Face "Loyalty" New President Keeps Silent On Way to End Korean War

Einstein, Urey Score Kremlin **Purge Trials**

267

Prof. Albert Einstein and Dr. Harold C. Urey, world-renowned atomic physicists and outstanding defenders of civil liberties in the United States, have condemned the purge trials staged by Stalin's regime. Both scientists have courageously spoken out also for clemency on behalf of the Rosenbergs who face execution here as a result of conviction on espionage charges amid a rabid witch-hunt.

In response to a query from The New Leader magazine on the anti-Semitic purges in the Soviet Union and Eastern Europe, Einstein struck at the whole system of Stalinist purge trials, going back to the monstrous trials of the Thirties. He wired the magazine that "it goes without saying that the perversion of justice which manifests itself in all the official trials staged by the Russian Government, not only that in Prague, but also the earlier ones since the second half

Leader of Second American Revolution

Abraham Lincoln, who led the Union to victory over the Southern slave-holders, in the 19th Century American Revolution which established the prerequisites for the unhampered expansion and development of America across the continent as an economic and political unit. Other great figures of the struggle against slavery included Frederick Douglas, an escaped slave, and Gen. Ulysses S. Grant, who headed the Union

the huge new armaments program of the cold war again pushed it back. But the crisis is still there, still latent, silently growing like a malignant cancer in the body of American economy.

Can expenditures for armaments, and even for war, provide a permanent cure for the sick economy whose expanded productive forces collide against a shrinking market in a shrinking capitalist world? Can America provide the conditions of permanent prosperity which will moderate the class struggle at home and prevent the development of a determined class consciousness on the part of the working class, and thereby secure for itself a long and stable existence? Or do all the signs prove the opposite?

These are questions which even the most foolhardy bourgeois economists, after the catastrophe of their prophecies in the previous boom period, hesitate to answer. The best they will say is, "It looks all right for the time being, but we don't know all the facts and we can't tell what's going to

We Marxists, on the other hand, say we know the facts. At least we know enough of them, and the general direction of their development, to tell what is going to be. And on this solid basis of facts in their process of development, we confidently assert that American capitalism has already passed the peak of its development and has no place to go from now on, lowns within the crisis. was never but down.

Lawyers Need Defense

Protect the Escalator Clause

Since 1791 it has been constitutional law in this country that an accused person is entitled to have the assistance of counsel for his defense.

Grave infringements of this constitutional right by present-day witch hunters reached a dangerous extreme in 1949 when Judge Harold R. Medina jailed for alleged "contempt" the lawyers defending eleven Communist Party leaders victimized under the thought-control Smith Act.

Judge Medina's example has been imitated by other judges in later trials.

As a result lawyers have become fearful that defense of persons holding ideas not approved by the witch hunters would lead to their own victimization through loss of clients, imprisonment for "contempt" and disbarment from the legal profession.

Victims of the witch hunters have consequently found it increasingly difficult to secure adequate legal counsel.

industry - where the escalator clause was

established in 1948 — are now receiving 25

escalator clauses remained in effect, indeed

they even spread. But Big Business knows

there is more than one way to skin a cat and

it is now having the government's Bureau of

Labor Statistics (BLS) finagle the cost-of-

living index to which union escalator clauses

The BLS has announced as an accomplished

fact the institution of a new index. The two old

indexes moreover, are to be discontinued. Thus

unions operating on the old indexes cannot

continue to do so in preference to accepting

the new one. Nor will it be possible to show

how much worse the new index is by comparing

it with the old. At the same time the BLS is

trying to pass off this switching of the rules

in the middle of the game as mere arithmetic.

Even more ominous is the fact that the BLS .

are tied.

Big Business did not succeed in this and the

This situation has become so outrageous

that counter-measures have been undertaken by some sections of the legal profession. A current instance is the formal declaration of the New York City- Bar Association that it will strive to educate the legal profession and the public "on the rights and duties of a lawyer in representing any client, regardless of the unpopularity of either the client or his cause."

The association affirmed the right of a lawyer to represent any client "without having "the emergence of a great mass imputed to him his client's reputation, views or character."

The New York City Bar Association is to be commended for this stand in support of a fundamental right guaranteed by the Constitution. Members of the legal profession everywhere in the country would do well to follow a similar course.

All organizations and individuals who believe in protecting fundamental civil liberties should give full backing to the lawyers in their fight to preserve their constitutional rights.

Stalinists to Emphasize "Coalition" Politics

The sliding scale of wages or escalator clause, has radically changed the "market basket," that is the list of goods whose prices are which was designed to keep wages automatwatched to determine the rise in the cost of ically abreast of the rise in the cost of living, living for the average family, and announce thus permitting unions to conserve their that it will frequently revise its statistical strength for battles to raise the base wage, has market basket in the future. Thus the governalready proved its worth. Two facts attest ment statisticians, or the men who give them this: (1.) Over a million workers in the auto

their orders, not only expect to get away with this current piece of statistical robbery but plan to do it frequently in the future. Last week we cited the official warning of the American Federation of Labor to its af-

filiates about the new BLS index. Now the ment makes many valid criticisms of the new index and strongly urges "the parallel publication of another index which takes into

account the taxes paid by people." Correct as the criticisms and suggestions o the AFL and CIO leaders are they have as yet been silent on the central point at issue, The BLS is a government agency and as long as Big Business controls the government it will controls the BLS. Until there is a Labort government in the U.S. the BLS will minimize the true rise in living costs. Therefore unions can safeguard the wages of their members only by setting up their own statistical agency to determine the real fluctuations in prices. Escalator clauses should be tied to this union index. That's the only index workers can trust as dependable.

What About Tax Relief?

Page Three

What's to be done about getting tax relief? We mean tax relief for the lower income brackets, of course, not the big corporations and millionaire stockholders who can count on being taken care of in view of their monopoly of Congress and the White House. A possible course is suggested by some steps taken by the Ohio CIO. At their convention a year ago, they authorized an impartial, objective survey of the state's tax structure. Completion of the survey was announced at the recent Ohio CIO convention and it is to be printed and distributed to "all interested in . fair taxation."

A resolution, passed by the convention in the light of the facts uncovered by the survey, charges that the "state's tax burden has been unfairly distributed with an unequal share piled on the shoulders of wage earners."

The Ohio legislature, says the resolution, "consistently ignored the time-honored principle of 'ability to pay' and had granted tax relief to those best able to pay the cost of government; heaped new taxes on the shoulders of those least able to cope with this burden and encouraged near-bankrupt political subdivisions to treat miserably those unfortunate citizens dependent upon public welfare."

The study cites how little property taxes have risen since 1930 while sales taxes "skyrocketed." According to the survey, 78% of all Ohio tax revenues come from sales and excise taxes.

To correct the evils, the CIO convention demands a graduated state income tax on corporation and personal earnings with exemptions for small wage earners and deduc-

movement against the Nazis.

EUGENE VARGA, well-known Soviet economist has recanted his view that war between capitalist countries is less likely than an attack on the Soviet bloc by capitalist countries headed by the U.S. "I acknowledge that on this question I was mistaken," he is reported to have declared last November. "Comrade Stalin pre-sented an exhaustive basis for

capitalist countries in the con-

temporary stage."

By Jean Blake

Congressman Adam Clayton Powell, speaking Jan. 17 before the Cleveland City Club Forum, cited the generally acknowledged fact that America is the most hated nation in the world and argued that leading Negroes should be named to official posts abroad in order to sell the people in other countries the idea that the United States is their rightful leader in the struggle for democracy. "We have been unable to sell democracy abroad because we don't practice it at home," he said. "We have a bipartisan foreign policy backed up by a bi-partisan Jim-Crow policy.'

He proposed that the State Department appoint Dr. Ralph Bunche as ambassador to the Soviet Union and other prominent Negroes to other posts to represent the U.S. abroad. This is what most leading. Negro spokesmen have urged.

But would this really still the criticism of this country as an undemocratic, whitesupremacist, imperialist nation? And if it did. would that advance the struggle against Jim Crow here at home?

Negro ambassadors could not change State Dept. policies supporting the colonial powers in Asia and Africa. Capitalist America is the chief bulwark of the oppressors of darker peoples all over the world and right now is waging direct warfare against half the people of Asia. As long as Washington helps suppress co'onial independence struggles, no American ambassador, no matter how dark his skin, can sell American democracy to Asians and Africans Last May Day in Japan, A. Philip Randolph, as well as Norman Thomas, was prevented from speaking at a Japanese workers' rally because they came as apologists for U.S. imperialism

How would State Dept. appointments of Negroes affect the fight against Jim Crow here? The "smart" strategists tell us "off the record" that what they really seek is to use the foreign policy aims as a weapon in the battle against our own Jim Crow. The inconsistency of Negroes in high posts abroad, but not at home, they claim, would embarrass the government into making concessions here; besides the added prestige thus gained by leading Negroes would "rub off" on all Negroes.

Actually, the probable results would be considerably different. Those few Negroes appointed to posts abroad would feel responsible for whitewashing segregation and discrimination in America in order to make U.S. "democracy" more salable in other lands. While they would not fool colored peoples abroad, they would weaken the bargaining position of the American colored people.

And don't forget, even Dr. Ralph Bunche head of the department of trusteeship for the United Nations, still can't eat in many restaurants or sleep in many hotels throughout our great democracy. You won't sell that kind o' "democracy" to colored people either abroa or at home.

Double-talk on Child Care By Joyce Cowley

"The exigencies of the times have made the employment of women, especially those with homemaking responsibilities, a question where the basic issue involves measures to facilitate the adjustment of the home and the community to the social and economic change in women's place in the American economy."

I'm quoting from a recent pamph'et published by the Women's Bureau, "Employment of Women in an Emergency Period." If you think about it for a minute - as I did some meaning may glimmer through the dense growth of words. It means, I concluded, that they are concerned with the problems of working women — especially the millions of women who work and keep house, too. Certainly these problems should be of great concern to the Women's Bureau and I thought optimistically that I might find a program for child care centers, summer camps, shopping and laundry services.

The next paragraph set me straight on that point. "The lack of adequate provision for the care of children and other dependents creates conditions which have a direct bearing on turnover, absenteeism and loss of productivity."

It's not us but our employers they're worried about! I can think of quite a few "condition" that have a direct bearing" on whether or not a woman gets to work and how useful she is to the boss —

two kids home from school with measles. You're afraid of losing your job but there's no one else available to take care of them, so you stay home. This has a direct bearing on "absenteeism."

You have a girl eight years old. Most of the year she's in school but during the summer months you can't afford a camp and you worry about her playing all day on the hot city streets. She has a key for the apartment and there's lunch in the icebox but there may be an accident. She may get into some kind of

Or you're worried sick because you've got fight for it.

Notes from the News

LABOR ACTION, newspaper of the Independent Socialist League (Shachtmanites), finally came out editorially in its Jan. 19 issue for clemency for the Rosenbergs: "The death sentence in the Rosenberg case is part and parcel of the atmosphere of hysteria which has been generated in this country. . . . Ethel and Julius Rosenberg must not be executed. Every effort must be made to prevail on the president to commute their sentence. If their lives are spared as a result of the pressure of Americans who love justice and freedom and are determined to fight for them, a blow will have been struck against the forces of capitalist reaction at home and of Stalinist reaction throughout the world."

* * *

I. F. STONE'S WEEKLY, advocating clemency, says: "The Rosenberg trial, bad as it was, was considerably more fair than the kind of drumhead procedure in which people like Slansky were convicted of weird charges and whisked off without appeal to execution. . . There is a lynch fever and blood lust in the Rosenberg case, a primitive urge to kill linked with superstitious awe for the atom bomb, which has become a kind of American tribal god and totem. The execution of the Rosenbergs would be a victory for all that is dark and dubious in our unconscious as a nation and a people." This statement appeared in the first issue, Jan. 17. A subscription to +1. weekly newsletter is \$5; address is: I. F. Stone's Weekly, Room 225 Kellog Bldg., Washington 4, D. C. * * *

FLORIDA AUTHORITIES closed the Negro schools in Deerfield, Pompano and Oakland to send the children into the fields to pick beans while white schools remained open. Strong protests by the local NAACP forced re-opening of the Negro schools.

* * *

A THIRD of a million school rooms are urgently needed right now by the American school system according to a report released by the U.S. Commissioner of Education. The new schoolrooms are needed to relieve overcrowding and to replace schools that are out of date or are fire hazards. Cost of the 225,000 new classrooms would be about \$10,700,000, but under their own laws, communities — even if they were willing to appropriate the maximum - could not raise more than \$5,800,000.

A 9-YEAR-OLD NEGRO BOY was shot and killed by Pontiac, Mich., police who say they thought he might have been attempting a burglarly. The NAACP and the UAW-CIO are demanding a full investigation of the case which has been whitewashed in the coroner's verdict.

FLORIDA NAACP has demanded of Governor Fuller Warren that he "stop the wanton shooting, tagonized some of the Senators who sought to question him. The general brutal treatment and killing of Negroes by 'law enforcement' officers." Referring to the Jan. 20 Wall Street Journal says Christmas-day shooting of 30-year-old Emmett that if Wilson, who was "frank Jefferson by a police officer, the statement to the point of arrogance" at the declared: "We cannot forget the terror of the earlier hearing, "would adopt a Groveland case with the killing of Samuel slightly more conciliatory tone Shepherd by Sheriff McCall. The shooting in toward the Senators questioning Homestead on Dec. 25, 1952, vividly reminds us of the bombing in Mims on Dec. 25, 1951. In both qualify himself if he ever had to deal with a contract involving cases the killers of human beings with the right to the full and equal protection of the law, have General Motors.", then "his ap-gone free."

through."

ARMY DESERTIONS, which have increased stock or disposed of it to some five times in the last 18 months are beginning dummy holder, it would make "to cause serious concern to this country's new little difference so far as his attitude toward aiding the war civilian officials," according to U.S. News and World Report, which adds: "That trend is being taken as a measure of popular feeling about this country's present policies in Korea.'
