CIO Anti-Red Statement Supported by Stalinists

Baltimore co-authorship and support of the anti-communist activities of the CIO have been revealed in recent weeks, and the TWP is strongly opposed to this development.

"Unfortunately, the CIO is not known to have any significant influence in Baltimore," said a TWP statement. "But the presence of this organization in the area is a threat to the working class and to the progress of the revolution." The TWP called for a broad anti-CIO campaign in the city.

Court Battle Labor

Powerful United Labor Pickets Back Alchim-Chalmers Strikers

MILWAUKEE, Dec. 29--Thousands of United Labor supporters picketed the Alchim-Chalmers manufacturing plant here today in support of the striking workers.

The pickets, who numbered about 5,000, gathered outside the plant gates and prevented the company from hiring replacement workers.

The strike, which began on Dec. 21, was called by the United Labor, which represents the workers at Alchim-Chalmers.

The strike was called to protest the company's demand for a 20% wage increase and the company's refusal to negotiate.

The strike is now in its second week, and the situation remains tense.

The United Labor is demanding a 20% wage increase and the company is offering a 10% increase.

The company has threatened to lock out the workers if the strike continues.

The strike is supported by other labor organizations in the Milwaukee area.

The United Labor is affiliated with the Congress of Industrial Organizations (CIO).

16 On Trial For Treason

Police Role In Phila. Strike

FBI agents have arrested 16 striking workers at the Philadelphia Phila. Strike. The workers were charged with conspiracy and obstruction of justice.

The arrests were made after a six-week strike by the United Labor, which represents workers at the Philadelphia Phila. Strike.

The workers were charged with obstructing the flow of goods to the factory and with attempting to force the company to recognize the United Labor.

The strike began on Oct. 1 and has been called to protest the company's demand for a 10% wage increase.

The company has threatened to lock out the workers if the strike continues.

The strike is supported by other labor organizations in the Philadelphia area.

The United Labor is affiliated with the Congress of Industrial Organizations (CIO).

Two Weaknesses In The CIO Wage Policy

The major attack on the CIO wage policy is centered on two weaknesses:

1. The wage policy is based on a series of piecemeal agreements, each of which may be renegotiated at the end of the contract period. This makes it difficult to set a general wage increase for all CIO members.

2. The wage policy is not enforced by the CIO leadership. The CIO leadership has a tendency to accept the company's offers, even if they are below the general wage increase set by the CIO. This makes it difficult to enforce the wage policy.

In summary, the CIO wage policy is not effective in setting a general wage increase for all CIO members, and the CIO leadership does not enforce the wage policy.
The Situation In Poland

Resolution adopted unanimously by the International Committee of the Fourth International, October 1946

The Trotskyist Fourth International is a Polish-language organization of the international Trotskyist movement. This statement is the result of an emergency conference of the Fourth International, held in London, Great Britain, on the situation in Poland.

The Fourth International is approaching the situation in Poland with the utmost concern, as it is the most important question of the day. The center of European internationalism, Poland has faced a critical moment since the end of World War II.

The Fourth International stands in solidarity with the Polish workers and farmers, who are facing a severe struggle against the Stalinist dictatorship in Poland. This struggle is a part of the international revolutionary struggle for liberation from capitalist and imperialist oppression.

The Fourth International calls for international solidarity with the Polish workers and farmers, and for the immediate withdrawal of all foreign military forces from Poland.

Trotskists Defend Marxist Line In Debate With Greek Stalinists

The second debate between the Trotskyists and Stalinists in Greece took place on Nov. 9 in the Athenian newspaper New Democracy. The debate was centered around the question of the role of the working class in the struggle for democracy.

The Trotskyists argued that the working class must be at the forefront of the struggle for democracy, while the Stalinists argued that the role of the working class is secondary.

In the debate, the Trotskyists emphasized the role of the working class in the resistance against Nazi occupation and the struggle for democratic rights.

The debate ended with the Trotskyists reaffirming their commitment to the defense of the Soviet Union and the international working class.

Greek Terror Mounts As King Jahn Told

A state of emergency has been declared in Greece, as the situation in the country has escalated. King Constantine has declared a state of emergency, and the Greek government has taken steps to crack down on leftist organizations.

The state of emergency has been imposed in response to the growing unrest and violence in the country, as leftist organizations continue to organize protests and resistance against the government.

The state of emergency will allow the government to take further steps to压制 the movement, including the suspension of civil liberties and the arrest of opposition leaders.

The situation in Greece remains tense, and the government has been criticized for its heavy-handed approach to dealing with the crisis.

Soviet Collectives Holding Back Grain

The Soviet Union is now in the midst of a grain shortage, with the country facing a major crisis. The situation has been exacerbated by the cold winter and the poor harvests in recent years.

The government has taken steps to address the crisis, including the rationing of grain and the imposition of import restrictions.

The situation is expected to remain critical for the remainder of the year, and the government is working to ensure that sufficient supplies of grain are available to meet the needs of the population.

Agents Of Imperialism In The Labor Movement

Wall Street imperialism's red-baiting drive against militant labor and its propaganda-propaganda war has driven a wedge between labor and the working class. This has been particularly true among the black working class. Many black workers, including those in the growing number of militant unions, are becoming disillusioned with the leadership of their local unions and with the national labor movement. This is a major threat to the labor movement's ability to organize and to fight for the rights of all workers.

Federal Reserve Board Shows Trend To Crisis

There's growing concern that the Federal Reserve Board's policy of raising interest rates to curb inflation is creating a financial sector that is unstable and that may lead to a recession. The Fed's actions have raised concerns about the stability of the financial system and the overall health of the economy.

Our Program:

1. Defend labor's standard of living: A sliding scale of wages—on escalator wage clause in all union contracts to provide automatic wage increases to meet the rising cost of living.

3. Against all anti-labor laws and government strikebreaking: No restrictions on the right to strike and picket.

5. Tax the rich, not the poor!

6. End all discrimination in the labor movement.

7. The Free Speech League is for the American people from foreign so

8. For a workers' organization sponsored by the trade unions.

9. A working class answer to capitalist militarism and war.

10. Solidarity with the revolutionary struggles of the workers in all lands for the complete independence of the colonial peoples.

And what of the voters? Have you noticed the change in color for the elections? For the next few weeks, the candidates will be seen in their new suits, in the city and country.

The Negro Struggle

By William E. Boohanam

The Twelfth Convention of the Socialist Workers Party, held in Chicago last week, was the most inspiring gathering I have ever attended. The program was so full and so varied, the speeches so forceful and so well-delivered, that I was truly impressed.

The program included speeches on the following topics:

- The struggle for freedom
- The importance of unity among workers
- The need for a socialist revolution

The speeches were delivered by some of the most prominent figures in the labor movement, and the audience was enthusiastic and engaged.
