In face of these protests in an election year, the Senate politicians would prefer to leave the bill in committee until the session ends. The defeat of Stassen in the Oregon primaries where he kased his whole campaign on outlawing the Stalinist Party, has shown them that the red-baiting

The Roman Catholic Church and Fascism Recognizing the political character of the Catholic Church and of honor in the unveiling ceremonies for the Unknown Warrior in

By Art Preis

No event of modern times has more clearly demonstrated the political role of the Roman Catholic Church, under direct and absolute rule of the Vatican, than the recent Italian elections.

The American capitalist press hailed the all-out intervention of the Catholic hierarchy, from Pope Pius XII down, on the side of the Christian Democratic Party of ex-fascist capitalists and landlords.

Despite a provision in the Lateran Treaty prohibiting priests and other Church functionaries from partisan political activity, the clergy in Italy was organized into a vast electioneering machine. An estimated hundred thousand priests and nuns were mobilized as ward-heelers to bring out the vote against the Communist-Socialist People's Front.

REIGN OF TERROR

Page Two

From the Vatican, the independent state of the Holy See, the Pope initiated and directed a reign of ideological and religious terror against the Italian people, 95% of them Catholic-born.

Cardinal Schuster of Milan, for instance, ex-communicated priest for taking part in Popular Front meetings and decreed that absolution be refused to "Communists or members of other movements contrary to the Catholic religion." A declaration of 18 archbishops and 55 bishops in southern Italy said: "Nobody can at the same time be a good Catholic and a Socialist." Whoever voted for the working class parties against the capitalists was threatened openly with damnation both here and hereafter.

After the events in Italy, no honest person will dispute the charge that the Catholic hierarchy heads an active political organization seeking specific political ends.

The Catholic hierarchy, headed by the Vatican, wields exceptional ideological power and political influence. It is a totalitarian machine holding sway over 338 million people, concentrated largely in western and central Europe and North and South America. It has a single head, the Pope, whose authority is recognized as absolute under the doctrine of papal "infallability" which was first made a formal part of the Catholic creed in 1870.

Under his central, authoritarian command are hundreds of thousands of trained, disciplined, professional functionaries, for whom the decrees from the Vatican constitute the highest law and the irrefutable word of God on all matters spiritual and temporal.

its tremendous material power, it is important to understand its Milan Cathedral. In 1940, he still gave his blessings to both Italian political program. What kinds of government does the Catholic and German soldiers, as reported in the Vatican newspaper, Osserva-Church seek? What aims does it have with respect to secular laws, education, science, labor and capital?

An illuminating series of articles has been written on this subject by Paul Blanshard and recently published by The Nation magazine. Blanshard's facts are thoroughly documented from Catholic sources.

SUPPORT TO FASCISTS

These articles cite the record of the Catholic hierarchy and its connections with the rise and spread of fascism from Mussolini's God.' march on Rome in 1922 to the fascist dictatorships of today in Spain, Portugal and Argentina.

The Catholic hierarchy in America and its apologists have at tempted to show that the Roman Catholic Church does not and never has supported fascism. But while there are almost limitless quota-

tions from Pius XII and his predecessors against communism and socialism, nowhere can there be found any attack by the Popes or any leading Catholic Church officials against fascism as such.

As Blanshard points out, from time to time the Vatican criticized certain acts of Hitler or Mussolini when they encroached upon the educational and political preserves of the Catholic Church itself. But the basic doctrines of fascism—the sanctity of the profit system and class society, totalitarian political rule and the corporative state -have been directly and openly supported by the Popes.

Moreover, never have the Popes-so violent in their attacks on working class political parties-condemned or criticized the de struction of political democracy, the murder of labor leaders, the wholesale atrocities of Mussolini and Hitler or of Franco, Salazar and Peron.

Indeed, in every fascist country, except Hitler's Germany, the Catholic Church served and still serves as the ally and direct prop of the fascist dictatorship.

Here is the conclusion of the well known Catholic writer, William Teeling, in his "Pope Pius XI and World Affairs": "The political policy of Rome seems to become more and more identified with organizations on totalitarian lines."

That was written in 1937, when the Roman Catholic Church had joined with Hitler and Mussolini in supporting Franco's war against the Spanish people and when, as every American knows, the American Catholic hierarchy conducted a violent campaign for the victory of Franco against the Spanish Republican government.

It is inconceivable that Mussolini could have come to power in Italy, an overwhelmingly Catholic country, had Pius XI in 1922 offered any serious opposition. In fact, as Cardinal of Milan, prior | church to capital and labor; the activities of the Catholic Church in to his elevation as Pope, Pius XI gave Mussolini's Blackshirts a place | America in the fields of education and science.)

tore Romano. Nor did he object when the Italian bishops wired Mussolini their hope that he would "crown the unfailing victory of our

arms by planting the Italian flag over the Holy Sepulchre." Pius XI hailed Mussolini on December 20, 1926, as "the man sent by Providence." The present Pope Pius XII, while still Cardinal Archbishop of Milan, called Il Duce "the New Constantine." And in America, the Bishop of Cleveland, Cardinal O'Connell of Boston and Cardinal Hayes heaped rapturous praise on Mussolini as a "man of destiny" and "a genius in the field of government sent to Italy by

PAPAL BLESSING

On February 11, 1929, the Vatican signed the Concordat and Lateran Treaty with Mussolini. This constituted the formal recognition of the Fascist regime by the Roman Catholic Church.

In return for the papal blessing, Mussolini handsomely rewarded the Vatican with: 1. Recognition of the sovereignty and extraterritorial rights of the Vatican state, plus \$90,000,000 from the Italian Fascist treasury; 2. Agreement by Mussolini not to employ any apostate or suspended priest" in any post which "brings them into lirect contact with the public"; 3. Separate prisons for priests convicted of crime; 4. Re-establishment of the Roman Catholic Church as the "sole religion of the state"; 5. The teaching of the Catholic religion in the public schools with the right of Catholic bishops to remove any teacher of religion for "heresy"; 6. Partial payment of priests' salaries from the Italian public treasury.

The Vatican tacitly sanctioned Mussolini's barbaric war on the Ethiopian people and the Church blessed Italian arms, Cardinal Schuster of Milan on October 28, 1985, said that Mussolini's "Italian standard carries forward in triumph the Cross of Christ, smashes the chains of slavery and opens the way for the missionaries of the gospel." The Catholic press in America denounced the proposal of sanctions against Italy.

Eminent Catholic writers and scholars have confirmed the sympathetic attitude of the Catholic hierarchy toward Fascism. The noted victim. British Catholic, Christopher Dawson, wrote in his "Religion and the TERROR CAMPAIGN Modern State":

... there seems to be no doubt that the Catholic social ideas set forth in the encyclicals of Leo XIII and Pius XI have far more affinity with those of fascism than with those of either liberalism or socialism."

(Further articles in this series will discuss the role of the Catholic Church in Spain and other fascist countries; the relations of Wall Street imperialism and the Vatican; the attitude of the

One thing mars this book, and mars it badly. That is the introduction by Arthur M. Schlesinger, Jr., the liberal historian. Any introduction by this person would be offensive to those who love Debs, for this servile supporter of Truman and Eisenhower stands for everything that Debs fought against. Especially offensive are his attempt to sum up Debs as a mere "democrat" and his remark that Debs' "own

career disproved his repeated assertion that capitalism would destroy political freedom" (for Schlesinger the jailing of Debs was evidently of little significance).

We regard it as malicious and downright insulting when Schlesinger quotes with approval a Social Democrat's statement that Debs' long years of agitation for socialism were worth while because the "education [thus] forced on the people . . . saved this country from civil war in the depths of depression, and gave Franklin D. Roosevelt . . . the understanding public and trained workers for the immediate job he had on taking over."

Packinghouse Defeat And Third Round Wage Fight

After ten long weeks of fierce struggle, the nation-wide packinghouse strike has been defeated. The packinghouse workers had to return to work accepting the same miserable 9cent wage increase that the packers offered before the strike began. On top of that, some of the leading union militants are being victimized by the companies and a number of others face jail sentences and stiff fines.

This defeat was not due to any lack of fighting spirit or willingness to sacrifice on the part of the 100,000 ClO packinghouse workers. On the contrary, in every packinghouse center in the country, pickets bravely fought company thugs, scab-herding police and armed deputies. Pickets in Iowa and Minnesota met the bayonet attacks of the national guard. Three union members were killed and an uncounted number were injured on the picket lines.

But all this was not enough. Stabbed in the back by the AFL Butchers Union which had accepted the original 9-cent settlement, and given no decisive aid by the rest of the CIO, the packinghouse strike could not by itself hold out against the profit-swollen meat trust.

This jolting setback comes at a time when the CIO is already rocking with the capitulation of President Murray to the steel barons and his avowal at the union's Steel Convention that under his leadership the steel workers would take industry's refusal to grant wage increases lying down.

This week, the CIO third round wage campaign was saved from total disaster by the settlement between the auto union and the General Motors Corporation, While the 11cent hourly wage increase is totally inadequate, and the old GM contract with its numerous viciously anti-union clauses remains, the auto leaders have, at least, made a somewhat better showing than Murray. The wage agreement, in addition, includes a sliding wage scale clause, which is of far-reaching importance to the labor movement and its struggle for living standards.

LENIN

The settlement at GM, which paves the way for a settlement of the Chrysler strike, was unquestionably brought on by the rising tide of anger in the auto centers. (See our correspondent's report on page 4.) Had no settlement been reached at GM, it is very likely that the auto industry would have been closed down by a general strike. The auto barons, despite all their bluster and arrogance, did not want a dent in their bonanza profits and preferred to offer the unions a few small concessions.

This demonstrates what really could have been accomplished in auto if the union leaders had co-ordinated the wage fight, adopted an industry-wide bargaining and strike strategy, and placed in the forefront of its wage program the slogan of adequate wage increases plus the escalator clause. This demonstrates what still can be accomplished if the national CIO leaders will stop their panic-stricken retreat, call a national conference of all leading unions and perfect a wage program and strategy on the principle of "one for all and all for one."

Labor must resolve never again to permit one union-as in the packinghouse strike army of labor stands idly by. The labor retreat must be stopped. Labor must unite its forces and fight.

stands as an inspiration to the revolutionists of our own day, the incorruptible son of the working class who spurned the opportunity to become a respectable politician and labor bureaucrat, our revolutionary forefather who did so much to Americanize socialism during the period when capitalism was Europeanizing the social and political structure of this' country Read this book, and you will

The Arab-Jewish War In Palestine

The present big-power intrigues and shifty maneuvers in the UN on Palestine reflect the sharp rift between British and American imperialism on this issue.

The British position in the Near East is steadily weakening as a reflection of the general disintegration of the British Empire and the bankruptcy of British capitalism. Unable to utilize the Jews as in the past, the British are now throwing their support behind the feudal princeling rulers of the Arab states in an attempt to strengthen British imperial bases and influence in the Near East. Wall Street imperialism, on the other hand, anxious to extend its hold in this key section of the globe and dislodge British supremacy, is seeking to utilize the Jews as a catspaw of its imperialist designs.

The present Jewish-Arab war, far from enhancing reactionary Zionism or imparting to it a progressive mission, exposes in glaring manner that the program of a Jewish state in Palestine and the Jewish war for this end -is reactionary and bankrupt from beginning to end. Zionism, far from solving Jewish difficulties, threatens to provoke new pogroms against the Jews and involve them in new calamities. Zionism and the tiny Jewish state must inevitably become a tool of American imperialism and the agency to facilitate the entrance of the Wall Street brigands into the Near East. Furthermore, it is precisely Zionism, which constantly solidifies the position of the reactionary Arab rulers, and enables them to pervert the social struggle in their own countries into a communal struggle between the Arab and Jewish peoples. As an example, the reactionary regime of King Farouk of Egypt, badly shaken at home and facing rising working class opposition, was able to consolidate itself and smother its class opponents by diverting attention to its military adventure against the Zionist state. Thus Zionism, which for 40 years has posed as the savior of the Jewish masses, has in reality brought them to a dead end.

Haven't the Jewish people the right to selfdetermination and statehood as other peoples? Yes-but even if we abstract this ques-

0

tion from its aforementioned social reality, the fact remains they cannot carve out a state at the expense of the national rights of the Arab peoples. This is not self-determination, but conquest of another people's territory.

For these reasons the Zionist promulgation of a lewish state and its war to maintain this state against Arab opposition is reactionary and cannot be supported by the socialist movement.

Neither are the Arab rulers conducting a progressive struggle for national independence and against imperialism. They are, by their anti-Jewish war, trying to divert the struggle against imperialism, and utilizing the aspirations of the Arab masses for national freedom, to smother the social opposition to their tyrannical rule. That is why their war against the Jewish state lacks the progressive characteristics of a national war against imperialism and does not deserve the support of the class conscious workers.

These facts must be pointed out to the peoples involved. The most farsighted elements have the duty of turning their respective peoples away from this fratricidal struggle-of benefit only to the imperialists and their agents. The only solution for Palestine is the joining of forces of the two peoples for the calling of a Constituent Assembly and the setting up by democratic decision an independent Palestinian state, and the organization of a struggle to oust all the imperialists.

The socialist forces in the U.S. and throughout the world must at the same time redouble their efforts to have the broad labor movement take up the fight to open the doors of the U.S., Britain and elsewhere to the victims of Hitlerism.

The achievement of these tasks are surely fraught with great difficulty. But there are no shortcuts in solving the Jewish problem.

Chauvinism and reliance upon the imperialists will only lead to greater disasters and slaughter. The tortured Jewish masses can solve their problems only by forging an alliance with the labor and socialist movements -not in deals and maneuvers with the imperialists.

On the other hand, the Politics Club, one of the two groups criticized by "A Student" has in addition to the Macdonald meeting held two public discussions which time its viewpoint was presented. I might also add, that it is not the policy of the Politics Club to sponsor only those speakers who share its revolutionary socialist viewpoint.

Diary of a Steel Worker -

Ten Who Fell

By Theodore Kovalesky -

The time has come again to pull off our burnt, clay-spattered old felt hats, our orestained caps

The time has come again to stand a silent moment upon the furnace floors, to swing the pit cranes and charging cars to a deep halt, to pause in symbolic quiet amid the crash of the mills. The time has come once again

to remember in reverence and stern resolution ten who fell that we might stand upright in pride as union

men. . .

There are few steelworkers, few union men who remember their names. And, in a way, that is as it should be. For those ten are not merely names, not merely individuals.

Those ten are you and me and those millions who came before us and those millions who shall come after us.

Those ten are part of the great army of rebellion, the people's army fighting in darkness for the light. They are today strong, bloody footprints upon the vast battlefield of labor.

Eleven years ago a hot spring sun glared down upon a field. It was Memorial Day, 1937, in Chicago.

It was a holiday. The Republic Steel strikers wore their good clothes. Their wives gossiped

And then it was time to put aside laughter and play, beer and speeches. Under the hot spring sun they formed a giant line, the men and women and even some of the kids. Politics and the NAACP

By Albert Parker

Cities are built of cement and steel, brick and stone. The labor movement is built of blood and sacrifice, of men and women fallen in the fight. It is made of song and holiday and warriors who went to battle with laughter on their lips. It is crisis: made of such as those ten who fell on Memorial Day, 1937, in Chicago, the city of Haymarket.

SANTA MONICA, Calif., May 22 — The Truman administration's Post Office officials have discovered that their eyes are bigger than their stomachs. Three weeks ago F. H. Barnes, Militant local president of the National Association for the Advancement of Colored People, was suspended from his mail carier's job, charged with disloyalty and with enlisting support of subversive groups in the fight against racial discrimination in hiring at the local Sears Roebuck store. From the previous list of seven so-called subversive organizations listed in the first charges against Mr. Barnes, the American Post Office loyalty board last Wednesday removed the names of the American Veterans Committee, the American Jewish Congress, the Committee on Racial Equality, and the Progressive Citizens of America. Hoping to isolate the Stalinists, the Post Office now lists only the Communist Party, the National Negro Congress, and the International Workers Order.

By J. Hawkins

Mr. Barnes, who is not tied up politically, is standing on the right of his NAACP branch to invite the support of all organizations and individuals. Such invitations constitute no endorsement of the politics of any of the supporters and in no way violate the non-partisan stand of the national NAACP.

The fight against the Sears store is continually hampered by the disruptive antics of the Stalinists in the United Committee. which the NAACP branch created

last January to broaden the fight against Sears. The Stalinists week after week "capture" this committee, but somehow keep grabbing at thin air. In angry frustration, they first turned their disruptive attacks on the Trotskyists and the Committee on Racial Equality, not daring to

attack the NAACP or its presibuckled under the pressure of dent. During this past week the Stalinists have begun insinuating that Mr. Barnes is preparing to shake off the Stalinists in order to run for cover. Naturally this kind of behavior doesn't sit well with the Negro community which sees in Mr. Barnes the courageous leader he is.

They fight the Negro people with every weapon at their disposal and the upheld by the International Exweapon they use most vigorously is politics. How can the Negro organizations possibly cope with their enemies unless they are equally active and this time 94% voted to strike. aggressive in this field?

We are well acquainted with the NAACP leaders' arguments against independent political not approve the strike until action, but they are not very impressive. Walter Gosser had a chance to negotiate White & Co. claim that if the NAACP gives up the dispute. Gosser met with the its outmoded "non-partisan" policy, it will lose many of its present big-shot friends. But what good are "friends" who would desert you because you showed you meant business about fighting Jim Crow? Instead of losing influence by a firm, independent political program, the NAACP would actually win millions of new adherents.

The best thing the coming NAACP conference can do will be to brush aside such silly arguments, flatly condemn the capitalist parties as Jim Crow enemies of the Negro people, and call on the trade union movement to join it in building an independent workingman's party devoted to the interests of the working class and the Negro people. It is no longer possible to be "nonpartisan" in the political fight against Jim Crow.

stomach and intestinal disorders

as Dr. Walter Alvarez of the Mayo Clinic told a meeting of the International Medical Assembly that if the average man with stomach ulcers were left an income of \$250 per month for the rest of his life, he would soon be cured and would never have ulcers again. Practically all ulcer cases are brought on by fear, frustration, worry, anger, nervous and mental exhaustion, Dr. Alvarez declared. These, in turn, he went on to say, are chiefly due to the tremendous speed-up of modern industry and to the terrifying problems with which American workers are confronted.

And when a worker does develop a stomach ulcer, what happens? Usually, he doesn't go to Taft - Hartley Law. Faced with the doctor until the pain in his stomach is very this barrage, the union commitsevere and begins to sap his energy. After the tee had to retreat. In his testimony, Siegel contended he called out the pickets at the direct request of Sheriff Norman Dieter who "wanted us to put on a big show" to demonstrate that his small force of deputies could not open the picket lines to run scabs through into the plants.
