Would Shift Burden From Poor to Rich

A federal tax program in sharp contrast to Truman's proposals was issued by the national CIO in Washington on Jan. 9. The CIO's program, based on a study by its Department of Education and Research, calls for income tax exemptions as high as \$4,200 for a family of four. It would slash \$6.5 billion from the total income tax load of lower and middle-income taxpayers.

TRUMAN FAILED

Not only has Truman failed to mention reduction of taxes for the lower income brackets, he is by a total of 1%. This will add almost \$2 billion in payroll deductions, half of which will come directly from the workers' paychecks.

Calling for a drastic shift in the tax burden from the poor to the rich, the CIO advocates a \$6.2 billion increase in corporation profits taxes and a \$1.8 billion increase through other measures to top big incomes.

more in taxes to be secured by new legislation that will raise the taxes of corporations "principally. However, he has not

A-Bomb Gets 7 Times More **Than New Housing Program**

By Art Preis

\$32 billion of Truman's proposed \$42 billion federal budget for the next fiscal year will go to pay for past wars and preparations for the next war. Only \$10 billion will go to all ⁹

other government expenditures.

Less than \$600 million is formally budgeted for the start of Truman's promised "Fair Deal" program of housing, aid to education, health insurance, etc. This contrasts with \$740 million Truman asks for the Atomic Energy Commission to develop and proluce atomic bombs.

The A-bomb alone will get nearly seven times as much as Truman's much-vaunted low-cost housing program. Proposed new projects for low-rent housing will get only \$129 million.

Extension of social security benefits, including old-age pensions, and financing of the proposed health insurance program

will come directly from the pay envelopes of the workers themselves. The budget calls for increased pay-roll taxes of nearly \$2 billion per year. Topping the budget list is \$14.3 billion for direct military expen-

ditures - an increase of \$2.5 bilion over last year's budget. For "international affairs" - that is, another \$6.7 billion is added.

that has not been increased. Proposed expenditures for direct military and "cold war" purhe conduct of the "cold war" - poses - exclusive of the A-bomb and other war items concealed un-Thus, one half of the entire der headings like "Natural Rebudget — the largest war budget sources Development" — are in peacetime history - will go nearly ten times the total sums

An Editorial

Top labor leaders, both CIO and AFL, are reported "uneasy" and "disturbed" about the way Truman and the Congressional Democrats are handling the issue of the Taft-Hartley Act. Union officials In San Francisco Warren K. are expressing fears of a "run-around" by Truman on his key campaign promise - unconditional repeal of the Taft-Hartley Act.

Even before the 81st Congress began its session, three prominent labor spokesmen issued public warnings to Truman and the Democrats that they'd better come through speedily on their promises or labor might seek a new political road. Both Jacob Potofsky, head

of the CIO Amalgamated Clothing Workers, and Daniel J. Tobin, head of the AFL Teamsters, spoke of the American workers taking legless veteran, from his Vet- the road of Brtiish labor and building their own party if Truman hedged on his promises. Allan L. Swim, editor of the CIO News, political beliefs, is a deplorable urged the Democrats not to fail on their promises if "the nation is to avoid the creation of a real third party.'

Good Reason for Uneasiness

If these timid and conservative union leaders felt impelled to such threats so soon after the elections, how much more reason the union ranks have for "uneasiness" today. Truman has revealed himever we find it; on every individ- self AGAINST repeal of the Taft-Hartley Act until and unless a "substitute" union-curbing bill, containing some of the worst features of the Taft-Hartley Act, is enacted.

> Both the CIO and AFL are demanding immediate unconditional repeal of the Taft-Hartley Act and restoration intact of the original Wagner Act. The Truman administration is maneuvering to get Congress to act on a "one-package" bill, which combines repeal of the Taft-Hartley Act with simultaneous revision of the Wagner Act to include a number of Taft-Hartley features.

It is clear that Truman intends to keep the club of the Taft-Hartley Act - which he used so effectively against the railroad workers, miners, printers, maritime and atomic workers - until he has another strikebreaking law at his disposal. While Taft-Hartley repeal is stalled in debate over amendments to the Truman "onepackage" bill, the club of the Slave Labor Law will remain poised round" wage drive.

Big Business has quickly sensed its opportunities. It is rallying ts forces and dispatching an army of lobbying "shock troops" into Washington. It is lining up its Congressional agents, open and concealed, to stall, "amend" and "revise" every proposed progressive measure. Wall Street is in there pitching full steam. And that's what the mighty host of labor should be doing, instead of warming the bench and "waiting for Harry."

A united grass-roots movement of millions of unionists should be mobilized into action against the millions of dollars and powerful obbies that Big Business has unloosed on the White House and Congress. Organized labor must quickly mount a counter-offensive, the spearhead of which should be a National Congress of Labor to convene in Washington, D. C., before the very front door of Congress.

There is already a wide body of influential labor opinion, both CIO and AFL, behind such a Congress of Labor. The AFL International Typographical Union proposed such action last August. The top board of the CIO National Maritime Union has endorsed the proposal. Since the election, in addition to a number of local unions, the powerful Illinois State CIO Council has urged a Congress of Labor of all union bodies to fight in Washington for labor's program.

Don't Rely on Back-Room Deals

CIO President Philip Murray several weeks ago addressed an appeal to the AFL and Railroad Brotherhoods leaders for a joint egislative conference. The CIO leaders should carry this appeal further and call a Congress of Labor, inviting representation not only from all its affiliates but all other national labor bodies and their affiliates.

Meanwhile all local unions, whatever their affiliation, should immediately adopt strong resolutions demanding that their national officials take action now to make the Congress of Labor a reality. Don't rely on back-room deals and verbal pleas of individual union leaders to defend labor's interests in Washington. Nation-wide, over labor's head this spring as the workers prepare for the "fourth united, independent action of all labor alone can ensure the victory of labor's demands.

class.

"Bolshevism brought an invaluable contribution to Marxism in its analysis of the imperialist epoch as an epoch of wars and revolutions; of bourgeois democracy in the era of decaying capitalism; of the correlation between the general strike and the insurrection; of the role of party, soviets and trade unions in the period of proletarian revolution; in its theory of the soviet state, of the economy of transition, of fascism and Bonapartism in the epoch of capitalist decline; finally in its analysis of the degeneration of the Bolshevik party itself and of the soviet state."

-Leon Trotsky, Stalinism and Bolshevism, 1937.

Slum Clearance or Slum Creation?

Trumanite liberals and housing experts have been shocked into bitter complaints by the miserable housing program Truman has proposed. Lee F. Johnson, Executive Vice-President of the National Public Housing Conference, calls it a "bitter disappointment." The N. Y. Post Housing Adviser, Charles Abrams, terms it "disheartening."

Abrams points out that Truman's program for 150,000 new low-rent units a year (for 7 years) would require 35 years to clear existing slums, based on Truman's estimate of 5 million substandard dwellings. Since the kind of dwellings now being built will be slums themselves in less than 35 years, says Abrams, "we shall be clearing slums at a slower pace than we create them.'

Moreover, Truman makes no provision for more than 3 million doubled-up families and

expanding population. And actually, according to the Twentieth Century Fund. study, "America's Needs and Resources," there are 7 million-not 5 million-non-farm dwellings that should be torn down and replaced, and 2 million more will be in that condition in 13 years.

A year ago Truman said: "Within the decade we must see that every American family has a decent home." His specific program, in flagrant disregard of his campaign promises, will mean even more slums 10 years from now.

The American people can't have it both ways. They can either bow to Truman's \$21 billion annual "cold war" expenditure, or force the government to spend these billions on the country's most acute social problemhousing.

Trial of 12 Stalinists

The first victims of the Smith Gag Act were the 18 leaders of the Socialist Workers Party railroaded to prison in the infamous Minneapolis Trial of 1941. At the time the Stalinists cheered the persecution of the Trotskyists and stood idly by while the government forged a weapon that could be used. against any party or political grouping that differs with the party holding office.

Today the Stalinists are being prosecuted under this same law. Many trade unionists and defenders of civil liberties who have had first hand experience with the vicious practices of Stalinism are now cheering this persecution.

They thereby follow the precedent set by the Stalinists in the Minneaoplis Trial. Like the Stalinists, they stand idly by while the government grinds still sharper an axe that can be used against every section of the labor movement.

This is a stupid and fatal course. The Stalinists follow the monstrous policy of supporting only the civil rights of those with whom they are in political agreement; but that is no reason why we should ape them. From a practical, hard-headed point of view, without the slightest sympathy for their poisonous politics, labor must come to the defense of the 12 Stalinists under indictment

The labor movement today is fighting for its rights against Taft-Hartleyism, the current witch-hunt and "loyalty" purge. Full success in this battle requires an uncompromising defense of democratic rights, including defense of the right of the Stalinists to hold and advocate their peculiar views.

That will not interfere at all with cleansing the labor movement of Stalinism. In fact it will facilitate the job.

The Vatican and Indonesia

Once more the powerful political arm of Utrecht headquarters of the Netherlands

AN ANSWER TRACING MAIN POLITICAL DEVELOPMENTS IN LABOR MOVEMENT

By E. R. Frank

The important social developnents and trends which led up o and were responsible for the Truman victory are traced in ounded fashion in the resolution The Election Results and the Tasks of the SWP" to be printed n the February issue of Fourth gaging in broad class actions, but

are in a mood of watchful wait-International. All our readers are urged to study the document ing to see how far Truman will for an explanation of the events go in fulfilling his promises. and the precise nature of the It is necessary therefore to political period we are now in. understand not only that a left shift has taken place but also its Comrades Long and Ellis bespecific character and limits; lieve my article in the Nov. 15 that, the workers' political consci-Militant implies a leftward swing onsness has not vet advanced of sizable proportions on the part leftward beyond acting politically of the American workers and as a class and better understand that this is not borne out by the

ing its class power in the nation. facts. Perhaps these questions (The resolution takes up in detail can be clarified if we concretize a number of tactical consequences our concepts. of this specific conjuncture.) The Truman election victory, Why 1s it important, never aken as a whole and placed in theless, to stress the significance the proper perspective of the of the left shift? Because behind developments since the war, can the newly forged Peoples Front be viewed as nothing else but bloc of the labor bureaucracy signifying a definite left shift in American politics. Let us recall and the liberals stands the might of a politically organized workthe important stages of recent ing class-not organized into its American history (in sequence): own class party as yet, and The labor movement in the United certainly not organized behind its States has been in a coalition

This meant And that gives promise that that the bureaucracy mobilized as the workers become disthe labor ranks behind the capitalist program-but always receiv- heartened and disillusioned with the Democratic politicians, they ing in return a smattering of will not simply sink into apathy secondary concessions. or disperse in all directions, but

After the war, the capitalists will move forward in massive moved abruptly to break this formation to the next political stage. Now, this has nothing to

with the liberal wing of the

the Truman victory provides the | not only politically but economically. Today, the combination of the labor bureaucracy and its liberal allies is the political class collaboration politics and leadership of the American working class. They are a mischievous, treacherous, good - for - nothing leadership, but they are the for a labor party. Moreover, the workers are not presently enleadership just the same.

And this leadership, after the Truman victory, stands at the pinnacle of its power and authority-and knows it, and the Trumanites know it too. The Murrays and Reuthers and Greens are our rivals in the struggle over the minds and souls of the American workers and we will never win over these workers and fulfill our revolutionary mission until we have exposed the full perfidy of these reformist leaders to the broad ranks.

The letter goes on to state: 'They are neither leaders nor apable of becoming leaders of a eftward swing. . ." This is erroneous. The American labor bureaucracy demonstrated only a few years ago in the 1945-46 strike wave that it is quite capable of making left shifts when the workers are surging forward, in order to maintain its hold on the mass movement. own class program as yet, but We should not imagine that organized for political action, their present operation within the framework of the Democratic

Party will necessarily be maintained for all time. Our task would be easy indeed, were that true and were the labor bureaucracy that inflexible. No. These scoundrels are quite capable of executing all sorts of left maneuvers and even propagating the most radical-sounding slogans under the stress of social necessity

the Vatican has reached out to strengthen imperialism. As it blessed and encouraged Mussolini's rape of Ethiopia in 1935, so today the Vatican is bringing influence to bear on the Netherlands government to complete the bloody annihilation of the Indonesian Republic.

A dispatch in the Jan. 10 N. Y. Times from its Hague correspondent, David Anderson, reveals that sabotage of negotiations between the Dutch and Javanese Republicans, both before the Dutch blitzkrieg and at the present time, has "been traced to intervention on the part of the Vatican, it was reported here today by a source beyond reproach.'

According to Anderson's informant, the Vatican's intervention is "based squarely on the issue of Communism." The Vatican regards the Republic of Indonesia "as a hotbed of Communists, or at best an ideal breeding ground for them." As is well known, the Indonesian Republican leaders are bitter anti-communists who jailed both Stalinists and Trotskyists. But the Vatican insists the struggle of the Indonesian people for national independence-no different than the struggle of the American colonists in 1776-must be crushed.

4

Anderson also reveals how the Vatican exercises its sinister influence on the Dutch government. He reports that the Vatican transmitted "suggestions" to the Dutch Catholic political leaders by way of the

Truman and Lynch-Murder

The Southern Bourbons have staged another of their mock trials. Two white lynchmurderers, positively identified as members of the hooded gang that shot down Robert Mallard near Lyons, Ga., Nov. 20 because they were jealous of his enterprise and financial success were released Jan. 11 after the jury deliberated 26 minutes.

Two jurors, who had sworn their "impartiality," stepped down from the jury box at a signal from the defense attorney and declared that they would believe nothing the widow of the colored victim might testify, since she had a "bad" reputation in the community while one of the lynch-murderers had a "good" one. In addition to this type of argument, the defense presented an obviously phony alibi for one of the identified killers. A big share of the guilt for this travesty of justice rests squarely on the doorstep of the

Roman Catholic hierarchy. The political leaders were informed that the Vatican considered any negotiations leading to compromises with the Indonesian Republic's leaders as "highly undesirable" and "intolerable."

The key Dutch figures in the situation-Dr. Louis J. M. Beel, High Commissioner of the Crown in Indonesia; Emanuel Sassen, Minister for Overseas Territory; and Carl Romme, head of the largest party in the States General-are all Catholics and leaders of the Catholic Party. They have blocked all moves to restore negotiations.

The Vatican always cloaks its reactionary political activity with "religion" claiming that it is fighting "atheistic communism" to protect the religious freedom of Catholics. In the case of Indonesia, such a pretext is an obvious fraud. The Vatican's motives are strictly materialist. It undoubtedly has financial interests in companies with Indonesian holdings.

On Christmas Eve, Pope Pius XII called on "the nations of the world" to resist "aggression," if necessary even "by force of arms." Now it can be seen that the Vatican itself is a ruthless instigator of "aggression" -a secret partner in the Dutch assault on Indonesia that even the American capitalist press likened to Hitler's attack on the Netherlands.

White House. Despite all his big campaign talk about civil rights, Truman did not intervene in this shocking lynch-murder case. He made no attempt to bring federal pressure to bear on the Georgia Bourbons. He did not use the vast powers of his office to see that the lynch-murderers were punished. He did

not even drop so much as one of his "off-thecuff" remarks to indicate where he stood. These facts lead to only one possible conclusion: Truman's sympathies do not lie on the side of the murdered victim and his widow-the side of justice and civil rights.

His real sympathies are with the Southern Bourbons. That is why his campaign promises on

civil rights remain up in the stratosphere while down on earth lynch-murder continues to rule the Southern courts.

Chinese Trotskyists Hold Celebration Of 1917 Revolution

does not in any way destroy our

It has been correctly pointed

contention here.

From China we have received the following interesting account of the celebration held by the Trotskvists of an unnamed city last November in honor of the October 1917 revolution in Russia:

On Sunday, Nov. 7, our region al organization met at the usual place. It was attended by nearly 100 youths of whom one-third vere women.

The Internationale was sung. Then one minute of silence was observed in memory of those who died in the October Revolution and the world revolution. Afterwards a comrade talked on the significance of this meeting and of the October Revolution and the way it was betrayed. Another comrade spoke on the revolution of 1905 and the Febuary and October revolutions of

1917. Then the meeting adjourned for lunch which was accompanied by songs and theatrical skits. In the afternoon a comrade explained the betrayal of Stalin during the past 30 years, referring to the revolution in China and Spain and the situation in France. Another comrade spoke on the history of the Fourth International, its aims and activities up to the present time. An aged worker then gave his impression of this meeting, how true it was that Stalinism had betrayed the interests of the workers and the genuine spirit of revoution although he had known nothing about all this during his past 20 years as a worker. Later another comrade spoke about local activities and tactical problems. In conclusion he summed up the essence of the meeting: its concentration on theory and its will to translate theory

says that the trade union leaders 'emerged as the main organizational and social force behind Truman," and, paraphrasing: that they got out the labor vote; that they were decisive in reelecting Truman and changing the complexion of Congress; that their collaboration with Truman's social demagogy was the determinant in catapulting Truman back into power and swamping Wal-

> lace. For thirteen years Roosevelt was the political leader of the American workers. The union leadership played a secondary role then. This is still true today. In this election the labor bureaucracy did not build up a candidate. What they did do was to help organize support for a sentiment

Objects to Use of Term, 'War Hero' Editor:

The influence of capitalist public opinion is often very insidious and sometimes expresses itself in the most innocent - appearing words or phrases. Because The Militant is always very careful in this regard every error, even though minor, sticks out prominently. The issue of Dec. 27 contains an item headed: "War Hero's Burial

Made an Issue by White Supremacists." I object to the use of the words 'War Hero." The word "Hero" carries with it implied approval of his exploits. That is why the

capitalist press is so quick to speak of "War Heroes." Place the word "Imperialist" before this phrase and see how it sounds. Or think of General Stilwell or MacArthur or Eisenhower. Are

they "war heroes"? To the capitalist class - yes! To, us, they are reactionary, brutal, inhuman operators of an imperialist war machine.

And the rank-and-file soldiers - are they "war heroes"? No. they are fooled and drafted into fighting a reactionary, imperialist

Imagine the bitter reaction of a Jim Kutcher if he were called a "war hero." Working-class hero - yes! Hero in the struggle for civil rights - yes! But not hero

of the imperialist war! S. R.

ically and began burling labor back all along the line. With the carrying through of the Taft-Hartley Law, the labor battalions were in full and ignominious tion of the main trend. retreat. In November 1948, the working masses-unexpectedly to the capitalists and to us as wellintervened in the elections as a class and put across their candidate. Thereby, they forced the workers are without political capitalists back into the coalition which the latter had broken after the war and reinaugurated a period of New Dealism in American politics.

Further than that, they not only forced the capitalists, against end know only defeat and their will, back into a coalition, disaster. And to that task we but under a far superior relationhave dedicated our efforts, our ship of forces for labor than had energies and our lives. ever existed in the Roosevelt era. of its own strength. This is a new stupendous development, or more accurately, the consummation of what the labor bureaucracy and the liberals had been groping towards throughout Roosevelt's lifetime. Taken in its totalityand that is the only way for Marxists to view it - it unquestionably spells out a left shift in the American political scene.

It is true, as our correspondents It is true, as our correspondents point out, that the total vote was ot spectacularly large even less Wed. 7-10 p. m. not spectacularly large, even less than in 1940, etc. But all these interesting and important aspects are secondary to the emergence of the working class as a solid class bloc voting in a more

cohesive and conscious manner than ever before, and by its action, altering the position of the classes on the political chess board. Previously, it was never entirely clear whether the trade mion bureaucracy was mobilizing the vote behind Roosevelt or

just moving in behind his coattails. Today, both the labor bureaucracy and the working lass are conscious that they are the king-maker.

CHARACTER AND LIMITS

Whither U.S. Capitalism?

By Art Preis

In Truman's first two reports to Congress, his "State of the Union" message and his Economic Report, he tried to show that American "free enterprise"-that is, the private profit system of capitalism-is structurally sound and durable. Since 1929, he emphasized in his opening report, with a 20% increase in population, "our agricultural production has increased by 45%, and our industrial production has increased by 75%. We are turning out far more goods and more wealth per worker than we have ever done before."

"This progress," he boasts, "has confounded the gloomy prophets-at home and abroad-who predicted the downfall of American capitalism." True enough, he admits, "many of our shortcomings stand out in bold relief," but theseparticularly "the evils of 'boom and bust' "-can be overcome by incidental adjustments and reforms.

His Economic Report develops this theme. It notes that the U.S., as yet, has experienced no depression such as followed shortly after the end of World War I. And the reason for this, says Truman, is that "affirmative national policies and greater caution in the business community combined with other developments to make the economy more shock-resistant." (Our emphasis.) If by "affirmative national policies" is meant the pre-war New Deal reforms, then it can be pointed out that all these together never pulled American capitalism out of the doldrums. It was "other developments" after 1939-that is, the war-which gave a new lease on life to American economy. By shooting the federal debt up to \$279 billion, mortgaging the future wealth of the country to the bankers and bond-holders, providing a government war market and guaranteed profits to the industrialists, Washington was able to prop up the economy once more.

These "other developments" have continued to shore up American capitalism. "While the prossperity of the post-war years has been great,"

experienced its "bust" before this. What would happen to American capitalism, for instance, if it did not spend \$25 billions a year now for military preparations at home and abroad? Truman does not say.

And what do the American people get out of it? Truman gives the answer away in one brief sentence of his Economic Report: "The proportion of consumer expenditures in the total national product has never been lower in any peacetime year for which statistics are available." (Our emphasis.)

That is, the American workers are getting a smaller share of what they produce than at any time since the last century. The gap in the division of wealth between the ever-growing working class and the ever-narrowing capitalist class has reached its widest point precisely at this moment of greatest prosperity.

This, then, is the outstanding feature of American capitalism: It cannot sustain production except by the temporary, and ultimately destructive, stimulant of war and war preparations; it cannot sustain war production except by constantly decreasing the relative share of the workers in the national product. Such an economy is headed either for another war or another depression.

VOLUME XIII somewhat temporary factors which were the aftermath of war. ... The momentum of war-created demand and war-created purchasing Politicians Try to Push Civil power has waned." (Our emphasis.) Indeed, without a continuation and an accelera-tion of government war spending since the end of hostilities, American capitalism would have experienced its "bust" before this. Humphrey and Labor

By Grace Carlson

Minnesota militants read Arthur Naftalin's article on Senator Hubert Humphrey in the Jan. 1 New Leader with a jaundiced eye. They do not find themselves in agreement with Professor Naftalin's confident conclusion that Senator Humphrey has the Minnesota labor movement in his vest pocket.

Not that the former secretary to Mayor Humphrey and the present Asssitant Professor of Political Science at the University of Minnesota says it just that way! Professor Naftalin puts it in far more academic language, to be sure:

"The labor leadership is bringing to the Democratic-Farmer-Labor Party activity a strong feeling of identification with the welfare of a great rank-and-file, and the labor leaders have demonstrated an attentive, conscientious interest in the future progress of the entire liberal movement."

But weeks before Naftalin's article appeared in the New Leader, Minneapolis "great rank-andfile" of the labor movement demonstrated their devotion to the "future of the entire liberal movement" by decisively repudiating the so-called charter reform plan advocated by Humphrey, Naftalin and their followers.

Despite the earnest pleas of members of the United Labor Committee in Opposition to the Proposed Charter, Humphrey went on the radio several times to call for support of a new and more undemocratic city charter. The Minneapolis labor movement fought back! Leaflets, billboards and other propaganda agencies blazoned out

labor's opposition to the new charter: "The new charter permits sales taxes on the

necessities of life. . .' "Labor opposes the proposed new charter because one man (The Mayor) would make appointments to the Park Board, the Library Board, City Treasurer's office and City Comptroller's office."

Under the new charter, the Mayor who has the police power at his disposal, holds office for four years and could continue co break strikes for four years before we could remove him."

With these and similar working class arguments against the charter, Humphrey and the "liberals" were defeated in the special Minneapolis charter election. Here is the way Minneapolis Labor, the state CIO paper, summed it up:

"Buried under a deluge of labor votes, the proposed city charter went down to resounding defeat in the special election Dec. 6. The tally was 39,459 for the change; 54,378 against.

"'It is a wonderful victory for labor,' said Robert I. Wishart, president of the Hennepin County CIO Council and one of the outstanding opponents. 'Labor was 98 percent opposed to the new charter'."

On the night of the charter election, Senatorelect Humphrey was honored at a special banquet by Minnesota's "civic-minded" citizens. But trade union representatives stayed away in droves!

A Lesson in Democracy

- By John G. Wright —

Everybody knows that the German people have been undergoing an intensive course of "re-education" in the democratic way of life under the benign tutelage of American occupation authorities. Educator-in-chief has been Gen. Lucius D. Clay. What sort of lessons has this "democrat" been teaching the German people? Here is the latest one, the direct recipients of which have been the inhabitants of the state of Hesse.

Back in 1947 the population of Hesse voted to adopt a state constitution. It contained a special provision - Article 41 - empowering the nationalization of basic industries, principally coal and steel. Gen. Clay ordered at the time that voting on this Article had to take place separately. Despite the general's obvious disapproval, the nationalization proposal was carried by an overwhelming majority. The U. S. military government gave its approval to the state constitution. The German leaders, first and foremost the Social Democrats, boasted at the time of this "genuinely democratic" procedure.

Under the Hesse law, the basic industries were supposed to be taken from their former ownerswho were Nazis-and placed under the control of public bodies. Strangely enough, however, this was not done. Some steel and coal companies were placed in the hands of trustees while the measure as a whole was left in abeyance.

Such was the state of affairs in Hesse until Dec. 14, 1948 when the local authorities were suddenly ordered by a military government decree to return the coal and steel enterprises

to former owners. This decree was based on Gen. Clay's "Law No. 75" which he issued on Nov. 10, 1948 and trial committee, Elliot Becker, walked out just before the house whose avowed purpose was to assure the "decartelization" of German industry. The Hesse coal The election of Becker's successor, and steel industries, according to Francis E. Sheehan, acting director of the Hesse military government, "were parts of cartels (to) be to the trial committee, he had rerestored to former owners so that decartelization under Law 75 could be carried out." (N. Y. Times, Jan. 5.)

This order is in obvious violation of the Hesse constitution, overwhelmingly adopted and "democratically" ok'd by Gen. Clay himself. The last time nationalized branches of German industry were returned to their "former owners" was under Hitler. The pretext, to be sure, was different, but the procedure was the same-an arbitrary decree.

As for cynicism, Clay's henchmen vie here too with the Nazi propaganda machine. The Nazi liars spouted anti-capitalist demagogy while working cheek by jowl with the German monopolists. The American brass hats pretend they are "de-Nazifying" German industry - how? By returning its key sectors to the self-same German monopolists!

This "lesson in democracy" was too much to swallow even for the case - hardened German them not at all. In gambling, Henry Wallace, who played at this from Truman? OAKLAND FEPC LAW DEFEATED BY CITY COUNCIL

By Joseph Bryant

OAKLAND, Calif., Jan. 6 -Before an audience of 500, most of them Negroes, a visibly uneasy Oakland City Council by a 5-to-4 vote defeated a city ordinance to end discrimination because of race in civil service and the hiring of workers by private employers on all jobs contracted from the city.

During the hour and half debate, some of the bitterness that characterized the last councilmanic election came to the surface. The Negro audience participated by applauding those councilmen who supported the ordinance and hissing those who opposed it. Vainly, Mayor Joseph Smith pleaded, "No demonstration."

land Voters League as an after- he said, and the Negro preachers strike, and have broken the 25- ing tide of resentment. year grip on the council by the Knowland' machine. At the first reading of the ordinance, Pease, a railroad worker, anti - discrimination ordinance

was opposed to it, but under the pressure of labor and the Negro people he voted for it.
