# **Legless Vet's Appeal to Get New Hearing**

THE

NEWARK, May 27 - James Kutcher, legless veteran, today reported that the Loyalty Review Board of the Civil Service Commission has agreed to hear his appeal for reinstatement to the Veterans Administration clerical job from which he was purged in 1948. The hearing will be held in Washington on June 4.

Kutcher was fired under Truman's "loyalty" order because of his admitted membership in the Socialist Workers Party and because the SWP was arbitrarily placed on the Attorney General's 'subversive" list without a hearing or an opportunity to defend itself against the false designaion.

Last October the U.S. Court of Appeals in Washington ruled that mere membership in the SWP was insufficient cause for his discharge. But instead of reinstating him, the court returned him to a suspended status, pending a new decision by Carl Gray, VA Administrator. When Gray dischargalty Review Board. His latest appeal is the tenth he has made in

agencies and the courts.

# **High Court Brushes Off** Third Plea

**PRICE: 10 CENTS** 

By Murry Weiss

"Turn stool pigeon or die!" This is the meaning of the Supreme Court decision of May 25 refusing a new hearing to the Rosenbergs. The Court de-cision was timed to coincide with reports of Department of Justice offers of clemency to the Rosenbergs, if they turn stool pigeon for the FBI.

The brutally obvious intent of this double-barreled move is to attempt to create the impression that the Rosenberg's can save their own lives.

All they have to do is become he pliant tools of the witch hunters, finger all their friends and associates and anyone the FBI marks for victimization and they might save themselves from the electric chair. Then the new victims would be put to the same torture rack with the same choice. In making its infernous decision, the Supreme court ignored for the third time the most mposing and overwhelming coniderations for a new hearing. In in atmosphere free from lynch ncitement a new hearing would e granted as a matter of course. First, there is new evidence which demands careful judicial

examination. Second, there is additional evidence which in an honest court of appeal puts the

leaders that they will continue the policy of making such agree-ments. The five-year contracts have previously raised much to know where they live and whom have previously raised much to know where they live and whom ranks.

## "GRASS IN THE STREETS A Program to Fight McCarthyism **OF NEW YORK"** By Duncan Conway

Page Two

A rather startling headline in one of the New York newspapers caught my attention a couple of weeks ago. "Grass in the Streets of New York in 25 Years" was how it read. My first thought was a natural one in these days when the U.S. government and army are trying out their anguish from even pro-Eisennew and more devastating atomic bombs every week or so hower papers like the N. Y. to see more and more people to fight McCarthy. out in Nevada. I thought that here was another of those Times and N. Y. Herald-Tribune. calling attention to the danger of fearful prophecies of what New York would look like after a few bombs had been dropped.

But it turned out not to be that kind of story at all. "Grass in the Streets of New York" was simply the prediction of a gentle-looking old man of 84 years, an architect by the name of Frank Lloyd Wright, who doesn't like the character of New York as a city, who wants to see the forces of conformity because: tives like Kennan and even among to stamp out any American op- the American people to the proit "decentralized," with "grass growing where least expected and flowers blooming in the concrete."

Well, Mr. Wright has a point there. Most people who bounds of righteous approval. This live and work in New York, with all its grimness and definition is never effected by law bleakness, its dirt and noise and crowdedness and mad or by constituted authority; it is convention in Washington last rush, would agree with Mr. Wright in wanting a little more clean air and quiet and "greenery."

live in the filthy slums of Harlem and the lower East Side that if uncountered, these people answer was also unmistakable. and other slum areas, in fire-trap tenements over-run! with rats and vermin, and on streets filled with garbage and refuse. Yes, they too would like to see grass instead cluded only themselves, the excit- man, at a pre-convention press of refuse-strewn concrete. They too would prefer to smell ed accusers, and excluded everyflowers instead of stinking garbage. They would entirely agree with Mr. Wright on that.

But the reason Frank Lloyd Wright's predictions rated a page-one headline is not that they were particularly realistic or far-seeing, or that he offered any plan as to how they could be accomplished. It was simply because he is now a world-famous architect. And it is ironical munism, they would thereby them- used by the late President that Wright, who for years in the earlier part of his career selves be suspect. What sort of Franklin D. Roosevelt in reducing was given virtually no recognition whatever in this country, now finds, at the end of his life, that even his off-thecuff pronouncements have become newsworthy.

I don't mean by that to detract for a moment from of thing leads..." the genuine achievements of Frank Lloyd Wright or his DOUGLAS STATEMENT tremendously important contributions to the field of modern architecture. In his long and honorable career, Wright Court Justice William O. Douglas, an investigation to be made of has been a truly revolutionary architect. He rejected all the one of the few remaining out- Senator Long's income tax sterile, academic concepts which saw architecture as nothing more than a slightly modified imitation of styles out of the past. And he tried to make architecture once more ministrative government and in an honest and creative art, using the new materials and the courts to new techniques of the twentieth century to create an procedures that impinge heavily imaginative new style.

So, because I happen to be acquainted with some of destroy their reputations. Frank Lloyd Wright's architectural contributions and have a great respect for them, I read through the interview to see what else he might have to say. It occurred to me the fury of public passion" and may become irritated from time that Wright's home is in Wisconsin, which happens to be the press. which "has pumped to time when McCarthy steps on Senator McCarthy's state, and I wondered if just possibly into the fury room hearsay, con-the administration's toes, and the fessions' theories and influence possibility of a future conflict he might have a few words to say on a subject which right now touches us all a little more closely than flowers on the sidewalks of New York in 25 years.

I wasn't unrewarded. Toward the end of his rambling comments, Wright finally got around to it. "My home state," he said, "has sunk below par, educationally, politi-cally and, I fear, morally." Senator McCarthy, he said, is "the chief mobocrat of the state. . . . the only consolation is that McCarthy ran 40,000 votes behind the Republican national ticket in the last national election." Wright went on to bemoan the Republican support of McCarthy's candidacy and said: "That was a case where politics made not only strange bedfellows, but was an arrant case of prostitution."

### Favor Huge War Spending

Gen. Omar N. Bradley (L), retiring chairman of Joint Chiefs of Staff, with Defense Secretary Charles E. Wilson, former General Motors president. Bradley spoke against any cuts in war spending and claimed American people must shell out at least \$36 billion a year for war purposes "far into the future."

# The American Way of Life

### 'No Nostalgia Here'

Not all is silence on the campuses in the face of the vitch-hunt. Not by a long shot!

The Congressional Committees, the professional stooligeons, the Big Business-controlled University administrations, are getting their way for the time being to be sure. But they are not getting their way without loud Carthyite spirit by George F. practical program of action to trol of one or both houses of around the three point program boos and articulate protests from some students, and I find this very heartening. For the protests today pave the way for the struggles of tomorrow.

One such student protesting against thought-control on the campuses is Erwin Knoll, editor of the Evening profiteering aims of the "anti- News, student publication of New York University's evening school.

> The May 11 issue of the Evening News is devoted to an expose of the witchhunters and a defense of its NYU victims. The issue also contains Knoll's farewell letter as editor, which he entitles "No Nostalgia Here,"

Knoll will not "fill columns of good white space with nostalgic reminiscences and paeans of praise for the Dear Old School." He sees nothing to praise; for this, he says "is an NYU which fires professors for their political views, regardless of their teaching ability. This is an NYU which of "communism." The result of Nothing else will prevent the tears down liberal arts buildings to put up armories. This is an NYU which suspends student editors because they don't approve of tearing down liberal arts buildings to put up armories. In short this is an NYU in which a sickening atmosphere of fear has replaced the spirit of free inquiry which is so essential to education."

"I'm damn glad to get out of NYU," he adds. "And I'm tempted to add, 'while the getting is good.'

Knoll's is not the only voice lifted in protest. There is Sandra Memser, who writes a column "Reigning Violets" in the Square Bulletin — another NYU student publication. She, too, is taking her parting shot, and undertakes to expose the new reign of fear on the campus and to protest against it.

"Many of you reading this column are on file in the FBI." she begins. "What you say, what you do, what you write is recorded either by teachers, fellow classmates with their own scrapbooks, or by secret service men enrolled as students. . . The great mass of students are being intellectually strangled by a rope of fear.'

She relates that there is confusion among the college opulation caused by "the problem of academic freedom and its relationship with world struggles." But there is no question in her mind. She stands up for freedom of speech.

These students who today defy the McCarrans, the FBI and the school administrations are behaving in the finest tradition of the American campuses where throughout the Thirties the students organized mass demonstrations in defense of academic freedom and against the encroachments of militarism.

By the same token they pass on these traditions to new layers of students who will break through the confusion described by Sandra Memser and, with the help of the labor movement, untie "the rope of fear."

— Dan Roberts

The tendency of artists and writers, intellectuals and liberals, is to remain silent in face of McCarthyism. Or if River Coal and Lumber Company, to announce their shameful surrender, to ignominiously confess their "sins" and turn stool-pigeon on others.

It is probably true that one of the reasons why Frank Lloyd Wright speaks out against McCarthyism is that he and Handy for a livelihood. knows instinctively what would happen if McCarthy ever happened to see one of his buildings, with its revolutionary architectural style. McCarthy would promptly label it pany - dominated schools, live in "subversive," "degenerate architecture" — just as Hitler company-houses, breathe company labeled "degenerate," and banned, the work of every pro- air. The company thinks Widen gressive and forward-looking artist in Germany. So Wright naturally has a personal stake in the matter.

But it is to his credit that he understands he does which is owned outright by Bradley enterprises. have a personal stake. That is more than can be said of the sniveling array - the "intellectuals" and writers and MINERS REVOLT Hollywood "names" - who have paraded before the Congressional committees and obediently made their "confessions."

Frank Lloyd Wright is to be commended for speaking out, even if he does it in his confused and not very clear-cut way. It is good to know that there is a little courage left in the world of the artists and intellectuals.

### **A Timely Political Lesson**

Labor's Daily, which deserves commendation for uncovering the true facts about the heroic Widen miners (see story, Page 1), uses the Widen struggle to illustrate some important and timely political lessons.

In its "Labor Today" column, the labor newspaper observes how the political machinery in Clay County, where Widen is located, and in the state of West Virginia is really controlled by the coal companies and other capitalist interests. The 48 Widen miners who have been falsely charged with murder are now "faced with a prosecuting attorney who is friendly toward the Elk River Coal and Lumber Company. He must therefore be an enemy of the strikers."

The column observes further that Charles W. Ray, the head of the company's guards, is the former head of the state police. This is "one minor end-result of the political weakness of Labor in West Virginia" where a man like the former state police head "is performing a function for J. G. Bradley (company president) not greatly different from his customary strike-time function while employed by the Department of Public Safety."

These political factors in the Widen battle demonstrate that "in order to win economic benefits Labor must organize politically. That is fundamental," says Labor's Daily. "The workingman must see that his men are nominated for public office — and that goes for every important office in the United States."

Of course, that's very good advice. But

Labor's Daily goes one decisive step further. It gives a clear intimation of what kind of labor political action is necessary for the future:

"In previous columns we have stated our belief that in the future Labor must realize the close relationship of the political and economic struggle. And not only realize it, but do something about it, even to the extent of Labor forming its own Labor Party."

Here, something new and vital is added to the old idea that labor must get into politics. It must get into its own kind of politics, class politics, based on the unions and with its own party and program. If a union man were sheriff down in Clay County and a Labor Party man were county prosecutor, there would never have been a frame-up murder charge against 48 strikers. There would never have been a strikebreaking attack by "special deputies" on the pickets in the first place.

What applies to Clay County also applies, as Labor's Daily correctly says, to the whole country. If the tremendous army of 17,000,000 union men and women were mobilized politically in their own party, with their allies among the Negro people and poor farmers, they could sweep a Workers and Farmers government to power in Washington. They would not have to be fighting a holding action against a Taft-Hartley law and begging capitalist politicians not to club them so hard. They'd be in position to determine the laws themselves and could put into action any program the people want.

Repeal of Maryland's Ober country to deny political rights police brutality, and to see that police-state law and the prevention of police brutalities are the sives." Ralph E. Now a Federal Sales Tax

Eisenhower, who hypocritically promised tax relief in the 1952 presidential campaign, is preparing to soak the poor harder than they've yet been soaked. He has publicly attacked "the wide variety" of existing excise taxes. That means he wants something more "uniform." Excise taxes now bring in roughly one dollar out of every five in federal receipts. Eisenhower with his high-deficit budget obviously expects more from this source. Secretary of the Treasury Humphrey said as much when he admitted that a federal sales tax is now "being considered." The big push for it is on.

For years the National Association of Manufacturers has been pressing for such a tax, which hits hardest those least able to pay. They want it to yield as much as \$20 billion a year. They are sure they will get this "bold, constructive new solution" from Eisenhower. And they will, unless American labor leads the struggle against it. Workers do not fully understand how much they already pay out in taxes. By 1952 not less than 38 cents out of every wage dollar went for direct and indirect taxes, federal, state and local. To illustrate this pyramiding tax structure, there are 201 direct and hidden taxes on a gallon of gasoline; 189 taxes on a suit of clothes; 154 on a bar of soap; 53 on a loaf of bread, and so on.

Corporations do not really pay excise taxes but shift them to consumers. Don't take our word for it. An authoritative mouthpiece of the financiers, long ago declared editorially that corporate "tax will be passed on to the public, perhaps not in all cases immediately but certainly sooner or later" (Wall Street Journal, Jan. 17, 1951). They do it "sooner" rather than "later."

Now on top of these intolerable taxes, Big Business proposes and Eisenhower REHABILITATION OF PURGE VICTIM aims to impose the heaviest indirect tax of aims to impose the heaviest indirect tax of all — a national sales tax. This will go a SEEN SLAP long way toward Europeanizing the price hope of prices coming down because taxes 13 years later. constitute so large and permanent a part

Ohio tax revenues come from this source.

face such ideal conditions.

In many states the bulk of tax revenues comes from sales and excise taxes. For example, more than three-quarters of all

It is refreshing to read in an official union paper some good honest words about the contributions of the pioneer Socialists in founding the American labor movement.

The May 14 issue of The Brewery Worker pays high tribute to these early Marxists in an article telling about the historical background of the forthcoming annual Summer Institute of the International Brewery Workers Union at the School of Workers, University of Wisconsin.

First crediting the labor movement for the "persistency with which the means for education of the working class was sought," The Brewery Worker declares that the "early socialist trend in the philosophy of the Wisconsin Federation of Labor explains, at least in part, the emphasis upon workers' education."

This "Socialist trend" had its roots in the European working class. The Wisconsin labor movement, particularly in Milwaukee, was shaped by German immigrants who came in two waves. "The first wave," says The Brewery Worker, "... was the result of the debacle of the mid-ninteenth century revolutionary movements of Central Europe. A second wave was the one beginning in the seventies, the result partly of the impetus given by the first wave and partly of the Bismarkian policy of persecution of the Social Democrats which drove many Germans into political exile."

We might add that we are to-day wit-

### The Negro Struggle -**Recommended Reading**

### By Fred Hart

Civil Rights in the United States in 1952, the fifth annual report published jointly by the American Jewish Congress and the National Association for the Advancement of Colored People, 151 pages, 40 cents, is a useful publication, containing much factual ammunition for the fight for equality.

This report does not explain the cause of discrimination against minority groups, nor does it offer a program of action to end it. But it does not pretend to do so, and it serves a valid function just the same. We recommend it to everyone who is active in the fight against Jim Crow and anti-Semitism.

Although it leaves much unsaid, it draws attention to some important facts in the foreword signed by NAACP executive secretary Walter White and AJC executive director David W. Petegorsky. They are more inclined than we are to exaggerate the scope of recent gains, but at the same time they wisely avoid presenting a Pollyanna picture.

As a result of such gains, they say, "few persons in public life today will openly advocate or defend discrimination." But they immediately add: "To some degree that has led the opposition to equality to adopt more subtle and devious methods, far more difficult to combat than avowed hostility."

Noting that Negro voting has increased considerably in the South and Jim-Crow segregation has been reduced in the armed forces, White and Petegorsky continue: "There have been important areas of our national life, however, that have remained untouched and that are still disfigured by the blight of segregation and inequality. The basic patterns of living, in the country at large, have not been greatly altered. In particular, the deeply entrenched ghetto

patterns in housing have hardly been touched. Many discriminatory practices in But measured against the total amount of discrimination existing even in the least prejudiced communities, the gains have not been substantial.

"Progress was seriously thwarted, and in many cases prevented, by die-hard rac-ists, hypocritical politicians and others who have used archaic legislative rules, discredited judicial precedents and similar weapons with great skill and effectiveness **Pockets Empty** . . . In far too many instances, there was

recourse to violence, often with impunity, in order to intimidate those who dared jailed in Memphis on May 25 for claim their democratic prerogatives."

hower has referred to them, will Department makes this current

By Joyce Cowley During the first six months of 1952 more serious crimes were committed by boys and girls 18 years old than by per-

sons of any other age bracket! I found this startling information in a new pamphlet issued by the Children Bureau, Some Facts on Juvenile Delinquency. 1,000,000 boys and girls under eighteen years of age are arrested every year. According to Judge Charles E. Moyal of Baltimore: "In the past 25 years, the population of state and federal prisons has increased seven times as fast as the national population. Convicted adolescents make up a substantial share of our prison population. Crime is a habit generally acquired in early youth and strengthened by prison."

When it comes to analyzing the cause of this extraordinary increase in juvenile

cotics is due to the fact that drugs are available, which obviously fails to explain why. Dr. Wertham's theory also ignores the fact that the rise of juvenile delinquency and crime is a world-wide phenomenon. The evil influence of American television and comic books certainly can't extend to the children of Europe and Asia. movement that the witch hunters The sadistic violence of television shows want to crush in order to leave a and comic books reflects the violence of clear field for loading the burden everyday life. crime, the explanation of the experts sounds strangely inadequate. Dr. Frederic Wertham, psychiatrist and leading consultant on crimes of violence, was called in on a recent murder case. A 16-year-old boy had killed two school girls. "Children weren't commiting crimes like this 15 years ago," declared Wertham. "I know. I've studied thousands of cases. Children are being educated to being sadistically inclined and the education is coming from television and comic books."

I don't have a particularly high opinion of television or comic books — either as entertainment or education - but it does seems extreme to condemn them as the cause of juvenile crime. You might as well say that the increase in the use of narelectrocutioner.

Notes from the News

SALUTES MASTERS. At a luncheon of the United Negro College Fund given in honor of the Rockefeller family for its charitable interest in Negro education, Gen. Eisenhower declared: "I join with you in bringing my own deep sense of obligation to the Rockefeller family - a family that has seen this type of need and has done something within the terms of private enterprise, private initiative and co-operative spontaneous co-operation and did not wait on some kind of law to get done a thing they saw needed to be done." The Rockefeller family has been one of the most influential in the inner ruling circle of the capitalist class in naming Presidential candidates.

A DEPRESSION is being courted by the Eisenhower administration, says Alex Rose, President of the AFL Hatters Union. Addressing the AFL Ladies Garment Workers Convention May 21, Rose charged: "We are faced with the threat of government-planned deflation - playing with human welfare to create a depression in the face of the greatest productivity the world has ever known - to create a cheap labor market and beat back the unions.'

\* \* \*

THE WORLD'S RICHEST UNION is the AFL International Ladies Garment Workers. Officials of the union reported May 24 that its assets in general and welfare funds now stand at \$166 .-100,140, an increase of some \$56,000,000 since the last convention three years ago. This powerful organization by-passed proposals of delegates at its convention to organize a Labor Party and even rejected a proposal to establish a daily labor newspaper. Julius Hochman, Chairman of the Resolutions Committee, told delegates a daily paper is "full of perils and pitfalls." Since 1944 mbers have made voluntary contributions of \$1,053,024 to political campaigns. This includes contributions for Adlai Stevenson, the Liberal Party, Americans for Democratic Action and

Labor's League for Political Education. Among the recipients of the union's slush fund was the Social-Democratic weekly New Leader which was given \$40,000. David Dubinsky, union president, reported that the organization lost about \$10,000,000 because of the decrease in value of government bonds in which its funds are invested.
