SP Leaders Urge Party to End Its **Electoral Activity**

A majority of the top leaders of the Socialist Party. including its six-time presidential candidate Norman Thomas, have proposed that the party abandon its tradi-

tional policy of independent electoral opposition to all capitalist locally, where these organizations parties and candidates. This undoubtedly is a preliminary to complete abdication of inde-

pendent electoral activity. At a meeting in Milwaukee, the majority of the SP National Executive Board voted to urge the SP national convention, to be held next spring, to adopt what the Nov. 18 Socialist Call terms "a new policy of limited electoral activity."

This policy is embodied in a majority resolution supported by Thomas, Tucker P. Smith, Maynard Krueger, Martin Diamond, Hy Fish, Harry Fleischman and William Becker. A minority of five, Darlington Hoopes, Alfred E. Tong, Robin Myers, Harvey Taylor and John Mecartney, voted for a resolution to continue the party's past policy.

PROPOSED POLICY

The core of the proposed new policy is contained in that section of the majority resolution which reads:

"Candidates [of the SP] should not be nominated where a campaign would contribute, or seem to our potential supporters to contribute, to the triumph of reactionary candidates and policies opposed by labor and liberal forces. This does not imply, howof either of the two major

parties." no longer run candidates in opposition to capitalist politicians who are labeled "progressive" and are backed by such groups as the CIO Political Action Committee, the AFL Labor's League for

Political Education and Americans for Democratic Action. There are few instances, nationally or

OPENS THE WAY

Even if the resolution does not "imply" that the SP "as such" will endorse capitalist party candidates, it would clearly open the way for SP members as individuals to support candidates of the Democratic and Republican parties. A section of the resolution

states that "this resolution constitutes an explicit abandonment of electoral action as the primary function of the Socialist Party." Since running candidates has been the principal SP activity, it is hard to see what its future independent activity as a party

will consist of. The resolution gives more than a hint of the future role of the

ARE STALINISTS BETTER?

Negro workers know for themselves that the record of Murray. Reuther, Carey, etc., is weak-kneed, vacillating and unsatisfactory on such crucial issues as up-grading of Negro workers, abolishing barriers to more skilled and better - paying jobs, Negro representation on top committees, wiping out all discriminatory practices inside the unions, and so on. But is the Stalinist record any better?

The answer is no, and the proof so far as the UE is concerned will be found in the excellent article by Irvin Marnin, "The UE Faces the Split," in the November issue of Fourth International. The facts show that despite their control of the UE since its formation, the Stalinist list of crimes and misdemeanors against Negro members is just as long and just as reactionary as those that can be attributed to the Murray bureaucracy.

Why isn't this fact better known? One reason can be found in the long article by Abner Berry in the Nov. 20 issue of The

The truth is, as Marnin points out, "There is not a single Negro on the [UE] General Exocutive Board, very few in the district leaderships, and a not much better proportion in the large locals." In other words, the Stalinists are guilty of perpetuating the very same practices they denounce the Murrayites for!

The campaign of the Socialist Workers Party to raise a \$12,000 Party Building Fund has now passed the half-way mark. A total of \$5,604 has been paid through Nov. 22 by the branches and friends of the party. This is 47% of the national quota. We slipped a little during the week and are now 15% behind schedule. Our hats are still off to Flint Branch. These comrades have completed 90% of their quota. And it looks as though they will continue to hold first place right hrough the campaign. Comrade Genora says, "We feel good that we've got the bulk of our pledge n. If we can do it we're comoletely confident that all the rest of our branches will hit their motas on time.

New Haven ousted New Britain out of second place by coming through with 80% of its quota. The challenge for third place on he scoreboard was picked up by the Morgantown comrades. This branch assured itself of third place by fulfilling 68% of its

quota. Comrade Dennis of Boston Branch wrote: "We have been beset by the usual amount of un-

employment that is prevalent these days, but our hopes of attaining our goal have not diminished in the least." In spite of the unemployment obstacle, Boston has paid 65% of its quota

and holds fourth place. A payment of \$45 just arrived from St. Paul to place St. Paul-Minneapolis fifth on the scoreboard. Comrade Jean reports that 'All of the comrades are right on schedule with their payments. So we're sure of pulling through." These are the branches that are on schedule in the campaign. Eight of the other branches are ot too far behind - New York, Buffalo, San Francisco-Oakland, Toledo, Pittsburgh, Newark, Allentown, Seattle. These branches are in the 50%-60% category.

"Consciousness, premeditation, and planning played a far smaller part in bourgeois revolutions than they are destined to play, and already do play in proletarian revolutions. . . The leadership remained in the hands of different sections of the bourgeoisie, and the latter had at its disposal wealth. education, and all the organizational advantages connected with them (the cities, the universities, the press, etc.) . . . The bourgeoisie would bide its time to seize a favorable moment when it could profit from the movement of the lower classes and throw its whole social weight into the scale, and so seize the state power. The proletarian revolution is distinguished by the fact that the proletariat - in the person of its vanguard - acts in it not only as the main offensive force but also as the guiding force."

LENIN -Leon Trotsky, Lessons of October, 1924.

Why They Hate John L. Lewis

John L. Lewis has been under more continuous, vituperative and concerted attack than any labor leader in American history. All the agencies of monied rule, every section of the capitalist press from ultra-reactionary to liberal, the whole apparatus and personnel of government have leaped like a wolf pack on this one man. In their abuse of Lewis, the Truman Democrats, the Dixiecrats and the Republicans find common ground.

Why is this? They cannot call him a "Communist" — indeed, Lewis himself long ago purged the UMW of every radical opposition and by the most ruthless means. In his economic thinking, he is ardently pro-capitalist. In politics, he shifts between the Democrats and Republicans. He runs the UMW with methods no different than any other old-line labor bureaucrat.

But Lewis differs from all the other top union leaders in one decisive respect - aggressiveness. He's a fighter. He utilizes the organized strength of the miners. He does not hesitate to use militant action to win results. Even those papers which split the most venom on Lewis admit, that the struggles he led won top wages for the miners. His fighting methods also won a 36^{1/2}-hour week and the best pension and welfare plans.

The effectiveness of Lewis' militant methods, demonstrated in the gains the UMW has won, stand out in sharp and favorable contrast to the timidity and compromise of the other union leaders. It is an inspiration to all the ranks of labor, an example for them to follow. And that is why the "Hate Lewis" mob is out to get him.

This "Hate Lewis" mob encompasses unfortunately, even top union leaders. If

Latin American "Democracy" at Work

they do not attack him openly, they lose no opportunity to strike at Lewis from ambush. It is no accident that they keep silence when the miners are engaged in a desperate struggle against the combined host of their enemies and Truman threatens them with the T-H Act.

These other union leaders think they would have a softer time of it, if it weren't for Lewis. He keeps raising the ante on them - higher wages, shorter hours, company-financed pensions, health and welfare plans. Every time they think they can sit back and relax, Lewis wins something new. His effective militant methods discredit them and their policy of reliance on the capitalist government.

We must tell the plain truth - these spineless union leaders want Lewis defeated. They think this will give more prestige to themselves and more weight to their own weak and bankrupt policies. They deceive themselves. If the miners lose in this present fight, it will be a sad day for all labor. It will embolden the corporations as nothing else has; they will take it as a signal for a more furious general assault on the whole labor movement.

Every union man and woman must understand this fact: the miners are but the most advanced bastion of labor's defense. Let this outpost be taken by labor's enemies, and the whole front of the labor movement will stand exposed. That is why all support and reinforcements must be rushed to the miners at once. Every union local, regardless of affiliation, must give its moral and material backing to the miners now. A mighty movement must rise up and speak with one voice to Washington: "Hands Off the Coal Miners!"

In the last few years, naked dictatorships have been imposed on a whole number of Latin American countries. Invariably and with indecent haste the State Department has recognized each of these new governments.

We have now two more instances of. "democracy" at work in the Western Hemisphere and of how the State Department stands guard over it. One is Panama; the other, Colombia.

The President of Panama demanded the resignation of three top officials of the Panamanian police force, the only armed force in this little country. Instead of resigning they deposed him. The State Department promptly recognized as "constitutional" this literal dictatorship by policemen.

What is going on in Colombia differs in form but is identical in substance. This country has been deemed as a prize example of democracy. It was chosen as the seat for the Pan-American Conference which was so rudely disrupted by the Bogota uprising of April 1948.

After that uprising, the Liberals rushed to save the regime by entering a coalition government. They are now getting repaid for their past services. Knowing themselves to be a tiny minority, the re-

Chicago's Sequel to Peekskill

The recent fascist-like Peekskill riots were not isolated incidents. Their pattern is discernible in a growing series of similar outrages in other parts of the country. The latest occurred in Chicago two weeks ago when a mob, inspired by property owners and inflamed with anti-Jewish and anti-Negro propaganda, attacked the home of a CIO organizer and assaulted scores of persons on the streets.

2

At Peekskill, the racist prejudice appeared in the guise of an attack on "communism." In Chicago, the mob violence was openly and directly inspired by anti-Semitism and racism. Property owners, seeking to enforce "racial covenants" in a white neighborhood, circulated the rumor that Negroes were moving into the home where a CIO organizer, who happened to be Jewish, had held a meeting which was attended by some Negroes. The mob terrorized the area for a week actionaries have unleashed a reign of terror on the eve of the presidential elections. The incumbent president took the occasion of the murder of a Liberal Deputy (by the Conservative Deputies) to dissolve the Congress with its Liberal majority. Constitutional guarantees have been suspended, the press placed under strict censorship and martial law proclaimed.

Declaring "free elections" to be impossible, Dario Echandia, the Liberal candidate, has withdrawn and the Liberals are calling on the people to boycott the elections. Meanwhile, of course, the Nov. 27 "elections" will take place and Laureano Gomez, the unopposed Conservative candidate, who fled to Franco Spain after the Bogota uprising, will be duly declared elected.

There has not been so much as a whisper from the State Department about the Colombian outrages. For that matter, the major newspapers have played down the point that Gomez and his henchmen are avowed Falangists, that is, followers of Dictator Franco.

Why should they? Aren't they busy clearing the decks for accepting Franco himself into the North Atlantic Pact and the "family of democratic nations?"

and laid nightly siege to the organizer's home.

And in Chicago, as at Peekskill, the police acted in complicity with the terrorists. This fact was so obvious that even the Chicago Daily News felt impelled to editorially attack "the continuing manifestations of police incompetence in handling riotous mobs." It charged that "the fact seems to be that in this case the sympathies of the police were very largely with the mob.'

One policeman told a Daily News reporter that several persons assaulted by the mob "were properly beaten because they were Communists." "How do you know they were Communists?" the reporter asked. "Because they were Jews," the policeman explained.

investigator."

By Ruth Johnson

"I will not discuss anyone in private with any government investigator." These are the words of columnist Bernard DeVoto, in a blunt article titled "Due Notice to the FBI." His defiance of the American Gestapo, printed in the October issue of Harper's Magazine, deserves the attention and applause of every fighter for civil liberties.

"I like a country where it's nobody's damned business what magazines anyone reads, what he thinks, whom he has cocktails with. I like a country where we do not have to stuff the chimney against listening ears and where what we say does not go into the FBI files along with a note from S-17 that I may have another wife in Cálifornia. I like a country where no collegetrained flatfleet collect memoranda about us and ask judicial protection for them, a country where when someone makes statements about us to officials he can be held to account. We had that kind of country only a little while back and I'm' for getting it back. It was a lot less scared than the one we've got now."

DeVoto draws far too pretty a picture of the prewar days. The secret police has been used to hound labor militants and supposed radicals for decades, as the Palmer Raids of 1920 proved. He excuses the 1939-1945 record of the G-men by calling their "enormous asininities and enormous injustices" an inevitable "part of the cost of the war.'

We who have consistently warned of Washington's secret police, take no part in condoning any chapter of its inquisitorial history. But the very fact that DeVoto is a former supporter of the FBI makes his opposition all the more significant and heartening.

He writes a scathing indictment of the govern-

Plight of the 'Braceros'

By Juan Suares

The film "Border Incident" purports to tell the story of a group of Mexican agricultural workers (braceros) who are smuggled across the border to work on ranches in California's Imperial Valley. They are paid substandard wages and cannot appeal to the law for "protection" beacuse of their illegal status. Their plight is pictured as an isolated case, owing entirely to the activity of some criminals, with the police presented as their benevolent guardians.

But whether unwittingly or deliberately — in order to explain away a real problem - Hollywood has here touched upon a few of the vicious conditions imposed upon the great mass of Mexican agricultural workers in this area, illegal entrants, legal entrants and American citizens alike.

The raising of fruit and vegetables on a mass production basis in the irrigated valleys of California requires large numbers of workers for short periods of time. The history of this industry has been one attempt after another to find a labor force which would appear on the scene when needed, toil for bare subsistence wages, then disappear after the season's work was done. This sounds like a "fair deal" for the capitalist ranchers if they could get it. It also happens to be a little too much to expect.

It might perhaps be possible to keep the workers docile so long as they were kept working, even at low wages, but trouble is bound to arise when hundreds of thousands suddenly find themselves without jobs and without savings. To keep the workers unorganized under such conditions requires the full utilization of the most repressive devices: fascist terror in the form of vigilante groups, utter ruthlessness by the authorities, and

most virulent weapon of all, racial prejudice. In the past, large number of Chinese, Japanese, compelled them to abandon this Filipinos, and other ethnic groups were imported. scheme at that time. They happen to be the most convenient from the management's standpoint. In a period of that have thrown 30,000 workers rising unemployment the Mexican and American governments signed an agreement by which 40,000 Mexican nationals would be moved into in the last week and it is re-spring: the San Joaquin Valley.

Mexican nationals can be admitted on temporary permits or by deliberate laxity of the border patrols during the working season. They can be super-exploited, deprived of citizen rights, and then kicked out of the country when so longer needed. American workers of Mexican ancestry are treated at best as second class citizens and enjoy only slightly better conditions. The Di Giorgio strike which gained national

prominence shows how the corporation farmers actually handle the problem. This strike involved Americans of Mexican origin many of whom were active militants. The owners of the Di Giorgio ranch with the help of the U.S. State Department brought in "legal" Mexican nationals to break the strike.

The Mexican worker is not the comic opera character Hollywood writers love so much. There are healthy indications that he is begining to realize that a united struggle by all the workers is the only road to solution of his problems.

FALSE THEORY

The defeat of Edwards showed the falseness of the theory that the union movement must bury itself inside one of the capitalist parties in order to win political victories. Edwards, running as a Democrat, lost by over 20% of the total vote cast. Richard T. Frankensteen, a UAW vice-president, who ran as an independent labor candidate in 1945, lost by only 11% of the total.

It may be argued that Edwards izing the most progressive and would have been elected if the oldmilitant workers when he not line Democrats had united behind only warmly endorsed the anti- him instead of bolting.
