Lewis's Charge Of Betrayal--And Murray's Reply

In his June 6 telegram to the Senate, United Mine Workers President John L. Lewis charged that reports are "current" that CIO President Philip Murray and AFL President William Green have "secretly agreed" to "at least four oppressive amendments" to the Truman administration's proposed labor relations bill. If this is true, said Lewis, it "constitutes a foul betrayal of American labor" and a "pusillanimous compromise."

Murray wired the Senate a heated denial of Lewis' charge. He accused Lewis of spreading "false and malicious libels" and referred to a resolution by the CIO Executive Board favoring passage of the original administration bill "without crippling amendments."

We don't want to enter the controversy about a secret agreement. We have no direct evidence one way or another. But we do support Lewis 100% in his warning that Murray and Green are preparing "a foul betrayal of American labor" through a "pusillanimous compromise" on labor legislation.

Why Is He Silent on "Compromises"?

Murray says he is against "crippling" amendments. Are the five "compromise" amendments prepared by the Truman Democrats last week "crippling," in Murray's opinion? Where does he stand, for instance, on the proposal to amend the Wagner Act to grant the President power to break "national emergency" strikes through plant "seizures"? With all his indignant denials, Murray was careful in his answer to Lewis not to state where he stands on these specific amendments.

We have searched the current CIO News and the daily papers in vaip for any statement by Murray in opposition to the five anti-labor amendments which the Truman Democrats have been discussing for several weeks and which were endorsed by the leading Truman Democrats in the Senate last week. We can only assume that Murray's failure to speak out against this "compromise" is noth-

There is all the more reason to suspect a betrayal by Murray in view of the conduct of the CIO representatives last month during the House debate on Taft-Hartley repeal. Let Murray deny if he dare - that representatives of his own steel union, Reuther's auto union and of the national CIO button-holed congressmen and urged them to vote for the "compromise" Sims bill, including its

provisions for INJUNCTIONS. Sure, Murray opposed the Sims bill "for the record." But his lieutenants were plugging for it in the House corridors. Murray's righteous indignation

disprove Lewis was to denounce amendments proposed by the Truman Democrats and to call on Lewis, Green and the other union leaders to join with the CIO leaders in summoning all labor to amendments.

Murray does not do this be cause his program, in reality,

NEW YORK, N. Y., MONDAY, JUNE 13, 1949

NEW YORK - The National Association for the Advancement of Colored People has asked the Truman administration to call "a special session of Congress this summer for the purpose of acting pon civil rights legislation." The demand was made by Roy Wilkins, NAACP assistant secretary, in a wire to Senator Scott Lucas, majority leader, after Lucas announced the administration had abandoned efforts to pass civil rights bills in this session of Congress. Both Lucas and Truman backtracked on this but there is still little likelihood of action on civil rights during the present session.

Wilkins' wire asking for the special session blasted the "faintheartedness and outright defection of some liberal Democrats" and condemned the administration leaders for their failure to support anti-segregation amendments to housing and education bills.

The proposal for a special summer session was first made by the New York Branch of the NAACP in April. The New York resolution also advocated the cailing of "a united Negro and labor conference, representing Negro and labor organizations

They are genuinely puzzled, because even Reuther's opponents and critics concede that he is a some kind of concessions.

But there is no secret joker in the agreement favorable to the union. There just isn't anything there at all. Hard as it is to believe, the Ford workers were asked to return to work after a 24-day strike under the same speedup conditions which existed before the walkout and under the same arbitration proposal that the company offered prior to the

An "impartial arbitrator" is still going to decide the very same issue that was in dispute when, burst of anger and determination, brushed aside Ford's arbitration in GM and other companies.) scheme and resolved to settle the issue on the picket line.

NOT "FAIR SETTLEMENT"

Nor is there any validity in the whispered suggestion that Reuther has the arbitrator sewed up. The settlement calls for the usual 3-man arbitration board, each side selecting one representative, pulled out all stops in porand the two agreeing on the third who, in effect, will decide the class leader. He then went along with the strike and assumed leader ship of it when he saw he couldn't control the situation otherwise But he tried to reduce the fight to the small change of a grievance

You have to understand the peculiar psychology of the labor bureaucracy and how in many ways its thinking is closer to that of the businessman than to the worker in the shop. departmental, section or line was a commonplace, in those days, for a committeeman or steward to shutdown a line or department in an argument over production standards. The workers, mindful of their health and strength, always tried to reduce the day's production as far as they could. The company, mindful of its profits, tried to screw up production rates as high as the traffic would bear. The relationship of strength between the two determined in the end what constituted a fair day's work.

As soon as the flood tide of labor militancy receded, the corporations went into action and began devising ways and means to throttle this menacing power in their plants that was encroaching on their "management prerogatives." Their effort to break the independent strength of the men in the shop had the aid and comfort of the labor bureaucracy.

Bound Volumes

Complete your library of Marxist literature. Bound volumes of Fourth International, monthly magazine of American Trotskyism, contain profound, illuminating articles available nowhere else in the English language on economics, politics, history, philosophy, problems of the trade unions, the Negro struggle for equality and the Socialist movement. Among the authors: James P. Cannon, William F. Warde, John G. Wright, E. R. Frank, George Clarke, Art Preis, Li Fu-jen, Pierre Frank, Ernest Germain and other well-known Marxist writers. Reprints of rare and important writings of Leon Trotsky and other prominent figures of the revolutionary socialist movement.

Bound volumes of The Militant, America's leading Socialist newspaper, present a week-by-week Marxist commentary on world events and issues of vital importance to the labor movement. Factual, authoritative. Cuts through the lying propaganda of the capitalist press and tells the truth about the basic trends that shape history. Read the back issues of The Militant to see how this Marxist newspaper told the straight, unvarnished truth about the war, Wall Street's imperialist aims, skyrocketing profits and the need for labor to get into politics on its own. An education in the workings of the capitalist system!

Capitalist monopolies, having corroded the middle classes, are devouring the democracies. Monopolies themselves were result of private ownership of the means of production. Private ownership, having once been the source of progress, came into contradiction with modern technique and is now the cause of crisis, wars, national persecutions and reactionary dictatorship. The liquidation of the private ownership of the means of production is the central historical task of our epoch and will guarantee the birth of a new, more harmonious society. The act of birth, daily observation teaches us, is

TROTSKY

An American Gestapo

The May 30 Militant warned editorially of the growing menace to the American people of a secret police and internal spy system patterned on Hitler's Gestapo and Stalin's GPU. We cited the use of paid FBI informers . in the unions and other working class organizations, as revealed in the trial of 11 Stalinist leaders.

That Washington is developing such an internal spy system on a vast scale is further indicated by the secret bill on the establishment of a Central Intellingence Agency adopted by both Houses of Congress and sent to Truman for his signature on June 7.

One of the most sinister aspects of this bill is that its contents have been hidden from the American people. With but a few exceptions in secret committee, hearings, not even the Senators and Representatives who voted on it were permitted to read it. The legislators, for the most part, voted blind.

Such an action by Congress is unprecedented. What other secret laws may not be enacted now? What powers may not now be secretly vested in agencies removed completely from the control of the people?

Enough of the general contents of this secret bill has been revealed to indicate that the Central Intelligence Agency which the bill sets up will be a virtual law unto itself.

There will be no outside check on its functions. Not in all American history has any government agency been given such blankcheck, unregulated authority.

LENIN

How will this authority be used? We have at least a hint. The June 7 Associated Press dispatch from Washington, reporting on the secret bill, reveals that it "authorizes the Intelligence Agency to assign its agents to schools, industrial organizations, labor unions and other groups in this country."

Thus, we are to have a network of secret political police, with undefined and unregulated power, operating inside every establishment, institution and organization, particularly industrial plants, the labor movement and the educational system. This is the very hall-mark of the police state.

Is America to have what they had in Hitler's Germany and what they now have in Stalin's Russia? Are the American people, especially the working class, to be placed under a pall of terror, fearful of their neighbors, their friends, their shop-mates? We don't have to speculate. The secret police and internal spy system are already here. The new secret bill will extend them everywhere. It is high time for the organized labor movement to sound the alarm and to fight this ominous development with all its power.

Truman Comes Out in the Open

A few weeks ago, after the Truman Democrats in the House tried unsuccessfully to put over the anti-labor Sims injunction bill as a substitute for the Taft-Hartley Act, Truman attempted to disassociate himself from the actions of his congressional colleagues. He put on a big show of pretended continued opposition to any "compromise" on the Thomas-Lesinski labor relations bill in its eriginal form.

The Trumanite liberals and labor leaders, ho are seeking at all costs to conceal Truman's responsibility for failure to repeal the Taft-Hartley Act, hailed Truman's stand as evidence that he at least is fighting to fulfill the Democratic Party's election promises.

openly accept a "compromise." Senator Lucas said, following a conference with Truman, that the latter had expressed himself as willing to take the "best bill he could get" --meaning, any bill he can get so long as it no longer bears the formal Taft-Hartley label.

What that "best bill" will be is no secret. It will include the five "compromise" amendments drafted last week and endorsed by a group of Truman Democrats including Senators Paul Douglas, Elbert D. Thomas, Lister Hill, James E. Murray and Lucas. These, be it noted, are among Democrats described most frequently by the Trumanite labor leaders as "pro-labor" and "liberal." The only difference between the new "compromise" and the Sims bill, which the union leaders formally opposed, is that the latest proposal provides for the breaking of strikes by plant "seizure" instead of injunctions. Truman claims he has "inherent powers" anyway to use injunctions. The Trumanite union leaders have been making desperate efforts to conceal the real role of Truman. Up to now they have maintained the fiction that Truman was not responsible for the program pushed by his henchmen in Congress. Now Truman himself has exploded this fiction. He and the Truman Democrats are going down the line together in openly betraying their promises on labor legislation.

THE CASE OF JAMES KUTCHER (Text of Article in June 1 'Advance')

The Government didn't ask James Kutcher about his political beliefs when he entered the United States Army. And because of his beliefs, it didn't stop him from fighting heroically in Italy where he lost both his legs in the battle of San Pietro.

But when he came home and got a job as a clerk with the Veterans Administration (which he fulfilled satisfactorily for two years) the VA Loyalty Board questioned his political affiliations. Kutcher told them he was a member of the Socialist Workers Party. He was discharged!

That's the story of "The Kutcher Case" in a nutshell. It is a sordid story and one that must be re-written if we are to maintain the democratic rights upon which this country thrives."

Under a presidential order denying federal employment to anyone belonging to an organization arbitrarily designated as "subversive," Kutcher was dismissed. This is the same executive order which has been attacked by American labor because under it, the Department of Justice issued a "subversive list" without hearings, without any specification of charges or submission of evidence.

The injustice committed against James Kutcher is not purely an injustice committed against one individual (though that would be enough) but rather it is indicative of a trend away from the democratic principles of freedom which the people of this country nave cherished and guarded - and thus, it is an injustice against every man. Kutcher's fight to hold his beliefs as well as his job is every American's fight and it is being taken up by forthright individuals and organizations across the country. A Kutcher Civil Rights Committee has been formed to carry on the battle to secure the civil rights denied Kutcher by the VA Loyalty Board. It is a non-partisan group made up of such distinguished leaders in American life as Dr. John Dewey, Professor C. Wright Mills, Lewis Mumford, Professor Meyer Schapiro and many others. In a recent letter, the group succinctly stated its purpose: 'Although our Committee does not subscribe to Mr. Kutcher's political views, we believe he has the same right to hold them and government job as he did when he lost his legs with the infantry during the war." This committee is endorsed by such organizations as the American Civil Liberties Union, American Veterans Committee, National CIO Committee to Abolish Discrimination, and others. At the University of Chicago, a campus Kutcher Civil Rights Committee has been formed and is supported by more than 100 members of the faculty of that institution. On the labor scene hundreds of AFL and CIO locals across the country have pledged their support in behalf of James Kutcher. But the fight must not be carried by certain individuals and organizations alone. It must be fought by everyone because it is every man's battle to secure the rights of his fellow man. Only by such cooperative action can the integrity and freedom of each individual be maintained against the constant threat of reaction.

changes. We have reached the point where "It is only a slight exaggeration to say that mankind constitutes even now a planetary community of production and consumption." But humanity does not enjoy community of feeling.

fact that the individual has become more conscious than ever of his dependence upon society but feels this dependence not as "a protective force, but rather as a threat to his natural rights, or

Last week Truman discarded any further pretense that he personally would make an uncompromising fight and would agree to nothing short of the original bill he had proposed.

His open retreat was first intimated by his statement to the press on June 2 that he would not carry through on his threat, made early in the Congressional session, to stump the country and rally the people if Congress did not start carrying out his promised "Fair Deal" program.

The next day Truman made clear his position on Taft-Hartley repeal. He let it be known through his Senate Majority Leader, Scott W. Lucas, that he is now ready to

The Hope for Peace

The Foreign Ministers conference in Paris has given rise to the hope among many people that the danger of war may be eliminated. If the conflicting powers merely show "good will" and evince a "peace loving" disposition, then through the Paris conference, or a series of such conferences, they hope, the differences between the Western nations and the Soviet Union will be ironed out, at least for a long time to come.

This is a dangerous way of thinking. For war or peace does not depend on the "good will" or "peace loving" nature of the rulers of this world, nor on the deals, if any, that may be arranged in international negotiations by men of "good will."

Such deals can never be more than temporary. They may, if it is to the advantage of both sides, temporarily stave off an immediate military conflict or eliminate an immediate pretext for war. But they will not remove the root cause of the war danger.

That danger is inherent in the world-wide system of capitalism. War itself flows from the contradictions and conflicts bred by that system.

The possibilities for the progressive development and expansion of capitalism ended by .1914. By that time every capitalist nation on earth was seeking survival through external expansion. 1914 and 1939 were the consequence of the impelling drive of each capitalist country to secure a more favorable division of the world in order to gain new marekts, new sources of raw materials and, above all, new outlets for industry and for accumulated idle capital.

The last two world wars were preceded by economic convulsions. The capitalist nations sought a solution to internal crises by imperialist war. Today, the economic factors that underlay the first two world wars remain, and in far more acute form. In the depression now developing in this country, we can see the real clue to the mainspring of the next war. It is not the "aggression" of Stalin, nor any lack of "good will," but the crisis of world capitalism that is irresistably driving the world toward another planetary slaughter.

This is the terrible reality which the Paris conference does not and cannot deal with. It is the reason why a thousand such conferences will not, in the end, prevent war. The fight against war is the fight against capitalism. Only the world-wide victory of the planned economy of socialism will bring real peace.

STALINISTS PRESERVE SYSTEM

By George Breitman

A military-bureaucratic shift of political power has taken place in China, and not a social revolution. Socialized Medicine IV _____ **Congress Taken Care Of**

A Time for Reason

By Grace Carlson

For the eighth time in ten years, a compulsory health insurance plan has been presented to the American Congress. Present indications are that it will be shelved for the eighth time. The pressure of the reactionary lobbyists of the American Medical Association upon the normally reactionary members of Congress, who live in mortal terror of anything approaching "socialism," - even such a very mild form of socialized medicine as the proposed National Health Insurance Program, has killed this health plan for this ses--sion.

It is interesting - in a kind of a grim way to consider that Congressmen have a system of socialized medicine for themselves, despite their violent objections to the National Health Insurance Program. Here is the testimony of the notvery-socialist-minded Drew Pearson on the subject in his Washington column of May 16: "Senators and Representatives already are ac-

cepting 'socialized medicine' for themselves. "Their aches and pains are treated by a government doctor whose fees are paid by the tax-

The heroic strike of the Canadian Seamen's Union, entering its third month, is reaching into ports of every major country despite blows from all sides. Government terror, organized' scabbery, the strikebreaking orders ssued by British trade union bureaucrats, and now a stab in the back by the Trades and Labor Council of Canada, have failed to intimidate the strikers.

It's only June, but without further delay I would like to nominate the Socialist Party's resolution on the North Atlantic Pact as the shabbiest political document of the year. You might expect an organization calling itself both anti-war and socialist to have little difficulty in deciding to oppose an imperialist war alliance. But the fact is that this question gave the SP leadership more trouble than any in recent years. On the one hand, a large part of the SP's electoral support comes from pacifist elements and from innocents who mistakenly associate it with the anti-war tradition of Debs. To come out for the pact would alienate a good part of these. On the other hand, the whole orientation of the SP is toward the left wing of the Democratic Party, the labor bureaucracy, Americans for Democratic Action, the Social Democrats, the Liberal Party, etc. To come out against the pact would complicate the SP's relations with its prospective bedfellows, if not destroy them altogether. Some members of the SP National Executive Committee (including Norman Thomas) were for the pact, others were against. What to do? The decision was difficult and took some time, but at last it has been made. In case you think I made all this up, you can read for yourself the NEC's resolution in the May 27 Socialist Call.

They decided to "compromise." You may ask how that is possible. Very simple, they just don't take any formal position for or against the pact. Instead, they list the arguments of both sides --"1. Some of us feel that the Pact. . . [will] be

And sure enough, it finds "We are all agreed that there are in the new situation several important dangers" namely, the growth of militarization. the use of U. S. aid for fascist and colonial despots, and their many stooges. Not only did State PAC for National CIO so on. The resolution concludes by saying that the government provide troops to Policy; Hugh Mathews, Norththe job of the SP is to "minimize" these dangers, which weren't created by the pact anyhow. Like most "compromises," this one works to the advantage of the more reactionary side in the dispute. The opponents of the pact can console themselves that they have prevented the SP's commitment to a war pact in peacetime. But at the same time the advocates of 'the pact have been given a free hand to take any position they wish in public; and since Thomas is the only member with any public influence, this means the weight of the SP, actually if not formally, will be placed behind the pact. That's all the

great "moral hero" Thomas wanted anyhow. And so the SP resolution, while seeking to evade the issue in a most cowardly fashion, contributes to the drive of the warmongers by making it appear that it doesn't matter very much whether or not the pact is adopted and by opening the way for its leaders and members to go out and propagandize in favor of the pact. You Soviet hysteria to launch a raidwill have to search a long time before you find anything more "amoral" than that.
