publicity was given atomic-bomb scientist Harold Urey when on August 18 he openly and brazenly advocated that the United States launch an immediate atomic war "before any other nation has atomic weapons."

In the year since V-J Day, the capitalist world has proved it has no other aim and no other perspective but a Third World War.

### **5-Year Plan**

Despite the Kremlin's attempts at secrecy, the Fourth Five-Year Plan reveals the crisis of Soviet economy. Comparative figures on the new and the preceding plans appear in the September issue of Fourth International. The statistics show tremendous gaps between the most elementary needs of the masses and even the most optimistic plans of the bureaucracy. And quotations from recent issues of Pravda indicate that the disparity, especially in agriculture, is growing at a desperate pace.

These figures illuminate Stalin's new purge. They show why the Kremlin clique cannot achieve stability. They deserve serious study by every Militant reader.

### Let Labor Beware!

The Nazis had no monopoly on atrocities. Here in the United States the storm troops of capitalist reaction show they are capable of bestial cruelty no different than that of the Nazis.

A description of one of the many recent Negro lynchings was made public last week by the National Association for the Advancement of Colored People. The NAACP investigators tell what happened in Minden, Louisiana to John C. Jones, 26-year-old war veteran.

"Jones was burned about the face and body with a blow torch after a horrible beating at the hands of the mob. The mutilated veteran's head had been struck repeatedly and his hands severed by a cleaver. The excessive heat and beatings caused his eyes to pop from their sockets."

We will spare the reader further guesome details of what the white ruling class is doing to terrorize the Negro people. It is being repeated again and again in the South-and in the North, as witness the murder of the Ferguson brothers in Freeport, N. Y., and the lynching of a Negro soldier recently in Seattle.

Who is really responsible for these atrocities? Are they just the spontaneous acts of "poor, ignorant crackers," as the capitalist press would have us believe?

The responsibility lies with the entire capialist ruling class of America and all its p

foremost an organized union struggle for wage increases.

The union militants must insist that their top leaders cease begging the government of the capitalists to "roll back" prices. Instead, the slogan of the hour must be: Reopen All Wage Contracts!

A real fight must be launched on the wage front. And not just for fixed wage increases that can soon be wiped out by further price rises.

The one demand that will give immediate and effective protection against steadily rising prices is for wages that rise automatically and in direct proportion to rising prices. Into every union contract must be written a clause for a sliding scale of wages that provides automatic wage increases, above a fixed minimum, for every increase in the cost of living.

### **Bring Them Home!**

The United States Marines held against their will in China have again managed to indicate in no uncertain terms that they want to come home. They succeeded in breaking into the ultra-conservative columns of Wall Street's mouthpiece, the N.Y. Times, with this demand. (See page 1.)

They were backed by Brig. Gen. Evans F. Carlson, who was stationed in China for many years. Carlson was widely publicized during the war for the spectacular activities of the Raiders under his command in the Pacific. At a mass meeting of veterans this authoritative military figure openly accused Wall Street interests of wanting the Marines held in China.

At first, spokesmen of the Truman Administration claimed the Marines were stationed in China to disarm the Japanese forces. When this excuse wore thin, Truman's propagandists claimed the Marines were needed to "guard' railway lines.

But Wall Street's real aims are more sinister.

First, Wall Street wants to prevent the Chinese people from ousting dictator Chiang Kai-shek. Huge quantities of war material have been turned over to this despot. His armies have been equipped with American-made arms. His officers have been trained in modern tactics by American instructors. American ships have been diverted to ferry his troops into strategic areas. And the American Marines in China have been stationed precisely where they can do the most good for Chiang Kai-shek.

Wall Street's second aim is preparation in the Far East for the war it plans against the Soviet Union. As the Army and Navy Bulletin blurts out, the withdrawal of the Marines would "be nothing more than the signal for Russia to extend its 'iron curtain' influence over the vast areas of the Chinese mainland." This double-talk constitutes the usual diplomatic camouflage that precedes war and that is designed to throw the blame on the "enemy."

Thus China constitutes a vast beach-head in Wall Street's blue print of the Third World War. In its drive to dominate the entire earth, Wall Street envisages the continent of Asia as a major battlefield. In preparation for this carnage, it insists on all-out manufacture of atomic bombs at home while holding the Marines in advance positions in China as pawns in the chess moves leading to the projected war against the Soviet Union.

"Goodness—just look at those Communists, feeding the Russian bears!"

# PAC's "Box-Score" **On 79th Congress**

- By Ruth Benson -

The CIO Political Action Committee (PAC) has published a "box-score" on the 79th Congress, whose election in 1944 the PAC leaders hailed as "a great progressive victory." This same Congress, PAC now shows, actually voted 92 per cent of the time against PAC-endorsed measures and for laws bitterly opposed by labor!

The PAC lists the voting records of every single Senate and House member on 12 issues considered most important by the CIO. The House chart includes the Hobbs "anti-racketeering" Bill which subjects unions to judicial frame-ups; the anti-labor Case Bill; Truman's veto of the Case Bill; the Dirksen amendment for state control of the U.S. Employment Service; the Patman Housing Bill; the Elliot rider barring farm workers from Wagner Act benefits; Atomic Energy Bill; the Un-American Activities Committee; and four OPA-crippling amendments.

The Senate chart substitutes Truman's Draft-Labor Bill, FEPC, the Minimum Wage Bill, British loan, and the vote to close debate on the poll-tax, for the Case bill veto, Dirksen, Elliot, Atomic Energy and Un-American Activities bills.

In both cases, the votes of individuals considered favorable by the PAC are shown by a plus sign; unfavorable votes by a minus sign; failure to vote, by a zero. Each chart is a sea of minuses, faintly broken by other symbols.

Revealing as it is, however, this "box-score" doesn't tell the whole story. PAC admits it "does not show how a Congressman or Senator voted in committee or talked in debate. It does not show whether he fought aggressively for or against a particular issue. or whether he merely went along. Frequently they play for the record in the same way that a ball player 'plays for the grandstand.'" Therefore, the total picture would be even worse than 92 per cent reactionary!

### What PAC Doesn't Tell

It is significant that nowhere has the PAC listed specifically the records of Congressmen the PAC supported for election in 1944. That's the "box-score" which would reveal the true results of the PAC's policy of backing candidates of the capitalist parties, Democratic and Republican.

For instance, take the Truman draft-strikers bill sored by a President. The measure was rushed through the House in 40 minutes, by a 306-13 majority. OF 90 CONGRESSMEN ENDORSED BY PAC IN 1944, ONLY 7 VOTED AGAINST THE BILL. Fifty voted for it; 33 were prudently absent. Two of "labor's friends," McCormack of Massachusetts and Voorhis of California, even fought for it on the floor! And the author himself - Truman - was PAC-endorsed in 1944. PAC's "box-score" doesn't even include this action!

Nor is PAC telling what its candidates of 1944 did on price-control, the biggest issue recently before Congress. It would like the workers to forget it endorsed Clinton Anderson, former Representative from New Mexico, who is now Secretary of Agriculture and fronting for the meat trust.

Here's the record of other PAC-endorsees on price control. Higher food prices were urged in the House by Engle and Tolan, Calif.; White, Id.; Traynor, Del.; Chelf and Bates, Ky.; Mansfield, Mon. Rushing to the aid of manufacturers were Harles of Ariz.; Kelly, Ill.; Gardner, O.; Hendrick, W. Va. And still others wanted a free-for-all - amendments to boost. prices and profits on everything. These included Bender of O.; Wasielewski, Wis.; Granger, U.; Boton,

litical agents, from the top Federal administration on down.

They are deliberately maintaining and fostering the Jim-Crow system. One of the main props of Democratic administration is the Southern white ruling class of rich landowners and industrialists. They exploit the Negro as a source of cheap labor power. They sow division and race prejudice among the Negroes and poor whites-the better to make profits from both.

Big Business in the North welcomes this system. The low standards of the South help to pull down wages in the North. Racial division is a mighty threat against unionism. It is the most sinister weapon in the arsenal of the capitalist-financed native fascists, like G. L. K. Smith.

The German Nazis started with the Jewsand ended by demolishing the entire labor movement. America's ruling class is starting with another oppressed racial minority, the Negro people! Let organized labor beware!

### **The Wage Front**

Just before the Price Decontrol Board issued its decision last week, the CIO leaders announced in a policy statement that: "We cannot accept a situation in which wages are frozen while the cost of living soars."

If this statement really means what it says, the CIO leaders would be urging a militant union campaign for higher wages.

<sup>1</sup> But they have put forward no such proposal. They have merely proclaimed the "need for immediate wage increases," while offering no program to win wage raises.

The actual program of the CIO leaders consists of repeated futile appeals to the Big Business government to "roll back" prices. At the same time, they are trying to divert the workers' discontent into useless actions like the "buyers' strikes."

This program is bankrupt. This was again demonstrated sharply when the Price Decontrol Board last week issued the latest government price rulings to aid the profiteers. The CIO leaders themselves denounce these rulings as maning higher prices then ever. (See story on Page 1)

If the CIO leaders do not organize and lead a real fight for higher wages, all their talk about "not accepting" frozen wages and higher prices is empty bluster.

The truth is they accepted this situation and will continue to accept it so long as they fail to fight for a program that can change the situation.

That effective program, as more and more CIO workers are coming to realize, is first and

In the struggle against Wall Street's war aims, the labor movement should back the Marines to the hilt in their wish to get back home.

Withdraw the troops!

### **Stalinist Treachery** In Palestine

New light has just been shed on the perfidious. double-dealing role of Stalinism in the struggle against imperialism in Palestine.

T. Cliff, Palestine Trotskyist and student of Middle East politics, reveals the full scope of the Stalinists treachery against the Jewish and Arab masses, in his article, "A New British Provocation in Palestine," published in the September Fourth International.

During the recent united Arab-Jewish strikes the Stalinists supported extreme nationalists in both the Jewish and Arab groups who were opposed to a united struggle against the British imperialists. Comrade Cliff writes:

""The Stalinists' habit of dragging after the 'nationalists' was displayed in its ugliest form during the last few days. While the Jewish Stalinists launched a struggle against the British White Paper and demand free immigration and settlement, one of their groups going so far as to join the world Zionist Organization, the Arab Stalinists sing laudations to the Grand Mufti, reactionary leader of Arab bourgeois nationalism."

In an article entitled "The Grand Mufti," Al- Ittihad, the Arab Stalinist weekly, wrote on June 23, 1946, in honor of the Mufti's arrival in Egypt: "Our struggling nation honors those who sacrifice themselves. The Arab nation in Palestine has shown vitality and faithfulness to its interests and those who work for them. Arab Palestine from end to end celebrated the good news . . . Arab Palestine expressed its feelings in its celebrations and demonstrations for every man who it is sure served his country faithfully."

The Stalinists support the Zionists, who aid British imperialism by opposing the rights of the Arab masses in Palestine. They praise the Grand Mufti, who aids British imperialism by urging a vast Arab slaughter of the Jews. This is nothing but double-dyed treachery to both the Jewish and Arab masses, whose only salvation lies in united struggle against their common imperialist oppressor.

#### that the "Marching Blacks" --all of them - should evacuate the South and move north. At the same time he admits that the "intolerant, anti - democratic, fascist prejudice concentrated in the South" is "spreading rapidly . . . into every section of America." Thus, he proposes an azsurd and impossible "escape." Powell's proposal is not the answer. The answer is to abolish

O.; Fernandez, New Mex.; Stewart, Boren and Wickersham of Okla. Yet from tabulations that reveal these devastating facts, the PAC draws only one conclusion - it

urges the workers to vote in 1946 for new "friends of labor" from the same capitalist Democratic and Republican parties!

The PAC leaders draw false conclusions from their own evidence. But more and more workers are drawing correct conclusions. The PAC evidence shows one thing: There are no friends of labor in the capitalist parties. Labor must build its own independent labor. party - Now!

"Who's Making All the Money?" is the title of an illuminating article by Boris Shishkin, AFL economist, in the August issue of the AFL American Federationist.

Shishkin takes up the arguments of the Big Business propagandists who talk about how "high" wages are in contrast to the "slim" profits of the capitalists. He shows with a wealth of factual proof who's making all the money - and it isn't the workers!

He first cites the findings of the Federal Reserve Board and Bureau of Agricultural Economics. These show that in 1945, when production was going full blast, 32,000,000 of the 42,000,000 families in the United States had incomes of less than \$3,000 a year; 12,400,000 had incomes between \$1,000 and \$2,000; and 9,300,000 families, representing 30,000,-000 people, had incomes of less than \$1,000 - an average of \$600.

He shows further that price rises, unemployment, loss of overtime and downgrading have drastically reduced even these incomes in 1946.

Shishkin reminds us that in making comparisons of wages and profits we should note that "wages are the wage earners' gross income before he meets all of his costs. Profits, on the other hand, represent the net income of a firm or corporation, after all of its costs have been met."

At the end of World War II, the top 30 per cent of the income brackets controlled 15 billion dollars of personal savings-70 per cent of the national total. "Between 1939 and 1943, average corporate profits rose 128.2 per cent" and "war profits remained at an extremely high level for five years."

Shishkin then shows the net profits of 446 corporations in the first three months of 1945 as compared to the first quarter of 1945. For industry as a whole, he reports, "here, for the period which was supposed to be the worst for American business, we find that for the majority of key industries profits after taxes are higher in 1946 than in 1945."

Shishkin's article tells what a union committee can answer a boss who says, "A wage increase? If I granted the wages you ask for, the increased cost would run me out of business." The workers can tell him "who's making all the money."

Flash! Staggering reports of inhuman working conditions imposed upon delegates at the Paris "peace" conference have finally leaked through the bunghole of official secrecy! The facts, long suspected by people on the inside, have been uncorked by delegate Jan Mas-

aryk, the Czechoslovak Foreign Minister, who blew his top when he realized that world peace was being endangered by the assembly-line pace at which delegates are driven.

Not since the Congress of Vienna (1814-15) have delegates been so overworked, said Mr. Masaryk, complaining that the total of official dinners, receptions, cocktail parties and other social functions have reached a head-splitting average of one and three-quarters parties a night! "Not even a debutante could stand it much longer," he gasped and then added, "It shows

### **Dutch Reader Tells How Anti-Labor Drive** In U. S. Affects All Editor:

It is of greatest interest that we in Europe should know what legislative measures have been brought into effect by Truman against the labor unions in case of strikes.

In my own circle, nobody could give a clear answer about the steps taken by the legislators -Congress and the Senate. You all know and are aware that what happens AGAINST the workers in the United States is an example for the European capitalist rulers. What was once the role of Germany for the ruling class, that is during the Hitler period, is now the role of U. S. big business and its antistrike legislation in every form. The prime role of U.S. economy makes it the experimental laboratory for action against the world proletariat.

From Dutch papers we could not 'extract information about this subject. Be so kind as to inform us about the matter. If you have issued pamphlets, leaflets, papers, etc., concerning this, please send them. Cordial greetings.

Hansen traced the history of the great leader of the working class, his heroic achievements, the unparalleled persecutions he suffered at the hands of the enemies of the toilers and oppressed peoples. "The whole course of Trotsky's life is a vivid graph of the development of the working class toward a new, socialist society. His ideas are today being borne out in the class struggle all over the world. His ideas will flame through the work+ ing class like a fire. His spirit will move along with the conquering ranks of the Fourth International."

Sylvia Blecker, SWP candidate for Attorney General in New York, spoke about her experiences in Minsk, her home town in Russia, after the October Revolution, during the period of the civil war and capitalist intervention.

"The waves of the revolution washed away all traces of prejudice and discrimination," she stated. "From all the corners of part of Trotsky's personal guard this city of 200,000, the working in Mexico. Where Profit Is Made By V. Grey

The capitalist makes no profit on the raw materials he buys. He makes no profit on his buildings, his land, or his machinery. He makes a profit only on the money he invests in labor power — the money he pays in wages.

That's why we call the money he spends on wages "variable capital." All the rest is "constant capital."

When \$100,000 is invested, say \$90,000 goes into constant capital and \$10,000 into variable capital. The workers get \$10,000 in wages. If they produce twice as much value as they get paid, then they produce a "surplus value" of \$10,000. They produce 100 per cent more than they get paid.

That's \$10,000 profit for the capitalist - a 100 per cent surplus over what he paid for the labor power. "But wait!" he says. He invested \$100,000, didn't he? And he only got a profit of \$10,000. So he made only 10 per cent, not 100 per cent. He figures his profit on his whole investment. It is not his fault that cold machinery and lifeless plants do not make profits out of themselves like rabbits, which come out of silk hats. He pays enough for them, he thinks. A good deal more than he pays for these troublesome laborers.

And what is the difference whether we say that the capitalist has made a surplus value of 100 per cent over what he paid the workers-or that he has made a 10 per cent profit on his whole investment? The sum of money, \$10,000, is the same in both cases.

First, it is more correct to say that a "surplus value" of 100 per cent has been squeezed out of the workers because it is a scientific description of what takes place. It strips bare the secret of "profits."

Second, it helps us understand the growth and decay of the capitalist system. It helps us to see why it takes more and more money to be a capitalist, as machinery and production grow ever larger.

When capitalism was young, a budding capitalist didn't have to own much capital to exploit labor. The tools of the laborer were still small-out of reach of the laborer's purse, to be sure, but within the reach of many a little capitalist. A capital of, say \$40,000 might be split in the following way: \$30,000 for materials, equipment and machinery; \$10,000 for labor. If the capitalist squeezed 100 per cent surplus out of the laborers there was a "surplus value" of \$10,000, exactly the same as in the case above.

Both then and now the workers might produce about the same value and surplus value. (They produce more things—that is, more use values today—but not necessarily more exchange value.)

The capitalist regards the surplus value produced by the workers, as the profits on his total capital. The capitalist of years ago who made \$10,000 on a total capital of \$40,000, figured he was making a profit of 25 per cent. But the capitalist today has to invest more than a \$100,000 to get \$10,000 in surplus value. For him this is only a, 10 per cent profit.

### **Declining Rate of Profit**

In other words, the more machinery comes into general use, the more constant capital it takes for normal production, and the lower the rate of profit on the total capital. And since this is continually going on, there is a constant decline in the rate of profit.

Now the capitalist is aware of this situation in a sort of way. At least he reacts to it. He can temporarily slow down the decline of the rate of profit by squeezing more surplus value out of the workers.

This can be done by lengthening the working day. But under modern conditions, the more practical method is to intensify the work-the speed-up and the stretch-out, con-

# What Becomes Of Surplus Value?

### **By Warren Creel**

The share the workers get out of the total value they produce depends on how strongly they bargain against the employers. It is often said that wages are controlled by the cost of living, and while that is not strictly true it is true in a loose way — through an indirect process. The cost of living influences the bargaining power of the workers, and through that the level of wages.

When wages go too low for living, the workers must refuse to take them. At that point their organization and action become strong, in spite of all the employers can do to oppose or mislead them.

This does not mean that wages tend to stay near a proper standard of living. We might say instead that wages tend to stay near a fighting standard of living, meaning a standard below which the workers are forced to struggle. Experience shows that this standard which forces struggle is below the proper living standard. The average wage refigure of the U.S. Labor Department's Budget of Health and Decency. Many studies of living levels have all shown the same thing: that wages tend to go up and down more or less in step with the cost of living, but they always remain below a decent standard of living.

Wages rise nearer to a decent standard when the workmore strength and raise the standard for which they can organize a struggle.

We have already sketched the process that controls the share the workers get. All the rest of what is produced in industry goes to the workers, and we call it "surplus value." We have seen that surplus value is going up with increasing productivity. What is the effect of this?

To answer that we must look at the working of the law

It is false to talk of an "inflationary prospect," for there is already in the United States a matured inflation. > The fact that capital has a "constant" part and a 'variable" part—the fact that these parts are changing their relations to each other-the fact that the rate of profit is declining-these facts lead to the ever more furious onslaughts against the working class. But even more important, they lead the capitalists themselves into a series of blind alleys which doom their own system.

Not that the capitalists are becoming poorer. But they become fewer-fewer and richer. A tremendously greater heap of constant capital is needed today to set labor, the value-creator, into motion. This leads to monopolies.

The ever-growing billions of constant capital and the declining rate of profit breed monopolies, economic stagnation and imperialist war.

Socialist Workers Party Candidate for U.S. Senator from New York.

Backing candidates of the capitalist political machines betrays the interests of the workers. This is the main lesson to be drawn from the results of the New York primaries. The Stalinist strategists who O-

control the policy of the American Labor Party made a "coalition" with Wall Street's political machines. This meant: (1) running ALP candidates in the Republican and Democratic primaries; (2) handing over the ALP line on the ballot to Wall Street politicians.

The ALP candidates took a terrific beating from the Democratic and Republican machines. Marcantonio, Baldwin, Connolly, and Powell were all defeated in the Republican primary. In the Democratic primary, Connolly and Geo. Rooney were defeated by a crushing majority. Marcantonio and O'Toole won by

# **TheOnlySalvation For The Jews**

### By Leon Trotsky

The attempt to solve the Jewish question through the migration of Jews to Palestine can now be seen for what it is, a tragic mockery of the Jewish people. Interested in winning the sympathy of the Arabs who are more numerous than the Jews, the British government has sharply altered its policy toward the Jews. and has actually renounced its promise to help them found their "own home" in a foreign land. The future development of military events may well transform Palestine into a bloody trap for several hundred thousand Jews. ### Diary Of A Steel Worker -Yesterday . . . And Today - By Theodore Kovalesky -

There comes a time when the anger dies. There comes a time when the fire burns out and the red embers turn black. It takes time, but it happens.

The moon was full, and the night was quiet. I sat on the back step smoking my pipe and thinking. The night was peaceful, and my pipe was just right.

Out of the darkness, sailing through the air like a bat, came the wail of an engine. You always hear them at

night when they pull the ingots to the soaking pits. It is a lonely sound, a sad sound, filled with memories of all kinds.

"Why do you say 'brother'?" It was a blond kid who asked. He was getting taller, and his eyes were serious as he asked the question.

"We call each other 'brother,' Joey, because we're all related," I said. "We're brothers because we need and want the same things, and we get together and fight for those things side by side, like brothers.

"You see, son," I went on, "the poor people all over the world are brothers and sisters. It makes no difference whether they're white like you and me, or colored like Mr. Brown and young Jimmy down the street, whether their grandfathers came from Poland like yours, or from Italy like Angie diRosa's. We all work in the factories and mines and mills or on ships, all over the world; and whatever our race or nationality may be, we're all brothers in the working class . .

Later on, the blond kid was a sandy-haired young man with broad shoulders poking at the seams of a sweat-stained denim shirt ... a young man, but a MAN!

"I just signed Dick Mahoney up in the union, dad." he said. "And look, I think you're all wet about calling that meeting for Tuesday. I was talking to Terry O'Day over in Emil's place,

It would certainly be handy if one could always

I drew on my pipe and almost felt his hand tugging on my arm that day the cops started shooting at our pickets, when Joey had pulled me out of the way. I looked up at the moon

and the light gray clouds. It was on a night something like this that he had said, "Say; dad, Helen and me . . . we're going to get married." \* The memory wasn't quite clear. Was he in uniform yet when he told me that? I couldn't recall. But thinking about the uniform, reminded me of one of our last talks. "I'm not getting into this with my eyes closed, dad," he had said when he was drafted. "You and I've known each other for a long time, and you've taught me a lot of things. I'm getting into this because I have to. They're drafting me, so I've got to go. But I know the real fight is back home in the labor movement. You keep punching, dad, and when I come back again, I'll be in there swinging along

side of you." Yes, he went with his eyes wide open. He felt no hatred for the German and Japanese workers who had been forced into uniform like him. He had learned that all workers are brothers and he longed to come home again to reenter the common fight.

They drafted him, and God knows what happened. The telegram only said "missing."

A furnace roared over in the plant, and the sky was tinged with orange. I thought of all the other kids that had gone away and hadn't come back. The anger dies in time. What is done is ione, and anger can't change it. It takes work to change it, long, hard, disappointing work like organizing a union in bad times. "But we'll do it," I muttered aloud. "Yes socialism, peace and plenty for all, can be won if we work and fight for it . . . and we'll do it." That's what I was thinking when Mary came

Here are a few examples of Tobin fakery from an editorial in the August issue of The International Teamster:

"The right way to reduce living costs is to buy less and produce more. That means staying on the job. It means reducing your purchases of everything to the absolute minimum.

"Buy as little food as you can get by on. Buy no clothes if you can put a patch on an old suit or an old shirt and make it last a little longer.

"Drive the old car a few thousand miles more or ride the streetcars . . . Make the old rugs and carpets do, no matter how thin or ragged . . . It would take a lot of "truth serum" to make a confirmed liar like Daniel Tobin tell the truth

than \$20,000 per year from our union for some time. Are you wearing old suits and old shirts? Give it to us straight, Tobin! You don't have any intention of putting any patches on your suits or shirts, do you?"

'And what about this rug deal, Tobin, Are you shuffling around on 'thin, ragged' rugs? You bet not! You live like a king, don't you?"

"So, come clean, Tobin! You're giving us this hypocritical advice 'to buy less and produce more' just so you won't have to fight for higher wages for the teamsters. Isn't that true?'

If Tobin had enough "truth serum" in him. he'd have to admit that all these charges are true. Yes, indeed, this "truth serum" would be a mighty handy thing for workers, who have to deal with labor fakers like Daniel Tobin!

the 17th Congressional District of New York by supporting one of the capitalist candidates in the Republican primaries.

First the ALP nominated Rep. Joseph Clark Baldwin as its own candidate. Then the ALP endorsed Baldwin to run in the Republican pramaries against Frederick Coudert.

The Stalinist strategists who determine ALP policy did not do this through ignorance of Baldwin's views. They knew from the beginning precisely where he

Thus Marcantonio, A.L.P. chairman, admitted July 9 that Baldwin "is by no means a laborite or a liberal, but definitely an honest and patriotic conservative." To underline how well they understood that Baldwin is against labor and for the profiteers, they acknowledged he had long been "a sincere defender of free enterprise."

Just to make everything double sure, Baldwin gave the Stalinists fair warning like any honest, conservative rattlesnake, emphasizing July 10 that he "was a Republican who believed the only hope for national liberalism lay in the Republican Party.'

Nevertheless, the Stalinist strategists put their label, "Labor-Backed Candidate," on this Wall

was a lesser evil, more "progressive" than the other capitalist candidate, Coudert. The Stalinist rank and file dutifully rang doorbells to get out the labor vote for Baldwin. But the workers saw no reason for participating in a primary of Herbert Hoover's party. By a 5 to 1 vote the Republican machine nailed

Baldwin's hide to the wall. Baldwin's ALP nomination was still good of course.

Baldwin's loyalties, however, belong to Wall Street. With all the viciousness of a rattlesnake that has been stepped on, he struck at the Stalinist strategists who had made a "coalition" with him.

"Under the law," said this Republican "progressive," "there is no way for my name to be taken off the American Labor Party ballot, but I will not, in fact, be a candidate. I urge my many friends . . . not to vote for me, but to cast their votes as they think best for the candidates who, in their opinion, will best represent their views."

Paralyzed by this load of political poison, the Daily Worker was only able to gasp seven short despairing words: "One liberal, Rep. Baldwin has been eliminated."

The political moral of this experience is clear. If you don't want to get bitten, don't try to make a "coalition" with a "progressive" rattlesnake.

such incidents in this land of the "Four Freedoms.'

What about the Negro veterans down south who are refused their \$20 weekly unemployment allowance because they can get work picking cotton at half that amount? Or how about the million Negro vets who have been denied education? The magazine Ebony reports that 13 out of 14 Negroes are refused admittance into trade and vocational schools. The veteran who finds himself homeless and jobless and deprived of educational rights is just as effectively lynched as the veteran who suffers physical attack by a white mob.

The campaign of the capitalist-backed Ku Klux Klan to "put the nigger in his place," must be answered by the labor movement, the veterans and the Negro people.
