LYNCHERS NAMED BY NEGRO VICTIM Allied Powers Restore Greek King Known Murderers At Large But Officials Do Not Act

# Hated Tyrant Gets Back Throne **Through Hitler-Style Plebiscite**

Allied military force reinstated the despotic Glucksberg dynasty in Greece last week-end. The farce was masked by a plebiscite to give the illusion the Greek people want this wretched puppet of Anglo-American imperialism. But long in advance of the "voting," the return of George II had been set for September 14.

Ousted once before and exiled for 11 years, this hated despot was put back on the throne in 1935 through a similar rigged election. In plebiscites the re-gime rounds up the population Intensify Drive for 11 years, this hated despot and forces them into the voting booth. Whoever votes against the regime is a marked man. Dictators consider plebiscites one of the most cunning means of "proving" they represent the people. Hitler, for instance, periodically staged plebiscites.

After the 1935 plebiscite, George II put the bloody Metaxas dictatorship in power. Terror of the war. When the Nazis entered, George II fled.

# **Price Ceilings On Meat To** Hit New High The Truman administra-

tion last week gave another of meat and other foods.

Secretary of Agriculture Anderson, who has unrestricted Colored People, the youth who power to fix meat price ceilings, granted new livestock prices that will raise beef 15 per cent and pork more than 8 per cent above the June 30 ceiling prices. The workers' food budget is evaporating while Washington throws ever fatter profts to the big meat packers and ranchers. .

except oranges and bananas, were freed from price control by Anderson. Many canned and frozen fruits and vegetables also were decontrolled, together with many other items, including wool, hay, gum resin, peanuts and peanut oil products. These are heaped on top of thousands of items already decontrolled. BLUNT STATEMENT

A blunt statement that price control over dairy products will not be restored was made by Roy . Thompson, chairman of the Price Decontrol Board. He contemptuously dismissed misleading contrary statements by OPA officials with the remark that all such decisions were within the Board's province. "Any statements from any other source whatsoever are merely suppositions or speculation and should be treated as such," he pronounced.

that meat prices would be "rolled back" to "near" June 30 levels

PRICE: FIVE CENTS

When a gang of white lynchers at Minden, Louisiana, murdered John C. Jones. 28-year-old Negro veteran, they also left for dead another victim, Albert Harris Jr., 17-year-old Negro youth. That was on August 8.

Last week, Albert Harris "returned from the dead" to name at least five of the killers who tortured Jones to death and Albert Jr. were released from

# Big Akron Locals To Advocate Sliding Wage Scale Red-Baiters Ban Program At CIO United Rubber Workers Convention Phila. CIO Body

# **Bu Milton Alvin** (Special to The Militant)

AKRON, O., Aug. 29-The eleventh annual convention of the CIO United Rubber Workers of America will convene in San Francisco on September 16. This will be the first convention of a large CIO union since the end of the great strike wave, the breaking of the railroad strike by Truman and the recent quickening pace of runaway prices. It will be the first opportunity for a CIO union convention to come to grips with the pro-?

found social problems that with a great deal of support in now face the American the convention. The rubber inworkers.

The major issue that will face the delegates will undoubtedly be cases leaders of their locals. wages and prices. The three powerful Akron locals and several of the other larger URWA locals have already served notice that they are in favor of reopening the Big Four Wage Agreement (Goodyear, Goodrich, Firestone and U.S. Rubber) in order to obtain a rising scale of wages escalator clause on an industry-wide basis. Akron Goodrich Local 5 has led the way in the fight for the escalator clause, followed by Akron Firestone Local 7. The majority of the Akron Goodyear Local 2 delegates are pledged to support them and Firestone Local 101 of Los Angeles has also adopted a cals against Local 5 by pushing resolution in support of the escalator clause.

### WAGE CONFERENCE

The pressure of these locals has compelled URWA President Buckmasten to call a wage conference to be held during the convention. Buckmaster has not committed himself to the reopening of the Big Four agreedoor on it either. The Big Four agreement, entered into last spring with the Goodrich. Fireber companies, provides that the wage question can be re-opened "any time economic conditions warrant."

A strong resolution supporting the formation of a labor party passed by Goodrich Local 5 will come before the convention. The economic gains won by the workers in bitter struggles over a period of many years are now in danger of being completely wiped out by government action. The policy of the PAC is to continue support of candidates of the of the United Rubber Workers Democratic and Republican par- will not allow this kind of a "friends of labor." This is getting across. If any strike should oconly meager support from the cur, it should be over the paraworkers. What is needed is an in-dependent labor party and a mount question of protecting the workers' standard of living program designed to further the against the inflationary attack.

dustry employs a large number of Negro workers. They are good unionists and in many The Stalinist hatchet - man. Organizational Director H. N. Eagle, has continued his campaign of slander against the largest and most militant locals in the international. His strategy of trying to pit the small locals against the large ones proceeds unabated. Typical of this is the recent attempt of Eagle and Vice-President Lloyd to maneuver the Goodrich locals into a strike over second and third-rate questions in what is an obvious scheme to discredit the leadership of Local 5.

FACTIONAL MANEUVER Eagle and Lloyd are trying to line up the small Goodrich lofor a strike over such questions as an insurance system and a hair-splitting difference over the union shop. It is clear that

these small-time politicians are trifling with the future of the union for narrow factional purposes

They hope that if Local 5 refuses to go along with an illment, but he has not closed the advised strike, they will be able to say to the small locals that they were "sold out." On the other hand, if the strike should stone, Goodyear and U.S. Rub- take place, it would probably be of long duration and would leave the membership confused because of the unimportant nature of the issues and would thereby weaken the leadership

of Local 5. This flagrantly irresponsible maneuver underlines the need to clean out the Eagles and Lloyds, and to give the international the kind of militant leadership which characterizes the Akron locals.

The more responsible leaders falsely labelling them shameful maneuver to be put **Police Attack NMU Pickets**

elements.

The action of Block's group is preparation for the forthcoming UE national convention. It also involves a battle for the presidency of UE District 1, an office now held by Block. The logical contender for Block's district post appears to be James Price. business representative of UE Westinghouse Local 107, who has a long record as a militant and progressive union leader.

actionary and more backward

# REPERCUSSIONS

The action of Morris Muster, who recently resigned as president of the CIO United Furniture Workers with a bed-baiting blast against the Stalinists, also has had repercussions inside the Philadelphia CIO. George Bucher, former president of UFW Local 37 and CIO Council secretary, has been filling the local capitalist press with anti-communist attacks. As a result of the red-baiting policies of Muster. Bucher and their group, a section of the furniture workers, including 16 locals nationally, has been misled into splitting from the CIO and joining the AFL. In order to be in a position to continue his wrecking tactics, Bucher resigned as president of the UFW Local 37, while remaining business representative of the CIO Hotel and Restaurant Workers and Philadelphia CIO Council secretary.

dustry.

interests of the working people. PROGRAM NEEDED

The six-hour-day question will be heatedly debated at the convention. Despite the fact that the Grand Rapids convention last year adopted a resolution in the six-hour day, the international officers have in some cases authorized contracts providing for an eight hour day. Progressive elements in the union are determined to push for an industry-wide master contract which will provide for the six-hour day throughout the entire industry.

### VETERANS' PROGRAM

### AIDED REACTION

The policies of the Stalinist leaders have aided the reactionaries. During the war, the Stalinists worked hand-in-glove with the reactionaries against the

militants. The Stalinists were the leading red-baiters against the Trotskyists and other genuine defenders of the workers' interests. At the same time, the antidemocratic methods of the Stalinist union leaders have justly earned them the hatred of wide sections of the union rank and file. The red-baiters are trying to capitalize on this anti-Stalinist sentiment for their own reactionary ends.

The workers have legitimate grievances against the Stalinists. who must be opposed with a real program of militant union action and democratic policies. But despite these justified grievances. the workers must not permit themselves to be used by reactionary union officials whose final aim is to purge real mili-

tants and progressives from the CIO.

THE MILITANT

# By The Editors

in Palestine?

The problem is essentially one of freeing that unhappy land from the cruel grip of British imperialism. British colonial rule is maintained in Palestine, as throughout the rest of the Empire, by the methods of force and violence.

During centuries of colonial conquest and domination, the British imperialists have acquired a diabolical skill in inciting bloody fratricidal war among their colonial slaves, thus dividing them and insuring their continued subjection.

They set Moslems against Hindus, Arabs against Jews, and then point hypocritically to the terrible consequences that ensue as justification for continued British rule. These colonial peoples, you see, are not fit for self-rule. They need the protection of British arms. They need the wisdom and the "guiding hand" of the benevolent British "arbiter" who impartially oppresses and exploits all the nationalities and religious groupings of the vast Empire.

The London conference called for September 9 to deal with the Palestine problem is the latest move of the British overlords to perpetuate their rule in Palestine. Those invited to the conference-the Arab League and the Jewish Agency for Palestine (Zionists)-are playing out their role like well-rehearsed actors in a somber tragedy.

The Arab League, which is the federal body of the British puppet governments in all the Arab states, declared that it will not sit in conference with the Zionists. It is prepared to meet with the imperialist oppressors of the Arab people, but not with the Zionists. The Arab Today they are "protecting" the Arabs against Jewish in- Palestine by sanction of the British imperialists, and under leaders thus make it appear that the Zionists are the main enemy of the Arab people.

will reject the British invitation to the London conference ples. Everything and everybody is fair game for the profitbecause of "British insistence on making a discussion of hungry coupon clippers in London. Heedless of the number the Morrison plan for a federated Palestine the first item of victims, they hold to their bloody imperialist course. on the agenda." The Zionists are concerned above all else

with unrestricted Jewish immigration into Palestine, but place, and regardless of Arab or Jewish participation if it is oppression of both the Arab and Jewish masses. By try to achieve it by flouting the wishes of the Arab masses the bankrupt policy of allying themselves with the imper- is ruled by the British overlords. ialists against the Arab masses, in the illusory hope that they will be able by this means to establish Jewish sovereignty in Palestine.

Reporting directly from Palestine, the Trotskyist writer, T. Cliff, makes the following pointed observation on the role of Zionism:

"In the incitement of national hatred imperialism is fully assisted by the Zionist movement, despite the friction between them. Thus, for instance, in these very days, a picket of some scores of Zionists is posted at the entrance to the Arab market beside Tel Aviv to prevent Jews from buying Arab products. The beating of Arabs, throwing of to offer their wares to Jewish customers and similar acts are everyday occurrences. The demand of the Zionists for a Jewish state is but fuel on the fire of imperialist provoca-

tion." (Fourth International, September 1946.)

The anti-Jewish chauvinism of the Arab League thus Zionists. The British imperialists lord it over both and direct their violence alternately against the Arabs and the war against the Arabs. They killed thousands, imprisoned tens of thousands. "Every fifth or sixth adult spent some out entirely in bombardments," Cliff reports.

Today the British are waging war against the Jews. filtration into Palestine. Just as in India, they are fomenting communal conflicts as a cold-blooded tactic to preserve The Jewish Agency for Palestine has intimated that it their own domination over both the Jewish and Arab peo-

All sorts of politicians, from President Truman down, have shed crocodile tears over the bitter plight of the European Jews, just as the members of the present British "Labor" Government did before they took over the running of the British Empire. The plight of the Jewish people is indeed tragic. They suffered indescribably during the war. It is estimated that a total of six to eight million Jews were exterminated in Europe. The fascist scum who spread the propaganda that World War II was fought by the "democratic" imperialist powers in behalf of the Jews, now have the satisfaction of seeing the pitiful remnants of the Jewish people held in camps for "displaced persons" in petrol on the products of fellaheen (peasants) who dare Europe or dumped into British concentration camps on the island of Cyprus.

Anyone who offers Palestine as the solution for the plight of the Jews without recognizing that the first task in Palestine, and throughout the Near East, is to break the despotic grip of British imperialism, is offering no soluhas its counterpart in the anti-Arab chauvinism of the tion at all. What is needed — and nothing short of it will suffice — is an implacable struggle to oust the imperialist slavedrivers, a joint struggle of both the Arab and Jewish Jews. In 1936-39, for example, the British waged a major masses against a common enemy in a common cause.

The Jewish people and the Arabs have a common interest in expelling a common oppressor and this furnishes a time behind bars in those days. Whole villages were wiped basis for unity of their forces. The cry of the Zionists for free Jewish immigration into Palestine must be viewed in the light of this pressing need. Jewish immigration into their control, will only strengthen the hand of these violators and plunderers.

By addressing to the British Government the demand that Palestine be thrown open to Jewish immigration, the Zionists continue to recognize and endorse British imperial-Whether or not the London conference actually takes they are willing to serve the British as tools in the imper- people be admitted to their countries.

does, one thing is abundantly clear: There can be no this action, too, they exacerbate Arab hatred of the Jews What is the real solution for the Arab-Jewish problem and by agreement with the imperialists. They continue solution to the Palestine problem so long as the country and render all the more difficult a solution in the interests of both.

> The imperative need is to rally both Arabs and Jews around the slogans of "Self-determination for Palestine!" "Withdraw the British Troops!" "Let the Arab and Jewish Masses Decide Their Own Destiny!"

United, the Arab and Jewish masses can expel the imperialist violators. In this struggle an unbreakable unity would be forged, racial and national passions would be dissolved. Jewish immigration into a FREE PALESTINE would benefit both Jews and Arabs and could be peacefully arranged by mutual agreement.

That Arab-Jewish unity is possible has been demonstrated in the united strike struggles of Arab and Jewish workers and by the emergence in the Near East of a socialist, anti-imperialist workers' movement. Just as in this country the Negro people and the national minorities must look to the working class, and to the unity between them that is forged in the fire of the class struggle, as the solu-" tion to Jim Crow and racial discrimination, so in Palestine the solution lies in the unity of the Jewish and Arab workers and peasants - DIRECTED AGAINST BRITISH IMPER-IALISM.

Since both the Zionist movement and the Arab League are the native bourgeois tools of British imperialism, the masses must break from these treacherous organizations and forge a new fighting instrument, a new revolutionary Marxist party that will unite them politically for a fight. to the finish against all their class enemies.

To save the many thousands of Jews now forced to migrate, we repeat what we have said many times before in our editorial columns: OPEN THE DOORS OF AMERICA TO THE HOMELESS JEWS! This demand must be taken up and pressed by organized labor in America. Workers in ist rule over the country and demonstrate once more that other lands must likewise demand that these homeless

# **Eyewitness Account From Greece Tells Crisis Leading To Plebiscite**

### By Jean Paul Martin (Special to The Militant)

ATHENS, Greece, Aug. 23-A totalitarian dictatorship is strangling Greece with the blessing of the British Labor Government. The defeat suffered in December 1944 by the popular masses in their struggle against Greek reaction and British imperialism has ®

been followed by a counter- | to sell clothing, furniture, everyrevolutionary offensive.

December 1944 gave the Greek capitalists a foretaste of the proletarian revolution. The popular masse, held out for more than six months against the Britishbacked forces of reaction.

etc. have flocked to the banner of Colonel Grivas.

Various bands are operating in the countryside. Composed of former soldiers in the reactionary Greek army and white partisans, they plunder the peasants, terrorizing whole regions. They swoop down from the mountains, round the village population into the public square, torture selected victims, and often execute them before the eyes of their families.

In July, the Athens papers taily printed stories about the different chiefs of such bands." among them the notorious "Captain Vourlakis," rabid supporter of King George II.

## MANHUNT

The government itself is honevcombed with men once on the the Gestapo and the Ovra. Ho'ding down important positions in the police force, the army, and justice they participate in the relentless manhunt for combatants in the Greek "Resistance," members of the EAM and ELAS. This manhunt extends to all KING GEORGE 'democratic" and "anti-monarchist" elements. At the head of the police and the army are the "liberation," they are faced

# **Two Faces Of Stalinism On Arab-Jewish Problem**

"Let not thy left hand know what thy right hand doeth." This Biblical admonition is being applied with great zeal by the Kremlin. Thus the American Communist (Stalinist) Party and the Arab Communist (Stalinist) Party have diametrically opposite positions on a question of great importance to the Jews and Arabs.

In an article praising "The Grand Mufti," the Arab Stalinist weekly Al-Ittihad, declared in the June 23, 1946 issue: "Our struggling nation honors those who sacrifice themselves. The Arab nation in Palestine has shown vitality and faithfulness to its interests and those who work for them. Arab Palestine from end to end celebrated the good news (of the Mufti's arrival in Egypt) ... Arab Palestine expressed its feelings in its celebrations and demonstrations for every man who it is sure served his country faithfully. In these expressions the nation provides us with a great lesson that it does not pay attention to words but honors deeds and glorifies and honors their doers. Our nation has proved that it has not forgotten nor will forget those who struggled, passed through trials and made sacrifices for their homeland."

The August 28, 1946, Daily Worker printed a car-

# **Export Democracy**

When MacArthur landed in Japan, Wall Street's spokesmen proclaimed his main job would be to "democratize" this imperialist power.

MacArthur was pictured as a knight in shining armor who would begin by unseating the Mikado as a relic of medieval times.

Next he was scheduled to destroy the economic and political power of the giant family trusts that spread through Japanese society like an enormous octopus.

On top of this, MacArthur was to renovate the feudal structure of Japan, removing the foul remnants of an outlived system that doomed the peasants to unbearable toil and poverty in the service of hereditary landholders.

To make the job complete, MacArthur was to bring democratic rights to the labor movement, giving the workers the right to organize and bargain collectively.

A lot of people were taken in by this rosecolored propaganda. It seemed to bear out the glowing promises of the Allied propaganda departments about the Second World War bringing the "Four Freedoms" to the oppressed of the entire earth.

Wall Street's real aims in Japan are now becoming apparent. They have the ugly look of reality-not promises.

MacArthur made concessions to the toiling masses of Japan only to delude them and sidetrack them from carrying out a social revolution on the pattern of the November 1917 revolution in Russia. Now he is coldly, carefully, and calculatingly strengthening the capitalist structure that plunged Japan into the Second World War.

# Wallace's Advice **On The Elections**

By Ruth Benson

Henry A. Wallace, wailing over the defeat of some favorite "progressives" in the recent primaries, tells in the pages of The Nation, August 31, "How to Elect a Progressive Congress." His advice, boiled down, is: get the Republican Party "progressives" into the Democratic Party, and keep a Democratic Party majority in power.

"I have always contended." he says blandly, "and the votes in Congress prove, that on most issues involving the general welfare the majority of Democrats vote right and the majority of Republicans vote wrong.'

Of course there's the question of what Wallace considers "voting right." Supporting Wall Street's profits and power naturally comes first - he considers a vote for universal compulsory military training a vote for "progress." On other issues he's not rigid.

For instance, among his Democratic Party "progressives" are Voorhis of California, who spoke for Truman's draft-labor bill, and Sparkman of Alabama'who backed the Case and Hobbs Bills. Among the Republican "progressives" he wants to win over, are Bennett of New York who also voted for both the Case and Hobbs Bill-and Baldwin of New York, who proved his "liberalism" by repudiating the American Labor Party nomination in New York.

Although most workers would call this confusing, Wallace avers that "we are nearing the happy time when we can have some assurance that if we elect a candidate of one party we will have a vote in Congress for conservatism, and if we elect a candidate of the other we will just as surely have a vote in Congress for progressivism." That "happy time," we were formerly assured, had already arrived in '32, '34, '36, '38, '40, '42 and '44. The truth is that in either case we would be sure to have men who vote for Big Business.

Wallace wistfully asks the Republican Party "progressives" to come into his fold because "the Republican Party will only break the hearts of those who conscientiously seek to use it as a medium of progress." Perhaps, though, like Wallace — who. gets kicked around considerably in his own party-the Republican "progressives" 'are not overly conscientious ,and are gifted with shatterproof hearts. At any any rate, they show no signs of grabbing Wallace's outstretched hand.

# More Than Side-Show

All of this might appear to be just an amusing side-show. But Wallace is serious. He's worried about how to corral labor's vote for the capitalist politicians in the November elections. "Our most immediate danger," he warns, "is a light vote"which would show that workers want no part of either the Democratic or Republican parties, no matter how many fake "progressives" enter the race. Wallace is not alone in his efforts. The CIO Political Action Committee, and the top leadership of the labor movement, are desperately trying to keep labor chained to the two capitalist parties. One of their methods is to build up Wallace, the "friend of the common man," and ballyhoo just such proposals as this one. They hope in this way to 'coax labor to stay off the path of real independent political action, the road to a genuine independent labor party.

But Wallace is no friend of "the common man." He is Wall Street's Secretary of Commerce. In private circles he frankly describes himself as "the representative of business in government." His "liberalism" is a mask to put on when he speaks to the "common man."

"Representatives of business in government" are no more help to labor in politics than are company stooges in trade unions. Labor needs its own men, to carry out its own program in the halls of Con-

# -Leon Trotsky

The Mikado remains. Films that undermine the authority of the monarch are ruthlessly banned by United States censors.

The family trusts remain. The order for their dissolution proved to be so much hogwash.

The feudal vestiges remain. Wall Street did not have the least intention of removing them by surgical measures.

And the labor movement is now being hogtied by an order threatening the use of American troops if workers strike. A military decree like this is patterned after the decrees of Hitler and Mussolini!

Wall Street's aims in Japan are thus shown to be the same as those of the British in Greece. They are: bolster reaction, stamp out any tendencies leading to a major social change, cripple the labor movement, line up all the forces of reaction as an auxiliary force in the projected Third World War against the Soviet Union.

This is the reality!

The promises to "democratize" Japan were lies!

# Labor's Program

In their Labor Day statements, both CIO President Philip Murray and AFL President William Green were impelled to make bitter complaints against Congress for its aid to the price-gouging profiteers and its blows against organized labor.

But neither of these self-styled "labor statesmen" turned to the workers with a positive program of organized union action to defend the workers' standard of living and defeat capitalist political reaction.

While these top union leaders offer only plaintive appeals to the capitalist government, the union ranks are beginning to push forward their own program.

It is the program that will be introduced by leading Akron rubber union militants at the forthcoming CIO United Rubber Workers convention. If their program is adopted, it will be an historic step forward for American labor. The two chief planks of the Akron rubber

militants' program are:

For a sliding-scale escalator wage clause in all union contracts to provide automatic wage increases to meet every increase in the cost of living;

For the building of an independent labor party based on the trade unions.

These are the two slogans which embody the

The only real Labor Day the workers can have is a day they take for themselves, a day of dedication for struggle, a day for the strengthening of international working class solidarity. That day has been and will remain -May Day.

only realistic and effective answers to the ag-

gravated problems that face all labor today.

incomes of the workers. The capitalist govern-

ment, controlled by Wall Street's Democratic

and Republican parties, is spearheading the tremendous anti-labor drive of Big Business.

Against the bounding rise in the cost of

living, the top union leaders offer only a pol-

icy of begging the profiteers' agents in govern-

ment to "roll back" prices. The union militants,

like the Akron rubber workers, propose an ef-

fective struggle on the wage front for a sliding

scale of wages that will really protect living

The top union leaders still propose to play

ball with the capitalist parties and politicians.

But the union militants want to build their

# **Anti-Lynching Law**

the gospel of class collaboration.

Dozens of known bestial murderers are today strutting the streets of American towns. They include white deputy sheriffs, rich plantation owners and other race-hating scum who are conducting a lynch war against the Negro people in the South.

These sadistic butchers, who try to hide behind the anonymity of a mob, have committed crimes of murder and torture as revolting as anything perpetrated by the Nazis. And every week their crimes are mounting in number.

But these cowardly killers of helpless Negro victims do not fear the "law." They themselves are the "law." Who will bear witness against them in their own communities? What local officials will arrest them? What court try them, 'what jury convict them? None!

For they are the "law enforcement" agents, the officialdom, the courts, the juries. They are the white ruling class that dominates the poor whites as well as Negroes in the South.

Their murderous violence has flared into greater savagery than ever in the postwar months because of the new spirit of independence of the Negro people.

Southern Negroes are demanding the right to vote. They are joining unions. And the returned Negro veterans aren't stepping off sidewalks for any drunken white who comes along.

The lynch war of the white ruling class minority is incited by Democratic politicians. like the Talmadges, Bilbos and Rankins, who spew their poisonous race-hate doctrines from high public office.

Even where the lynchers are known-as in Georgia and Louisiana-the federal administration fails to act. It makes a pretense of "lack of authority." But that pretense must be stripped from the federal government.

The American labor movement must demand that the federal government take full responsibility for putting a stop to the atrocities against the Negroes. Labor must launch, in cooperation with the Negro and civil liberties organizations, a vigorous, fullscale campaign for a federal anti-lynching law. Make the federal government responsible for halting the vile lynchers!

riod. FOE OF SLAVERS Stevens was a man cast in the mould of John Brown-an implacable foe of slavery and the slavers. The southern Bourbons of his time recognized in sent a true history of the Civil him a foe with whom no compromise was possible. He was individuals like Stevens. It goes without saying that he

Max Geldman

Twenty-six American fascists, indicted in 1944 in a mass "sedition" trial which petered out after eight months, are now about to go scot free, according to the August 27 PM. A mistrial was called following the death of Judge Edward G. Eicher during their trial. These 26 notorious native fascists include the loud-mouthed, race-hating, antilabor Joe McWilliams, Elizabeth (Liz) Dilling and

Edward J. Smythe. The 26 were not prosecuted because of their long and infamous labor-baiting and race-hating record, in which they tried to ape Hitler. They were premature in their aspirations to provide Wall Street with armed gangsters against the labor movement. They were indicted because the Wall Street imperialists were at the time conducting a war against the Nazi imperialists. The 26 embarrassed the Wall Street government in its efforts to deceive the American workers that they were fighting and dying in a war "against fascism" and "for democracy." But while this fake "trial" was petering out, a

very real trial, with all the fury that Wall treet can muster, was going on against 18 leaders and militant fighters for the working class. The 18 were members of the Socialist Workers Party (Trotskyist) and leaders in the CIO movement.

The charges leveled against the native fascists and the Trotskyist leaders were the same: "Conspiring to undermine morale and cause insubordination in the armed forces." These charges were only a legal pretext and deliberately designed to fool the workers about what was really involved.

What the Trotskyists were really imprisoned for was their revolutionary program. They were hated by Wall Street and its government for charging and proving that World War II was nothing but an imperialist war from which Wall Street would profit; from which the workers had nothing to gain. They were hated because of their long years of militant struggle in behalf of the working class. Many of them came from Minneapolis, scene of heroig struggles against the bosses in which the Trotskyists led the workers to great victories.

Wall Street's government, which is quietly ending the case of the 26 fascists after a fake trial, sent the 18 Trotskyists to prison. They hoped to silence the voice of working class truth. But in this they failed. Labor and progressive organizations representing almost six million workers came to the defense of the eighteen. They protested the imprisonments and demanded the release of the 18.

Today; two of the 18 who were imprisoned are running for public office in the fall elections; Farrell Dobbs as SWP candidate for Governor of New York and Grace Carlson, only woman among the 18, for Senator from Minnesota. Despite persecutions and imprisonments, the Trotskyists are still in the forefront of the struggle for the working class.

ast night. The audience had ner, "not to weep over the death of Leon Trotsky deep though our sorrow may be, but rather to honor the memory of this great man."

Comrade Karsner, a member of the National Committee of the American Committee for European Workers Relief, gave an inspiring account of Trotsky's life. So strongly did Trotsky regard his ideas that his last conscious thought must have been, Comrade Karsner said. "They have murdered me

but they cannot kill me." Comrade Rita Victor, organizer of the Socialist Youth Club, youth section of the Socialist Workers Party, voiced vouth's opposition to the Third World War now being prepared by the capitalists. She discussed the meaning of Trotskyism to the youth.

The main speaker, Murry Weiss, spoke on "Trotsky and the American Socialist Revolution." He pointed to the swift and dynamic development of the American working class in the great sit-down strikes of the last decade, and the rapid growth of the CIO into one of the most powerful labor organizations in the world. The abor movement's present drive into the citadel of reaction, the South, he said, is a continuation of the first American Revolution and the Civil War. The organization of the South is a basic prerequisite for the American Socialist Revolution. This action brings the labor movement a step closer to the Trotskyist goal of socialism.

He urged the audience to join the Socialist Workers Party and to support its work. Two people signed applications for membership, and more than a dozen turned in interest cards. \$130 was donated to help the party in its work, and a large amount of literature sold.

**Production And Income** 

Wages, Prices And Profits

### **Bu Warren Creel**

We continue with the flow chart of commodities and money in a capitalist system. Last week's installment explained the various parts of the flow chart, Figure 3, which is repeated here:

The charted commodity, the coat, is finally sold for \$8. LOS ANGELES, Aug. 26- The eight lines trace the money from it, back through The North Hall of Embassy the process, until it all ends up as income in the hands of

The total income in the hands of workers and owncome, in the words of Rose Kars- ers is \$8. That's the same as the final sales price of the coat. It has to be, because it came from the sale of the coat. It also is exactly enough to buy the coat.

. Considering the coat as the total output of all commodities, this means that all the buyers, owners and workers taken together, have exactly enough income to take to the market and buy all the goods there. There is no surplus or shortage of money; there is no surplus or shortage of goods. "Production equals income," because income comes from production. No matter how complex we made the diagram, that would always hold true.

We can picture certain economic events with this chart. We'll begin with the employers' claim that high wages are the cause of high prices and shortages of goods. They say high wages have given the workers too much money, so they have bought up all the goods, leading to shortages and high prices. Even some labor leaders have been willing to echo this, and thus to discourage a fight for higher wages. Is there any truth in it?

In Figure 3, suppose the workers in the Factory got a raise, so their wages went up to \$1.50, leaving only 50 cents instead of a dollar for the owners. The total buying

Figure 3

power in the system would not be changed; it would still be \$8. The factory could not take advantage of a scarcity to raise prices, and thus pass the wage raise on to the consumer, for there would be no scarcity of goods, and no surplus of money.

Karl Marx summed up in Value, Price and Profit the result of an increase in wages of workers. He pointed out . . that an increase of their purchasing power must exactly correspond to the decrease of the purchasing power of the capitalists. The aggregate demand for commodities, would therefore, not increase, but the constituent parts of that demand would change. The increasing demand on the one side would be counterbalanced by the decreasing demand on the other."

Marx described how sales and production would follow the shift in demand. Increased demand from the workers' side would cause more production of things the workers buy, more food, more low-priced clothing, more lowrowing interest of workers in priced housing, etc. At the same time the decreasing demand from the profit side would cause less production of things the owners buy. The shrinking market for high priced items and luxuries would tend to discourage production in those lines.

day we see evidence in every retail store that the

# Diary Of A Steel Worker -Sunset Over The Steel Town - By Theodore Kovalesky

In the winter time the dusk comes early, and the haze that always lurks over the steel plant darkens as the muddy sky fills up with night. It

is bleak in the steel town, with the dirty, rutted snow and the dim glow of the saloon windows. In the summer time it takes a little longer. The

afternoon shift is well on the way toward quitting hour. Sweaty men look up through the slits and cracks in the casthouse

roofs at the deepening blue of the sky and know that soon they will be on their way home.

But the steel town is bleak in the summer as well as in the winter. Stretching along the dusty road, huddled along the shore of the lake, are the vast, rusted sheds of the mills and open hearths, looming into shadowed monsters against the light of the sunset; the tangle of wires and pipes, the veins that run through the entire length and breadth of the plant, carrying its life juices of gas, electricity, steam and air; the stoves and blast furnaces, silhouetted into thick turrets. Over it all hangs a heavy pall of smoke and dust, glowing here and there from the flashes of the coke-oven fires and the beams of hot metal, as though a battle were being fought beneath it.

Across the 'pike, that stretches like a long thin line on a map dividing the steel plant from the land and homes of those people who labor in it, are linked together in a dreary chain the saloons with their windows glowing dimly in the half light. It might seem that this row of taverns between the steel plant and the houses formed a sort of barrier, a buffer between the one and the other, that the two might exist side by side in some kind of peace.

There are places, you know, where everything

**Prominent Toledo Labor Figures Denounce Election Board Ruling On SWP Candidates** is part of everything else; where there are trees and fields and streams, and all are related, all parts of life. Sunsets in such places are very beautiful. In such places the sunsets blend into the picture and become a part of it. Where there are broad green lawns and children at play, strong-built, clean-fashioned houses, and old people at ease - there, too, the sunsets are part of the one single picture.

But here it is different. Instead of mellowing and softening the harsh outlines of the streets and clustered houses, the twilight makes them grotesque and a little ominous. I guess this is nothing new. You've seen all of

it thousands of times. You've seen the barroom windows begin to show up in the murk, and the lights go on in the shaky houses, and the puddles in the cracked sidewalks turn slowly from brown to black. You've seen the twilight grow into dusk and then deepen into night, when the lights in the houses begin to flick. off, early though it is, because the steelworkers have to get up before dawn to go to work.

Well, it's nothing new. It's the same old story, that long gray, weary and depressed story of the life of the people who make the steel and the other products of society . . . and the profits of the few who own the factories. It's just one more picture of the life of the producers, and just one more contrast between that life and the life of the owners.

A sunset, you know, is a sort of universal symbol of beauty, and the twilight hours of the early evening, a synonym for peace and gentle contentment. But even such widely accepted symbols as these will not fit one class where they fit another. Because EVERYTHING is different between them and us. There is no middle ground of approach. And while they continue to own the factories and mines where we work, not even the beauty of the sunset can belong to us.

People Can Change By Grace Carlson "But you can't change human nature!" Every

Lords And Rhinoceros-Hide Whips

-By Joseph Hansen-

one who has argued for Socialism has heard this chestnut, which is supposed to be an annihilating answer to "imprac-

tical" radicals. But people do change. The human being is a much more flexible creature than our capitalist - minded friends would have us think. It would be possible to list thousands of facts from history, anthropology, sociology and psychology to prove that human beings have changed their

habits of thinking and acting over the years. Let's examine only one more or less entertaining set of facts — the revolution in fashions.

Frederick Allen has collected some interesting facts about the changes in women's clothes in his Only Yesterday which he calls "An Informal History of the Nineteen-Twenties." Only 26 years ago a fashion writer reported in the N. Y. Times that "the American woman has lifted her skirts far beyond any modest limitation." This meant that skirts were then nine inches above the ground!

Dress reform committees sprung up all over the country in an attempt to deal with this

dangerous situation. A bill was introduced into the Utah legislature in 1921 providing fines and imprisonment for those who wore on the streets "skirts higher than three inches above the ankle." At the same time, a bill was pending in Ohio which aimed to prevent the sale of any "garment which unduly displays or accentuates the lines of the female figure" and to prohibit any "female over fourteen years of age" from wearing "a skirt which does not reach to

that part of the foot known as the instep." President Murphree of the University of Florida was tremendously agitated about the whole situation. "The low-cut gowns, the rolled hose and short skirts are born of the Devil and his angels and are carrying the present and future generations to chaos and destruction," he boomed.

Part of President Murphree's predictions were correct. The generation born in the Nineteen-Twenties did grow up "to chaos and destruction," but hardly anybody thinks that short skirts had anything to do with it. Most people believe that the atomic bomb and the other imperialist war weapons were more effective. And the generation that saw the revolution

in fashions and the revolution in warfare may see the Socialist Revolution. Because people do change!

one of those fated to sizzle away like a drop of water on a hot stove when

Are you worried about the atomic bomb?

Just to relieve your mind for a while, consider a real worry. A worry that is facing the House of Lords in Great Britain. They can't decide whether or not to do away with the rhinoceroshide whips they've been using for

generations to put the fear of the British lion in the hearts of the colonial people.

It seems these rhinoceros-hide whips inflict such cruel lacerations that even professional nurses turn sick at the stomach when they look at the moaning victims.

The story is told in the July 1946 New African, published monthly in London. "The House of Lords," says the New African, "was told yesterday of nurses in the colonies who had asked to be moved to other wards because they could not bear to nurse victims flogged with rhinoseros-hide whips."

It was Lord Faringdon who brought up the question. He thought there had been an "excessive use" of flogging, especially in the Sudan.

the rest of the Empire. Apparently the Sudan Defense Force proved more reluctant that some of the others in fighting for the "Four Freedoms" and they had to be braced up a bit.

"If any of your lordships were found punishing | cal front? a dog with such a whip," said the Lord indignantly, "he would justly be prosecuted by the RSPCA." It was not reported what kind of whip Congress from being just as anti- member of organizations of unthe Lord advocated or whether he thought flogging should be done away with entirely.

Viscount Addison, Dominions Secretary, was able to report progress on the question. He said that "approaches" had been made to the despots stationed in the colonies and they had been "urged" to consider "alternative" punishments. However, there may be considerable resis-

tance on the part of conservative members of the British ruling class to doing away with flogging with rhinoceros-hide whips. After all, isn't it one of the burdens of capitalism to bring "civilization" with all its benefits to the backward colonial peoples? How else can super-profits be wrung from the colonies?

And what instrument in the whole arsenal of imperialism is better or cheaper in carrying out this lofty aim than a good, tough, searing rhinoceros-hide whip?

# 1. Defend labor's standard of living!

A sliding scale of wages—an escala tor wage clause in all union contracts to provide automatic wage increases to meet the rising cost of living!

Organize mass consumers committees for independent action against profiteering and price-gouging!

Expropriate the food trusts! Operate them under workers' control!

# 2. Full employment and job security for all workers and veterans!

For the 6-hour day, 30-hour week! A sliding scale of hours-reduce the hours of

work with no reduction in pay to prevent layoffs and unemployment! Government operation of all idle plants under workers' control!

Unemployment insurance equal to trade union wages for workers and veterans during the entire period of unemployment!

# 3. Against all anti-labor laws and government strikebreaking!

No restrictions on the right to strike and picket! No injunctions! No compulsory arbitration!

4. Build an independent labor party!

# 5. Tax the rich, not the poor!

Repeal the payroll tax! No sales taxes! No taxes on incomes under \$5,000 a year!

# 6. An 18 billion dollar appropriation for government low-rent housing!

7. Full equality for Negroes and national minorities!

End Jim-Crow! End Anti-Semitism!

8. For a veterans' organization sponsored by the trade unions!

# 9. A working class answer to capitalist militarism and war.

Take the war-making powers away from Congress! Let the people vote on the question of war or peace!

Against capitalist conscription!

Abolish the officer caste system!

Full democratic rights in the armed forces!

Trade union wages for the armed forces!

Military training of workers, financed by the government, but under control of the trade unions!

# 10. Solidarity with the revolutionarystruggles of the workers in all lands!

For the complete independence of the colonial peoples! Withdraw all American troops from foreign soil!

11. For a Workers' and Farmers' Government!

Col. James A. Kilian, after being found guilty of permitting "harsh, cruel and unusual" punishment of GI prisoners, was fined \$500, not even a full month's pay for a Colonel overseas, The other day Maj. Lu-Buono, former Provost Marshal at Lichfield, was found guilty of "permitting guards to. . . strike prisoners with hands and fists, forcing them to double-time for protracted periods and . . . stand with nose and toes against a

wap for extended periods." He was fined \$200! These criminals who formulated and ordered the policy of torture "to make the prisoners want to go up front" were let off with light fines. But the enlisted men who were forced to carry out these orders were not let off quite so easy. Sgt. Judson Smith, for instance, was sentenced to three years at hard labor and dishonorable discharge, S /Sgt. James M. Jones was sentenced to six months at hard labor.

If any combat veteran thinks back over his army experiences he will notice a glaring con-1. A. A.

위에 소설하려면 문

France we had to do all our fighting in "hedgecountry." Thousands of lives were lost in those battles because not one soldier participating had ever received any training or instruction in that type of fighting. Yet, you can be quite sure they had received enough training in respecting privileges of the Brass. Combat veterans will also remember how

quickly those privileges were forgotten under enemy fire. There were no special foxholes, Krations or billets for officers, because efficient fighting would be impossible under such conditions. The caste system is maintained not to win wars but to keep control of the army in the hands of Wall Street.

Maj. Gen. Manton S. Eddy, commanding general of the 2nd Army let the cat out of the bag when he spoke at the Pennsylvania state convention of the American Legion. Comparing the army and the capitalist society as a whole he pointed out that "presidents and officers of large corporation do not necessarily have to sit down with the office boys or other employes or share their washrooms."

The General then demanded: "Is it any more of a crime for the officers of the army to have their own messes, their own clubs, paid for by their own money, any more than it is for a civilian to have his own luncheon club?" In short, the Army is a capitalist army. It maintains the same system of privileges, the same class distinctions, same injustices that are to be found generally under capitalism.

Since joining the Trotskyist

After scanning the glowing descriptions of the army in the recruiting ads, many veterans may scratch their heads and say the army isn't so bad after all. The

latest decision of the court-martial in the Lichfield case is a sharp reminder, however, that the Army Brass have no intention of relinquishing their caste privileges.
