Cops Look on at Mob Violence After Concert

Scenes like the one above were duplicated all along a four-mile stretch of one-way highway when autos leaving a concert by Paul Robeson near Peekskill, N. Y., on Sept. 4 were forced by police to run a gauntlet of rock-hurling hoodlums who injured more than 200 persons. The arrows on the left point to a rock in the air and a man in Army uniform about to heave a boulder. The arrow on the right points to two cops a short way down the road looking on and doing nothing. These hoodlums are still at large although they are easily identifiable in the original photograph.

deferse, declared: "The granting of our appeal to reopen Skoglund's case is a signal victory in the fight to halt his deportation. This honorable labor veteran has already been heavily penalized for his beliefs and union activities. We hope that a new

An Editorial

From the beginning of the break between the Kremlin and the Yugoslav Communist Party, the Trotskyist movement the world over has recognized the progressive character of the Yugoslav struggle. We also recognized and warned against the dangers facing Yugoslavia, both from Western imperialism and from Stalinism, which we knew is incapable of countenancing any independent development on the part of Yugoslavia.

At that time both the Socialist Workers Party and the Fourth International foresaw three possible outcomes to the conflict: a capitulation by the Tito regime to the Kremlin; the absorption of Yugoslavia into the imperialist orbit; or an independent revolutionary struggle by Yugoslavia against both imperialism and Stalin-

Road to Capitulation Closed

It is possible to say now that the road to a capitulation has been completely closed. Stalin cannot possibly

find any compromise in this conflict without endangering his position in the satellite countries and within the moved. They are touching off an Soviet Union itself. Moreover the Yugoslavs realize explosion of class struggle that that a compromise could only be of a temporary character, leading sooner or later to the physical as well as political extermination of the leadership of the Yugoslav Communist Party - the fate of all those opposi-

tions that will give even a cent equal preparations, to formulate The economic and political pressure of Stalinism has a unified strategy of action, to been enormous during this entire struggle, but the hopelessly compromised if they made common cause lation by coming to its support and mercilessly exposing

Page Two

FLINT, Mich., Sept. 1 - A flurry of strike votes and wildcat strikes have hit General Motors plants. Among the plants affected are Fisher Body in Lansing, Fisher Body Two in Flint Chevrolet Assembly in St. Louis and Fisher Body in Cleveland. The cause of the trouble is the insufferable speedup which the corporation has imposed on its workers in a hundred plants around the country.

Only a day after officers of UAW Local 602 had announced a nine-to-one strike vote at Fisher in Lansing, picket lines were established to protest disciplinary action taken against two women employees in the cushion department. The strike awaits authorization from the UAW International Executive Board.

At the Fisher Two plant in Flint a wildcat led by workers in the trim shop broke out when the company refused to give the workers representation after the committeemen had exhausted their allotted bargaining time of two hours.

SPEEDUP SUCCEEDING

GM, which supplied cars to 44% of the national market last year, has been successful in increasing production throughout its plants ever since the defeat of the crankshaft workers in the Chevrolet Motor division of Flint a year ago. The biggest factor aiding the company speedup in all its plants is the intolerable contract. which binds the hands of local union officers. As every auto worker knows, speedup must be fought as soon as it arises. The GM contract, with its long drawn out grievance and strike procedure, prevents the union from taking quick and decisive action. There are no production standards on line speeds in the GM assembly plants; this includes the Fisher Body units which supply bodies. The newly-built Chevrolet assembly plant in Flint has taken no less than three strike votes in protest over the speedup, and the problem still remains.

Unlike strikes in Detroit, the wildcat strikes in GM have not been too successful as yet because of the onerous company security clause which the corporation invokes against local bargaining representatives. (See the notorious Paragraph 117, printed elsewhere on this page.)

HOW CLAUSE IS USED

the entire bargaining committee. After the workers had walked

Paragraph 117 of The GM Contract Paragraph 117 of the GM contract reads as follows:

This time, too, Governor Dewey, the famous "gang-buster," has minded forces in this country refused to comment on the mob which, if not stopped, will be violence in Westchester County turned loose on the unions in the until he gets "reports" from Gaffend. The lesson is: no protection ney, Fanelli and Ruscoe who were against fascist terror can be exhand in glove with the murderous mobsters. What kind of "report"

WHY YOU NEED "The Militant" America's leading socialist

weekly gives you:

• The straight, unvarnished facts about the trends in politics, economics and social issues of vital importance to every thinking worker.

• Genuine Marxist analyses that explain in simple language the big events of our time and reveal their basic meaning.

• Uncompromising exposes of the profiteers and their political hatchet-men in high office.

• The inside story of many of the major happenings in the labor movement that make headlines.

• A fighting program to com-bat the evils of monopoly capitalism.

The Militant presents the revolutionary socialist answer to the advancing depression and mass unemployment, persecution of racial and political minorities, the menace of fascism, and the threat of atomic destruction in another world war.

A heartening vision of the bright new world which scientific socialism foresees and a. practical way of speeding its realization.

door neighbor - we are expendable. Our lives mean nothing. Only profits are sacred." In his analysis of the contract proposed by the company, Child-

er: made it clear that the company deliberately provoked a strike by refusing to agree to a contract under which the union could live. But the union negotiators

would not agree to throw working conditions back to what they were in the 1930's before the CIO. They struck primarily because they could not get a decent union agreement. The wage and pension demands

had hardly been discussed prior to the strike. The union adamantly refuses to settle the strike except on the basis of a union contract which

will preserve the basic protection for the workers which the union has won over a period of years of struggle.

Meanwhile the strike remains 100% effective. Only a handful of key workers

are allowed in the plant; a system of passes continues. Anyone without a pass issued at the union hall cannot get in the plant. The strike has not yet hit the workers too hard. The last pay will be given out this week.

HARDSHIP CASES

But already there were hardship cases since some workers had been drawing very short pays, and could not make ends meet. The city relief office set up a system of issuing relief on the basis of a screening of cases by a union committee at the union hall. Strikers are given relief. But relief funds in the city were running low. The city officials appealed to the state for an advance of relief funds, and were turned down. A crisis in

"Reactionary epochs like ours not only disintegrate and weaken the working class and its vanguard but also lower the general ideological level of the movement and throw political thinking back to stages long since passed through. In these conditions the task of the vanguard is above all not to let itself be carried along by the backward flow: it must swim against the current. If an unfavorable relation of forces prevents it from holding the positions that it has won, it must at least retain its ideological positions, because in them is expressed the dearly paid experience of the past." -Leon Trotsky, Stalinism and Bolshevism, 1937.

The Second Peekskill Assault

The second organized fascist-like mob -attack on persons attending a Paul Robeson concert near Peekskill has confirmed what we wrote last week about the first bloody assault on Aug. 27. Reliance on capitalist officials and so-called law-enforcement agencies to safeguard civil rights from the storm-troopers, we said, would be the gravest mistake.

The fact that more than 1,000 fullyarmed state and local police, prepared in advance for mob violence, failed to prevent the injury of some 200 persons and permitted a relatively small number of terrorists to roam and wreck at will, is sufficient proof of official complicity in the assault. There is, moreover, ample evidence of hundreds of impartial eyewitnesses, scores of newspaper photographs and newspaper accounts to prove indisputably that the police themselves actively aided the mobsters and were a party to the whole dastardly assault.

We said last week, and we repeat with all the added emphasis at our command, that the chief guilt for this outrage and similar ones it may encourage in the future belongs to the Truman administration. Through Truman's "subversive" blacklist of organizations and political groups proscribed by the party in power, the atmosphere has been created for mob assaults on civil liberties. If Truman can brand individuals and groups as "disloyal" without trial or chance for defense, why shouldn't the fascist hoodlums feel free to act with equal disregard for the Bill of Rights?

The fascists correctly feel that they have the moral sanction of the federal government as well as the tacit approval, if not the outright collaboration, of state and local authorities and police. The government which arbitrarily and illegally puts certain political groups outside the law and invites attack upon them, is not to be feared by the fascists. That is why the Westchester mob acted so openly and brazenly.

It is no incidental fact that the assault in Westchester County, which was organized under the slogan of "anti-communism" and in which a small group of Jewish War Veterans stupidly participated, ended in naked anti-Semitism, as well as Negro-baiting. Nor is it accidental that the leaders of the Ku Klux Klan have hailed the attacks on the Robeson concerts as "only the beginning" in the North as in the South.

Peekskill is a flaming signal of rising American fascism. As in Germany, it has revealed itself first in attacks on political and racial minorities. If the fascists are not halted now, they will become bolder and more aggressive. The union halls will be their next target.

The capitalist government cannot be depended on to prevent more Peekskills. Only the determined joint mass action of labor and liberal groups, prepared to take the quickest and most energetic measures of self-defense, will be able to safeguard free speech and the right of assembly from the storm-troopers.

Truman's Quack Cure

The Truman administration has work-• ed out a slick trick that's supposed to reduce unemployment. It's very simple. The government hands out small contracts to industries in "distressed areas" - that is, areas where unemployment runs greater than 12% of the labor force.

Knoxville or chair coasters in Bridgeport some other worker elsewhere who would normally have been employed in filling these government orders will lose a job. What Truman's program does is reduce unemployment in one area by creating unemployment in another.

before they spread" — as though unem-

ployment is like some superficial skin

Thus, two textile firms in Knoxville. Tenn., wangled a \$2,000,000 government order for mailbags. Knoxville unemployment runs to between 15% and 20% of its labor force. In Bridgeport, Conn., with a similar percentage of unemployment, a chair coaster firm got a government order amounting to between \$3,000 and \$4,000.

There's one little hitch in the trick, however. The contracts the government is siphoning into towns like Knoxville and Bridgeport, reports the Times, are being "diverted from areas which are not distressed," — that is, where unemployment has not yet reached the stage of one worker walking the streets for every five or six workers still getting some kind of wages.

In short, for every worker who gets a job making government mailbags in

Dewey's Double-Standard

Governor Dewey on Sept. 7 received two police reports. One was Westchester County District Attorney Fanelli's whitewash of the mob attack, in the presence of 1,100 police, that injured some 200 persons leaving the Sept. 4 Robeson concert near Peekskill and damaged hundreds of autos and 25 buses. The other concerned the alleged injury that morning to five strikebreakers who tried to crash a CIO picket line at the Bell Aircraft plant near Buffalo.

Dewey had "no comment" when he, made public the Peekskill report which praised the "magnificent job" done by the army and cops, including 250 of Dewey's state troopers, who allowed the mobsters to run wild in an orgy of bloody violence. He had "no comment" on Fanelli's claim that the violence was committed by "teen-agers" who had "no connection" with the American Legion and other reactionary groups which organized and incited the Peekskill atrocities.

Entirely different was his attitude on the Buffalo incident. He fumed about "a serious outbreak of lawlessness this morning in Niagara County. An organized group became a mob, obstructed the free use of a highway and of passage for those trying to use it lawfully."

Dewey, the capitalist politician, is silent when a mob shrieking anti-Semitic and anti-Negro epithets deals a violent blow at freedom of speech and assembly, sends scores of persons to hospitals and causes thousands of dollars in property damage. But when a few scabs meet resistance as they try to bust through a picket line of workers defending their jobs and their living standards, then Dewey starts howling for "law and order."

What was the Peekskill mob aiming at? They were trying to destroy the constitutional rights of American citizens. They were trying to spread lynch spirit against Jews and Negroes. They were an advance guard of fascism.

What are the Bell workers fighting for? They are fighting for a decent living for their families. They are trying to preserve their union against an employer who has arrogantly refused even to negotiate on their wage demands and is trying to organize a "back-to-work" movement to smash their strike.

It's nothing to raise Dewey's bloodpressure when anti-labor fascist elements run riot. His arteries start to pound only when workers defend themselves against strikebreakers.

The theory behind this program, as Truman stated it, is that the "pools of until they were ready to "confess" heavy unemployment need to be treated to anything.

The National Association for the Advancement of Colored People quickly entered the fight, exposing the fraudulent nature of "confessions," the lynch the hysteria that pervaded the community and the lynch incitations spread by the local press. Defense lawyers were also provided by the NAACP for the trial, which began in Tavares in the Lake County Circuit Court before Judge J. G. Futch last week. Futch denied the NAACP's motion for a change of venue. stating that he had "subscribed to the Lake County newspapers for years" and could find in them nothing of an inflammatory nature that would tend to interfere with the conduct of an impartial trial. (One paper, the protest in all parts of the coun-Orlando Sentinel, had printed a front page cartoon of the electric chair, entitled "No Compromise"

The Water Tank

By Jack Rowley

"There was a certain very dry land, and the people thereof were in sore need of water. And they did nothing but to seek after water from morning until night, and many perished because they could not find it. . ."

Thus opens the Parable of the Water Tank. The tale goes on to relate how certain men gathered stores of water where others' could not find any. These men were called capitalists.

The people came to the capitalists and offered themselves and their children as servants, for the sake of a little water. So the capitalists hired them to carry water to a huge water tank which they called the Market. For every bucket of water a man carried to the tank he received a penny. But for every bucket he took from the tank for his own use, he had to pay the capitalist two pennies. And the extra penny was called profit.

Everything was rosy while the tank was being filled. But for every bucket a man carried to the tank he received only enough to buy back a halfbucket. And soon the tank was filled to the top and overflowed. Then the capitalists told the people that they should carry no more water till the tank was empty. But the people received no pennies for carrying water, hence they could buy no water back. This condition was called a crisis. Now, the people were troubled. The waterholes, wells and springs were all controlled by the capitalists and the only place they could obtain water was from the tank. The people became unruly, and the capitalists were nervous, lest the people take the tank from them.

So they sent soothsayers and priests to calm the people. But the people took up stones against these. Then the capitalists wet their fingertips and flicked water on the lips of the people. This they called charity - and it was bitter. Then the capitalists approached the strongest of the people and those skilled in warfare and, with the bribe of water, enticed these into their service against the people. These took swords and drove the people back from the tank.

After the capitalists had wasted much water

on their own pleasures, the tank was empty. The crisis was over. The people went back to carrying water to the tank. For each bucket a man carried he received a penny. For each bucket he withdrew from the tank he had to pay two pennies. And so, it went, and crisis followed crisis.

Then certain men rose up from among the people and told the people to organize so that they would not have to be servants to the capitalists and would not have to suffer and die of thirst when there was too much water. And the capitalists called these men agitators and the capitalists called these m they would not have to be servants to the would have liked to crucify them, but they feared the temper of the people.

But for a long time the people did not listen to the agitators. But after a time, the people asked the agitators to show them the way out asked the agitators to show them the way out

And the agitators said: "Behold, what need have ye at all of these capitalists, that ye should yield them profits upon Real Interests of Members your labor? What great thing do they wherefore ye render them this tribute? Lo! it is only beyou a little of the water yourselves have brought the Stalinist machine and the and not thev.

"Now, behold the way out of this bondage! Do ye for yourselves that which is done by the Furthermore, the UE convention them out. capitalists - namely, the ordering of your labor, and the marshalling of your bands, and the dividing of your tasks. So shall ye have no need at all of the capitalists and no more yield to them any profit, but all the fruit of your labor shall ye share as brethren, everyone having the same; and so shall the tank never overflow until every man is full, and would not wag the tongue for more, and afterward shall ye with the overflow make pleasant fountains and fishponds to delight yourselves withal even as did the capitalists; but these shall be for the delight of all. . ." I would heartily recommend that you read the

A United Labor Congress could ployment, together with the rally the unions for the fight failure to repeal the union-bust- against unemployment by deing Taft-Hartley Law, has em- manding a reduction in the hours coldened the hate-labor gang in of work with no reduction in pay. its drive to smash the unions and It could take up the fight for lower the living standards of the civil rights and throw the weight of the organized labor movement behind the struggle of the Negro people for equality.

Above all, a Congress of Labor would have to review the political role of labor in the light of past experience. Such an examination must lead to the conclusion that it is necessary to break with the policy of supporting candidates of the boss-controlled Democratic and Republican Parties and launch an Independent Labor gressive workers, the group has exclusively, on the so-called Party based on the unions.

A large majority of the deleleadership from the start and session in New York voted to its national conference held in The Democratic victory was gates attending the NMU congrant the GEB dictatorial powers of resolutions which outline at mains, unemployment is increas- riorate, union militants fired and to try members in any local least a partially constructive pro- ing, civil rights legislation has blacklisted, the shipowners growunion and expel them if they see gram for the union. But this was been scuttled, the union-busters ing more arrogant. Conference are on a rampage. Still the table unionism based on the illusion is being fostered that the fiction of labor-management cocratic and Republican "friends" and arbitration has led the union tion. But experience proves that ing a way out.

0

Instead of a solution to their again diverting their energies into a struggle around the issue of internal union democracy. The Curran group has proclaimed that the main issue confronting the convention is the adoption of an "anti-communist" clause in the union's constitution. This presumably would provide an immediate "solution" to all problems. Everything else is to be left as is!

CAN'T RELY ON LEADERS

Under the circumstances it is

obvious that the delegates cannot

age benefits would be eligible if the premiums were paid by social welfare agencies. Provision would be made to have 3% of earnings paid into a national insurance fund. Additional funds to operate the health program would be appropriated An employee earning \$1,250 per year would pay

\$18.75; an employee earning \$3,600 per year would pay \$54. These sums would be matched by equal contributions from employers to pay for complete medical care for the worker and his dependents. Self-employed persons would pay the full 3% in order to participate in the plan.

Health services provided under the bill would include services of physicians, including specialists, when required; hospital care (except for tuberculosis and mental illness) up to 60 days per year; laboratory and X-Ray services; eye glasses and other special appliances; dental care and home nursing service to a limited degree.

Under this proposed bill, the patient would be permitted free choice of physician and hospital. General practitioners would be paid by a method agreed upon by a majority of physicians in the area. Hospitals would be paid full cost of service. The doctors would have absolute authority to ake medical decisions, but in the general ad-

Socialized Medicine X -The Truman Health Plan By Grace Carlson

"Keep politics out of this picture" is the slogan that greets patients entering doctors' offices these days. Part of the American Medical Association's campaign against a national health insurance bill, the slogan about "politics in medicine" accompanies the famous Sir Luke Fildes painting, The Doctor.

But this outdated painting of an old-fashioned general practitioner watching over a sick child stretched out on two chairs in a poor cottage proves just the opposite! Politics should enter such a picture. Certainly, the real-life counterpart of the harassed father in the background of the Fildes picture hopes that some kind of compulsory health insurance bill can be passed in order to provide much-needed hospitalization and scientific nursing care for the sick children of the poor.

Not a rounded program of medical care certainly not a true socialized medicine program - the Truman health plan does propose a step in the right direction. A variation of the eight other compulsory health insurance plans that have been introduced into Congress in the past decade, the Truman health plan proposes to broaden the Social Security Act. Not as broad in its coverage as Britain's National Health Service, the Truman Health Plan (Senate File

5 — Wagner-Murray-Pepper-Chavez-Taylor-Mc-Grath) proposes a system of compulsory health insurance for the majority of the population.

Those eligible for care would include all employed or self-employed persons, plus their ministration of the plan, the public would also be represented on local boards.

And this is what bothers the authoritarian American Medical Association!

Contrast in Germany

By Charles Hanley

There are two legal neo-fascist parties in Western Germany and one in the Russian zone, with the occupation powers playing "their" Nazis against each other and the German masses. The N. Y. Times has reported that after the end of censorship eighty Nazi newspapers edited by former Nazi journalists will resume publication in the American zone. Those Nazi journalists are precious to imperialism, being experienced specialists in anti-communist propaganda.

While the fascists are flourishing in Germany again, the "Free Communist Party" ("Titoist") in Berlin has been refused legal authorization by the occupation authorities, and Karl-Heinz Scholz, its leader, has been arrested in the French sector of Berlin for holding an unauthorized meeting.

The imperialists, who have no difficulty in getting along with Nazis, seem to be very much disturbed at the prospect of having to deal with a potential mass movement of communists independent of the Kremlin bureaucracy which has organized so many defeats for the working class during the last quarter of a century.

Their fears are justified. Like Stalin, the imperialists fear nothing in the world more than

the possibility of being confronted with a revolutionary movement led by forces who owe their allegiance to neither side in the cold war. By their suppression of independent communists, as in their legalization and encouragement of neo-SPEEDUP ARTISTS fascists, the imperialists are only defending their own class interests.

But the workers have their own class interests to defend. They cannot tolerate a policy which directly serves the preparation of World War III. It is their duty to support and help every independent labor militant - in no matter what country - who refuses to be a lackey of either the Kremlin or Wall Street.

Toward this end, the labor movement of the whole world should call for the immediate legalization of the "Free Communist Party" and of every other working class group in that country which is today compelled to exist underground because of the oppressive policies of the occupation powers. And, since that will not be sufficient to restore genuine political freedom in Germany, the labor movement must begin also to demand the immediate end of the occupation which is fostering the rebirth of Nazism along with countless other anti-labor crimes.

program of action and solidifying Hartley Law, it would be folly their forces around it.

The planks of such a program are already at hand and have been

proposed at different times by various progressive local unions in both the UE and the CIO. They include such policies as industry-wide bargaining and common termination dates for all contracts, an over-all militant policy against the bosses, democracy and rank and file control, 30 hour week at 40 hours pay, a break with capitalist politics and the formation of a labor party, as well as a strong stand against any Murray policy of expelling unions from the CIO or Stalinist adventures of seceding from the CIO.

MORE IMPORTANT

If the militants would go to work to organize a new third group independent of both the Stalinist and the Murray-Carey machines and rally support behind such a program, and if this idea was effectively voiced on the floor of the Cleveland convention, that would be more important than any small-time maneuvers over posts and the best possible starting point for rallying the UE membership behind a new force and a genuinely militant program. It is the only way for the UE membership to break out of the vicious circle of the present faction fight be-

these resolutions. But nothing has been done to put the proposal into effect.
