Why Labor Cannot Expect Justice From The Courts

**Workers’ Action To Overthrow Franco Is Opposed By All U.N. Spokesmen**

Against Chiang Kai-shek

By George Brittain

The United Nations General Assembly again debated, on Wednesday, the question of the future of Spain. The resolution on Franco’s fascist dictatorship. But during the discussion, the U.N. resolution offered a program which could lead to the overthrow of the fascist dictatorship of the Spanish people. And the Soviet Union, which had adopted Franco as its ally, made the following proposals: The war in Spain, if fought only to overthrow the fascist dictatorship, will continue until the fascist dictatorship is overthrown. The Soviet-trained forces must be equipped with weapons of mass destruction. The solution of the labor movement within Spain must be based on the principles of national independence, democracy, and social justice.

To point a finger at single business men in the financial community would be to miss the point. The financial community has had a long tradition of cooperation with fascist governments. But the fascist forces are very powerful and the world community must be ready to meet them head-on. Spain is in an impossible position. It has a fascist regime, and the world community must be prepared to deal with this situation. Spain is not the only country where the fascist forces are very strong. It is a matter of how to deal with the fascist forces.

The world has already been warned. It is a matter of how to deal with the fascist forces. This is not a matter of doing something about it. It is a matter of doing something about it. This is a matter of understanding what is happening in Spain.

The fact is that Spain is in a desperate situation. It is a matter of understanding what is happening in Spain.

**International Notes**

By a 90 to 31 vote the United Nations General Assembly last week voted to condemn the fascist dictatorship of the Spanish people. The United States, the United Kingdom, and the Soviet Union voted against the resolution. The resolution, supported by the majority of the nations of the world, called for the overthrow of the fascist dictatorship of the Spanish people. The resolution also called for the establishment of a democratic Spain. The resolution was passed by a vote of 90 in favor, 31 against, and 30 abstentions.

The fascist forces are very powerful in Spain. They control the army, police, and other organs of the state. They have put down all opposition to them. They have killed thousands of citizens. They have arrested thousands of others. They have forced people to work for them, including millions of children. They have forced people to pay taxes to them, even though they are not citizens.

What to do about the situation that is going on around me, I felt I ought to myself to get a check-up.

The author does not attempt to describe the political system which maintains its power through the exploitation of the working class. In this case, the solution lies in the struggle of the working class for its own emancipation and the establishment of a socialist society. The author blames capitalism for the situation but does not provide any specific recommendations for change.
