Workers Of The World. Unite!

PRICE: FIVE CENTS

Minnesota SWP Gains In Vote

18 of Minnesota's 87 counties give Grace Carlson, SWP candidate for U. S. Senator, 5,963 votes. Partial returns from the section of Hennepin County (Minneapolis) and the other four counties which make up the Third Con-

gressional District, give War-® ren Creel 1,194 votes. In the Fourth Congressional District, which is made up of St. Paul and surburban areas in Ramsey County, Dorothy Schultz received 1.141 votes.

Because of Minnesota election regulations, the SWP candidates could not appear on the ballot under the party's own name. Revolutionary Workers Party was the ballot designation.

A comparison of the 1946 SWP vote with that received in the same areas in 1940 registers gains all along the line. When she ran as the party's senatorial candidate in 1940, Grace Carlson received 8,761 votes.

In terms of the percentage of the total vote cast in the election, the SWP gain this year is even more impressive. Present returns indicate that the 1946 vote in Minnesota will be a half million less than that of 1940. In fact, one must go back 16

.rs in Minnesota history to find a lower vote in the final elections.

The 1946 election saw the defeat of Democratic-Farmer-Laborite Congressman, Frank

MIDDLE CLASS VOTE SHIFTS TO GOP

Votes On ALP's Line Remain At '44 Level

By Joseph Hansen

"What opened the gates to the Hooverite victory?" asks the Nov. 7 Daily Worker with an assumed air of surprised innocence. The official Stalinist answer to this question, signed by Foster and Den-

However, Dewey took New York State by more than 675,-000 votes, sweeping into office virtually the entire Republican ticket. The total vote was over 5,000,000. As in the rest of the country,

the New York voters were voting for a change. They did not vote for the Republicans so much as against the Democrats.

BIGGEST SHIFT Analysis of the vote proves

PAC-CIO Loses Support. In Working Class Areas

By George Breitman

The Nov. 5 election which gave the Republican Party control of both houses of Congress and most state governments, was more than a protest vote repudiating the Democratic candidates. It was

a defeat for the CIO Political Action Com-mittee's policy of back-in the ranks of the middle class.

itself can be understood only by studying how the different classes in the population voted, par-ticularly the middle class and

CIO Convention **Is Faced With Crucial Issues**

The Congress of Industrial Organizations (CIO), representing more than 5,000,000 workers in America's basic industries, begins its annual national convention on Nov. 18 in Atlantic City, N. J.

Meeting during one of the most rucial periods in the country's history, the convention will have he task of adopting policies and program on the basic issues nfronting the American peo-

le today. Foremost in the deliberations will be the question of a program of action to implement the demands of the CIO unions for substantial pay increases to compensate for big price rises that have wiped out the wage gains won last spring in the great CIOled strike wave.

Another key issue will be the growing red-baiting drive inside the unions that is being inspired by Big Business to divide and weaken the labor movement and to line up the workers for war against the Soviet Union. The convention follows on the heels of the national elections the more openly anti-labor and which saw the voters turn in reactionary of the two capitaldisgust from the Democratic Party and reluctantly vote for the Republicans because they

paramount convention issue.

ing so-called progress- The farmers, who have been ives of the discredited moving away from the Democrats in recent years, went over Democratic Party. This defeat and the election This defeat and the election class in the urban areas — the shopkeepers, professional workers and small business men who always constituted an important prop for the Roosevelt regimevoiced their dissatisfaction with unstable economic conditions by voting against the party that

was in. A study of the voting in the key industrial cities discloses, however, that while there were Republican gains even in working class neighborhoods, the majority of the workers and their families continued to sup-

port the Democratic Party. The Republicans picked up votes everywhere, even where they did not win. In Detroit and Michigan they gained enough to tip the scales in their favor for the first time in many years. But by and large, Republican majorities in working class areas were the exception and not the rule on Nov. 5.

There was no evidence of any enthusiasm in the ranks of the organized workers for the Democratic candidates or platform. The PAC did relatively better in New York where it asked the workers to vote on the line of the American Labor Party, even though its major candidates were all Democrats.

LITTLE DIFFERENCE Even while they could not become enthusiastic about the Democrats, the great bulk of the organized workers did not turn to the Republicans who appear

to feeling that the Republican victory necessarily means a loss that labor was never stronger than it is today. The truth is that under Republican as under Democratic rule, what Congress does to labor will depend on the kind of fight labor puts up.

The threat of anti-labor laws is greater today only because the weak-kneed policies of the union leaders, their past failures to lead a militant fight against Democratic-sponsored laws, has emboldened the capitalist politicians to push their anti-labor drive in a more unrestrained fashion.

If the labor leaders oppose anti-labor laws only by words. as in the past, harsher measures will be passed. If the unions resist by united mass action, Congress will be forced to retreat.

Will this defeat lead to any before the elections. decisive change in PAC policies,) and, in particular, in the PAC leaders' attitude toward the formation of a third party?

An indication of the CIO leaders' intentions was given on Nov. 9 when 30 top leaders of the PACsponsored "Conference of Proelections. gressives" met in Washington to consider future policy.

They made it clear that they have no present intentions of launching my third party. They insisted they would continue to function within the frame-work of Wall Street's two-party sys-The pressure that the union militants exert on the union lead-

Their goal, they claimed, is "mobilizing the most effective liberal-progressive coalition ever brought together in the history of our country."

What the PAC leaders have in mind, it is apparent, is to dilute still further the labor character of CIO political action with middle-class influence and leadership, especially from the rapidly dwindling "New Deal" wing of the Democratic Party,

The Conference of Progressives argued that "a small shift in Tuesday's vote would have changed the results" and it concluded that its chief task consists of better organization to get out votes for "progressive" Democrats in the next elections. This "small shift" of votes, however, represented the climax to a big consistent trend over the past six years. It is the major shift of the lower middle class away from the Democratic Party and the beginning of the shift of the workers.

That break in the middle class does not at all reflect failure of PAC campaign methods. It has nothing to do with better doorbell ringing. The middle class had become

ed by 60,000 persons.

creation of a labor party would isolate the middle class from the workers and make possible the election of the Republicans. What actually happened was that the middle class, discont-

ented and offered no independent leadership by the labor movement, expressed its protest against existing conditions in the only way it understood by voting for the one other national party, the Republicans. Far from gaining the support of the middle class by hanging onto the coattails of the democrats, the PAC leaders drove the middle class into the arms of the Republicans. More than

Conscientious Objectors Demand of the Republicans. More than that, the PAC leaders even lost some ground among the workers as a result of their cowardly policy.

Wages, Prices and Profits_ How Monopolies **Compete For Sales**

- By Warren Creel -

When all the basic industries have been organized into monopolies the period of easy monopoly profit ends. The monopolies no longer can get super-profits by draining surplus value from production in competitive industry.

The monopolies stand pitted against each other in the contest for markets. This contest between monopolies brings new forms of competition.

The manufacturers who are organized together into a monopoly set prices by agreement, so they don't compete for markets by cutting prices. But the various industries compete for the customers' dollars by trying to outdo each other in sales pressure. This is sales competition instead of price competition.

Advertising expense is only a small part of sales competition. The main item is retail margin. This needs careful examination, because retail margin doesn't seem to come out of the manufacturer's surplus value, yet in fact it does.

To illustrate: We have seen that the manufacturer's total cost of production on an electric refrigerator is about \$58. Of this, direct labor cost is about \$17 and the rest is cost of material, plus the cost of machinery and so on. The cost of material is partly surplus value because the suppliers who sold it to the manufacturer made a profit. However, to keep our figures simple we will ignore that surplus value and consider the whole \$58 for labor and material etc., as necessary cost.

Fight For Markets

They sell these \$58 refrigerators to the consumer for \$200; the spread between production cost and retail price amounts to the difference, or \$142. Part of this spread represents real costs of distribution, such as freight and delivery to the consumer. We'll be generous and allow \$12 as real distribution cost. Then the total real cost of production is \$58 plus \$12, or \$70. They sell it for \$200, so they get surplus value amounting to \$130 on each.

The real situation would be easy to see if the corporation handled its own retail selling. We can imagine it renting stores in every neighborhood in the land to make sure there was a Gadget Company Refrigerator Store handy to catch every customer before he had a chance to buy anything else.

In that case we would say: "The Gadget corporation makes \$130 surplus value on every box, and only part of it is kept as profit. They waste the rest in unnecessary sales outlets. And all the while the Super-Gleam Refrigerator Company is wasting just as much surplus value by renting stores all across the country right next to the Gadget stores to catch the same customers for its own refrigerators. And three auto companies keep sales agencies open across the street from each of them, lying in wait for the same customers.'

Under such conditions it would be clear that the manufacturers were spending part of their own surplus value in the fight for markets. We could see that, having a big surplus, they thought they would be farther ahead to spend some of it in the fight for sales than to take it all as profits.

In fact the manufacturers generally don't own their own retail stores. But they do something else that amounts to the same thing. When efficiency goes up and production cost goes down they don't take all the gain as profit, and they certainly don't cut retail prices. Instead, they cut their wholesale price to the retailer, and this gives him a bigger margin on each item. That is, the manufacreferred it to the Attorney-Gen- Continued postponement of a la- turers put more of their surplus value into margin for

Waste of Competition

Retail margins have grown so big that manufacturers sell goods to stores at half the price to the consumer, on the average. Applying this general average to refrigerators would mean that the manufacturer sells the \$58 refrigerator to the retailer for \$100, and he then sells it to the consumer for \$200. This gives the same result as the case we imagined. Retail stores in every neighborhood can afford to show and sell Gadgets at this big margin, even if they sell very few. Plenty of them can afford to sell Super-Gleams, too. The manufacturers sell their products to the retailers at a price below their full value. By doing this they allot part of the surplus value to support the sales work which the retailers carry on for them. Thus more and more workers are shifted to "sandwich man" work, the overhead waste of competition. And this happens most of all in the age of monopoly.

It hides the real source of surplus value. The manufacturers will tell the union "I can't raise wages. These refrigerators cost me \$70 apiece to make and ship. The interest to the bank takes \$25 apiece. That's \$95 and I only sell them for \$100 wholesale. I'm almost losing money."

The union should answer, "You're getting \$200 in laborvalue out of our work for each refrigerator. The \$25 to the bank is profit. They own your company and they fix it so their cut is big and comes first. And the \$100 margin you leave for the retail middlemen is surplus value too. You give them a lot because you can spare it, and you'll cut that sales margin down before you lose money. Your deal with the middlemen is your own affair; don't ask us to pay it out of our wages."

SATURDAY, NOVEMBER 16, 1946

THE MILITANT

29th Anniversary Of Russian Revolution Speech by James P. Cannon, SWP National Secretary, at N. Y. Mass Meeting, Nov. 1

Comrade Chairman, Comrades:

Tonight we are celebrating together the 29th anniversary of the great Russian Revolution and the wind-up or the New York election campaign of the SWP. But this

does not represent the combination of two occasions into one, as might appear. It is rather a single celebration devoted to two sides, to two phases, of one and the same thing. The Russian Revolution was the beginning of the social transformation of the world. The New York election campaign of our party, which we are winding up tonight, is a continuation of the struggle that was started by the Russian Bolsheviks on November 7, 1917, 29 years ago.

JAMES P. CANNON

was not a national affair. The world labor movement contributed to it from its beginning in 1917, and even from

its earliest preparation years before that. On the other hand, the world labor movement has lived on the Russian Revolution for 29 years. The sympathy and support of the workers in the capitalist countries saved the Soviet Union in its darkest hours. And nothing has inspired and lifted and strengthened the working class movement of the entire capitalist world so much as the victory of the Russian workers in 1917.

I said the international labor movement contributed to the Russian Revolution. The guiding theory of the revolution in Russia was first formulated in the middle of the 19th century by a German Jew who did his great work in England, the most advanced capitalist country of the time. And this same revolution which began in backward Russia, guided by a theory formulated in England, will be brought to its final consummation in America, the most advanced country of the present time. Truly a panoramic international phenomenon-in its founding theory, in its preparation, in its victory, in its defense, and in what is to follow-is the great Russian Revolution.

The Russian Revolution was the beginning of the world revolution-that is the only way to understand it. And that is the sense in which we celebrate it once again tonight. That is also the sense in which we combine it with the wind-up of our election campaign, not only in New York, but in five other states as well this year. In New Jersey, Ohio, Minnesota, California and the State of Washington, the Socialist Workers Party has been conducting just as active and aggressive and in general just as successful election campaigns this year as in the State of New York. It is correct, therefore, for us to combine the wind-up of our greatest effort in the American elections with the celebration of the revolution in Russia, for cur election campaign is a contribution, and a very important one, to the development of the Russian Revolution into the World Revolution which will liberate all humanity from capitalist darkness and poverty and oppression and war.

Greatest Revolution In History

The Russian Revolution was and is the greatest rev-

In the above drawing Thal, a talented young Trotskyist artist, depicts the great conquests of the Russian Revolution. On the upper right we find represented the nationalization of industry through the expropriation of the capitalists. On the upper left are figures symbolizing the equal status of women. Directly below the heads of Lenin and Trotsky,

ests, as lackeys of imperialism, above the interests of the the same time it would be the most terrible defeat and setproletariat as a class.

They quarrel with the capitalist masters over the crumbs of bribery they receive and they fight among capitalist countries will not heed that counsel of surrenthemselves over the distribution of the crumbs. But against the revolutionary workers, the Social Democrats, the Stalinists and all variants of these breeds, are all banded together like thieves at a fair. That was shown take. during the war when they all beat on the same drum to herd the people into the imperialist slaughter. It is shown today in postwar Europe where Social Democrats and Stalolution in all history. Its conquests are the greatest ever inists combine to hold back the revolutionary wave of the first term of Roosehis existence and workers of Europe. It is shown—and again most strikingly— what still remains in spite of all the devastation that has rose to ten million.

co-leaders of the Revolution, is portrayed the brotherhood of all races and nationalities. On the middle right—the creation of the Red Army, with the abolition of the officer caste system. Bottom center—struggle against war through the fraternization between workers of all countries regardless of the soldier uniforms they may wear.

back for the workers of the entire world. That is why the workers of Russia and the revolutionary workers of the dering the remaining conquests of the Russian Revolution to the imperialists in order to spite the Stalinist bureaucracy. That road is not our road. That road we will not

been wrought by the bureaucracy at home and by the imperialists abroad. And in the future as in the past, we ing-class movements present in the New York election will help them to defend and preserve it and to extend it. the defense of platonic sympathizers. It is not the defense of bystanders giving advice from afar about a task to be spending money like water-to see which gang of betrayers carried out by others. That is not our conception of intercan dragoon the most workers' votes for the Democratic nationalism. We honor and support the Russian Revolution most effectively by actively participating in the struggle at home; not by passively recording the achievements of other people in some other country, but by resolute struggle in our own country. We fight not only against Stalinism and its evil power in the American labor move-Only the Socialist Workers Party carries the banner of ment. We were the first to fight Stalinism. We have been the most consistent, the most militant and the most enduring in our fight against Stalinism. But we fight above Russian Revolution off the ballot in New York when they all and first of all against the greatest enemy of humanity -American imperialism. Tonight we hail and celebrate once again the great Russian Pevolution, the inspiration and guide of all our work and struggle. At the same time, in the same meeting, we hail and celebrate the election campaign of the Sociallike the revolutionary workers the world over, will carry ist Workers Party as the greatest contribution we have yet made in all our experience to the continuation and extension of the Russian Revolution, and the springboard to the projected campaign of the party in the 1948 presidential elections. This election campaign has brought inspiring suciet Union and all that had been achieved in it hung in cesses and results, despite the fact that we were thrown the balance, counsels of defeatism were offered to the Rus- off the ballot. This was not so much of a defeat as they sian workers, as well as to the workers in the capitalist thought because we weren't running for the ballot or for countries, by all kinds of traitors, cowards and skeptics; the decision of the court. We conducted the campaign as revolutionists always conduct parliamentary activities, to utilize the interests aroused in 'election time to appeal to revolutionary workers of the whole world, and the Russian of the revolution. Therefore, our election campaign-deworkers in the first place, contemptuously rejected that spite the decision of the judges to the contrary—was a perfidious advice. The revolutionary workers also strive success. It marks the emergence of American bolshevism for the overthrow of the Stalinist bureaucracy, and they from an isolated propaganda circle, in which we were confined so long against our will, into a political party in than any others do. But the Russian workers, and the re- the full sense of the word-a party which is confident of itself and sure of its destiny to organize the working class millions of America to storm and conquer the fortress of If you stop to think of the revolution of Russia in its true meaning, not as simply a Russian affair but as a beginning in one part of the world of a social process that cannot be completed until it embraces the whole world: their worst class enemies. A defeat of the Soviet Union in if you think of the Russian Revolution that way, as we a war by the imperialists or by means of economic pressure | celebrate it tonight in connection with our revolutionary work in America, you have to realize what an attractive prospect is opened up before us.

fter the revolution the problems of economy, of production and of abundance for all can be almost automatically solved. The resources, the technique, the skilled and trained labor force are all here for us.

PAGE THREE

In addition, we have the most powerful working class in the world in America, 50 million strong; a working class that is no longer dispersed and atomized as it was in the twenties and as it faced the crisis that broke out in 1929. It is now an organized working class. There are 15 million in the great unions, in the mass production industries. And these 15 million organized workers can easily lead all the rest of the proletariat when the time comes for action. This working class in the United States is well educated, and militant, and resourceful. It has never known great defeats and has great confidence in itself, as was demonstrated once again in the strike waves of 1946. For the American revolution nothing is lacking in the material sense. All the material prerequisites for socialism are already established by the development of the great productive plant and the natural resources at our disposal. The power of the working class in America is incalculable. It is strong enough to make ten revolutions.

What Is Needed

All the American workers need to carry through a successful revolution, and to reorganize production on a socialist basis and begin the forward march at a rate never dreamed of before, is a theory to guide their action, the class theory which guided the Russian Revolution, which is the theory of Marxism. Once the American workers acquire the guiding theory of the Russian Revolution and utilize it in the organization and direction of their struggles, their victory will be absolutely assured. Nothing could stop them. And the victorious American workers, in turn, having borrowed from the Russians the theory and experiences of revolution and put them into practice, will supply all the needed additional power to come to the aid of the Russian Revolution, to save it from further bureaucratic degeneration, to revitalize it, and to extend it throughout the world.

That is the grandiose perspective opened up before those who have the good fortune to live, to see clearly, and to battle in this great, rich, wonderful country which needs only a revolution for us to be able to call it truly our own country.

In the 1920's when American capitalism was in its heyday, when it was rising to new heights of productive achievement, while the rest of the world was declining, and before it had squandered its resources and strength in later years, a theory developed that American business genius had solved the problem of permanent employment. of permanent prosperity; that the theory of Marx had been refuted in life by the extremely clever business men in America whose genius consists in making two dollars grow wher one dollar grew before.

But that idyll, which was so widely believed and which deceived, I must admit, even the great mass of American workers, was exploded in the crisis of 1929. And then for more than ten years America was in the grip of the most destructive crisis it had ever known. The living standards of the American workers were cut in half. Unemployment mounted until at one time there were 20 million workers without jobs. Hoovervilles flourished, and the illusions that had been nurtured in the period of the twenties were dissipated. Capitalism in America, with all the genius of its money sharks, was not able to solve that crisis. After We counsel the Russian workers to preserve and de- a partial upturn in the period of the first term of Roose-

struggle upward. The human race has traveled a long in the election campaign in New York. way from its origins, which are lost in time. The human race existed for centuries and for millenniums, how many no one knows, before learning to understand the dark campaign. The Stalinists and the Social Democrats are But our defense of the Russian Revolution, and thereby powers of nature which had terrified and oppressed and furiously competing with each other to serve the same of the conquests of the revolution that still remain, is not enslaved it. With the triumph of the Russian Revolution 29 years ago, man for the first time in his entire existence on this planet, demonstrated the capacity to understand and to conquer his own social system. On November 7. 1917 the people; the workers, first began to free Party of Wall Street, Tammany Hall and the poll-tax crackthemselves from helpless subservience to the anarchy of capitalist production with all its frightful disproportions and uncertainties, and began for the first time to subject economy to conscious organization and plan. To be sure, it was only a beginning-and in a backward country at that. But what a magnificent beginning!

The experiences of the Soviet Union have already demonstrated for all time to come that the expropriation of the capitalists, the abolition of private property in the ruled off the SWP. But it came back on the picket-line means of production, followed by the nationalization of at Madison Square Garden last night. The Russian Revoluindustry and the organization of planned economy, could tion is here in this room tonight. We, the Socialist Workraise human productivity to an unprecedented height and ers Party, will carry it into the great labor battles on at an unprecedented rate; and could do it, moreover, in the agenda for tomorrow in the United States. And we, a backward and isolated country strangled by a retrograde bureaucracy at home and menaced by a hostile the banner of the Russian Revolution in the next war capitalist world on every side. Despite all those unfavorable factors and circumstances, the Soviet Union, created by a revolution, demonstrated its capacity to raise the productivity of human labor, and did it at a time when capitalist economy on a world scale was plunging down lower and lower in times of peace and then exploding into wholesale destruction in a Second World War.

This demonstration, in the field of economy which is the foundation for all human progress, points the way to the future and is itself the materialistic pledge of a better future for all the people of the world. And if the to communicate their demoralization to others. But the a wider circle of workers and carry to them the message Russian experience proved that a proletarian revolution -and only a proletarian revolution-can do away with private property in the means of production and clear the road for planned economy, it also proved that the workers are capable of building a party fit to organize and lead such a revolution.

Who The Betrayers Are

These two demonstrations, that the workers can find the capacity within themselves to organize their forces and create a combat party fit to lead them through to a victorious revolution; and that by means of the revolution, private ownership and its paralysis can be broken and and it will be accomplished, but by the workers and not by economy reorganized, planned, developed and improvedthese demonstrations are before us, clear for all to see. We have only to understand them and to follow the example of the Russian Bolsheviks. That way, and that way only, lies the salvation of tortured humanity.

Like every revolution in history, the Russian Revolution has had its betrayers. They are of two main varieties would mean much more than that. It would mean the -the Social Democrats and the Stalinists. They fight destruction of the nationalized industry and planned ecoeach other bitterly over special clique interests, but they are fundamentally much more alike than they realize, mean the dismemberment of the country and its conver-They are both agencies of world imperialism in the labor sion into a number of colonies and spheres of influence movement. They both serve imperialism against the workers and the workers' revolution. They both put their personal aristocratic and bureaucratic privileges and inter- give a new lease on life to decaying world capitalism. the workers, which is the banner of the Russian Revolution, in the New York election campaign. They ruled the which they are now preparing, as we carried it in the one they just concluded, if the workers' revolution doesn't come and intervene and prevent another, a Third World War.

During the Soviet-Nazi war when the fate of the Sovas well as by people who were simply demoralized by difficulties and complexities and defeats and who wanted strive for that goal more earnestly and more consistently volutionary workers in the capitalist countries, refused to farm out the overthrow of the Kremlin gang to the imperialists of Germany. And I say they will likewise re- American capitalism. fuse tomorrow to farm out the overthrow of the Stalinist bureaucracy to the Anglo-American imperialists.

The overthrow of Stalinism is a historical necessity and blockade would mean—we must understand what it would mean-not simply the removal of the Stalinist bureaucracy and the transformation of a section of it into compradores of American and British imperialism. It nomy that were made possible by the revolution. It would for imperialist exploitation. That is what the victory of

Perspectives For America

For America is the ideal country for the social revolution and for the organization of the socialist society. It has the highest development of industrial technique in the world. It has the greatest resources, the richest imperialism over the Soviet Union would mean. That would country, the greatest productivity of labor-all of which we add: we earnestly hope to live long enough to carry

There seemed to be, and there was, no way out for American capitalism on the old road. Nothing restored a temporary fullness of employment and a pseudo-prosperity but the expenditure of hundreds of millions and billions of dollars for war and war preparations. That is, for destruction. This became the basis of a new prosperity, but this "prosperity" had the flush of fever on its cheek from the very beginning. This artificial prosperity will run its course in a very short time, and then it will head for a crisis as in 1929. But the crash this time will come much sooner, it will dive much deeper and it will find a different working class to confront it than the atomized and disorganized working class of 1929. This time the crisis will be a social crisis leading to revolutionary explosions in this country, which is presumed to be immune from "foreign" ideas. Under the conditions of the next crisis these ideas will be transplanted to the United States and will take root and flourish here better than anywhere else.

The New Age

The prospects for capitalist prosperity and stability in the United States are very dark. But the prospects for the party which represents the theory and practice of the Russian Revolution are very bright. The Russian Revolution of November 7, 1917, was the great dividing line in history, the line between the death of the social system of capitalism and the birth of a new social system destined to conquer the world, which we call socialism. Between the dying society of capitalism and the society of socialism being born, there have been years and decades now of struggle and agony and conflict between the two. But the dividing line will be marked in history as November 7. 1917.

All the previous history of man, all his experience in class society, as Engels once said, is really pre-history. The real history of man began in 1917 with the triumph. of the Russian Revolution. That is the Year One of The New Age. This Age will flower into unimaginable developments of universal culture and material well-being with. the extension of the Russian Revolution throughout the world, and the organization of the world-wide socialist society that will follow from the triumph of the world revolution.

In the federal courtroom at Minneapolis we were accused, as you know-and not only accused, but tried and convicted-of advocating the principles of the Russian Revolution and of intending to apply those principles in the United States. Indeed, we were guilty of that intention, and said so frankly in the courtroom in Minneapolis. And we were convicted, and we served our sentence in prison, and we are still guilty. And here on this festal occasion tonight, honoring and celebrating the great revolution, we once again plead guilty to advocating its principles and of intending to apply them in the liberating revolution of the workers in the United States. And

THE MILITANT

"Reinforced agitation against imperialism and militarism must proceed not from abstract formulas but from concrete facts which strike the masses. It is necessary painstakingly to expose not only the open military budget, but also all the masked forms of militarism, not leaving without a protest war maneuvers, military furnishings, orders, etc." -Leon Trotsky

Where Politics Begins

In a radio address on the eve of the elections, Farrell Dobbs, Socialist Workers Party candidate for New York Governor, stated an idea that has especial significance now that the elections are over. He said:

"On the day after the present election, the Democrats and Republicans and their agents will fold up their tents. They will put their pilitical circus away in moth balls until the following elections.

"But the Socialist Workers Party will continue to fight. For us politics is not just a question of a few weeks in the election season, but a struggle that goes on three hundred and sixty-five days of the year."

The capitalist politicians try to make politics, so far as the workers are concerned. entirely a matter of pre-election campaigning. For a few weeks, while the drive is on for votes, the Republican and Democratic politicians are forced to go before the workers and put on a pretense of discussing issues. They even graciously permit the workers to push door-bells, peddle campaign literature and drop a ballot in the box.

But once the capitalist candidates are safely in the seats of office again, they want the workers to stay away from politics. Then politics becomes the business exclusively of the big-shot party leaders, who in turn carry out the orders of their Wall Street masters.

For the Socialist Workers Party, however, the workers' participation in politics just begins at the point where the boss parties would like it to end.

We Trotskyists view politics as a life and

tion, in the mandated areas and placed other verbal restrictions on the powers of the state holding the mandate.

"Trusteeship," like the mandate, is clearly only another fancy label for the traditional policy of imperialist aggrandizement, seizures of territories, colonial expansion, and so on.

The American imperialists have hypocritically disclaimed all aspirations to a colonial empire. All they want, you see, is to act as trustees. Implicit in Washington's proposals for the Marianas, the Marshalls and the Caroolines is the establishment of a similar "trusteeship" for other Japanese islands, particularly Okinawa, Oshima and Iwo. These will intrench Wall Street in the Pacific, assure its hold on Japan, which has been reduced to the status of an American colony, and pave the way for further "trusteeships" on the continent of Asia.

Against Wall Street's program of colonial despotism under the humanitarian cloak of 'trusteeship" the American workers must raise the demand that all the peoples of Asia be left free to determine their own fate.

Warning Signal

, An organized gang of hoodlums invaded a meeting of the Communist Party (Stalinist) in New Orleans on Nov. 7, the 29th Anniversary of the Russian Revolution, and broke it up with a barrage of eggs, tomatoes and stench bombs. This provided the police with the pretext to arrest and hold on bond 16 CP members who were victims of the gangster attack.

The Nov. 9 Daily Worker alleges that among the gang that broke up the meeting were "AFL Seamen's Union's goon leaders." We do not vouch for the correctness of this charge. But we do know that reactionary red-baiting and anti-red witch-hunts are being incited by the AFL top leaders and that this was the keynote of the recent AFL convention.

This assault on a Communist Party meeting in the South comes at the very time that the Ku Klux Klan, Columbians, Inc., and other facsict groups are engaged in a terrorist drive against Negroes, Jews and union organizers. This growing wave of murders, stabbings, beatings and arson coincides with the bitter attempts of Southern employers to stem the organization campaigns of both the AFL and CIO in the South.

It is true that the Stalinist leaders themselves are guilty of physical assaults by their organized goons against their working-class opponents in the labor movement. Recently, Stalinist strong-arm squads beat up several Militant distributors outside two meetings of the CIO National Maritime Union in New York City. The Stalinists themselves have set an example for the fascist hooligans.

However, we recognize that the attack on a CP meeting is a blow not just at the Stalinists, but all labor. It is an assault on the rights of a political minority in the labor movement and is part of the growing nationwide red-baiting drive of Big Business against all labor.

Let organized labor take warning from this attack on the CP meeting in New Orleans in the midst of the spreading fascist movement directed at the total destruction of the labor movement. It is the bounden duty of the labor movement, for its own protection, to take the most vigorous steps to defend freedom of speech and assembly for all workingclass groups and to take the necessary firm measures to halt any further fascist-like terrorist assaults upon minority groups.

"Don't be silly—your sore throat can't be THAT bad—you're just letting your imagination run away with you!"

U. S. Foreign Policy Remains Unchanged

-By William F. Warde-

The most "reassuring" feature of the elections, declared the N. Y. Times on the morning after the Republican sweep, was the fact that the shift from Democratic to Republican control of Congress would bring about no change in foreign policy. This was immediately confirmed by Republican Senator Vandenberg himself, who is slated to head the Foreign Affairs Committee in the Senate. He interpreted his own re-election as "unmistakable indorsement of the united, bipartisan foreign policy" he helped develop, and added that "this policy will continue."

At one time Democratic and Republican leaders claimed to have different views on foreign policy. In recent years all pretense has been dropped. Their essential agreement was first openly exhibited when Roosevelt, preparing for entry into World War II, appointed the Republicans Stimson and Knox Secretaries of the War and Navy Departments. Throughout the war members of both parties voted unanimously on almost all military and diplomatic measures. In the 1944 presidential campaign Dewey and Roosevelt pledged themselves to keep foreign policy outside the arena of political debate.

This bipartisan policy has been continued since. The Republican Senators Vandenberg and Austin have worked hand in glove with the Democrats Byrnes and Connally in all the UN conferences and meetings of the Council of Foreign Ministers. Austin is head of the U.S. delegation and speaks for it in the Assembly and Security Councils of the UN.

Nothing so plainly exposes the fact that these two parties are utterly subservient to Wall Street as their absolutely identical foreign policy and their intimate partnership in promoting it. The monopolists who rule the United States have ambitious plans of world conquest. They require obedient political agents in Washington to help them carry out their imperialist program. They find them in the Republican and Democratic parties.

Because they are committed to Wall Street's program of world domination, both parties vote for the unprecedented peacetime military budget of 18 billion dollars, for the construction of the biggest peacetime army and navy, for the production of hundreds of atom bombs. Both keep American troops in occupied lands as tools to tyrannize over other peoples. Both support the U.S. diplomatic and military preparations for atomic warfare against the Soviet Union. Both oppose a referendum of the people to decide on the question of peace or war.

This imperialist program is so over-riding that the capitalist rulers will not permit even minor differences to exist amongst their political servants. They fear any debate on questions of foreign policy because public discussions might enable opposition voices to expose and imperil their conspiracy. This was dramatically demonstrated when Truman fired Wallace simply because this capitalist politician cautioned the administration against the recklessness of its war drive.

The government's foreign policy affects the everyday lives of all American people. For example, the enormous military expenditures saddle intolerable taxes upon the workers and reduce their incomes and living standards. Preparations for war abroad go hand in hand with the strengthening of reaction, red-baiting and the offensive against labor at home.

The Republican victory means the continuation and intensification of these conditions. After the elections as before, the two capitalist parties stand united on a common platform, working for Wall Street and the war-mongers against the welfare of the American people.

death matter for the working class. It is not a question merely of voting and campaigning for candidates. It is a question of a struggle to determine which of the two main classes of modern society, the owners or the workers, are going to control society.

Our goal isn't just to change the faces in the legislative halls and governmental executive offices, or to put through some petty reforms. We aim at a revolutionary transformation of the world, to abolish capitalism and the class rule of the tiny plutocratic minority, and to establish socialism under the rule of the overwhelming majority, the toiling workers and farmers.

This is a titanic task. It is a task that can be accomplished only by the political organization of the workers and oppressed on a gigantic scale and by unremitting struggle. That is why the Socialist Workers Party, unlike the boss parties, urges the workers to make politics an important part of their daily life.

The Socialist Workers Party doesn't tell the workers to sit home until 1948. We say: Join the Socialist Workers Party now! Get in the political struggle today-after the electionsand work ceaselessly to build a new world.

Pacific Islands

The real meaning of the "trusteeship clause" in the United Nations Charter is being quickly clarified in action. We have in mind Washington's official proposal in relation to the hundreds of tiny islands in the Pacific which comprise the groups known as the Marianas, the Marshalls and the Carolines.

These sparsely populated bits of land cover the vast expanse of the Pacific and their primary importance lies in the fact that they dominate the approaches to the Asiatic mainland. They have long been the bone of contention among the imperialists precisely because of their strategic importance. Before 1914 Germany succeeded in grabbing them. After the First World War they passed into the hands of Japan. This act of annexation was masked under the formula of "mandates" used by the defunct League of Nations.

Washington has now proposed that the UN establish a trusteeship over them assigning the U. S. as the sole administrator. To remove all doubts as to what is involved, the text of Washington's proposal specifies that these territories shall be "administered" as an "integral. part of the United States." In other words. it is free to do whatever it pleases there. The formula of "trusteeship" it thus turns out is even more barefaced than the formula of "mandates" employed by the League of Nations, which ostensibly prohibited fortifica-

Decontrol Order

By his Nov. 9 executive order President Truman has officially buried government price control. The temporary retention of ceilings on three items-sugar, rice and rents-is all that now remains of the elaborate pretense that a capitalist government in Washington could and would repudiate prices for the benefit of the mass of the people.

That government price control is nothing but a deliberate piece of deception-should now be clear even to the most gullible. The primary purpose of Roosevelt's Stabilization Act of 1942, with its OPA and other government bureaus, was to clamp down not on prices but on wages. And it must be acknowledged that this purpose was indeed achieved.

Throughout the war, the prices kept steadily rising, the wages remained frozen. With the cessation of hostilities, according to official estimates, the workers' purchasing power has dropped so low, because of the soaring prices, that only one-third of the American workers are now able to live at pre-war levels. Precisely at this stage, with the prices sky-high, all restrictions on the profiteers have been lifted.

The workers who have already been squeezed to the wall on food and clothing now face in addition a super-squeeze on shelter. Truman's latest promise to maintain control of rents. is worth as little as his previous pledges to keep down the price of meat and other necessities. As a matter of fact, Truman's decontrol order acknowledges that "some adjustment of rents will be necessary." This means that the rents will first be hiked "legally" and then all bars will be let down for the rent-gougers and the real estate sharks.

However, the situation is by no means hopeless. There is an effective way to maintain the rent ceilings-not through reliance on Washington but through the organization of the tenants themselves. Their strength lies in their great numbers; their weakness lies in the lack of awareness of their real power.

The effective answer to the profiteering landlords is to organize tenants' leagues in the neighborhoods, on a house to house basis and black by block. Mass opposition to evictions, rent-strikes, and similar determined actions will quickly force the rent-gougers to sing a different tune.

Civil War. It can very well be crats, the higher-ups, and all -Constance Locke

Our Program:

1. Defend labor's standard of living!

A sliding scale of wages-an escalator wage clause in all union contracts to provide automatic wage increases to meet the rising cost of living!

Organize mass consumers committees for independent action against profiteering and price-gouging!

Expropriate the food trusts! Operate them under workers' control!

2. Full employment and job security for all workers and veterans!

For the 6-hour day, 30-hour week! A sliding scale of hours-reduce the hours of work with no reduction in pay to prevent layoffs and unemployment! Government operation of all idle plants under workers' control! Unemployment insurance equal to trade union wages for workers and veterans during the entire period of unemployment!

3. Against all anti-labor laws and government strikebreaking!

No restrictions on the right to strike and picket! No injunctions! No compulsory arbitration!

4. Build an independent labor party!

5. Tax the rich, not the poor!

Repeal the payroll tax! No sales taxes! No taxes on incomes under \$5,000 a year!

6. An 18 billion dollar appropriation for government low-rent housing!

7. Full equality for Negroes and national minorities!

End Jim-Crow! End Anti-Semitism!

8. For a veterans' organization sponsored by the trade unions!

9. A working class answer to capitalist militarism and war.

- Take the war-making powers away from Congress! Let the people vote on the question of war or peace!
- Against capitalist conscription!
- Abolish the officer' caste system!
- Full democratic rights in the armed forces!
- Trade union wages for the armed forces!
- Military training of workers, financed by the government, but under control of the trade unions!

10. Solidarity with the revolutionary struggles of the workers in all lands!

For the complete independence of the colonial peoples! Withdraw all American troops from foreign soil!

11. For a Workers' and Farmers' Government!

MARC DAUBER 1922-1944

Two years ago, on November 18, 1944, the Socialist Workers Party lost one of its most talented young members -Marc Dauber, killed in action in Germany. Badly wounded, he had continued to shout in order to draw fire away from his platoon. He was

MARC DAUBER

posthumously awarded the Distinguished Service Cross, second highest medal, for heroism.

But Marc's heroism was more than valor on the battlefield. He was a soldier of the revolution to which he dedicated his life at the age of 17, when he joined the Trotskyist movement. From that day on. he lived and studied and worked to win a socialist society of peace and security for all.

By 1941, when he was only 19 years old, Marc had become an outstanding Marxist writer on military questions. His articles, which appeared in Fourth . International under the pen-name of James Cadman, were written with astounding maturity. Almost as much at home in German as in English, he also helped to translate an important article by Walter Held on "Why the German Revolution Failed." While carefully following the German officers' organ, Wehrmacht, he discovered in 1941 a report that Italian prisoners of war were singing the revolutionary song, Bandiera Rossa. This news was published in The Militant and reprinted in revolutionary and labor papers throughout the world, as an important signal of what was to come in Italy.

Marc was still a student, a senior at Brooklyn College, when he was drafted and sent overseas. Wounded on the Normandy Beach, he recovered but was soon back at the front. There he wrote to a friend, shortly before his death:

"I was just 22 the other day . . . These last two years have marked almost a qualitative growth in my entire outlook - how could I help but grow? It took a war to tear me from the classroom; maybe it's better thus - the events of the future, the rumbling and tremors of which can be felt in every chancellery, will not be decided in the schoolroom but in the streets and on the barricades. I think I'm amply prepared for that now in every sense."

Death in the imperialist war robbed Marc of his chance to participate in the revolutionary struggles for which he was still devotedly preparing. But throughout the world other young men and women are taking their places in the ranks he was forced to leave. His comrades will carry to victory the cause for which he fought.

address. Indicate if you do not want your name printed.

The Workers' Forum columns are open to the opinions of the readers of "The Militant". Letters are welcome on any subject of interest to the workers. Keep them short and include your name and

Veteran Describes Cross-Country Trip Editor:

Lately I've had a chance to travel through some of the mini-s and industrial areas of the east. I am from a small town near Los Angeles, and I was really shocked to learn that such a large portion of our population live in such large, filthy slum districts.

Some of the cities I saw are composed at least half of rabbithutch-like buildings, as dirty crowded as I've ever seen. There are few playgrounds and r rks, so the old and young alike have the choice of the sidewalks and streets for rest and play.

A heavy blanket of smoke covers most of the industrial cities and the sun is a rarity in many of them. The very atmosphere is gloomy, and the people have a sort of tired, hopeless look.

It seems to me like maybe most of the articles in your paper might not just be radical "hollering" but that there really is need for some immediate changes

As a combat veteran who has seen plenty of service, I cannot see why we must continue with the present system which has proven itself unable to provide for the needs of the great majority of people. So good luck, Militant. I hope you have a daily next year.

There Are No Pure Races

-By Grace Carlson -

In the October issue of that poisonous periodical, The Cross and the Flag, Gerald L. K. Smith gets off what are supposed to be some scientific remarks about inter-

and goes on to say:

racial mixing. He starts out

with an attack on Father Di-

vine for marrying a white girl

"I have made many enemies

among the so-called liberals because of my opposition to the mongrelization of the races. I am opposed to intermarriage of black and white.

believe that it tends towards degeneration and destruction of the race."

Like all others who preach in favor of race purity (in reality, race hatred) Gerald L. K. Smith is a fascist. Also, like all other race purists, Smith is 18,000 years too late. There are no longer any pure races to be kept pure! Anthropologists tell us that there were no pure races left after the great human migrations and general mixing of the races that occurred at the time of the last glacial period, 18,000 years ago.

Evidence for the truth of this statement lies in the fact that there are no clean-cut scientific differentiations between the so-called races. Racial classification is a very confused and arbitrary business. Some anthropologists classify the peoples of the world on the basis of skin color and come out with three, five or seven "distinct" races. Others use hair texture or skull structure and in this way derive any-

Within the next few months we are going

The Negro Struggle —

where from two to seventeen main races. The most widely-accepted system of classification speaks of three main races; the Negroid or "black;" the Mongoloid or "yellowbrown;" the Caucasian or "white." But there is

or Italian "whites." All three races have both long-headed and round-headed types. So, likewise, one will find straight-haired, woolly-haired and wavy-haired members in each of the three main races.

"Race" is, in fact, a political concept which has no precise scientific definition. But even though it is completely unscientific, the doctrine of "white supremacy" has been a very useful weapon in the hands of the American ruling class. That is why the Bilbos, Rankins, Talmadges and Gerald L. K. Smiths work overtime to get out their vicious propaganda about the danger of the "mongrelization of the races." People should have the right to marry whom ever they choose. They don't have that right today-not in the United States. But in the 3ocialist Society of the future, there will be no thought of the "superiority" or "inferiority" of one race or another. There will be full equality for the members of all races. Then, people will have a free choice in marrying—with no legal or social restrictions against interracial marriages. Nobody will be agitated about "pure races" then-only about the human race and the brotherhood of man!

now what are they going to do?

they don't want to go beyond that.

Stock Market Drops Despite GOP Victory

PAGE SIX

The Republican ballyhoo in the election campaign centered around the boast that a Republican victory would assure this country's moving at full speed toward unprecedented prosperity. They got their victory. But there will be no prosperity, fabulous or otherwise. At all events, that is the opinion of the stock market and the commodity exchanges.

On the day after the Republican successes, Wall Street, instead of greeting the election results with its customary enthusiasm, took another nosedive, recording the worst break in two months. The commodity exchanges followed suit. Cotton, which had been "stabilized" on the eve of the elections, dropped again \$10 a bale; wheat and corn sagged. On the next day, the stock market went through the motions of a feeble rally, but cotton kept sliding down the chute. None at all, in our opinion. The Republicans The explanation is not hard to find. The capitalists are only don't have to worry about appeasing Southern prepudice the way that the Democrats do, so too well aware that there is no political solution for their ecothey won't be so obviously anti-Negro in their activities and they may even make a few connomic problems. Moreover, the cessions. But beyond that they won's go because Republicans in power will not pursue a policy essentially different from that of the Democrats. Politically the Democrats had already swung so far to

the right as to become indistinguishable from their Republican colleagues. The removal of all government 'controls"-the pretended bugbear of the Republicans - has been virtually accomplished by

Truman. Yet there has been no change in economic trends. Signs that the post-war boom is drawing to its close are multiplying and not diminishing. The inventories of manufacturers, wholesalers and retailers keep growing larger and larger. The masses are able to buy less and cratic candidate by more than less of the increasing output of 245,000 votes.

true among the Negroes as well as the rest of the population. As

were part of the general trend to kick out the rascals who were in office. Some Negro voters fell for the hypocritical campaigning of the Republicans, which went something like this:

"We Republicans are the real friends of the Negro people. We favor an anti-lynch bill, an FEPC, a bill to end the poll tax, etc. But we have been a minority in Congress for many years. and we could do nothing so long as the Democrats, especially the Southern Democrats, were running things in Washington." And so on.

It was very easy for them to talk like this, because it did not really commit them to anything. The record of Congress could always be placed at the doorstep of the Democrats. Dewey and all the other Republicans delivered speeches against Bilboism-it was cheap, and it might bring them some extra votes.

But now the Republicans no longer have their campaign excuses. If they want to, they can enact the legislation demanded by the Negro people during the first month of next year. They made the promises, they have the votes -

January And The GOP

- By William E. Bohannon

The Republicans were able to houses of Congress for a full ten years. In all pick up a great many votes bethat time they did not lift a finger on behalf cause people were dissatisfied of any of the legislation they now pretend to with the Democrats. This was favor, including the anti-lynch bill. What reason is there to believe they will act differently now?

this is written, it does not appear that the socalled Negro vote as a whole made a big shift. but it is plain that more Negroes voted Republican this year than at any time since 1932.

Some Negroes voted Republican because they

The reason for this is that the Republican Party, like the Democratic Party, is a servant of Big Business. And Big Business is interested

in keeping the workers divided, not in eliminating inequalities; it is interested in maintaining the myth of "white supremacy," not in giving recognition by law to the right of equal opportunity for Negroes.

Why should we expect that Republican politicians will pass a law aimed against discrimination in industry when the employers (including the Republican employers) are the chief instigators of industrial Jim Crow? And why should we think the Republican politicians will pass any measures aimed against segregation in the armed forces when the generals and admirals (including the Republican generals and admirals) are the chief exponents of military Jim Crow?

If anyone has any illusions on this score. he won't have them for long. Next January will tell the tale.

A Conspiracy Against The Youth Bu Ruth Benson-

Wall St. Vs. The Veterans

- By Alvin Royce -

Dr. Henry D. Gideonse, president of Brooklyn College, has just uncovered a dire "conspiracy against the youth." He described the

position "of a bird pecking at a beautiful fruit through a plate glass window." The fruit is the decent living standard that is kept out of their reach by the barrier of capitalism, with its poverty, depressions and wars. But Gideonse isn't paid for finding solutions. Like a good Wall Street stooge, he's just

thinking up ways of blaming other people for Wall Street's crimes. So he concludes that the "conspirators" are all the people who tell the youth that someday they can have that fruit which is now kept behind glass.

He lashes out at the unions which fight for higher wages and more security for their members. He takes a noisy whack at the veterans, who think they're entitled to some of the comforts and security that they were promised during the war. He sneaks in a warning to teachers who want higher pay so they can meet the soaring cost of living. He even chides parents and pastors for instilling hope in the boys and girls under their care. He doesn't

Veterans' Problems

miss anybody except the real conspirators! For instance, he never speaks of the way young people are barred from colleges by high tuition fees. He ignores the even more flagrant Open Shop Laws plot by which Negroes and Jews are refused admittance to most of the colleges and universities because of race or religion. The colleges are endowed by Wall Street, they follow Wall Street's policies, and Gideonse's pay depends upon the capitalists' approval.

There's a plot afoot to dragoon the youth into the army by military conscription, in preparation for a Third World War. But Gideonse has no objection to that scheme!

There's a conspiracy of real estate interests to prevent the building of low-cost housing. That condemns the youth to remain in firetraps and rat-infested hovels, and to give up their "fancy ideas" of having a home or apartment of their own. Gideonse can't see anything wrong in that!

In fact, Gideonse can't see anything wrong with the world except the "discontent" with all these crimes of capitalism. That's mentally "unhealthy."

It will lead to the fusion of the youth with the unions and the veterans, and together they will be strong enough to remove the glass barrier. and enjoy all the fruits of the world!

outlook among the top circles of the American ruling class. That is why they have "discounted" the Republican victory and are taking what the N. Y. Times calls a "realistic attitude."

arouse wide enthusiasm among the masses, as in the case of the **NO** early Roosevelt campaigns. But despite all of Boss Hague's efforts, and despite the PAC en-

House of Representatives. DECIDED SHIFT

Anti-union, open-shop interests struck three new blows at organized labor when they swung majority votes in referendums on Nov. 5 for amendments to state constitutions banning closed shop Dakota and Arizona. This raises to 11 the number

of states that have adopted such so-called "right to work" laws of the campaign badly discredit- been guaranteed re-election since 1943. None of these "right to work" laws protects the workers from being fired by the bosses. They all protect the bosses who want to hire anti-union elements in order to undermine organized labor and destroy union

security. Union leaders in all three states have declared they will fight the application of these laws, John Guenther, president of the Nebraska state AFL, said; "The battle has been joined; they have asked for it and that's what they are going to get."

The Nebraska amendment prohibits "written or oral" contracts between unions and employers that provide for employment of only union members. designed to make confidential

Army Concedes New Trial For Lemas Woods

The War Department has. been forced to recommend a new trial for Pvt. Lemas Woods Jr., whose death sentence was recently exposed by the CIO United Auto Workers as the deliberate conviction of an innocent man.

The 23-year-old Negro soldier. a member of UAW Detroit, Local 208, was court-martialed on a murder charge in the Philippines several months ago, after the death of a fellow-soldier. It is now known that Army officers extorted a "confession" from Woods by beating and intimidation, then appointed as "defense counsel" a man who knew nothing about law. Woods later repudiated the "confession" and declared that the shooting was accidental. He said that bullet holes in the mosquito netting which had covered the dead man, would prove his innocence.

But Army Intelligence men told his inexperienced "counsel" that the holes "didn't mean

anything." The net was never introduced as evidence. The conviction was so brazen that pointed out the weakness of the case and declared that Woods "had acted like an innocent man!" His statement, like the evidence of the net, was suppressed,

Intervention by the UAW has now won a new trial, to be held when Truman signs the required papers. It has also served to machines and the opportunism by the first state-wide election also received to the radio broad- character of the courts-martial,

Wall Street's drive against the conditions of the veterans is continuing at a rapid tempo. The Veterans Administration is not satisfied with the "starvation ceiling" clamped upon the veterans just a

few weeks ago. These fat-salaried bureaucrats want to drive the living standards of the veterans even lower. A United Press dispatch from

Washington, D. C. early this month plainly shows where the VA stands. "No matter how high the cost of living goes," the

dispatch states, "the Veterans Administration does not plan to ask Congress to increase GI tuition and employment training subsistence allowances.'

This revealing item was stuck in an obscure corner of the inside pages of some of the paid press and omitted completely by most papers. This journalistic hide-and-seek is no accident. There is a consistent campaign to divert the veterans' attention in every direction but his own standard of living.

If the workers generally are trapped in the nightmarish inflationary spiral, there are hardly words that can describe the plight of the vet-

12

erans. A recent survey showed that the average

large scale unemployment, most veterans have all sorts of debts piled on their shoulders. Upon their discharge they were forced to pay fabulous prices for every one of the necessities of life. As home seekers they were victims of the most scandalous swindles perpetrated by greedy landlords.

Enough money was spent in one week of World War II to give every veteran a bonus of \$5,000. Surely, since decent jobs are lacking the vets deserve and need an adequate bonus, now! In answer to rising cost of living, veterans every- trend of state legislation against where must demand that the GI Bill of Rights | unions.
