strike, an estimated 500,000 AGAINST THEIR WILL workers in basic steel will hit Murray and the top CIO leadthe picket lines this week-end. ers, much against their will, may

NO ASSURANCES

There is no assurance, however, that if there is a prolonged steel strike which progressively affects wider sectors of industry, Truman will not resort to Taft-Hartley measures to break the strike. He will be under the heaviest pressure of the capitalist press, the whole capitalist class and Congress to smash a strike that might well set off a new wave of labor struggles in auto, electrical equipment, coal and other industries now in negotiations.

On the other hand, even if the steel corporations finally accept Truman's proposal and a strike is averted or halted after i starts, there is no assurance that the steel workers will gain more than crumbs, if that, from an

Touchstone for Conference To Defend Bill of Rights

An Editorial-

Popular indignation is mounting against the police-state terror fostered by the Truman administration. The time is at hand to organize this resistance in a broad movement of united action to stop the campaign for thought control and defend all victims of the witch-hunt. The Bill of Rights Conference is presented with a magnificent opportunity to become an important part of that movement. But unfortunately it is also presented with an ultimatum which, if accepted, will nullify all its activity and blow it up as an effective instrument for civil rights.

The ultimatum is delivered by the leaders of the Communist Party. In an editorial in the July 14 Daily Worker, a compendium of misrepresentation and slander, the Stalinists put two peremptory conditions to the conference and all defenders of civil rights:

1. That a movement for civil rights which defends the liberties of Trotskyists will not be supported by the Communist Party but must expect its most vicious animosity, sabotage and disruptive opposition.

2. That any movement for civil rights which receives the support of the Communist Party must accept its position on Trotskyism, its whole catalogue of unfounded, irresponsible and criminal charges and accusations.

Imitators of Tom Clark and FBI

207

The model for this ominous ultimatum is to be found in the nethods and reasoning of the Tom Clarks, the Un-American Comhe forced to lead a show-down nittee and the FBI. The witch-hunters are not for the suppression battle. But they have no stomach of all critics at this time. They now limit their victims to the leftwing minority which is critical of the administration and especially of its foreign policy.

> Nor are the witch-hunters at present demanding the suppression of critics just because they are critics. Their criterion for the denial of civil rights, for the time being, is the accusation of "spy," "conspirator," "subversive," "agent of a foreign power" and seeking to "overthrow the government by force and violence." No effort has been made to prove these charges or to provide organizations so blacklisted with a hearing or the right of self-defense. But that does not prevent the government from smearing and victimizing members of these organizations.

The Communist Party merely changes a few words but operates on the same principle. It claims to be in favor of civil rights for all with one exception - its opponents and critics from the left, the Trotskyists. Like Tom Clark, it proceeds from the standpoint dexes dropping steeply, Truman 1948 peak. of "guilt by association" in its warning to I. F. Stone that if he at last has been forced to admit persists in defending Trotskyists he is to be read out of the "pro- that there is "a declining na-

It is no mystery when

Howard Fast Challenged to. **Face Hearing**

NEW YORK, July 13 -Farrell Dobbs, National Chairman of the Socialist Workers Party, today called for establishment of a Commission of Inquiry, composed of impartial liberal and labor leaders, to investigate the libelous slanders against Dobbs and the legless veteran James Kutcher made by Howard Fast, Stalinist literary hack, in 'Fast's letter published by the July 11 Daily Compass.

Fast's scurrilous lies about Dobbs, Kutcher and the Trotskyst movement represent the Comnunist Party's answer to liberal olumnists I. F. Stone and Albert Deutsch who, in recent issues of the Compass, attacked the position of the CP in refusing to defend the civil rights of Trotskysts and other political opponents of Stalinism.

Stone and Deutsch rebuked the Stalinists specifically for their action at the New York Civil Rights Congress when they voted down an amendment to support the pardon campaign of the 18 Minneapolis Labor Case victims and to defend James Kutcher, who was fired by the Veterans Administration for his membership in the SWP.

Among other slanders, Fast al-June, unemployment at close to has worked as little as 1 hour quite frankly that he supported 4 million and business invest- during the week of the survey, the overthrow of the government ments running 26% below the those on temporary lay-offs of by force and violence." on the workers.

The August issue of Fourth International, the monthly theoretical magazine of American Trotskyism, presents: THE AMERICAN EMPIRE. A whole issue devoted to the most ominous development of our times - the drive of the Wall Street oligarchy toward domination of the entire world.

The Power and its Nemesis 1.

In broad strokes the editors place the American Empire in its historic setting, showing how it far transcends anything seen before in wealth and malignancy. But American capitalism carries the seeds of its own destruction. Its real destiny is to prepare the ground for socialism in America. This editorial presents the main Marxist conclusions that are developed in detail in the succeeding articles.

2. The Reigning Oligarchy

Ferdinand Lundberg's book America's 60 Families created a sensation in 1937 with its facts about the enormous concentration of wealth in America. What has happened in the 12 years since then? John G. Wright brings the essential material up to date. From the obscure records where the capitalists try to bury the truth, he has pieced together the evidence. The cold figures reveal a startling increase in the size of the giant fortunes and the sinister power of the economic royalists. The pirates of private enterprise won't like this article, but class-conscious workers will. Put this down as must reading.

Organizer of Counter Revolution

Wall Street doesn't export democracy. It exports dollars and guns to strengthen reaction throughout the world. George Clarke presents the black record of Washington's foreign policy. He lays bare the economic sources of this policy, showing how the explosive force of American capitalism impels the multi-billionaires to take the road of conquest and another world war.

4. The Iron Heel

A reactionary policy abroad cannot be maintained without entrenching reaction at home. The price of imperialism

to the American people has been a savage assault on their basic rights that bodes ill for the future. G. F. Eckstein probes the underlying social forces behind the "loyalty" purges, witch-hunts and anti-labor legislation. He shows why the drive against independent thinking was deliberately launched and why it extends from the most oppressed sections of the Negro people right up to the top circles of the atomic scientists. If you wonder why a vast, secret police network is being built in America on the pattern of the Gestape, you'll find the answer in this instructive article.

Wall Street's Labor Salesmen 5.

America's 60 richest families could not rule long without the support of the top labor bureaucrats. Bert Cochran tells the sordid story of Wall Street's cheapest diplomats, the labor "statesmen" who go abroad at union expense to peddle evil schemes of American imperialism. At home these same "statesmen" are doing their utmost to keep labor in the harness of the capitalist political parties. Brutal anti-labor legislation has been the pay-off. This article cuts through all the pretenses and camouflage of the top labor bureaucrats to expose the miserable role they play as low-priced messenger boys and cut-rate salesmen for American imperialism.

6. Program of the Opposition

William F. Warde sums up 60 years of anti-imperialist struggle in the United States. How can the American people find their way to a new economic system that operates in their interests? How can they end the rule of the profiteers and put in power a Workers and Farmers Government? The experience of the struggle against Wall Street since the Spanish-American war demonstrates that the answer cannot come from "isolationism," from pacifism, from the social-democracy or from Stalinism. The great hope for the future lies in the unique combination of Marxist theory and native American leadership embodied in the Socialist Workers Party. A profound study, drawing deeply on the lessons of history, "Program of the Opposition" fittingly rounds out another outstanding issue of Fourth International.

LENIN

In the capitalist states the most monstrous forms of bureaucratism are to be observed precisely in the trade unions. . . It is thanks to this that the whole structure of capitalism now stands upright, above all in Europe and especially in England. If there were not a bureaucracy of the trade unions, then the police, the army, the courts, the lords, the monarchy would appear before the proletarian masses as nothing but pitiful and ridiculous playthings. The bureaucracy of the trade unions is the backbone of British imperialism.

-Leon Trotsky, "Communism and Syndicalism," 1929.

Dulles Blurts Out the Truth

The other day John Foster Dulles, the new U.S. Senator from New York, made his maiden speech. In the course of whooping it up for the Atlantic Pact, he blurted out some top-drawer secrets. .

Dulles has played a prominent role both in the secret councils of the bi-partisan warmongers as well as in the public conduct of Washington's "cold war." Among other things he took a leading part in the U.S. delegation to the recent Paris confab with the Kremlin. And what did this delegation seriously discuss among themselves? Here is what Dulles himself said:

"At Paris last month there was discussion as to whether to accept at all the Soviet-proffered truce and to resume, even on a tentative basis, four power consultations. Some feared that any relaxation of East-West tension would bring a corresponding relaxation on the part of the people and that they should artificially be kept alarmed."

There you have it, from the lips of one of the chief plotters, Dulles himself, that the American people have been and are victims of one of the most monstrous conspiracies in modern times. All the time that the capitalist rulers of this country have been howling about the

need for measures against "foreign aggression," they have been carrying on a war of nerves against the American people, keeping them "artificially alarmed."

For what purpose? So that the capitalist politicians, militarists and diplomats could have a pretext for extorting the countless billions of dollars required for their imperialist program to dominate the world. So that they could have a pretext for instituting a permanent conscript army, for expanding their FBI stoolpigeon network, for their attacks on civil rights, etc.

Everything that has transpired since the Paris Conference - the drive for ratification of the Atlantic War Pact, the arms-for-Western Europe scheme and the continuing assault on civil liberties at home - proves that for tactical reasons, Dulles, Acheson, Truman and their fellow conspirators decided in Paris only to make it appear that there has been some "relaxation" in their war drive.

The capitalist rulers must resort to "artificial" methods, that is, secret diplomacy, conspiracies, and lies, to put over their real program. If they told the truth about their aims, the American people would rise up in wrath and put them in the insane asylums where they belong.

Rubber Workers and 30-Hour Week

Last week in discussing the abject failure of top union leaders to advance the demand for the 30-hour week with no reduction in pay we mistakenly referred, in passing, to the rubber union. We are glad to take this opportunity to make a correction.

The leadership of the CIO United Rubber Workers is to be commended for highly progressive steps that were taken by its Executive Board which recently held

so acute as to make decisive action imperative. Effective action can come from one source and one source only - and that is, from organized labor itself.

Delay, especially at a time when union contracts are up for negotiation, can act only to aggravate such a major problem as unemployment and render it more difficult to ameliorate the already intolerable position of workers in one industry after another.

a special meeting on the unemployment problem.

It was here decided to include in 1949 URW contract demands the extension of the six-hour day throughout the industry with no reduction in pay.

While making this demand upon the companies, the URW, at the same time, came out in favor of federal legislation cutting the work week in rubber from 40 to 30 hours.

Here, indeed, is a splendid example to follow. By taking the lead in fighting for such a key issue as the 30-hour week, the URW leadership has performed a signal service for organized labor as a whole, and, in particular, has aided greatly in the unpostponable struggle to curb the spread of joblessness.

The unemployment situation is already

The action of the URW Executive Board on the 30-hour week is all the more noteworthy because it points up the urgency of the situation and the dangers of any further delay.

An example has been set. It should be picked up and followed. Above all, the rubber workers must not be left in a position where they can be isolated by the employers in the struggle for the institution of the 30-hour week. Any setbacks in this connection will be paid for by the labor movement as a whole.

On the other hand, if other unions rally behind the same demand, pooling their resources and forces in a common struggle, a giant step will have been taken to assure one of the most effective immediate remedies that can be taken against the spread of unemployment.

A Depression Story

By Ruth Johnson

British Doctors

By Grace Carlson

The Rent Fight in Chicago

It was a coincidence that a letter was sent me on the day Truman was telling the nation that the "recession" is really nothing to worry about. "Dear Ruth," the letter said, "Ralphie died three months ago, but I haven't been able to write about it until now. The end came after three weeks of terrible pain. He had a headache that wouldn't go away. . . Doctors and two brain specialists made all kinds of tests, spinal taps, two minor operations on his head, and then a major operation to remove what they thought was a tumor.

"He died eight days after the operation. After the autopsy they told me it was tubercular meningitis, and the beginning must have been contact with Bud so many years ago."

As I remembered that episode of long ago, I could see Ralphie's mother and father, twenty years old and deep in love. That was in the bitter depression year of 1934, but they weren't afraid of a thing. They both had jobs, and that alone seemed like a miracle to the rest of us. Between them they earned \$32 a week, enough to get married on, buy furniture on the easy-payment plan, and get a cozy apartment. Bud was a bright am-, bitious young man, going to night school to "improve himself" so they could afford a family some day.

He worked in a warehouse office nine hours a day, more whenever the boss ordered it. Who could refuse to put in a little overtime, when hungry lines of unemployed stood before the building every morning? Often Bud dashed off to class without time for dinner, then plopped into bed too tired to eat at midnight.

Before the furniture was paid for, Ralphie was on the way. Bud worried a great deal, skipped a few more meals to put aside a little extra money. The big long hours, the strain, the skimpy meals began to tell on him. He lost weight, tired easily, kept getting colds. Two months before the baby was due, the doctor ordered Bud to

Socialized Medicine VI -

Like their American counterparts in the Amer-

ican Medical Association, the bureaucrats of the

British Medical Association resist every real move

toward "socialized medicine." In 1911, they fought

a bitter but losing fight against Lloyd George,

whose Liberal Government enacted the first na-

tional health insurance program for British work-

ers. While they lost the fight, they did win some

points, such as local administration and choice

By 1948, when the National Health Service

replaced it, this panel practice enrolled 20 mil-

lion workers in England and Wales and two-

thirds of Britain's doctors had at least some

panel practice. Under pressure of Labor Party

members, Churchill's coalition government threw

out a sop to the British workers in the terrible

war year of 1943 in the form of the Beveridge

report. Among other benefits, the Beveridge plan

provided for the extension of free health services

to all Britains from the "cradle to the grave."

Gallup poll taken in 1943 showed that 88% fa-

wored its passage after the end of the war.

The Beveridge plan was instantly popular and a

Faced by this widespread demand for the ex-

tension of compulsory health insurance, the BMA

supported the Beveridge plan, but began to put

pressure on the Health Minister to draw up a

bill that would favor the medical profession.

Twice, the BMA rejected health bills submitted

to them by Hubert Willick, the Conservative

Health Minister. Later the BMA and the Con-

servatives were near agreement when the 1945

of doctor.

take a complete rest, build himself up with plenty VOLUME XIII of milk and eggs and meat.

They didn't think it was too bad. Of course they had to give up the apartment and take a

ting any better. Still, it didn't take much exertion to feed and dress a baby, so he shouldered these tasks while Gladys worked. It is possible that the doctor was careless. Or was it just that he Witch-Hunt Purge didn't think much about what happened to pa- Aimed at Detroit tients who had so little money? Anyway, it took him months to discover that Bud had tuberculosis, City Employees in an advanced stage.

I put the letter down, thinking of how iong, even then, they had to wait for a vacancy at the free sanitarium. Bud lived only three weeks after they finally admitted him. I remembered the twenty two year old widow stunned with grief, holding Ralphie in her arms.

There was nothing weak about Gladys. She worked, she managed well, she gave her baby glowing health. Somehow she could always afford specialists for him, no matter what she did without herself; she was haunted by the know!edge of her child's early exposure to tuebrculosis. Now Ralphie is gone. Born in the midst of a depression, struck down by its effects, dead at the age of thirteen as another depression looms.

That is the story of Bud and Gladys and Ral- is a legal organization, has asked phie. It is a small part of the bigger story of a the State Legislature to outlaw society that dooms millions upon millions to such the Communist and other parties fate. Out of all our rememberings and sufferings will some day come the power to free our lives from the death-clutch of the capitalists.

the embattled BMA bureaucrats.

The Detroit Common Council proposes to place on the September ballot a charter amendment which would legalize the setting up of a five-man loyalty board to investigate and pass on the poli-

tical and religious beliefs and affiliations of city employees and applicants for such jobs, and to fire all those accused of belonging to organizations termed "subversive" by the U. S. Attorney General. Mayor Van Antwerp, fearful that such an amendment would be unconstitutional since the Communist Party as "subversive."

The present city charter clearly forbids the questioning of civil service employées regarding their religious or political beliefs, and prohibits discrimination against them on these grounds.

These actions follow a long and carefully-planned drive by the

anti-union Detroit press to whip up hysteria. Typical was the Detroit News' front page ques-

among British doctors to determine whether the the Mayor. It stated, "I, as a doctors would cooperate with the health service. qualified Detroit voter, believe These were carried out by medical association the City should protect itself leaders in the same hysterical spirit in which the and its people from plotting by American Medical Association heads now attack subversive employees of the City. the proposed National Health Insurance Pro- I support the suggestion of the gram.
