## **Stalinist Party TRUMAN AGREES TO SERVE Polls Biggest Vote In France**

#### **Extreme Reaction Gains From CP-SP Policy** Of Coalition With Capitalists, Returns Show

#### By John G. Wright

As a result of the Nov. 10 elections in France the Communist Party (Stalinists) has emerged as the strongest single party, polling almost 5½ million votes and gaining 15 seats in the Assembly. The Socialist Party, at whose expense the Stalinists made their gains, went into a tail-

spin, losing 27 Assembly seats. The depth of the crisis | convulsing the SP is indicated by the fact that since last year's October elections this party has lost 725,000 votes. It will continue to be torn apart.

The MRP, the capitalist center party, likewise made gains at the expense of the SP. But despite this, the MRP dropped from its position as the leading party and was barely able to hold its own so far as representation in the Assembly is concerned.

#### LOSES TO RIGHT

In its popular vote the MRP lost about half a million votes. It lost them to the extreme Right wing. We have here the familiar political phenomenon of the middle-of-the-road parties being ground to pieces as the process of class polarization takes place in the course of a social crisis.

While the successes of the Stalinists appear quite spectacular, significant gains were scored by the concentration of naked capitalist reaction-the Republican Party of Liberty (PRL) in alliance with the Gaullist Union. Their popular vote, representing a gain of about 800,000, rose well above the three million mark, matching the popular vote of the Socialists. In FRUIT OF TREACHERY the Assembly they gained 17

seats. At first glance the electoral successes of the Stalinists appear to represent a definite left- pening to the combined vote of ward shift in France. But this the CP and the SP; and on the is only partially true. It applies other, the growing power of the to that section of the workers | extreme Right. who previously supported the 'By November 1946 the com-

#### **Higher Vote For French Trotskyists**

The French Trotskyists received 59,824 votes in the Nov. 10 elections, according to the Daily Worker of Nov. 12.

This figure represents a aain of 33 per cent over the vote received by the Trotskyists in the previous French elections, held last une.

developments in the course of the last 12 months will make this amply clear. The sharpest leftward swing thus far in France was recorded in October 1945 when the combined vote for the CP and the SP amounted to 91/2 million, giving these two parties a total of 299 seats in the Assembly, or a working

majority. The masses voted for the working class parties because they wanted socialism. But the cowardly leaders of these parties worked instead to block the socialist path of development and to preserve the rule of the bankrupt French capitalists.

#### The fruits of this treacherous

policy become obvious when we take into consideration, on the one hand, what has been hap-

ers' goods. has brought still deeper slashes in the American workers' living standards.

Among the food items soaring in price are meats, butter, flour, bakery products, fats and oils. Beef, pork and lamb again have gone up in price after a temporary slight decline when hoarded meats, backed up in warehouses were dumped on the market.

In the week after Truman's order, wholesale hog prices jumped \$2 to \$4 per 100 pounds. Wholesale butter advanced three cents a pound and flour 15 cents per 100 pounds. These will lead to sharp advances in retail prices. Moreover, by mid-winter, another meat shortage is anticipated, which will drive prices up still further. Already there is a slackening in livestock sent to the slaughter houses.

Big price rises on shoes amounting to 15 and 25 per cent above present levels are forecast. Hide prices have already shot up from 15½ cents to 32 cents a pound. Rayon, a popular textile for lowpriced garments, will soon be out of reach of many consumers as

a result of expected higher prices.

through.

with members of and form a Labor Party without (Republican - controlled) delay. Congress," says the Democratic

chief, "and my hope and prayer is that this spirit of co-operation will be reciprocated." What this means in practice is that the Republican majority in Congress will dictate the main line of policy-and Truman is ready to go along just as far as he can.

Truman's open declaration of submission to the Republicans removes the last pretense that any appreciable differences separate the two parties. It serves notice upon the workers that his administration intends to steer an even more conservative course and will drive steadily toward the right. This means intensified reaction all along the line, directed first and foremost against

Accusing Truman of "appeasing the forces of reactionary greed" by his decontrol order, New York State CIO President Louis Hollander warned of a coming strike upsurge and increasing pressure for third party action by organized labor.

Hollander predicted that such a third party would become a "first party" here, just as the Labor Party became the leading party in England. Nevertheless, instead of calling for a break with the Democrats. Hollander merely begged Truman to "return to Roosevelt's policies."

Sen. Morse, GOP "Liberal" **Minimizes Anti-Labor Threat**

## These Charts Tell The Whole Story Labor Speedup **On Wages And Prices**

PRICES, TAXES AND WAGES

n manufacturing industrie

have fallen from the peak

so that weekly earnings are

not down so

These charts are from the October report of Reconversion Director Steelman. The one on the left, headed "Peak in Corporate Profits," shows that the profiteers by the end of the third quarter of 1946 were raking in profits, after taxes, at an annual rate of 11 billion dollars. Right now, due to further price rises, the rate has reached 14 billion-nearly five billion over the tremendous annual wartime average.

By Art Preis

The Big Business answer to the depression that everyone agrees is coming is to call for "more production" and 'no wage increases.'

summed up by Marriner S. Reserve Board. He said a "slump" can be overcome if (1) been advocating productivity." "productivity per worker can be raised—this is most important" and if (2) "large-scale industrial wage increases can be avoided." reference to profits. It tells the to surpass the July 1941 peak. workers to work harder and turn

**KEY TO AIMS** 

42 43 44 45

have driven 'real' wages back

CONSUMERS PRICE

But the rise in prices

This conspicuous reluctance to discuss profits gives a key to the real aims of Big Business in its all-out drive for "more production" and "no wage increases."

A depression for the workers means that there is widespread unemployment or part-time employment and declining purchasing power. But for the bosses a depression means primarily one

thing-declining profits. We remember how the government and Wall Street were calling it a "boom" back in August 1937 while there were still of government-owned "sur- $8\frac{1}{2}$  to 10 million unemployed. That "boom" consisted of high another 121/2 billion dollars" profits. So today, when the employers talk about "avoiding a depression," they really mean keeping their profits up to peak the WAA, and "these developlevels.

It doesn't matter to the capitalist whether he produces more plus." goods or less. What he wants

is more profits. WHAT HAPPENS The monopolies would like to ell as much goods as possible,

produced at the lowest wage cost and sold at the highest price. But what soon happens is that the masses can't buy all the goods ing depression on the workers. produced with the low wages they receive and the high prices they their profits, despite lower total must pay. Merchandise piles up production, by squeezing more in the warehouses.

Then, rather than keep turnng out more goods they can't of production and by reducing sell, the bosses curtail production or "cut costs" by paying to turn out the same quantity of the workers less for more work, production, the bosses will make so the capitelists can sell at low as much profit as ever. prices or sell less goods and still

Worlding accumulated faster than they were being shipped to consumers" and particularly in the auto industry where "storage space has become filled with cars ready to go out as soon as these short parts are available. Obviously these virtually finished cars are included in inventory."

The hue and cry for "more production" has gone on while tens of billions of dollars in goods have been withheld from the market.

#### "DIFFICULTIES"

On top of this, we learn from a statement on Oct. 30 of the War Assets Administration that it is "running into difficulty" selling 11 billion dollars' worth pluses" and expects to have still worth to sell soon. "Industrial production is rapidly filling the gap of unfilled demand," says ments foretell a shrinking market and lower recovery for sur-

So the clamor for "more production" really adds up to a demand for lower "labor costs" to maintain profits even if total production declines or prices fall.

The corporations plan to unburden the full load of the com-They are preparing to maintain labor out of each worker. By reducing the "labor cost" per unit the number of workers required

of hundreds being hired, none were Negroes. The company said that Negroes did not meet the requirements. The union demanded a list of these requirements, and the company finally said it was hiring only veterans from the ages of 21 to 28 with a year's overseas service and a high school education. We contacted our Negro brothers in other CIO unions. They sent men with all qualifications to the plant. Time went by, and none were hired. They reported that they had been treated politely, told they would be notified when to report for work-but never called in.

Cherne, executive secdent Philip Murray. The TWU agreed to submit its demands to a special committee established by O'Dwyer. After long delibera-

tion, this committee made its recommendations last September.

MASS MEETING

On Oct. 4 the Board of Transportation agreed to wage increases but refused to act on the other two disputed demands. This in effect ruled them out and reversed the Advisory Committee's recommendations.

The TWU held a mass meeting of 6,000 workers last week before the offices of the Board of Transportation. At this meeting, TWU officials announced a general membership strike vote would be taken tomorrow and Thursday.

This brought O'Dwyer hastily back from a California trip for last-minute attempts to avert a strike that has been threatened three times since he took office last January 1.

THE MILITANT

# Victims Of Gestapo Torture Need Your Help

The American Committee for European Workers Relief has made public a letter it has received from Solidarite International Ouvrière, a French distributing committee which cooperates with the ACEWR. The letter is from one of the French workers who is receiving help in the form of food, clothing and medicine collected by the ACEWR. In it this anti-fascist worker describes his arrest and imprisonment by the Gestapo:

On the 26th of October, 1943, my wife and I were arrested by the Gestapo. We were accused of circulating and propagating in the German army pamphlets aimed at the demoralization and corruption of the German soldiers, and sabotage of the German Military defense. This work was effectively done in union with the Germans, both refugees and anti-Nazis. The results of this work were already

rather important when the Gestapo was tipped off. They succeeded in introducing an agent-provocateur into the ranks of a group of German soldiers in Brittany and in obtaining information through him which though vague, was sufficient to proceed to an inquiry and some arrests.

My wife and I were arrested on the morning of October 6. For 17 days I was submitted to an examination on two principal questions: "What is Victor?" ( German member of our group) and "Who is Vidal?" (a French member). The method used in this examination was simple. No discussion — only physical and mental torture.

From six o'clock in the morning on, I was shut up in a cell painted entirely white, 60 centimeters wide and 130 centimeters long (100 centimeters are a few inches more than one yard). I was made

to kneel on a triangular steel bar, my wrists pulled back and bound behind to my ankles. My head was held in a helmet with a sharp point at the forehead and two points at the sides of the head. A kind of sunlight supplied by a 300 volt lamp was directed at my face, provoking the congestion and the rupture of the blood vessels of the eyes, ears and nose.

I stayed in this position until 11 p.m. except for two interruptions of one hour — one in the morning, one in the afternoon -when the aforesaid interrogation took place. I was then laid down, my abdomen on a table, my feet, ankles and buttocks bare. A policeman put the proofs under my eyes and asked me the questions about Victor and Vidal; two policemen beat me with a lash on the naked parts of my body.

This procedure not having succeeded in

**Terror In Jerusalem** 

making me talk, it was replaced at the end of eight days by hanging by the wrists held behind, weights suspended from the feet, blows of the lash on the back. After this second procedure proved as ineffective as the first, hanging by the feet and immersion in an electrode bath with electrodes at the feet, with a high frequency current, was tried. Finally, pressure by means of presses on the ends of the fingers, toes and sexual organs.

After each of these procedures, I was taken before the headlight and the steel bar. In the evening, at eleven p.m., they took me back to the prison where I was again chained hand and foot to a ring nailed to the wall. I slept curled up in this position on a metal frame without a mattress. Cold soup was placed on a stool near my head in such a way that I had to lap it up like a dog.

On November 23 the torture and questionings were stopped. I stayed in the prison but this time without chains and with a mattress on which to sleep, until the 26th of January, at which time I was deported to Buchenwald. I stayed there for 43 days and on the 13th of March I was transferred to the subterranean camp at Dora, where I lived under conditions now known to all as having existed in the extermination camps.

During my inquisition in the Paris prisons, I contracted serious eye and muscular lesions, and during my stay at Dora I developed pulmonary tuberculosis which makes it impossible for me to work now. My wife arrested at the same time as I, was not tortured physically except for several slaps and punches. The pressure was principally psychological; description of the treatment I was undergoing, a lie that our little girl had been arrested.

She was deported to Ravensbruck where she worked 12 hours a day on the grounds, then to Hanover where she was put to work curing rubber - finally to Belsen which was particularly severe. She contracted typhus and suffers now from all the post-typhus effects, severe debility, bone disease, cardiac lesions and tuberculosis. If you wish to help this heroic anti-

## Wages, Prices and Profits\_ How The Monopolies Make Their Profits

– By Warren Creel –

We live in the age of monopoly, and of monopoly competition. The central clue to the age of monopoly is the fact which we have previously discussed, that monopolies are parasites. They get monopoly profit only by draining labor, value from production carried on by other industries. They don't produce the labor value of their own super-profit. They can't, because they get superprofit by holding down production, by selling monopolycontrolled goods at high prices.

Parasites need victims. So in the age of monopoly we see more than an increase of monopolies. We see an increase of victims of the monopolies.

Monopolies can be found only in connection with the economic victims they feed on, just as sheep-killing wolves can be found only where there are sheep. Therefore in the age of monopoly we must look at the economic scene as a whole. In our own country we find at one end of the scale a few giant financial houses, making great profits without any production. To make that possible there must be, at the other end of the scale, depressed industries like agriculture, carrying on production without any profit. In between there is a wide range of industries, paying more or less of their labor-value to the monopolists.

The monopolies get great reserves of profit, so they are protected in part from economic disasters. But other industries, which lose profits to the monopolies, are hit even harder by economic crises. As Lenin put it, "The statement that cartels (monopolies) can abolish crises is a fable spread by bourgeois economists who at all costs desire to place capitalism in a favorable light. On the contrary, when monopoly appears in certain branches of industry, it intensifies the anarchy inherent in capitalist production as a whole ... The privileged position of the most highly cartelized industry . . . causes a 'still greater lack of concerted organization' in other branches of production . . " (Imperialism, page 28).

Some economists have said that capitalism would become healthy in an era of "super-monopoly" or "ultraimperialism" when all basic industries have reached the monopoly stage. (We have practically reached such a point of universal monopoly right now.) In that day, they said, all industries would be strong and stable. But capitalism demoralization of the officials is "solution" of the Spanish probbecomes less healthy and less stable as monopolies grow, reflected by a certain relaxation lem by the "democratic" imperi-in Spain and to find a favorable their policy of collaborating with this way they will continue to and the Marxist analysis shows us why. In the elections last June this neo-fascist party was unable to poll more than 10 per cent of the vote anywhere except in two southern cities, Palermo and Naples. In the space of five months the situation has sharply altered. The Common Man Front has now grown powerful enough to take the lead in Palermo, to run second in Rome, third in Naples and fourth in Turin, Genoa and Florence. Here even more strikingly

**DE GASPERI** 

We know that the wolves would then have to start eating each other. The result would be not universal peace as the bosses. but universal war. Looking around us we see that the age of monopoly has brought universal war in fact.

Toward the end of the last century, in the few leading industrial nations of this world, monopolies grew to the point where they used up the home supply of competitive industry. That ended the normal era of monopoly superprofit. The monopolies had to look outside their home territory for production and markets to feed on. That monopoly search for parasite income brought the age of modern imperialism. In a few short years the capitalist industrial nations of the world conquered and seized most of the area of the globe for imperialist colonies. Lenin analyzed this process in detail in Imperialism. He defined modern imperialism as the monopoly stage of capitalism because the drive for imperialist expansion comes from monopoly need for parasite profits.

After a while the imperialist nations used up the growing room in occupied colonial territory. Then they had to begin taking colonies away from each other. This was monopoly competition on an even higher level. Great national combines of capitalists fought for markets, not with salesmen, but in the direct way with guns and bombs. The two imperialist world wars are the most intense forms that monopoly competition has reached so far.

The fruit of this competitive struggle is the same as always. We find now, at one end of the scale, a victorious United States, but at the other end of the scale we see a world of nations economically depressed, unable to rise out of poverty. These are the two necessary sides that make up the monopoly scene on a world scale today. And even while the American monopolists celebrate their victory, they find that the depressed world supplies only a poor feeding ground for their needs.

This economic situation is the setting for the present problem of wages and prices.

## Lenin's Teachings On Disarmament

#### By Joseph Hansen

When Molotov urged "disarmament" and the "outlawspecial districts. This move is speech of Roosevelt on the "Four ing" of atomic warfare at the United Nations, the Stalinist Daily Worker of Oct. 31 hailed the proposal as "in the great tradition of Soviet statemenship from the days of

Consequently Lenin considered in, it is "disarmament" as "used by Kautsky and the Kautskyists . . in the sense of reduction of armaments" that Molotov

the socialist movement knows, was the leading theoretician of the Second International who betrayed the cause of socialism during the First World War and opposed the Bolshevik revolution. All the leading Bolsheviks attacked Kautsky as a vile and cowardly traitor. Yet Molotov advocates the Kautsky kind of "disarmament."

Lenin contemptuously dismissed Kautsky's slogan of "disarmanent" in passing. With the exception of his observation on the sentimentality of the Kautskyists, Lenin's caustic comment applies word for word to Molotov's present proposal before the United Nations:

#### **OPPORTUNISM**

"The Kautskyist advocacy of Leinin therefore tried to edu- 'disarmament,' which is addresscate the workers to view the slo- ed to the present governments. gan of "disarmament" as a of the imperialist Great Powers, is the most vulgar opportunism, talists themselves are interested it is bourgeois pacificism, which actually-in spite of the 'good To demand "disarmament" as intentions' of the sentimental defined here, said Lenin "is Kautskyists-serves to distract tantamount to the complete the workers from the revolutionabandonment of the point of ary struggle; for this advocacy view of the class struggle, the imbues the workers with the renunciation of all thought of idea that the present bourgeois governments of the imperialist Lenin doesn't sound at all like Powers are not bound by thou-Molotov or the editors of the sands of threads to finance capital and by scores of hundreds of corresponding secret treaties (i.e., predatory, plundering treaties, preparing the way for imperialist war), between each

"Capitalism will not

#### "National Menace"

Daniel J. Tobin, Czar-President of the AFL Teamsters, is again basking in the warm praise of bankers, industrialists, Southern and Northern congressmen and the Big Business vulture-press. His achievement is five lines of type, suitably set off in extra-black ink, in the November issue of his personal organ, The International Teamster. They read:

"Strikes have become a national menace. They are an invitation to inflation and depression. They must be curtailed or the nation will sink into chaos and organized labor will perish."

Strikes are indeed a menace—to the swollen profits of the corporations, to the plans of Wall Street to wreck the unions, to the manufacturers' scheme to cut wage costs, fire workers and increase profits by speeding up the workers under the slogan of "more production!"

But a closer study of the article containing Tobin's plagiarism from the editorial columns of the Wall Street Journal-an article entitled "Wildcat Strikes Must Be Stopped"shows that Tobin considers strikes more particularly a "national menace" to Tobin.

It appears that "some members of this organization believe that strike benefits are automatic"-a notion that Tobin is trying to correct. And the main theme of the article is that while the Teamsters international treasury contains the tidy sum of \$16,000,000, it isn't going to be expended for any strikes that are "unauthorized" by Tobin.

Even though that \$16,000,000 comes from the hard-earned wages of the truckdrivers, Tobin looks on it as his personal property. He takes some \$60,000 a year—and up—in salary big minority who voted against the amendment is a clue to why Sparks was so anxious to get the amendment through. The Democratic white ruling class fears nothing so much as a democratic expression of the people-for then the millions of oppressed white and Negro toilers of Alabama and other Southern states would band together to blast from their high seats the degenerate rich whites who rule the South.

### Crisis In C.P.

The American Communist (Stalinist) Party continues to be convulsed by an internal crisis. The leadership seems unable to restore its prestige and authority. The rank and file is simmering with discontent over party policy.

The cause of this crisis is not difficult to uncover. During the war the Stalinist rank and file were forced to act as strikebreakers and jingoes. The Browder leadership advocated the no-strike pledge, the wage freeze, and openly supported the Wall Street war profiteers.

This line, of course, originated in Moscow. Browder's dissolution of the Communist Party was strictly in accordance with Stalin's dissolution of the Communist International.

With the close of the war, the Stalinist leadership tried to appease the outraged feelings of the rank and file by expelling Browder. They tried to make a scapegoat out of Browder and unload all their political crimes on him. They promised a turn to the "left,"

Many rank and file Stalinists greeted this development with relief, hoping that the campaign to stamp out "Browderism" meant a return to the revolutionary socialist politics of Lenin.

But they have been bitterly disappointed.

The Foster-Dennis regime has proved that it is no more "leftist" than was Browder's regime. Foster and Dennis have not been quite as brazen as Browder in hailing Wall Street. However, like Browder, they too have practised "coalition" or more properly defined, classcollaborationist, politics.

In the November election they campaigned for the red-baiting candidates of the reactionary Democratic Party machine. In supporting Wall Street banker Lehman, for instance, the Daily Worker was distinguished from the N. Y. Times only by its more sickening enthusiasm.

Foster and Dennis are answering the mounting discontent of the rank and file in the usual Stalinist manner - with bureaucratic expulsions. These brutal expulsions should serve to teach the workers in the Communist Party what the Trotskyists have maintained for many long years that the Stalinist bureaucracy cannot be reformed.

Workers who want a Marxist party will not find it in the American Communist Party. We invite the discontented workers in the Communist Party to examine the program and writings of Leon Trotsky and the publications of the Socialist Workers Party. The Trotskyists are the only ones who represent genuine Leninism in America.

#### **Colonial Despots**

One of the revolting aspects of imperialism is its hypocrisy.

The Dutch capitalists invade Java with fire

"Election returns never bother ME — I always find that it pays to contribute to BOTH parties."

On Dec. 2, 1859, John Brown was hanged.

Brown, tragically wrong in believing he could summon up an would be a signal for slave-revolts insurrection by his own bold stroke, was right in declaring that "reasonable" talk would not the Civil War Slavers and reformers alike sneered at his "fanaticism." But his ideas lived and inspired thousands. Workers who read Ehrlich's book today will be equally

against capitalism, for Brown

--- Ruth Benson

#### SATURDAY, NOVEMBER 23, 1946

## **NAM Gives Picture** Of U. S. In Next War

The top circles of the American ruling class are discussing quite frankly among themselves just what course they will follow at home in their projected war against the Soviet Union. Part of this discussion was made public by the November issue of The International Teamster which cites from a recent bulletin issued by the National Association of Manufacturers.

The Militant has warned time and again that Wall Street's war plans against the Soviet Union entail enslavement for the American workers. This is borne out to the hilt by the NAM bulletin which speaks of the institution of slave labor in the U.S. as a foregone conclusion. Here is how this is put:

"If war with Russia should come, the concensus among Washington officials is that national service ... will have to be imposed immediately."

In order to impose "national service"-read: conscript labor-the plan is to "conscript" industry as well. Or as the NAM bulletin phrases it:

"This in turn would necessitate the conscription of all the productive and transportation resources of the nation . . . It would be politically impossible, these government leaders agree, to force labor to work in plants that are operated on a profit basis."

In other words, the plan calls for the same methods and demagogy as employed by Hitlerite Germany.

To round off the picture, the NAM stresses that the war against the USSR will by far surpass the duration and costs of World War II:

"Few military leaders believe Russia could be defeated by atomic bombs alone. They believe invasion and occupation would be necessary, at a terrific expenditure of lives and material. One top official estimated that the cost of a war with Russia would increase the national debt by 500 billion to 1,000 billion dollars."

The only problem that bothers the NAM is how such a monstrous burden could be successfully unloaded on the already overstrained mass of the people.

## **Bilbo Combines Graft** With Race-Hatred

Foul-mouthed race-hating Senator Theodore C. Bilbo of Mississippi, who was re-elected through fraud and violence, is facing sensational charges of receiving war profiteering graft amounting to some \$100.000.

Bilbo was elected to office by a privileged few, less than five per cent of the voting age population of the poll-tax state. He openly called in the last Democratic primaries for lynch terror against Negroes attempting to register and vote. How well he got paid for his services to the rich Southern interests he represents is now spilling out.

Charges against Bilbo include the following:

His acceptance of \$25,000 from the Newton-Glenn Construction Company, who were given the contract to build Keesler Aviation Field, Biloxi, Miss.

His acceptance of \$5,000 from B. L. Knost of the Knost and Morrissey contracting firm, who were also awarded valuable war contracts. His acceptance from Morrissey of a Cadillac automobile.

His acceptance of a "dream house built by Newton and Knost in the center of an eight-acre artificial lake.

His acceptance of \$4,500 for various appointments to the Naval Academy and West Point. His acceptance of fees amounting to \$3,000 in

tractor for contracts to construct an air field. Ac-

connection with attempting to quash income tax fraud indictments and other cases. The gift of a total of \$8,750 from a war con-

and expenses from this pile. He's voted himself a union-paid annual trip to Europe and other foreign parts. This treasury enabled him to build several profitable private enterprises, including an insurance racket.

A strike like the recent New York general drivers walkout, which was prolonged for a couple of months, constitutes a considerable drain on Tobin's "capital." It's true that the New York drivers, by defying Tobin's attempts to cripple their strike and settle on the bosses' terms, won a shorter work week and a 31cent an hour raise. But look what a strike like that can do to Tobin's treasury! That's a real "national menace."

Alabama Democracy

Down in Alabama on election day about two and a half per cent of the population voted for an amendment to the state constitution that requires any citizen who wants to vote to be able to "read, understand and explain" any provision of the U.S. Constitution to the satisfaction of the county registrars.

Approximately 80,000 white property owners put this over against a surprising opposition vote of about 70,000. The measure is frankly aimed at imposing an air-tight ban on the right to vote of a million Alabama Negroes, a third of the state's population.

Just imagine some race-hating white Democrat asking a would-be Negro voter to explain to the county registrar's satisfaction the meaning of the Fifteenth Amendment to the Federal Constitution, which reads:

"The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude."

Can't you see hundreds of thousands of Negro citizens denied the right to vote because. they "incorrectly explain" that the 15th Amendment is supposed to give them the right to vote regardless of their color. They just wouldn't understand plain English as it is spoken by the ruling Southern industrialists and land-owners.

Gov. Chauncey Sparks, who holds his office by virtue of the fact that less than nine per cent of the population-white and Negro -can cast a ballot, opined that the new law is a mighty good thing because it would "prevent a flood of Negro registration."

The Governor said he believes in giving the Negro "a measure of satisfaction in the segregation that gives him an opportunity to develop independently." But 'he's dead set against the Negro developing any political independence.

A new day is dawning in the South. The

and sword. But their purpose, so they claim, is to assure the Indonesian people continuation of the "benefits" of western civilization. Similarly the French capitalists shoot down the Annamese people with the best of all possible intentions — to assure Indo-China, the blessings of rule from Paris.

The British have long boasted of their remarkable magnanimity in extending their empire clear around the world solely to "enlighten" colonials. This high moral objective is carried out with such strictly educational methods as dungeons, concentration camps, torture and the periodic bombing of defenseless villages.

But it has been reserved to Wall Street to achieve the signal honor of pre-eminence 'in hypocrisy in carrying out its imperialist ambitions. Smug, self-righteous Wall Street propagandists disclaim any responsibility for the tyranny, terror and bloodshed inflicted on the colonial peoples by the European imperialists. Wall Street's aims, they assert, are the purest yet seen on this capitalist earth.

The generous intent to bestow America's great benefits on the backward regions more than makes up for any misapprehensions aroused because of the ruthless manner in which these benefits are shoved down the throats of the lucky "wards"-so reads the copy turned out by Wall Street's experts.

In the past week alone, however, two items in the press show what Wall Street's subject peoples think about dollar despotism.

On November 8, some 6,000 students of the University of Puerto Rico in San Juan staged a one-day protest strike against Truman's veto of a bill to restore Spanish as the official language in the schools. These students protested one of the most characteristic dictatorial impositions of foreign rule-a decree compelling all children to speak the language of the conqueror in the class room.

The second item is the report of 100 Filipinos maltreated at the United States Olongapo Naval Station in Bataan province. These men and women revealed from personal experience what U. S. despotism is like. Headshavings, slappings, and beatings were common, they said. Many had been hoisted from the floor by their tied hands. These tortures were inflicted as part of the "questioning" on such charges as "vagrancy' and "loitering."

On November 7 the Philippine Liberty News declared that the Marine security detail at the base was "as bad" as the Japanese conquerors.

These facts once again confirm what The Militant has consistently maintained since it was founded: That Wall Street's imperialism is no better than that of any other capitalist power. Wall Street imperialism is brutal, cruel and vicious—an ugly tyranny reeking with hypocrisy.

He formed a new plan — to The prosecutor read a preamble Brown had written for a new go deep into the South, and rouse constitution: the slaves to rebellion.

Wherever abolitionists met, out its existence . . . is none freeing all the oppressed. Brown begged for funds. Among other than a most barbarous,

## Our Program:

#### 1. Defend labor's standard of living!

A sliding scale of wages-an escalator wage clause in all union contracts to provide automatic' wage increases to meet the rising cost of living!

Organize mass consumers committees for independent action against profiteering and price-gouging!

Expropriate the food trusts! Operate them under workers' control!

#### 2. Full employment and job security for all workers and veterans.

For the 6-hour day, 30-hour week! A sliding scale of hours---reduce the hours of work with no reduction in pay to prevent layoffs and unemployment! Government operation of all idle plants under workers' control!

Unemployment insurance equal to trade union wages for workers and veterans during the entire period of unemployment!

#### 3. Against all anti-labor laws and government strikebreaking!

No restrictions on the right to strike and picket! No injunctions! No compulsory arbitration!

#### 4. Build an independent labor party!

#### 5. Tax the rich, not the poor!

Repeal the payroll tax! No sales taxes! No taxes on incomes under \$5,000 a year!

6. An 18 billion dollar appropriation for government low-rent housing!

#### 7. Full equality for Negroes and national minorities!

End Jim-Crow! End Anti-Semitism!

#### 8. For a veterans' organization sponsored by the trade unions!

#### 9. A working class answer to capitolist militarism and war.

- Take the war-making powers away from Congress! Let the people vote on the question of war or peace!
- Against capitalist conscription!
- Abolish the officer caste system!
- Full democratic rights in the armed forces!
- Trade union wages for the armed forces!
- Military training of workers, financed by the government, but under control of the trade unions!

#### 10. Solidarity with the revolutionary struggles of the workers in all lands!

For the complete independence of the colonial peoples! Withdraw all American troops from foreign soil!

11. For a Workers' and Farmers' Government!

ceptance of \$1,200 apiece from two other war contractors. The setting up of a \$25,000 fund for a church. out of which he purchased property for himself, inspired in their own struggle while war contractors claimed deduction for these

> contributions. Bilbo's anti-Negro, anti-Jewish and anti-labor activities fit in well with his role as a war grafter.

Because he made public some of the contents of his suppressed report on American fascist activities, Assistant Attorney-General O. J. Rogge was summarily fired on Oct. 25 by Attorney-General Clark, under orders from President Truman.

Rogge was fired two days after he told a Swarthmore college audience that the report, which Rogge himself had drawn up, indicated that the Department of Justice planned to drop its prosecution of 26 American fascists and contained details of growing fascist activities in the United States.

In his report, Rogge himself declared "that certain Supreme Court decisions handed down in 1944 and 1945 had brought me to the unpleasant conclusion that the Supreme Court would reverse any verdict which the Government obtained . . . and therefore, the government should nolle prosequi (not prosecute) the case."

Even more embarrassing to the capitalist government is the section of the report confirming, from Nazi sources, the dealings of America's leading corporations with the Nazis. The Administration is anxious to keep these facts buried particularly because its policy is to seek the rehabilitation of German capitalism as an ally of Wall Street in a war against the Soviet Union.

After his dismissal, Rogge told a meeting in New York that he had questioned a Berlin attorney, formerly in the service of Hitler's Foreign Minister von Ribbentrop, who said that he had come to this country in 1940 to strengthen connections between American and German capitalist interests.

The German envoy told Rogge: "My most important connection with American business was with the International Telephone & Telegraph Co., whose president, Col. Sosthenes Behn, was also a director of Standard Elektrizitats Gesellschaft, which was affiliated with IT&T."

Rogge's informant was also a representative of the Underwood-Elliott-Fisher Co., Eastman Kodak and the International Milk Co., all with interests in Germany. Among others visited by the German envoy were American representatives of the Texas Company, Faber Company, General Motors and Ford Motor Company.

Early in the war, Department of Justice prosecutions - since dropped - revealed some of the business dealings with Nazi cartels of Standard Oil, General Electric and scores of other giant American corporations that made profits from both sides of the battle-lines during the war.

"Wherefore, slavery, through- was a revolutionist devoted to

The Workers' Forum columns are open to the opinions of the readers of "The Militant". Letters are welcome on any subject of interest to the workers. Keep them short and include your name and address. Indicate if you do not want your name printed.

#### **Toledo Housewives' Chairman Thanks** 'Militant' For Support Editor:

As chairman of the Housewives Emergency Committee, I wish to thank The Militant for the fine cooperation and support given to the HEC when it went into action here in Toledo. We will keep you informed of future actions of our committee. Mrs. Alice Patton Chairman, Housewives Emergency Comm. Toledo, O.

#### **Workers Get Less As Prices Soar**

Editor:

I saw some figures in the Nov. 9 issue of Business Week that Disarmament show what's happened to the Editor: wages we're getting. And if anything, this Wall Street magazine exaggerates our pay.

Workers in all manufacturing industries were averaging 6 per cent LESS per week in August 1946 than March of 1945. The hardest hit were the workers in "durable goods" - shipbuilding, down 16 per cent; machinery, down 15 per cent; steel mills, down 12 per cent; durable goods as a whole, down 10 per cent.

Workers in light industry are doing better-on paper-because according to the figures they're getting seven per cent more than they were in March 1945. But it only looks good. Those are the workers who were not working such long hours on war jobs, and so the cut in overtime didn't affect them as much.

For instance, cotton manufacturing goods workers are getting 25 per cent more than they were in March, 1945-but NOW, with that 25 per cent raise, they only get \$34.81 per week. All they really got was a dollar a day more. And today prices have gone up so high that nobody can "support a family on \$34.81 a week even if he can pull rabbits

out of a magician's hat for supper.

## **Campaign Hit** Editor:

I heard one of your street meetings, read your platform and listened to a couple of the broadcasts in your New York campaign. While I do not agree with verything you say. I want to congratulate you on the way you put on your campaign. The Socialist Workers Party speakers hit at the real issues; housing, prices, discrimination. They didn't waste their time mud-slinging like other politicrs do at election time. It was the cleanest and most forthright campaign I've ever seen any

uccess in the future.

#### Diary Of A Steel Worker -

#### Memories On A November Day -By Theodore Kovalesky-

Wind and rain, teardrops streaming from broken clouds . . .

The November wind wails past the stacks and through the webs of the

high-tension wires. The cold November rains fill the red-brown gutters of the steel towns, wash the gray walls of the tenements, spatter on the farmhouse roofs, and sink

into a man's body with a shuddering chill. When you sit in the warmth of the union hall and hear the cry of

the November wind outside, perhaps you think of the sad November days when labor martyrs died for the cause of freedom.

It was November in 1915 when Joe Hill, the singer of our songs and fighter for our cause, stood with his back against a Utah prison wall waiting for the slugs that were to tear the life from his body. "Don't mourn for me," he said. "Organize!" It was a bleak November sky that looked down a moment later upon Joe's blood seeping into the prison yard.

And then there was Wesley Everest, waistdeep in the cold Chehalis River facing the mob who hated him for his revolutionary beliefs. It was a bleak November night that covered the respectable business men who dragged Everest away to torture him and then lynch him.

It was in November when other respectable people gathered together the smashed and rotten remains of a nameless "doughboy" and placed them, garishly bestrewn with medals, in the National cemetery at Arlington, where, with cynical, lying ceremony, they glorified the capitalist war of J. P. Morgan and Co. And still it lies there, that once mud-rotted, rain-washed, torn, broken body . . . a monument to the brutal greed of the capitalists.

It sometimes seems that the bleak winds of November as they wail about the open hearth stacks and sing through the wires are lamenting the fate of the people.

But if the winds and the skies could speak they would tell us that it was not the month of November for which they sorrowed.

For November will always be rememberednot for defeats, but for victory. It was during one November almost three decades ago that the workers struck back, and behind the fury of their blow were all the centuries of the misery of the poor. It was November in 1917 that saw the Russian workers, tormented and angered beyond all endurance, rise up, cast off the capitalist yoke, and found the first workers' state.

November brings to the furnace men the icy menace of winter, the first indication of the freezing winds that will sweep across the fur-nace floors bringing with them discomfort and **Sizable Vote** disease, of the thickening snow plugging the furnace yard and the streets of the steel town. November announces the coming of winter, which means not relief to the sweating furnace men, but additional hardship.

know what the winter means, and we hate it. But we don't have much to say about it: we know spring will get around sooner or later

And the great Russian Revolution is a precedent too. Things will get bad. Then they'llget worse. But one day, the people take a hand in the matter. And then, no matter what month it is, the socialist springtime of mankind will come with a bang!

Walker Polls Ohio In TOLEDO. Nov. 13 - The

PAGE SIX

workers of Ohio voted with their feet in the general. elections last week. A million fewer votes were cast in the state than in the election two years ago in spite of the last minute frantic efforts of the labor leaders to get out the vote for the Democratic Party ticket. On the day before the election, Richard Gosser, Lucas County Director of PAC, issued a call in the name of PAC for the workers to vote a straight Democratic ticket. This call did not have the desired effect as the Republicans won every office in the area.

Thousands of workers who had been reached by the campaign of the Socialist Workers Party cast their ballots in the Social Labor column and other thousands voted by sticker for Malcolm Walker the SWP candidate for Governor.

sizable vote in spite of the handi-

Walker toured the state in the more than 30 industrial cities. mining and farming communities, presenting the program and platform of the SWP to thousands of new workers. On Oct. 25 at Rutland, Ohio, striking miners in Meigs County enthusiastically received Walker's speech and backed up his fight-

peated. Numerous Stalinist Democrats, previously elected and

reelected from working class districts were thrown out of office.

machine politicians in county after Jan. 1.

democratic rights abroad are nothing but hypocrisy. The only people really interested in fighting for democratic rights in other countries are those who fight for them right here at home. All that Byrnes and Vandenberg want in those countries is the establishment of governments that will be friendly to Wall Street; when they

## Up on the furnaces, we know all this. We

. . because it always has. It's a precedent.

## The Negro Struggle -Free Elections Here And Abroad

- By William E. Bohannon Every couple of days you can read on the from the Democratic primary which was won by

front pages of the press how the U.S. government is sending complaints about the denial of free elections in Rumania and Bul-

garia and other countries not inder the domination of Washington.

But how about the situation a little closer to home? And I don't mean the situation in India or China or South Africa or Greece or other places where the U.S. government is strangely silent

bout the right of free election. I mean right here in the land of the brave and the home of the free.

Why haven't Byrnes and Vandenberg complained about Alabama which has just adopted the Boswell amendment reviving the old device for disfranchising Negroes by requiring registrants not merely to read and write but also to "understand and explain" the Constitution "to the satisfaction" of the lily-white Board of Registrars?

Why don't Byrnes and Vandenberg have anything to say about Georgia where the "white primary" is being revived in the Democratic Party, a one-party dictatorship in Georgia?

Why don't Byrnes and Vandenberg get indignant about Mississippi where an open reign of terror was conducted in order to bar Negroes

Only the successful struggle of labor in

hospital Recent studies show that nervous and mental disease takes a larger toll

Millions of people could be rescued from the mental scrap-heap if society were willing to spend the necessary money to save them.

We need more-and better-public institutions for the care of the mentally-ill. Some state institutions spend as little as 40 cents a day per patient, whereas many private institutions spend more than eight dollars a day per patient.

We need more psychiatrists in these public institutions. A doctor who has the care of 1,000 mental patients is simply unable to give any kind of modern individualized treatment. Authorities estimate that we need at least four

of the hospital beds in this country are occupied by mental patients, but there are only 32 centers for specialized training in psychiatric nursing. We need more mental hygiene clinics. Serious mental breakdowns can often be avoided if prompt clinical treatment is given to the early

time as many psychiatrists as we now have.

nurses that are now available. More than h

We need five times the number of psychiatric

case of nervous disease. But 25 states do not have even one mental hygiene clinic! We need more scientific research into the

causes and treatment of mental disorders. But less than 20 per cent of the public institutions for the treatment of the mentally-ill carry on any kind of a research program.

The money cost of World War II was \$335,-1000.000.000!

In the words of Dr. Henry Brosin, professor of psychiatry at the University of Chicago:

"One of the greatest lessons of the war is the disturbing contrast between the pin money we spent for constructive human pursuits and the huge money cost of destruction. The total money spent for all medical research in 1944 would pay for only eight hours and twenty minutes of this last war."

any question raised in Washington.

the light of Democratic Party propaganda since it first appeared on the horizon of Chicago politics five years ago, likewise has asked Truman to pack his trunks.

The New York Times, which speaks with all

the weight of Wall Street behind its editorial pen, is against any such "coup d'etat." The Times is sure that "in the long run Senator Fulbright will be glad that his plan was not taken seriously, either in the White House or in res-

On top of worrying about the atomic bomb and a few ounces of germ poison that can wipe out the population of Canada and the United States, now we've got to decide whether it would be a

The world hasn't got enough troubles it seems.

good thing if Truman resigned. Apparently the Democrats started this one too. It wasn't enough to give us a meat famine and the worst housing shortage in history. It wasn't enough to double and triple prices. They

had to raise the question about Truman quitting.

Senator Fulbright of Arkansas says Truman should appoint a leading Republican as Secretary of State and then toss in the towel. That would make a Republican the President. Fulbright is a Democrat. He is one of the young Wall Street political salesmen who flashes a high I.Q., served time in England as a Rhodes scholar and can give a complicated answer to

The Chicago Sun, which has been spreading

My personal advice is to forget this headache. What difference would it make if he resigned?

Besides there are a lot of practical obstacles.

and the flat and a manual manual second

公 议员

Should Truman Pack His Bags?

-By Joseph Hansen

Allah has spoken, how could prophet Truman disobey that voice? And that's not all. None of the Republicans

seem at all anxious about Truman resigning. Not a single one like Dewey, Bricker, Warren, Taft or Vandenberg has bitten on the Democratic bait about moving into the White House for the next two years. They prefer to wait until 1948.

ponsible quarters elsewhere."

All of them seem to be sure there's going to the American Youth for Demobe a depression cracking right sudden and they don't want to get caught short in the White House. Why go down in history as another Herbert Hoover? Why not let a punching bag like stay." Truman take the rap?

There's still another practical matter to consider in Truman's resigning. It's not every year that a lowly wheelhorse in the Pendergast machine hits the political jackpot the way Truman did. Wouldn't old Tom Pendergast rise up out of his grave if Truman turned \$75,000 a year and \$25,000 traveling expenses over to a wheelhorse in the Republican machine? That's pork!

Moreover, the housing shortage right now is tough-as you can find out by asking any veteran wandering around in a residential area. It's going to be tough the next two years too. In fact it's going to get worse. Meanwhile, why give up a good thing? The White House is mighty comfortable, especially with that swimming pool inherited from FDR.

On the face of it, the talk about Truman resigning isn't going to come to much. After all, man has proved he can jump just as fast, and just as high and just as far as any Republican when Big Business cracks the whip. So what's the point of resigning?

monstration was being run under anti-union drives." the exclusive direction of the CIO, and "stated that he was Secretary Paul Schnur to exclude the SWP from this conference."
